

In the opinion of Kutak Rock LLP, Bond Counsel to the City, under existing laws, regulations, rulings and judicial decisions and assuming the accuracy of certain representations and continuing compliance with certain covenants, interest on the Series 2025 Bonds is excluded from gross income for federal income tax purposes, except for interest on any Series 2025A Bond for any period during which such Series 2025A Bond is held by a “substantial user” of the facilities financed or refinanced by the Series 2025A Bonds or a “related person” within the meaning of Section 147(a) of the Internal Revenue Code of 1986, as amended. Bond Counsel is further of the opinion that (a) interest on the Series 2025A Bonds is a specific preference item for purposes of the federal alternative minimum tax imposed on individuals, and (b) interest on the Series 2025B Bonds is not a specific preference item for purposes of the federal alternative minimum tax on individuals. Interest on the Series 2025 Bonds may affect the federal alternative minimum tax imposed on certain corporations. Bond Counsel is further of the opinion that, under the existing laws of the State of Utah, as presently enacted and construed, interest on the Series 2025 Bonds is exempt from State of Utah individual income taxes. See “TAX MATTERS” herein.

\$604,510,000

SALT LAKE CITY, UTAH

\$553,870,000 Airport Revenue Bonds, Series 2025A (AMT)

\$50,640,000 Airport Revenue Bonds, Series 2025B (Non-AMT)

SALT LAKE CITY INTERNATIONAL AIRPORT

Dated: Date of Delivery

Due: July 1, as shown on the inside cover pages hereof

Salt Lake City, Utah (the “**City**”) is issuing its Airport Revenue Bonds, Series 2025A (AMT) (the “**Series 2025A Bonds**”), and Airport Revenue Bonds, Series 2025B (Non-AMT) (the “**Series 2025B Bonds**,” and together with the Series 2025A Bonds, the “**Series 2025 Bonds**”) to finance portions of the New SLC and certain other projects being undertaken at Salt Lake City International Airport. The Series 2025 Bonds will be issued pursuant to a Master Trust Indenture, dated as of February 1, 2017 (the “**Master Indenture**”), by and between the City and Wilmington Trust, National Association, as trustee (the “**Trustee**”), and a Fifth Supplemental Trust Indenture, to be dated as of August 1, 2025 (the “**Fifth Supplemental Indenture**,” and together with the **Master Indenture**, the “**Indenture**”), by and between the City and the Trustee. The Series 2025 Bonds are limited obligations of the City payable solely from and secured by a pledge of and lien on (a) Net Revenues, (b) certain funds and accounts held by the Trustee under the Indenture, and (c) other amounts payable under the Indenture, all as defined herein. The Series 2025 Bonds will be secured by a pledge of and lien on Net Revenues on parity with the Existing Bonds, which as of July 2, 2025, were outstanding in the aggregate principal amount of \$3,227,510,000. None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Series 2025 Bonds, and neither the full faith and credit nor the taxing power of the City, the State of Utah (the “**State**”) or any political subdivision or agency of the State is pledged to the payment of the principal of or interest on the Series 2025 Bonds. See “SECURITY FOR THE SERIES 2025 BONDS” herein.

The Series 2025 Bonds will be issued as fully registered bonds and, when issued, will be registered in the name of Cede & Co., as registered owner and nominee for The Depository Trust Company, New York, New York (“**DTC**”). Purchasers will acquire beneficial ownership interests in the Series 2025 Bonds in denominations of \$5,000 or integral multiples thereof and will not receive physical delivery of bond certificates. So long as Cede & Co. is the registered owner of the Series 2025 Bonds, principal of, premium if any, and interest on the Series 2025 Bonds will be payable by the Trustee to Cede & Co., as nominee for DTC. See “APPENDIX G—Book-Entry-Only System” herein.

The Series 2025 Bonds will bear interest from their date of original delivery, payable each January 1 and July 1, commencing on January 1, 2026. See the inside cover pages hereof for maturities, principal amounts, interest rates, yields and prices of the Series 2025 Bonds. The Series 2025 Bonds are subject to optional and mandatory sinking fund redemption prior to maturity as described herein. See “THE SERIES 2025 BONDS—Redemption of the Series 2025 Bonds.”

This cover page contains information for quick reference only. It is not a summary of this issue. Investors must read this entire Official Statement to obtain information essential to the making of an informed investment decision. Capitalized terms used on this cover page and not otherwise defined have the meanings set forth herein.

The Series 2025 Bonds are offered when, as and if issued by the City and received by the Underwriters, subject to the receipt of an unqualified approving opinion as to validity of Kutak Rock LLP, Bond Counsel to the City, and certain other conditions. Certain legal matters will be passed upon for the City by the City Attorney, Mark E. Kittrell, and Disclosure Counsel to the City, Kutak Rock LLP, and for the Underwriters by their counsel, Gilmore & Bell, P.C. PFM Financial Advisors LLC, serves as Municipal Advisor to the City. Delivery of the Series 2025 Bonds to DTC or its custodial agent is expected in New York, New York on or about August 5, 2025.

The information contained in this Official Statement has been furnished by the City, DTC and other sources that are believed to be reliable. No dealer, broker, salesperson or any other person has been authorized by the City or the Underwriters to give any information or to make any representations other than those contained in this Official Statement in connection with the offering contained herein, and, if given or made, such information or representations must not be relied upon as having been authorized by the City or the Underwriters.

This Official Statement does not constitute an offer to sell or solicitation of an offer to buy, nor shall there be any sale of the Series 2025 Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. The information and expressions of opinion herein are subject to change without notice, and neither delivery of this Official Statement nor any sale made thereafter shall under any circumstances create any implication that there has been no change in the affairs of the City or in any other information contained herein, since the date of this Official Statement.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

The Series 2025 Bonds have not been registered under the Securities Act of 1933, as amended, in reliance upon exemptions contained in such act. Any registration or qualification of the Series 2025 Bonds in accordance with applicable provisions of the securities laws of the states in which the Series 2025 Bonds have been registered or qualified and the exemption from registration or qualification in other states cannot be regarded as a recommendation thereof.

THE SERIES 2025 BONDS HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION, NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS OFFICIAL STATEMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This Official Statement contains “forward-looking statements” within the meaning of the federal securities laws in the sections hereof entitled “THE NEW SLC AND OTHER CAPITAL PROJECTS,” “THE AIRPORT,” “REPORT OF THE AIRPORT CONSULTANT” and Appendix B. These forward-looking statements include, among others, statements concerning expectations, beliefs, opinions, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. The forward-looking statements in this Official Statement are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by such statements.

This Official Statement contains projections and estimates that are based on current expectations and assumptions. In light of the important factors that may materially affect the financial condition of the Department and the aviation industry generally and other economic and financial matters, the inclusion in this Official Statement of such projections and estimates should not be regarded as a representation by the City or the Underwriters that such projections and estimates will occur. Such projections and estimates are not intended as representations of fact or guarantees of results.

The City and the Department each maintain a website and social media accounts. However, the information presented on those websites and social media accounts is not a part of this Official Statement and should not be relied upon in making an investment decision with respect to the Series 2025 Bonds.

of

SALT LAKE CITY, UTAH

Relating to its

\$553,870,000 Airport Revenue Bonds, Series 2025A (AMT)
\$50,640,000 Airport Revenue Bonds, Series 2025B (Non-AMT)

INTRODUCTION

General

This Official Statement of Salt Lake City, Utah (the “**City**”) sets forth certain information concerning the City, its Department of Airports (the “**Department**”), the Salt Lake City International Airport (the “**Airport**”) and the City’s \$553,870,000 Airport Revenue Bonds, Series 2025A (AMT) (the “**Series 2025A Bonds**”), and \$50,640,000 Airport Revenue Bonds, Series 2025B (Non-AMT) (the “**Series 2025B Bonds**,” and together with the Series 2025A Bonds, the “**Series 2025 Bonds**”).

Salt Lake City

The City, a municipal corporation and political subdivision of the State of Utah (the “**State**”), has a Council-Mayor form of government. The City Council consists of seven members, who are elected by voters within seven geographic districts of approximately equal population. The Mayor is elected at large by the voters of the City and is charged with the executive and administrative duties of the government. The Mayor appoints and the City Council approves the appointment of the Executive Director of the Department. See “THE AIRPORT—The City” herein.

The Airport is owned by the City. In addition to the Airport, the City owns South Valley Regional Airport (“**South Valley**”) and Tooele Valley Airport (“**Tooele**,” and collectively with the Airport and South Valley, the “**Airport System**”), which are all operated and managed by the Department. The Mayor of the City and the City Council oversee the Department’s affairs. An eleven-member advisory board (the “**Airport Advisory Board**”) of citizen volunteers advises the Mayor. The City’s and the Department’s “**Fiscal Year**” (or “**FY**”) currently begins on July 1 and ends on June 30 of the immediately following year.

Salt Lake City Department of Airports

The day-to-day operations of the Airport System are managed by the Executive Director of the Department, who reports directly to the Mayor. The Executive Director leads the management staff of the Department and the Department’s Chief Operating Officer and eight Division Directors oversee each of the primary operating and administrative divisions of the Department and report to the Executive Director.

Salt Lake City International Airport

The Airport is located on approximately 9,400 acres about five miles west of the City’s downtown. The airfield at the Airport contains four runways, three of which are used for airline traffic and the fourth of which is used for general aviation traffic (which is expected to be decommissioned by 2026). As part of the New SLC (as described below), substantially all of the Airport’s landside and terminal facilities have been, or are in the process of being, replaced. When completed in October 2026, the Airport will consist

of a new terminal complex, two new concourses containing 94 gates with jet bridges and four permanent hardstands, a new roadway system and new parking and rental car facilities, among other new improvements. See “—The New SLC” and “THE NEW SLC AND OTHER CAPITAL PROJECTS.”

The Airport is classified by the Federal Aviation Administration (“**FAA**”) as a Large Hub facility based upon its share of nationwide enplaned passengers. The FAA classifies Large Hub airports as those serving at least 1% of annual U.S. passenger enplanements. See “THE AIRPORT—Airport Management” and “—Airport Facilities” herein. The Airport is a principal hub for Delta Air Lines, Inc. (“**Delta**”). In FY 2024, Delta and its affiliates carried approximately 70.1% of the passengers enplaned at the Airport. See “THE AIRPORT—Aviation Activity at the Airport.”

The New SLC

The “**New SLC**,” formerly known as the Airport Redevelopment Program, is a comprehensive and integrated series of projects that has replaced or is in the process of replacing substantially all of the Airport’s landside and terminal complex facilities and the demolition of the previous facilities. The New SLC consists of the Terminal Redevelopment Program (“**TRP**”) and the North Concourse Program (“**NCP**”). The TRP (substantially completed in 2023) was a \$2.83 billion capital improvement program that consisted of the following project elements: (a) the South Economy parking lot; (b) the Rental Car Quick Turnaround facility (the “**QTA**”) and three Rental Car Remote Service Site facilities (the “**RSS**”); (c) the Central Utility Plant (the “**CUP**”); (d) a new Terminal Facility; (e) the Gateway Center; (f) Concourse A West - 25 gates; (g) Concourse A East - 22 gates; (h) a new parking garage; (i) a new terminal roadway system to serve the new landside facilities; and (j) related infrastructure improvements, including apron reconfiguration, fuel hydrant facilities, information technology, utilities and landscaping. The NCP is a separate, but programmatically integrated, \$2.31 billion set of projects consisting of a second concourse (“**Concourse B**”), that will contain a total of 47 domestic contact gates and four hardstand positions (a “hardstand” position is not connected to a concourse directly, and is served by buses from Concourse B), and is being constructed in four phases. Concourse B is located parallel to Concourse A and is connected to it by a central passenger tunnel (the “**Central Tunnel**”) and a mid-concourse passenger tunnel. Phase 1 of the NCP, Concourse B West, was placed in service on October 2020, on schedule, with 21 gates. Phase 2 of the NCP opened in October 2024, which consisted of five additional gates on Concourse B East and the Central Tunnel. An additional ten gates on Concourse B East are expected to be placed in service in October 2025, and the final eleven gates on Concourse B East and the four hardstand gates are expected to be placed in service in October 2026. All elements of the New SLC are now subject to component guaranteed maximum price (“**CGMP**”) construction contracts. The Department expects that the New SLC will be completed on time and within the budget for the New SLC described herein. See “THE NEW SLC AND OTHER CAPITAL PROJECTS” herein.

Plan of Finance

The Series 2025 Bonds are being issued to (a) finance a portion of the cost of the design and construction of the remaining components of the New SLC and certain projects included in the Other CIP (defined herein); (b) repay all of the outstanding Subordinate Revolving Obligations (as defined herein); (c) make a deposit to the Common Reserve Fund (as defined herein); (d) fund a portion of the interest accruing on the Series 2025 Bonds, and (e) pay the costs of issuance of the Series 2025 Bonds. As described under “THE NEW SLC AND OTHER CAPITAL PROJECTS” and “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance,” the City has funded to date and expects to continue to fund the design and construction of the New SLC from a variety of sources, including Department funds, proceeds of the Series 2025 Bonds, proceeds of the Existing Bonds (as defined below), proceeds of Subordinate Revolving Obligations, passenger facility charges (“**PFCs**”), customer facility charges (“**CFCs**”) and federal grants. Following the issuance of the

Series 2025 Bonds, the City does not expect to issue any additional Bonds (as defined below) to finance the costs of the design and construction of the New SLC or any additional projects included in the Other CIP. See “THE NEW SLC AND OTHER CAPITAL PROJECTS” and “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance.”

Series 2025 Bonds

The Series 2025 Bonds are being issued pursuant to (i) the Local Government Bonding Act, Chapter 14 of Title 11, Utah Code Annotated 1953, as amended, and, to the extent applicable, the Registered Public Obligations Act, Chapter 7 of Title 15, Utah Code Annotated 1953, as amended (collectively, the “**Act**”), and (ii) the Master Trust Indenture dated as of February 1, 2017 (the “**Master Indenture**”), by and between the City and Wilmington Trust, National Association, as trustee (the “**Trustee**”), and the Fifth Supplemental Trust Indenture, to be dated as of August 1, 2025 (the “**Fifth Supplemental Indenture**,” and collectively with the Master Indenture and all supplements thereto the “**Indenture**”), by and between the City and the Trustee. The Series 2025 Bonds have been approved by a resolution of the City Council adopted on June 3, 2025. The Series 2025 Bonds are subject to optional and mandatory sinking fund redemption prior to maturity as provided herein. See “THE SERIES 2025 BONDS—Redemption of the Series 2025 Bonds” herein.

Existing Bonds

The City previously issued its Airport Revenue Bonds, Series 2017A (AMT) (the “**Series 2017A Bonds**”), Airport Revenue Bonds, Series 2017B (Non-AMT) (the “**Series 2017B Bonds**,” and together with the Series 2017A Bonds, the “**Series 2017 Bonds**”), Airport Revenue Bonds, Series 2018A (AMT) (the “**Series 2018A Bonds**”), Airport Revenue Bonds, Series 2018B (Non-AMT) (the “**Series 2018B Bonds**,” and together with the Series 2018A Bonds, the “**Series 2018 Bonds**”), Airport Revenue Bonds, Series 2021A (AMT) (the “**Series 2021A Bonds**”), Airport Revenue Bonds, Series 2021B (Non-AMT) (the “**Series 2021B Bonds**,” and together with the Series 2021A Bonds, the “**Series 2021 Bonds**”), and Airport Revenue Bonds, Series 2023A (AMT) (the “**Series 2023A Bonds**,” and collectively with the Series 2017 Bonds, the Series 2018 Bonds and the Series 2021 Bonds, the “**Existing Bonds**”). As of July 2, 2025, the Existing Bonds were outstanding in the aggregate principal amount of \$3,227,510,000.

Security for the Bonds

The Series 2025 Bonds, the Existing Bonds and any additional Bonds issued pursuant to the Master Indenture (collectively, the “**Bonds**”) are limited obligations of the City payable solely from and secured by a pledge of and lien on (a) Net Revenues; (b) certain funds and accounts held by the Trustee under the Indenture; and (c) other amounts payable under the Indenture. None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Series 2025 Bonds or any other Bonds, and neither the full faith and credit nor the taxing power of the City, the State or any political subdivision or agency of the State is pledged to the payment of the principal of, premium, if any, and interest on the Series 2025 Bonds or any other Bonds. See “SECURITY FOR THE SERIES 2025 BONDS.”

Subordinate Obligations

Pursuant to the Master Subordinate Trust Indenture, dated as of March 1, 2021 (the “**Master Subordinate Indenture**”), by and between the City and U.S. Bank Trust Company, National Association, as successor trustee (the “**Subordinate Trustee**”), the Second Supplemental Subordinate Trust Indenture, dated as of September 5, 2024 (the “**Second Supplemental Subordinate Indenture**,” and together with the Master Subordinate Indenture, the “**Subordinate Indenture**”), by and between the City and the Subordinate

Trustee, and the Revolving Credit Agreement, dated as of September 5, 2024 (the “**Subordinate Revolving Obligations Credit Agreement**”), by and between the City and Bank of America, N.A. (the “**Subordinate Revolving Obligations Bank**”), the City is authorized to issue and have outstanding, from time to time, up to \$300,000,000 (which can be increased to \$400,000,000 pursuant to the terms of the Subordinate Revolving Obligations Credit Agreement) in aggregate principal amount of its Salt Lake City, Utah Subordinate Airport Revenue Short-Term Revolving Obligations (collectively, the “**Subordinate Revolving Obligations**”). The Subordinate Revolving Obligations are payable solely from and secured by pledge of and lien on the Net Revenues remaining after the payment of the Bonds (including the Series 2025 Bonds) and the replenishment of any debt service reserve funds established to secure the Bonds.

As of July 2, 2025, the City had \$200,000,000 in aggregate principal amount of the Subordinate Revolving Obligations outstanding. The City plans to use a portion of the proceeds of the Series 2025 Bonds to repay all of the outstanding Subordinate Revolving Obligations. The Subordinate Revolving Obligations provide the City with flexibility to borrow on a short-term basis to supplement Department surplus funds and Bond proceeds. Thus, the City may issue additional Subordinate Revolving Obligations, from time to time, to finance, on an interim basis, construction costs of elements of the New SLC. See “OUTSTANDING OBLIGATIONS AND DEBT SERVICE SCHEDULE—Subordinate Obligations” and “SECURITY FOR THE SERIES 2025 BONDS— Subordinate Obligations (Subordinate Revolving Obligations).

Forward-Looking Statements

This Official Statement contains projections and estimates that are based on current expectations. In light of the important factors that may materially affect the financial condition of the Department and the aviation industry generally and other economic and financial matters, the inclusion in this Official Statement of such projections and estimates should not be regarded as a representation by the City that such projections and estimates will occur. Such projections and estimates are not intended as representations of fact or guarantees of results. The Department disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Department’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Additional Information

This Official Statement includes a description of the City, the Department and the Department’s facilities and certain financial and operational factors relating to the Department, and a description of the Series 2025 Bonds and the security therefor. Except where noted, all information presented in this Official Statement has been provided by the City. The following appendices are included as part of this Official Statement: “APPENDIX A—ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE DEPARTMENT FOR THE FISCAL YEAR ENDED JUNE 30, 2024;” “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT;” “APPENDIX C—FORM OF MASTER INDENTURE;” “APPENDIX D—FORM OF AIRLINE USE AGREEMENT;” “APPENDIX E—FORM OF CONTINUING DISCLOSURE AGREEMENT;” “APPENDIX F—FORM OF OPINION OF BOND COUNSEL;” and “APPENDIX G—BOOK-ENTRY-ONLY SYSTEM.” Appendix B has been prepared by Landrum & Brown, Inc. (“**Landrum**” or the “**Airport Consultant**”), Airport Consultant to the City. Appendices C, E and F have been prepared by Kutak Rock LLP, in their role as Bond Counsel to the City. The information included in Appendix G has been obtained from The Depository Trust Company (“**DTC**”).

Certain defined terms that are capitalized but not defined herein are defined in the Master Indenture. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE I: DEFINITIONS; INTERPRETATION.” All references in this Official Statement to the Fifth Supplemental Indenture, the

Series 2025 Bonds, the Continuing Disclosure Agreement, the Airline Use Agreement and all other agreements, statutes and instruments are qualified by reference to the complete document.

The Department's principal office is located at 3920 West Terminal Drive, Salt Lake City, Utah 84122.

The Department's Annual Comprehensive Financial Report ("**ACFR**") for the year ended June 30, 2023 has been awarded the Certificate of Achievement for Excellence in Financial Reporting by the Government Finance Officers Association ("**GFOA**") and the Department has submitted the ACFR for the year ended June 30, 2024 to the GFOA. The Department's ACFR has been awarded the Certificate of Achievement for Excellence in Financial Reporting by the GFOA for more than 10 consecutive years.

ESTIMATED SOURCES AND USES OF FUNDS

The estimated sources and uses of funds in connection with the issuance of the Series 2025 Bonds are summarized below:

	Series 2025A Bonds	Series 2025B Bonds	Total
Sources Of Funds:			
Principal Amount	\$553,870,000.00	\$50,640,000.00	\$604,510,000.00
Original Issue Premium	<u>16,732,764.00</u>	<u>2,889,528.50</u>	<u>19,622,292.50</u>
Total Sources of Funds	<u>\$570,602,764.00</u>	<u>\$53,529,528.50</u>	<u>\$624,132,292.50</u>
Uses Of Funds:			
Deposit to Construction Funds.....	\$311,925,152.00	\$38,212,640.00	\$350,137,792.00
Repayment of Subordinate Revolving Obligations ..	193,000,000.00	7,000,000.00	200,000,000.00
Capitalized Interest ¹	26,456,513.91	4,637,432.58	31,093,946.49
Deposit to Common Reserve Fund	36,660,859.98	3,439,237.73	40,100,097.71
Costs of Issuance ²	<u>2,560,238.11</u>	<u>240,218.19</u>	<u>2,800,456.30</u>
Total Uses of Funds	<u>\$570,602,764.00</u>	<u>\$53,529,528.50</u>	<u>\$624,132,292.50</u>

¹ Includes a portion of the interest accruing on the Series 2025A Bonds through January 1, 2027, and a portion of the interest accruing on the Series 2025B Bonds through July 1, 2028. See also footnote 3 to the schedule under the heading "OUTSTANDING OBLIGATIONS AND DEBT SERVICE SCHEDULE—Debt Service Requirements for Existing Bonds and Series 2025 Bonds" herein.

² Includes underwriters' discount, trustee fees, legal fees, municipal advisor and consultant fees, rating agency fees, printing expenses and other miscellaneous fees and expenses.

THE SERIES 2025 BONDS

General Provisions

The Series 2025 Bonds will bear interest at the rates and mature on the dates set forth on the inside front cover pages of this Official Statement. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months. The Series 2025 Bonds will be dated their initial date of delivery, and will bear interest from that date payable semi-annually on January 1 and July 1 of each year, commencing January 1, 2026 (each an "**Interest Payment Date**"). Interest due and payable on the Series 2025 Bonds on any Interest Payment Date will be paid to the person who is the registered owner as of the Record Date (DTC, so long as the book-entry system with DTC is in effect). Each Series 2025 Bond will bear interest from the Interest Payment Date next preceding the date of authentication thereof unless such date of

authentication is an Interest Payment Date, in which event such Series 2025 Bond will bear interest from such date of authentication, or unless such date of authentication is after a Record Date and before the next succeeding Interest Payment Date, in which event such Series 2025 Bond will bear interest from such succeeding Interest Payment Date, or unless such date of authentication is on or before December 15, 2025, in which event such Series 2025 Bond will bear interest from its date of delivery. If interest on the Series 2025 Bonds is in default, Series 2025 Bonds issued in exchange for Series 2025 Bonds surrendered for transfer or exchange will bear interest from the last Interest Payment Date to which interest has been paid in full on the Series 2025 Bonds surrendered.

The Series 2025 Bonds will be issued in denominations of \$5,000 and integral multiples thereof. The Series 2025 Bonds will be issued in fully registered form and will be registered in the name of Cede & Co., as registered owner and nominee of DTC. DTC will act as securities depository for the Series 2025 Bonds. Individual purchases may be made in book-entry form only. Purchasers will not receive certificates representing their interest in the Series 2025 Bonds purchased. So long as Cede & Co., as nominee of DTC, is the registered owner of the Series 2025 Bonds, references herein to the Bondholders or registered owners means Cede & Co. and does not mean the Beneficial Owners of the Series 2025 Bonds.

So long as Cede & Co. is the registered owner of the Series 2025 Bonds, the principal of and interest on the Series 2025 Bonds will be payable by wire transfer by the Trustee to Cede & Co., as nominee for DTC, which is required, in turn, to remit such amounts to the DTC participants for subsequent disbursement to the Beneficial Owners. See “APPENDIX G—BOOK-ENTRY-ONLY SYSTEM.”

Redemption of the Series 2025 Bonds

Optional Redemption. The Series 2025 Bonds maturing on or before July 1, 2035 are not subject to optional redemption prior to maturity. The Series 2025 Bonds maturing on and after July 1, 2036 are redeemable on or after July 1, 2035 at the option of the City, in whole or in part at any time, from any moneys that may be provided for such purpose and at a redemption price equal to 100% of the principal amount of the Series 2025 Bonds to be redeemed plus accrued interest to the date fixed for redemption, without premium.

Mandatory Sinking Fund Redemption. The Series 2025A Bonds maturing on July 1, 2050 (the “**Series 2025A Term Bonds (2050)**”), are subject to mandatory sinking fund redemption in part, by lot, at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium, on July 1 of the following years and in the following principal amounts:

July 1 of the Year	Principal Amount
2046	\$22,265,000
2047	23,475,000
2048	24,765,000
2049	26,140,000
2050*	27,565,000

* Final Maturity Date.

The Series 2025A Bonds maturing on July 1, 2055 (the “**Series 2025A Term Bonds (2055)**,” and together with the Series 2025A Term Bonds (2050), the “**Series 2025A Term Bonds**”), are subject to mandatory sinking fund redemption in part, by lot, at a redemption price equal to 100% of the principal

amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium, on July 1 of the following years and in the following principal amounts:

July 1 of the Year	Principal Amount
2051	\$29,080,000
2052	30,685,000
2053	32,375,000
2054	34,150,000
2055*	36,025,000

* Final Maturity Date.

The Series 2025B Bonds maturing on July 1, 2050 (the “**Series 2025B Term Bonds (2050)**”), are subject to mandatory sinking fund redemption in part, by lot, at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium, on July 1 of the following years and in the following principal amounts:

July 1 of the Year	Principal Amount
2046	\$2,105,000
2047	2,225,000
2048	2,340,000
2049	2,475,000
2050*	2,610,000

* Final Maturity Date.

The Series 2025B Bonds maturing on July 1, 2055 (the “**Series 2025B Term Bonds (2055)**,” and together with the Series 2025B Term Bonds (2050), the “**Series 2025B Term Bonds**”), are subject to mandatory sinking fund redemption in part, by lot, at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon to the date fixed for redemption, without premium, on July 1 of the following years and in the following principal amounts:

July 1 of the Year	Principal Amount
2051	\$2,750,000
2052	2,905,000
2053	3,065,000
2054	3,235,000
2055*	3,410,000

* Final Maturity Date.

At the option of the City, to be exercised by delivery of a written certificate to the Trustee on or before the sixtieth day next preceding any mandatory sinking fund redemption date for the Series 2025A Term Bonds or the Series 2025B Term Bonds (collectively, the “**Series 2025 Term Bonds**”), the City may (a) deliver to the Trustee, for cancellation, Series 2025 Term Bonds, as applicable, or portions thereof (in Authorized Denominations) purchased in the open market or otherwise acquired by the City; or (b) specify a principal amount of such applicable Series 2025 Term Bonds or portions thereof (in Authorized

Denominations), which prior to said date have been optionally redeemed and previously cancelled by the Trustee at the request of the City and not theretofore applied as a credit against any mandatory sinking fund redemption requirement. Each such applicable Series 2025 Term Bond or portion thereof so purchased, acquired or optionally redeemed and delivered to the Trustee for cancellation will be credited by the Trustee, at 100% of the principal amount thereof, against the obligation of the City to pay the principal of such applicable Series 2025 Term Bond on such mandatory sinking fund redemption date.

Notices of Redemption to Bondholders; Conditional Notice of Optional Redemption. The Trustee will give notice of redemption, in the name of the City, to Bondholders affected by redemption (DTC, so long as the book-entry system with DTC is in effect) at least 30 days but not more than 60 days before each redemption date. The Trustee will send such notice of redemption by first class mail (or with respect to Series 2025 Bonds held by DTC, either via electronic means or by an express delivery service for delivery on the next following Business Day) to each registered owner of a Series 2025 Bond to be redeemed; each such notice will be sent to the owner's registered address. The City will also post, or cause to be posted, such notice of redemption on the Municipal Securities Rulemaking Board's Electronic Municipal Market Access ("***EMMA***") website.

Each notice of redemption will specify the date of issue, the applicable Series, the maturity date, the interest rate and the CUSIP number of the applicable Series 2025 Bonds to be redeemed, if less than all Series 2025 Bonds of a Series, maturity date and interest rate are called for redemption, the numbers assigned to the Series 2025 Bonds to be redeemed, the principal amount to be redeemed, the date fixed for redemption, the redemption price, the place or places of payment, the Trustee's name, that payment will be made upon presentation and surrender of the applicable Series 2025 Bonds to be redeemed, that interest, if any, accrued to the date fixed for redemption and not paid will be paid as specified in said notice, and that on and after said date interest thereon will cease to accrue.

The City may provide that, if at the time of mailing of notice of an optional redemption there has not been deposited with the Trustee moneys and/or securities sufficient to redeem all the applicable Series 2025 Bonds called for redemption, such notice may state that it is conditional, that is, subject to the deposit of the redemption moneys with the Trustee not later than one Business Day prior to the scheduled redemption date, and such notice will be of no effect unless such moneys are so deposited. In the event sufficient moneys are not on deposit one Business Day prior to the scheduled redemption date, then the redemption will be canceled and on such cancellation date notice will be mailed to the Holders of such Series 2025 Bonds.

Failure to give any required notice of redemption as to any particular Series 2025 Bonds will not affect the validity of the call for redemption of any Series 2025 Bonds in respect of which no failure occurs. Any notice sent as provided in the Indenture will be conclusively presumed to have been given whether or not actually received by the addressee. When notice of redemption is given, Series 2025 Bonds called for redemption become due and payable on the date fixed for redemption at the applicable redemption price. In the event that funds are deposited with the Trustee sufficient for redemption, interest on the Series 2025 Bonds to be redeemed will cease to accrue on and after the date fixed for redemption.

Effect of Redemption. On the date so designated for redemption, notice having been given in the manner and under the conditions provided in the Indenture and as described above and sufficient moneys for payment of the redemption price being held in trust to pay the redemption price, interest on such applicable Series 2025 Bonds will cease to accrue from and after such redemption date, such Series 2025 Bonds will cease to be entitled to any lien, benefit or security under the Indenture and the owners of such Series 2025 Bonds will have no rights in respect thereof except to receive payment of the redemption price. Series 2025 Bonds which have been duly called for redemption and for the payment of the redemption price

of which moneys will be held in trust for the holders of the respective Series 2025 Bonds to be redeemed, all as provided in the Indenture, will not be deemed to be Outstanding under the provisions of the Indenture.

Selection of Series 2025 Bonds for Redemption; Series 2025 Bonds Redeemed in Part. Redemption of the Series 2025 Bonds will only be in Authorized Denominations. The Series 2025 Bonds are subject to redemption in such order of maturity (except mandatory sinking fund payments on the Series 2025 Term Bonds) as the City may direct and by lot within such maturity and interest rate of such Series selected in such manner as the Trustee (or DTC, as long as DTC is the securities depository for the Series 2025 Bonds) deems appropriate.

Except as otherwise provided under the procedures of DTC, on or before the forty-fifth day prior to any mandatory sinking fund redemption date, the Trustee will proceed to select for redemption (by lot in such manner as the Trustee may determine) from the Series 2025 Term Bonds an aggregate principal amount of such Series 2025 Term Bonds equal to the amount for such year as set forth in the applicable table under “Mandatory Sinking Fund Redemption” above and will call such Series 2025 Term Bonds or portions thereof (in Authorized Denominations) for redemption and give notice of such call.

Book-Entry-Only System

DTC will act as securities depository for the Series 2025 Bonds. The Series 2025 Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered bond certificate will be issued for each maturity of each Series of the Series 2025 Bonds in the aggregate principal amount of such maturity, and will be deposited with DTC. For more information regarding DTC and its procedures, see “APPENDIX G—BOOK-ENTRY-ONLY SYSTEM.”

OUTSTANDING OBLIGATIONS AND DEBT SERVICE SCHEDULE

Existing Bonds

Pursuant to the Indenture, the City has previously issued and, as of July 2, 2025, there was outstanding \$3,227,510,000 aggregate principal amount of the Existing Bonds. The Existing Bonds are secured by a pledge of and lien on Net Revenues on parity with the Series 2025 Bonds. See “SECURITY FOR THE SERIES 2025 BONDS—Flow of Funds.” The following table sets forth certain information about the Existing Bonds as of July 2, 2025.

Existing Bonds (as of July 2, 2025)

Series	Original Principal Amount	Principal Amount Outstanding	Final Maturity Date
2017A	\$826,210,000	\$790,870,000	7/1/2047
2017B	173,790,000	166,725,000	7/1/2047
2018A	753,855,000	705,645,000	7/1/2048
2018B	96,695,000	94,520,000	7/1/2048
2021A	776,925,000	753,030,000	7/1/2051
2021B	127,645,000	123,680,000	7/1/2051
2023A	600,000,000	593,040,000	7/1/2053
Total	<u>\$3,355,120,000</u>	<u>\$3,227,510,000</u>	

Debt Service Requirements for Existing Bonds and Series 2025 Bonds

The following table sets forth the debt service requirements for the Existing Bonds and the Series 2025 Bonds:

Salt Lake City Airport Revenue Bonds Debt Service For Existing Bonds and Series 2025 Bonds

Period Ending July 1 ¹	Debt Service on Existing Bonds	Series 2025A Bonds		Series 2025B Bonds		Total Debt Service on Bonds ⁴
		Principal	Interest ³	Principal	Interest ³	
2026	\$ 221,609,475 ²	\$ 1,050,000	\$ 26,592,012	—	\$ 2,436,148	\$ 251,687,636
2027	229,050,975	8,700,000	29,312,913	—	2,690,225	269,754,113
2028	231,667,475	9,145,000	28,877,913	—	2,690,225	272,380,613
2029	231,678,975	9,595,000	28,420,663	\$ 910,000	2,690,225	273,294,863

Total ⁴	<u>\$5,681,765,450</u>	<u>\$553,870,000</u>	<u>\$576,221,087</u>	<u>\$50,640,000</u>	<u>\$54,331,998</u>	<u>\$6,916,828,536</u>

¹ Pursuant to the provisions of the Master Indenture, the City is required to make monthly deposits to the applicable Debt Service Funds for the Bonds so that sufficient amounts are on deposit in such funds 15 days prior to each applicable principal payment date (July 1) and interest payment date (January 1 and July 1) for the Bonds. See “SECURITY FOR THE SERIES 2025 BONDS” and “APPENDIX C—FORM OF MASTER INDENTURE.”

² A portion of the interest due on the Series 2023A Bonds through, and including, October 31, 2025 will be paid with a portion of the proceeds of the Series 2023A Bonds.

³ A portion of the interest due on the Series 2025A Bonds through, and including, January 1, 2027 will be paid with a portion of the proceeds of the Series 2025A Bonds. A portion of the interest due on the Series 2025B Bonds through, and including, July 1, 2028 will be paid with a portion of the proceeds of the Series 2025B Bonds. Interest is capitalized on specific components of the New SLC and the Other CIP to the date such component is expected to be placed in service.

⁴ Totals may not add due to rounding.

Subordinate Obligations (Subordinate Revolving Obligations)

Pursuant to the Master Subordinate Indenture, the Second Supplemental Subordinate Indenture and the Subordinate Revolving Obligations Credit Agreement, the City is authorized to issue and have outstanding, from time to time, up to \$300,000,000 (which can be increased to \$400,000,000 pursuant to the terms of the Subordinate Revolving Obligations Credit Agreement) in aggregate principal amount of Subordinate Revolving Obligations. As of July 2, 2025, the City had \$200,000,000 aggregate principal amount of Subordinate Revolving Obligations outstanding. All Subordinate Revolving Obligations issued by the City are purchased by the Subordinate Revolving Obligations Bank (Bank of America, N.A.) in accordance with the terms of the Subordinate Revolving Obligations Credit Agreement. Except as otherwise provided in the Subordinate Revolving Obligations Credit Agreement, the principal of all Subordinate Revolving Obligations outstanding pursuant to the Master Subordinate Indenture, the Second Supplemental Subordinate Indenture and the Subordinate Revolving Obligations Credit Agreement are due and payable on September 3, 2027. However, subject to the terms of the Subordinate Revolving Obligations Credit Agreement, on September 3, 2027, the City can convert any outstanding Subordinate Revolving Obligations to a term loan that will be payable in six equal semi-annual installments following September 3, 2027. The Subordinate Revolving Obligations are payable solely from and secured by pledge of and lien on the Net Revenues remaining after the payment of the Bonds (including the Series 2025 Bonds) and the replenishment of any debt service reserve funds established to secure the Bonds.

THE NEW SLC AND OTHER CAPITAL PROJECTS

Summary of the New SLC

The New SLC is a comprehensive and integrated series of projects that has replaced and is in the process of replacing substantially all of the Airport's landside and terminal complex facilities. Following the recession of 2008-2010, the Department, in consultation with Delta, undertook a comprehensive study of the Airport's facilities to determine the improvements necessary to extend the useful lives of those facilities for an additional 30 years. The cost and utility of making extensive renovations to the then-existing facilities was compared by the Department to the cost of replacing those facilities with new and more efficient ones. The Department and the air carriers operating at the Airport, including Delta, concluded that replacement of the majority of the landside and terminal complex facilities at the Airport would be the better approach. The New SLC is designed to accommodate both projected growth at the Airport as well as provide for future expansion as needed. In addition to right-sizing the Airport's facilities to accommodate current and future demand, the New SLC meets current requirements for seismic resiliency, solves certain operational problems resulting from the prior facility layout, improves customer service and maintains the Airport's competitive cost structure.

The New SLC is composed of two primary components, the TRP and the NCP, and consists of four phases. As of the date of this Official Statement, Phases I, II and a portion of III of the New SLC are substantially complete and are in service. The remaining portion of Phase III and Phase IV are expected to be completed by October 2026. The TRP, which was substantially completed in 2023, was a \$2.83 billion capital improvement program, including soft costs, to build new facilities to replace aged facilities, mitigate seismic risks, accommodate current operations and prepare for future growth. The TRP consisted of: (a) the South Economy parking lot; (b) the QTA and three RSS facilities; (c) the CUP; (d) a new Terminal Facility; (e) the Gateway Center; (f) Concourse A East and West - 47 gates; (g) a new parking garage; (h) a new terminal roadway system to serve the new landside facilities; and (i) related infrastructure improvements, including apron reconfiguration, fuel hydrant facilities, information technology, utilities and landscaping. The NCP is an estimated \$2.31 billion set of projects that are programmatically integrated with the TRP consisting of (i) Concourse B (formerly known as the North Concourse) that will contain 47 gates and will

be located parallel to Concourse A and is being constructed in four stages, (ii) the Central Tunnel, and (iii) related apron and fuel hydrant facilities. The NCP is expected to be completed by October 2026.

The Department and certain air carriers operating at the Airport (the “**Signatory Airlines**”) entered into the Airline Use Agreement, as amended (the “**AUA**”), that became effective on July 1, 2014, for a 10-year term and that includes approval of the TRP, and provides a process for the Signatory Airlines to approve additional capital projects, including the NCP. As part of the NCP, Concourse B, was originally designed with 31 gates, but allowed for the addition of 16 more gates at a future date, as demand warranted. In April 2016, the Signatory Airlines unanimously approved undertaking the original 31 gates in Concourse B. The initial 25 gates on Concourse A (known as Concourse West) were placed in service in September 2020 and the initial 21 gates on Concourse B (known as Concourse West) were placed in service in October 2020. As a result of the COVID-19 pandemic and the related downturn in passengers using the Airport, the Department, in consultation with the Signatory Airlines, modified the phasing schedule for the remainder of the construction of the New SLC. Rather than completing Concourses A and B in several phases while maintaining elements of the previous concourses in service, in the spring of 2020, the Department demolished all of the remaining previous terminal elements and decided to construct Concourse A East (22 gates) in a single phase. As a result, Concourse A East was completed in October 2023, more than two years ahead of the original schedule, which called for phased completion of Concourse A East through calendar year 2025. However, when the New SLC was rephased in 2020, the Department was not able to determine whether the additional gates in Concourse B East (10 gates) would be necessary to accommodate future demand and, accordingly, that portion of the NCP was suspended. As passenger traffic at the Airport began to rebound rapidly during the summer of 2020, and after consultation with the Signatory Airlines, the Department determined that the original NCP program with a total of 31 gates was necessary to accommodate the projected airline demand. Since 2020, even greater demand for gates at the Airport has led the Department, after consultation with Delta and the other Signatory Airlines, to undertake the full scope of Concourse B, with a total of 47 gates. The Department expects to complete construction of the final phase of Concourse B East and, therefore, of all gates in the New SLC, by October 2026.

On December 14, 2022, in accordance with the provisions of the AUA, Delta approved, on behalf of all Signatory Airlines, an amendment to the AUA that revised the project budget for the New SLC, and pursuant to a Second Amendment to the AUA, effective December 14, 2022 (the “**Second Amendment to AUA**”), Delta approved construction of the remaining 16 gates on Concourse B for an additional not to exceed amount of \$680,713,083. See “THE AIRPORT—Airline Use Agreement.”

The total budget for the New SLC is currently approximately \$5.13 billion (approximately \$2.83 billion for the TRP and approximately \$2.31 billion for the NCP). The demand for additional gates at the Airport by many of the air carriers, including Delta, caused the Department to undertake construction of the remaining portion of Concourse B as part of the New SLC project which resulted in an increase of the original budget for the New SLC. The cost increases in the New SLC budget since 2018 (originally estimated to be approximately \$3.6 billion) are primarily related to (i) changes to the original design requested by Delta and certain other Signatory Airlines, including construction of all 47 gates on Concourse B, (ii) increased costs of materials during the COVID-19 pandemic, and (iii) general increased construction costs in the Salt Lake City area. In addition, certain Signatory Airlines have elected to have the City finance construction of certain tenant finishes, for which such Signatory Airlines will reimburse the City over the remaining term of the airline’s AUA. As of the date of this Official Statement, all elements of the New SLC are subject to CGMP construction contracts. See “—Project Management of the New SLC” below.

Set forth on the following page is a photograph showing the major completed portions of the New SLC and the areas that remain under construction.

THE NEW SALT LAKE CITY
INTERNATIONAL AIRPORT

Upon completion of the New SLC, the Airport will have a total of 94 gates (47 gates on Concourse A and 47 gates on Concourse B), and four hardstand positions. All 94 gates will include jet bridges and be sized to accommodate, at a minimum, Boeing 737 or Airbus A320 aircraft, as well as smaller regional jets. This configuration will provide greater flexibility, efficiency and passenger convenience. In addition, at least six gates will have the capacity to accommodate the largest aircraft in service. The new, larger gates are designed to accommodate approximately 34 million passengers annually, more than triple the 11 million annual passengers the facilities replaced by the New SLC were originally designed to serve. For the calendar year 2024, the Airport handled a record approximately 28.4 million passengers (enplaned and deplaned passengers). Before construction of the New SLC commenced, the Airport was served by 86 gates, of which only 56 included jet bridges and the concourses were inefficient “finger piers” that had narrow entrance and exit taxiways that created delays for aircraft accessing or departing from the terminal.

As of the date of this Official Statement, there are 73 gate positions in service at the Airport, with the remaining 21 gate positions to be placed in service by October 2026. In October 2025, ten more gates on Concourse B East are expected to be placed in service, and by October 2026 the final eleven gates and four hardstand gates are expected to be placed in service. The following table shows the actual and expected dates of completion of the gates on Concourses A and B.

New SLC Gates

Location	Number of Gates	Completion (actual/expected)
Concourse A West	25	September 2020
Concourse B West	21	October 2020
Concourse A East	5	May 2023
Concourse A East	4	August 2023
Concourse A East	13	October 2023
Concourse B East	5	October 2024
Concourse B East	10	October 2025
Concourse B East	<u>11</u>	October 2026
Total Gates	<u>94*</u>	

* In addition to the 94 gates, the Department will construct four permanent hardstand positions that will be served from the eastern end of Concourse B East.

As of the date of this Official Statement, 68 of the current gates are leased on a preferential basis and five are not leased to any airlines but are used on a per operation basis by multiple airlines (“**Common Use**”). A preferential use lease gives the tenant air carrier the right to occupy and use the gate facilities for its scheduled operations but allows the Department to require the carrier leasing such space to accommodate operations by other air carriers when the gate is not in use for the lessee’s scheduled operations. Carriers are sharing gates in order to accommodate existing operations and, during peak periods, the Department has used its rights under the preferential use leases with Delta and other carriers to accommodate operations of other airlines.

As of the date of this Official Statement, Delta uses all 47 gates on Concourse A and four gates on Concourse B. All other airlines operating at the Airport, use gates on Concourse B. See Table 3-1 in “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Existing Airport Facilities” for additional information about the gate utilization at the Airport. Upon completion of the ten gates on Concourse B East in October 2025, Delta and Southwest will each use five of the gates. When the final eleven gates and four hardstand gates open in October 2026, United is expected to use five, Southwest is expected to use three and the Department is expected to use

three of the gates on a common use basis. Additionally, to accommodate peak periods and new entrant airlines, four hardstand positions will be served from the eastern end of Concourse B East with aircraft parking positions located immediately south of Concourse A.

Completed Elements of the New SLC

The New SLC will result in the replacement of essentially all of the landside and terminal complex facilities at the Airport with new, more efficient, safe and passenger-focused facilities. The following table shows the major elements of the New SLC that have been completed as of January 31, 2025.

Completed Elements of the New SLC

Project Element	Date Placed in Service	Cost (\$000s)	TRP or NCP
South Economy Parking Lot	October 2014	\$ 14,344	TRP
Rental Car Quick Turnaround and Remote Service Sites	January 2016	95,457	TRP
Central Utility Plant	September 2020	59,535	TRP
Terminal Facility	September 2020	787,979	TRP
Gateway Center	September 2020	126,153	TRP
Concourse A West—25 Gates	September 2020	422,742	TRP
Parking Garage	September 2020	241,872	TRP
Terminal Roadway System	September 2020	110,343	TRP
Related Infrastructure, Including Aprons, IT, Utilities and Landscaping	September 2020	220,392	TRP
Concourse B West—21 Gates	October 2020	420,073	NCP
Mid-Concourse Tunnel	October 2020	21,063	TRP
Concourse A East—5 Gates	May 2023	88,918	TRP
Ramp and Fuel Hydrants (associated with the 5 Gates on Concourse A East that opened in May 2023)	May 2023	34,252	TRP
Concourse A East—4 Gates	August 2023	99,007	TRP
Concourse A East—13 Gates	October 2023	260,406	TRP
Ramp and Fuel Hydrants (associated with the 20 Gates on Concourse A East that opened in October 2024)	October 2023	25,317	TRP
Concourse B East—5 Gates	October 2024	117,743	NCP
Ramp and Fuel Hydrants (associated with the 5 Gates on Concourse B East that opened in October 2024)	October 2024	25,496	NCP
Central Tunnel	October 2024	110,813	NCP
Total Cost of Completed Project Elements		<u>\$3,281,905</u>	

Source: Department records

A brief summary of the major elements of the New SLC that have been completed and placed in service is set forth below. Following the opening of the new Terminal and other elements of the TRP in September 2020, the Department demolished the original terminal buildings and concourses, the original parking garage, connectors and pedestrian bridges.

Terminal. The new Terminal facility was placed into service in September 2020. The new Terminal facility is contiguous to Concourse A, connected to the new parking garage via the new Gateway Center, and includes approximately 912,000 square feet (“*sf*”) of space on three levels. Level 1 of the Terminal contains a federal inspection services area (“*FIS*”), international baggage claim and recheck area,

ticket counters for remote passenger airline check-in, baggage drop services and security checkpoint screening, tenant administrative offices, a centralized security checkpoint for dedicated employee access, and ground transportation counters, and serves commercial curbs and other ground transportation functions. Level 2 provides passenger circulation areas and connects landside and airside components of the facility. Public areas prior to the security checkpoint provide for baggage claim and airline baggage service offices, an expansive meeter-greeter area, food and beverage retail concessions, and a centralized security screening checkpoint. Areas beyond security screening include the terminal plaza area, which consists of 79,000 sf of concessions, seating and circulation space and transitions to the airside concourses. Level 3 contains the ticketing area for departing passengers, administrative offices for the Department and other tenants at the Airport, and a portion of the Delta Sky Club. Departing passengers being dropped off at the Airport arrive on the Level 3 curb. The Airport is served by the TRAX light rail system, owned and operated by the Utah Transit Authority (“*UTA*”), which connects the Airport with downtown Salt Lake City. The Terminal was designed to accommodate relocation of the terminus of the TRAX light rail station at the first level of the Terminal. The TRAX extension was financed and built by UTA and became operational on October 26, 2021.

Gateway Center. The Gateway Center, which also opened in September 2020, is an elevated building adjacent to the north side of the parking garage that consists of approximately 126,000 sf of building space that connects the parking garage to the new Terminal facility. The Gateway Center houses a variety of functions, including both ticket counters and kiosks for remote passenger airline check-in and baggage drop services, rental car counters and check-in facilities, and rental car support offices. The Gateway Center provides a high level of customer service by seamlessly connecting passengers using the new parking garage (including those renting or returning rental cars) with the departures level of the Airport without a level change. Departing passengers are also able to obtain boarding passes at kiosks and check baggage in the Gateway Center adjacent to the garage, and arriving passengers are able to proceed directly to their automobiles or complete their rental car transaction and proceed directly to their rental car. The Gateway Center is connected to the Terminal via two pedestrian bridges and connected to the parking garage via two vestibules. Based on data collected by the Department, the Gateway Center was designed to serve most of the Airport’s origination and destination (“*O&D*”) passengers.

Concourse A West. The initial portion of Concourse A to be constructed was Concourse A West, which provides a total of 25 gates, six of which can accommodate international arrivals, and was placed into service in September 2020. This facility houses approximately 459,000 sf of building space on three levels. Level 1 (ground level) contains non-public areas that accommodate airline operations offices and support areas, outbound and transfer baggage facilities, storage facilities and mechanical-electrical-plumbing facilities. Level 2 consists of holdrooms and the primary passenger circulation level and serves enplaning and deplaning passengers. Passenger amenities on Level 2 include moving sidewalks and a wide variety of food, beverage and retail concessions. International gates connect to a sterile corridor that routes international passengers to the FIS facilities on Level 1 of the Terminal. Level 3 contains communications rooms and other non-public space.

Concourse A East. Concourse A East was completed in October 2023, with 22 domestic aircraft gate positions. This facility has three levels and is comprised of approximately 371,000 sf of space. Level 1 of Concourse A East contains non-public areas similar to Concourse A West. Level 2 of the facility serves enplaning and deplaning passengers, and includes passenger amenities similar to Concourse A West. Level 3 contains a portion of the 29,000 sf Delta Sky Club and contains non-public areas similar to Concourse A West.

Concourse B West. Concourse B West, consisting of 21 gates, opened for service in October 2020. It consists of approximately 361,000 sf of building space on two main levels, plus a third level for non-public support areas similar to Concourse A, apron site work and paving, and hydrant fueling. Level 1 of

Concourse B West contains non-public areas substantially similar to Concourse A, while Level 2 serves enplaning and deplaning passengers, and includes holdrooms and passenger amenities similar to Concourse A. The existing west mid-concourse tunnel was extended from Concourse A West to Concourse B West and provides pedestrian access to Concourse B.

Concourse B East. Five gates in Concourse B East opened for service in October 2024. See “Elements of the New SLC Under Construction – Concourse B East below.

Central Passenger Tunnel. A central passenger tunnel connecting Concourse B to Concourse A, opened in October 2024. The tunnel is 132,612 square feet and consists of four cells. One cell for passenger movement, one cell for outbound baggage handling and two cells for a future automated people mover.

Rental Car Facilities. The rental car service facilities were placed in service in March 2016. These facilities consist of the QTA for fueling and washing cars and three facilities for performing light vehicle maintenance. The QTA is a two-level building of approximately 468,000 sf with 14 wash and service bays on the first floor and vehicle storage and parking on the second floor. The RSS consists of three single-story service buildings containing a total of approximately 34,000 sf of building space located south of the QTA. These buildings provide back-of-house maintenance areas for the rental car providers and contain office, support and storage space.

Parking Garage and South Economy Parking Lot. The new parking structure was placed into service on September 15, 2020. The new parking garage (the “**Parking Garage**”) is a five-level concrete structure with a footprint of approximately 365,000 sf and a total gross square footage of approximately 1.42 million sf. Levels 2 through 5 of the Parking Garage provide 3,469 public parking spaces, doubling the number of structured parking spaces previously located at the Airport. The first floor is dedicated to rental car operations and contains approximately 1,200 ready/return parking spaces. Upper floors are served via two helical ramps.

In addition to the new Parking Garage, the Airport has a substantial amount of surface parking available for Airport patrons, including a new surface parking area located east of the new parking structure (“**Lot E**”) within walking distance of the Terminal. Lot E includes 384 parking spaces. The South Economy Parking Lot opened in July 2014 and consists of approximately 2,900 additional parking spaces replacing the economy parking that was displaced by the construction of the new rental car facilities. The South Economy Parking Lot is integrated with the remainder of the Economy Parking Lot.

The Department now has a total of 14,401 commercial parking spaces (excluding employee, Park and Wait, and rental car spaces) located on the Airport, an increase of over 2,500 spaces compared to 2014. This increase is primarily because of the increased number of spaces in the new parking structure. The Department has retained its variety of parking products, ranging from premium, reserved spaces closest to the new Terminal to economy spaces in remote lots and including a variety of intermediate options, including covered and structured parking and hourly or daily rates.

Central Utility Plant. The CUP, a 52,000 sf building, houses all main boilers and chillers as well as electrical systems to service the terminal complex, consisting of the new Terminal, Gateway Center, Concourses A and B, Parking Garage, roadways and rental car facilities, and other applicable Airport systems connected to this facility, including pumping systems, electrical equipment, distribution equipment and emergency generators. The CUP is a stand-alone building located west of the QTA. The CUP was turned over to the Department on May 1, 2020 for testing and is in service and provides heating, cooling and electrical service to the Airport.

Terminal Roadway System. This project element of the New SLC includes all roadways, bridges and signage to service the new terminal complex and support areas. The departing passenger roadway is an elevated bridge system with vehicle access to the Level 3 Terminal curb-front. Other elements of this component include the arriving passenger roadways which access the Terminal at Level 1, commercial vehicle roads, rental car user and service roads, and access to and from the parking facilities. The new permanent roadways became operational in September 2020.

Supporting Elements. The New SLC includes substantial supporting elements, such as apron site-work and paving, demolition and landscaping, and extensive information technology infrastructure. The apron site-work includes all airfield site demolition, utility relocation and apron paving required to enable the redevelopment of the terminal complex, including Concourses A and B. Included in this project element are hydrant fueling and utilities including power, water and sewer. Also included is landside landscaping work such as entry and exit landscaping and planting of undeveloped areas.

Information technology (“***IT***”) components are an integral element of the New SLC and have been and will be incorporated throughout the facilities and project site. Elements in this scope of work include IT infrastructure, IT systems including building systems, parking revenue control and related vehicle control systems, and operating systems. Other associated systems being added or updated as part of the New SLC include baggage information display systems, flight information display systems, gate information display systems, lobby information display systems and ramp information display systems.

Elements of the New SLC Under Construction

The following table shows the major elements of the New SLC (nearly all of which are part of the NCP) yet to be completed, project status, the actual or expected date on which construction of such element has or will commence and the expected date of beneficial occupancy for each project element. All elements of the New SLC are now subject to CGMP construction contracts.

[Remainder of page intentionally left blank.]

Elements of the New SLC to be Completed as of July 1, 2025
(dollars in \$000s)

Project Element	Actual/ Expected Cost¹	Project Status	Actual/Expected Commencement of Construction	Actual/Expected Date of Beneficial Occupancy
Concourse B East (Phase III -10 Gates)	\$412,272	In Service (50%) Under Construction (50%)	April 2022	October 2024 (5 Gates) October 2025 (5 Gates)
Concourse B East (Phase IV - 16 Gates)	490,756	Under Construction (100%)	February 2023	October 2025 (5 Gates) October 2026 (11 Gates)
NCP Baggage Handling System (Phases II, III and IV)	70,820	In Service (41%) Under Construction (59%)	June 2018	October 2020 October 2024 October 2025 October 2026
Apron (Phases II, III and IV) ²	355,471	In Service (80%) Under Construction (20%)	Phased	October 2025 October 2026
Hydrant Fueling System (Phases II, III and IV) ²	43,137	In Service (80%) Under Construction (20%)	Phased	October 2024 October 2025 October 2026
Total Remaining New SLC (Including remaining Owner's Reserve of \$7,616)	<u>\$1,426,981</u>			

¹ Includes allocable portion of soft costs.

² Portions of the terminal apron and fuel system to be bid and constructed annually; segments expected to be completed to support opening of related concourse facilities.

A brief summary of the major elements of the New SLC under construction (mainly the remaining phases of the NCP) are set forth below.

Concourse B East. Concourse B East is planned to consist of approximately 336,000 sf of building space on two main levels, plus a third level for club space and non-public support areas similar to Concourse A, apron site work and paving, and hydrant fueling. Level 1 of Concourse B East will contain non-public areas substantially similar to Concourse A, although a portion of Level 1 will be used as holdrooms for the four permanent hardstands to be constructed, while Level 2 will serve enplaning and

deplaning passengers, and will include holdrooms and passenger amenities similar to Concourse A. Level 3 is planned to include another Delta Sky Club of approximately 34,000 sf, an approximately 8,100 sf of United club (its first club at the Airport) and an approximately 16,000 sf American Express Centurion Lounge.

Concourse B East is planned to add an additional 26 aircraft gate positions, in three stages, and will complete the currently planned construction with a total of 47 gates. Concourse B East is being constructed in phases: (i) five gates opened in October 2024; (ii) ten additional gates are expected to be operational in October 2025; and (iii) the final 11 gates are expected to become operational by October 2026. Once Concourse B is completed, Delta is expected to occupy all of Concourse A and all of the remaining airlines operating at the Airport are expected to operate from Concourse B, including use of some gates by Delta. At completion of the New SLC, all air carriers at the Airport are expected to operate from substantially similar, new and efficient terminal facilities.

Supporting Elements. The supporting elements associated with Concourse B East will also be constructed in concert with the eastern portion of the Concourse. These include apron site-work and paving, demolition, and extensive information technology infrastructure. The apron site-work includes all airfield site demolition, utility relocation and apron paving required to enable the development of Concourse B East. Included in this project element are hydrant fueling and utilities including power, water and sewer and an additional four permanent hardstands, served from Level 1 of Concourse B East.

Project Management of the New SLC

Controls. The Department has established a multi-layered project management team for the New SLC. R.W. Block Consulting, Inc., subsequently acquired by Anser Advisory, which was subsequently acquired by Accenture (“**Accenture**”) prepared the Plan of Execution that includes a plan for program management and delivery of the New SLC. Under the Plan of Execution, the program management team is competitively procured through pre-qualifying a limited number of firms and then undertaking separate procurements by soliciting responses from the pre-qualified firms for each of the key roles identified in the plan. The Plan of Execution also envisions contracting with a flexible team of experts to manage the specific elements of the New SLC so that, for example, when the rental car facilities were completed and the project management roles for that project element were no longer required, the contracts for such services were terminated. The external project management team is overseen and complemented by Department staff.

The Department has established two committees consisting of Department Directors to oversee all capital projects at the Airport, including the New SLC. The Financial Oversight Committee (“**FOC**”) is chaired by the Department’s Chief Financial Officer and includes the Director of Airport Design and Construction Management and Chief Operating Officer as the other members. Before any construction contract for a project at the Airport may proceed, the FOC must authorize the funding for that project, including the source of funds. Before work may commence on any project, the Construction Committee (“**CC**”) must authorize the execution of the construction contract, including each of the CGMP contracts for the New SLC. The CC is chaired by the Director of Airport Design and Construction Management and includes the other members of the FOC and the Directors of Maintenance, Planning and Environmental, and Real Estate and Commercial Development. The FOC and CC each meet bi-monthly in scheduled sessions and minutes are taken and published. This formal review process entails a rigorous and comprehensive examination of all capital projects undertaken by the Department and helps identify and address differences between estimated and actual construction costs at an early stage in the approval process.

The Program Director for the New SLC, Making Projects Work, Inc. (a company specializing in airport project management), reports directly to the Department's Executive Director and serves as the owner's authorized representative under the CMAR Contracts described below. Accenture remains engaged as an independent consultant overseeing financial and program controls and Accenture also reports directly to the Executive Director. Ten separate firms, including Making Projects Work, Inc. and Accenture, have been prequalified to participate in competitive processes for selection of key project management staff. To date, this process has resulted in selection of an external program management team that peaked at 59 persons from the 10 different pre-qualified firms and, as of March 2025, consisted of 39 staff. The program management team is adjusted as elements of the New SLC are completed.

The interests of the Signatory Airlines are represented by an Airline Technical Representative ("**ATR**"), whose rights and responsibilities are set forth in the AUA and who is resident in the City for the duration of the New SLC project. The ATR was formerly a Delta employee and is now employed by the program management team. The ATR must be included in development of contract documents for the New SLC, discussions relating to cost controls and design changes. See "THE AIRPORT—Airline Use Agreement—The New SLC and Other Construction Projects" below.

The Department entered into Construction Manager at Risk ("**CMAR**") Contracts with two joint ventures, one with Holder-Big-D Construction, a joint venture ("**HDJV**"), for the TRP and the other with Austin Commercial and Okland Construction Company joint venture ("**AOJV**") for the initial phase of the NCP, to help manage its risk for cost increases and project delays. As a result of the rephrasing of the New SLC and the temporary postponement of the second phase of the NCP, the CMAR Contract with AOJV was terminated for convenience. AOJV's work under its CMAR Contract has been completed and AOJV has de-mobilized. HDJV added the final phases of the NCP and portions of the Central Tunnel to its existing CMAR Contract.

The CMAR bids separate CGMP contracts for specified elements of the New SLC. The New SLC has been broken down into CGMP contracts between the Department, on behalf of the City, and the joint venture undertaking that element of the New SLC. Each CGMP is designed and bid separately and is subject to review and approval by the Department prior to execution. There are twelve CGMPs for the TRP and thirteen for the NCP. Each CGMP constitutes an amendment to the applicable CMAR Contract that provides that the CMAR will construct the elements of the New SLC described in the scope of the applicable CGMP for a guaranteed maximum price, within the schedule set forth in the CGMP and in accordance with the applicable CMAR Contract. The Department pays only the costs incurred under the CGMP, up to the guaranteed maximum price. Absent scope changes, should the costs exceed the guaranteed maximum price, the CMAR is liable for the excess costs, with no reimbursement from the Department, absent certain specified conditions. This structure provides the Department with a reasonable degree of certainty regarding the cost of the project and limits cost overruns without Department approval. The timing, completion date and guaranteed maximum price for the work elements under each CGMP may only be changed by a CGMP amendment, which requires the approval of the Department. The CMAR Contracts also require the CMAR to provide specified pre-construction and general conditions services during its term. As of April 1, 2025, 100% of the TRP and 99.9% of the NCP by project cost is subject to an executed CGMP and over \$4.634 billion has been expended on New SLC project costs.

Design. HOK (formerly Helmuth, Obata & Kassabaum, Inc.) is the lead design firm for the New SLC. HOK leads a team of 14 architect and engineering subconsulting firms that provide all of the planning, engineering and design services for the New SLC.

Construction. HDJV, comprised of Holder Construction Company and Big-D Construction, was selected through a competitive process to undertake construction services for the TRP pursuant to a CMAR Contract. Subsequently, the final phases of the NCP and portions of the Central Tunnel were added to

HDJV's CMAR Contract. The HDJV CMAR Contract had an initial term of five years commencing October 25, 2013, and may be extended at the Department's sole option. The Department has exercised extension options and extended the term of the HDJV CMAR Contract on an annual basis through October 2033, with the option to cancel with 60 days' notice prior to the expiration of the current extension. In addition, the contract with HDJV can be terminated at various points in the program and a new CMAR selected, at the option of the Department.

Before the Department enters into a CGMP, the FOC must approve the guaranteed maximum price and the CC must approve the scope of the work of the CGMP and recommend to the Executive Director that the CGMP be approved and executed. The CMAR Contracts provide for a formal dispute resolution process that must be undertaken in the event of a disagreement between the Department and HDJV before any legal action may be commenced. In the CMAR Contracts, HDJV has acknowledged that it is not entitled to receive any work under the applicable Contract and has waived all claims for anticipated profits and other claims associated with the Department's decision not to proceed with the New SLC, any CGMP or any portion thereof. All subcontracts must be competitively awarded and the subcontracts are held by HDJV, and expressly provide that the Department has no contractual relationship with the subcontractors. HDJV may bid upon and receive up to 20% of the contracts under each CGMP, but only if it submits the lowest bid in a competitively bid process and receives the approval of the Department, and the remaining portions of each CGMP must be undertaken by unrelated parties to HDJV.

Each CGMP is for a fixed price under which HDJV bears most risks of cost increases. As of March 31, 2025, each of the executed CGMPs is on or below its fixed amount. However, the CMAR Contracts provide for time extensions under certain limited circumstances. These include changes requested by the Department after the CGMP is executed, unknown conditions that were not foreseeable at the time the CGMP was executed, delays caused by the Department, weather conditions outside of the ten-year mean, or force majeure events and remediation of hazardous materials. Delays because of labor disputes may not result in an extension of time. If a Joint Venture suffers a delay because of one of these permissible events, the CMAR Contract includes a process for determining the period of an extension, which cannot exceed one day for each day of delay and requires the Joint Venture to mitigate delays to the extent possible. In no event are damages permitted beyond the extension of time, such as loss of profits; indirect, incidental, consequential or special damages; or acceleration costs not approved by the Department, permitted.

Other Capital Projects

Other capital projects currently anticipated by the Department to be undertaken or completed during the period that the various elements of the New SLC will be under construction consist primarily of on-going capital improvements to existing landside and airside facilities. Cost estimates for the other projected capital projects, as well as an allowance for yet unidentified projects for maintaining the Airport in a state of good repair, during the period from FY 2026 through FY 2031 total approximately \$589.6 million. These projects primarily are expected to maintain the Airport's airside and landside infrastructure in good repair over the period of construction of the New SLC, as well as provide for improvements to the facilities at the Auxiliary Airports. Projects expected to be undertaken during FY 2026 and 2027 include partial reconstruction of the Airport's taxiways E and F, design and construction of a new Crossfield Taxiways U and V and associated underpasses, design and construction of the South Employee parking lot and canal realignment, and decommissioning of Runway 14-32, among numerous other projects. The Department may defer or elect not to undertake a portion of the capital projects included in other capital projects during the projection period, depending on circumstances such as aviation demand levels and availability of project funding.

Funding Sources for the New SLC and Other Capital Projects

Overview. The New SLC and the projects in the Other CIP have been and are being funded from a variety of sources, including Department funds, proceeds of the Existing Bonds, the Series 2025 Bonds and the Subordinate Revolving Obligations, PFCs, CFCs, and grant funds from the FAA Airport Improvement Program (“AIP”), the Transportation Security Administration (“TSA”) Other Transaction Agreement (“OTA”), and the Infrastructure Investment and Jobs Act (also known as the “**Bipartisan Infrastructure Bill**,” or “**BIL**”). The Department has applied PFCs to pay-as-you-go projects in prior years, but is now applying most PFCs collected to pay debt service on a portion of the Existing Bonds. The Department does not expect to use PFCs to pay debt service on the Series 2025 Bonds. CFCs being collected are applied to reimburse the Department for the costs, including imputed interest, of eligible facilities serving the rental car companies that are now in service and that were funded with Department funds.

The table below describes the various projected sources of funds that are expected to be used to fund the New SLC as well as the other capital projects (the “**Other CIP**”). This mix of funding sources is expected to maintain the Airport’s cost per enplaned passenger at a rate comparable to other Delta hub airports. These amounts reflect the sums of funds actually expended and anticipated future expenditures. In the AUA, the City has agreed not to recover the portions of the New SLC funded with Department funds, and none of the project costs funded with AIP or BIL grants, PFCs or CFCs are included in the airline rate base or recovered through airline rates and charges. Following the issuance of the Series 2025 Bonds, the City does not expect to issue any additional Bonds to pay the costs of the New SLC or the projects included in the Other CIP.

	Expected Sources of Funds for the New SLC and Other Capital Projects (dollars in 000s)						
	Department Funds	Existing Bonds ^{1,2}	Series 2025 Bonds	Pay-Go PFCs	Pay-Go CFCs	TSA OTA/ AIP/ BIL Grants	Total ³
TRP	\$266,014	\$1,965,240	\$ 0	\$332,838	\$199,855	\$ 62,747	\$2,826,693
NCP	242,862	1,317,167	520,138	0	0	228,114	2,308,280
<i>Total New SLC³</i>	<i>\$508,876</i>	<i>\$3,282,406</i>	<i>\$520,138</i>	<i>\$332,838</i>	<i>\$199,855</i>	<i>\$290,860</i>	<i>\$5,134,973</i>
Other CIP	345,083	0	30,000	0	8,013	206,500	589,596
Total: ¹	<u>\$853,959</u>	<u>\$3,282,406</u>	<u>\$550,138</u>	<u>\$332,838</u>	<u>\$207,868</u>	<u>\$497,360</u>	<u>\$5,724,569</u>

¹ Includes interest earnings

² As of July 1, 2025, all proceeds of the Existing Bonds have been expended.

³ Totals may not add due to rounding.

Department Funds. The Airport derives revenues from a wide variety of non-aeronautical sources, including parking, rental car fees, concessions fees and ground transportation fees. Beginning in 1997, the City began reserving excess non-airline revenues in anticipation of undertaking the New SLC and other capital projects, and as of March 31, 2025, the City maintained a balance of approximately \$137 million in the Surplus Fund (unaudited) available for future development of the Airport System. The Department has been expending such retained amounts since commencing the New SLC program in 2014. Beginning in FY 2022, the Department determined to use additional money on deposit in the Surplus Fund for New SLC project costs rather than retain such funding as reserves. The Department regularly applies its internally generated funds for project costs and the Department expects to continue reimbursing itself from CFCs and AIP, BIL and OTA grant funds during the construction of the New SLC. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance.”

Airport Revenue Bonds and Subordinate Revolving Obligations. The City expects to fund the New SLC with approximately \$3.3 billion of proceeds of the Existing Bonds and \$520.1 million of proceeds of the Series 2025 Bonds. The Department expects to fund one of the projects in the Other CIP (Crossfield Taxiways U and V) with approximately \$30.0 million of proceeds of the Series 2025 Bonds. Following the issuance of the Series 2025 Bonds, the City does not expect to issue any additional Bonds to pay the costs of the New SLC or any of the remaining projects included in the Other CIP. Portions of the debt service payable on the Bonds are expected to be paid with PFCs. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance.”

The City issues, from time to time, Subordinate Revolving Obligations to provide interim financing for certain costs of the New SLC program. As of July 2, 2025, the City had \$200,000,000 of Subordinate Revolving Obligations outstanding. A portion of the proceeds of the Series 2025 Bonds will be used to repay all of the outstanding Subordinate Revolving Obligations. The Subordinate Revolving Obligations provide the City with rapid access to capital, greater funding certainty and additional financial flexibility. See “SECURITY FOR THE SERIES 2025 BONDS—Subordinate Obligations (Subordinate Revolving Obligations).”

PFCs. As of March 31, 2025, the City has received approval from the FAA to impose and use \$2.65 billion of PFCs for projects at the Airport including the TRP, and the City expects to fund approximately \$332.8 million of the costs of the TRP with PAYGO PFCs, out of a total of \$1.38 billion of PFCs approved for the TRP. In addition, to the extent authorized by the FAA, the City has applied and expects to continue to apply in the future for additional PFCs to pay principal of and interest on a portion of the Existing Bonds (the Department does not expect to use PFCs to pay debt service on the Series 2025 Bonds). The City is authorized to collect a PFC of \$4.50 from eligible passengers enplaning at the Airport, of which \$0.11 is retained by the collecting air carriers as a handling fee. Federal law restricts the use of PFCs to certain kinds of projects and, accordingly, based on current FAA approvals, PFCs may only be used for certain elements of the TRP, including portions of Concourse A, and airside project elements. As of the date hereof, the City has not sought and does not expect to seek approval from the FAA to apply PFCs to the costs of the NCP. See “INVESTMENT CONSIDERATIONS—PFC Revenues and Other Funding Sources.” PFCs are excluded from the Net Revenues securing the Bonds pledged under the Master Indenture, but the City may, by execution of a Supplemental Indenture or a certificate of designation, pledge or otherwise commit PFCs to secure payment of specified Bonds. See “SECURITY FOR THE SERIES 2025 BONDS—Use of PFCs To Pay Debt Service.” See also, “INVESTMENT CONSIDERATIONS—PFC Revenues and Other Funding Sources.”

As of March 31, 2025, the Department had collected approximately \$1.135 billion and expended approximately \$1.091 billion of its total approved PFC collections on approved projects, including \$332.8 million of pay-as-you-go PFCs for elements of the TRP. The Department expects to expend the majority of PFCs currently on hand plus a portion of PFCs collected in future years for payment of principal of and interest on Existing Bonds issued to fund PFC-eligible TRP elements. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—CIP Plan of Finance.”

CFCs. The City requires rental car companies to collect a CFC of \$5 per transaction day, limited to 12 days per contract, from persons renting automobiles at the Airport. The City applied a total of approximately \$199.9 million of CFCs to pay certain costs of the TRP, either directly or to reimburse the City for eligible costs previously funded with Department funds. Although federal law does not restrict the use of CFCs, a City ordinance limits the use of CFCs only to financing capital improvements at the Airport that support rental car services, including a pro rata share of joint use infrastructure such as roadways, the portions of the Parking Garage needed for ready/return facilities, funding debt service associated with rental car facilities or funding the City’s costs for such other rental car related purposes as the City may determine. The Department expects to use approximately \$8.0 million of CFCs between Fiscal Years 2026 and 2031

to pay for certain eligible costs of capital projects at the Airport included in the Other CIP. CFCs are excluded from Net Revenues and the Department does not expect to issue any CFC revenue bonds. The City also currently does not expect to apply proceeds of the Bonds to finance rental car facilities or, accordingly, to pay debt service on Bonds with CFCs. The Department has applied CFCs to the costs of the portion of Parking Garage that serves rental car companies, and elements of the roadway system serving the rental car facilities. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance.”

AIP, BIL, and TSA Grants. The Department expects to apply \$173.1 million of AIP grant funds to fund eligible costs of the New SLC. In addition, the TSA provides certain grant funds through OTAs for in-line baggage screening systems, and the Department anticipates receiving \$15.2 million from the TSA for that element of the TRP. The grant funding available to airports under the BIL falls into two categories: The BIL provided for two different kinds of capital grants over the five year term of the program, from federal fiscal year (“**FFY**”) ending September 30, 2022, through the FFY ending September 30, 2026. The first are Airport Infrastructure Grant (“**AIG**”) funds, which are allocated similar to AIP funds on the basis of enplaned passengers and operational metrics, and Airport Terminal Program (“**ATP**”) funds, which are subject to annual competitive allocation. The Department expects to receive approximately \$25.2 million in BIL AIG grant funds annually over the five year period, which it expects to apply to portions of the New SLC and to other capital improvements at the Airport. The Department has been awarded \$69.4 million from the ATP program and has received a total of \$54.4 million to date, which is being applied to construction of Concourse B East. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Airport Facilities and Capital Improvement Program—Plan of Finance.”

The City receives grants annually from the FAA pursuant to the AIP and also receives OTA funding from the TSA from time to time. The AIP grants generally fall into two categories: (a) entitlement grants, which are awarded based upon the number of passengers enplaned at the Airport as well as entitlement grants based on air cargo throughout at the Airport; and (b) discretionary grants, which are awarded at the discretion of the FAA based upon specified criteria, including a cost-benefit analysis. Similar to many federal grant-in-aid programs, AIP grants are reimbursement grants. Accordingly, the Department must expend its own cash to fund an authorized project and then submit invoices to the FAA for reimbursement of such costs pursuant to the terms of the grant. Thus, while grants may be awarded in one fiscal year, grant funds may be received over a period of several subsequent fiscal years. For a description of the AIP program, see “INVESTMENT CONSIDERATIONS—FAA Reauthorization and Federal Funding.”

The Department will continue its practice of fully utilizing the AIP entitlement grants that are awarded to it to maintain and improve the Airport System, and of aggressively seeking FAA discretionary grants for AIP-eligible projects. Based on communications with the FAA, the Department currently expects \$150,000 in annual AIP entitlement grants for each of the Auxiliary Airports. For Fiscal Years 2020 through 2024, the Department was awarded \$147.4 million in FAA AIP grants for projects including conducting an airport master plan study, and runway, taxiway and apron pavement rehabilitation work. The Department received \$47.0 million in AIP grant funds in FY 2024. However, there can be no assurance that additional grants from the FAA or TSA will be available in the future. See “INVESTMENT CONSIDERATIONS—FAA Reauthorization and Federal Funding.”

SECURITY FOR THE SERIES 2025 BONDS

Pledge of Net Revenues

The Series 2025 Bonds are limited obligations of the City payable solely from and secured by a pledge of and lien on Net Revenues, certain funds and accounts held by the Trustee under the Indenture,

and other amounts payable under the Indenture. The Series 2025 Bonds will be secured by a pledge of and lien on Net Revenues on parity with the Existing Bonds, and any additional Bonds issued in the future.

“Net Revenues” are defined in the Master Indenture to mean, for any given period, the Revenues for such period, less the Operation and Maintenance Expenses of the Airport System for such period.

“Operation and Maintenance Expenses of the Airport System” or **“O&M Expenses”** are defined in the Master Indenture to mean, for any given period, the total operation and maintenance expenses of the Airport System as determined in accordance with generally accepted accounting principles as in effect from time to time; including any costs of Credit Facilities and Liquidity Facilities; but excluding depreciation expense and any operation and maintenance expenses of the Airport System payable from moneys other than Revenues, including, but not limited to, any non-cash items that are required to be treated as operation and maintenance expenses of the Airport System in accordance with generally accepted accounting principles.

The Department operates the Airport and the Auxiliary Airports as the Airport System. The Master Indenture includes the operation and maintenance costs and revenues of the Auxiliary Airports within the definitions of “Operation and Maintenance Expenses of the Airport System” and “Revenues.” None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Bonds, and neither the full faith and credit nor the taxing power of the City, the State or any political subdivision or agency of the State is pledged to the payment of the principal of or interest on the Bonds.

“Revenues” are defined in the Master Indenture to include, among other things, except to the extent specifically excluded therefrom, all income, receipts, earnings and revenues received by the City from the operation and ownership of the Airport System for a given period, as determined in accordance with generally accepted accounting principles, as modified from time to time, including, but not limited to, (a) rates, tolls, fees, rentals, charges and other payments made to or owed to the City for the use or availability of the Airport System; (b) amounts received or owed from the sale or provision of supplies, materials, goods and services provided by or made available by the City, including rental or business interruption insurance proceeds, received by, held by, accrued to or entitled to be received by the City or any successor thereto from the possession, management, charge, superintendence and control of the Airport System and its related facilities or activities and undertakings related thereto or from any other facilities wherever located with respect to which the City receives payments which are attributable to the Airport System or activities or undertakings related thereto; and (c) Other Pledged Revenues. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE I: DEFINITIONS; INTERPRETATION” for a more complete definition of Revenues. CFCs and Capitalized Interest, among other things, are specifically excluded from Revenues unless otherwise designated as Other Pledged Revenues pursuant to a certificate of the City or in a Supplemental Indenture. PFCs also are specifically excluded from Revenues, but may be applied to pay principal of and interest on Bonds as described below. The City has not designated or pledged pursuant to a certificate or a Supplemental Indenture any PFCs to the payment of Bonds. However, see “—Use of PFCs To Pay Debt Service” below for a discussion of the City’s past use of and future expectation to use PFCs to pay a portion of the debt service on the Outstanding Bonds and the Series 2025 Bonds. Additionally, a portion of the interest on the Series 2023A Bonds is payable from Capitalized Interest through October 31, 2025, and a portion of the interest on the Series 2025 Bonds will be payable from Capitalized Interest through July 1, 2028.

Flow of Funds

The City has created and holds and maintains a special fund designated as the Revenue Fund into which all Revenues and other moneys and funds not included in Revenues are deposited. Pursuant to the Master Indenture and the Master Subordinate Indenture, the City has agreed to continue to hold and

maintain the Revenue Fund. Additionally, pursuant to the Master Indenture and the Master Subordinate Indenture, the City has covenanted and agreed to establish, hold and maintain the Revenue Account within the Revenue Fund. As long as there are any Outstanding Bonds or Outstanding Subordinate Obligations, all Revenues will be deposited in the Revenue Account and will be set aside for the payment of the following amounts or deposited or transferred to the following funds, accounts and subaccounts in the following order of priority:

FIRST: to the Operation and Maintenance Subaccount. On or prior to the third Business Day of each month, the City shall deposit Revenues to the Operation and Maintenance Subaccount in an amount equal to one-twelfth of the estimated Operation and Maintenance Expenses of the Airport System for the then current Fiscal Year as set forth in the budget of the City for such Fiscal Year as finally approved by the City. In the event that the balance in the Operation and Maintenance Subaccount at any time is insufficient to make any required payments therefrom due and payable between the third Business Day of the then current month and the second Business Day of the immediately succeeding month, additional Revenues at least sufficient to make such payments shall immediately be deposited in the Operation and Maintenance Subaccount from the Revenue Account.

SECOND: to the Debt Service Funds. Except as otherwise provided in a Supplemental Indenture, on or prior to the third Business Day of each month, a sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, except as to timing of payment, to the Trustee for deposit to the Debt Service Funds in the amounts, at the times and in the manner provided in the Master Indenture to provide for the payment of principal and interest to become due on the Outstanding Bonds. In addition to the deposit of Revenues to the Debt Service Funds, the City shall transfer any applicable Pledged Passenger Facility Charges and/or Passenger Facility Charges Available for Debt Service to the Trustee for deposit to the applicable Debt Service Fund in accordance with the provisions of the applicable Supplemental Indenture and/or a certificate of the City as provided in the Master Indenture. Except as otherwise provided in a Supplemental Indenture, the amount of Revenues, Pledged Passenger Facility Charges, if any, and Passenger Facility Charges Available for Debt Service deposited each month shall equal one sixth of the full amount required to pay the interest on the Outstanding Bonds next coming due and one twelfth of the principal amount and/or sinking fund installment of the Outstanding Bonds next coming due.

THIRD: to the Common Debt Service Reserve Fund and Series Debt Service Reserve Funds. On or prior to the third Business Day of each month, a sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, to the Trustee for deposit to the Common Debt Service Reserve Fund at the times and in the amounts provided in the Master Indenture, and to any Series Debt Service Reserve Fund at the times and in the amounts set forth in the Supplemental Indenture pursuant to which such Series Debt Service Reserve Fund is created. See “—Common Debt Service Reserve Fund” below.

FOURTH: to the Subordinate Obligation Debt Service Funds. Except as otherwise provided in a Supplemental Subordinate Indenture, on or prior to the third Business Day of each month, a sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, except as to timing of payment, to the Subordinate Trustee for deposit to the Subordinate Obligation Debt Service Funds in the amounts, at the times and in the manner provided in the Master Subordinate Indenture to provide for the payment of principal and interest to become due on the outstanding Subordinate Obligations. In addition to the deposit of Revenues to the Subordinate Obligation Debt Service Funds, the City shall transfer any applicable Pledged Passenger Facility Charges and/or Passenger Facility Charges Available for Debt Service to the Subordinate Trustee for deposit to the applicable Subordinate Obligation Debt Service Fund in accordance with the provisions of the applicable Supplemental Subordinate Indenture and/or a certificate of the City as provided in the Master Subordinate Indenture. Except as otherwise provided in a

Supplemental Subordinate Indenture, the amount of Revenues, Pledged Passenger Facility Charges, if any, and Passenger Facility Charges Available for Debt Service deposited each month shall equal one sixth of the full amount required to pay the interest on the outstanding Subordinate Obligations next coming due and one twelfth of the principal amount and/or sinking fund installment of the outstanding Subordinate Obligations next coming due.

FIFTH: to the Subordinate Obligation Debt Service Reserve Funds. On or prior to the third Business Day of each month, a sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, to the Subordinate Trustee for deposit to any debt service reserve fund established by or for the benefit of the City in connection with any Subordinate Obligations, provided, however, no Revenues shall be transferred by the City to the Subordinate Obligation Trustee for deposit to any debt service reserve fund established by or for the benefit of the City in connection with any Subordinate Obligations if amounts (including any Debt Service Reserve Fund Surety Policy) in the Common Debt Service Reserve Fund are not sufficient to meet the Reserve Requirement or amounts (including any Debt Service Reserve Fund Surety Policy) in any Series Debt Service Reserve Fund are not sufficient to meet the applicable Reserve Requirement for such Series Debt Service Reserve Fund. No Subordinate Obligation Debt Service Reserve Fund has been, or is expected to be, established for the Subordinate Revolving Obligations.

SIXTH: to the Operation and Maintenance Reserve Subaccount. On or prior to the third Business Day of each month, sufficient Revenues shall be deposited to the Operation and Maintenance Reserve Subaccount to fund any deficiency in the Operation and Maintenance Reserve Subaccount in accordance with the Master Indenture and the Master Subordinate Indenture.

SEVENTH: to the Renewal and Replacement Subaccount. On or prior to the third Business Day of each month, sufficient Revenues shall be deposited to the Renewal and Replacement Subaccount to fund any deficiency in the Renewal and Replacement Subaccount in accordance with the Master Indenture and the Master Subordinate Indenture.

EIGHTH: to the Rolling Coverage Account. On or prior to the third Business Day of each month, at the discretion of the City, Revenues may be deposited to the Rolling Coverage Account in an amount determined by the City to fund the Rolling Coverage Account in accordance with the Master Indenture and the Master Subordinate Indenture.

NINTH: to the Surplus Fund. At the discretion of the City, all or a portion of the remaining Revenues may be deposited to the Surplus Fund to be used for any lawful Airport System purpose.

Pursuant to the Master Indenture and the Master Subordinate Indenture, the City has created, within the Revenue Fund, separate funds, accounts or subaccounts for the deposit of CFCs and PFCs that have not been designated as Revenues. See “—Use of PFCs To Pay Debt Service” below for a discussion of the City’s expectation to use PFCs to pay a portion of the debt service on Bonds, including the Series 2025 Bonds.

[Remainder of page intentionally left blank.]

The following chart provides a graphic presentation of the flow of funds under the Master Indenture and the Master Subordinate Indenture upon the receipt of Revenues.

*Maintained within the Revenue Account of the Department. (1) Revenues do not include PFC or CFC revenues.
 **Held and maintained by the Trustee.
 ***Held and maintained by the Subordinate Trustee.

Rate Covenant

The City has covenanted in the Master Indenture that, while any of the Bonds (including the Series 2025 Bonds) remain Outstanding, it will establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that:

(a) Revenues in each Fiscal Year will be at least equal to the following amounts:

(i) Operation and Maintenance Expenses of the Airport System due and payable during such Fiscal Year;

(ii) the Annual Debt Service on any Outstanding Bonds required to be funded by the City in such Fiscal Year as required by the Master Indenture or any Supplemental Indenture with respect to the Outstanding Bonds;

(iii) the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund which may be established by a Supplemental Indenture;

(iv) the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture;

(v) the interest on and principal of any indebtedness of the City issued on behalf of the Department required to be funded during such Fiscal Year, other than for Outstanding Bonds, but including Subordinate Obligations; and

(vi) funding of any debt service reserve funds created with respect to any indebtedness of the City issued on behalf of the Department, other than Outstanding Bonds, but including Subordinate Obligations.

(b) During each Fiscal Year the Net Revenues, together with any Transfer, will be equal to at least 125% of Annual Debt Service on the Outstanding Bonds for such Fiscal Year. For purposes of this paragraph (b), the amount of any Transfer taken into account cannot exceed 25% of Annual Debt Service on the Outstanding Bonds in such Fiscal Year.

“Transfer” is defined in the Master Indenture to mean (a) the amount on deposit, if any, on the last Business Day of the applicable Fiscal Year in the Rolling Coverage Account; plus (b) any amounts withdrawn from the Rolling Coverage Account during such Fiscal Year to pay Operation and Maintenance Expenses of the Airport System, to make any required payments or deposits to pay or secure the payment of principal of and/or interest on the Bonds and Subordinate Obligations, if any, or to pay the cost of any additions, improvements, repairs, renewals or replacements to the Airport System; less (c) any amounts deposited in the Rolling Coverage Account from Revenues during such Fiscal Year.

For purposes of paragraphs (a) and (b) above, Annual Debt Service on the Outstanding Bonds will be reduced by the amount of principal and/or interest paid with Capitalized Interest, Passenger Facility Charges Available for Debt Service and/or Pledged Passenger Facility Charges. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE IV: REVENUES; FUNDS AND ACCOUNTS—Section 4.15 – Passenger Facility Charges Available for Debt Service.”

The Department was granted a total of \$183.9 million of federal relief grants (excluding concession relief of \$13.75 million) under the three programs adopted by Congress providing financial relief to airports during the COVID-19 pandemic. The Department expended all such relief funds by December 2023 to

reimburse itself for O&M Expenses. Although these grant funds were not Revenues under the Master Indenture, by applying them to fund O&M Expenses, the Department was able to better meet the requirements of paragraphs (a) and (b) above of the Rate Covenant, since the grant funds applied reduced the amount of Revenues required to pay O&M Expenses, thus increasing Net Revenues.

The AUA also provides for extraordinary coverage protection if the Department expects to fail to meet the rate covenant under the Master Indenture. Under the AUA, if in any Fiscal Year the amount of Revenues less O&M Expenses is projected to be less than the sum of the principal of, premium, if any, and interest due in that Fiscal Year on the Bonds and Subordinate Obligations then Outstanding, plus 25% of such Debt Service on Bonds and the amount required under the agreement providing for the issuance of such Subordinate Obligations, then the Signatory Airlines will make extraordinary coverage protection payments in addition to landing fees and terminal rents. See “THE AIRPORT—Airline Use Agreement—Rates and Charges” below.

See “THE AIRPORT—Debt Service Coverage” for the Department’s debt service coverage on the Existing Bonds for Fiscal Years 2022, 2023 and 2024.

If Revenues and Net Revenues, together with any Transfer, in any Fiscal Year are less than the amounts specified in paragraphs (a) and (b) above, the City is required to retain and direct a Consultant to make recommendations as to the revision of the City’s business operations and its schedule of rates, tolls, fees, rentals and charges for the use of the Airport System and for services rendered by the City in connection with the Airport System, and after receiving such recommendations or giving reasonable opportunity for such recommendations to be made, the City will take all lawful measures to revise the schedule of rates, tolls, fees, rentals and charges as may be necessary to produce Revenues and Net Revenues, together with any Transfer in the amounts specified in paragraphs (a) and (b) above in the next succeeding Fiscal Year.

In the event that Revenues or Net Revenues for any Fiscal Year are less than the amounts specified in paragraph (a) or (b) above, but the City has, prior to or during the next succeeding Fiscal Year, promptly taken all lawful measures to revise the schedule of rates, tolls, fees, rentals and charges as required by the provisions set forth in the prior paragraph, such deficiency in Revenues or Net Revenues will not constitute an Event of Default under the Master Indenture. Nevertheless, if after taking the measures required by the provisions set forth in the prior paragraph to revise the schedule of rates, tolls, fees, rentals and charges, Revenues or Net Revenues in the next succeeding Fiscal Year (as evidenced by the audited financial statements of the City for such Fiscal Year) are less than the amounts specified in paragraphs (a) and (b) above, such deficiency in Revenues or Net Revenues will constitute an Event of Default under the Master Indenture.

See “THE AIRPORT—The Airline Use Agreement” for a discussion regarding certain limits on the ability of the City to raise fees to be charged to the Signatory Airlines.

Common Debt Service Reserve Fund

Pursuant to the Master Indenture, the City established the Common Debt Service Reserve Fund (the “**Common Reserve Fund**”) with the Trustee to secure any Bonds the City elects to participate in the Common Reserve Fund. At the time of issuance of the Existing Bonds, the City elected to have each series of the Existing Bonds participate in the Common Debt Service Reserve Fund and, at the time of issuance of the Series 2025 Bonds, the City will elect to have the Series 2025 Bonds participate in the Common Reserve Fund. The Existing Bonds, the Series 2025 Bonds and any additional Bonds the City elects to have participate in the Common Reserve Fund are collectively referred to in this Official Statement as the “**Common Reserve Fund Participating Bonds**.”

Moneys held in the Common Reserve Fund will be used for the purpose of paying principal of and interest on the Common Reserve Fund Participating Bonds on a parity basis. If, on any Payment Date for the Common Reserve Fund Participating Bonds, the amounts in the Debt Service Funds for such Bonds are insufficient to pay in full the amount then due on such Bonds, moneys held in the Common Reserve Fund will be used for the payment of the principal of and/or interest thereon. If amounts in the Common Reserve Fund consist of both cash and one or more Debt Service Reserve Fund Surety Policies, the Trustee will make any required payments of amounts in the Common Reserve Fund first from any cash on deposit in the Common Reserve Fund prior to making a draw upon any such Debt Service Reserve Fund Surety Policy. Moneys held in the Common Reserve Fund also may be used to make any deposit required to be made to the Rebate Fund created for the Common Reserve Fund Participating Bonds at the written direction of the City if the City does not have other funds available from which such deposit can be made.

The Common Reserve Fund is required to be funded at all times in an amount equal to the Reserve Requirement. The “Reserve Requirement” is equal to the lesser of (a) Maximum Aggregate Annual Debt Service for all Outstanding Common Reserve Fund Participating Bonds, (b) 10% of the original principal amount of the Outstanding Common Reserve Fund Participating Bonds, less the amount of original issue discount with respect to such Common Reserve Fund Participating Bonds if such original issue discount exceeded 2% on such Common Reserve Fund Participating Bonds at the time of their original sale, and (c) 125% of the average Aggregate Annual Debt Service for the Outstanding Common Reserve Fund Participating Bonds. At the time of issuance of any additional Bonds which the City elects to have participate in the Common Reserve Fund, the Reserve Requirement is required to be met at the time of such issuance. At the time of issuance of the Series 2025 Bonds, a portion of the proceeds of the Series 2025 Bonds in the amount of \$40,100,098 will be deposited to the Common Reserve Fund to meet the Reserve Requirement, which will be \$281,064,750 and will be fully funded upon such deposit. Funds in the Common Reserve Fund are invested in Permitted Investments. See “—Permitted Investments” below. Additionally, the City may fund all or a portion of the Reserve Requirement with a Debt Service Reserve Fund Surety Policy. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE IV: REVENUES; FUNDS AND ACCOUNTS—Section 4.06. – Common Debt Service Reserve Fund and Series Debt Service Reserve Funds.” At the time of issuance of the Series 2025 Bonds, no Debt Service Reserve Fund Surety Policies will be on deposit in the Common Reserve Fund.

Additional Bonds

The Master Indenture provides the City with flexibility as to establishing the nature and terms of any additional Bonds hereafter issued with a lien and charge on Net Revenues on parity with the Existing Bonds and the Series 2025 Bonds. For example, the Master Indenture provides for the issuance of Variable Rate Indebtedness, Capital Appreciation Bonds and Balloon Indebtedness on a parity with the Series 2025 Bonds. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE II: FORM, EXECUTION, DELIVERY AND REGISTRATION OF BONDS—Section 2.11 – Additional Bonds Test.” Additional Bonds may be issued under the Master Indenture on a parity with the Series 2025 Bonds and the Existing Bonds, provided, among other things, that there is delivered to the Trustee either:

- (a) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by an Authorized City Representative showing that the Net Revenues for the last audited Fiscal Year or for any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of Maximum Aggregate Annual Debt Service, which excludes Capitalized Interest, with respect to all Outstanding Bonds and the proposed Series of Bonds, calculated as if the proposed Series of Bonds were then Outstanding; or

(b) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by a Consultant, with national recognition as experts in the area of air traffic and airport financial analysis, showing that:

(i) the Net Revenues for the last audited Fiscal Year or for any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of the sum of the Annual Debt Service due and payable with respect to all Outstanding Bonds for such applicable period; and

(ii) for the period from and including the first full Fiscal Year following the issuance of such proposed Series of Bonds during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof through and including the later of: (A) the fifth full Fiscal Year following the issuance of such Series of Bonds; or (B) the third full Fiscal Year during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof, the estimated Net Revenues, together with any estimated Transfer, for each such Fiscal Year, will be at least equal to 125% of the Aggregate Annual Debt Service for each such Fiscal Year with respect to all Outstanding Bonds and calculated as if (1) the proposed Series of Bonds were then Outstanding; and (2) any future Series of Bonds which the City estimates will be required to complete payment of the estimated costs of construction of such portion of the Specified Project and any other uncompleted portion of the Specified Project from which the Consultant projects additional Revenues will be generated were then Outstanding.

For purposes of clauses (a) and (b) above, the amount of any Transfer taken into account cannot exceed 25% of the Aggregate Annual Debt Service on the Outstanding Bonds, the proposed Series of Bonds and any future Series of Bonds required to complete the Specified Project as described above. The components of Aggregate Annual Debt Service are to be calculated as provided in the Master Indenture. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE II: FORM, EXECUTION, DELIVERY AND REGISTRATION OF BONDS—Section 2.11 – Additional Bonds Test.”

For purposes of clause (b)(ii) above, in estimating Net Revenues, the Consultant may take into account (i) Revenues from Specified Projects or other Airport Facilities reasonably expected to become available during the period for which the estimates are provided; (ii) any increase in fees, rates, charges, rentals or other sources of Revenues which have been approved by the City and will be in effect during the period for which the estimates are provided; and (iii) any other increases in Revenues which the Consultant believes to be a reasonable assumption for such period. With respect to Operation and Maintenance Expenses of the Airport System, the Consultant will use such assumptions as the Consultant believes to be reasonable, taking into account: (x) historical Operation and Maintenance Expenses of the Airport System; (y) Operation and Maintenance Expenses of the Airport System associated with the Specified Projects and any other new Airport Facilities; and (z) such other factors, including inflation and changing operations or policies of the City, as the Consultant believes to be appropriate. The Consultant will include in the certificate or in a separate accompanying report the calculations and assumptions made in determining the estimated Net Revenues and will also set forth the calculations of Aggregate Annual Debt Service, which calculations may be based upon information provided by another Consultant.

For purposes of preparing the certificate or certificates described above, the Consultant or the Authorized City Representative may reasonably rely upon financial information provided by the City.

At the time of issuance of the Series 2025 Bonds, the Airport Consultant will deliver a certificate as described in clause (b) above to the Trustee.

Neither of the certificates described in clause (a) or (b) above will be required if:

(a) the Bonds being issued are for the purpose of refunding then Outstanding Bonds and there is delivered to the Trustee, instead, a certificate of an Authorized City Representative or Consultant showing that Maximum Aggregate Annual Debt Service after the issuance of such Refunding Bonds will not exceed the Maximum Aggregate Annual Debt Service prior to the issuance of such Refunding Bonds; or

(b) the Bonds being issued constitute Notes and there is delivered to the Trustee, instead, a certificate prepared by an Authorized City Representative or a Consultant showing that the principal amount of the proposed Notes being issued, together with the principal amount of any Notes then Outstanding, does not exceed 10% of the Net Revenues for any 12 consecutive months out of the most recent 24 months immediately preceding the issuance of the proposed Notes; or

(c) the Bonds being issued are Completion Bonds and the following written certificates are delivered to the Trustee (1) a Consultant's certificate stating that the nature and purpose of such Project has not materially changed, and (2) a certificate of an Authorized City Representative to the effect that (x) all of the proceeds (including investment earnings on amounts in the Construction Fund established for the Project) of the original Bonds issued to finance such Project have been or will be used to pay Costs of the Project, and (y) the then estimated Costs of the Project exceed the sum of the Costs of the Project already paid plus moneys available in the Construction Fund established for the Project (including unspent proceeds of Bonds previously issued for such purpose). "Completion Bonds" are defined in the Master Indenture as Bonds issued to pay costs of completing a Project for which Bonds have previously been issued and the principal amount of such Bonds being issued for completion purposes does not exceed an amount equal to 15% of the principal amount of the Bonds originally issued for the Project. The Series 2025 Bonds and any additional Bonds to be issued to finance additional costs of the New SLC will not be deemed to constitute Completion Bonds under the Master Indenture. See "APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE I—DEFINITIONS; INTERPRETATION."

Following the issuance of the Series 2025 Bonds, the City does not expect to issue any additional Bonds to finance the costs of the design and construction of the New SLC or any of the projects included in the Other CIP.

Use of PFCs to Pay Debt Service

Pursuant to the Master Indenture, PFC revenues are excluded from the definition of Revenues and, therefore, are not pledged to the payment of debt service on the Bonds, except for Pledged Passenger Facility Charges, which are subject to the pledge of the Master Indenture but do not constitute Revenues. However, PFC revenues may still be applied to pay debt service on Bonds that financed PFC-eligible projects in two separate ways. The City may designate specified PFC revenues as Passenger Facility Charges Available for Debt Service. Passenger Facility Charges Available for Debt Service are transferred to the Trustee and deposited directly into a City designated Debt Service Fund to be used to pay debt service on a specific Series of Bonds. The City may also pledge specified PFC revenue to secure designated Bonds as Pledged Passenger Facility Charges. Pledged Passenger Facility Charges are also transferred to the Trustee and deposited directly into a City designated Debt Service Fund to be used to pay debt service on a specific Series of Bonds. The City has not elected, and the City has no current plans to elect, to designate PFCs as Pledged Passenger Facility Charges. The City expects, however, to the extent approved by the FAA, to use PFCs as Passenger Facility Charges Available for Debt Service to pay a portion of the debt service on the Existing Bonds, that financed PFC-eligible projects. The Department does not expect to use PFCs to pay debt service on the Series 2025 Bonds. Debt service paid with PFCs, whether designated as

Passenger Facility Charges Available for Debt Service and/or Pledged Passenger Facility Charges, is not included in the calculation of the rate covenant set forth in the Master Indenture, and debt service on additional Bonds expected to be paid from PFCs is not included in the additional bonds test set forth in the Master Indenture. For additional information regarding PFCs and the City's expected use of PFC revenues, see "APPENDIX B—REPORT OF THE AIRPORT CONSULTANT."

Permitted Investments

Moneys and funds held by the City will be invested in Permitted Investments, subject to any restrictions set forth in the Master Indenture and subject to restrictions imposed upon the City by the State Money Management Act of 1974 and Rules of the State Money Management Council as currently amended (collectively, the "**State Money Management Act**"). Moneys and funds held by the Trustee under the Indenture, including moneys in the respective Debt Service Funds, and the accounts therein, and the Common Reserve Fund, may be invested as directed by the City in Permitted Investments, subject to the restrictions set forth in the Indenture and subject to restrictions imposed upon the City by the State Money Management Act. See "THE AIRPORT—Financial Considerations—Investment Policy" herein.

Events of Default and Remedies; No Acceleration

Events of Default under the Master Indenture and related remedies are described in "APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE VIII: DEFAULTS AND REMEDIES." The occurrence of an Event of Default does not grant any right to accelerate payment of the Bonds, including the Series 2025 Bonds and the Existing Bonds, to either the Trustee or the Holders of the Bonds. The Trustee is authorized to take certain actions upon the occurrence of an Event of Default, including proceedings to enforce the obligations of the City under the Master Indenture. If there is an Event of Default, payments, if any, on the Bonds will be made after payments of Operation and Maintenance Expense of the Airport System. Since Net Revenues are Revenues net of all amounts needed to pay Operation and Maintenance Expense of the Airport System, and the City is not subject to involuntary bankruptcy proceedings, the City may be able to continue indefinitely collecting Revenues and applying them to the operation of the Airport System even if an Event of Default has occurred and no payments are being made on the Bonds.

Subordinate Obligations (Subordinate Revolving Obligations)

The Master Subordinate Indenture provides for the issuance and/or incurrence, from time to time, of debt obligations of the City secured by and payable from a pledge of and lien on Subordinate Revenues (as defined below), including, without limitation, bonds, notes, bond anticipation notes, commercial paper, revolving lines of credit, obligations incurred pursuant to an interest rate swap agreement, obligations incurred through lease or installment purchase agreements or certificates of participation, and certain other obligations (collectively, "**Subordinate Obligations**").

"**Subordinate Revenues**" mean all Revenues remaining after the City has provided for the payment of Operation and Maintenance Expenses of the Airport System, the payment of debt service on the Bonds and any amounts necessary to replenish the Common Debt Service Reserve Fund (or any other debt service reserve fund established to secure one or more series of Bonds).

Pursuant to the Master Subordinate Indenture, the Second Supplemental Subordinate Indenture and the Subordinate Revolving Obligations Credit Agreement, the City is authorized to issue and have outstanding, from time to time, up to \$300,000,000 (which can be increased to \$400,000,000 pursuant to the terms of the Subordinate Revolving Obligations Credit Agreement) in aggregate principal amount of Subordinate Revolving Obligations. When Subordinate Revolving Obligations are issued, all of the

Subordinate Revolving Obligations issued by the City are purchased by the Subordinate Revolving Obligations Bank (Bank of America, N.A.) in accordance with the terms of the Subordinate Revolving Obligations Credit Agreement. Except as otherwise provided in the Subordinate Revolving Obligations Credit Agreement, the principal of all Subordinate Revolving Obligations outstanding pursuant the Master Subordinate Indenture, the Second Supplemental Subordinate Indenture and the Subordinate Revolving Obligations Credit Agreement are due and payable on September 3, 2027. However, subject to the terms of the Subordinate Revolving Obligations Credit Agreement, on September 3, 2027, the City can convert any outstanding Subordinate Revolving Obligations to a term loan that will be payable in six equal semi-annual installments following September 3, 2027. As of July 2, 2025, the City had \$200,000,000 aggregate principal amount of the Subordinate Revolving Obligations outstanding. The City plans to use a portion of the proceeds of the Series 2025 Bonds to repay all of the outstanding Subordinate Revolving Obligations.

Upon the occurrence of an event of default under the Subordinate Revolving Obligations Credit Agreement, the Subordinate Revolving Obligations Bank may terminate its obligation to make revolving loans, bring a legal action to take any action that may appear necessary to collect amounts due to the Subordinate Revolving Obligations Bank and exercise any and all remedies the Subordinate Revolving Obligations Bank may have under the Subordinate Revolving Obligations Credit Agreement and the Subordinate Indenture. The Subordinate Revolving Obligations Bank is not permitted to accelerate amounts due under the Subordinate Revolving Obligations Credit Agreement or the Subordinate Indenture.

Reference is made to the Subordinate Indenture and the Subordinate Revolving Obligations Credit Agreement for the complete terms of such documents. Copies of the Master Subordinate Indenture, the First Supplemental Subordinate Indenture and a redacted copy of the Subordinate Revolving Obligations Credit Agreement are posted on EMMA.

Other Covenants of the City

Pursuant to the Master Indenture, the City has agreed to other covenants for the benefit of the holders of the Bonds, including the Series 2025 Bonds, in addition to those described above. For example, the City has covenanted not to issue any bonds or other obligations with a lien on or security interest in the Net Revenues which is superior to the Bonds, not to enter into any contracts or take any actions that are inconsistent with the Master Indenture, and to operate and maintain the Airport System in good working order. The City also has retained the right under the Master Indenture to issue obligations secured by a pledge of Net Revenues which is subordinate to the lien securing the Bonds, and to issue special facilities obligations that are not secured by a pledge of Net Revenues but that are secured only by revenues derived from a specified Special Facility. See “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE V: COVENANTS OF THE CITY.”

THE AIRPORT

Overview

The Airport serves as the principal airport for the Salt Lake City metropolitan region, the State and portions of Colorado, Idaho, Nevada, and Wyoming. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Role of the Airport.” Based on preliminary data from the FAA, approximately 13.5 million enplaned passengers boarded aircraft at the Airport in calendar year 2024, ranking it 22nd in the United States. This was an increase of approximately 4.95% as compared to FAA data for calendar year 2023.

All the major network airlines, two low-cost carriers (“**LCCs**”) and three ultra-low cost carriers (“**ULCCs**”) operate at the Airport. The Airport also is a primary hub airport for Delta. Delta and its regional

partners carried 70.1% of the enplaned passengers at the Airport in FY 2024. The Airport served a total of over 28 million passengers in FY 2024. The Airport operates efficiently and is frequently ranked first among similarly sized U.S. airports for on-time arrivals and departures by OAG Aviation Worldwide Limited.

The Airport also has significant cargo operations. Approximately 173,388 U.S. tons of freight and mail were loaded and unloaded on and off aircraft at the Airport in FY 2024. Based on data from Airports Council International-North America (“**ACI-NA**”), the Airport was ranked the 31st busiest cargo airport in the U.S. for calendar year 2023 with 162,305 metric tons of cargo. Also, in calendar year 2023, ACI-NA data shows that the Airport had over 319,000 aircraft movements or operations, ranking the Airport 23rd in the U.S. and 45th in the world for aircraft movements.

According to Cirium (an aviation analytics company), during 2024, the Airport was the top-ranked airport in North America for on-time performance and the 4th best globally.

The Airport’s Air Service Area

The Airport is the primary commercial air service facility serving the Salt Lake City metropolitan area and the surrounding region. The Airport has essentially no competition from other airports within the region, with no other large commercial service airports being located within 400 highway miles of the Airport. The geographical region that serves as an airport’s primary air service catchment area generally is referred to as its primary Air Service Area. The Airport’s primary Air Service Area is defined as the Salt Lake City-Provo-Orem Combined Statistical Area (“**CSA**”), which includes 10 counties in Utah. The Salt Lake City-Provo-Orem CSA is the 22nd most populous CSA in the U.S., with approximately 2.81 million people, or approximately 81.9% of the population in the entire State. In many cases, an Air Service Area can extend beyond the primary area, depending on the location of other population centers and availability of other commercial service airports; however, it is generally the economic strength of the primary Air Service Area that provides the principal demand for supporting O&D air travel, which refers to persons who begin or end their air travel at the Airport. In the case of the Airport, its secondary air service area generally consists of the remainder of the State and portions of Colorado, Idaho, Nevada and Wyoming. The chart below shows the Airport’s Air Service Area and its location in the State.

[Remainder of page intentionally left blank.]

The Airport's Air Service Area and Proximate Large and Medium Hub Airports

Airport	Code	FAA Airport Category	Driving Distance from Downtown Salt Lake City	Nonstop Destinations (YE July 2025)	CY 2024 Enplaned Passengers (000s)
<i>Salt Lake City International Airport</i>	<i>SLC</i>	<i>Large</i>	<i>8 miles</i>	<i>109</i>	<i>13,544</i>
Boise Airport	BOI	Medium	337 miles	29	2,475
Harry Reid International Airport	LAS	Large	428 miles	175	28,183
Reno-Tahoe International Airport	RNO	Small	520 miles	23	2,378
Denver International Airport	DEN	Large	524 miles	227	40,013
Albuquerque International Sunport	ABQ	Medium	602 miles	32	2,690
Phoenix Sky Harbor International Airport	PHX	Large	666 miles	150	25,596

Sources: Federal Aviation Administration, Air Carrier Activity Information System (ACAIS), May 2025, accessed June 2025. Cirium, Diio Mi, Schedule – Dynamic Table, accessed February 2024.

Because the Airport is isolated from competing airport facilities, it has limited, if any, competition for air service. Las Vegas Harry Reid International Airport (LAS) is the closest comparable airport, which is approximately 435 driving miles from the Airport. Denver International Airport (DEN) is the next closest comparable airport at approximately 530 driving miles from the Airport. Boise Airport (BOI) in Idaho is about 340 driving miles from the Airport; however, it is a smaller facility and is classified as a Medium Hub by the FAA. There are no other comparable facilities to the Airport within the State in terms of air service. The next largest commercial service airport in Utah is Provo Municipal Airport (PVU), which is much smaller than the Airport. PVU had approximately 455.2 enplaned passengers for calendar year 2024, and was ranked as the 145th busiest airport in the U.S. by enplaned passengers according to preliminary data from the FAA.

The Airport's Air Service Area recently has experienced population growth considerably above the national average, and its labor force is also growing, while the Airport's Air Service Area's unemployment rate of 3.1% was below the national rate of 4.4% as of January 2025. Utah has experienced net in-migration in 15 of the past 32 years and in the past four years, in-migration has driven population growth. The region's diverse economy includes banking and finance, the largest component of the gross regional product ("**GRP**"); transportation and distribution, as the City is a point of convergence for east-west rail lines and both east-west and north-south interstate highways; manufacturing and mining; and a growing technology sector. The Church of Jesus Christ of Latter-Day Saints (the "**Church**") is headquartered in the City and is responsible for a significant amount of passenger air traffic through the Airport, particularly international travel, associated with both business activities of the Church as well as missionary trips. The Church has a large corporate travel program and according to Business Travel News, for 2023, ranked as the 42nd largest corporate travel program, spending approximately \$62 million. This is a reduction in annual spending compared to pre-pandemic when the Church was estimated to spend between \$80 and \$93 million annually (2016-2020). The area is also a regional healthcare and education hub, with three research hospitals and the only academic medical center in the Intermountain West, and all three of the State's major universities are within 70 miles of the Airport. Additionally, given that the area is a significant tourist destination for outdoor activities, a significant number of sports and outdoor products companies such as Black Diamond, Gregory Mountain Products, Huish, and Petzl have large operations in the region. Salt Lake City will host a national Outdoor Retailer trade show in June 2025. Additionally, Utah will host the 2034 Winter Olympics. Many well-known, world-class ski resorts are located within an hour's drive of the Airport and these resorts are increasingly becoming year-round destinations for golfing, hiking, mountain biking and other outdoor activities. Five national parks are located in Utah, along with numerous National Recreation Areas, and the Airport is centrally located to provide access to other western U.S. National Parks. This diverse economy supports a strong O&D market, which is complemented by Delta's connecting activity at the Airport. For additional information regarding the Airport's Air Service Area and demographics, see "APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Role of the Airport and Economic Base for Air Traffic."

The City

The Airport is owned by the City, a municipal corporation and political subdivision of the State. The City owns three airports: the Airport, South Valley and Tooele, all of which are operated and managed by the Department. The Mayor of the City and the City Council oversee the Department's affairs. An eleven-member Airport Advisory Board of citizen volunteers advises the Mayor.

The City has a Council-Mayor form of government. The City Council consists of seven members, who are elected by voters within seven geographic districts of approximately equal population. The Mayor is elected at large by the voters of the City and is charged with the executive and administrative duties of the government.

The seven-member, part-time City Council is charged with the responsibility of performing the legislative functions of the City. The City Council performs three primary functions: It passes laws for the City, including approving issuance of debt; adopts the City budget, including, as a part thereof, the budget of the Department; and conducts management and operational audits of City departments.

Term information concerning the Mayor and the members of the City Council is set forth below:

Office	District	Person	Years in Service	Expiration of Current Term
Mayor	—	Erin J. Mendenhall	4 ¹	January 2028
Council Chair	#3	Chris Wharton	6	January 2026
Council Vice Chair	#2	Alejandro Puy ²	3	January 2027
Council Member	#1	Victoria Petro ³	3	January 2026
Council Member	#4	Eva Lopez Chavez	—	January 2028
Council Member	#5	Darin Mano ⁴	5	January 2026
Council Member	#6	Dan Dugan	4	January 2028
Council Member	#7	Sarah Young ⁵	1	January 2026

¹ Mayor Mendenhall previously served 6 years as a council member before being elected mayor.

² Council Member Puy was elected to serve a two-year term beginning January 3, 2022; then was duly elected to serve a four-year term beginning January 2, 2023.

³ Council Member Petro was selected on November 9, 2021 to fill the seat of James Rogers who resigned effective October 4, 2021; then was duly elected to serve a four-year term beginning January 3, 2022.

⁴ Council Member Mano was selected to fill the vacancy in District 5 from 2020-2022; then was duly elected to serve a four-year term beginning January 3, 2022.

⁵ Council Member Young was selected on July 13, 2023 to fill the seat of Amy Fowler who resigned effective July 2, 2023; then was duly elected to serve a two-year term beginning January 2, 2024.

In February 1976, the City created the Airport Advisory Board to provide advice with respect to broad matters of policy affecting the operation of the Airport System. All actions taken by the Airport Advisory Board constitute recommendations to the Mayor. The Mayor has the power to review, ratify, modify, or veto any action submitted by the Airport Advisory Board. The members of the Airport Advisory Board are John Bradshaw (Chair), Nathan Rafferty (Vice Chair), Roger Boyer, Arlyn Bradshaw, Dirk Burton, Luz Escamilla, Theresa Foxley, Tye Hoffman, Hoang Nguyen, Jonathan Freedman and Craig Smith.

Airport Management

The day-to-day operations of the Airport System are managed by the Executive Director of the Department, who reports directly to and is appointed by the Mayor, with the City Council's consent. The Department's eight Division Directors oversee each of the primary operating and administrative divisions of the Department, and all Directors report to the Executive Director. The executive team of the Department is a full-time staff of professional and technical personnel located at the Airport. In addition to the Executive Director, the executive team of the Department is comprised of the Chief Operating Officer, and the following Directors: (a) Real Estate and Commercial Development; (b) Airport Design and Construction Management; (c) Finance; (d) Maintenance; (e) Airport Operations; (f) Planning and Environmental; (g) Information Technology; and (h) Communications and Marketing. Brief biographies of the members of the Department's management team are set forth below.

Bill Wyatt, Executive Director. Bill Wyatt began serving as the Executive Director of the Department in November 2017. Prior to joining the Department, Mr. Wyatt served for 16 years as the

Executive Director for the Port of Portland, Oregon, where he oversaw Portland International Airport, four marine terminals, two general aviation airports, industrial parks and other real estate properties.

Prior to serving as the Port of Portland's Executive Director, he served as Chief of Staff to then-Governor John A. Kitzhaber for seven years, preceded by six years as President of the Oregon Business Council and five years as Executive Director of the Association for Portland Progress which was, at the time, Portland's downtown development association. Mr. Wyatt served as an Oregon state representative from 1974 through 1977.

Mr. Wyatt studied political science at Willamette University and the University of Oregon, where he served as Student Body President.

Treber Andersen, Director of Airport Operations. Treber Andersen has worked for the Department since 2004. Prior to his appointment as Director of Airport Operations in 2021, Mr. Andersen was the Assistant Operations Director for terminal and landside programs including the oversight of parking, passenger shuttle, ground transportation, gate management, and hardstand activities.

Mr. Andersen has also held positions in communications and airfield operations with the Department, where he participated in emergency response coordination, snow removal activities, FAR 139 compliance, and security functions. Before joining the Department, he worked for fixed base operator Million Air servicing private jet and piston aircraft.

Mr. Andersen is a graduate of Brigham Young University, where he earned a Bachelor of Science in Business Administration and a Master of Public Administration. He is an Accredited Airport Executive ("AAE") of the American Association of Airport Executives ("AAAE") and serves on the Academic Relations Committee.

Shane Andreasen, Director of Real Estate and Commercial Development. Shane Andreasen serves as the Director of Real Estate and Commercial Development for the Department. He leads the team responsible for business and policy development and implementation, airline and concession lease negotiations, real property transactions, procurement, airport and tenant insurance and risk management, and facility and property management. Mr. Andreasen also oversees the commercial and property assets of the Airport and the two reliever airports also owned by the Department. Mr. Andreasen has over 21 years of experience in all aspects of airport properties, development and leasing.

Prior to rejoining the Department in early 2020, Mr. Andreasen spent nine years working for the Port of Portland where he most recently served as the Acting Director of the Portland International Airport Business & Properties. Prior to that assignment, he led the redevelopment of the concessions program and negotiated a 20-year rental car agreement.

Mr. Andreasen recently received his U.S. Airport Professional accreditation from ACI-NA where he is an active member, and is also a Certified Member accredited from the AAEE. He graduated from Westminster University in Salt Lake City, Utah with a bachelor's degree in Business Management.

Brian Butler, Chief Financial Officer. Brian Butler has worked for the Department since 2015. He has over 18 years of experience in both the financial and accounting industries. As the Department's Chief Financial Officer, Mr. Butler directs a staff of accountants that oversee and manage the operating and capital budgets, accounting, financial reporting, financial audits, purchasing, payroll, asset control, debt issuance, management of outstanding debt, and airline rate analysis and rate calculation.

He currently serves as First Vice Chair to the Finance Steering Group Committee of ACI-NA. He also is an AAE from the AAAE. He is a graduate of Brigham Young University with a Bachelor's Degree in Corporate Finance, Utah Valley University with a Bachelor's Degree in Accounting, and the University of Utah with a Master's Degree in Accounting.

Dean Warner, Acting Director of Information Technology. Dean Warner began working for the Department in 1999. He has over 37 years of dedicated experience in the information technology field.

Before serving as the Acting Director of Information Technology, Mr. Warner served as the Airport's Information Technology Manager, where he oversaw the implementation of key technology projects and led a team of Information Technology professionals that manage and support some of the Airport's mission-critical systems.

Mr. Warner has a strong technical background, having studied Electronic Engineering and Computer Science at Utah Technical College and continued his education in Electrical and Computer Engineering at Weber State University.

Eddie Clayson, Director of Maintenance. Eddie Clayson began working for the Department in 1993. He was appointed as the Director of Maintenance in 2016. Prior to his appointment, Mr. Clayson worked in building controls and as the facilities superintendent for the Department.

Before joining the Department, Mr. Clayson worked as an electronics engineer for Lockheed Engineering & Sciences, where he was responsible for control systems on buildings, test chambers and equipment.

Mr. Clayson is involved with AAAE and the International Facilities Management Association ("IFMA"). He earned his AAE from AAAE in 2013. Through IFMA, Mr. Clayson has earned his Certified Facility Manager and Sustainability Facility Professional credentials. He has been active in the IFMA Airport Facilities Council and is the past president of the Council. Mr. Clayson graduated from Brigham Young University with a Bachelor of Science in Electronic Engineering and Technology.

Brady Fredrickson, AICP, CM, Director of Planning and Environmental. Brady Fredrickson has worked for the Department since 2000. He was appointed as the Director of Planning and Environmental in 2018. As the Director of Planning and Environmental, he oversees all aspects of airport planning and capital programming, environmental compliance and sustainability, the airport disadvantaged business enterprise program, and airport geographic information systems for the Airport, South Valley Airport and Tooele Valley Airport.

Prior to his appointment, Mr. Fredrickson worked as the Airport Planning Manager overseeing, airport planning for the Airport, South Valley Regional, and Tooele Valley Airport. He has worked on a variety of planning and development projects including master plan updates, planning and design of terminal and concourse facilities, general aviation development plans, airport electric grid capacity studies, aircraft parking plans, and a variety of airport planning studies. Mr. Fredrickson has 25 years of experience in all aspects of airport planning.

Mr. Fredrickson is a graduate of Utah State University with a bachelor's degree in landscape architecture. He is a member of the American Institute of Certified Planners (AICP), and a Certified Member of the American Association of Airport Executives (CM).

Peter L. Higgins, Chief Operating Officer. Mr. Higgins has worked for the Department for more than 22 years, serving previously as both the Director of Airport Operations and Director of Airport

Maintenance. He has experience in aviation management and large-scale development programs. In addition, Mr. Higgins has served as a senior level construction equipment fleet executive.

Before joining the Department, Mr. Higgins worked for Granite Construction Company and for Gibbons and Reed. Mr. Higgins currently serves as a member of the Airport Council International (“ACI”) World Safety & Technical Standing Committee and has served as the Chair of the ACI Operations, Planning, Safety, Infrastructure and Development (OPSID) Committee. Mr. Higgins is also a past president of the Northwest Chapter of AAAE. He is an accredited member of the Association of Construction Equipment Managers and is also an AAE by AAAE.

Mr. Higgins is a graduate of the University of Utah where he earned a Bachelor of Science Degree in Civil Engineering. He is a graduate of the Executive Development Program-Professional Equipment Manager Certification from Virginia Polytechnic Institute as well as the Executive and Supervisory Training Program.

Melyssa Trnavskis, Director of Airport Design and Construction Management. Melyssa Trnavskis joined the Department in 2022 from T-O Engineers, where she served as an Aviation Project Manager. Prior to that, Ms. Trnavskis worked for the Calgary Airport Authority as Director of Engineering and as Project Manager for Major Airfield Development. She has also worked in various engineering and planning roles for CH2M Hill and Isbill Associates.

In her position at the Department, Ms. Trnavskis is responsible for the successful implementation of the capital improvement programs for all three of the Department’s airports.

Ms. Trnavskis is a graduate of the University of Central Florida, where she earned a Bachelor of Science in Civil Engineering. She also holds a Bachelor of Science in Aviation Business Administration from Embry-Riddle Aeronautical University and a Master of Science in Civil Engineering from the University of California. She is a Certified Member of AAAE.

Nancy Volmer, Director of Communication and Marketing. Nancy Volmer began working for the Department in 2015. As the director of communication and marketing, Ms. Volmer oversees the airport’s art program, community outreach, marketing and media relations.

Ms. Volmer has worked for over 37 years in the communications and marketing field. Before joining the Department, she worked in communications and marketing for organizations, including the Utah State Courts, Salt Lake Organizing Committee for the 2002 Olympic Winter Games, the Salt Lake Area Chamber and the Park City Chamber/Bureau.

Ms. Volmer is a member of AAAE, ACI-NA and the Public Relations Society of America. She is also accredited by the International Association of Business Communicators.

Ms. Volmer is a graduate of the University of Utah where she earned Bachelors’ of Science in Land Resource Management and in Journalism and Mass Communication. In addition, she earned a Master of Professional Communication from Westminster University and has a certification in Integrated Marketing Communication from the University of Utah.

Airport Facilities

Overview. The Airport is located on approximately 9,400 acres about five miles west of the City’s downtown. The airfield at the Airport contains four runways, three of which are used for airline traffic and the fourth is used for general aviation (which is expected to be decommissioned by 2026). The new terminal

complex currently consists of three levels and provides 73 aircraft parking positions at Concourses A and B. The new terminal complex and Concourse A West were placed into service in September 2020, with Concourse B West opening in October 2020. The Airport also contains a new five-level parking garage structure for short-term parking, along with surface parking for longer-term parking and employees. The Airport is classified by the FAA as a Large Hub facility based upon its share of nationwide enplaned passengers. The FAA classifies Large Hub airports as those serving at least 1.0% of annual U.S. passenger enplanements.

The Airport commenced operations in 1911 with primarily acrobatic flights. The City purchased 100 acres surrounding the original landing strip in 1920 and named the airport Woodward Field. The first commercial passenger flight took place in 1926, with two passengers sitting atop mail bags. In 1943, the Airport became a training base and replacement depot for the U.S. Army Air Force. Following World War II, the Airport was transferred back to the City and in 1950, the three runways were upgraded. The first terminal was dedicated in 1961 and Terminal Two was completed in 1978. The third air carrier runway was added in 1995, an International Arrivals Building was added in 1996, and a new FAA air traffic control tower and terminal radar approach control facility were opened in 1999. With the opening of the new Terminal, Concourse A West, Concourse B West and related facilities in the fall of 2020, Phase I of the New SLC was placed in service, replacing the landside facilities of the Airport. All of the previous facilities at the Airport have been demolished. Upon completion of the New SLC, there will be 94 contact gates with jet bridges. Essentially all of the Airport's landside facilities have been replaced with new facilities. See "THE NEW SLC AND OTHER CAPITAL PROJECTS."

Airfield. The existing airfield consists of three air carrier runways and a general aviation runway (which is expected to be decommissioned by 2026). The air carrier runways are, generally, in a parallel north/south alignment (Runways 16L-34R, 16R-34L, and 17-35). The general aviation runway is oriented in a northwest/southeast direction (Runway 14-32), however, Runway 14-32 will be converted to a taxiway and decommissioned as a runway in 2025 or 2026. Runway 16L-34R is 12,003 feet in length, Runway 16R-34L is 12,000 feet in length, Runway 17-35 is 9,596 feet in length, and Runway 14-32 is 4,892 feet in length. All runways are 150 feet wide. The air carrier runways are equipped with high intensity runway lighting systems, centerline lighting and touchdown zone lights. Precision instrument landing systems ("ILS") are located on all ends of the air carrier runways for approaches during instrument flight rules conditions. The general aviation runway (14-32) is not equipped with an ILS.

Terminal Facilities. The passenger terminal complex consists of a single terminal facility, which is contiguous to Concourse A and connected to the Parking Garage via the Gateway Center, and includes approximately 912,000 sf of space on three levels. Level 1 of the Terminal contains the FIS area, international baggage claim and recheck area, ticket counters for remote passenger airline check-in, baggage drop services and security checkpoint screening, tenant administrative offices, a centralized security checkpoint for dedicated employee access, and ground transportation counters, and serves commercial curbs and other ground transportation functions. Level 2 provides passenger circulation areas and connects landside and airside components of the facility. Public areas prior to the security checkpoint provide for baggage claim and airline baggage service offices, an expansive meeter-greeter area, food & beverage and retail concessions, and a centralized security screening checkpoint. Areas beyond security screening include the main terminal plaza area consisting of 79,000 sf of concessions, seating and circulation space, and transition to the airside concourses. Level 3 contains the ticketing area for departing passengers, administrative offices for the Department and other tenants at the Airport, and a 29,000 sf Delta Sky Club. Departing passengers being dropped off at the Airport arrive on the Level 3 curb. The Airport is served by the TRAX light rail system owned and operated by the UTA, which connects the Airport with downtown Salt Lake City. The terminus of the TRAX light rail station at the Airport has been relocated to the first level of the Terminal. The TRAX extension was financed and built by the UTA. See "THE NEW SLC AND OTHER CAPITAL PROJECTS."

New concession contracts commenced with the opening of Phase I of the New SLC in the fall of 2020, and all former contracts terminated at that time with the full demolition of the legacy facilities. Phase I contracts constituted 59 locations in the initial opening of the New SLC. In October 2021, the Department issued a second request for proposals (“**RFP**”) for Phase II concessions, to coincide with Concourse A East gates opening in the fall/winter of 2023; the Department announced an initial slate of Phase II concessionaires, including local and national restaurants and retailers, in May 2022. In October 2022, the Department issued a third RFP for concessions in Concourse B East, which opened in October 2024. A fourth RFP for concessions in Phase IV was issued in October 2023 and a separate RFP for a third-party lounge was issued in November 2023. Certain of the Phase IV concessions will open in October 2025, and the remaining Phase IV concessions will continue to open through October 2026. The third-party lounge, an American Express Centurion Lounge, is set to open in October 2025.

Airport ground transportation services generally include taxis, limousines, shuttle buses and transportation network companies (“**TNCs**”), such as Uber Technologies, Inc. (“**Uber**”) and Lyft, Inc. (“**Lyft**”). The terminal roadway provides vehicular access to the Terminal at ground level.

Parking Facilities. Public parking facilities currently located at the Airport consist of the new five level, short-term Parking Garage near the Terminal complex and long-term economy surface parking lots. As part of the TRP, the economy lots have also been reconfigured. See “THE NEW SLC AND OTHER CAPITAL PROJECTS—Completed Elements of the New SLC—Parking Garage and South Economy Parking Lot.” In total, these facilities comprise about 152 acres, including the five levels of the garage, and have 14,401 public parking spaces. The short-term Parking Garage has 3,469 public parking spaces on levels 2 through 5 and is located adjacent to the Terminal facility. The first floor is dedicated to rental car operations. Current pricing for the short-term parking garage is \$40 per day (which can be raised to \$45 per day based on demand) or \$60 per day for the Premium Reserved Parking service. In addition to the new Parking Garage, the Airport has a substantial amount of surface parking available for Airport patrons, including a new surface parking area (Lot E) located east of the new parking structure within walking distance of the Terminal that includes 857 parking spaces currently priced at \$25 per day. Pricing for the economy lots is \$12 per day.

To help reduce vehicle traffic congestion in the terminal area, the Department maintains a 215-space Park and Wait lot and adjacent Touch n’ Go service plaza located west of Terminal Drive, just south of the Terminal, where motorists meeting arriving passengers may wait without charge until passengers are ready to be picked up. The Park and Wait lot has large electronic signs displaying flight arrival information. Once a flight has arrived and sufficient time has elapsed for passengers to claim their luggage, the sign indicates “ready for pick up.” To reduce congestion at the curb, however, the Department encourages drivers to wait until passengers are at the curb, confirming with their driver via cell phone.

Rental Car Facilities. Rental car operations for passengers at the Airport currently are located in the Gateway Center and on the ground floor of the new parking garage adjacent to the terminal building and include approximately 1,200 ready/return parking spaces. Nine rental car brands are currently located at the Airport: Alamo, Avis, Budget, Dollar, Enterprise, Hertz, National, Payless and Thrifty. In addition, nine brands are located off-Airport and their customers must use shuttle bus services. As a result of a recent solicitation, one new entrant, Sixt Rent a Car, will become an on-Airport operator on March 1, 2026. Additionally, the Department has entered into an agreement with Turo, Inc. to operate at the Airport.

The rental car service facilities were placed in service in March 2016. These facilities consist of a QTA facility for fueling and washing cars and three facilities for performing light vehicle maintenance. The QTA is a two-level building of approximately 468,000 sf with 14 wash and service bays on the first floor and vehicle storage and parking on the second floor. The RSS facilities consist of three single-story service buildings containing a total of approximately 34,000 sf of building space located south of the QTA.

These buildings provide back-of-house maintenance areas for the rental car providers and contain office, support and storage space. The QTA and RSS are currently in use by the rental car companies operating at the Airport. See “THE NEW SLC AND OTHER CAPITAL PROJECTS—Completed Elements of the New SLC—Rental Car Facilities.”

Air Cargo and Aircraft Maintenance Facilities. The Airport has over 1 million sf of leased cargo space. Both UPS and DHL have stand-alone cargo facilities and FedEx constructed a 69,660 sf cargo facility. The Department also is in the selection process for a third-party developer for a multi-tenant air cargo facility located on the northwest side of the airfield. Additionally, the Department is facilitating the negotiation for Delta to relocate their current air cargo facility, which they have outgrown, to a larger, refurbished property on the airfield. Delta and its regional partner, SkyWest, each maintain an aircraft maintenance hangar at the Airport at which both routine and heavy maintenance are performed, and Delta has maintained a reservation center at the Airport for over 35 years that employs over 620 persons.

Industrial Activity and Other Nonaeronautical Activities. In December 2017, the Department opened an 8,400 sf Touch n’ Go Convenience Store at the site of the Park and Wait lot. This facility offers a gas station and convenience store, as well as a coffee house, a Burger King® and a fast-casual restaurant. The facility also includes flight information display monitors, allowing persons waiting to pick up arriving passengers to track flight arrivals, and a drive-through window.

The Department maintains an industrial park on the east side of the Airport for aviation-related businesses. Boeing Corporation (“**Boeing**”) has a 100,000 sf fabrication and assembly facility at the Airport located on 16 acres of land that currently employs approximately 575 persons where tail sections of its 787-9 “Dreamliner” aircraft are assembled. Boeing has manufacturing facilities in the Salt Lake City area that manufacture many of the components of this assembly and has also purchased an 850,000 sf building approximately 20 miles from the Airport at which parts for the 787 are manufactured. Boeing holds an option until June 30, 2027 on an additional 149 acres of land adjacent to its assembly facility on the west side of the Airport.

On May 8, 2023, Delta leased approximately eight acres of land from the Department for a term of 30 years for the construction and operation of a Flight Operations Training Center (the “**Training Center**”), which will initially house four flight simulators and training, administrative, and office space. The site has the potential for growth up to ten total flight simulators. Delta financed the Training Center’s construction and operation; the City did not contribute to or finance such costs. The Training Center is Delta’s first such pilot training center outside of Atlanta. The Training Center was completed in December 2024.

Airport Access. The Airport has access from Interstate Highway 80 and is approximately five miles, or 10 minutes, from downtown Salt Lake City by car. The Airport is served by the TRAX light rail system owned and operated by the UTA, which connects the Airport with downtown Salt Lake City. The Terminal accommodates the terminus of the TRAX light rail station at the Airport to the first level of the Terminal. The TRAX extension was financed and built by the UTA. UTA also provides limited bus service to Tooele and paratransit services. In addition, the Airport is served by taxis, private shuttles and TNCs.

The Airport is served by several TNCs, including both Uber and Lyft. The Department has set aside dedicated curb space at the Airport for TNC pick-ups, but TNC drivers are required to wait for customers off-Airport. TNC operations at the Airport have grown substantially since FY 2016, when TNC operations were first permitted at the Airport and 209,800 transactions were reported, to FY 2024, when 1.95 million transactions were reported. Airport revenues from TNC operations at the Airport have also increased: in FY 2024, the Department realized \$6.33 million in such revenue, compared to \$3.63 million in FY 2019.

The City is served by a network of interstate highways, with I-15 providing north-south access and I-80 providing east-west access. Several recreational areas, such as Park City, are within one hour's driving time from the Airport and three of the State's major universities are within 70 miles of the Airport.

Ancillary Facilities. Ancillary facilities support the aviation-related activities at the Airport. These ancillary facilities include the 82 acre Utah Air National Guard site, the on-Airport fuel facility, general aviation facilities, including two fixed base operators ("***FBOs***"), corporate hangars, FAA, the Department, maintenance facilities, and commercial facilities. In August 2024, the Department entered into a ground lease with Sky Harbour for an 11.3 acre site at the Airport. Sky Harbour plans to construct four corporate hangars and support facilities, totaling approximately 175,000 square feet, on the site.

Auxiliary Airports. The Department also operates two general aviation ("***GA***") airports owned by the City: South Valley and Tooele (referred to collectively as the "***Auxiliary Airports***"). South Valley is approximately 880 acres in size and is primarily a GA airport, with a 5,860 foot runway, over 200 based aircraft and approximately 118,000 annual operations. Tooele provides GA and flight training services and is slightly smaller, with approximately 600 acres and a 6,100 foot runway, 16 based aircraft and approximately 38,000 annual operations. These airports support the GA and flight training needs of the region and complement the commercial airport services provided at the Airport.

Aviation Activity at the Airport

The Airport predominantly serves domestic traffic, which comprised approximately 95.2% of the Airport's enplaned passenger traffic in FY 2024; international traffic is a relatively small component at approximately 4.8%. Prior to the COVID-19 pandemic, international traffic was a growing segment of the air service at the Airport. According to OAG Aviation Worldwide Limited ("***OAG***"), in June 2019, the Airport averaged 370 daily departures to 98 non-stop destinations. Due to the COVID-19 pandemic, airlines operating at the Airport reduced service and, in June 2020, the Airport averaged 143 daily departures to 67 non-stop destinations. By FY 2023, the Airport's passenger air service had fully recovered to pre-pandemic levels. In June 2025, the Airport averaged 354 daily departures to 106 non-stop destinations. The fewer average daily departures in June 2025 relative to June 2019 is primarily because several airlines, including Delta, transitioned their fleet compositions toward higher-capacity aircraft that can carry more passengers per flight, a practice known as "upgauging," while operating fewer flights overall and trimming service to some small destinations. Several airlines are upgauging their fleets at least partially in response to an ongoing shortage of pilots. See "INVESTMENT CONSIDERATIONS—Industry Workforce Shortages."

Prior to the COVID-19 pandemic, the Airport had service to three Canadian cities and five locations in Mexico. The Airport also had European service to Amsterdam Schiphol Airport (AMS), Paris Charles De Gaulle Airport (CDG), and London Heathrow Airport (LHR). Since the COVID-19 pandemic, the Airport's international service has grown, with services to all international destinations served prior to the pandemic having returned. In June 2025, Delta launched new service to Incheon, South Korea.

Historical Enplaned Passengers. Enplaned passengers at an airport correlate positively to several important sources of non-airline revenue, including in-terminal concessions, parking and rental car fees, as well as PFCs and CFCs. Based on preliminary data from the FAA, approximately 13.5 million enplaned passengers boarded aircraft at the Airport in calendar year 2024, ranking it 22nd in the United States. This was an increase of approximately 4.95% as compared to FAA data for calendar year 2023.

According to data maintained by the Department and the United States Department of Transportation ("***USDOT***"), in FY 2024, the Airport had an estimated 8.7 million O&D enplaned passengers (62.7%) and an estimated 5.2 million connecting passengers (37.3%).

The following table sets forth historical enplanement information for the Airport for the fiscal years ended June 30, 2015 through June 30, 2024 and for the first eleven months of Fiscal Years 2024 and 2025. The table categorizes enplanement information into O&D enplanements and connecting enplanements:

**Salt Lake City International Airport
O&D and Connecting Enplaned Passengers
Fiscal Years Ended June 30**

Fiscal Year	O&D Enplaned Passengers	Percent Change From Prior Fiscal Year	Connecting Enplaned Passengers	Percent Change From Prior Fiscal Year	Total Enplaned Passengers	Percent Change From Prior Fiscal Year
2015	5,711,087	9.0%	5,122,921	1.3%	10,833,708	5.2%
2016	6,145,817	7.6	5,147,194	0.5	11,293,011	4.2
2017	6,643,195	8.1	5,207,025	1.2	11,850,220	4.9
2018	7,201,438	8.4	5,218,734	0.2	12,420,172	4.8
2019	7,543,142	4.7	5,546,991	6.3	13,090,133	5.4
2020	5,817,629	(22.3)	4,278,103	(23.7)	10,095,732	(22.9)
2021	4,353,659	(25.7)	3,356,694	(20.7)	7,710,353	(23.6)
2022	7,648,356	75.7	5,153,862	53.5	12,802,218	66.0
2023	8,107,139	6.0	5,035,971	(2.3)	13,143,110	2.7
2024	8,688,705	7.2	5,161,711	2.5	13,850,416	5.4
First Eleven Months¹						
2024	N/A	N/A	N/A	N/A	12,599,377	—
2025	N/A	N/A	N/A	N/A	12,671,351	0.5%

N/A – a breakout of O&D and connecting enplaned passengers for the first eleven months of Fiscal Years 2024 and 2025 is not available.

¹ July 1 through May 31. Results for the first eleven months of FY 2025 may not be indicative of results for the full FY 2025. Sources: Total Enplanements: Department Records; USDOT (via Diio) for O&D passengers. Connecting passengers were derived by subtracting USDOT-reported O&D passengers from Department-reported total enplanements

Airlines report the number of enplaned passengers at an airport to the USDOT but are not required to differentiate between O&D and connecting passengers. Based on other reported data, the USDOT estimates the number of O&D versus connecting passengers, and this estimate is generally accepted within the industry.

During the 10-year period from FY 2015 to FY 2024, the number of passengers enplaned at the Airport grew to a peak of approximately 13.9 million in FY 2024, which is an increase of 5.4% over FY 2023 (the previous record year for enplanements at the Airport). See APPENDIX B—REPORT OF THE AIRPORT CONSULTANT.” The Airport operates as both a major O&D market and as a major connecting hub for Delta. Delta’s enplaned passengers combined with those of its regional partners comprised 70.1% of enplaned passengers at the Airport in FY 2024. Historically, O&D passenger traffic at the Airport has ranged between 49% and 60% of total passengers. For a more complete discussion of the changes in enplanements at the Airport and factors affecting these changes, see “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Air Service and Air Traffic Analysis.”

During the 10-year period from FY 2015 through FY 2024, the two segments of enplanements at the Airport experienced growth, albeit at differing rates. O&D enplanements grew from approximately 5.7 million enplaned passengers in FY 2015 to approximately 8.7 million enplanements in FY 2024. O&D enplanements have grown steadily at a compounded annual growth rate (“**CAGR**”) of 4.8% from FY 2015 through FY 2024, reflecting the strength of the Air Service Area’s economy and demand for travel to and from the City and the region. During the same 10-year period, connecting enplaned passengers generally remained steady at approximately 5.1 million enplanements in FY 2015 and approximately 5.2 million enplanements in FY 2024.

Airlines Serving the Airport. All the major network airlines, two LCCs and three ULCCs operate at the Airport. The Airport also has cargo operations by ten all-cargo carriers in addition to cargo carried by the passenger airlines. The following table sets forth the passenger and cargo airlines operating at the Airport as of December 2024.

**Passenger and Cargo Airlines Operating at Salt Lake City International Airport
December 2024**

Signatory Airlines	Affiliate and Non-Signatory Airlines¹
Alaska Airlines (AS)	Envoy Air (AA)
American Airlines (AA)	Horizon Air (AS)
Delta Air Lines (Delta)	Mesa Airlines (AA, UAL)
Frontier Airlines	SkyWest Airlines (AS, AA, Delta, UAL)
Southwest Airlines	Sun Country Airlines
Spirit Airlines	JetBlue Airways
United Airlines (UAL)	Hawaiian Airlines
All Cargo Airlines	Foreign Flag Airlines¹
Airnet 11	Aeromexico (Delta)
Air Transport International, Inc.	Air Canada
Alpine Aviation	KLM Royal Dutch Airlines (Delta)
Ameriflight, LLC	WestJet
Amerijet International	
Corporate Air	
Empire Airlines	
FedEx	
Gem Air	
21 Air ²	
United Parcel Service	

¹ Affiliated Signatory Airlines, if any, are shown in parentheses.

² Operates DHL Express service.

Source: Department Records

Note: Amounts may not add due to rounding.

Delta is the dominant carrier at the Airport and, with its affiliates, generated approximately 70.1% of enplanements in FY 2024. Delta and its predecessors have served Salt Lake City since 1926. Western Airlines (“**Western**”) began service on April 17, 1926, flying mail from Los Angeles to Salt Lake City. In 1982, Western established a hub at the Airport. In 1987, Delta acquired Western and Delta has maintained a hub at the Airport ever since. According to Delta, the Airport provides an efficient western hub for Delta that connects passengers from connecting markets in the western U.S. with Delta’s network, as well as connects passengers from Los Angeles International Airport (LAX) and Seattle-Tacoma International Airport (SEA), where Delta also has substantial operations, to Delta’s eastern hubs and focus cities, including Hartsfield-Jackson Atlanta International Airport (ATL), Boston-Logan International Airport (BOS) and LaGuardia Airport (LGA). Although a substantial percentage of Delta’s passengers flying through the Airport are connecting passengers, based upon USDOT data for FY 2024, approximately 51.5% of Delta’s passengers at the Airport were O&D passengers, consistent with the strength of the Salt Lake City region’s air service market. For more information regarding Delta’s operations at the Airport, see “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT.”

Southwest Airlines is the number two carrier at the Airport, with an enplaned passenger market share of approximately 10.8% in FY 2024. United Airlines had an enplaned passenger market share of approximately 5.4% in FY 2024, and American Airlines had an enplaned passenger market share of approximately 5.2% in FY 2024. Delta has maintained the largest market share at the Airport, with both a strong O&D and hubbing presence, but as the local O&D market has grown and Delta has adjusted its

hubbing operations at the Airport, the shares of Delta's competitors have grown and the O&D share of Delta's passengers has also grown.

Passenger Markets. For June 2025, scheduled non-stop service from the Airport was offered to 95 domestic and 14 international destinations. 41 of the 109 destinations are served by two or more air carriers. Set forth below is a map depicting the non-stop destinations served from the Airport.

[Remainder of page intentionally left blank.]

Source: USDOT

The future level of aviation activity and enplaned passenger traffic at the Airport will depend upon factors such as regional, national and international economic conditions, Delta maintaining its operating hub at the Airport, potential health or security threats, and the financial condition of individual airlines and their continued service at the Airport. See “INVESTMENT CONSIDERATIONS” below.

Aircraft Operations and Landed Weights. Total aircraft operations at the Airport increased 1.5% in FY 2024 over FY 2023. Landed weights increased from 15,598,332 thousand pounds of landed weight in FY 2023 to 16,573,137 thousand pounds in FY 2024, reflecting increased operations at the Airport, as

well as a shift away from smaller regional jet aircraft. This latter trend also is shown by the shift in passengers from Delta’s regional carriers (Delta Connection) to Delta’s mainline service. Total Delta enplanements (including its Delta Connection carriers) between FY 2022 and FY 2024 increased from 9.4 million passengers in FY 2022 to 9.7 million in FY 2024, while the number of enplaned passengers on Delta’s mainline aircraft alone rose from approximately 7.4 million in FY 2022 to 8.0 million in FY 2024.

The following tables show historical data on aircraft operations (landings and takeoffs) for FY 2019 through FY 2024, and landed weights for the same periods. The approximate distribution of operations in FY 2024 was 75.2% air carriers, 18.9% general aviation, 4.9% cargo, and 1.0% military.

Air Cargo. The Airport is also a regional center for processing air cargo. Approximately 173,388 U.S. tons of freight and mail were loaded and unloaded on and off aircraft at the Airport in FY 2024. As of December 2024, the Airport was served by ten all-cargo and small package and express carriers. All-cargo carriers carry only cargo and these companies include FedEx and UPS.

For FY 2024, the companies with the largest share of enplaned and deplaned cargo at the Airport, based on cargo tonnage, were FedEx with 52.3%; UPS with 30.0%; American Airlines with 4.2%; Delta with 2.8%, 21 Air LLC with 1.9%; and Alpine Aviation with 1.3%. Together, these six carriers accounted for over 92% of total cargo and mail handled at the Airport in FY 2024. The following table shows historical data on air cargo and mail shipped through the Airport for FY 2019 through FY 2024.

Airline Use Agreement

General. The City has entered into an AUA with each of the following Signatory Airlines: Alaska, American, Delta, Frontier, Southwest, Spirit and United. The AUAs were originally scheduled to terminate on June 30, 2024, unless earlier terminated or extended. However, beginning in May 2018, the terms of the AUA were extended for all of the Signatory Airlines. In May 2018 and September 2021, respectively, Delta and United extended their respective AUAs through June 30, 2034. Then, effective December 14, 2022, pursuant to the Second Amendment to AUA, Delta agreed to extend its term through June 30, 2044, which, subject to the mutual consent of the City and Delta, can be extended through 2054. In addition to Delta, Alaska and Southwest also entered into the Second Amendment to AUA extending the term of their respective agreements through June 30, 2044, and American, Frontier, Spirit and United entered into the Second Amendment to AUA extending the term of their respective agreements through June 30, 2034. Accordingly, Signatory Airlines that carried approximately 97.7% of the enplaned passengers at the Airport for Fiscal Year 2024 have entered AUAs that have terms through at least June 30, 2034. The following table sets forth the terms of the AUAs entered into by the Signatory Airlines that enplaned approximately 97.7% of the passengers at the Airport during FY 2024.

Terms of Airline Use Agreements

<u>Airline</u>	<u>Term Ending June 30</u>	<u>Percentage of Enplaned Passengers (Fiscal Year 2024)</u>
Delta Air Lines	2044*	70.1%
Southwest Airlines	2044	10.8
Alaska Airlines	2044	2.0
United Airlines	2034	5.4
American Airlines	2034	5.2
Frontier Airlines	2034	2.6
Spirit Airlines	2034	<u>1.6</u>
Total		<u>97.7%</u>

* By the mutual consent of the City and Delta, the term of the Delta AUA can be extended for two successive five year periods through June 30, 2054.

As of July 1, 2024, Capital Investments (as defined in the AUA) will require the approval of Signatory Airlines equating to at least 15% of enplanements for the prior 12 months.

The AUA may only be terminated by a Signatory Airline for an extraordinary event, such as closure or imposition of material and substantial restrictions on operation of the Airport for more than 90 days. The AUA also allows a Signatory Airline to designate one or more airlines meeting certain criteria as Affiliates. All of the passenger air carriers operating at the Airport are Signatory Airlines or their Affiliates. The AUA with each Signatory Airline is in substantially the same form and provides for the lease of specified airline premises on an exclusive or preferential basis, depending upon the type of space, as well as use of certain common and joint use facilities. Gates and ticket counters are leased on a preferential basis, pursuant to which the Department may allow another airline to operate in such space in periods during which the Signatory Airline does not have a scheduled operation using such facilities. Offices and passenger clubs/lounges are leased on an exclusive use basis, and baggage and certain other areas are joint or common use facilities. In addition, the Department currently has not leased and has reserved six gates and four aircraft hardstand positions as common use facilities. The AUA also provides for reallocation of space by the Department, either on its own initiative, in which case moving costs will be paid by the Department, or at the Signatory Airline's request, in which case all costs are paid by the requesting Signatory Airline. The AUA grants the Signatory Airlines the right to operate at the Airport. The form of the AUA (including the First and Second Amendments) is set forth in Appendix D hereof.

Rates & Charges. The AUA establishes the manner in which the Department will establish and collect rates and charges for use of the Airport by Signatory Airlines. Pursuant to the AUA, the Department has established seven direct Cost and Revenue Centers, including the Airfield and the Terminals and two indirect Cost Centers for general and administrative ("G&A") and roadway expenses. Landing fees for use of the airfield are calculated on a residual basis.

All budgeted costs allocable to the airfield, including operating expenses, debt service, amortization of capital costs funded with Revenues other than the TRP and amounts necessary to replenish reserves allocable to the Airfield Cost and Revenue Center, less Revenues allocable to the airfield other than landing fees, are divided by estimated landed weights and recovered on the basis of actual landed weights of aircraft operated at the Airport. Landing fees are charged monthly in arrears based upon actual landed weights for the preceding month.

The rental rate for terminal space is calculated on a commercial compensatory basis by dividing all budgeted costs properly allocable to the Terminal Cost and Revenue Center, less Revenues from airlines that are not Signatory Airlines, by the Rentable Airline Space within the Terminals to determine the rental rate. The rental rates are then adjusted based upon whether the leased space has heating, ventilation and air conditioning, known as conditioned space, or is unconditioned space. Effective July 1, 2024 and for each Fiscal Year thereafter, the AUA as amended by the Second Amendment to AUA provides that a fixed 82% of the Net Terminal Requirement will be recovered through terminal rental rates, regardless of the amount of space rented by the airlines. Baggage claim facilities are joint use facilities and charged by allocating 20% of the revenue requirement for such facilities among all Signatory Airlines and 80% by the percentage of passengers of each such carrier. For common use gate facilities, the Department establishes a per turn rate by determining the highest cost per operation for all carriers, equal to the total of leased gate space multiplied by the conditioned rate per square foot and then dividing that amount by 365, and then dividing that daily rate by the lowest number of scheduled operations at any leased gate to determine the per turn fee. Rates for common use ticket counters and bag make-up areas are similarly calculated to derive a daily rate for use of such space. Other fees that are charged for use of the Airport's aeronautical facilities include fees for international passengers to cover costs associated with the screening of international passengers; charges for over-night aircraft parking; storage of ground service equipment; storage areas and ticketing kiosks; and fees for employee badging and parking.

The Department has the right to recalculate rates and charges if budgeted costs, landed weights or rented terminal space are likely to vary by more than 10% from the actual costs or estimates, or if recalculation is required by the Master Indenture. Within 120 days after the close of each fiscal year, the Department calculates the actual costs and expenses and the amounts collected in landing fees, terminal rents and other charges for the prior fiscal year and, if the amount collected exceeded or was less than the actual revenue requirements, the difference or shortfall is included in the rates for the second fiscal year following the fiscal year of such operations. See “—Airport Financial Operations—Management’s Discussion and Analysis—Terminal Rents” below.

The Department shares a portion of certain in-terminal concession revenues and rental car concession revenues (excluding CFCs) with the Signatory Airlines in the amount of \$1 per enplaned passenger for up to 10 million enplaned passengers and additional amounts if enplaned passengers exceed 10 million; provided, however, that the total revenue sharing amount in any fiscal year cannot exceed the least of (a) 30% of Net Remaining Revenue; (b) the total amount of Annual Adjusted Gross Revenues for Selected Concessions; and (c) the Calculated Revenue Sharing Amount. In FY 2024, such revenue sharing totaled \$15.3 million, an increase of 10.5% compared to FY 2023. The Second Amendment to AUA provides for an increase in revenue sharing commencing July 1, 2024 of \$1.40 per enplaned passenger up to 14 million Enplaned Passengers and if the number of Enplaned Passengers in any Fiscal Year exceeds 14 million, additional revenue sharing not to exceed the lesser of (i) 40% of Net Remaining Revenues, (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions, and (iii) the Calculated Revenue Sharing Amount.

The AUA also provides for extraordinary coverage protection if the Department expects to fail to meet the rate covenant under the Master Indenture. See “SECURITY FOR THE SERIES 2025 BONDS—Rate Covenant.” Under the AUA, if in any Fiscal Year the amount of Revenues less Operating Expenses is projected to be less than the sum of the principal of, premium, if any, and interest due in that fiscal year on the Bonds and Subordinated Obligations, if any, then Outstanding, plus 25% of such Debt Service on Bonds and the amount required under the agreement providing for the issuance of such Subordinated Obligations, then the Signatory Airlines will make extraordinary coverage protection payments in addition to landing fees and terminal rents. Such payments shall be allocated among the Signatory Airlines in a fair and not unjustly discriminatory manner to the landing fee or terminal rentals or both in the reasonable discretion of the Executive Director.

See “APPENDIX D—FORM OF AIRLINE USE AGREEMENT—Rates and Charges.”

The New SLC and Other Construction Projects. Each Signatory Airline, by execution of the AUA, has approved the TRP. The NCP was approved unanimously by the Signatory Airlines in April 2016 in accordance with the provisions of the AUA for approval of additional capital projects in the Terminal and Airfield Cost and Revenue Centers. Certain other capital investments at the Airport are subject to approval by at least one of the Signatory Airlines, following consultation between the Department and the Signatory Airlines, before the Department may undertake such improvements; provided, that certain capital projects, such as those mandated by the FAA, USDOT or TSA, projects to repair casualty damage, projects at Cost and Revenue Centers other than the Airfield or Terminal, reasonable repairs, emergency expenditures, projects funded with PFCs, CFCs or grants, or projects undertaken for and funded by a Signatory Airline may be undertaken without Signatory Airline approval.

The AUA requires that the Signatory Airlines appoint an Airline Technical Representative to represent them in matters pertaining to the TRP. The Airline Technical Representative must participate in design review, attend meetings of the Airport’s Financial Oversight and Construction Committees, and may inspect and review construction and make recommendations to the Department regarding matters related to the New SLC. The Department must consult with the Airline Technical Representative in the development

of contract documents and construction schedules, and in the event of certain cost increases. The cost of the TRP originally approved in the AUA was \$1.782 billion. This total cost may be increased with the approval of 55% of the Signatory Airlines or Signatory Airlines that collectively accounted for at least 55% of the terminal rents in the preceding Fiscal Year. Project costs may also be increased without Signatory Airline approval to reflect additional costs because of causes beyond the City's control following review by the Airline Technical Representative or for elements of the TRP undertaken to satisfy the request of a Signatory Airline as long as such Airline pays such additional costs.

On March 16, 2021, Delta, acting on behalf of the Signatory Airlines pursuant to the AUA, agreed to an increase in the overall cost of the New SLC to an estimated construction cost, of \$4.45 billion. Delta, and all other signatories to the Second Amendment to AUA, subsequently agreed to a further increase in the cost of the New SLC by approximately \$680.7 million for the costs of the final phase of Concourse B (the NCP) through approval of the Second Amendment to AUA effective December 14, 2022. The full cost of the New SLC, including soft costs, is estimated to be \$5.13 billion.

The current estimate of \$2.31 billion for the NCP is based upon the final estimated costs for the Concourse B portion of the project and related projects and recent experience with construction costs in the Salt Lake City area. The increase in the cost of the NCP over its originally estimated budget reflects expansion of the Concourse B to 47 gates, tenant scope additions, including hardstand expansion, passenger and baggage system enhancements, and an accelerated schedule cutting one to two years from the construction schedule, as well as cost escalations due to materials pricing impacted by the COVID-19 pandemic and a robust construction environment in the Salt Lake City area.

In the event of cost increases where the actual bid for a contract exceeds the estimate by more than 10%, or total costs of a project contract, including change orders, exceed the total estimated cost of that element of the TRP by 10%, then the City must meet with the Airline Technical Representative prior to the award of any further contracts and seek agreement on a method of revising the TRP or accepting such increased costs. If the Department and the Airline Technical Representative cannot agree, then a majority of a committee composed of the Program Director, the Department's Chief Financial Officer and the Airline Technical Representative shall make recommendations to the Executive Director regarding revising such contract to bring costs within the allowable limits. Change orders that would increase the amount of any contract by the greater of \$250,000 or more than 10% of the original contract, or would extend the time to complete a contract by more than 25%, must also be submitted to the Airline Technical Representative for review and comment before execution by the Department. See "APPENDIX D—FORM OF AIRLINE USE AGREEMENT—Capital Investments—Special Provisions for the Project."

Airport Financial Operations

The Department is an enterprise fund of the City and receives no City funding. All Revenues generated by the Airport System are deposited in the Revenue Fund and applied in accordance with the Master Indenture. No City general tax revenues are used for any Airport purpose.

Management's Discussion of Historical Operating Results. The Department prepares its financial statements on an accrual basis in accordance with generally accepted accounting principles as set forth by the Government Accounting Standards Board ("**GASB**"). Revenues and expenses are recorded when earned and incurred, not when received or paid, except for PFCs, which are recorded when received. The Department's financial statements for the Fiscal Year ended June 30, 2024, audited by Eide Bailly LLP, are attached to this Official Statement as APPENDIX A. See also "INDEPENDENT AUDITORS" herein.

The Department receives Revenues from a variety of sources, including from airlines for both landing fees and terminal rents, parking facilities, rental car operators, in-terminal concessions, ground

transportation fees, other airline fees and miscellaneous revenues. The Department has pursued a strategy of maintaining a low cost per enplanement (“CPE”) through maximizing non-airline revenues and sharing certain concessions revenues with the Signatory Airlines, continually seeking ways to improve concessions and associated revenues generated at the Airport and controlling operating expenses. In FY 2024, non-airline Revenues represented approximately 52.8% of all Revenues received by the Department, or a total of \$172.4 million, and airline Revenues, net of revenue sharing, were approximately \$154.2 million. In addition, the Department accumulated PFC and CFC revenues as well as excess Net Revenues from prior Fiscal Years in anticipation of TRP funding needs, although with the commencement of construction of elements of the TRP in FY 2015, the amount of cash generated from Airport operations available for future construction has diminished. As of June 30, 2024, the Department held \$119.1 million in restricted funds available for future construction, including proceeds of the Series 2023 Bonds and Department Revenues, compared to \$15.8 million at the end of FY 2023 and \$337.5 million at the end of FY 2022. The Department collected approximately \$51.9 million in PFCs in FY 2024, including interest earnings, compared to \$49.3 million in FY 2023, and \$16.9 million in CFCs in FY 2024 compared to \$15.2 million in FY 2023. See “THE NEW SLC AND OTHER CAPITAL PROJECTS—Funding Sources for the New SLC and Other Capital Projects—PFCs” and “—CFCs.” PFC and CFC collections are used to fund eligible capital projects at the Airport. PFC and CFC collections are directly related to passenger traffic at the Airport, with PFCs being collected only from eligible enplaned passengers, while CFCs are paid by the portion of deplaned O&D passengers renting cars at the Airport.

The Department’s Non-Operating Revenues for Fiscal Years 2021 through 2024 have included federal COVID-19 pandemic relief funds of \$66.0 million in FY 2021, \$40.0 million in FY 2022, \$37.0 million in FY 2023 and \$37.1 million in FY 2024, which are included in “Capital Contributions” on the following table. See “THE AIRPORT—Airport Financial Operations—Non-Airline Revenues—Other Revenue Sources.”

The Department manages its costs in order to maintain a moderate CPE. In FY 2025, the budgeted CPE was \$18.77, higher than its \$9.97 level in FY 2024. This increase was directly related to the costs of operating and maintaining the new facilities that were brought on-line at the Airport over the last couple of years. In light of the substantial construction and development associated with the New SLC, the Department has budgeted a CPE of \$21.36 for FY 2026, reflecting the costs associated with operating and maintaining the additional space that is being brought on line at the Airport, although management also anticipates that the new structures and energy-efficient design of the New SLC will reduce certain costs on a per square foot basis, such as energy and routine capital maintenance, compared to the cost of operating and maintaining the Airport’s former aging and inefficient facilities. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT—Financial Framework and Analysis—Airline Revenues” regarding the Airport Consultant’s projection of CPE at the Airport at completion of the New SLC.

The FAA has approved Department applications to impose and use a \$4.50 PFC, as authorized by federal legislation, and collect a total of \$2.158 billion of PFCs through approximately April 1, 2037. The revenues from PFCs are dedicated to certain FAA-authorized capital projects and are excluded from the Revenues pledged under the Master Indenture that secure the Bonds, except as expressly provided therein. However, PFCs may be applied to pay debt service on the Bonds under certain circumstances. See “SECURITY FOR THE SERIES 2025 BONDS—Use of PFCs To Pay Debt Service.” The Department also requires CFCs to be paid by rental car customers at the Airport. The current CFC of \$5 per day, with a limit of 12 transaction days, is collected by the rental car companies and paid to the Department and held in a separate account for certain capital projects. CFC revenues are also excluded from Revenues pledged under the Master Indenture securing the Bonds. See “SECURITY FOR THE SERIES 2025 BONDS—Pledge of Net Revenues” herein.

The following two tables present the Department's Operating Revenues, Operating Expenses, Non-Operating Revenues and Expenses and Net Position for Fiscal Years 2019 through 2024 and the first three quarters ended March 31, 2024 compared to March 31, 2025.

Source: Salt Lake City Department of Airport internal records.

Airline Revenues. The Department received approximately \$154.2 million, or 47.2% of its total Revenues, in FY 2024 from the airlines operating at the Airport, net of revenue sharing, compared to \$134.5 million, or 47.5% of total Revenues, in FY 2023. The Department credited approximately \$15.3 million and \$13.8 million of revenue sharing back to the Signatory Airlines in FY 2024 and FY 2023, respectively, resulting in an average CPE of \$9.97 in FY 2024, up from \$8.28 in FY 2023. Through March 31, 2025, the Department received approximately \$209.1 million, or 60.7% of its total Revenues, from airlines operating at the Airport, net of revenue sharing, compared to \$116.8 million, or 47.6% of total Revenues through March 31, 2024. The Department receives Revenues from the Signatory Airlines and other aviation users of the Airport's facilities based on their use or lease of the Airport's aeronautical facilities. The primary sources of such revenues are landing fees, which are charged by 1,000 pounds of landed weight, and terminal rents, which are charged on a per square foot basis or, for common or joint use facilities, on a per passenger, per use or daily basis. Other aeronautical fees are derived from aircraft remain overnight parking fees, support building rentals, fuel farm charges and fees for use of the passenger loading bridges. Landing fees and terminal rental rates are set annually by the Department pursuant to the terms of the AUA. See "—Airline Use Agreement" above. The tables below provide a summary of the sources of the Department's Revenues as well as a break-out of the sources of airline revenues by carrier.

Landing Fees. Landing fees at the Airport increased from \$53.5 million in FY 2023 to \$59.8 million in FY 2024. During this period the landing fee per thousand pounds of landed weight increased from \$3.09 to \$3.22. The landing fee for FY 2025 is \$5.37 and the landing fee for FY 2026 is budgeted to be \$5.88. Under the AUA, any variance between the landing fees collected and the direct and indirect costs of operating the Airfield Cost and Revenue Center during a fiscal year is calculated after the fiscal year ends, and the adjustment is either added to, in the case of a shortfall, or credited to, in the case of a surplus, the landing fee for the second succeeding fiscal year, although the Department retains the ability to revise the landing fee if the amount to be collected in any fiscal year is substantially less than the expected costs. Landed weights at the Airport increased from 15,598,332 thousand pounds in FY 2023 to 16,573,137 thousand pounds in FY 2024 due to an increase in passenger aircraft operations. Through March 2025, landed weights at the Airport increased to 12,591,236 thousand pounds from 12,363,569 thousand pounds through March 2024.

Terminal Rents. Each Fiscal Year, the Department establishes terminal building rental rates and fees on a commercial compensatory basis as required by the terms of the AUA. The annual calculation allows the Department to recover its budgeted direct and indirect capital and operating costs for such leased terminal space, but the Department bears the risk of not recovering the cost of any unleased terminal space. As of June 30, 2025, substantially all available airline space at the Airport was either leased, or in use on a common or joint use basis. Similar to the method described above for adjusting landing fees on an annual basis, terminal rates and fees are also adjusted based on actual costs incurred and rents received. The Department calculates the variance from the budget estimates after the fiscal year ends, and the adjustment is either added to the second succeeding year's terminal rental rate (in the case of a shortfall) or credited against such rental rate (in the case of a surplus). The Department does not recover the costs allocable to unrented space through its terminal rentals. The Department can also make adjustments during the year to the rates charged to the Signatory Airlines for terminal rentals.

The Department currently leases 68 of the 73 operational gate positions to various Signatory Airlines serving the Airport. The remaining gates are held for use on common use basis and airlines using such gates are charged a per turn fee. Prior to 2023, because of a lack of gates, Delta also operated from

15 hardstand positions and the Department had 5 other hardstand positions that were operated on a common use basis. With the opening of the additional gates in 2023, operation from these hardstands ceased and the hardstands were demolished. The Department plans to construct four hardstands as part of the NCP that will be operational in October 2026 and will be used once there is sufficient demand. Terminal rental revenue from the airlines in FY 2024 was \$82.7 million (net of revenue sharing), an increase of \$10.1 million from the \$72.6 million (net of revenue sharing) received in FY 2023. The terminal rental rate for class 1 conditioned space was \$189.74 per square foot in FY 2024 compared to \$166.98 per square foot in FY 2023. The increased rental rate for FY 2024 reflected the costs associated with elements of the New SLC being placed in service and debt service becoming payable following the capitalized interest period. Through March 2025, terminal revenues received from the airlines operating at the Airport increased to \$148.4 million (prior to adjusting for revenue sharing) from \$73.4 million (prior to adjusting for revenue sharing) through March 2024. This increase was attributable to the new elements of the New SLC being placed in service and operating expenses no longer being offset with federal COVID relief grants which occurred in FY 2024. The rate for FY 2025 is \$309.55 per square foot, and the budgeted terminal rental for FY 2026 is \$324.59. Under the AUA, the Department is permitted to recover its budgeted costs of operating and maintaining the terminal space as adjusted to account for actual costs, plus certain approved capital costs. The approved capital costs include the capital costs of the New SLC, provided that the Department may not recover capital costs of the New SLC paid with accumulated capital (Department funds), PFCs or AIP grants, and if costs increase beyond certain limits, the Department and the Signatory Airlines must undertake a process to resolve the overruns. See “—Airline Use Agreement” above and “APPENDIX D—FORM OF AIRLINE USE AGREEMENT” for a more complete discussion of the provisions of the AUA.

Other Airline Fees. As described above, the Department receives fees from the airlines operating at the Airport from several other sources, including rental of support buildings, which generated \$6.8 million in FY 2024; passenger loading bridge fees, which generated \$1.9 million in FY 2024; use of the fuel farm, which generates approximately \$2.7 million per year under an agreement effective January 1, 2021; and RON fees, which generated approximately \$336,000 in FY 2024.

Non-Airline Revenues. The Department seeks to maximize non-airline Revenues and shares a portion of certain Selected Concession Revenues, as defined in the AUA, consisting of rents received from rental car concessions, excluding CFCs, and in-terminal concession revenues, with the Signatory Airlines in order to maintain a low CPE and to promote expansion of service by carriers. The primary sources of the Department’s non-airline Revenues are parking fees (which are not shared with the Signatory Airlines), rental car fees and in-terminal concessions. Approximately \$172.4 million, or 52.8% of total Revenues, were generated from non-airline sources in FY 2024, compared to \$148.8 million, or 52.5% of total Revenues in FY 2023. Non-airline revenues for the nine-month period ended March 31, 2025 were \$135.4 million, compared to \$128.6 million for the nine-month period ended March 31, 2024. The percentage of airline Revenues to non-airline Revenues is shifting in part due to several factors, including the inclusion of debt service for the aeronautical facilities of the new Terminal and concourse facilities being included in the rent paid by the airlines as such facilities are placed in service, along with increases in non-aeronautical revenues per passenger, and a significant increase in passengers as the number of passengers returns to the pre-pandemic numbers and passenger-driven non-aeronautical revenues, such as parking and rental cars, recover.

Parking Revenues. Airport parking revenues increased from \$60.1 million in Fiscal Year 2023 to \$68.6 million in Fiscal Year 2024. This increase was primarily due to growing passenger numbers and additional business travel. The average cost per transaction from FY 2023 to FY 2024 increased \$7.25 in the economy lot, and \$0.38 in the parking garage; both of which are likely due to an industry trend of longer vacations per family. Additionally, there was a \$2 price increase in FY 2024 for the daily maximum in the economy lot. Parking revenues are generated according to the parking rates established by the Department.

Effective July 1, 2024, the Department increased the daily rate for parking in the garage from \$35 to \$40. The Department has the authority to increase the rate to \$45 per day when needed based on demand. The fee for Premium Reserved Parking increased from \$55 to \$60 at the same time. The Department increased the fee for economy parking from \$10 per day to \$12 per day on July 1, 2023. The Department does not share parking revenues with the Signatory Airlines as an offset to either landing fees or terminal rents; rather, the Department retains the business risk and the return of this Cost and Revenue Center. Parking revenues for the nine-month period ended March 31, 2025 were \$53.4 million, compared to \$50.5 million for the nine-month period ended March 31, 2024.

Rental Cars and Peer-to-Peer Car Sharing. Fees and rentals from the car rental companies increased from \$36.1 million in FY 2023 to \$39.7 million in FY 2024. Fees and rentals from car rental companies for the nine-month period ended March 31, 2025 were \$31.7 million, compared to \$30.4 million for the nine-month period ended March 31, 2024. The agreements with the rental car companies for use of the new RSS and QTA facilities are for a 10-year term terminating on February 28, 2026. The Department recently concluded a solicitation process for new agreements, for a total of 10 brands, that commence on March 1, 2026. As a result of the solicitation, one new entrant, Sixt Rent a Car, will become an on-Airport operator on the commencement date. The current agreements provide for a payment of an effective 11.1% commission on rental car revenues, plus fair market rent on a per square foot basis for all facilities occupied by the rental car companies, plus CFCs. The rental car facilities are operated and maintained by a third party engaged by the rental car companies. The City requires rental car companies to collect a CFC of \$5 per transaction day, limited to 12 days per contract, from persons renting automobiles at the Airport. CFCs, which are not Revenues and are not pledged to the payment of the Series 2025 Bonds, collected in FY 2024 were \$16.9 million and \$15.2 million in FY 2023. CFCs will be applied to fund certain capital projects related to rental car company operations at the Airport. Off-airport rental car companies operate under month-to-month agreements and pay to the Department fees equating to 10% of revenues for access to the Airport.

The City and Turo Inc. (“**Turo**”) entered into a Peer-to-Peer Vehicle Sharing Operating Agreement effective September 23, 2021 that gives Turo the right to operate at the Airport. For the privilege of operating at the Airport, Turo has agreed to pay the Department 10% of its gross revenues, which resulted in revenue received by the Department of \$1.7 million in FY 2024 and \$1.4 million in FY 2023. Turo also pays standard parking fees if the Department’s parking products are used.

TNCs and Ground Transportation. As of July 1, 2020, the Department began collecting a charge of \$2.50 for each passenger vehicle with 1-9 seats operated by a TNC operator at the Airport that picks up or drops off a passenger, with a flat fee of \$10 per operation for vehicles with 10 or more seats. The fees prior to that ranged from \$1.13 to \$2.46 per pick up or drop off. Since FY 2016, when TNCs were first permitted to operate at the Airport, TNC revenues to the Airport have grown from approximately \$247,100 to \$6.3 million in FY 2024. Although ground transportation revenues from other services at some airports that have a substantial TNC presence have declined, the Airport’s total ground transportation revenues, excluding TNC revenues, remained steady at \$2.6 million in each of FY 2023 and FY 2024. Although without TNC trips, other ground transportation trips have declined from approximately 638,000 in FY 2023 to 610,000 in FY 2024, representing a 4.4% decline in such non-TNC ground trips during that period. However, total ground transportation revenues, including TNCs, increased from \$7.7 million in FY 2023 to \$9.0 million in FY 2024 (net of parking and rental car Revenues). Ground transportation revenue excluding TNCs for the nine-month period ended March 31, 2025 was \$1.8 million compared to \$2.1 million for the nine-month period ended March 31, 2024. Total ground transportation revenue for the nine-month period ended March 31, 2025 (net of parking and rental car Revenues) was \$7.2 million compared to \$6.2 million for the nine-month period ended March 31, 2024. As shown above, although TNC operations have increased substantially since FY 2016, both parking and rental car revenues have continued

to grow. There can be no assurance, however, that TNC operations will not have an adverse impact on parking fees, rental car revenues and other ground transportation revenues in the future.

Terminal Concessions. Revenue from concessions increased from \$15.0 million in FY 2023 to \$29.1 million in FY 2024, primarily because of an increase in passengers and the majority of the in-terminal concessions locations being open, and greater concessions opportunities in the new Terminal and concourses. The Department also passed through \$11.0 million in American Rescue Plan Act (“**ARPA**”) funds as “minimum annual guarantee” relief to concessionaires in FY 2023. Concession revenues for the nine-month period ended March 31, 2025 were \$22.9 million compared to \$21.3 million for the nine-month period ended March 31, 2024. Since opening Phase 1 of the New SLC, unaudited sales per enplaned passenger has continued to climb from \$7.62 per enplaned passenger for September 2020 to \$12.74 for March 2025. Among other factors, the Department attributes the growth in concession revenues to increased concessions square footage, the right mix of concessions concepts, and a true street pricing policy which went into effect with the opening of the New SLC. The following chart sets forth the average in-Terminal concession sales per enplaned passenger between September 2019 and March 2025.

The City’s agreements with the concessionaires operating at the Airport currently require the concessionaires to pay the City the greater of a certain percentage of gross revenue and a minimum annual guarantee (“**MAG**”). Due to rapid variability in concessionaire revenue caused by bringing different phases of the New SLC online, the City may suspend the MAG requirement under its retail and food and beverage concession agreements until the New SLC is completed in October 2026. Once the New SLC is fully complete, the City will evaluate the appropriate amounts that the concessionaires should be obligated to pay the City.

Other Revenue Sources. The Department also derives Revenues from other sources, including cargo and other building rentals, hangar rents for both air carrier maintenance facilities and for general aviation facilities at the Auxiliary Airports, FBO rents and fees and other buildings leased by the Department, such as the Touch n’ Go Convenience Store and the Boeing assembly facility. Revenues from these sources totaled \$26.0 million in FY 2024, compared to \$29.9 million in FY 2023. The decrease in 2024 is primarily a result of a one-time \$5.3 million legal settlement the City received in FY 2023 related to the parking garage. The remaining increase is primarily due to increases in contracts for leased space. Other revenues for the nine-month period ended March 31, 2025 were \$20.3 million compared to \$19.6 million for the nine-month period ended March 31, 2024.

In addition to Revenues, the Department received federal relief grants totaling \$183.9 million under the federal Coronavirus Aid, Relief, and Economic Security Act (the “**CARES Act**”) (\$52.5 million), the Coronavirus Response and Relief Supplemental Appropriations Act (“**CRRSAA**”) (\$20.6 million), and the ARPA (\$80.8 million) (which are not Revenues under the Indenture), which were applied to reduce O&M Expenses through December 2023. See “SECURITY FOR THE SERIES 2025 BONDS—Rate Covenant.” Additionally, the federal government awarded the Department \$125.8 million in BIL AIG grant funding; the Department drew down \$24.6 million from such BIL funds in Fiscal Years 2022, 2023, 2024 and 2025, and intends to draw the same amount in Fiscal Year 2026 and apply such BIL grants to the cost of certain capital costs at the Airport. These grant funds are included in the line entitled “Capital Contributions” in the table entitled “SALT LAKE CITY DEPARTMENT OF AIRPORTS TOTAL ANNUAL REVENUES AND EXPENSES.”

Operating Expenses. The Department’s operating expenses fall into six primary categories, including salaries and benefits, materials and supplies, services, which include utilities, intergovernmental charges and other operating expenses. Operating expenses are allocated to each of the Revenue and Cost Centers and the indirect G&A and roadways Cost Centers. Amounts allocable to the two aeronautical cost centers are recovered through landing fees and terminal rentals, while the Department seeks to generate revenues in excess of the costs allocable to the other non-aeronautical Revenue and Cost Centers from allocable rents, fees and charges. Costs allocable to the G&A and roadways Cost Centers are allocated to and recovered from each of the seven direct Revenue and Cost Centers based upon the proportion of the G&A and roadways services properly allocable to such Revenue and Cost Centers. The Department’s management of operating expenses is an important aspect of maintaining the CPE at the Airport within the Department’s desired range. As a result, the Department’s operating expenses (excluding capital outlays) have increased at a CAGR of 13.4% from FY 2019, before the COVID-19 pandemic, through FY 2024 from a total of \$98.4 million in FY 2019 to \$184.4 million in FY 2024. The Department has budgeted \$242.4 million for operating expenses in FY 2026, and forecasts that the actual amount of net operating expenses for FY 2025 will be \$209.1 million, reflecting the return of normal passenger traffic and the opening of additional elements of the New SLC in calendar year 2025. The following table sets forth a summary of the Department’s Operating Expenses for Fiscal Years 2019 through 2024 and the first three quarters of Fiscal Years 2024 and 2025.

¹ Expenses for each full fiscal year shown are audited; expenses shown for FY 2024 through March and FY 2025 through March are unaudited.

² Results for the first nine months of Fiscal Year 2025 may not be indicative of results for the full Fiscal Year 2025.

³ Starting on January 1, 2019, the Airport Police combined with the Salt Lake City Police, and all wages, benefits and operating expenses are broken out separately.

Source: Department Records

The Department's largest expense in FY 2024 was personnel services, which were \$66.7 million in FY 2024, a 13.1% increase from \$60.0 million in FY 2023, and which comprised approximately 36.2% of the total operating expenses for FY 2024. The Department pays salaries and wages of its employees directly and reimburses the City for its share of fringe benefits, including insurance and pension benefits allocable to the Department's staff. Since FY 2020, personnel services have increased \$18.1 million. The increase in personnel expenses was driven by an increase in FTEs to accommodate the growth in square footage and passengers at the Airport, as well as cost of living adjustments.

The Department's second largest expense in FY 2024 was comprised of a combination of charges, services, and fees, which were cumulatively \$63.5 million in FY 2024, a 5.5% increase from \$60.2 million in FY 2023, and which comprised approximately 34.4% of the total operating expenses for FY 2024. These services include costs associated with outsourcing parking lot operations, shuttle bus services, janitorial services and professional and consulting services. Since FY 2020, the cost of such services has increased from \$25.1 million to \$63.5 million in FY 2024. The increase in expenses for services was driven by expenses related to expanded hardstand operations, requiring busing from Concourse B to the hardstands, and the management of a new IT system that did not exist in FY 2020, as well as increased janitorial and maintenance expenses associated with a larger building footprint.

Operational maintenance supplies constituted approximately 9.7% of the Department's operating expenses and were \$17.8 million in FY 2024, compared to \$20.1 million in FY 2023. Intergovernmental charges comprised approximately 14.5% of the total operating expenses for FY 2024, and were \$26.7 million, compared to \$24.2 million in FY 2023. These charges consist primarily of reimbursements to the City for the costs associated with the City's provision of aircraft rescue and firefighting services at the Airport, which accounted for \$7.1 million of such costs in FY 2024, compared to \$7.2 million in FY 2023, as well as reimbursement for other centralized services, such as legal, accounts payable, purchasing, human resources and contract management services. Starting on January 1, 2019, the Airport Police combined with the Salt Lake City Police, and the Department now reimburses the City for the actual

direct and indirect costs of the salaries, benefits and related expenses of the police officers assigned to the Airport, which accounted for \$12.0 million in FY 2024, compared to \$10.6 million in the FY 2023.

Debt Service Coverage

The following table shows historical debt service coverage on the Existing Bonds for Fiscal Years 2022, 2023 and 2024.

Debt Service Coverage – Existing Senior Bonds (dollars in thousands)

	2022	2023	2024
Revenues	\$258,945	\$283,327	\$326,658
Less: O&M Expenses ¹	<u>(100,937)</u>	<u>(134,944)</u>	<u>(147,312)</u>
Net Revenues	158,008	148,383	179,346
Plus: Transfer	<u>10,462</u>	<u>—</u>	<u>—</u>
Total Available for Debt Service	\$168,470	\$148,383	\$179,346
Annual Debt Service – Existing Bonds ²	\$63,304	\$69,203	\$95,194
Annual Debt Service Coverage (without Transfer) ³	250%	214%	188%
Annual Debt Service – Existing Bonds ²	\$63,304	N/A	N/A
Annual Debt Service Coverage (with Transfer) ⁴	266%	N/A	N/A

¹ O&M Expenses are net of CARES, CRRSAA and ARPA funds.

² Annual Debt Service net of Capitalized Interest and PFCs used to pay debt service.

³ Annual Debt Service divided by Net Revenues

⁴ Annual Debt Service divided by Total Available for Debt Service.

Liquidity

The table below shows the Department's liquidity position for the past six Fiscal Years and the first nine months of Fiscal Years 2024 and 2025. The table below does not include any unused and available draws on the Subordinate Revolving Obligation Credit Agreement, which is available for any lawful use at the Airport. Beginning in FY 2021, the Department determined to apply a portion of the amounts on deposit in the Surplus Fund to the payment of costs of the New SLC. Hence, the days cash on hand reflects this discretionary use of the Surplus Fund. The table includes proceeds held in both the PFC and CFC Accounts. The Department expects to expend the majority of PFCs collected towards payment of principal of and interest on Bonds issued to fund PFC-eligible elements of the TRP, and the Department expects to apply CFCs to reimburse itself for a portion of the costs of the recently completed Parking Facility that will serve rental car companies, and elements of the roadway system serving the rental car facilities.

Personnel Considerations

As of June 30, 2024, the Department had 583 full-time-equivalent (“**FTE**”) employees. Approximately 84% of the Department’s employees are employed in the Maintenance (293) and Operations (195) Departments. This is an increase of 51 FTEs compared to FY 2023, and reflects the need to increase staffing to operate and maintain the new facilities that are being brought on line as elements of the New SLC are completed. Of the new hires in FY 2024, 32 were for Maintenance and 19 were for Operations.

Prior to July 1, 2019, the Airport’s police officers were direct employees of the Department. However, the City and the Department agreed to transfer the Department’s police officers to the City’s Police Department, effective as of January 1, 2019. The Department retains a small staff of dedicated Airport police officers, but the Airport police officers have direct supervision and back-up from the remainder of the City’s police force and are direct employees of the City. The Department reimburses the City for the actual direct and indirect costs of the salaries, benefits and related expenses of the police officers assigned to the Airport. According to the Department, the transfer of the Airport’s police officers to the City’s Police Department has not resulted in a material difference between the costs budgeted by the Department for police services and the actual costs charged by the City.

The Department reimburses the City for the actual direct and indirect costs associated with the City’s provision of police, fire, and certain other services to the Department. In October 2024, the City passed the “Collective Bargaining and Employee Representation Joint Resolution,” which, among other things, acknowledges the City’s practice of recognizing the exclusive representation of three designated groups of eligible employees by labor organizations for the purpose of collective bargaining and sets forth the process for collective bargaining between the City and labor organizations. The City is presently a party to the following three labor agreements (each of which is referred to as a “**Memorandum of Understanding**” or “**MOU**”): (i) an MOU between the City and Local 1004 of the American Federation of State, County, and Municipal Employees, AFL-CIO (“**AFSCME**”) that expires on June 20, 2026; (ii) an MOU between the City and Local 81 of the International Association of Firefighters (“**IAFF**”) that expires on June 30, 2027; and (iii) an MOU between the City and the Salt Lake Police Association (“**SLPA**”) that expires on June 30, 2028. Each MOU contains a provision that prohibits eligible employees from engaging in strikes, work stoppages, concerted absences, and/or similar acts and provides that eligible employees will not receive any wages or benefits if they engage in such prohibited acts.

The Department considers its relations with its employees and the union representatives to be good. During the 2025 Utah General Legislative Session, the Utah State Legislature passed a law prohibiting government entities from negotiating with unions representing public employees. The current MOUs may not be extended or renewed but will be allowed to remain in place until they expire.

Certain users of the Department’s facilities that generate a substantial portion of the Department’s Revenues, such as the air carriers, are dependent upon successful management of their own labor relations for continuation of their operations. These matters are beyond the control of the Department, and significant labor disputes in these areas could have an adverse effect on the Department’s Revenues.

Retirement and Other Post-Employment Benefits

Employee Workforce and Retirement System. The Department participates in the Utah Retirement Systems, which provide three cost-sharing multiple-employer public employee retirement systems and one multiple employer agent system, each of which are defined benefit retirement plans covering public employees of the State and employees of participating local governmental entities (the “**URS**”). The URS are administered under the direction of the Utah State Retirement Board (the “**URS Board**”) whose members are appointed by the Governor of Utah. Each year, as approved by the State Legislature, the URS

Board sets rates, enacts rules and implements policies related to the pensions and benefits the Department's retirees receive. Starting in FY 2015, GASB Statement Number 68 requires URS to pass on pension and retirement liability to the public entities it serves, including the Department. Working with the Department's independent auditors and State specialists, this net pension asset has been recorded on the Department's financial statements for the fiscal year ended June 30, 2024 in the amount of \$0 and a net pension liability of \$5.6 million. The reasons for the favorable status of the Department's pension funding include favorable investment returns for the URS over the pasts several years and the transition of the Department's employees, through new hiring and retirement of older employees, to the Tier 2 systems. The Department contributed \$5.9 million in each of FY 2024 and FY 2023 to the URS with respect to the pension and retirement liabilities of its employees. In FY 2023, the Department reported a net pension asset of \$0 and a net pension liability of \$4.2 million, compared to a net pension asset of \$12.7 million and a net pension liability of \$0 in FY 2022. Based upon the actuarial assumptions used, the pension plan's fiduciary net position was projected in the latest valuation, on January 1, 2023, to be available to make all projected future benefits payments of active and inactive employees. See "APPENDIX A—SALT LAKE CITY DEPARTMENT OF AIRPORTS ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE DEPARTMENT FOR THE FISCAL YEAR ENDED JUNE 30, 2024—Notes to Financial Statements—Pension Plans."

Other Postemployment Benefits. As a result of a City-wide undertaking, commencing January 1, 2016, all postemployment benefits other than pensions for City employees, including those employed by the Department, were terminated. No contributions have been made since January 31, 2016 and none are expected to be made going forward.

Risk Management

The Department carries a general liability policy with a maximum limit of \$500 million covering bodily injury, excess auto liability and hangarkeeper's liability. The policy includes sublimits of \$50 million for each occurrence for personal and advertising injury, and \$50 million in excess auto liability. The Airport facilities are covered by a multi-risk property insurance policy with a maximum limit of \$1 billion and \$100,000 deductible per occurrence. Earth movement carries a sub-limit of \$100 million with a 1% deductible per location subject to a minimum of \$100,000 and a maximum of \$5 million deductible. Flood coverage carries a sublimit of \$150 million subject to a \$100,000 deductible for all locations in any one occurrence. Named Storm carries a \$1 billion limit and a 5% deductible, subject to a minimum \$250,000 deductible per occurrence. Business Interruption is covered at \$200 million, subject to a minimum \$100,000 deductible. The Department carries commercial automobile liability coverage (scheduled vehicles) of \$1 million per occurrence with no deductible.

Contractors, including the CMAR, are required to carry builders' risk insurance covering all facilities under construction during the full period of construction. As elements of the New SLC are completed, the Department expects to continue evaluating its coverage limits and increase them as appropriate to account for the increased value of the new construction.

Pursuant to Amendment No. 1 to the HDJV CMAR Contract, HDJV has provided, is administrating, and has implemented a Contractor Controlled Insurance Program ("**CCIP**") that covers on-site exposures for HDJV and, with limited exceptions, all subcontractors performing work on the TRP and NCP. Demolition and environmental remediation contracts; off-site labor or fabrication; architects, engineers, and consultants; contracts under \$20,000; and work, labor, transportation, and other activities outside the boundaries of the TRP and NCP site are excluded from participation in the CCIP. The coverage provided under the CCIP includes on-site Workers' Compensation, on-site Employer's Liability, on-site general liability, and on-site excess liability insurance with combined limits equal to \$10 million and products/completed operations of \$10 million. Under its CMAR Contract, HDJV also is required to carry

additional insurance coverage, including builder's risk and professional liability coverage. The City is included as an additional insured on all such policies of insurance except Workers' Compensation. HDJV's policies of insurance are primary, and any other insurance carried by the City are excess and not contributing.

The City Treasurer is covered under a \$10 million public official's bond. The City also has public employee dishonesty insurance (an employee "blanket policy") with a \$1 million limit for theft and a \$20,000 deductible. The City is self-insured for losses above the limits and below the deductibles. Further, the City is self-insured for unemployment. The Risk Management Fund, an internal service fund, has been established to pay these claims along with health insurance premiums and certain administrative expenses.

Debt Management Policy

The City maintains a Debt Management Policy ("**Debt Policy**") that is applicable to the Bonds issued by the City for the benefit of the Department. The Series 2025 Bonds comply with the requirements of the Debt Policy.

The Debt Policy covers the types of debt that the City may issue; the legal, policy and financial limits that govern the issuance of debt and use of the proceeds of such debt; debt structuring practices; debt issuance practices; and debt administration and management practices, including tax law requirements, arbitrage regulations and disclosure practices.

Futures, options other than options to enter into swaps, calls or puts are not legal investments under the State Money Management Act. Interest rate exchange or swap contracts, cash flow exchange or swap contracts, any derivatives of these contracts, including forward swaps and options to enter into swaps, and interest rate floors, caps and collars may only be entered into if it is first determined that such contract (a) is designed to reduce the amount or duration of payment, rate, spread or similar risk; or (b) is reasonably anticipated to result in a lower borrowing cost. Such contracts are to be utilized for the control or management of debt or the cost of servicing debt and not for speculation. It is the City's current practice not to enter into such derivative contracts, but no assurance can be given that the City or Department will not enter into such contracts in the future.

Investment Policy

It is the policy of the City to invest public funds, of which the Department's funds are a part, in accordance with the principles of sound treasury management and in compliance with State and local laws, regulations and other policies governing the investment of public funds, specifically, according to the terms and conditions of the State Money Management Act, and the City's own written investment policy. The following investment objectives, in order of priority, are required to be met when investing public funds: (a) legality; (b) safety of principal; (c) need for liquidity; (d) maximum yield on investments consistent with the first three objectives; and (e) maturity of investments, so that the maturity date does not exceed the anticipated date of the expenditure of funds or as required by the State Money Management Act. Bond and note proceeds and all funds pledged or otherwise dedicated to the payment of principal of and interest on those bonds and notes will be invested in accordance with the applicable terms of the borrowing instruments, the Indenture and the Subordinate Indenture in the case of the Department, or if silent or less restrictive, then in accordance with Section 571-7-11 of the State Money Management Act. See also "SECURITY FOR THE SERIES 2025 BONDS—Permitted Investments" and "APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE I: DEFINITIONS; INTERPRETATION"; and "—ARTICLE VI: INVESTMENT OF MONEYS; PERMITTED INVESTMENTS," relating to investment of Series 2025 Bond proceeds and amounts held in the funds and accounts under the Indenture.

The City may use investment advisers to conduct investment transactions on its behalf as permitted by the State Money Management Act and local ordinance or policy. Investment advisers must be certified by the Director of the Utah State Division of Securities of the Department of Commerce. Only qualified depositories as certified by Utah's Commissioner of Financial Institutions are eligible to receive and hold deposits of public funds. The State Money Management Council issues a quarterly list of certified investment advisers, certified dealers and qualified depositories authorized by State statute to conduct transactions with public treasurers. Transactions involving authorized deposits or investments of public funds may be conducted only through issuers of securities authorized by Section 51-7-11(3) of the Utah Code, qualified depositories included in the current State list, and certified dealers included in the current State list. The City Treasurer must take delivery of all investments purchased, including those purchased through a certified investment adviser. This may be accomplished by the City Treasurer taking physical delivery of the security or delivering the security to a bank or trust company designated by the City Treasurer for safekeeping. The City Treasurer may use a qualified depository bank for safekeeping securities or maintain an account with a money center bank for the purpose of settling investment transactions and safekeeping and collecting those investments.

City policy provides that not more than 25% of total City funds or 25% of the qualified depository's allotment, whichever is less, can be invested in any one qualified depository. Not more than 20% of total City funds may be invested in any one certified out-of-state depository institution. However, there is no limitation placed on the amount invested with the Utah State Public Treasurer's Investment Fund ("**PTIF**"), and other money market mutual funds, provided that the overall standards of investments achieve the City's policy objectives. As of June 30, 2024, the Department had deposits with qualified depositories totaling \$6.7 million, of which \$500,000 was covered by federal depository insurance, and the remaining \$6.2 million was uninsured and uncollateralized.

The City's entire portfolio, including the invested funds of the Department, is currently in compliance with all of the provisions of the State Money Management Act.

The PTIF is a local government investment fund, established in 1981, and managed by the State Treasurer. As of June 30, 2024, Department funds on deposit in the PTIF totaled approximately \$562.7 million, which represents a substantial portion of the Department's funds. All investments in the PTIF must comply with the State Money Management Act and rules of the State Money Management Council. The PTIF invests primarily in money market securities. Securities in the PTIF include certificates of deposit, commercial paper, short-term corporate notes, obligations of the U.S. Treasury and securities of certain agencies of the federal government. By policy, the maximum weighted average adjusted life of the portfolio is not to exceed 90 days and the maximum final maturity of any security purchased by the PTIF is limited to five years. Safekeeping and audit controls for all investments owned by the PTIF must comply with the State Money Management Act. The PTIF is not rated, and the average maturities of those investments is not known.

All securities purchased are delivered versus payment to the custody of the State Treasurer or the State Treasurer's safekeeping bank, assuring a perfected interest in the securities. Securities owned by the PTIF are completely segregated from securities owned by the State. The State has no claim on assets owned by the PTIF except for any investment of State moneys in the PTIF. Deposits are not insured or otherwise guaranteed by the State.

Investment activity of the State Treasurer in the management of the PTIF is reviewed monthly by the State Money Management Council and is audited by the State Auditor.

The information in this section concerning the current status of the PTIF has been obtained from sources the Department believes to be reliable, but the Department and the City take no responsibility for the accuracy thereof.

See “APPENDIX A—ANNUAL COMPREHENSIVE FINANCIAL REPORT OF THE DEPARTMENT FOR THE FISCAL YEAR ENDED JUNE 30, 2024—Notes to the Financial Statements—Note 2: Deposits and Investments.”

ENVIRONMENTAL, SOCIAL AND GOVERNANCE FACTORS

Environmental and Sustainability Factors

The Department is attentive to environmental considerations affecting the Great Salt Lake (the “**Lake**”) basin, including the impacts of climate change on Salt Lake City and the surrounding region. Like much of the Western United States, Utah has experienced long-term drought, contributing to a decline in the Lake’s water volume and to air-quality challenges in the Salt Lake City region caused, in part, by air-borne dust from the dry lakebed. The Department has responded to these environmental challenges and others through a longstanding, demonstrated commitment to strengthening the Airport’s sustainability and reducing the environmental impacts of the Airport’s facilities and operations for the benefit of the greater Salt Lake City community.

Sustainability is a core value of the Department. As a reflection of that value, the Department has taken many steps to enhance the sustainability of its operations and facilities, and the Department includes key sustainability metrics in its official Environmental, Social, and Governance (“**ESG**”) reports. In 2021, the Department achieved Leadership in Energy and Environmental Design (“**LEED**”) Gold certification for then-constructed facilities of the TRP and Concourse B West. The Department anticipates achieving LEED Gold certification and not less than Silver certification for the entire New SLC, in compliance with City ordinance. To achieve LEED certification, facilities must meet both environmental criteria, including energy-efficiency and water-use standards, and social-equity criteria, including those concerning compliance with the Americans with Disabilities Act. The New SLC has replaced older, energy-inefficient buildings with new, highly efficient buildings that reduce energy consumption per square foot substantially. Additionally, through the implementation of a software analytics program, the Department has identified opportunities to save over 1,800 hours of electric heater run time per month.

As part of its focus on sustainability, the Department is committed to reducing air pollution resulting from its operations, including emissions of greenhouse gases and other pollutants. The Department has significantly reduced emissions at the Airport through the use of alternative fuels and electrified ground service equipment (“**GSE**”) and other vehicles, such as use of airport buses fueled by renewable natural gas. The New SLC includes 536 charging stations that will enable the airlines operating at the Airport to fully electrify their GSE. As of June 30, 2024, 98% of all core GSE (baggage tractors, belt loaders, and aircraft tow tractors) were converted to electric power. Additionally, there are 164 publicly accessible vehicle-charging stations in the Airport’s parking facilities. The Department has developed a five-year Green Fleet Action Plan to transition Airport fleet vehicles, which are distinct from GSE, to alternative fuels. The Department currently operates a fleet of 40 electric, 15 hybrid, 78 renewable natural gas vehicles, with over 110 vehicles operating on biodiesel. While most of the Airport’s carbon footprint is attributed to emissions outside the control of the Department, the design of the New SLC has helped reduce certain aircraft emissions by 35,000 metric tons annually by more efficiently providing centrally pre-conditioned air and auxiliary power to parked aircraft and by reducing taxiing times through the linear layout of the New SLC concourses. Reflecting the Department’s environmental commitment, the Department has participated since 2017 in ACI’s Airport Carbon Accreditation program, the sole institutionally endorsed carbon-management certification standard for airports. The Airport has advanced

to that program's Level 3, which requires the Department to engage stakeholders in its carbon-reduction efforts.

For over two decades, the Western United States has experienced drought conditions. These conditions, together with agricultural, commercial, and residential demand for water from the Lake's watershed, have contributed to a substantial decline in the Lake's volume and water level. The drought has also contributed to other environmental challenges in the Salt Lake City region, including diminished air quality in the Lake basin and the risk of wildfires, especially in the Wasatch Mountains. Climate change may also contribute to storms that have caused flooding in the City. See "INVESTMENT CONSIDERATIONS—Seismic Risk and Other Force Majeure Events." The Department has taken a multifaceted approach to conserve water across its facilities and operations. In 2021, the Department collaborated with the Salt Lake City Department of Public Utilities ("**Public Utilities**") to develop a Water Resource Plan to promote water conservation efforts. By installing native landscaping, drought-tolerant plants, and advanced metering systems at the Airport in 2001, the Department has saved, on average, 70 million gallons of water per year. Furthermore, over the past several years, the Department has responded to severe drought conditions by implementing water-use limits and drought restoration programs that have saved an additional 10 million gallons of water annually. Meanwhile, the restrooms in the New SLC all feature touchless, low-flow faucets and toilets, reducing wasted water and increasing hygiene. These high-efficiency water fixtures use an average of 40% less water than the Airport's previous restrooms' standard water fixtures. Additionally, as part of the New SLC, the Department constructed a Quick Turnaround car wash that recycles and reuses approximately 80% of the water it uses.

The Department's water conservation efforts complement those that the State of Utah, other departments of the City, and the Salt Lake City community have undertaken to mitigate the effects of drought, conserve water, and protect the Lake. Over the 2022 and 2023 legislative sessions, the Utah State Legislature cumulatively allocated nearly \$1 billion for numerous water conservation efforts, including \$200 million in 2023 alone to provide matching grants for irrigation-efficiency projects. The State also established the position of the Great Salt Lake Commissioner to administer a water trust to fund conservation and restoration of the Lake and its ecosystem. In 2022, Public Utilities, which serves as the City's water utility, announced that it had exceeded its water-conservation goal over the 2022 irrigation season, as consumption of Public Utilities water declined by approximately 15%, or 2.9 billion gallons, compared to the prior three-year average. Additionally, Public Utilities announced that daily water consumption in 2022 peaked at approximately 140 million gallons, in July 2022, which constituted approximately a one-third decline from the year 2000s daily peak of over 210 million gallons consumed by Public Utilities customers.

The New SLC has been designed to meet current requirements for seismic resiliency up to a magnitude 7.4 earthquake. Segments of the Wasatch Fault, which is an active fault located primarily on the western edge of the Wasatch Mountains, underlie the City. A magnitude 5.7 earthquake struck the City in March 2020. None of the elements of the New SLC sustained any significant damage. In addition, the New SLC is designed to prepare for natural and climate risks through maintaining a network of on-site generators to ensure a secure and resilient power supply. These generators have the capacity to power virtually all of the Airport's mission-critical facilities and equipment. Another means to enhance sustainability is to divert waste from landfills and other facilities. Approximately 90% of the construction waste from the New SLC was diverted from landfills. The Airport's location requires the ability to operate in all weather conditions. The Airport has its own deicing fluid reclamation facility that, during the 2023-24 deicing season, processed approximately 3.5 million gallons of water/glycol mixture and recovered approximately 80,000 gallons of pure polypropylene glycol. The Department has also established a 465-acre wetlands mitigation site outside of the Airport to compensate for natural wetlands that were impacted by Airport development. The Department has an active wildlife management program led by a wildlife biologist. In recognition of the Department's environmental responsibility and focus on sustainable design,

in 2024, the Department received the ACI Environmental Achievement Award for Innovative/Special Projects for the transition to 100% electric GSE through policy and infrastructure.

Social Factors

The Department is focused on benefitting all of the communities that live and work in the Salt Lake City area. The Department seeks to ensure that the Department's workforce, and that of its airline and concessionaire partners, reflects the Salt Lake City community. Currently, over 17,500 persons are employed at the Airport by the Department and its tenants. This workforce includes individuals who are lawfully present in the United States and native to an estimated 152 countries. The Department carefully reviews job descriptions prior to posting to remove any biases, provides training to managers to ensure nondiscriminatory recruitment practices. The Department also participates in the City's "Belonging SLC" training programs to improve a sense of belonging in the workplace. The Department reaches out to its community in a variety of ways, including by providing education to prospective participants on how to take part in the Department's Disadvantaged Business Enterprise ("**DBE**") and Airport Concessionaire DBE programs; through participation in regular visits to elementary schools to teach students about airport operations, wildlife mitigation and jobs at the Airport; by investing in the arts, reflecting the culture and landscape of Utah; by holding airport honor flights for veterans; and through other initiatives, such as hosting a food bank for federal transportation security officers when federal government employees were furloughed. The Department's Assistant Manager – Real Estate & Commercial Development serves as the Department's ambassador to the Government Alliance on Race and Equity program, which the City joined in 2020.

The Department is a leader in health and safety. At the start of the COVID-19 pandemic, the Department instituted a series of actions designed to protect its workers, including the trades people working on the New SLC. The result was a dramatic reduction in illness and injury well below industry averages, as well as opening the first phase of the New SLC on time. The Department has instituted a safety management system ("**SMS**") program to reduce risk and support a safe working environment in the air operations area and the Department has developed a ramp safety enforcement program to reinforce airfield and ramp safety rules and provide for retraining and sanctions for badge holders who fail to comply. The Department hosts five blood drives annually as well as flu vaccination clinics, skin cancer screenings, biometric screening clinics, and two annual mammography events.

Similarly, the Department works to ensure that it maintains good relations with all of its workers through a group of wellness programs, which the Department's health and wellness committee meets quarterly to plan and oversee. The Department also provides education and training opportunities to allow its employees to grow and advance; in 2024, the Department provided an average 22 hours of training to each employee.

Governance Factors

The Department's mission is to develop and manage a system of airports that provides quality transportation facilities and services to optimize convenience, safety and efficiency for aviation customers. The Department's vision is to achieve excellence and unprecedented customer service in making Salt Lake City among the most convenient and efficient air transportation centers in the world.

The Mayor appoints and the City Council approves the appointment of the Executive Director of the Department. See "THE AIRPORT—The City." An Advisory Board reports to the Mayor and makes recommendations regarding the operation and management of the Airport System. The Department is an enterprise fund and a self-sustaining organization requiring no funding from property taxes, general funds

of local governments or special district taxes. The Department's budgets are prepared by Department staff and submitted to and approved by the Mayor and City Council.

The Department is committed to demonstrating good governance by providing transparency to its stakeholders and incorporating a focus on sustainable practices into its decision-making. The Department's third Environmental, Social, and Governance Report (the "**2023 ESG Report**") completed in August 2024; is published publicly online. The 2023 ESG Report provides substantial detail and extensive discussion regarding the Department's environmental, social, and governance efforts. The 2023 ESG Report details the Department's continual integration of and maintenance of ethical governance, environmental stewardship, and social sustainability in all operations, projects and engagements through our system of airports.

The Department and the Airport have repeatedly been recognized for leadership and operational quality. In 2021, ACI named the Airport one of the two best airports in North America for Airport Service Quality ("**ASQ**") among airports with 25 to 40 million annual passengers. The Airport also received a passenger ranking of 4.48 out of 5 in ACI's ASQ survey. In 2024, Airport Experience News recognized the Airport with four concessions awards, including: Best Overall Concessions Program, Property Manager of the Year, Best Commercial Management Team, and Best Local Inspire Store. The Airport was also named "Utahn of the Year" by the Salt Lake City Tribune. For 2024, Cirium awarded the Airport its On-Time Performance Award, recognizing the Airport as the top global airport in North America for on-time performance.

The Department is committed to continuing to improve its sustainability and reducing impacts of Airport operations, to being a strong and beneficial partner to the Salt Lake City region's community and to transparent and responsive governance.

REPORT OF THE AIRPORT CONSULTANT

General

The Department has retained the firm of Landrum & Brown, Inc., as recognized experts in their field, to prepare a report on traffic, revenues, expenses, the New SLC and financial analyses in connection with the issuance of the Series 2025 Bonds. The Airport Consultant has prepared a Report of the Airport Consultant dated July 9, 2025 (the "**Report of the Airport Consultant**" or the "**Report**") in connection with the issuance of the Series 2025 Bonds. The Airport Consultant has consented to the Report of the Airport Consultant being included in this Official Statement as Appendix B. This Report should be read in its entirety for an explanation of the assumptions and methodology used therein.

The Report of the Airport Consultant is divided into four sections plus a cover letter summarizing the Airport Consultant's conclusions. Section 1 provides an overview of the role of the Airport and the economic base for air traffic at the Airport. Section 2 reviews air service at the Airport and provides air traffic projections of air service activity at the Airport for the period from FY 2025 through FY 2031, a period of three full fiscal years following the end of the projected period a portion of interest on the Series 2025 Bonds will be capitalized (the "**projection period**"). Section 3 reviews the existing Airport facilities and the capital program, generally consisting of the New SLC, as well as the on-going capital projects through FY 2031. Section 4 of the Report reviews the Department's financial framework and provides a financial analysis, concluding with projections of net revenues and debt service coverage through FY 2031, calculated in accordance with the Master Indenture. In preparation of the projections in its Report, the Airport Consultant has made certain assumptions with respect to conditions that may occur and the course of action management expects to take during the projection period. The Airport Consultant has relied upon Department staff for representations about its plans and expectations and for disclosure of significant

information that might affect the realization of projected results. Department staff have reviewed these assumptions and concur that they provide a reasonable basis for the purpose of the projections. While the Department and the Airport Consultant believe these assumptions to be reasonable for the purpose of the projections, they are dependent upon future events, and actual conditions may differ from those assumed in the analysis. To the extent actual future factors differ from those assumed by the Airport Consultant or provided to the Airport Consultant by others, the actual results could vary materially from these projections. The Airport Consultant has no responsibility to update its Report for events and circumstances occurring after the date of its Report. The projections are based on assumptions that may not be realized and actual results may differ materially from the projections. See “INVESTMENT CONSIDERATIONS—Financial Assumptions” herein.

Projection of Debt Service Coverage and Cost Per Enplanement

The following table reflects the projection of Net Revenues and the calculation of debt service coverage on the Bonds, including the Series 2025 Bonds. The Airport Consultant’s projection is based on actual unaudited net revenues for the first three quarters of FY 2025, and projected Net Revenues for FY 2026 through FY2031, as set forth in Section 4 of the Report of the Airport Consultant. Such projection reflects the impact on revenues and expenses associated with the Series 2025 Bonds and the Existing Bonds and the operating costs of the elements of the New SLC as they are placed into service. The projection does not reflect the impact on Department finances of projects other than the New SLC and the other capital projects discussed in the Report. Any additional future capital projects may be financed by future issuance of additional Bonds. The Report of the Airport Consultant also includes a projection based upon a slower recovery scenario. The full Report of the Airport Consultant should be read in its entirety for an explanation of the assumptions and methodology used in both the projections that is being relied upon for the additional debt test as well as the slower recovery scenario.

The projected cost per enplaned passenger is estimated to be \$18.77 in FY 2025, and then projected to be around \$23 each Fiscal Year between FY 2027 and FY 2031 as passenger traffic is projected to recover, capitalized interest is expended, all of the facilities of the New SLC are expected to be placed in service and all debt service on the Bonds is included in the rate base.

[Remainder of page intentionally left blank.]

Projection of Debt Service Coverage*
Fiscal Year Ending June 30
(\$ in thousands)

	Estimate 2025	Budget 2026	2027	2028	2029	2030	2031
Revenues	\$490,530	\$550,272	\$573,292	\$601,028	\$617,597	\$633,513	\$650,579
O&M Expenses ¹	<u>(209,207)</u>	<u>(240,696)</u>	<u>(258,683)</u>	<u>(273,031)</u>	<u>(286,290)</u>	<u>(300,200)</u>	<u>(314,793)</u>
Net Revenues	281,324	309,576	314,609	327,997	331,306	333,313	335,785
Plus: Rolling Coverage Account	<u>26,598</u>	<u>37,640</u>	<u>46,520</u>	<u>52,444</u>	<u>54,191</u>	<u>54,315</u>	<u>54,315</u>
Net Revenues and Rolling Coverage Account	\$307,921	\$347,216	\$361,129	\$380,441	\$385,497	\$387,628	\$390,100
Total Debt Service (Net of Capitalized Interest) ²	\$202,547	\$238,437	\$263,723	\$272,303	\$274,439	\$274,432	\$274,427
PFCs applied to Debt Service	<u>(51,988)</u>	<u>(52,358)</u>	<u>(53,946)</u>	<u>(55,539)</u>	<u>(57,180)</u>	<u>(58,850)</u>	<u>(60,536)</u>
Debt Service (net of PFCs) ²	\$150,559	\$186,078	\$209,777	\$216,764	\$217,260	\$215,582	\$213,892
Debt Service Coverage ³	2.05x	1.87x	1.72x	1.76x	1.77x	1.80x	1.82x

*Amounts may not add due to rounding.

¹ Excludes capital outlays, non-cash pension expenses and other non-cash items treated as operating expenses in the Department's audited financial statements.

² Excludes debt service on Subordinate Obligations.

³ Debt Service Coverage is equal to Net Revenues and Rolling Coverage Account divided by Debt Service (net of PFCs).

Source: Airport Consultant

The Report of the Airport Consultant and the projection of Net Revenues and debt service coverage included therein incorporates assumptions of the debt service on the Series 2025 Bonds based upon information provided by PFM Financial Advisors LLC ("**PFM**"), municipal advisor to the Department, in early July 2025. PFM's calculations are based upon the assumptions set forth in the Report of the Airport Consultant. The Report assumes an all-in true interest cost of 5.47% for the Series 2025 Bonds. Several other projections included in the Report of the Airport Consultant, such as projected airline payments per enplaned passenger, rely on the estimated debt service amounts and investors should take into consideration these assumptions when considering the Report of the Airport Consultant.

The Report of the Airport Consultant should be read in its entirety for an understanding of the Report and its underlying assumptions. As noted in the Report of the Airport Consultant, any projection is subject to uncertainties. Inevitably, some of the assumptions used to develop the Report will not be realized and unanticipated events and circumstances may occur. The actual financial results achieved will vary from those in the Report of the Airport Consultant and the variations may be material. The Report of the Airport Consultant is not expected to be updated with final pricing information for the Series 2025 Bonds. See "INVESTMENT CONSIDERATIONS—Financial Assumptions" and "APPENDIX B—REPORT OF THE AIRPORT CONSULTANT."

INVESTMENT CONSIDERATIONS

This section contains a general overview of certain risk factors which should be considered, in addition to the other matters set forth in this Official Statement, in evaluating an investment in the Series 2025 Bonds. The order in which this information is presented does not necessarily reflect the relative importance of various risks. The Series 2025 Bonds may not be suitable for all investors. Potential investors in the Series 2025 Bonds are advised to consider the following factors, among others, and to review this entire Official Statement to obtain information essential to making of an informed investment decision. The following summary does not purport to be a comprehensive or exhaustive discussion of risks or other considerations which may be relevant to investing in the Series 2025 Bonds. There can be no

assurance that other considerations not discussed herein will not be or become material to investors. The risks below present a summary of additional risks to the Airport's Revenues that prospective purchasers of the Series 2025 Bonds should give careful consideration to prior to purchasing the Series 2025 Bonds.

Delta's Presence at the Airport

Delta is the dominant air carrier operating at the Airport and maintains a large connecting hub at the Airport. Approximately 70.1% of the passengers enplaned at the Airport in FY 2024 and 26.3%, of the Department's operating revenue (after airline revenue sharing) was received from rentals and services provided to Delta and the Delta Connection carriers for FY 2024.

As a result of the Airport's geographic location, facilities and capabilities, Delta's execution of an extension of the AUA through FY 2044, Delta's investment in the Airport, including the New SLC, and the construction of a new flight operations simulator facility, the Department expects that the Airport will remain a system hub for Delta; however, no assurance can be given to that effect or with regard to Delta's future level of activity at the Airport, regardless of Delta's financial condition. If, for whatever reason, Delta discontinues or reduces its hubbing operations at the Airport, its current level of activity at the Airport may not be replaced by other carriers. It is possible that if Delta or another airline were to cease service or significantly reduce service at the Airport, Revenues, PFC collections and costs for other airlines serving the Airport could be adversely affected. Such a change in Delta's or another airline's activity at the Airport could result in differences to the projections presented in the Report of the Airport Consultant. See "THE AIRPORT—Aviation Activity at the Airport—Airlines Serving the Airport" above.

Project Costs and Schedule

The estimated costs of, and the projected schedule for, the New SLC and other capital projects depend on various sources of funding, and are subject to a number of uncertainties. The ability of the Department to complete these projects within the current budgets and on the current schedules may be adversely affected by various factors including: (a) estimating errors; (b) design and engineering errors; (c) cost increases because of demand for and scarcity of labor and materials; (d) contractors' difficulty in predicting costs over a lengthy construction period; (e) the need to estimate costs of unbid project elements; (f) changes to the scope of the projects; (g) delays in contract awards; (h) material and/or labor shortages; (i) delays because of airline operational needs; (j) unforeseen site conditions; (k) adverse weather conditions; (l) contractor defaults; (m) labor disputes; (n) unanticipated levels of inflation; (o) litigation, and (p) environmental issues. See "THE NEW SLC AND OTHER CAPITAL PROJECTS—Summary of the New SLC." No assurance can be given that the costs of the projects will not exceed the current budget for these projects or that the completion will not be delayed beyond the currently projected completion dates. Any schedule delays or cost increases could result in the need to issue additional Bonds or Subordinate Obligations, which would require additional approval for certain increased costs. The issuance of additional Bonds or Subordinate Obligations may result in increased costs per enplaned passenger to the airlines. No assurance can be given that the City would receive the required Signatory Airline approvals, or that, absent such approvals, an alternative source of funding would be available. At present, the Department is unable to estimate the costs associated with each of the risks identified above and the total impact of these risks if such events were to occur. In addition, the Department may ultimately decide not to proceed with certain capital projects or may proceed with them on a different schedule, resulting in different results than those included in the projections shown in "APPENDIX B—REPORT OF THE AIRPORT CONSULTANT."

Financial Assumptions

The City's plan of financing for the New SLC is based on a number of financial assumptions, including assumptions relating to: (a) the estimated costs and timing of construction of the New SLC and the ability of the Department to complete construction of the New SLC within budget; and (b) the projected levels of aviation activity at the Airport. Although the Department believes each of these assumptions is based on reasonable judgments, one or more of these assumptions may prove incorrect. The impact of a significant variation of any of the assumptions described above could have a material adverse effect on the plan of financing for the New SLC.

The City's plan of financing is based upon certain assumptions with respect to growth in aviation at the Airport. The factors affecting such levels of activity are largely beyond the Department's control. O&D traffic, which accounted for approximately 62.7% of passenger activity at the Airport in FY 2024, will be affected to a significant degree by the economic vitality of the City and the region. The level of hubbing activity by Delta or any other airline that may choose to hub in the City's air trade area will reflect corporate decisions made by such airlines. These decisions will be based, in part, upon each airline's financial capacity and strategic markets, availability of aircraft, cost of aviation fuel and a number of other factors beyond the control of the City.

Seismic, Climate and Other Environmental Risks

The New SLC is designed, in part, to upgrade the seismic stability of the facilities at the Airport. Nevertheless, the Airport could potentially sustain extensive damage to its facilities in a major earthquake from ground motion and possible liquefaction of underlying soils. Damage could include pavement displacement, which could necessitate the closing of one or more runways for extended periods of time, distortion of pavement grades, breaks in utilities, loss of water supply, damage to drainage and sewage lines, and displacement or collapse of buildings. A major earthquake in the Salt Lake City region may cause significant temporary and possibly long-term harm to the economy of the Salt Lake City area, which in turn could have a negative effect on passenger traffic and Revenues, and such effect could be material. Segments of the Wasatch Fault, which is an active fault located primarily on the western edge of the Wasatch Mountains, underlie Salt Lake City. An earthquake on the Salt Lake City segment of the Wasatch Fault could severely damage the Airport facilities and adversely affect the Department's ability to generate Revenues. In March 2020, the Salt Lake City area suffered a magnitude 5.7 earthquake. Although many buildings in the region were damaged by the earthquake, none of the new facilities of the New SLC suffered damage from the earthquake requiring repair.

The Salt Lake City region is susceptible to climate and environmental risks related to drought conditions and water supplies, risks that may materially and adversely affect the Airport's operations and the Department's ability to generate Revenues. For more than two decades, much of the Western United States, including the Salt Lake City region, has experienced drought. For most of 2021, the U.S. Drought Monitor classified virtually all of the City as being in an "exceptional drought." Those drought conditions have since significantly abated. However, the Utah Department of Natural Resources ("**DNR**") projects that multiple years of above-average precipitation will be necessary to reverse the impacts of drought in Utah. One consequence of the State's drought has been further reduction in the size of the Lake, which has lost an estimated 73% of its water volume and 60% of its surface area since 1850. This reduction in the Lake's size has the potential to reduce snowfall in and around the City due to a reduction in lake effect snow, an outcome that could further strain the City's water resources, given that the State receives most of its drinking water from snowpack. The Lake's decrease in surface area also increases dust dispersal over the Salt Lake City region; winds have carried dust potentially adverse to human health from the exposed lakebed into the region's atmosphere.

The Salt Lake City region is susceptible to other climate and environmental risks that could materially and adversely impact the Department's operations and Revenue generation. The Lake basin faces significant smog. The State's annual energy-related carbon dioxide emissions increased significantly in the half-century between 1970 and 2020, during which period the state's population grew by more than 200%. However, between 2000 and 2020, those annual emissions levels declined by greater than 12%, from 65.4 million metric tons to 57.4 million metric tons, even as Utah's population grew by more than 40%. The region is also susceptible to flooding, including due to severe storms. On the Airport, the northern end of Runway 16R, the Airport's westernmost runway, lies within a floodplain, and the Department has installed pumps to mitigate potential flooding. Additionally, the DNR classifies much of the Wasatch Range, part of which lies immediately east of the City, as being at very high risk of wildfire, as it does certain areas around the Airport.

Other events of force majeure, such as extreme weather events and other natural occurrences such as fires and explosions, spills of hazardous substances, strikes and lockouts, sabotage, terrorist attacks or wars, blockades or riots could also adversely affect the Department's ability to generate Revenues. There is no assurance that such events will not occur while the Series 2025 Bonds are Outstanding. Although the Department has attempted to mitigate the risk of loss from many of these occurrences by purchasing commercial property and casualty insurance, no assurance can be given that such insurance will be available or in sufficient amounts at a reasonable cost or available at all or that insurers will pay claims in a timely manner, or at all.

Public Health Concerns

As demonstrated by the COVID-19 pandemic, wide-spread public health events can have a sudden and material and adverse effect on air travel demand. Although both passenger traffic and commercial airline operations at the Airport have fully recovered to pre-2019 levels, future outbreaks of disease or pandemics could lead to a decrease in passenger traffic at the Airport and a corresponding decline in Airport Revenues. There can be no assurance that such an outbreak will not occur while the Series 2025 Bonds are outstanding or that the recovery from any such outbreak will be similar to, take longer than or be shorter than the recovery that the Airport has experienced since March 2020. Airport management cannot predict, among other things: (a) the duration or extent of another outbreak of COVID-19 or another pandemic; (b) the scope or duration of restrictions or warnings related to air travel, gatherings or any other activities, and the duration or extent to which airlines will reduce services at the Airport, or whether airlines will cease operations at the Airport or shut down in response to such restrictions or warnings; (c) what effect any other outbreak or pandemic-related restrictions or warnings may have on air travel and the resulting impact on Airport revenues and expenses; (d) whether and to what extent another outbreak or pandemic may disrupt the local, State, national or global economies, manufacturing or supply chain, or whether any such disruption may adversely impact Airport-related construction, the cost, sources of funds, schedule or implementation of the Airport's capital program, or other Airport operations; (e) the extent to which another outbreak or pandemic, or the resultant disruption to any local, State, national or global economies, may result in changes in demand for air travel, or may have an impact on the airlines or concessionaires serving the Airport, or the airline and travel industry, generally, including resulting in the bankruptcy or cessation of operations of airlines or Airport tenants; (f) whether or to what extent the Department may provide deferrals, forbearances, adjustments or other changes to the Department's arrangements with its tenants and Airport concessionaires; or (g) the extent to which any of the foregoing will have a material adverse effect on the finances and operations of the Airport.

General Economic Considerations

Historically, the financial performance of the air transportation industry has correlated with the state of the national and global economy. Inflation, supply chain disruptions and tariffs have adversely

affected and continue to adversely affect the world's and the national economies. Following significant and dramatic changes that occurred in the financial markets in September 2008, the U.S. economy experienced a recession followed by weak growth. The near-term economic outlook for the national and Utah economies to recover from the effects of the inflation, supply chain disruptions and tariffs, the speed and extent of which will be dependent on a number of factors, many of which are national or international in scope. There can be no assurances that the prolonged weak economic conditions and inflation, or another national or global pandemic, or other national and international fiscal concerns will not have an adverse effect on the air transportation industry and/or the Department's Net Revenues.

Financial and Operational Condition of the Airline Industry

The number of passengers using the Airport will depend partly on the profitability of the U.S. airline industry and the associated ability of the industry and individual airlines, particularly Delta, to make the necessary investments to continue providing service. The airline industry historically has been highly cyclical and is characterized by intense competition, high operating and capital costs, and varying demand. Passenger and cargo volumes are highly sensitive to general and localized economic trends, and passenger traffic varies substantially with seasonal travel patterns. After an exceptional period of volatility in the 2000s, U.S. carriers experienced record profitability prior to the COVID-19 pandemic. In the near-term, the airlines serving the Airport appear to have substantially recovered from the effects of the COVID-19 pandemic. However, operational issues resulting from the pandemic, including loss of air crews and a shortage of pilots have hampered this recovery and may constrain growth in air service for some period of time. The profitability of the airline industry may continue to fluctuate dramatically from quarter to quarter and from year to year, even in the absence of catastrophic events such as the COVID-19 pandemic, the terrorist attacks of September 11, 2001 and the economic recession of 2008 and 2009. Further, airlines serving the Airport have experienced significant and substantial service disruptions caused by several factors, including technological failures of airline and FAA computer systems, severe weather, and inability to staff operations due to crew shortages.

Further, because of the discretionary nature of business and personal travel spending, airline passenger traffic and revenues are heavily influenced by a variety of factors, including: (a) the strength of the U.S. economy and other regional and world economies; (b) the cost and availability of labor, fuel, aircraft and insurance; (c) international trade; (d) tariffs; (e) currency values; (f) competitive or partnership considerations, including the effects of airline ticket pricing; (g) traffic and airport capacity constraints; (h) governmental regulation, including security regulations and taxes imposed on airlines and passengers, and maintenance and environmental requirements; (i) passenger demand for air travel, including the availability of business travel substitutes such as teleconferencing, videoconferencing and web-casting; (j) strikes and other union activities; (k) operational disruptions caused by technological failures, severe weather events and crew shortages; and (l) disruptions caused by airline accidents, criminal incidents, acts of war or terrorism, outbreaks of disease, epidemic or pandemic, and weather and natural disasters.

It is reasonable to assume that any significant financial or operational difficulties incurred by Delta, the dominant airline servicing the Airport, could have a material adverse effect on the Airport, although financial or operational difficulties by any of the other Signatory Airlines, whether directly or indirectly, also may have an adverse impact on Revenues or Airport operations, the effect of which may be material. See “—Delta's Presence at the Airport” above. At this time, it is not possible to predict the effect that any financial or operational difficulties incurred by Delta or any other airline serving the Airport could have on the Airport.

After disposing of many aircraft during the COVID-19 pandemic, airlines are struggling to acquire sufficient aircraft to meet growing demand for air service in the United States and abroad. Those challenges are compounded because aircraft manufacturers, including Airbus and Boeing, have experienced delays in

producing and delivering aircraft. Such delays result from several factors, including supply-chain disruptions and staffing shortages. Delays in aircraft delivery may hamper airlines' ability to increase capacity to meet travel demand. If such aircraft-delivery delays persist, airlines could reduce service domestically and internationally, including from the Airport.

Changes to Concessionaire Agreements

The City derives a portion of its operating revenues from concessionaires, including food and beverage concessions and retail concessions. See "THE AIRPORT—Airport Financial Operations—Non-Airline Revenues." The City's agreements with concessionaires currently require the concessionaires to pay a MAG, which accounts for any downturn in concession traffic. However, there is a current national conversation between concessionaires and airports to modify or eliminate MAGs from airport concessionaire agreements. If a MAG is no longer included in the concessionaire agreements with the City, during an economic downturn or other time of depressed travel, the City could realize less revenue from the food and beverage and retail concessionaires.

Industry Workforce Shortages

Workforce and labor shortages (including pilots, flight attendants, mechanics and other personnel) are an aviation industry-wide issue, and have resulted in difficulties in certain airlines restoring and maintaining routes and generally providing service. For example, a shortage in pilots has especially affected smaller regional airlines. There are several causes for such shortage. Congress changed duty time rules in 2010 to mitigate pilot fatigue, which required airlines to increase pilot staff. Beginning in 2013, first officers flying for commercial airlines were required to have at least 1,500 hours of flight time, instead of the 250 hours previously required. At the onset of the COVID-19 pandemic, airlines were faced with a surplus of personnel resulting from the sudden and dramatic decline in traffic. As a result, airlines offered their employees buyouts and early retirement packages and, according to certain media reports, approximately 5,000 (or 10%) experienced pilots took early retirement. FAA airman certification statistics show that, as of December 31, 2024, 27% of the 185,924 people with an airline transport pilot ("ATP") certificate were 60 years of age or older and were due to retire over the next five years. In contrast, only 6.8% of people with an ATP certification were under the age of 30. Other factors include fewer new pilots coming out of the military. In particular, regional airlines have been hit the hardest by the pilot shortage. Unable to provide the wages of the larger airlines, the regional airlines have been losing their pilots to the mainline carriers who are attempting to fill their needs. As a result, the regional airlines have had to scale back or in some cases eliminate service, to smaller markets. If the pilot shortage continues to become more widespread in the industry, the passenger airlines may not be able to meet future passenger demand, and would be required to reduce their seat capacity, resulting in material impacts to future traffic in the U.S. and internationally.

In addition to the pilot shortage, over the next decade there could be a shortage of qualified mechanics to maintain the airlines' fleet of planes. This potential shortage is a result of an aging pool of mechanics, a large number of which are expected to retire in the next decade, and a lack of younger people joining the ranks of the mechanics. A shortage of mechanics could raise the cost of maintenance, require airlines to maintain more spare planes and/or result in increased flight cancellations and delays.

General labor staffing shortages have also affected, and may continue to affect, the airline industry. Several major airlines have announced reduced schedules and have cancelled flights as a result of reported labor shortages and staffing challenges. Labor shortages have been attributed to growing travel demand after thousands of workers in the airline industry opted for buyouts, early retirement packages or otherwise terminated their employment during the COVID-19 pandemic.

Airline Consolidation

In 2005, 10 major airlines were flying inside the United States (AirTran, Alaska Airlines, American Airlines, America West, Continental, Delta, Northwest, Southwest, United and US Airways) and accounted for 87.0% of all available seats. Faced with declining profitability because of increased costs of aviation fuel, lower fares brought on by the proliferation of low cost carriers (as described below), reduced growth potential in the domestic markets and declining passenger activity based on security concerns, the airlines pursued consolidation. As a result of these consolidations, today there are five major network airlines flying inside the United States—Alaska, American, Delta, Southwest and United -- that account for approximately 80% of domestic capacity (available seats). Additionally, in 2009, Republic Airways Holdings purchased Frontier Airlines and Midwest Airlines operating the combined carrier as Frontier Airlines. Republic Airways sold Frontier Airlines in 2013. In December 2016, Alaska Air Group acquired Virgin America, and a single operating certificate was issued in 2018. Most recently, Alaska Air Group acquired Hawaiian Airlines. Such consolidation, combined with a focus on driving profitability via capacity discipline and unbundling of services and resulting increased fee income, had increased airline profitability prior to the onset of the COVID-19 pandemic.

Further airline consolidation remains possible. Depending on which airlines serving the Airport merge or join alliances, if any, the result may be fewer flights or decreases in gate utilization by one or more airlines. Such decreases could result in reduced Airport revenues, reduced PFC collections and increased costs for the airlines serving the Airport.

Effect of Bankruptcy of Air Carriers and Other Tenants

Since 2001, several airlines with operations at the Airport have filed for and have subsequently emerged from bankruptcy protection, including United, Continental, Delta, Frontier, Northwest, US Airways, American and, most recently, Spirit Airlines in 2024. In addition, during the COVID-19 pandemic, both Hertz Rent a Car and Advantage filed for bankruptcy protection. The Hertz Group (including Dollar and Thrifty) emerged from bankruptcy and, at most airports at which it operated, including the Airport, assumed its operating agreements and leases and emerged from bankruptcy protection in 2021. In contrast, Advantage filed for liquidation and its assets, including leases at many airport locations, were sold off. Additional bankruptcies, liquidations or major restructurings of other airlines or important airport tenants could occur. The Department's stream of payments from a debtor could be interrupted to the extent of unpaid fees for pre-petition goods and services, including accrued rent and landing fees. Under the U.S. Bankruptcy Code, a debtor that is a lessee under an unexpired lease with the Department of non-residential real property, such as a lease of Terminal space or a hangar, is required within certain statutory time periods to assume or reject such lease. Rejection of a lease or other agreement or executory contract would give rise to an unsecured claim of the Department for damages, the amount of which in the case of a lease or other agreement is limited by the U.S. Bankruptcy Code. The amount ultimately received in the event of a rejection of a lease or other agreement could be considerably less than the maximum amounts allowed under the U.S. Bankruptcy Code. Additionally, during the pendency of a bankruptcy proceeding, a debtor airline may not, absent a court order, make any payments to the Department on account of goods and services provided prior to the bankruptcy. The Department actively monitors past due balances to minimize any potential losses due to such proceedings, aggressively pursues overdue amounts and bankruptcy claims, and includes an allowance for uncollectible debts in its landing fee and terminal rental rates. Whether or not an airline agreement is assumed or rejected by a debtor airline in a bankruptcy proceeding, it is not possible to predict the subsequent level of utilization of the gates leased under such agreement.

It is not possible to predict the impact on the Department of any future bankruptcies, liquidations or major restructurings of other airlines or tenants.

Cost of Aviation Fuel

Airline earnings are significantly affected by changes in the price of aviation fuel. Fuel prices continue to be susceptible to, among other factors, political unrest in various parts of the world (particularly in the oil-producing nations in the Middle East, Russia and North Africa); Organization of Petroleum Exporting Countries' policy; the rapid growth of economies such as China and India and resulting demand for oil-based fuels; the levels of inventory carried by industries; the amounts of reserves maintained by governments; the amount and availability of new sources of energy (e.g., U.S. fracking operations); disruptions to production and refining facilities; and weather. The Russian invasion of Ukraine led to a substantial increase in oil prices and a concomitant increase in the cost of jet fuel.

There has been no prolonged shortage of aviation fuel since the fuel crisis of 1974, but there have been significant price increases for fuel. From 2000 to 2008, the price of aviation fuel more than tripled. Oil prices reached an all-time record high of approximately \$145 per barrel in July 2008, and while oil prices have declined from this elevated level, they have fluctuated significantly since then. During the second half of CY 2014, an imbalance between worldwide supply and demand resulted in a significant drop in the price of oil and aviation fuel. According to the U.S. Bureau of Transportation Statistics, the price of aviation fuel averaged approximately \$2.54 per gallon during 2024. For comparison purposes, according to the U.S. Bureau of Transportation Statistics, between 2018 and 2022, the price of aviation fuel averaged approximately \$2.18 per gallon per year. Significant fluctuations and prolonged increases in the cost of aviation fuel have adversely affected air transportation industry profitability, causing airlines to reduce capacity, fleet and personnel; to invest in new, more fuel efficient aircraft and equipment; and to increase airfares and institute fuel, checked baggage, and other extra surcharges, all of which may reduce demand for air travel.

Many airlines engage in or have engaged in fuel hedging—purchasing fuel in advance at a fixed price through derivative contracts—to help manage the risk of future increases in fuel costs. However, there can be no assurance that any fuel hedging contract can provide any particular level of protection from volatile fuel prices. Delta has even gone as far as to purchase its own refinery in order to better manage its fuel costs.

Structural Changes in the Travel Market and Travel Substitutes

Many factors have combined to alter consumer travel patterns. The threat of terrorism against the United States remains high. As a result, the federal government has mandated various security measures that have resulted in security taxes and fees and longer passenger processing and wait times at airports. Both add to the costs of air travel and make air travel less attractive to consumers relative to ground transportation, especially to short-haul destinations. Additionally, consumers have become more price sensitive. Efforts of airlines to stimulate traffic by heavily discounting fares have changed consumer expectations regarding airfares. Consumers have come to expect extraordinarily low fares. In addition, the availability of fully transparent price information on the internet now allows quick and easy comparison shopping, which has changed consumer purchasing habits. Consumers have shifted from purchasing paper tickets from travel agencies or airline ticketing offices to purchasing electronic tickets over the internet. This has made pricing and marketing even more competitive in the U.S. airline industry. Finally, smaller corporate travel budgets, combined with the higher time costs of travel and the impacts of the COVID-19 pandemic, have made business customers more amenable to communications substitutes such as teleconferencing and videoconferencing.

Teleconference, video-conference and web-based meetings continue to improve in quality and price and are often considered a satisfactory alternative to face-to-face business meetings. Events such as the COVID-19 pandemic have accelerated this trend and increased the number of individuals who are able

to work from home. While the effects cannot be quantified, it is possible that business travel to and from the Airport may be susceptible to such travel substitutes.

Technological Innovations in Ground Transportation

One significant source of non-airline Revenues is generated from ground transportation activity, including use of on-Airport parking facilities; trip fees paid by taxis, limousines and TNCs; car sharing companies such as Turo, and rental car transactions by Airport passengers. The relative market share of these sources of revenue is shifting. As one example, the popularity of TNCs has increased because of the increasing number of cities where TNCs operate, the lack of other technological innovations in ground transportation, convenience of requesting a ride through a mobile application, the ability to pay for this service without providing cash or other payment to the hired driver, and competitive pricing. Although ground transportation revenue in total and excluding TNC trip fees has continued to perform well, there can be no assurance that passengers will not choose to utilize TNCs instead of parking or using rental cars in the future, which could result in a reduction in ground transportation revenues.

New technologies (such as autonomous vehicles, connected vehicles, and electronic vertical take-off and landing aircraft (eVTOL)) and innovative business strategies in established markets such as commercial ground transportation and car rental may continue to occur and may result in further changes in Airport passengers' choice of ground and air transportation modes. Examples of disruptive technologies in the ground transportation context include TNCs and peer-to-peer car sharing companies such as Turo which have encroached upon traditional taxi, limo and car rental concessions. The Department entered into an agreement with Turo effective September 2021 and notes that Turo generated over \$8 million in reported gross revenue at the Airport in its first year of reported operations. While the Department makes every effort to anticipate demand shifts, there may be times when the Department's expectations differ from actual outcomes. In such event, revenue from one or more ground transportation modes may be lower than expected. The Department cannot predict with certainty what impact these innovations in ground transportation will have over time on revenues from parking, other ground transportation services or rental cars. The Department also cannot predict with certainty whether or to what extent it will collect non-airline Revenues in connection with such new technologies or innovative business strategies.

Aviation Security and Safety Concerns

Security and safety concerns also affect air travel demand from time to time. Concerns about the safety of airline travel and the effectiveness of security precautions, particularly in the context of potential international hostilities (such as those that have occurred and continue to occur in the Middle East), terrorist attacks, and increased threat levels declared by the Department of Homeland Security may influence passenger travel behavior and air travel demand. The Department cannot predict whether the Airport will be a target of terrorists in the future. Additionally, the Department cannot predict the effect of any future government-required security measures on passenger activity at the Airport.

Additionally, since 2018 several airline crashes and mid-air incidents have occurred around the world, including, among others (a) a Boeing 737 MAX aircraft operated by Lion Air crashed off the coast of Indonesia killing all onboard, (b) a Boeing 737 MAX aircraft operated by Ethiopian Airlines crashed in Ethiopia killing all onboard, (c) a panel in the aircraft fuselage of a Boeing 737 MAX aircraft operated by Alaska Airlines blew out mid-flight (all passengers survived), (d) a PSA Airlines Bombardier CRJ700 regional jet operated by American Airlines collided with a military helicopter on final approach to Reagan Washington National Airport killing all on board the plane and the helicopter, (e) a CRJ regional jet operated by Endeavor Air crashed while landing at Toronto Pearson International Airport (all passengers survived), and (f) a Boeing 787-8 Dreamliner operated by Air India crashed in India killing all but one person onboard.

Travel behavior may be affected by anxieties about the safety of flying and by the inconveniences and delays associated with more stringent health or security screening procedures, both of which may give rise to the avoidance of air travel generally and the switching from air to surface travel modes.

Information Concerning the Airlines

Many of the principal domestic airlines serving the Airport, or their respective parent corporations, are subject to the information reporting requirements of the Securities Exchange Act of 1934, as amended and, in accordance therewith, file reports and other information with the SEC. Likewise, foreign airlines serving the Airport that have American Depositary Receipts (“**ADRs**”) registered on a U.S. national exchange are subject to the same reporting requirements. Certain information, including financial information, concerning such domestic airlines, or their respective parent corporations, and such foreign airlines is disclosed in certain reports and statements filed with the SEC. Such reports and statements can be inspected and copied at the public reference facilities maintained by the SEC and on its website.

Foreign airlines serving the Airport, or foreign corporations operating airlines serving the Airport, unless such airlines have ADRs registered on a national exchange, are not required to file information with the SEC. Such foreign airlines, or foreign corporations operating airlines, serving the Airport file limited information only with the USDOT.

The Department does not undertake any responsibility for or make any representation as to the accuracy or completeness of: (a) any reports and statements filed with the SEC or USDOT; or (b) any material contained on the SEC’s website as described in the two preceding paragraphs, including, but not limited to, updated information on the SEC’s website or links to other Internet sites accessed through the SEC’s website.

FAA Reauthorization and Federal Funding

On May 16, 2024, the President signed into law a five-year reauthorization bill for the FAA—the FAA Reauthorization Act of 2024 (the “**2024 FAA Act**”) which expires on September 30, 2028. The 2024 FAA Act retains the federal cap on PFCs at \$4.50 and authorizes \$4.0 billion per year for AIP through federal fiscal year 2028, which is the same funding level as was in place for the preceding five years. AIP provides federal capital grants to support airport infrastructure through entitlement grants, which are determined by formulas based on passenger, cargo and general aviation activity levels, and discretionary grants, allocated on the basis of specific set-asides and the national priority ranking system.

Failure to adopt new legislation upon the expiration of the 2024 FAA Act may have a material, adverse impact on, among other things, (i) federal funding received by the Department, including under the AIP; (ii) federal agency budgets, hiring, furloughs, operations and availability of Federal employees to support certain operations at the Airport, provide regulatory and other oversight, review and provide required approvals, in each case at the Airport and over the airlines serving the Airport; (iii) flight schedules, consumer confidence, operational efficiency at the Airport and in the air transportation system generally. In addition, the anticipated federal spending could be affected by, among other things, the automatic across-the-board spending cuts, known as sequestration.

There can be no assurance that the Congress will enact and the President will sign federal appropriation legislation or future FAA reauthorization which may require the Department to fund capital expenditures forecast to come from such federal funds and from other sources (including operating revenues, additional Bonds and/or additional Subordinate Obligations), result in decreases to the CIP or extend the timing for completion of certain projects and the Department is also unable to predict future

impact of any federal spending cuts or appropriation impasses or the impact of such actions on airline traffic at the Airport or the Department's revenues.

Federal Law Affecting Rates and Charges

Rates and charges for aeronautical use of an airport imposed pursuant to a written agreement between the air carriers operating at an airport and the operator of the airport are generally not subject to federal regulation. The AUA between the City and the Signatory Airlines sets forth a formula for establishing rates and charges for use of the aeronautical facilities at the Airport. Accordingly, the Department believes that the provisions of federal law regarding the determination of such fees are generally inapplicable during the term of the AUA.

For rates and charges not determined pursuant to an agreement, Federal aviation law requires, in general, that airport fees be reasonable and that, in order to receive federal grant funding, all airport generated revenues must be expended for the capital or operating costs of the airport, the local airport system, or other local facilities owned or operated by the airport owner that are directly and substantially related to air transportation of passengers or property. Pursuant to the requirements of the Federal Aviation Administration Authorization Act of 1994, the USDOT and FAA have promulgated regulations setting forth an expedited hearing process to be followed in determining the reasonableness of airport rates and charges, and have also promulgated a policy statement (the "**Rates and Charges Policy**"), which sets forth the standards that the USDOT uses in determining the reasonableness of the fees charged to airlines and other aeronautical users.

In 1997, the United States Court of Appeals for the District of Columbia determined that a portion of the Rates and Charges Policy was arbitrary and capricious and vacated portions of the policy and remanded it to the USDOT. In 2008, USDOT amended the Rates and Charges Policy to permit "congested airports," as defined therein, to charge a two part landing fee that includes a per operation charge intended to help reduce congestion and operating delays. Congested airports are also permitted to include certain other costs in their rate base, including the cost of certain construction work in progress and costs associated with reliever airports, if owned by the same airport operator. The Airport does not currently qualify as a congested airport. The USDOT has not yet proposed any other revisions to the Rates and Charges Policy. If new guidelines are published, the costs that will be permitted to be included in determining an airport's rate base and the extent to which such future guidelines may limit the Department's flexibility in negotiating new airline agreements or in setting rates and charges for use of the Airport's airfield and non-airfield facilities cannot be determined at this time. Any new FAA guidelines or any standards promulgated by a court in connection with a dispute could limit the amounts and allocation of costs payable by airlines serving the Airport. Unless and until the USDOT promulgates a new policy regarding rates and charges, the guiding principle for determining whether rates and charges established for use of airport assets is the requirement of federal law that such charges be "reasonable."

PFC Revenues and Other Sources of Funding

The plan of finance for the New SLC assumes that PFC revenues, federal grants and other sources of funding will be received in certain amounts and at certain times to pay certain project costs and debt service. See "THE NEW SLC AND OTHER CAPITAL PROJECTS—Funding Sources for the New SLC and Other Capital Projects." No assurance can be given that these sources of funding actually will be available in the amounts or on the schedule assumed.

The amount of PFC revenue collected for the Airport in past years has varied, and in future years will vary, based upon the actual number of passenger enplanements at the Airport. No assurance can be given that any level of enplanements will be realized. As a consequence of the reduction in passengers

using the Airport due to the COVID-19 pandemic, the amount of PFCs collected diminished from FY 2019 levels in FY 2020 and was reduced in FY 2021 as well. In FY 2022, PFC collections recovered as passenger traffic at the Airport regained momentum. This adverse impact of decreased enplanements could be direct or indirect. For example, PFC shortfalls could result in increases in terminal rentals or landing fees at the Airport, thereby negatively impacting the airlines' desire to operate at the Airport. Furthermore, under the terms of the PFC Act, the FAA may terminate the Department's authority to impose a PFC if the Department's PFC revenues are not being used for approved projects in accordance with the FAA's approval, the PFC Act or the regulations promulgated thereunder, or if the Department otherwise violates the PFC Act or regulations. The FAA may also terminate the Department's authority to impose a PFC for a violation by the Department of the Airport Noise and Capacity Act. The PFC termination provisions contained in the regulations provide both informal and formal procedural safeguards. The FAA's PFC regulations require Collecting Carriers (as defined in the PFC Act) to account for PFC collections separately, and provides that such funds are to be regarded as trust funds held by the Collecting Carriers for the beneficial interest of the public agency imposing the PFC. In early cases in which PFCs were at issue, certain bankruptcy court decisions indicated that PFCs may not be treated as trust funds and that airports are not entitled to any priority over other creditors of the Collecting Carrier as to such funds. In the more recent cases, however, the bankruptcy court has recognized the airports' interests in PFCs and taken steps to segregate PFCs from airline revenues. Where an air carrier files for bankruptcy protection and liquidates, PFC revenues may not be recoverable if they have been expended by the carrier before such filing.

To the extent that any portion of the funding assumed in the plan of finance for capital projects at the Airport is not available as anticipated, the Department may be required to issue an additional Bonds or Subordinate Obligations to pay the costs of such capital projects and to increase airline rates and charges to pay debt service on the Bonds and the Subordinate Obligations and to fund the required coverage thereon. As an alternative to issuing Bonds or Subordinate Obligations, the Department may ultimately decide not to proceed with certain capital projects or may proceed with them on a different schedule, producing different results than those included in the projections shown in the "APPENDIX B—REPORT OF THE AIRPORT CONSULTANT."

Cybersecurity

The Department, like many other large public and private entities, relies on a large and complex technology environment to conduct its operations, and faces multiple cybersecurity threats including, but not limited to, hacking, phishing, viruses, malware, ransomware and other attacks to its computing and other digital networks and systems (collectively, "**Systems Technology**"). As a recipient and provider of personal, private, or sensitive information, the Department may be the target of cybersecurity incidents that could result in adverse consequences to the Department's Systems Technology, requiring a response action to mitigate the consequences.

Cybersecurity incidents could result from unintentional events, or from deliberate attacks by unauthorized entities or individuals attempting to gain access to the Department's Systems Technology for the purposes of misappropriating assets or information or causing operational disruption and damage. To mitigate the risk of business operations impact and/or damage by cybersecurity incidents or cyber-attacks, the Department invests in multiple forms of cybersecurity and operational safeguards.

While Department cybersecurity and operational safeguards are periodically tested, no assurance can be given by the Department that such measures will ensure against other cybersecurity threats and attacks. Cybersecurity breaches could damage the Department's Systems Technology and cause material disruptions to the Department's finances or operations. The costs of remedying any such damage or protecting against future attacks could be substantial. Further, cybersecurity breaches could expose the Department to material litigation and other legal risks, which could cause the Department to incur material

costs relating to such legal claims or proceedings. In mid-December 2024, the Department became aware of a limited network incident. Steps have been taken to address the incident and a full investigation remains ongoing.

The airlines serving the Airport and other Airport tenants, as well as the FAA and TSA, also face cybersecurity threats that could affect their operations or finances. As evidenced by the recent failure of the FAA's Notice to Air Missions system and the resulting nation-wide ground stop, third-party computer systems beyond the control of the Department can also be critical to the air transportation system.

Environmental Regulations

The EPA and the State Department of Environmental Quality are responsible for regulating air quality and water quality. The City is not aware of any releases of pollutants or contaminants at the Airport, other than those which are subject to ongoing remediation described in Note No. 1 (***"Pollution Remediation Obligations"***) to the audited financial statements in APPENDIX A hereto, and as described in the following sentence. In addition to on-going remediation efforts, the Department is investigating the extent to which per- and polyfluoroalkyl (***"PFAS"***) substances contained in fire-fighting foam are contained in soil and groundwater located at or adjacent to the Airport's Utah Air National Guard facilities and the Department's now closed fire-fighting training facility and surrounding Airport property. Until this year, the FAA required operators of most commercial U.S. airports, including the Airport, to use aqueous fire-fighting foam (***"AFFF"***) containing PFAS. In January 2023, the FAA announced that airports could begin to convert to PFAS-free fire-fighting foam (***"F3"***) provided that such F3 meets certain federal criteria. The Department expects to transition to use of F3 as it becomes widely available, but the current formulation of F3 is not a simple "drop in" solution and existing equipment must be thoroughly remediated of AFFF contamination before F3 can be used, which may require significant time and funds. The EPA has commenced the process for considering PFAS as a hazardous substance under federal law, but currently, no guidance regarding remediation of existing PFAS has been provided. In September 2022, the EPA proposed to designate some PFAS as a hazardous substance pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (***"CERCLA"***), and in March 2023 the EPA proposed national drinking-water standards for some PFAS contaminants. As of the date of this Official Statement, the EPA has finalized neither proposal. The Department is also continuing to undertake extensive investigation of soil and groundwater at the Airport and is evaluating how to address treating the materials released from AFFF. However, there could be other such releases not known to the City as of the date of this Official Statement. The potential exists for additional federal regulation or remediation that may require capital expenditures or changes in operations at the Airport System.

Potential Limitation of Tax Exemption of Interest on Series 2025 Bonds

From time to time, the President of the United States, the United States Congress and/or state legislatures have proposed and could propose in the future, legislation that, if enacted, could cause interest on the Series 2025 Bonds to be subject, directly or indirectly, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. Clarifications of the Internal Revenue Code of 1986, as amended (the ***"Code"***), or court decisions may also cause interest on the Series 2025 Bonds to be subject, directly or indirectly, to federal income taxation or to be subject to or exempted from state income taxation. The introduction or enactment of any such legislative proposals or any clarification of the Code or court decisions may also affect the market price for, or marketability of, the Series 2025 Bonds, or could limit the value of certain deductions and exclusions, including the exclusion for tax-exempt interest. Prospective purchasers of the Series 2025 Bonds should consult their own tax advisors regarding any such pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel expresses no opinion. Interest on the Series 2025 Bonds may become subject to federal income taxation if certain events

occur subsequent to the date of issuance of the Series 2025 Bonds that violate the requirements and limitations prescribed by the Code. Although the City has agreed not to violate the requirements and limitations of the Code, there can be no assurance that these events will not occur. If certain requirements are violated, the interest on the Series 2025 Bonds may be deemed to be taxable retroactive to their date of issuance. The Series 2025 Bonds are not subject to mandatory redemption or to mandatory acceleration in the event of such an occurrence. No premium or additional interest will be paid to the bondholders or former bondholders to compensate the bondholders for any losses they may incur as a result of the interest on the Series 2025 Bonds becoming subject to federal income taxation. See “TAX MATTERS—Changes in Federal and State Tax Law.”

Risk of Tax Audit

The Internal Revenue Service (the “**IRS**”) includes a subdivision that is specifically devoted to tax-exempt bond compliance. If the IRS undertook an examination of the Series 2025 Bonds or other Bonds issued by the City as tax-exempt bonds, it could have a material adverse effect on the marketability or the market value of the Series 2025 Bonds.

Legislative Developments

The Department is a department of the City and subject to applicable federal, State and City legislation and regulation, changes to which could have a material effect on the operations or financial position of the Department. The Airport is highly regulated by federal agencies including the FAA, the EPA, DEQ, the TSA, Customs and Border Protection and the Department of Health. In the past, actions by these agencies (in particular the FAA and the TSA) have required the Department to undertake additional capital expenditures and have affected passenger traffic. The Department cannot predict whether any such legislation or regulations will be introduced after the date of this Official Statement or, if introduced, whether such legislation or regulations would be enacted or adopted, or their effect on the operations or financial condition of the Department.

Limitation of Remedies; No Acceleration

Any remedies available to owners of the Bonds upon the occurrence of an event of default under the Master Indenture are in many respects dependent upon judicial actions which are in turn often subject to discretion and delay and could be both expensive and time-consuming to obtain. If the Department fails to comply with its covenants under the Master Indenture, including its covenant to pay principal of or interest on the Bonds, there can be no assurance that available remedies will be adequate to fully protect the interests of the owners of the Bonds. The ability of the Department to comply with its covenants under the Master Indenture and to generate Net Revenues sufficient to pay principal of and interest on the Bonds may be adversely affected by actions and events outside the control of the Department. Further, the rate covenant included in the Master Indenture provides that if the requirement that Net Revenues together with any Transfer equal at least 125% of aggregate Annual Debt Service with respect to the Bonds is not met, so long as the Department is taking specified steps to meet the rate covenant, an event of default will not be triggered until after the following Fiscal Year. See “SECURITY FOR THE SERIES 2025 BONDS—Rate Covenant.” The ability of the Department to increase its rates, fees and charges and to reduce its expenses will be limited by, among other things, existing contracts and federal law.

Events of Default under the Indenture and related remedies are described herein under “APPENDIX C—FORM OF MASTER INDENTURE—ARTICLE VIII: DEFAULTS AND REMEDIES.” The occurrence of an Event of Default does not grant any right to accelerate payment of the Bonds, including the Series 2025 Bonds. In addition, the Master Subordinate Obligation Indenture does not grant any right to accelerate payment of Subordinate Obligations as a result of an event of default

thereunder. Since Net Revenues are Revenues net of all amounts needed to pay Operation and Maintenance Expenses of the Airport System, and the City is not subject to involuntary bankruptcy proceedings, the City may be able to continue indefinitely collecting Revenues and applying them to the operation of the Airport System even if an Event of Default has occurred and no payments are being made on the Bonds, including the Series 2025 Bonds.

Forward-Looking Statements

This Official Statement contains projections and estimates that are based on current expectations. In light of the important factors that may materially affect the financial condition of the Department and the aviation industry generally and other economic and financial matters, the inclusion in this Official Statement of such projections and estimates should not be regarded as a representation by the City that such projections and estimates will occur. Such projections and estimates are not intended as representations of fact or guarantees of results.

As discussed in the Report of the Airport Consultant, the factors affecting aviation activity at the Airport include: the growth of population and of the economy in the Airport Service Area, the recovery from the effects of the COVID-19 pandemic, airline service and route networks, the financial health and viability of the airline industry, national and international economic and political conditions, the availability and price of aviation fuel, levels of air fares, the capacity of the national air traffic control system and capacity at the Airport and elsewhere. The Report of the Airport Consultant should be read in its entirety for an understanding of all of the assumptions used to prepare the projections made therein. Inevitably, some assumptions used to develop the projections will not be realized and unanticipated events and circumstances may occur. Therefore, the actual results achieved during the projection period will vary, and the variations may be material. See “APPENDIX B—REPORT OF THE AIRPORT CONSULTANT.”

TAX MATTERS

General

In the opinion of Kutak Rock LLP, Bond Counsel to the City, under existing laws, regulations, rulings and judicial decisions, interest on the Series 2025 Bonds is excluded from gross income for federal income tax purposes, except for interest on any Series 2025A Bond for any period during which such Series 2025A Bond is held by a “substantial user” of the facilities financed or refinanced by the Series 2025A Bonds or a “related person” within the meaning of Section 147(a) of the Code. Bond Counsel is further of the opinion that (a) interest on the Series 2025A Bonds is a specific preference item for purposes of the federal alternative minimum tax imposed on individuals, and (b) interest on the Series 2025B Bonds is not a specific preference item for purposes of the federal alternative minimum tax imposed on individuals. The opinions described above assume the accuracy of certain representations and compliance by the City with covenants designed to satisfy the requirements of the Code that must be met subsequent to the issuance of the Series 2025 Bonds. Failure to comply with such requirements could cause interest on the Series 2025 Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Series 2025 Bonds. The City has covenanted to comply with such requirements. Bond Counsel has expressed no opinion regarding other federal tax consequences arising with respect to the Series 2025 Bonds. Interest on the Series 2025 Bonds may affect the federal alternative minimum tax imposed on certain corporations.

The accrual or receipt of interest on the Series 2025 Bonds may otherwise affect the federal income tax liability of the owners of the Series 2025 Bonds. The extent of these other tax consequences will depend on such owners’ particular tax status and other items of income or deduction. Bond Counsel has expressed no opinion regarding any such consequences.

Purchasers of the Series 2025 Bonds, particularly purchasers that are corporations (including S corporations, foreign corporations operating branches in the United States of America, and certain corporations subject to the alternative minimum tax imposed on corporations), property or casualty insurance companies, banks, thrifts or other financial institutions, certain recipients of social security or railroad retirement benefits, taxpayers entitled to claim the earned income credit, taxpayers entitled to claim the refundable credit in Section 36B of the Code for coverage under a qualified health plan or taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, should consult their tax advisors as to the tax consequences of purchasing or owning the Series 2025 Bonds.

Bond Counsel is further of the opinion that, under the existing laws of the State, as presently enacted and construed, interest on the Series 2025 Bonds is exempt from State individual income taxes.

A copy of the proposed form of opinion of Bond Counsel is attached hereto as Appendix F.

Tax Treatment of Original Issue Premium

The Series 2025 Bonds that have an original yield below their respective interest rates, as shown on the inside cover of this Official Statement (collectively, the “**Premium Series 2025 Bonds**”), are being sold at a premium. An amount equal to the excess of the issue price of a Premium Series 2025 Bond over its stated redemption price at maturity constitutes premium on such Premium Series 2025 Bond. A purchaser of a Premium Series 2025 Bond must amortize any premium over such Premium Series 2025 Bond’s term using constant yield principles, based on the purchaser’s yield to maturity (or, in the case of Premium Series 2025 Bonds callable prior to their maturity, generally by amortizing the premium to the call date, based on the purchaser’s yield to the call date and giving effect to any call premium). As premium is amortized, the amount of the amortization offsets a corresponding amount of interest for the period, and the purchaser’s basis in such Premium Series 2025 Bond is reduced by a corresponding amount resulting in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes upon a sale or disposition of such Premium Series 2025 Bond prior to its maturity. Even though the purchaser’s basis may be reduced, no federal income tax deduction is allowed. Purchasers of the Premium Series 2025 Bonds should consult their tax advisors with respect to the determination and treatment of premium for federal income tax purposes and with respect to the state and local tax consequences of owning a Premium Series 2025 Bond.

Backup Withholding

An owner of a Series 2025 Bond may be subject to backup withholding at the applicable rate determined by statute with respect to interest paid with respect to the Series 2025 Bonds if such owner fails to provide to any person required to collect such information pursuant to Section 6049 of the Code with such owner’s taxpayer identification number, furnishes an incorrect taxpayer identification number, fails to report interest, dividends or other “reportable payments” (as defined in the Code) properly, or, under certain circumstances, fails to provide such persons with a certified statement, under penalty of perjury, that such owner is not subject to backup withholding.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to under this heading “TAX MATTERS” or adversely affect the market value of the Series 2025 Bonds. It cannot be predicted whether or in what form any such proposal might be enacted or whether if enacted it would apply to bonds issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or

commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Series 2025 Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Series 2025 Bonds or the market value thereof would be impacted thereby. Purchasers of the Series 2025 Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Bond Counsel are based on existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Series 2025 Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any pending legislation, regulatory initiatives or litigation.

Prospective purchasers of the Series 2025 Bonds are advised to consult their own tax advisors prior to any purchase of the Series 2025 Bonds as to the impact of the Code upon their acquisition, holding or disposition of the Series 2025 Bonds.

RATINGS

The Series 2025 Bonds have been assigned ratings of “A1” (outlook: stable) by Moody’s Investors Service, Inc. (“**Moody’s**”), “A+” (outlook: stable) by S&P Global Ratings (“**S&P**”) and “AA” (outlook: stable) by Kroll Bond Rating Agency, Inc. (“**KBRA**”), respectively. Such ratings reflect only the respective views of Moody’s, S&P and KBRA and an explanation of the significance of such ratings may be obtained from the rating agency furnishing the same. There is no assurance that such ratings will continue for any given period of time or that they will not be revised or withdrawn entirely by any or all of such rating agencies if, in its or their judgment, circumstances so warrant. Any such downward revision or withdrawal of such ratings may have an adverse effect on the market price of the Series 2025 Bonds.

FORWARD-LOOKING STATEMENTS

This Official Statement contains “forward-looking statements” within the meaning of the federal securities laws in the sections hereof entitled “THE NEW SLC AND OTHER CAPITAL PROJECTS,” “THE AIRPORT,” “REPORT OF THE AIRPORT CONSULTANT” and Appendix B. If and when included in this Official Statement, the words “expects,” “projects,” “intends,” “anticipates,” “estimates” and analogous expressions are intended to identify forward-looking statements as defined in the Securities Act of 1933, as amended, and any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties include, among others, general economic and business conditions, changes in political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, litigation and various other events, conditions and circumstances affecting airports and the airline industry, many of which are beyond the control of the Department. These forward-looking statements speak only as of the date of this Official Statement. The Department disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Department’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

NO DEFAULTED BONDS

The City has never failed to pay principal and interest when due on any of its bonds, notes or other financial obligations.

LEGAL MATTERS

Litigation

The City Attorney reports the following matters involving potential financial liability of the City with respect to the Department:

An opinion executed by the City Attorney, dated the date of closing, will be provided stating, among other things, that to the best of his knowledge, after due inquiry, no litigation, with merit, in the State or federal courts has been served on the City or is, to the best of his knowledge, threatened, challenging the creation, organization or existence of the City, or the titles of its officers to their respective offices, or seeking to restrain or enjoin the issuance, sale or delivery of the Series 2025 Bonds, or directly or indirectly contesting or affecting the proceedings or the authority by which the Series 2025 Bonds are issued, the legality of the purposes for which the Series 2025 Bonds are issued, or the validity of the Series 2025 Bonds, or the issuance thereof.

Lawsuits are periodically filed against the Department and/or its employees, involving construction claims, workers' compensation and employment claims, claims related to procurement processes and small claims. The majority of these claims are covered by the Department's insurance coverage and self-insured retentions within expected limits. The City has a statutory obligation to defend and indemnify its officers and employees, including those of the Department, in relation to lawsuits arising from acts or failures to act of the officers or employees while in the scope and course of employment.

The City is involved from time to time in routine litigation matters relating to the Department and its operations. These routine matters include personal injury and property damage claims for which the City's liability is covered in whole or part by insurance or by contractual provisions that obligate third-party service providers or concessionaires to indemnify and defend the City from claims that relate to such third-party services at the Airport. Other matters include disputes with employees; property disputes; disputes with contractors, subcontractors, engineers and others arising out of construction and maintenance of the Department's properties; disputes over leases and concessions; and property, theft and damage claims arising from the Department's parking operations. The City has assessed the pending litigation and determined that the likelihood of liability in uninsured claims currently pending is remote. The City does not expect that these matters will require any amounts to be paid that, singly or in the aggregate, will have a material effect on the operations or financial position of the Department. There can be no assurance, however, that a judgment may be rendered and sustained upon appeal that exceeds the amount of the Department's insurance and its self-insured retentions, and such amounts, although unlikely, could be material.

Approval of Legal Proceedings

Certain legal matters incident to the authorization and issuance of the Series 2025 Bonds are subject to the approval of Kutak Rock LLP, Bond Counsel to the City. Certain legal matters will be passed upon for the City by the City Attorney and by Kutak Rock LLP, the City's Disclosure Counsel. The Underwriters are being represented by their counsel, Gilmore & Bell, P.C. The approving opinion of Bond Counsel will be delivered with the Series 2025 Bonds in substantially the form set forth in Appendix F of this Official Statement.

INDEPENDENT AUDITORS

The basic financial statements of the Department as of and for the year ended June 30, 2024, included in Appendix A to this Official Statement, have been audited by Eide Bailly LLP, independent auditors, as stated in their report appearing in Appendix A herein.

Copies of the City's annual comprehensive financial report may be obtained upon request from the City Treasurer's office, Room 228, 451 South State Street, Salt Lake City, Utah 84111. Copies of the Department's annual comprehensive financial report may be obtained upon request from Brian Butler, the Department's Chief Financial Officer, Post Office Box 145550, 3920 West Terminal Drive, Salt Lake City, Utah 84122.

UNDERWRITING

The Series 2025 Bonds are being purchased by J.P. Morgan Securities LLC, BofA Securities, Inc., Barclays Capital Inc., Goldman Sachs & Co. LLC, Samuel A. Ramirez & Co., Inc., Siebert Williams Shank & Co., LLC and Wells Fargo Bank, National Association (collectively, the "**Underwriters**"), for whom J.P. Morgan Securities LLC is acting as representative (the "**Representative**"). The Underwriters have agreed, subject to certain conditions, to purchase all of (a) the Series 2025A Bonds at an aggregate purchase price of \$569,482,192.07 (equal to the par amount of the Series 2025A Bonds, plus an original issue premium of \$16,732,764.00, less an underwriting discount of \$1,120,571.93), and (b) the Series 2025B Bonds at an aggregate purchase price of \$53,427,041.31 (equal to the par amount of the Series 2025B Bonds, plus an original issue premium of \$2,889,528.50, less an underwriting discount of \$102,487.19), pursuant to a Bond Purchase Agreement between the City and the Representative, on behalf of the Underwriters (the "**Bond Purchase Agreement**") and to reoffer the Series 2025 Bonds at public offering prices not higher than or at yields not lower than those set forth on the inside cover pages hereof. The Bond Purchase Agreement provides that the Underwriters will purchase all of the Series 2025 Bonds, if any are purchased. The Underwriters reserve the right to join with dealers and other underwriters in offering the Series 2025 Bonds to the public. The obligations of the Underwriters to accept delivery of the Series 2025 Bonds are subject to various conditions of the Bond Purchase Agreement.

The Underwriters may offer and sell the Series 2025 Bonds to certain dealers (including depositing the Series 2025 Bonds into investment trusts, which investment trusts may be sponsored by an Underwriter) and others at prices lower than the public offering prices stated on the inside cover pages hereof. The initial public offering prices may be changed from time to time by the Underwriters.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, investment management, principal investment, hedging, financing and brokerage activities. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for the City, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the City.

The following paragraph has been provided by J.P. Morgan Securities LLC (“**JPMS**”) for inclusion in this Official Statement. The City takes no responsibility as to the accuracy or completeness thereof.

JPMS, one of the Underwriters of the Series 2025 Bonds, has entered into negotiated dealer agreements (each, a “**Dealer Agreement**”) with each of Charles Schwab & Co., Inc. (“**CS&Co.**”) and LPL Financial LLC (“**LPL**”) for the retail distribution of certain securities offerings at the original issue prices. Pursuant to each Dealer Agreement, each of CS&Co. and LPL may purchase Series 2025 Bonds from JPMS at the original issue price less a negotiated portion of the selling concession applicable to any Series 2025 Bonds that such firm sells.

The following paragraph has been provided by BofA Securities, Inc. for inclusion in this Official Statement. The City takes no responsibility as to the accuracy or completeness thereof.

BofA Securities, Inc., an underwriter of the Series 2025 Bonds, has entered into a distribution agreement with its affiliate Merrill Lynch, Pierce, Fenner & Smith Incorporated (“**MLPF&S**”). As part of this arrangement, BofA Securities, Inc. may distribute securities to MLPF&S, which may in turn distribute such securities to investors through the financial advisor network of MLPF&S. As part of this arrangement, BofA Securities, Inc. may compensate MLPF&S as a dealer for their selling efforts with respect to the Series 2025 Bonds.

The following two paragraphs have been provided by Wells Fargo Bank, National Association for inclusion in this Official Statement. The City takes no responsibility as to the accuracy or completeness thereof.

Wells Fargo Securities is the trade name for certain securities-related capital markets and investment banking services of Wells Fargo & Company and its subsidiaries, including Wells Fargo Bank, National Association, which conducts its municipal securities sales, trading and underwriting operations through the Wells Fargo Bank, NA Municipal Products Group, a separately identifiable department of Wells Fargo Bank, National Association, registered with the Securities and Exchange Commission as a municipal securities dealer pursuant to Section 15B(a) of the Securities Exchange Act of 1934.

Wells Fargo Bank, National Association, acting through its Municipal Products Group (“**WFBNA**”), one of the underwriters of the Series 2025 Bonds, has entered into an agreement (the “**WFA Distribution Agreement**”) with its affiliate, Wells Fargo Clearing Services, LLC (which uses the trade name “Wells Fargo Advisors”) (“**WFA**”), for the distribution of certain municipal securities offerings, including the Series 2025 Bonds. Pursuant to the WFA Distribution Agreement, WFBNA will share a portion of its underwriting compensation with respect to the Series 2025 Bonds with WFA. WFBNA has also entered into an agreement (the “**WFSLLC Distribution Agreement**”) with its affiliate Wells Fargo Securities, LLC (“**WFSLLC**”), for the distribution of municipal securities offerings, including the Series 2025 Bonds. Pursuant to the WFSLLC Distribution Agreement, WFBNA pays a portion of WFSLLC’s expenses based on its municipal securities transactions. WFBNA, WFSLLC, and WFA are each wholly-owned subsidiaries of Wells Fargo & Company.

MUNICIPAL ADVISOR

PFM is serving as municipal advisor to the Department for the issuance of the Series 2025 Bonds. PFM is not obligated to undertake, and has not undertaken, either to make an independent verification of or to assume responsibility for, the accuracy, completeness, or fairness of the information contained in this Official Statement. PFM is an independent financial advisory firm and is not engaged in the business of underwriting, trading or distributing securities. PFM is a registered municipal advisor with the Securities

and Exchange Commission and the Municipal Securities Rulemaking Board under the Dodd-Frank Act of 2010.

DISCLOSURE OF MULTIPLE ROLES

The City intends to use a portion of the proceeds from the issuance of the Series 2025 Bonds to repay all of the outstanding Subordinate Revolving Obligations.

BofA Securities, Inc., is one of the Underwriters of the Series 2025 Bonds, and Bank of America, N.A. is the provider of the revolving line of credit under the Subordinate Credit Agreement and the holder of the Subordinate Revolving Obligations. BofA Securities, Inc. and Bank of America, N.A. are both wholly-owned, indirect subsidiaries of Bank of America Corporation. Bank of America, N.A. will receive a portion of the proceeds from the issuance of the Series 2025 Bonds in connection with the repayment of the outstanding Subordinate Revolving Obligations.

Conflicts of interest could arise by reason of the different capacities in which BofA Securities, Inc. and Bank of America, N.A. are acting in connection with the Series 2025 Bonds and the repayment of the outstanding Subordinate Revolving Obligations.

CONTINUING DISCLOSURE

The City will enter into a Continuing Disclosure Agreement (the “**CDA**”), in substantially the form attached hereto as Appendix E, for the benefit of the beneficial owners of the Series 2025 Bonds to send certain information annually and to provide notice of certain events to the Municipal Securities Rulemaking Board pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (the “**Rule**”) adopted by the SEC under the Securities Exchange Act of 1934. In the CDA, the City will agree to use diligent efforts to require certain “obligated persons” (at this time only Delta) to provide certain annual financial information and operating data, unless the City is no longer required to do so under the Rule. The City has not undertaken to provide additional information regarding any person that is not obligated under the AUA, a lease or other agreement having a term of more than one year to pay a portion of the debt service on the Series 2025 Bonds and providing at least 20% of the Revenues of the Department for the prior two fiscal years. Delta has agreed in the AUA to provide the City such information with respect to Delta as the City may reasonably request in order for the City to comply with the requirements of the Rule.

A failure by the City to comply with the CDA will not constitute a default under the Indenture and beneficial owners of the Series 2025 Bonds are limited to the remedies described in the CDA. A failure by the City to comply with the CDA must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Series 2025 Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Series 2025 Bonds and their market price. See “APPENDIX E—FORM OF CONTINUING DISCLOSURE AGREEMENT” for the information to be provided by the City, the events which will be noticed on an occurrence basis and the other terms of the CDA, including termination, amendment and remedies.

The City has entered into a number of continuing disclosure undertakings pursuant to the Rule with respect to the bonds it has issued in addition to those issued for the benefit of the Department and has contracted with a number of dissemination agents to file annual information and notices of certain events on behalf of the City.

- In the previous five years the City provided its annual financial information and audited financial statements to each of the applicable dissemination agents in advance of the

deadline specified in the applicable continuing disclosure undertaking. Dissemination agents for certain of the City's bonds filed such information late; however, the information was filed within 10 days of the deadline.

- With respect to certain bonds issued for the benefit of the City's Water System, during the previous five years the City filed the audited financial statements of the Water System, but did not include the audited financial statements of the City. Corrective filings have been made and the City has taken steps to ensure that in the future the City's audited financial statements will be filed for such Water System bonds as required. At the time of the initial corrective filings the City determined that such filings were immaterial with respect to certain maturities of the Water System bonds that had already matured, and corrective filing were not made for such maturities.
- In connection with a prior purchase of certain of the City's general obligation bonds, the purchaser requested that corrective filings be made for such previously matured Water System bonds. The City complied with such request despite having determined that such filings were not material.
- With respect to certain bonds of the City, for its FY 2024 annual report, the City initially filed certain required information with respect to certain taxes and the City's largest property taxpayers by the required deadline in a draft format as the City didn't have the updated information at that time. The City subsequently filed the updated information, but the information was filed after the applicable deadlines.

The City has adopted continuing disclosure policies and procedures to help ensure compliance with its continuing disclosure undertakings.

MISCELLANEOUS

All quotations from, and summaries and explanations of the Utah Constitution, statutes, programs, laws of the State, court decisions and the Indenture, which are contained in this Official Statement do not purport to be complete and reference is made to said Constitution, statutes, programs, laws, court decisions and the Indenture for full and complete statements of their provisions.

Any statements in this Official Statement involving matters of opinion, whether or not expressly so stated, are intended as such and not as representations of facts. This Official Statement is not to be construed as a contract between the City or the Underwriters and the purchasers or owners of any of the Series 2025 Bonds.

The appendices attached hereto are an integral part of this Official Statement and should be read in conjunction with the foregoing material.

[Remainder of page intentionally left blank.]

The delivery of this Official Statement and its distribution and use have been duly authorized by the City.

Honorable Mayor and City Council Members
Salt Lake City Department of Airports Advisory Board
Salt Lake City, Utah

Overview

The Annual Comprehensive Financial Report of the Salt Lake City Department of Airports (Airport) for the fiscal year ended June 30, 2024, is submitted herewith. This report was prepared by the Airport's Finance Division using generally accepted accounting principles (GAAP) for local governments as prescribed by the Governmental Accounting Standards Board (GASB). The accuracy of the data and the completeness and fairness of the presentations, including all disclosures, are the responsibility of the Airport.

In developing and evaluating the Airport's accounting system, consideration is given to the adequacy of internal control over financial reporting. The management of the Airport has established a comprehensive internal control framework that is designed to provide management with reasonable, but not absolute, assurance that assets are safeguarded from loss from unauthorized use or disposition; and transactions are executed in accordance with management's authorization and recorded properly for the preparation of the financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and the evaluation of costs and benefits requires estimates and judgments by management. We believe that the Airport's internal control processes adequately safeguard assets, provide reasonable assurance that financial transactions are recorded properly, and that to the best of our knowledge and belief, this report is complete and reliable in all material respects.

Eide Bailly, LLP, an independent firm of Certified Public Accountants, has audited these basic financial statements and related notes. Their report is included herein. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Airport for the fiscal year ended June 30, 2024, are free of material misstatements. This independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used, and significant estimates made by management.

Additionally, Eide Bailly, LLP, audited the compliance requirements of Salt Lake City's (City) federal funds expenditures (which include the Airport's federal funds) for the year as part of the federally mandated Single Audit designed to meet the special needs of federal grantor agencies. That report is available in a separate report combined with Salt Lake City Corporation.

The Airport's budget is prepared under the direction of the Airport Executive Director and Chief Financial Officer (CFO) and is submitted to the Salt Lake City Council for approval and inclusion in the City budget as an enterprise fund.

Profile of the Salt Lake City Department of Airports

The Airport is a department of the city of Salt Lake City, Utah. As an enterprise fund, users of the Airport's facilities provide the revenues to operate and maintain the facilities. The Airport is financially self-sustaining with revenue generated from airline and other tenant fees, grants, passenger facility charges (PFC), rental car customer facility charges (CFC), concessions, vehicle parking, fuel, and leases for office and hangar space. The Airport operates three facilities – Salt Lake City International Airport, South Valley Regional Airport (SVRA) at West Jordan, and Tooele Valley Airport (TVA).

Salt Lake City International Airport is located 5 miles northwest of the downtown Salt Lake City business district. Beginning with a cinder-covered landing strip in a marshy pasture called Basque Flats in 1911, the Airport was originally used for aerobatic flights. Salt Lake City purchased 100 acres surrounding the landing strip for \$40.00 per acre in 1920, and the resulting airfield was named Woodward Field. The first commercial passenger flight took place in 1926 with two passengers perched atop U.S. mail sacks, and in 1943 the Airport became a training base and replacement depot for the U.S. Air Force. The three runways were upgraded in 1950, a third air carrier runway was added in 1995. In 1999 the Federal Aviation Administration opened a new air traffic control tower and terminal radar approach control facility. The first terminal building, previously terminal one, was dedicated in 1961. Terminal two was completed in 1978. Terminal one was expanded and remodeled in 1981 and an international terminal was added in 1996. In 2020, terminal one, terminal two and the international terminal were demolished. These were replaced with a new consolidated terminal and new linear concourses A (South Concourse West) and B (North Concourse West). A new parking garage, gateway center and central utility plant also opened in 2020.

Construction commenced in FY 2014 on the Terminal Redevelopment Program (TRP), a \$2.86 billion capital improvement program to build new facilities to replace aging facilities, mitigate seismic risks, and prepare for future growth. The old facilities were built to accommodate 10 million passengers annually, but in FY 2024, the Airport served over 28 million passengers which is almost three times the number of passengers the old facilities were designed to handle. In conjunction with the TRP, the North Concourse Program (NCP) includes the development of a 47-gate midfield airside concourse to the north of the new airside concourse to be developed as part of the TRP. The Airport received unanimous support from all airlines serving SLC to build the north concourse in April 2016. It is currently estimated that the NCP will cost approximately \$2.27 billion. Together, the TRP and NCP are now called The New SLC.

South Concourse East (Phase II) opened 5 gates in May 2023 and the remaining 17 gates in October 2023, which was two years earlier based on an aggressive rephasing due to the Covid-19 global pandemic and officially completed the TRP program. Phase III will add eight gates to the North Concourse East and a new central tunnel that will connect the Terminal to Concourse B (North Concourse). Phase III will open in two phases, with 5 gates in October 2024 and 4 additional gates in October 2025. Due to a strong passenger recovery and growth in Salt Lake City, the airlines requested that the Airport consider building the remaining 16 gates on Concourse B as part of Phase IV which was contemplated in the future for the complete buildout of 47 gates on Concourse B. The Airport renegotiated the Airline Use Agreement (AUA) which expired for all airlines on June 30, 2024, except for Delta and United that had agreements through June 30, 2034. As of June 30, 2024 airlines that accounted for over 98% of FY 2023 passengers have executed the revised AUA that begins on July 1, 2024 and gave support for the 16 gate expansion of Phase IV that is scheduled to open in two phases, with 5 gates in October 2025, and the remaining 11 gates and a permanent hardstand that can accommodate up to 4 hardstand positions by October 2026 which will complete the NCP program.

The TRP construction activities included opening the last 17 Gates on Concourse A east as well as the Apron Paving associated with those gates. The Central Tunnel interior build-out activities are complete and the High Speed Baggage Conveyor from Concourse A to Concourse B was put into service in May 2024.

The NCP construction activities for the 8-Gate Expansion included completion of interior buildout of the entire eight gate expansion as well as the apron paving on the south side. The NCP Phase IV 16-Gate Expansion is nearing completion of Structural Steel.

The FY 2024 budget also includes \$95.6 million for airfield projects. This includes decommissioning R/W 14-32 & T/W improvements (design), replace pumps in glycol pump stations, taxiway F reconstruction (G-F1), taxiway U & V design and construction including the roadway alignment. These airfield improvement projects ensure the safe operation of aircraft and preserve valuable assets. \$13.8 million is budgeted for Auxiliary Airport projects which includes TVY water & sewer improvements and hangar site development. \$63.4 million for landside projects including south employee parking lot development and surplus canal relocation.

Funding for the airport capital improvement program (CIP) includes funds generated by the Airport, PFCs, CFCs, Airport revenue bonds, future Airport bonds, Airport funds, and reimbursements from the airport improvement program (AIP) grants from the Federal Aviation Administration (FAA).

The Airport is currently ranked the 22nd busiest in the United States, and 86th busiest in the world in terms of passenger numbers. The Airport provided 336 average daily departures to 96 non-stop destinations in June 2024. The Airport served approximately 28.0 million passengers in FY 2024 and is one of Delta's largest hubs.

Economic Condition

The Fiscal Year 2024 financial results reflect strong conditions for both operating and non-operating revenues and expenses due to the underlying growth of the economic region and new gates and air service coming online. The Airport consistently achieved record numbers of passengers on a monthly basis in FY 2024. The Airport received \$91.7 million from the American Rescue Plan Act (ARPA) in FY 2021 from federal government grants with the last \$37.1 used in FY 2024. This relief programs help offset the loss of revenue in landside and terminal concession revenue and allow the Airport to stabilize rates and charges for the airlines and concessionaires.

According to the recently published State of Utah's 2023 Economic Report to the Governor, Utah had its highest labor force participation rate since 2010. Utah's unemployment rate reached a high of 10.4% during the pandemic and has since declined to 2.6% (estimated) for 2023. Over the course of 2023, Utah's unemployment rate increased slightly and still outpaces the national average. The Census forecast predicts healthy growth for the state in the near future.

Utah's total personal income is estimated to have increased by 5.6% in 2022, which was the seventh highest in the in the nation. Industry sector job growth remained largely positive in 2023, but not to the degree experienced in 2022. The information industry underwent job losses, likely influenced by higher interest rates. All other industries grew, but several at only a tepid pace.

The Airport plays an important role in supporting business and economic growth in the state. Its operations are a key component in providing affordable access to worldwide destinations for business and individuals. According to an analysis by GSBS Richman Consulting in 2024, the Airport has been a significant economic driver for Utah and its capital for the past 50 years and will continue to underpin the economy. Over the life of The New SLC, the Airport is projected to generate \$3.9 billion in wages and income from an estimated 4k full-time jobs. Taking all spending into account, The New SLC is expected to contribute an estimated \$5.3 billion to Utah's GDP.

The Airport operates within the economic conditions of the national and local economy as well as the airline industry environment. An effective partnership between the airlines and the Airport requires a continued focus on operating costs, while maintaining service and safety. Operating expenses increased by 9.6%, while passengers increased 6.0% in FY 2024 compared to FY 2023. The large increase in operating costs relates to increased passengers, additional employees to operate the new, larger airport, and increased service and maintenance contracts, primarily in janitorial, baggage handling systems, passenger boarding bridges, new software systems, and several other items.

The Airport borrowed \$1 billion of General Airport Revenue Bonds (GARB's) in February 2017, \$850.5 million in October 2018, \$904.6 million in August 2021, and \$600 million in August 2023 to fund the ongoing construction of The New SLC. Efforts are continually made to control operating costs to the airlines and reduce airline cost per enplaned passenger, currently at \$9.97 for FY 2024, \$8.28 for FY 2023, \$8.11 for FY 2022, remaining very competitive among large hub airports in the nation. The Airport has total cash and investment balances of \$889 million to be utilized during the next several years for operating costs, CIP, as well as The New SLC, except for certain restricted funds. Financing for The New SLC is generated from federal grants, PFCs, CFCs, bonds, and Airport cash reserves. The Airport will acquire additional funding in the future to fund the final phases of The New SLC.

Outlook

Over the last several years, Utah has outperformed the national economy. Unemployment in Utah was 3.0% as of June 2024, well below the national average of 4.1%. Job growth is expected to continue although at a more tepid pace.

The budget for the Airport adopted for FY 2025 assumes that Salt Lake City Airport passengers are projected to increase by 7.7% compared to the prior fiscal year. The Airport achieved full economic recovery from the pandemic during FY 2023 as passengers were greater than FY 2019. Flights have returned to pre-pandemic levels and several new routes were added.

Current financial position, passenger statistics, and results from FY 2024 and earlier can be found in more detail in Management's Discussion and Analysis in this report.

Future Growth

The Airport achieved a record number of passengers of 28.0 million in FY2024 that exceeded the previous record in FY2023 of 26.4 million. Demand for air travel is usually driven by economic activity, and the airport has seen a larger return of business travel than in prior years. Leisure travel continues to be very strong as there remains confidence in the economy and people willing to spend money on air travel. In the Airport's FY 2025 budget, we are forecasting an increase of 4.8% of enplanements compared to those in FY 2024.

The TRP replaces terminal facilities that were over 50 years old, required extensive maintenance, lacked energy efficiency, and failed to meet current seismic standards. The New SLC received the award in Leadership in Energy and Environmental Design (LEED) gold certification as required by City ordinance. The TRP consolidates passenger processing facilities into a single facility to serve all concourses, as well as replaces the existing parking garage, constructs new terminal roadways, and introduces a new central utility plant. Rental car services are integrated with the new garage. The new site for car rental operations and servicing, and a quick turn-around facility for car rentals, are operational. The new Airport will be capable of handling more passengers and aircraft. The number of parking spaces in the garage doubles from 1,770 to 3,600.

The NCP includes the development of 47 additional gates as well as 4 hardstand positions to accommodate additional passengers and aircraft to meet forecasted growth. The first phase of the NCP, which includes 20 aircraft gate positions and 19 hardstand positions, opened on time on October 27, 2020. Phase III of the NCP began construction in Q1 2022 and will finish connecting the central tunnel to the central plaza in the fall of 2024, with five additional gates coming online at the same time. The remaining four gates on concourse B will become operational in the fall of 2025. Phase IV of the NCP began in July 2023 and the first 5 gates will be delivered at the same time as the last 4 gates of Phase III in the fall of 2025. The remaining 11 gates and 4 permanent hardstand positions will open in the fall of 2026 and will conclude the NCP program as well as The New SLC.

An economic impact report of the Salt Lake City International Airport was prepared in April of 2024. In the report it states for every dollar spent on the New SLC, an additional \$1.99 is generated in the economy as a result of the indirect and induced effects of the original expenditure.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Salt Lake City Department of Airports for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2023.

To be awarded a Certificate of Achievement, the Airport must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, the contents of which conform to program standards. Such reports must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The production of this report is a cooperative effort of the Finance Division of the Airport and Eide Bailly, LLP. We extend our appreciation to the staff for their efficient and dedicated service. We also thank the members of the City Council, the Mayor, and members of the Department of Airports Advisory Board for their interest and support in planning and conducting the financial operations of the Airport in a responsible and progressive manner.

Independent Auditor's Report

Honorable Mayor and City Council of Salt Lake City
Salt Lake City Department of Airports
Salt Lake City, Utah

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the Salt Lake City Department of Airports (the "Airport") an enterprise fund of Salt Lake City Corporation, which comprise the statements of net position as of June 30, 2024 and 2023, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the Airport's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Airport as of June 30, 2024 and 2023, and the respective changes in its financial position and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Airport and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Airport, are intended to present the financial position, the changes in financial position and cash flows of only that portion of Salt Lake City Corporation that is attributable to the transactions of the Airport. They do not purport to, and do not, present fairly the financial position of Salt Lake City Corporation as of June 30, 2024 and 2023, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

5 Triad Center, Ste. 600 | Salt Lake City, UT 84180-1106 | T 801.532.2200 | F 801.532.7944 | EOE

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Airport's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Airport's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information identified in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2024, on our consideration of the Airport's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Airport's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Airport's internal control over financial reporting and compliance.

Salt Lake City, Utah

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

The following Management's Discussion and Analysis (MD&A) of the Salt Lake City Department of Airports' (Department) activities and financial performance provides an introduction and overview to the financial statements for the fiscal years ended June 30, 2024, 2023, and 2022.

The information in this MD&A has been prepared by Airport management and should be used in combination with the accompanying financial statements and notes as well as supplemental information in order to provide a complete understanding of the data contained in the financial statements.

FINANCIAL STATEMENTS

The Airport is an enterprise fund of Salt Lake City Corporation (City) and is supported wholly by airport generated revenues. The Department is responsible for the operation and maintenance of the City's three airports: Salt Lake City International Airport (Airport), South Valley Regional Airport, and Tooele Valley Airport. No general tax fund revenues are used for the administration, promotion, operation or maintenance of the airports in the system.

Financial statements are prepared on an accrual basis in accordance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB). Revenues and expenses are recorded when earned and incurred, not when received or paid, with the exception of passenger facility charges (PFCs) that are recorded when received based upon twelve full months of revenue. Capital assets, except land and construction in progress, are depreciated over their useful lives. See the notes to the financial statements for significant accounting policies.

FINANCIAL & OPERATIONAL HIGHLIGHTS

Salt Lake City International Airport serves the Salt Lake City metropolitan area as well as the surrounding areas of Utah, Idaho, Colorado, Nevada, and Wyoming. The Airport functions as one of the largest hubs for Delta Air Lines Inc. (Delta) and ranks as the 22nd busiest in the United States and the 86th busiest in the world in terms of passenger numbers (according to Airport Council International (ACI)). In terms of operational movements, ACI states that the Airport ranks 23rd busiest in the United States and 45th busiest in the world.

Passenger levels exceeded pre-pandemic levels in FY 2023 and continued to grow in FY 2024. Total passengers increased by 1.6 million in FY 2024, 911 thousand in FY 2023, and 10.1 million in FY 2022 to a total of 28.0 million, 26.4 million, and 25.5 million passengers, respectively. Enplaned passengers increased by 707 thousand in FY 2024, 341 thousand in FY 2023, and 5.1 million in FY 2022 to a total of 13.9 million, 13.1 million, and 12.8 million enplaned passengers: an increase of 5.4%, 2.7%, and 66.0%, respectively. In June 2022, the Airport provided 399 average daily departures to 89 domestic and 6 international destinations. In June 2023, the Airport provided 317 average daily departures to 90 domestic and 6 international destinations. In June 2024, the Airport provided 336 average daily departures to 90 domestic and 6 international destinations. Load factors decreased in FY 2024 to 85.4% compared to 88.6% in FY 2023 and 85.1% in FY 2022.

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

Total aircraft operations increased 1.6% in FY 2024, decreased 5.6% in FY 2023, and increased 8.7% in FY 2022. Landed weights increased 974 million pounds, 6.2%, in FY 2024. They decreased by 391 million pounds, (2.4%), in FY 2023, and increased 2 billion pounds, 14.3%, in FY 2022. In FY 2024, the Airport had more flights, including new routes, and bigger planes that led to an increase in passengers and landed weight, but a lower load factor.

STATEMENT OF NET POSITION

The Airports' net position was \$1.5 billion as of June 30, 2024, \$1.4 billion as of June 30, 2023, and \$1.4 billion as of June 30, 2022. The total increase in net position was \$62.6 million in FY 2024, \$3.5 million in FY 2023, and a decrease of \$6.5 million in FY 2022. The largest portion of the Airport's net position (70.3%) in FY 2024 represents net investment in capital assets (land, buildings, runways, taxiways, and equipment).

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

Restricted cash for construction has increased \$186 million from the prior year as the Department issued a new bond series in FY 2024 for construction of The New SLC. As of June 30, 2024, \$189.2 million (3.4%) of Airport assets were restricted for construction and debt service compared with \$172.1 million (3.5%) in FY 2023 and \$377.7 million (7.5%) in FY 2022. These amounts represent bond proceeds, passenger facility charges (PFCs) and customer facility charges (CFCs) that have been collected but have not yet been reimbursed to general operating cash for TRP and NCP construction projects. In addition, \$37.5 million of Airport assets in FY 2024 were restricted for an operation and maintenance reserve fund, and \$5.0 million was restricted for a renewal and replacement reserve fund as required by the Airport Use Agreement (AUA) between the City and the signatory airlines operating at the Airport.

Total cash and investments increased in the current year as the Airport received bond proceeds for building The New SLC. Total available cash and investments increased by \$321 million in FY 2024, decreased by \$400 million in FY 2023, and increased by \$571 million in FY 2022. After restricted balances, the Airport's unrestricted cash available for operating expenses and reserves for The New SLC increased by \$81 million in FY 2024, decreased by \$17 million in FY 2023, and increased by \$72 million in FY 2022. The Airport will continue to fund The New SLC with additional general airport revenue bond (GARBs) proceeds and an interim credit facility.

To increase return on restricted and reserved cash, the Department invested cash in the State Treasurer's investment pool as well as agency and corporate bonds. Cash investments in the State Treasurer's investment pool were increased by \$807 thousand, and U.S. Treasury, Agency, and corporate bonds were increased by \$3.6 million to fair market value at June 30, 2024. The Airport has adjusted investments up or down to reflect fair market value, but when the investments are either called, or mature, they will be readjusted and current gains or losses recorded. At year end FY 2024, \$2.3 million was accrued for interest income earned but not yet paid for investments that are paid on a quarterly basis, rather than monthly. See Note 2 for detailed information.

This year, available operating cash increased by \$81 million (34.6%) based on timing of the Airport using unrestricted cash on The New SLC before reimbursing itself from construction bond proceeds and an increase in non-airline revenue.

Airport cash payments for current year construction and land acquisitions in the amount of \$517.0 million were reimbursed by a combination of federal airport improvement program grants (AIP) and BIL funding of \$63.1 million and proceeds of GARBs in the amount of \$481.5 million. The remainder of cash outflows for construction as well as payments for capital equipment of \$27.6 million was provided by Airport operating cash.

During FY 2024, the lease receivable and deferred inflow for leases decreased \$41.1 million to \$163.3 million, compared to \$204.3 million in FY 2023 and \$214.7 million in FY 2022. There were 11 new leases added during the year, but the overall balance decreased due to regular lease payments received.

For the years ended June 30, 2024 and 2023, the Airport recorded a subscription asset for \$3.8 million and \$3.7 million and a subscription liability for \$1.0 million and \$1.5 million. There was no subscription asset or liability in FY 2022.

Capital assets (net of accumulated depreciation) have increased by \$359.5 million during FY 2024. The Airport completed the east portion of Concourse A, causing the large increase. Buildings, improvements, and equipment increased \$601 million and land purchases were \$225 thousand. The subscription asset

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

increased by \$110 thousand. There was a \$88.0 million decrease in construction in progress due to the completion of Concourse A. Depreciation expense was \$162.7 million for FY 2024, \$148.4 million in FY 2023, and \$144.0 million in FY 2022.

Capital assets are currently funded by AIP, TSA grants, PFCs, CFCs, GARBs, and Airport funds. For more detailed information on changes in capital assets, refer to Note 4 in the notes to the financial statements.

The Airport recorded an increase in deferred outflows of \$2.3 million in FY 2024, increasing deferred outflows to \$10.3 million compared to \$7.9 million in FY 2023 and \$5.5 million in FY 2022, which represent deferred outflow of resources (expenses) in future periods. The Airport also decreased deferred inflows by \$35.9 million in FY 2024, to \$175.7 million compared to \$211.6 million in FY 2023 and \$237.8 million in FY 2022, which represent resources (revenues) that will be recognized in future periods.

SUMMARY OF CASH FLOW ACTIVITIES	FY 2024	FY 2023	FY 2022
Cash flow from operating activities	\$ 147,747	\$ 80,524	\$ 105,722

Cash flow from other financing	-	-	3,818
Payments for acquisition and construction of property	(522,593)	(475,493)	(470,003)
Cash and cash equivalents at beginning of year	370,964	767,021	292,793
Net (decrease) in cash	294,211	(396,057)	474,228
Cash and cash equivalents at end of year	\$ 665,175	\$ 370,964	\$ 767,021

(amounts in thousands)

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

Operating income, before depreciation, was \$142.2 million in FY 2024, compared to \$111.2 million in FY 2023 and \$118.3 million in FY 2022. With the inclusion of depreciation and non-operating revenue and expenses, the resulting change in net position was an increase of \$62.6 million in FY 2024, \$3.5 million in FY 2023, and a decrease of \$6.5 million in FY 2022.

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

Operating Revenues

Salt Lake City International Airport is served by eight domestic carriers: Alaska, American, Delta, Frontier, JetBlue, Southwest, Spirit, and United. On July 1, 2014, all the airlines, except Spirit, entered into a ten-year Airport Use Agreement (AUA) with the Airport. Each AUA terminated on June 30, 2024, unless earlier terminated. Due to a strong passenger recovery and growth in Salt Lake City, the airlines requested that the Airport consider building the remaining 16 gates on Concourse B as part of Phase IV. The Airport renegotiated the Airline Use Agreement (AUA) and as of June 30, 2024, airlines that accounted for over 98% of FY 2022 passengers have executed the revised AUA that began on July 1, 2024. The new agreement goes through June 30, 2034, for all airlines except those that chose to sign a 20-year agreement, which are Delta, Southwest, and Alaska Airlines. Any airline that chose not to sign the updated AUA became a non-signatory on July 1, 2024. Spirit Airlines signed the AUA in May 2023, becoming a signatory airline at that time. Under the AUA, terminal rent calculations are on a compensatory basis, recovering costs allocated to the occupied facilities. Landing fee calculations are residual based, recovering net cost after the credits of nonairline revenue. Revenue sharing is available to Signatory Airlines that are parties to the AUA consisting of one dollar (\$1) per enplaned passenger, not to exceed 30% of net remaining revenue. The Signatory Airline revenue sharing increased by \$1.5 million in FY 2024 to \$15.3 million, compared to \$13.8 million in FY 2023 and \$13.6 million in FY 2022.

Airline revenue, net of airline revenue sharing, has increased \$19.7 million in FY 2024 to \$154.2 million compared to \$134.5 million in FY 2023 and \$123.3 million in FY 2022. The Airport returned to pre-COVID levels of operations in FY 2023 and experienced continued growth in FY 2024. The Airport opened 5 new gates on Concourse A in May of 2023 and the remaining 17 gates on Concourse A opened in October 2023. The new space caused much of the increase in airline revenue. Landing fees increased by \$6.3 million in FY 2024 to \$59.8 million compared to \$53.5 million in FY 2023 and \$45.2 million in FY 2022. Terminal space and other building rentals have increased by \$12.3 million in FY 2024 to \$89.4 million compared to \$77.1 million in FY 2023 and \$74.3 million in FY 2022. As a valuable partner with the airlines, the Airport continues its efforts to keep airline costs low. The Airport cost per enplaned passenger (CPE) for FY 2024 was \$9.97, an increase from the FY 2023 amount of \$8.28 and FY 2022 amount of \$8.11.

The Airport estimates AUA rates for terminal rents and landing fees through the budgeting process; however, at the end of each fiscal year an adjustment-to-actual calculation occurs based on the year-end financial results. Final terminal rents and landing fees for the past three years are as follows:

	<u>FY 2024</u>	<u>FY 2023</u>	<u>FY 2022</u>
Terminal Rents (annual per square foot)	\$ 158.91	\$ 135.71	\$ 136.12
Landing Fees (per 1,000 lbs)	\$ 3.22	\$ 3.09	\$ 2.77

Non-airline concession revenues are allocated into two major categories: (1) terminal concessions, which include food service, retail, and advertising, and (2) landside concessions, which consist of auto parking, rental car commissions, and ground transportation fees. On the statement of revenues, expenses and changes in net position, terminal concession revenues have increased by \$14.1 million (94.4%) in FY 2024 to \$29.1 million compared to \$15.0 million in FY 2023 and \$22.8 million in FY 2022. This is a result of ARPA concession relief funds awarded to both food and beverage and retail concessions being passed through to concessionaires from the Airport for \$11.0 million in FY 2023. Without the ARPA concession relief, terminal concession revenue increased by \$3.1 million due to the increase in passengers and the amount

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

spent per passenger increasing. Landside concessions have increased by \$13.4 million (12.9%) in FY 2024 to \$117.3 million compared to \$103.9 million in FY 2023 and \$90.6 million in FY 2022. Auto parking revenues have increased \$8.5 million (14.1%). Rental car revenues have increased \$3.7 million (10.2%). Ground transportation increased by \$1.4 million (17.7%). Rental cars and parking increased due to growing passenger numbers and additional business travel. Parking revenue also increased due to a \$2 price increase for the daily maximum in the economy lot. A trend in the industry is also longer vacations. The average cost per transaction in the economy lot increased \$7.25 from FY 2023 to FY 2024 and by \$0.38 in the parking garage over the same time.

Non-operating Revenues

The Airport recorded \$100.2 million in grants in FY 2024 compared to \$62.5 million in FY 2023 and \$71.7 million in FY 2022. These funds consisted of \$24.2 million in AIP grants provided by the Federal Aviation Administration, \$38.9 million from the Bipartisan Infrastructure Law (BIL), and \$37.1 million in ARPA Act grants. Airport federal grants increased from the prior year by \$37.8 million (60.4%) based on the BIL funds received. Passenger facility charge revenue increased in FY 2024 by \$2.7 million to \$51.9 million, including \$1.2 million in interest on PFC deposited funds, compared to \$49.3 million in FY 2023 and \$48.8 million in FY 2022. Increases are due to the increase in passengers. Customer facility charge revenue increased in FY 2024 by \$1.8 million to \$16.9 million compared to \$15.2 million in FY 2023 and \$14.0 million in FY 2022. The increase is due to the increase in passengers and more rental vehicles being reserved at the Airport.

The Airport recorded a gain of \$590.8 thousand on the disposition and sale of property and equipment in FY 2024, a loss of \$7 thousand in FY 2023, and a loss of \$221 thousand in FY 2022.

The average interest rate on investments that are held in the State Treasurer's pool for FY 2024 was 5.4%, compared to 3.8% in FY 2023 and 0.5% in FY 2022. In FY 2024, FY 2023, and FY 2022, interest earned from the State Treasurer's pool and depository accounts totaled \$48.0 million, \$24.8 million, and \$6.5 million, respectively. Interest income increased because of the significant change in interest rates over the last two years and bond proceeds of \$600 million in August 2023. As referred to previously in the discussion on the Airport's cash balances, beginning in FY 2011, the Airport diversified its investments in U.S. Treasury, Agency and Corporate notes to obtain a higher rate of return. Interest earned on these investments was \$8.7 million in FY 2024, \$5.8 million in FY 2023, and \$2.5 million in FY 2022 (after management fees). The weighted average yield, including discounts and premiums included at purchase, was 3.7% in FY 2024, 2.9% in FY 2023, and 1.3% in FY 2022. The investment in these securities increased the balance in the Utah State Treasurer's pool. See Note 2 for cash investment details. The Airport recorded interest income of \$669.9 thousand in FY 2024, \$1.3 million in FY 2023, and \$1.3 million in FY 2022 from financing CFC related projects from Airport reserves that will be paid back to the Airport through future CFC collections. The Airport recorded interest income from leases of \$5.1 million in FY 2024, \$5.1 million in FY 2023, and \$4.7 million in FY 2022.

Total expenses	\$ 493,270	100.0%	\$ 438,797	100.0%	\$ 405,128	100.0%

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

Operating Expenses

The Airport has grown and expanded since the first phase opened in 2020. The Airport opened 5 new gates in May 2023 and another 17 gates in October 2023. This caused operating expenses to increase in FY 2024.

Operating expenses before depreciation have increased by \$12.4 million (7.2%) in FY 2024 to \$184.4 million compared to \$172.1 million in FY 2023 and \$140.6 million in FY 2022. Personnel services have increased by \$7.7 million (13.1%) in FY 2024 to \$66.7 million compared to \$59.0 million in FY 2023 and \$47.8 million in FY 2022. Salaries for the year increased, a portion of which is from pension expense related to GASB 68, which is further discussed in Note 6. Salaries and wages increased \$3.3 million in FY 2024 due to an airport wide raise of 5.0% and hiring approximately 20 new full-time employees. The Airport also averaged 15 more full-time employees in FY 2024 compared to FY 2023 due to the new employees and vacant positions being filled.

Operating and maintenance costs have decreased by \$2.3 million (-11.6%) in FY 2024 to \$17.8 million compared to \$20.1 million in FY 2023 and \$13.7 million in FY 2022. The primary cause for the change was a decrease in spending of \$3.5 million for chemicals. Winter in FY 2024 was much lighter than winter in FY 2023, so the Airport required fewer chemicals to keep the runway clear.

Expenses for charges and services have increased by \$7.0 million (7.5%) in FY 2024 to \$99.9 million compared to \$92.9 million in FY 2023 and \$79.1 million in FY 2022. The largest increases were \$1.3 million for police and \$4.8 million for janitorial costs. Police increased due to higher salaries negotiated with the union. The janitorial contract expenditures increased with wage increases and additional contract scope due to increased Airport square footage.

Depreciation expense increased by \$14.2 million (9.6%) in FY 2024 to \$162.7 million compared to \$148.4 million in FY 2023 and \$144.0 million in FY 2022. The increase in FY 2024 is due to the addition of 22 new gates added to Concourse A in 2023.

NON-OPERATING EXPENSES

Non-operating expenses consist primarily of interest on long-term debt. Interest expense was \$143.0 million in FY 2024, \$117.3 million in FY 2023, and \$116.8 million in FY 2022. The increase in FY 2024 is due to the addition of the 2023 bond series issued in August 2023. The airport recorded \$2.3 million for bond issuance costs in FY 2024 related to the 2023 bond series. The airport incurred an expenditure for \$756 thousand in FY 2024, \$540 thousand in FY 2023, and \$648 thousand in FY 2022 for maintenance of screening lanes and machines donated to the Transportation Security Administration (TSA) for the opening of Phase I of The New SLC.

CAPITAL TRANSACTIONS

The TRP construction activities included opening the last 17 Gates on Concourse A east as well as the Apron Paving associated with those gates. The Central Tunnel interior build-out activities are complete and the High Speed Baggage Conveyor from Concourse A to Concourse B was put into service in May 2024. The NCP construction activities for the 8-Gate Expansion included completion of interior buildout of the entire eight gate expansion as well as the apron paving on the south side. The NCP Phase IV 16-Gate Expansion is nearing completion of Structural Steel.

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Management's Discussion and Analysis
(unaudited)

At the beginning of the fiscal year, Airport projects totaling \$988.0 million were in the process of construction and an additional \$485.0 million in projects was added during FY 2024. \$522.6 million in construction costs were spent during the year. A total of \$570.6 million in projects and equipment were capitalized and placed in service in FY 2024; \$1.0 million was expensed. \$900.0 million remains as construction in progress. The largest portion of the \$570.6 million of capitalized projects includes 17 gates in the South Concourse East, including associated apron and airfield work, additions to the baggage handling system and hydrant fueling system, Taxiways 20 and 21, and North Cargo apron development.

The phased construction on the \$5.1 billion The New SLC will continue through 2026. Phase I of the TRP went into service on September 15, 2020 with NCP going into service on October 20, 2020. Phase II (South Concourse East) opened 5 gates in May 2023, 4 gates in August 2023, and the remaining 13 gates in October 2023. Phase III (North Concourse East) will open with 5 gates in Fall 2024 and 4 gates in Fall 2025. Phase IV will add 5 gates in Fall 2025 and 11 gates in Fall 2026. Additional information regarding capital assets can be found in Note 4 in the Notes to Financial Statements.

LONG-TERM DEBT

As of June 30, 2024, 2023, and 2022, the Airport had a total of \$3.7 billion, \$3.1 billion, and \$3.2 billion respectively, of outstanding General Airport Revenue Bonds. These bonds mature from July 1, 2024 to July 1, 2053, with an interest rate of 4-5.25%. The bonds do not constitute debt of the City or a pledge of the full faith and credit of the City and are secured by Airport revenues. In August 2023, the airport issued a new bond series for \$600 million to continue funding of The New SLC. Additional information regarding long-term Airport debt can be found in Note 7 in the Notes to Financial Statements.

ECONOMIC OUTLOOK

The fiscal year 2024 financial results reflect economic growth to both operating and non-operating revenues and expenses. The Department continues to work closely with the airlines serving the Airport and other tenants to ensure a safe and pleasant experience for passengers. Projections indicate future passenger growth and new destinations. The Airport's strong financial position allows for flexibility to respond to the short-term problems created by an economic recession and changes in the industry. This financial position will also enable the Airport to plan for long term facility needs and redevelopment programs to meet the future growth in air travel and meet the needs of its airline partners and the Utah community.

CONCLUSION

The Airport continues to meet the challenges of a constantly changing air travel industry that is responding to current national and local economic conditions. While meeting these challenges, the Airport maintains its mission of managing, developing and promoting airports that provide quality transportation facilities and services, and a convenient travel experience. These facilities and services promote economic development by providing business and leisure travelers access to numerous domestic and international destinations.

See Notes to Financial Statements

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Notes to the Financial Statements
For the Year Ended June 30, 2024

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization – The Salt Lake City Department of Airports (Airport) is an enterprise fund of Salt Lake City Corporation (City). Airport operations include Salt Lake City International Airport, South Valley Regional Airport and Tooele Valley Airport.

Basis of Accounting – The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Airport's activities are accounted for similar to those often found in the private sector using the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net position, revenues and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred.

In accordance with the provisions of GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, the Airport has identified intangible assets consisting of aviation easements and water rights with indefinite lives that have been classified as non-amortized capital assets.

Annual Appropriated Budget – The Airport has a legally adopted annual budget which is not required to be reported.

Capital Assets – Capital assets, which consist of property and equipment, are recorded at cost when purchased. Cash outflows for the acquisition, construction, or equipping of capital projects, together with related design, architectural, and engineering fees, are capitalized with a capitalization threshold of \$20,000.

Depreciation of capital assets is computed using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings	10-50
Improvements	10-40
Equipment	3-20

No depreciation is provided on construction in progress until construction is complete and the asset is placed in service.

Capital Contributions – The Airport has received contributions and grants for aid in construction from various sources, principally from the Airport Improvement Program (AIP). Contributions and grants received for construction projects are recorded on an accrual basis as capital contributions. All other contributions and grants received for operating expenses are recorded as operating revenue.

Passenger Facility Charges – The Airport has received approval from the Federal Aviation Administration (FAA) to impose a passenger facility charge (PFC) of up to \$4.50 for each enplaned passenger that utilizes the Salt Lake International Airport. The charge is collected by all carriers and remitted to the Airport, less an \$0.11 per passenger handling fee. The proceeds from PFCs are restricted for use by the Airport for certain FAA approved projects and debt service on bonds used to fund PFC eligible projects per the Code of Federal Regulations (C.F.R) 158.13. PFC proceeds are recorded as non-operating revenues.

Customer Facility Charges – The Airport assesses a customer facility charge (CFC) to rental car concessionaires. Current charges, established by Salt Lake City ordinance, are \$5 per day with a limit of 12 days. The proceeds from CFCs are restricted for rental car facilities construction projects as part of the Terminal Redevelopment Project (TRP). CFC proceeds are recorded as non-operating revenues.

Restricted and Unrestricted Resources – Some Airport construction projects may contain more than one source of funding. The Airport is restricted by some sources to apply funds only to specific approved projects. The Airport's priority is to utilize Airport Improvement Program (AIP) funds, then PFC and CFC funds, any State grants, TSA grants, and if needed, Airport funds unless specific restrictions on any fund source require different prioritization.

Cash and Cash Equivalents – The Airport considers all highly liquid debt instruments (including restricted assets) purchased with an original maturity of three months or less to be cash equivalents.

Investments – Investments are recorded at fair value and include any accrued interest. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

Accounts Receivable – An allowance for uncollectible accounts receivable is established by charges to operations for amounts required to maintain an adequate allowance, in management's judgment, to cover anticipated losses from customer accounts. Such accounts are charged to the allowance when collection appears doubtful. Any subsequent recoveries are credited to the allowance account. As of June 30, 2024, the Airport does not anticipate any material losses on accounts receivable and no allowance has been established.

Loans Receivable – During the second half of FY 2020, construction of The New SLC was ongoing and the airlines and concessionaires began their buildouts in the new buildings. When the COVID-19 pandemic hit, many of the tenants were unable to continue funding their buildouts. To have the airlines and a certain number of concessions open and operating when the TRP and NCP were completed, the Airport loaned funds to tenants to complete the buildouts. The Airport continued to loan funds through December 2020. These funds will be repaid by the end of 2025 except for loans to one tenant going through FY 2034.

Lease Receivable - Lessor – The Airport, as a lessor, recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions for leases held as investments, certain regulated leases, short-term leases, and leases that transfer ownership of the underlying asset. The lease receivable is measured at the present value of the lease payments expected to be received during the lease term. The deferred inflow of resources should be measured as the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods.

Subscription Asset – The Airport recognizes a subscription asset at the commencement of the subscription term, with certain exceptions for short-term contracts. The subscription asset is measured as the initial measurement of the subscription liability plus the capitalizable initial implementation costs. A subscription asset should be amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT Asset and the Airport uses the straight-line method of amortization.

Subscription Liability – Subscription liabilities represent the Airport’s obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. Please see Note 12 for more details.

Capitalization of Interest Costs – Previously, net interest costs incurred during the construction of the TRP as well as the NCP were capitalized as part of the historical costs of acquiring these assets. The interest earned on investments acquired with proceeds from tax-exempt borrowing (where such borrowings are restricted to the acquisition of the assets) was offset against the related interest costs in determining either the amount of interest to be capitalized or limitations on the amount of interest costs to be capitalized. Interest is not capitalized on construction costs funded by government grants, PFCs, or CFCs. Interest expense related to construction is expensed as incurred.

Total interest expense was approximately \$143.0 million and \$117.3 million for the years ended June 30, 2024 and 2023, respectively, while no interest was capitalized as part of the cost of constructed assets in either year.

Bond Discounts and Premiums – Bond discounts and premiums are deferred and amortized over the term of the bonds using the effective interest rate method. Bond discounts and premiums are presented as a reduction or addition to the face amount of the bonds payable.

Noise Mitigation Costs – Certain costs incurred in connection with the Airport’s noise mitigation program have been capitalized as part of land.

Pollution Remediation Obligations – In FY 2010, the Airport recorded operating expense and a future liability obligation of \$191 thousand associated with two pollution remediation sites, both associated with leaking underground fuel tanks from the early 1990s. In FY 2015, the Airport recorded additional operating expenses and future liability obligations of \$112 thousand for some additional leaking underground fuel tanks. Since 2010, the Airport has incurred \$183 thousand in costs for monthly monitoring at both sites. The liability recorded as of June 30, 2024 and 2023 is \$121 thousand. The remainder of the liability is for future years’ ground water monitoring at the sites. Estimates of the expense and liability were based on the cost of the equipment upgrades as well as cost of a contract negotiated with an outside contractor for future monitoring. The potential exists for changes in these estimates, and both costs and future liabilities will be adjusted if necessary in future periods. The Airport is self-insured for incidents of this magnitude, and no insurance or other recoveries are anticipated.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

Reclassifications – Certain amounts previously reported have been reclassified in order to be consistent with the current year presentation.

Deferred Outflows and Deferred Inflows – In addition to assets, financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

Revenue and Expense Recognition – Revenue for services is recognized at the time the service is performed. Revenues from airlines, concessions, rental cars and parking are reported as operating revenues. Revenue transactions which are capital, financing, or investing related are reported as non-operating revenues. All expenses related to operating the Airport are reported as operating expenses. Interest expense, financing costs, and contributions of capital assets are reported as non-operating expenses.

Pensions – For purposes of measuring the net pension liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from the URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Recent Accounting Pronouncements – In June 2022, the GASB issued Statement No. 100 *Accounting Changes and Errors – An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this statement are effective for reporting periods beginning after June 15, 2023. Earlier application is encouraged. The adoption of this accounting standard will not have a significant impact on the Airport's financial statements.

In June 2022, the GASB issued Statement No. 101 *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2023. Earlier application is encouraged. The Airport is currently evaluating the impact of this statement on the financial statements when implemented.

In December 2023, the GASB issued Statement No. 102 *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. The requirements of this statement are effective for reporting periods beginning after June 15, 2024. Earlier application is encouraged. The Airport is currently evaluating the impact of this statement on the financial statements when implemented.

In April 2024, the GASB issued Statement No. 103 *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this statement are effective for reporting periods beginning after June 15, 2025. Earlier application is encouraged. The Airport is currently evaluating the impact of this statement on the financial statements when implemented.

NOTE 2 – DEPOSITS AND INVESTMENTS

Cash and cash equivalents are comprised of the following as of June 30, 2024 and 2023 (amounts in thousands):

	2024	2023
	Fair Value	Fair Value
Deposits		
Petty Cash	\$ 1	\$ 1
Unrestricted cash in the City's pooled cash account	(19,657)	(17,504)
Utah State Treasurer's Investments Pool	562,720	382,157
US Bank Account	119,077	-
Bank operating accounts	3,034	6,310
Total	\$ 665,175	\$ 370,964

The Airport maintains funds in the City's pooled cash account. The Airport receives from or pays to the City an allocation of interest income or expense based upon its balance in the pooled cash account. Utah State Treasurer's Investment Pool balances reported in the Airport's Statement of Net Position include a write up of \$4.4 million and \$1.4 million in FY 2024 and 2023, respectively, to the fair market value. The Airport's share of the State's investment pool is based on the amount invested.

It is the policy of the City to invest public funds in accordance with the principles of sound treasury management and in compliance with state and local laws, regulations, and other policies governing the investment of public funds, specifically, according to the terms and conditions of the Utah State Money Management Act of 1974 and Rules of the State Money Management Council as currently amended (Act) and the City's own written investment policy. The City may place Airport money in investments/deposits authorized by the Money Management Act (U.C.A. 51-7-11). In general these investments may be placed in the Utah State Public Treasurer's Investment Pool (Pool) subject to restrictions specified in the Act. The Utah Money Management Council oversees the Pool and works in close partnership with the Treasurer's Office, The Attorney General's office, the Utah Department of Financial Institutions and the State of Utah's Division of Securities to oversee public deposits and investments to ensure the safety of public funds in Utah.

Deposits

Custodial Credit Risk – As of June 30, 2024 and 2023, the Airport had deposits with qualified depositories in accordance with the Utah Money Management Act totaling \$6.7 and \$6.3 million. Of these amounts, \$500 thousand was covered by federal depository insurance. The remaining balances of \$6.2 and \$5.8 million was uninsured and uncollateralized. The Commissioner of Financial Institutions assigns a public funds allotment to each qualified depository and monitors public funds held monthly. Local government deposits and repurchase agreements up to the allotment are not required by state law to be insured or delivered to the public treasurer. The Airport's deposits do not exceed the public funds allotment.

Investments

Credit Risk – State law requires that City funds, of which the Airport funds are part, be deposited with a "qualified depository" as defined by the Act. "Qualified depository" includes any depository institution which has been certified by the Utah State Commissioner of Financial Institutions as having met the requirements as defined in Rule 11 of the Utah Money Management Act. Rule 11 establishes the formula for determining the amount of public funds which a qualified institution may accept. City policy provides that not more than 25% of total City funds or 25% of the qualified depository's allotment, whichever is less, may be invested in any one qualified depository. No more than 20% of total City funds may be invested in any one certified out-of-state financial institution.

The City's investment policies are governed by state statutes. In addition, the City has its own written investment policies. City funds, of which the Airport funds are part, are invested only in the following: (1) negotiable or nonnegotiable deposits of qualified depositories (see definition of qualified depository under "Deposits" above); (2) repurchase agreements with qualified depositories or certified dealers, acting as principal for securities of the United States Treasury or other authorized investments, only if these securities are delivered to the custody of the City Treasurer or the City's safekeeping bank or are held by a qualified depository; (3) commercial paper which is rated P-1 by Moody's Investor Services or A-1 by Standard and Poor's, Inc., having a remaining term to maturity of 270 days or less. Commercial paper can be purchased directly from the issuer provided proper delivery and safekeeping procedures are followed with a qualified depository of the City Treasurer's safe-keeping bank or trust company; (4) bankers' acceptances that are eligible for discount at a federal reserve bank and which have a remaining term of maturity of 270 days or less; (5) negotiable certificates of deposit of \$100k or more which have a remaining term to maturity of 365 days or less; (6) obligations of the United States Treasury including United States Treasury bills, United States Treasury notes, and United States Treasury bonds; (7) obligations issued by or fully guaranteed as to principal and interest by the following agencies or instrumentalities of the United States in which a market is made by a primary reporting government securities dealer: Federal Home Loan Bank (FHLMC), Federal Farm Credit Bank, Federal National Mortgage Association (FNMA); and (8) the Utah State Public Treasurer's Investment Pool.

Investment interest rate risk - The risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The City currently has no policy regarding investment interest rate risk. The Utah State Public Treasurer's Investment Pool is not rated, and the average maturities of those investments are not known.

Custodial Credit Risk – A substantial portion of the Airport's funds were invested in the Utah State Treasurer's Investment Pool, a pooled investments account that does not qualify for any of the above categories. Oversight of the Utah State Treasurers Pool is internally managed by the Utah State Treasury Office, and the Utah Public Treasurer's Investment Fund was unrated as of June 30, 2024, by any outside agency. This amount has been adjusted to fair value and reflects the fair value of the plan assets.

Investments made with unspent PFC revenue are in accordance with FAA guidelines. In addition, the Airport invested funds in U.S. Agency notes and corporate securities. Custodial credit risk for investments is the risk that, in the event of a failure of the counter party, the Airport will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Of the \$223.6 million invested by the Airport in FY 2024, the entire amount was held in the Airport's name by the counterparty and was exposed to custodial credit risk. U.S. Agency notes are guaranteed by the federal government but are uninsured investments.

Fair Value of Investments

The Airport categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Airport has the following recurring fair value measurements as of June 30, 2024 and 2023;

- U.S. Agency securities of \$90.6 and \$49.6 million are valued using quoted market prices (Level 1 inputs)
- U.S. Treasury securities of \$97.8 and \$99.9 million are valued using quoted market prices (Level 1 inputs)

- Corporate bond securities of \$33.2 and \$47.5 million are valued using quoted market prices (Level 1 inputs)

The table below shows the maturities, quality ratings, and fair value of the Airport's investments (amounts in thousands).

Debt Securities	Quality Ratings	FY 2024 Fair Value	FY 2023 Fair Value	Maturities (in years)
U.S Agency Notes				
FNMA		\$ 9,716	\$ 5,178	1-5
FHLMC		80,880	44,447	1-5
US Treasury Notes		97,804	99,864	1-5
Corporate Bonds	A/BBB+	35,195	47,527	5+
		<u>\$ 223,595</u>	<u>\$ 197,016</u>	

NOTE 3 – RESTRICTED OR DESIGNATED CASH AND CASH EQUIVALENTS

Certain cash and cash equivalents are restricted or designated:

- As of June 30, 2024 and 2023, \$5.8 and \$6.7 million of PFC contributions are restricted for construction projects at the Airport under the PFC program requirements.
- As of June 30, 2024 and 2023, \$944 and \$888 thousand of CFC contributions are restricted for rental car construction projects at the Airport under the CFC program requirements.
- As of June 30, 2024 and 2023, \$119.1 and \$15.8 million of cash is restricted for the use of construction of the TRP and NCP projects.
- As of June 30, 2024 and 2023, \$151.5 and \$47.3 million of cash is restricted for debt service and capitalized interest.
- As of June 30, 2024 and 2023, \$26.6 and \$25.2 million of cash is restricted for rolling coverage.
- As of June 30, 2024 and 2023, \$37.5 and \$33.3 million is restricted for an operation and maintenance reserve fund, and \$5 million for a renewal and replacement reserve fund per the Airport Use Agreement effective July 1, 2014.

NOTE 4 – CAPITAL ASSETS

The following is a summary of transactions affecting capital assets for the year ended June 30, 2024 (amounts in thousands):

	Total		Total	
	June 30, 2023	Additions	Deletions	June 30, 2024
Capital Assets that are not depreciated:				
Land	\$ 113,216	\$ 225	\$ -	\$ 113,441
Construction in Progress	988,017	483,637	(571,683)	899,971
Total Capital Assets that are not being depreciated	1,101,233	483,862	(571,683)	1,013,412
Capital Assets that are depreciated:

Total Capital Assets, net	\$ 3,735,246	\$ 557,442	\$ (228,597)	\$ 4,064,091	

Depreciation and amortization expense for FY 2023 was \$148.5 million.

See Note 11 for more information on the subscription asset.

NOTE 5 – COMMITMENTS AND CONTINGENCIES

At June 30, 2024, the Airport was committed to contractors and vendors for approximately \$795.4 million in conjunction with Airport construction programs.

The Airport receives significant financial assistance from the U.S. Government in the form of contracts and grants. Entitlement to these resources is generally contingent upon compliance with terms and conditions of the contract or grant agreements and applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all federal grants and contracts are subject to a financial and compliance audit under federal regulations. Disallowance as a result of compliance audits becomes a

liability of the Airport. In the opinion of management, the potential for a material liability because of future audit disallowance is remote.

There are various suits and claims pending against the Airport from third parties. In the opinion of legal counsel for the Airport and Airport management, these are not likely to have a material adverse impact on the Airport's financial statements.

NOTE 6 – PENSION PLANS

Plan Description – Eligible plan participants are provided with pensions through the Utah Retirement Systems. The Utah Retirement Systems are comprised of the following Pension Trust Funds:

- Public Employees Noncontributory Retirement System (Noncontributory System) is a multiple-employer, cost sharing, retirement system.
- Public Employees Contributory Retirement System (Contributory System) is a multiple-employer, cost sharing, retirement system.
- The Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple-employer retirement system.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System) is a multiple-employer cost-sharing public employee retirement system.
- Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) is a multiple-employer, cost-sharing, public employees retirement systems.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011 who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 E. 200 S, Salt Lake City, Utah 84102 or visiting the website: www.urs.org.

Benefits provided: URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

Summary of Benefits by System

System	Final Average Salary	Years of service required and/or age eligible for benefit	Benefit percentage per year of service	COLA**
Noncontributory System	Highest 3 Years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	2.0% per year all years	Up to 4%
Contributory System	Highest 5 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	1.25% per year to June 1975; 2.0% per year July 1975 to present	Up to 4%
Public Safety System	Highest 3 years	20 years age 60 10 years age 60 4 years age 65	2.5% per year up to 20 years; 2.0% per year over 20 years	Up to 2.5% or 4% depending on employer
Tier 2 Public Employees System	Highest 5 years	35 years any age 20 years age 60* 10 years age 62* 4 years age 65	1.5% per year all years	Up to 2.5%
Tier 2 Public Safety and Firefighter	Highest 5 years	25 years any age 20 years age 60* 10 years age 62*	1.5% per year all years	Up to 2.5%

* with actuarial reductions

** All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

Contribution Rate Summary

Contributions – As a condition of participation in Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2024 are as follows:

Utah Retirement Systems

	Tier 1 DB System			Tier 2 - DB Hybrid System				Tier 2 - 401(k) Option			
	Employee	Employer	ER 401(k)	Fund	Employee	Employer	ER 401(k)	Fund	Employee	Employer	ER 401(k)
Contributory System											
11 Local Government	6.00	13.96	-	111	-	17.77	0.18	211	-	7.95	10.00
Noncontributory System											
15 Local Government	-	17.97	-	111	-	16.01	0.18	211	-	6.19	10.00
Public Safety System											
Noncontributory											
44 Salt Lake City 2.5% Cola	-	46.71	-	122	2.59	38.28	-	222	-	24.28	14.00
Firefighters Retirement System											
32 Other Division B	16.71	6.34	-	132	2.59	14.08	-	232	-	0.08	14.00

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

Contribution Summary

For fiscal year ended June 30, 2024, the employer and employee contributions for the Airport to the Systems were as follows (amounts in thousands):

System	Employer Contributions	Employee Contributions
Noncontributory System	\$ 2,303	\$ -
Contributory System	66	28
Public Safety System	-	-
Tier 2 Public Employees System	3,559	-
Tier 2 Public Safety and Firefighter	-	-
Tier 2 Defined Contribution Only System	-	-
Tier 2 Defined Contribution Public Safety and Firefighter System	-	-
Total Contributions	\$ 5,928	\$ 28

Contributions reported are the URS Board approved required contributions by System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

Combined Pension Assets, Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions

At June 30, 2024 and 2023, the Airport reported a net pension asset of \$0 and a net pension liability of \$5.6 million and \$4.2 million, respectively. The following table shows the net pension asset and liability:

(Amounts in thousands)	Net Pension		Proportionate Share	Proportionate Share	Change
	Asset	Liability			
			December 31, 2023	December 31, 2022	
Noncontributory System	\$ -	\$ 3,771	1.63%	1.80%	-0.18%
Contributory System	-	296	3.58%	3.19%	0.40%
Public Safety System	-	-	0.00%	0.00%	0.00%
Tier 2 Public Employees System	-	1,532	0.90%	0.76%	0.14%
Tier 2 Public Safety and Firefighter System	-	-	0.00%	0.00%	0.00%
	<u>\$ -</u>	<u>\$ 5,599</u>			

	Net Pension		Proportionate Share	Proportionate Share	
(Amounts in thousands)	Asset	Liability	December 31, 2022	December 31, 2021	Change
Noncontributory System	\$ -	\$ 3,088	1.80%	1.81%	-0.01%
Contributory System	-	328	3.19%	2.82%	0.37%
Public Safety System	-	-	0.00%	0.00%	0.00%
Tier 2 Public Employees System	-	832	0.76%	0.69%	0.07%
Tier 2 Public Safety and Firefighter System	-	-	0.00%	0.00%	0.00%
	<u>\$ -</u>	<u>\$ 4,248</u>			

The net pension asset and liability were measured as of December 31, 2023, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2023 and rolled forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the years ended June 30, 2024 and 2023, the Airport recognized pension expense of \$4.5 million and \$3.7 million.

At June 30, 2024 and 2023, the Airport reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 30, 2024	
(Amounts in thousands)	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual	\$ 3,131	\$ 25
Changes in assumptions	2,009	1
Net difference between projected and actual earnings on pension plan investment	1,533	-
Changes in proportion and differences between contributions and proportionate share of contributions	195	50
Contributions subsequent to measurement	3,404	-
	<u>\$ 10,272</u>	<u>\$ 76</u>

	June 30, 2023	
(Amounts in thousands)	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual	\$ 1,328	\$ 33
Changes in assumptions	776	14
Net difference between projected and actual earnings on pension plan investment	2,470	-
Changes in proportion and differences between contributions and proportionate share of contributions	149	59
Contributions subsequent to measurement	3,203	-
	<u>\$ 7,926</u>	<u>\$ 106</u>

\$3.4 million and \$3.2 million, respectively, is reported as deferred outflows of resources related to pensions results from contributions made by the Airport prior to our fiscal year end, but subsequent to the measurement date of December 31, 2023 and 2022.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts in thousands):

<u>Year ended December 31,</u>	<u>Net Deferred Outflows (Inflows) of Resources</u>
2024	\$ 1,714
2025	1,518
2026	3,655
2027	(692)
2028	93
Thereafter	504

Noncontributory System Pension Expense, and Deferred Outflows and Inflows of Resources

For the years ended June 30, 2024 and 2023, the Airport recognized pension expense of \$2.6 million and \$1.4 million.

At June 30, 2024 and 2023, the Airport reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 30, 2024	
	Deferred Outflows of Resources	Deferred Inflows of Resources
(Amounts in thousands)		
Differences between expected and actual	\$ 2,641	\$ -
Changes in assumptions	1,132	-
Net difference between projected and actual earnings on pension plan investment	1,226	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	17
Contributions subsequent to measurement	1,520	-
	<u>\$ 6,519</u>	<u>\$ 17</u>
	June 30, 2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources
(Amounts in thousands)		
Differences between expected and actual	\$ 1,047	\$ -
Changes in assumptions	506	12
Net difference between projected and actual earnings on pension plan investment	2,037	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	24
Contributions subsequent to measurement	1,538	-
	<u>\$ 5,128</u>	<u>\$ 36</u>

\$1.5 million and \$1.5 million, respectively, reported as deferred outflows of resources related to pensions results from contributions made by the Airport prior to fiscal year end, but subsequent to the measurement date of December 31, 2023 and 2022.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts in thousands):

<u>Year ended December 31,</u>	<u>Net Deferred Outflows (Inflows) of Resources</u>
2024	\$ 1,257
2025	1,113
2026	2,681
2027	(508)
2028	68
Thereafter	370

Contributory System Pension Expense, and Deferred Outflows and Inflows of Resources

For the years ended June 30, 2024 and 2023, the Airport recognized pension expense of (\$22) thousand and \$699 thousand.

At June 30, 2024 and 2023, the Airport reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>(Amounts in thousands)</u>	<u>June 30, 2024</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual	\$ -	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investment	133	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	-
Contributions subsequent to measurement	42	-
	<u>\$ 175</u>	<u>\$ -</u>

<u>(Amounts in thousands)</u>	<u>June 30, 2023</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual	\$ -	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investment	98	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	-
Contributions subsequent to measurement	41	-
	<u>\$ 139</u>	<u>\$ -</u>

\$42 thousand and \$41 thousand, respectively, reported as deferred outflows of resources related to pensions results from contributions made by the Airport prior to fiscal year end, but subsequent to the measurement date of December 31, 2023 and 2022.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts in thousands):

<u>Year ended December 31,</u>	<u>Net Deferred Outflows (Inflows) of Resources</u>
2024	\$ 34
2025	30
2026	72
2027	(14)
2028	2
Thereafter	10

Tier 2 Public Employees Contributory Retirement System Pension Expense, and Deferred Outflows and Inflows of Resources

For the years ended June 30, 2024 and 2023, the Airport recognized pension expense of \$2.0 million and \$1.6 million.

At June 30, 2024 and 2023, the Airport reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 30, 2024	
	Deferred Outflows of Resources	Deferred Inflows of Resources
(Amounts in thousands)		
Differences between expected and actual	\$ 491	\$ 25
Changes in assumptions	877	1
Net difference between projected and actual earnings on pension plan investment	173	-
Changes in proportion and differences between contributions and proportionate share of contributions	195	33
Contributions subsequent to measurement	1,842	
	<u>\$ 3,578</u>	<u>\$ 59</u>
	June 30, 2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources
(Amounts in thousands)		
Differences between expected and actual	\$ 281	\$ 33
Changes in assumptions	270	2
Net difference between projected and actual earnings on pension plan investment	336	-
Changes in proportion and differences between contributions and proportionate share of contributions	149	36
Contributions subsequent to measurement	1,623	-
	<u>\$ 2,659</u>	<u>\$ 71</u>

\$1.8 million and \$1.6 million, respectively, reported as deferred outflows of resources related to pensions results from contributions made by the Airport prior to fiscal year end, but subsequent to the measurement date of December 31, 2023 and 2022.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts in thousands):

Year ended December 31,	Net Deferred Outflows (Inflows) of Resources
2024	\$ 423
2025	375
2026	902
2027	(171)
2028	23
Thereafter	125

Actuarial Assumptions

The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	3.5 – 9.5 percent, average, including inflation
Investment rate of return	6.85 percent, net of pension plan investment expenses, including inflation.

Mortality rates were adopted from an actuarial experience study dated January 1, 2023. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using 80% of the ultimate rates from the MP-2020 improvement assumption using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2023, valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Expected Return Arithmetic Basis		
	Target Asset Allocation	Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return
Equity securities	35.00%	6.87%	2.40%
Debt securities	20.00%	1.54%	0.31%
Real assets	18.00%	5.43%	0.98%
Private equity	12.00%	9.80%	1.18%
Absolute return	15.00%	3.86%	0.58%
Cash and cash equivalents	0.00%	0.24%	0.00%
Totals	100%		5.45%
	Inflation		2.50%
	Expected Arithmetic Nominal Return		7.95%

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50%, a real return of 4.35% that is net of investment expense.

Discount rate: The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate: The following table presents the proportionate share of the net pension liability calculated using the discount rate of 6.85%, as well as what the proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.85%) or 1-percentage-point higher (7.85%) than the current rate (amounts in thousands):

System	1% Decrease (5.85%)	Discount Rate (6.85%)	1% Increase (7.85%)
Noncontributory System	\$ 19,573	\$ 3,771	\$ (9,461)
Contributory System	1,790	296	(976)
Public Safety System	-	-	-
Firefighters System	-	-	-
Tier 2 Public Employees System	5,264	1,532	(1,362)
Tier 2 Public Safety and Firefighter System	-	-	-
Total	\$ 26,627	\$ 5,599	\$ (11,799)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

Defined Contribution Savings Plans

The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be

used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b), and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

The Airport participates in the following Defined Contribution Savings Plans with Utah Retirement Systems:

- *401(k) Plan
- *457(b) Plan
- *Roth IRA Plan
- *Traditional IRA Plan

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for the fiscal year ended June 30 were as follows (amounts in thousands):

	2024	2023	2022
401(k) Plan			
Employer Contributions	\$ 624	\$ 481	\$ 421
Employee Contributions	\$ 713	\$ 883	\$ 548
457 Plan			
Employer Contributions	-	-	-
Employee Contributions	452	421	333
Roth IRA Plan			
Employer Contributions	N/A	N/A	N/A
Employee Contributions	84	220	192
Traditional IRA Plan			
Employer Contributions	N/A	N/A	N/A
Employee Contributions	\$ 3	\$ 6	\$ 3

NOTE 7 – LONG-TERM DEBT

Changes in long-term debt for the year ended June 30, 2024, were as follows (amounts in thousands):

	2024				
	July 1, 2023	Additions	Retirements	June 30, 2024	Amounts due within one year
Long-term debt					
Series 2017A and 2017B bonds	\$ 978,515	\$ -	\$ -	\$ 978,515	\$ 8,020
Series 2018A and 2018B bonds	850,550	-	24,000	\$ 826,550	8,000
Series 2021A and 2021B bonds	902,995	-	1,815	\$ 901,180	9,045
Series 2023 bonds	-	600,000	-	\$ 600,000	-
Unamortized net premiums	383,527	56,221	18,995	\$ 420,753	-
Total long-term debt	<u>\$ 3,115,587</u>	<u>\$ 656,221</u>	<u>\$ 44,810</u>	3,726,998	<u>\$ 25,065</u>
Less current portion				(25,065)	
Noncurrent portion				<u>\$ 3,701,933</u>	

Changes in long-term debt for the year ended June 30, 2023 were as follows (amounts in thousands):

	2023				
	<u>July 1, 2022</u>	<u>Additions</u>	<u>Retirements</u>	<u>June 30, 2023</u>	<u>Amounts due within one year</u>

Series 2021A and 2021B bonds	904,570	-	1,575	902,995	1,815
Unamortized net premiums	401,814	-	18,287	383,527	-
Total long-term debt	<u>\$ 3,155,794</u>	<u>\$ -</u>	<u>\$ 40,207</u>	<u>3,115,587</u>	<u>\$ 25,815</u>
Less current portion				(25,815)	
Noncurrent portion				<u>\$ 3,089,772</u>	

The General Airport Revenue Bonds are not general obligations but are limited obligations of the Airport payable solely from and secured by a pledge of net revenues. Neither the full faith and credit nor the taxing power of the City, to the extent of net revenues, is pledged to the payment of the General Airport Revenue Bonds.

On March 1, 2021, the Airport entered into a short-term revolving credit facility in which the Airport can access up to \$300 million (line of credit) secured by one or more notes; which notes constitute subordinate obligations under the Subordinate Obligation Trust Indenture. The line of credit was terminated in September 2023.

The maturity dates, interest rates, and principal amounts outstanding as of June 30 are as follows (amounts in thousands):

Long-term Debt	Maturity	Interest Rate	Amount Outstanding	
			2024	2023
General Airport Revenue Bonds				
Series 2017A	Annually July 1, 2023-2047	5%	\$ 808,925	\$ 808,925
Series 2017B	Annually July 1, 2023-2047	5%	169,590	169,590
Series 2018A	Annually July 1, 2023-2048	5%-5.25%	729,855	753,855
Series 2018B	Annually July 1, 2023-2048	5%	96,695	96,695
Series 2021A	Annually July 1, 2023-2051	4%-5%	773,900	775,520
Series 2021B	Annually July 1, 2023-2051	4%-5%	127,280	127,475
Series 2023	Annually July 1, 2025-2053	5%-5.25%	600,000	-
Total revenue bonds			<u>3,306,245</u>	<u>2,732,060</u>
Net unamortized premiums			420,753	383,527
Less current portion			(25,065)	(25,815)
Total long-term debt			<u>\$ 3,701,933</u>	<u>\$ 3,089,772</u>

The Airport term bonds are subject to certain optional redemption provisions. In addition, the Airport bonds are subject to certain mandatory sinking fund redemption requirements.

Bond debt service requirements of the Airport for bonds payable to maturity as of June 30, 2024, are as follows (amounts in thousands):

	General airport revenue bonds	
	Principal	Interest
Year:		
2025	25,065	163,750
2026	53,670	161,781
2027	61,170	158,910
2028	71,670	155,589
2029	77,870	151,851
2030-2034	451,525	695,664
2035-2039	575,760	568,315
2040-2044	740,725	408,742
2045-2049	894,010	197,762
2050-2054	354,780	37,203
Total	\$ 3,306,245	\$ 2,699,567

On August 2, 2023, the Airport issued \$600,000,000 of Series 2023A (AMT) bonds. The proceeds of the bonds are being used to finance portions of the TRP and NCP. As of June 30, 2024, unspent Series 2023 bond proceeds was approximately \$119.1 million.

As of June 30, 2024, all the Series 2017, 2018, and 2021 bond proceeds have been spent.

NOTE 8 – OPERATING REVENUES

Airport operating revenues consist primarily of airline revenues, concession, and other rental revenues from parties who lease Airport facilities. Airport operating revenues consist of the following for the year ended June 30 (amounts in thousands):

	2024		2023	
	Amount	Percent of Total	Amount	Percent of Total
Airline revenues	\$ 169,529	51.9%	\$ 148,356	52.4%
Less: Airline revenue sharing	(15,297)	-4.7%	(13,844)	-4.9%
Concession and other rental revenues	169,537	51.9%	145,807	51.5%
State aviation fuel tax	2,889	0.9%	3,008	1.1%
Total operating revenues	\$ 326,658	100.0%	\$ 283,327	100.0%

Airline revenues consist of the following for the year ended June 30 (amounts in thousands):

	2024	2023
Terminal space rentals	\$ 82,650	\$ 72,642
Landing fees	75,114	67,341
Aircraft remain overnight fees	336	423
Support buildings	6,753	4,435
Fuel farm	2,731	1,811
Passenger boarding bridge fees	1,945	1,704
Total	\$ 169,529	\$ 148,356

Charges from terminal space rentals and landing fees for most airlines are determined by the Airport Use Agreements that permit the Airport to recover the airlines' share of the operating costs of the terminal and airfield as defined in the agreement. Under the agreement, terminal rent calculations are on a compensatory basis, recovering costs allocated to the occupied facilities. Landing fee calculations are residual based, recovering net cost after the credits of non-airline revenue. Revenue sharing is available to signatory airlines under this new agreement. The Airport provides revenue sharing of one dollar (\$1) per enplaned passenger, not to exceed 30% of net remaining operating revenue.

NOTE 9 – LEASES

Lessor Agreements

The Airport, as a lessor, recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions for leases of assets held as investments, certain regulated leases, short-term leases, and leases that transfer ownership of the underlying asset. As lessor, the asset underlying the lease is not derecognized. The lease receivable is measured at the present value of the minimum lease payments expected to be received during the lease term. The deferred inflow of resources should be measured at the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods.

For the purposes of the GASB No. 87 implementation, Airport Leases have been categorized as follows:

1. GASB No. 87 Leases - Included
2. GASB No. 87 Leases - Excluded Leases - Regulated
3. GASB No. 87 Leases - Excluded Leases - Short Term

GASB No. 87 - Included Leases

In accordance with GASB No. 87, the Airport recognizes a lease receivable and a deferred inflow of resources for leases the Airport categorizes as GASB No. 87 - Included. The Airport has grouped these leases into three categories: Concession Leases, Rental Car Leases, and Other Property Leases. Concession leases are leases for retail and food and beverage tenants at the Airport. Rental Car Leases are rental car agencies located at the Airport. Other Property Leases contain various leases for property and space located around the Airport. For the year ended June 30, 2024, the Airport reported lease revenue of \$43.1 million and interest revenue of \$5.1 million related to lease payments received. For the year ended June 30, 2023, the Airport reported lease revenue of \$40.6 million and interest revenue of \$5.1 million related to lease payments received.

GASB No. 87 - Included Leases for the year ended June 30, 2024, are summarized as follows (amounts in thousands):

	Beginning Lease Receivable	Receivable Additions	Implied Interest	Receivable Deduction	Annual Lease Revenue	Ending Lease Receivable
Concession Leases	\$ 81,965	\$ 1,586	\$ 1,982	\$ 10,507	\$ 12,490	\$ 73,044
Rental Car Leases	79,444	-	1,681	28,624	30,305	50,820
Other Property Leases	42,844	473	1,418	3,920	5,338	39,397
	<u>\$ 204,253</u>	<u>\$ 2,059</u>	<u>\$ 5,081</u>	<u>\$ 43,051</u>	<u>\$ 48,133</u>	<u>\$ 163,261</u>

As of June 30, 2024, the lease receivable is \$45.2 million and \$118.1 million for current and non-current assets, respectively.

Leases for the year ended June 30, 2023, are summarized as follows (amounts in thousands):

	Beginning Lease Receivable	Receivable Additions	Implied Interest	Receivable Deduction	Annual Lease Revenue	Ending Lease Receivable
Concession Leases	\$ 92,109	\$ -	\$ 2,213	\$ 10,145	\$ 12,358	\$ 81,965
Rental Car Leases	106,699	-	2,387	27,255	29,642	79,444
Other Property Leases	15,843	30,183	493	3,183	3,675	42,844
	<u>\$ 214,652</u>	<u>\$ 30,183</u>	<u>\$ 5,093</u>	<u>\$ 40,582</u>	<u>\$ 45,675</u>	<u>\$ 204,253</u>

As of June 30, 2023, the lease receivable is \$41.6 million and \$162.6 million for current and non-current assets, respectively.

Concession Leases

The new Airport terminal and Concourse A opened in September 2020 and Concourse B opened in October 2020. At this time, all existing concession contracts were cancelled and new contracts went into effect. The Airport has 26 food and beverage locations managed by 6 operators and 33 retail locations managed by 5 operators for Phase I. All food and beverage contracts are for ten years and retail contracts are for eight years. There are no options to extend. Each contract has a minimum annual guarantee (MAG) and a variable component (percentage of gross revenues). The tenant pays the higher amount of the MAG or variable amount. MAGs were set in each contract and increase to 90% of the prior year's rent, and they cannot be lower than the original MAG. Based on these terms, the minimum payment will always be the initial MAG. The lease receivable is calculated using minimum payments due each year over the course of contract. The variable component is not used to calculate the lease receivable.

Due to the COVID-19 pandemic, all MAG payments were suspended and only the percentage rent was required. The suspension of MAG's was held until enplaned passengers reached a rate of 90% of FY 2019 recorded enplaned passengers for three consecutive months. This was an agreement with tenants and the Airport and occurred in June, July, and August 2021. Payments of MAGs were reinstated in September 2021. Also due to the pandemic, the contract termination dates for all tenants were moved to expire at the end of eight or ten years from the time the MAG payments were reinstated. All retail contracts from Phase I expire on August 31, 2029, and all food and beverage contracts from Phase I expire on August 31, 2031.

During FY 2024, the Airport finished Phase II, which opened 22 additional gates on Concourse A. This new space added 7 retail locations and 12 food and beverage locations. The new retail contracts expire on October 31, 2031, and the food and beverage contracts expire on October 31, 2033. For the new contracts,

a MAG was not established at the beginning of the lease, but will be determined after approximately 2 years, so no lease receivable was recorded at the inception of the lease. The new contracts do contain a portion for support space and this resulted in an addition to the lease receivable of \$1.6 million in FY 2024.

For the year ended June 30, 2024, the lease receivable was reduced, and interest recognized of \$10.5 million and \$2.0 million, respectively. For the year ended June 30, 2023, the lease receivable was reduced, and interest recognized of \$10.1 million and \$2.2 million, respectively. The deferred inflow was also reduced by \$10.5 million and \$10.1 million in FY 2024 and FY 2023. The lease receivable for each contract was discounted to the net present value using the 30-year bond buyer index rate on the date of lease commencement or implementation date of the standard. The Airport uses the 30-year bond buyer index rate in its Airline Use Agreement to record the return on investment on the unamortized portion of capitalized assets received from the signatory airlines. This applies to all assets with any useful life. The Airport considered this rate to be the most appropriate for leases of Airport property to match the return received from the airlines.

For the year ended June 30, 2024 and 2023, the Airport received \$18.0 million and \$15.1 million of revenue from the variable component on top of the lease payments.

Future minimum lease payments are as follows (amounts in thousands):

	Principal	Interest
2025	\$ 10,941	\$ 1,748
2026	10,864	1,468
2027	11,036	1,189
2028	11,281	903
2029	11,583	611
2030-2034	15,689	730
2035-2038	1,649	77

Rental Car Leases

As part of construction of the new airport, new rental car facilities were built. In March 2016, the Airport entered into a new ten year agreement with seven rental car agencies. Each agreement includes the rental of counter and office space, parking stalls, quick turnaround (QTA) space, QTA common space, QTA, storage space, and remote service site space. All contracts expire on February 28, 2026, and there are no options to extend. Each contract has a MAG and a variable component (10% of gross revenues), in addition to the space rentals. The tenant pays the higher amount of the MAG or variable amount. MAGs were set in each contract and increase a minimum of 3% each year. The lease receivable is calculated using the contractual amounts for the space rental and minimum payments due for percentage rent each year over the course of contract. The variable component is not used to calculate the lease receivable.

For the year ended June 30, 2024, the lease receivable was reduced, and interest recognized of \$28.6 million and \$1.7 million, respectively. For the year ended June 30, 2023, the lease receivable was reduced, and interest recognized of \$27.2 million and \$2.4 million, respectively. The deferred inflow was also reduced by \$28.6 million and \$27.2 million in FY 2024 and FY 2023. The lease receivable was discounted to the net present value using the 30-year bond buyer index rate on July 1, 2021 (implementation date) of 2.53%.

For the year ended June 30, 2024 and 2023, the Airport received \$8.2 million and \$6.8 million of revenue from the variable component on top of the lease payments.

Future minimum lease payments are as follows (amounts in thousands):

	Principal	Interest
2025	\$ 30,048	\$ 941
2026	20,772	198

Other Property Leases

At implementation, the Airport had entered into several agreements to lease space inside the airport or property on airport grounds. These agreements include ground transportation booths, rooms for communication equipment, the weather service building, space to operate the hardstand consortium, land for the post office, land for the Delta MRT Center, land for the Delta Flight Operations Training Center and land for Boeing. The termination dates for these contracts range from May 2023 to May 2055, including all options expected to be exercised. The lease receivable is calculated using the contractual amounts for the space rental.

In FY 2024, the Airport entered into two new lease agreements adding \$473 thousand to the lease receivable. These new agreements expire between April 2026 and November 2044.

For the year ended June 30, 2024, the lease receivable was reduced, and interest recognized of \$3.9 million and \$1.4 million, respectively. For the year ended June 30, 2023, the lease receivable was reduced, and interest recognized of \$3.2 million and \$493 thousand, respectively. The deferred inflow was also reduced by \$3.9 million and \$3.2 million in FY 2024 and FY 2023. The lease receivable for each contract was discounted to the net present value using the 30-year bond buyer index rate on the date of lease commencement or implementation date of the standard.

Future minimum lease payments are as follows (amounts in thousands):

	Principal	Interest
2025	\$ 4,214	\$ 1,312
2026	2,704	1,203
2027	2,217	1,124
2028	2,367	1,045
2029	2,518	960
2030-2034	12,603	3,349
2035-2039	2,362	2,174
2040-2044	2,414	1,771
2045-2049	2,873	1,272
2050-2054	4,186	608
2055	939	18

GASB No. 87 Excluded Leases – Regulated

In accordance with GASB No. 87, the Airport does not recognize a lease receivable and a deferred inflow of resources for regulated leases. Regulated leases are certain leases that are subject to external laws, regulations, or legal rulings, e.g. the U.S. Department of Transportation and the Federal Aviation Administration, regulated aviation leases between airports and air carriers and other aeronautical users. Regulated leases include Airline Use Agreement Signatory Airlines, Cargo Facilities, Corporate Hangars, Flight School and Skydiving, Fixed Based Operator, FAA Space Rental, Fuel System, National Guard, and the Delta and Skywest Maintenance Hangars, as follows:

Airline Use Agreement Signatory Airlines

The rights, services and privileges, including the lease of preferentially-assigned gates, an airline has in connection with the use of the airport and its facilities is addressed in the Airline Use Agreement (AUA). By definition, the AUA is considered a regulated lease and does not recognize a receivable and corresponded deferred inflow of resources. The Airport and certain airlines entered into the original ten year AUA that became effective July 1, 2014 and expires on June 30, 2024. Please see Management's Discussion and Analysis for more information on the updated Airport Use Agreement.

The Airport has entered into an AUA with eight (8) passenger airlines and recognized terminal, cargo ramp, federal inspection services (FIS) facilities, and passenger boarding bridge lease revenue of \$82.6 million, \$271 thousand, \$3.1 million, and \$1.9 million, respectively, for the year ended June 30, 2024.

Revenue for the same areas for the year ended June 30, 2023, was \$72.6 million, \$260 thousand, \$2.7 million, and \$1.7 million, respectively.

Due to the variable nature of the above revenues from year-to-year, expected future minimum payments are indeterminable.

Cargo Facilities

The Airport has entered into month-to-month agreements with 7 companies for space in cargo facilities located at the airport. Revenue for FY 2024 and FY 2023 from these companies was \$1.1 million and \$1.0 million, respectively.

The Airport has entered into agreements with 8 additional companies for space in cargo facilities. The termination dates range from February 28, 2023 to November 8, 2045. Only one contract has options to extend. They are on the second of 4 one-year extensions, all of which are anticipated to be used. Revenue for FY 2024 and FY 2023 from these companies was \$903 thousand and \$883 thousand, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 509
2026	487
2027	487
2028	487
2029	316
2030-2034	1,070
2035-2039	1,070
2040-2044	1,070
2045-2046	114

Corporate Hangars

The Airport has entered into several agreements with companies for corporate hangars and the associated ground rent. Termination dates for these contracts range from April 2023 to September 2048. There are no extension options for corporate hangars. Revenue for FY 2024 and FY 2023 from corporate hangars was \$904 thousand and \$808 thousand, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 473
2026	455
2027	339
2028	256
2029	228
2030-2034	1,025
2035-2039	1,084
2040-2044	873
2045-2049	407

Flight School and Skydiving

The Airport has entered into one agreement for skydiving and five agreements with flight schools and training. Termination dates for these contracts range from March 2023 to April 2025. Any options in the contracts are expected to be used. Revenue for FY 2024 and FY 2023 from flight schools and skydiving was \$133 thousand and \$132 thousand, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 39

Fixed Based Operator

The Airport has entered into agreements with two fixed based operators to manage general aviation. Termination dates for these contracts are June 2025 and September 2042. There are no extension options for fixed based operators. Revenue for FY 2024 and FY 2023 from fixed based operators was \$1.7 million and \$1.6 million, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 990
2026	892
2027	892
2028	955
2029	1,044
2030-2034	4,874
2035-2039	2,442
2040-2043	1,135

FAA Space Rental

The Airport has entered into an agreement with the FAA for space for equipment. The lease expires on September 30, 2028, and there are no options to extend. Revenue for FY 2024 and FY 2023 from this lease was \$9 thousand.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 9
2026	9
2027	9
2028	9
2029	2

Fuel System

The Airport has entered into an agreement with a company to lease and operate the fuel system. The lease expires on December 31, 2040, with an option to extend 5 years. The option is expected to be exercised. Revenue for FY 2024 and FY 2023 from the fuel system lease was \$3.7 million and \$2.3 million, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 3,611
2026	3,620
2027	3,630
2028	3,639
2029	3,649
2030-2034	18,406
2035-2039	18,703
2040-2041	5,674

National Guard

The Airport has entered into agreements with the Utah Air National Guard at Salt Lake City International Airport and the Utah National Guard at South Valley Regional Airport. Termination dates for these contracts are December 31, 2028 and December 31, 2045, respectively. There are no extension options. Revenue for FY 2024 and FY 2023 from these contracts was \$157 thousand.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 157
2026	157
2027	157
2028	157
2029	122
2030-2034	431
2035-2039	431
2040-2044	431
2045-2049	129

Delta and Skywest Maintenance Hangars

The Airport has entered into agreements with Delta and Skywest for their maintenance hangars and associated ground rent. Delta's agreement expired on May 31, 2023, and a new 10-year agreement was entered into on June 1, 2023, expiring on May 31, 2033, with no option to extend. Skywest's agreement expires on November 18, 2027, with an option to extend 10 years. As of October 16, 2024, it is unknown if Skywest will exercise the option. Revenue for FY 2024 and FY 2023 from the maintenance hangars was \$4.6 million and \$3.1 million, respectively.

Future minimum lease payments are as follows (amounts in thousands):

2025	\$ 4,058
2026	4,101
2027	4,144
2028	3,814
2029	2,771
2030-2033	8,267

GASB No. 87 Excluded Leases – Short-term

In accordance with GASB No. 87, the Airport does not recognize a lease receivable and a deferred inflow of resources for leases short-term leases. Short-term leases are certain leases that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any options to extend, regardless of their probability of being exercised. Month-to-month leases are considered short-term.

On various dates, the Airport entered into month-to-month agreements with several offsite rental car agencies. Revenue of \$3.7 million and \$2.8 million was recorded in the year ended June 30, 2024 and 2023, respectively.

On various dates, the Airport entered into several month-to-month agreements for Airport property and land. Revenue of \$4.0 million and \$2.8 million was recorded in the year ended June 30, 2024 and 2023, respectively.

Lessee Agreements

The Airport leases a building near the airport for ground transportation operations and inspections. The lease began on December 1, 2007 and expired December 31, 2022. An amendment to extend the agreement was signed in August 2022 for an additional 5 years, expiring on December 31, 2027. During FY 2024, the Airport paid principal on the lease and reduced the lease liability by \$88 thousand, recorded implied interest expense of \$17 thousand, and recorded depreciation expense of \$101 thousand. During FY 2023, the Airport paid principal on the lease and reduced the lease liability by \$98 thousand, recorded implied interest expense of \$10 thousand, and recorded depreciation expense of \$105 thousand.

Future minimum lease payments are as follows (amounts in thousands):

	Principal	Interest
2025	\$ 96	\$ 13
2026	105	9
2027	114	5
2028	60	1

NOTE 10 – DEFERRED INFLOWS OF RESOURCES - LEASES

In accordance with GASB No. 87, the Airport recognizes a lease receivable and a deferred inflow of resources for leases the Airport categorizes as GASB No. 87 - Included. For these leases, the Airport is reporting deferred inflows of \$163.3 million as of June 30, 2024 and \$204.3 million as of June 30, 2023, and reported deferred lease revenue of \$43.1 million and \$40.6 million, respectively.

Deferred inflows for leases for the year ended June 30, 2024, are summarized below:

	Beginning Deferred Inflows	Additional Deferred Inflows	Deferred Revenue Recognized	Ending Deferred Inflows
Concession Leases	\$ 81,965	\$ 1,586	\$ (10,507)	\$ 73,044
Rental Car Leases	79,444	-	(28,624)	50,820
Other Property Leases	42,844	473	(3,920)	39,397
	<u>\$ 204,253</u>	<u>\$ 2,059</u>	<u>\$ (43,051)</u>	<u>\$ 163,261</u>

Deferred inflows for leases for the year ended June 30, 2023, are summarized below:

	Beginning Deferred Inflows	Additional Deferred Inflows	Deferred Revenue Recognized	Ending Deferred Inflows
Concession Leases	\$ 92,109	\$ -	\$ (10,145)	\$ 81,965
Rental Car Leases	106,699	-	(27,255)	79,444
Other Property Leases	15,843	30,183	(3,183)	42,844
	<u>\$ 214,652</u>	<u>\$ 30,183</u>	<u>\$ (40,582)</u>	<u>\$ 204,253</u>

NOTE 11 – SUBSCRIPTION ASSET

During FY 2023, the Airport implemented GASB Statement No. 96 – *Subscription-Based IT Arrangements*. The Airport recognizes a right-to-use asset (subscription asset) at the commencement of the subscription term, with certain exceptions for short-term contracts. The subscription asset is measured as the sum of the following: (a) the amount of the initial measurement of the subscription liability, (b) payment associated with the contract made to the vendor at the commencement of the subscription term, and (c) capitalizable initial implementation costs.

The Airport recognized seven contracts as subscription-based IT arrangements (SBITAs). They include contracts for map solutions in the SLCDA app and website, passenger boarding bridge maintenance systems, a DBE database, an enterprise asset management system, flight data for Airport Operations, and flight information for public viewing. All contracts but one have options to extend, and all are intended to be used. Expiration dates (including anticipated options to extend) range from December 2024 to June 2030. Rates change based on terms in each contract and rate changes are considered in the calculation of the subscription liability. There are no variable components related to any of the contracts. On July 1, 2022 (implementation date), the Airport recognized a subscription asset of \$3.5 million.

For the year ended June 30, 2024, the Airport added \$110 thousand to the subscription asset and recognized amortization expense of \$1.2 million. On June 30, 2024, the subscription asset was \$3.8 million. For the year ended June 30, 2023, the Airport added \$219 thousand to the subscription asset and recognized amortization expense of \$1.1 million. On June 30, 2023, the subscription asset was \$3.7 million.

The subscription asset for the year ended June 30, 2024, is summarized as follows (amounts in thousands):

	Beginning Subscription Asset	Additions	Deletions	Ending Subscription Asset
Subscription Asset	\$ 3,697	\$ 110	\$ -	\$ 3,807
Accumulated Amortization	1,068	1,187	-	2,255
Net Subscription Asset	<u>\$ 2,629</u>	<u>\$ (1,077)</u>	<u>\$ -</u>	<u>\$ 1,552</u>

The subscription asset for the year ended June 30, 2023, is summarized as follows (amounts in thousands):

	Beginning Subscription Asset		Additions	Deletions		Ending Subscription Asset	
Subscription Asset	\$	3,478	\$	219	\$	-	\$ 3,697
Accumulated Amortization		-		1,068		-	1,068
Net Subscription Asset	\$	3,478	\$	(849)	\$	-	\$ 2,629

NOTE 12 – SUBSCRIPTION LIABILITY

In accordance with GASB No. 96, the Airport recognizes a subscription liability at the commencement of the subscription term. The subscription liability is measured at the present value of subscription payments expected to be made during the subscription term.

All contracts with a recognized subscription asset also have a corresponding subscription liability and the same contract terms apply. On July 1, 2022 (implementation date), the Airport recognized a subscription liability of \$2.0 million.

For the year ended June 30, 2024, the subscription liability was reduced, and interest expense recognized of \$610 thousand and \$49 thousand, respectively. For the year ended June 30, 2023, the subscription liability was reduced, and interest expense recognized of \$566 thousand and \$66 thousand, respectively. The subscription liability was discounted to the net present value using the 30-year bond buyer index rate on the date of lease commencement or implementation date of the standard. The Airport uses the 30-year bond buyer index rate in its Airline Use Agreement to record the return on investment on the unamortized portion of capitalized assets received from the signatory airlines. This applies to all assets with any useful life. The Airport considered this rate to be the most appropriate for subscription-based contracts. The other rate available to the Airport is our borrowing rate on bond issuances. Using that rate would yield an immaterial difference from the bond buyer index rate.

The subscription liability for the year ended June 30, 2024, is summarized as follows (amounts in thousands):

	Beginning Subscription Liability	Additions	Implied Interest Expense	Liability Deduction	Annual Subscription Payment	Ending Subscription Liability
Subscription Liability	\$ 1,453	\$ 109	\$ 49	\$ 611	\$ 660	\$ 952

The subscription liability for the year ended June 30, 2023, is summarized as follows (amounts in thousands):

	Beginning Subscription Liability	Additions	Implied Interest Expense	Liability Deduction	Annual Subscription Payment	Ending Subscription Liability
Subscription Liability	\$ 2,018	\$ -	\$ 66	\$ 565	\$ 630	\$ 1,453

Future minimum subscription payments are as follows (amounts in thousands):

	Principal	Interest
2025	\$ 544	\$ 26
2026	143	12
2027	85	9
2028	59	6
2029	59	4
2030	62	1

NOTE 13 – LONG-TERM LIABILITY ACTIVITY

Long-term liability activity for the year ended June 30, 2024, was as follows (amounts in thousands):

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Accrued compensation	\$ 7,463	\$ 6,463	\$ (8,032)	\$ 5,894	\$ 1,184
Net pension liability	4,248	1,351	-	5,599	-
Other long-term liabilities	29,571	18,346	(11,454)	36,463	11,977
Total long-term liabilities	\$ 41,282	\$ 26,160	\$ (19,486)	\$ 47,956	\$ 13,161

Long-term liability activity for the year ended June 30, 2023, was as follows (amounts in thousands):

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Accrued compensation	\$ 6,403	\$ 6,966	\$ (5,906)	\$ 7,463	\$ 2,384
Net pension liability	-	4,248	-	4,248	-
Other long-term liabilities	20,809	11,470	(2,708)	29,571	15,007
Total long-term liabilities	\$ 27,212	\$ 22,684	\$ (8,614)	\$ 41,282	\$ 17,391

Other long-term liabilities consist of \$120 thousand in FY 2024 and \$120 thousand in FY 2023 for pollution remediation, \$36.2 million in FY 2024 and \$29.3 million in FY 2023 for contract retainage on the Airport's construction contracts for The New SLC, and \$149 thousand in FY 2024 and \$152 thousand in FY 2023 for advance deposits on aircraft hangars. The current portion is the amount due within one year and is estimated by the Airport based on historical collections.

NOTE 14 – INTER-GOVERNMENTAL CHARGES

The City provides various services to the Airport, including data processing, investing, financial services, police, and firefighting services. Starting on January 1, 2019, the Airport Police combined with Salt Lake City Police, and all wages, benefits, and operating expenses will be charged as inter-governmental charges going forward. These expenses have been included in operating expenses and are as follows for the year ended June 30 (amounts in thousands):

	2024	2023
General and administrative charges	\$ 7,674	\$ 6,433
Aircraft rescue and fire fighting services	7,099	7,166
Police services	11,950	10,636
Total	\$ 26,723	\$ 24,235

NOTE 15 – MAJOR CUSTOMER

The Airport received approximately \$86.1 million (26.3%) of its operating revenue during 2024 and \$71.1 million (25.1%) during 2023 from rentals and services provided to one airline.

NOTE 16 – SUBSEQUENT EVENTS

In September 2024, the Airport entered into a short-term revolving credit facility in which the Airport can access up to \$300 million (line of credit) secured by one or more notes, which notes constitute subordinate obligations under the Subordinate Obligation Trust Indenture.

*Contributions in Tier 2 include an amortization rate to help fund the unfunded liabilities in the Tier 1 systems. Tier 2 systems were created effective July 1, 2011

** In accordance with paragraph 81.a of GASB 68, employers will need to disclose a 10-year history of their contributions in their RSI. The 10-year schedule will need to be built prospectively. The schedule above is for the nine years currently available.

SALT LAKE CITY DEPARTMENT OF AIRPORTS
Notes to Required Supplementary Information
For Fiscal Year Ended June 30, 2024

Changes in Assumptions:

Changes include updates to the mortality improvement assumption, salary increase assumption, disability incidence assumption, assumed retirement rates, and assumed termination rates, as recommended with the January 1, 2023 actuarial experience study.

STATISTICAL SECTION (Unaudited)

STATISTICAL SECTION

(Unaudited)

This part of the Salt Lake City Department of Airport's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information states about the Airport's overall financial health.

Contents

Schedules

Financial Trends

S2-S6

This schedule contains trend information to help the reader understand how the Airport's financial performance and well-being have changed over time.

Debt Capacity

S7-S8

This schedule presents information to help the reader assess the affordability of the Airport's current levels of outstanding debt and the compliance with minimum debt ratios.

Demographic and Economic Information

S9-S12

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Airport's financial activities take place.

Insurance

S13

This schedule contains the various insurance policies and their terms to help the reader understand the insurance coverage of the Airport.

Operating Information

S14-S25

These schedules provide contextual information about the Airport's operations and resources to help readers use financial statement information to understand and assess the Airport's economic condition.

Annual Debt Service Coverage
As of June 30
(Amounts in Thousands)

	<u>2024</u>	<u>2023</u>	<u>2022</u>
Revenues	\$326,658	\$283,327	\$258,945
Less Operation and Maintenance Expenses of the Airport System*	<u>(147,312)</u>	<u>(134,944)</u>	<u>(100,937)</u>
Net Revenues	179,346	148,383	158,008
Plus Transfers	<u>-</u>	<u>-</u>	<u>10,462</u>
Total Available for Debt Service	<u>\$179,346</u>	<u>\$148,383</u>	<u>\$168,470</u>
Annual Debt Service on Outstanding Bonds**	<u>\$ 95,194</u>	<u>\$ 69,203</u>	<u>\$ 63,304</u>
Annual Debt Service Coverage	188%	214%	266%

* Operating expenses are net of CARES, CRRSSA, or ARPA Funds

** Annual Debt Service is net of pledged PFC's to pay debt service

Note: The Airport's senior bond indenture requires that the Airport's net revenues (revenues minus operating and maintenance expense) plus other available funds, as defined in the senior Indenture, be sufficient to provide debt service coverage of 125% of the annual debt service requirement on senior bonds; and the Airport's subordinate bond indenture requires that the Airport's subordinate revenues (revenues minus operating and maintenance expenses minus senior bond debt service and reserve deposits) plus other available funds, as defined in the subordinate Indenture, be sufficient to provide debt service coverage of 115% of the annual debt service requirement on subordinate obligations.

Note: This will be a 10 year schedule, like the other statistical schedules and will be build prospectively. The schedule above is for the three years currently available.

Salt Lake City, Utah 84122

Re: Report of the Airport Consultant, Salt Lake City, Utah, Airport Revenue Bonds, Series 2025A (AMT),
Series 2025B (Non-AMT), Salt Lake City International Airport

Dear Mr. Wyatt:

Landrum & Brown, Incorporated (L&B), in association with Airmac LLC, is pleased to submit this Report of the Airport Consultant (Report) in connection with the proposed issuance by Salt Lake City, Utah, of its Airport Revenue Bonds, Series 2025A (AMT) and Series 2025B (Non-AMT), herein referred to as the Series 2025 Bonds. This independent Report has been prepared for the Salt Lake City Department of Airports (Department) to support its planned issuance of the Series 2025 Bonds and is intended to be included in the Official Statement for the Series 2025 Bonds as Appendix B, Report of the Airport Consultant. All capitalized terms in this Report are used as defined in the Official Statement relating to the Series 2025 Bonds or in the Master Indenture, except as otherwise defined herein.

Salt Lake City International Airport (Airport) is owned by Salt Lake City, Utah (City) and operated by the City through the Department. The Mayor of the City, the City Council and an 11-member advisory board (Airport Advisory Board) of citizen volunteers oversee its affairs. The Airport Advisory Board provides advice with respect to broad matters of policy affecting the operation of the Airport System, while the Mayor and City Council oversee the Department's affairs. The Airport comprises approximately 9,400 acres of land in Salt Lake County, Utah. It is located approximately five miles west of the City's downtown. The Airport is generally isolated from other airport competition and is the primary commercial air passenger and cargo service facility for the Salt Lake Valley, the State of Utah, and portions of southwestern Wyoming, southeastern Idaho, northeastern Nevada, and northwestern Colorado. The Department also operates two general aviation airports: South Valley Regional Airport in West Jordan and Tooele Valley Airport in Erda (Auxiliary Airports). These airports serve the general aviation needs of corporate and private aircraft in the region. The Department operates the Airport and the Auxiliary Airports together as an Airport System.

The day-to-day operations of the Airport System are managed by the Executive Director, who is appointed by and reports directly to the Mayor. The Executive Director leads the management staff of the Department along with the Department's Division Directors. Eight Directors are responsible for the following Divisions: Operations; Maintenance; Finance; Design and Construction Management; Planning and Environmental; Real Estate & Commercial Development; Communication and Marketing; and Information Technology. The executive team of the Department is a full-time staff of professional and technical personnel located at the Airport.

The New SLC

The Department broke-ground on the New SLC in calendar year (CY) 2014 and it has completely redeveloped the Airport's landside and terminal facilities and has significantly completed construction of its new airside concourses. Seventy-three of the 94 loading-bridge capable gates are complete and in-use, and the new airside concourse development is planned to be complete by late CY 2026. This redevelopment is comprised of two major capital programs known as the Terminal Redevelopment Program (TRP) and the North Concourse Program (NCP), as further described below. Collectively, these redevelopment programs are referred to as the New SLC. An overview of the TRP and the NCP is provided below, and additional details are contained in Chapter 3 of this Report.

The Terminal Redevelopment Program

The TRP replaced all of the former aged and functionally obsolete terminal complex, including the development of a consolidated terminal facility, an attached linear airside concourse (Concourse A), and landside facilities at the Airport. In addition, the TRP addressed seismic considerations, changes in the aviation industry and improved inherent operational inefficiencies of the former facilities. The TRP has been completed and was fully opened in October 2023. The total cost of the TRP was approximately \$2.83 billion and it has been fully expended.

Additional details on the TRP and its primary components are contained in Chapter 3 of this Report.

The North Concourse Program

The NCP consists of a 47-gate midfield concourse (Concourse B) and the development of an underground connecting tunnel from Concourse A. As of June 2025, 26 of the 47 gates on Concourse B are in operation along with the new central underground tunnel. The final phases of the NCP will add 21 additional gates, 10 of which are planned to be operational in October 2025, and the remaining 11 aircraft gates are planned to be open in October 2026. When completed, it is currently estimated that the NCP will cost approximately \$2.31 billion of which approximately 74% has already been spent as of January 31, 2025. Additional details on the NCP and its primary components are contained in Chapter 3 of this Report.

Airline Use Agreement

The City entered into a 10-year Airline Use Agreement ("AUA") with the Signatory Airlines operating at the Airport effective on July 1, 2014, the initial term of which would have expired on June 30, 2024. In CY 2023, Delta Air Lines (Delta) agreed to an additional amendment that modified certain provisions including extending the term of its AUA to June 30, 2044 with options to extend through June 30, 2054 (Second Amendment). Additionally, Alaska Airlines and Southwest Airlines have executed the Second Amendment with a term through June 30, 2044. The other Signatory Airlines, as identified below, have executed the Second Amendment with AUA terms through June 30, 2034. In addition to extending the term of the AUA, the Second Amendment updated and modernized various provisions of the AUA, including key business terms to bolster the Department's ability to fund the New SLC, generate additional cash flow for other capital development, and maintain financial stability as it has agreed to fund the fourth phase extension of the NCP. One key change to the AUA results in the mitigation of terminal vacancy risk to the Department as the Second Amendment establishes the airline share of the terminal requirement at 82% throughout its term as opposed to the ratio of space leased to the airlines. Revenue sharing with the Signatory Airlines has also been enhanced in the Second Amendment. Additional details on the AUA and Second Amendment are contained in Chapter 4 of this Report.

The current AUA and Second Amendment establish, among other things, procedures for setting and adjusting rentals, rates, fees and charges to be collected for the use of Airport facilities. As of the date of this Report, the Signatory Airlines at the Airport include Alaska Airlines, American Airlines, Delta, Frontier Airlines, Southwest Airlines, Spirit Airlines, and United Airlines. Together, the Signatory Airlines accounted for nearly 98% of enplaned passengers at the Airport in Fiscal Year (FY) 2024.¹

The AUA and Second Amendment govern airline use of certain Airport facilities, including Airfield, Terminal, Terminal Aircraft Aprons, baggage claim, ticket counters and gate areas and permits the Signatory Airlines to lease Exclusive Use Premises, Preferential Use Premises, and Joint Use Premises. Exclusive Use Premises generally include office space, storage areas, airline club lounges, and employee break rooms. Preferential Use Premises are Airport space, including holdroom areas and gates, ticket counters, and certain baggage makeup areas, leased to a Signatory Airline and to which the Signatory Airline has a higher and continuous priority of use over all other air carriers. Joint Use Premises generally include baggage claim areas and baggage makeup equipment and are shared with one or more other airlines. The AUA also contemplated the development of the TRP during the course of its term. Section 10.06 of the AUA specifies special provisions regarding the TRP including memorializing that the Signatory Airlines have approved and support the TRP. The NCP was not contemplated as part of the AUA; however, the Signatory Airlines approved the first three phases of the NCP in April 2016 and the fourth phase in late 2022.

The AUA also provides for extraordinary coverage protection that allows the Department to collect additional payments from the Signatory Airlines to satisfy the Rate Covenant set forth in the Master Indenture if the Department expects it will not meet the Rate Covenant in any FY. More information on the AUA and Second Amendment can be found in Chapter 4 of this Report.

Existing Bonds and Series 2025 Bonds

The Series 2025 Bonds are being issued pursuant to the Master Indenture and Fifth Supplemental Trust Indenture. As of July 2, 2025, the Department had approximately \$3.2 billion of debt outstanding consisting of the Series 2017 Bonds, the Series 2018 Bonds, the Series 2021 Bonds, and the Series 2023 Bonds (collectively, the “Existing Bonds”). Prior to the issuance of the Series 2017 Bonds, the Department did not have any Bond debt outstanding. Therefore, the Existing Bonds are all associated with funding for the New SLC. In addition, the Department has entered into a short-term revolving credit facility with Bank of America, N.A. (Bank), pursuant to which the City can access up to \$300 million (Line of Credit); which constitutes a subordinate obligation under the Subordinate Trust Indenture. At the request of the City and the approval of the Bank, the principal amount can be increased to \$400 million pursuant to the provisions of the associated credit agreement. As of July 2, 2025, the Department had an outstanding balance of \$200 million on the Line of Credit, and intends to refund all or a portion of the Line of Credit with proceeds of the Series 2025 Bonds.

The Department has funded to date and expects to continue to fund the design and construction of the New SLC from a variety of sources, including Department funds, proceeds of airport revenue bonds (including the Existing Bonds and the Series 2025 Bonds), Passenger Facility Charges (PFCs), Customer Facility Charges (CFCs), and federal grants.

¹ The Department’s Fiscal Year is the 12-month period ending June 30.

Proceeds of the Series 2025 Bonds will be used to (1) fund a portion of the costs of the New SLC and a portion of the Department's Taxiways U&V project at the Airport, (2) repay all or a portion of the outstanding balance of the Line of Credit, (3) fund capitalized interest, (4) fund a deposit to the Common Debt Service Reserve Fund, and (5) pay the costs of issuance of the Series 2025 Bonds. The Series 2025 Bonds are special, limited obligations of the City, secured by a pledge of Net Revenues derived by the Department from the operation of the Airport System.

Rate Covenant under Master Indenture

The City is obligated under the Master Indenture, to establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the operation of the Airport System and for services rendered in connection therewith, so that during each FY the Net Revenues, together with any Transfer from the Rolling Coverage Account, will be equal to at least 125% of Annual Debt Service on the Outstanding Bonds for such FY. In addition, the City has covenanted, while any Bonds are Outstanding, to establish, fix, prescribe, and collect rates, tolls, fees, rentals and charges in connection with the operation of the Airport System and for services rendered in connection therewith, so that Revenues in each FY will be at least equal to the following amounts: (i) Operation and Maintenance Expenses of the Airport System due and payable during such FY; (ii) the Annual Debt Service on any Outstanding Bonds required to be funded by the City in such FY as required by the Master Indenture or any Supplemental Indenture with respect to the Outstanding Bonds; (iii) the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund which may be established by a Supplemental Indenture; (iv) the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture; (v) the interest on and principal of any indebtedness of the Department required to be funded during such FY, other than for Outstanding Bonds, but including Subordinate Obligations; and (vi) funding of any debt service reserve funds created with respect to any indebtedness of the Department, other than Outstanding Bonds, but including Subordinate Obligations.

Report of the Airport Consultant

In our preparation of this independent Report, we evaluated the ability of the Department to generate Revenues from operation of the Airport System sufficient to meet the funding requirements and obligations established by the Master Indenture during the projection period of FY 2025 through FY 2031 (Projection Period). The following provides an overview of the primary findings and conclusions contained in the Report.

Role of the Airport

The Airport serves two distinct roles for passenger air transportation: (1) origin-destination (O&D), for passengers beginning or ending their trip at the Airport, and (2) connecting, as Delta's primary connecting hub for the inter-mountain region and the western U.S. Based on preliminary data for CY 2024, the Airport was classified by the Federal Aviation Administration (FAA) as a Large Hub facility based upon its share of nationwide enplaned passengers. Based on preliminary data from the FAA, approximately 13.5 million enplaned passengers boarded aircraft at the Airport in CY 2024, ranking the Airport 22nd in the U.S. The Airport has a diverse, stable base of air carriers. Five of the U.S. network airlines along with three low-cost carriers (LCCs), three ultra-low-cost carrier airlines, and three foreign flag airlines operate at the Airport. The Airport serves a large and growing O&D market. Per the U.S. Department of Transportation in FY 2024, 62.7% of the Airport's enplaned passengers were O&D. The Airport is also a primary connecting hub airport for Delta. Delta accounted for 70.1% of enplaned passengers at the Airport in FY 2024 consisting of both O&D and connecting passengers (51.5% O&D and 48.5% connecting).

Economic Base for Air Traffic

The Airport is the primary commercial air service facility serving the Salt Lake City metropolitan area and the surrounding region and is located far from other comparable airports. The geographical region that serves as an airport's primary air service catchment area can be referred to as its 'Air Service Area.' For the purposes of this Report, the Airport's Air Service Area is defined as the Salt Lake City-Provo-Orem Combined Statistical Area (CSA), which includes the following 10 counties in Utah (UT) and one county in Idaho (ID): Box Elder, UT; Davis, UT; Juab, UT; Morgan, UT; Salt Lake, UT; Summit, UT; Tooele, UT; Utah, UT; Wasatch, UT; Weber, UT; and Oneida, ID. The Salt Lake City-Provo-Orem CSA is the 22nd most populated CSA in the U.S., with approximately 2.81 million people.

The economy in the Air Service Area is also connected to visitors to the region, including both leisure and business travelers. The Air Service Area is in relatively close proximity to many national parks (including the Mighty 5),² state parks, and ski resorts that offer visitors unique and exceptional activities in an open and outdoor natural setting.

The Air Service Area's economic strength is evaluated in Chapter 1 of this Report. The Air Service Area has historically exhibited more favorable trends in population growth, educational attainment, employment, and household income than the U.S., and these trends are forecast to continue. More information on the economic base for air transportation is contained in Chapter 1.

Air Service and Air Traffic Analysis

From FY 2014 and FY 2019, total enplaned passengers at the Airport increased from approximately 10.3 million to approximately 13.1 million, an overall compound annual growth rate (CAGR) of approximately 4.9% for this period. For the entire FY 2020, enplaned passenger counts decreased by 22.9% from FY 2019 to 10.1 million enplaned passengers as a result of the impacts associated with the COVID-19 pandemic. In FY 2024, there were 13.9 million enplaned passengers at the Airport, setting a new record number of enplaned passengers at the Airport after a record setting year in FY 2023.

Projections of air traffic activity were developed based on an analysis of the underlying economic conditions of the region, airline traffic trends, and an assessment of Delta's continued operation of hubbing activity at the Airport. The long-term O&D enplaned passengers projection is based on the ability of the Air Service Area's economic base to generate continued passenger growth. The key socioeconomic forecast variables that have been found to have a strong correlation with an airport's passenger demand generally include population, employment, income, and gross regional product. In general, it was assumed that in the long-term (FY 2026-2031), growth in domestic O&D passenger traffic at the Airport will occur as a function of growth in economy in the region, as measured by per capita gross regional product (GRP). Meanwhile, it was assumed that growth in international passengers would be a function of growth in the population in the region and increases in the U.S. economy, as measured as per capita personal income. The growth in GRP, along with Delta's network strategy, are assumed to be the primary drivers of future connecting passenger traffic.

² Mighty 5 includes Arches, Bryce Canyon, Canyonlands, Capitol Reef, and Zion.

Based on models and the set of assumptions detailed above, domestic O&D enplaned passengers are projected to increase at a CAGR of 1.9% and domestic connecting at 3.5% with total enplaned passengers projected to increase at a 2.6% CAGR from FY 2025 through FY 2031. This results in enplaned passengers increasing from an estimated 14.1 million in FY 2025 to 16.4 million in FY 2031. Under the sensitivity scenario, it is assumed that domestic O&D passengers would increase at a slightly slower rate, 1.6% versus 1.9% in the baseline projection presented herein, and that domestic connecting passengers would increase at an average rate of 1.0% through FY 2031. It is also assumed in this sensitivity scenario that international passengers would increase at half the rate of the baseline to reflect a potential slowdown of international demand. For additional details on the projections of air traffic, please refer to Chapter 2 herein. **Table 1** presents the baseline and sensitivity scenario enplaned passengers projections.

Table 1 **Enplaned Passengers Projections**

		Baseline Scenario		Sensitivity Scenario	
Fiscal Year		Enplaned Passengers (in thousands)	Year-Over-Year Growth Rate	Enplaned Passengers (in thousands)	Year-Over-Year Growth Rate
Actual	2019	13,090	5.4%	13,090	5.4%
	2020	10,096	-22.9%	10,096	-22.9%
	2021	7,710	-23.6%	7,710	-23.6%

Capital Improvement Program

- **The New SLC:** The New SLC consists of both the TRP and NCP as described above.
- **Other Capital Projects:** These projects are in addition to the elements of the New SLC and are the other Airport System capital projects that currently are anticipated by the Department to be undertaken over the Projection Period. The Taxiways U&V project, of which a portion is planned to be funded with the Series 2025 Bonds, is included within this category. Such projects are referred to in this Report as the "Other Capital Projects." The estimated capital funding and operating costs, if any, and estimated revenue impacts, if any, associated with the Other Capital Projects have also been included as part of the financial analysis in this Report.

The New SLC is estimated to cost approximately \$5.13 billion, including design, engineering, construction, escalation for inflation, and contingency amounts, but excluding financing costs. Sources of funding for the New SLC are presented in **Exhibit A** of this Report. Approximately \$4.53 billion of project costs have already been incurred through January 2025. Proceeds of the Existing Bonds have funded and continue to fund portions of the New SLC and proceeds of the planned Series 2025 Bonds are also planned to fund a portion of the New SLC.

Other Capital Projects currently anticipated by the Department to be undertaken and/or completed during the Projection Period are also shown in Exhibit A. Preliminary cost estimates for the Other Capital Projects total approximately \$589.6 million for the period of FY 2026 through FY 2031. The Taxiways U&V project is estimated to cost approximately \$248.5 million of which approximately \$235.1 million of project cost is estimated over the period of FY 2026 through FY 2028. It should be noted that certain capital projects included in Other Capital Projects could potentially be deferred or not otherwise undertaken by the Department during the Projection Period depending on circumstances such as aviation demand levels, availability of project funding, etc.

Financial Analysis

L&B evaluated the ability of the Airport System to generate Net Revenues sufficient to meet the funding requirements and obligations established by the Master Indenture during the Projection Period. Per our analysis, the Department is projected to produce sufficient Net Revenues, which will at least equal 125% of debt service on the Existing Bonds, the Series 2025 Bonds, and projected future additional Bonds.

The Department is projected to meet its requirements and obligations established by the Master Indenture and maintain airline cost per enplaned passenger (CPE) levels generally in-line with other large hubs in the western U.S. **Table 2** below presents projections of debt service coverage ratios and airline CPE. Please refer to Section 4.10 of this Report for financial results related to a slower enplaned passenger growth projection.

Table 2 **Financial Results Summary**

Fiscal Year	Baseline			Sensitivity Scenario		
	Airline CPE	Airline CPE (FY25\$)	Debt Service Coverage	Airline CPE	Airline CPE (FY25\$)	Debt Service Coverage
2025	\$18.77	\$18.77	2.05	\$18.77	\$18.77	2.05
2026	\$21.36	\$20.72	1.87	\$21.36	\$20.72	1.87
2027	\$23.10	\$21.74	1.72	\$23.52	\$22.13	1.71
2028	\$23.78	\$21.71	1.76	\$24.59	\$22.44	1.73
2029	\$23.63	\$20.92	1.77	\$24.82	\$21.97	1.74
2030	\$23.37	\$20.07	1.80	\$24.93	\$21.40	1.75
2031	\$23.20	\$19.32	1.82	\$25.13	\$20.93	1.76

Notes: These projections are based on current expectations and information and are not intended as a representation of facts or a guarantee of results. An inflation rate of 3% was assumed for the purposes of calculating results in FY 2025 dollars.

Source: Prepared by Landrum & Brown, Inc., July 2025.

L&B prepared the aviation activity and financial projections included in this Report along with various underlying assumptions. In preparing our findings and conclusions, L&B has relied upon the accuracy and completeness of certain assumptions, financial data, and other data provided to it by the referenced sources, without independent verification; however, L&B has reviewed the projections and assumptions with the Department and has no reason to believe such assumptions and data are materially incorrect.

The techniques and methodologies used in preparing this Report are consistent with industry practices for similar studies in connection with airport revenue bond sales. Although L&B believes that the approach and assumptions used are reasonable and provide an appropriate basis for the financial projections, any projection is subject to uncertainties. Inevitably, some assumptions used to derive the projections contained herein will not be realized, and unforeseeable events may occur. The actual financial results achieved will vary from those projected, and such variations could be material. We have no responsibility to update this Report for events and/or circumstances occurring after the date of this Report.

L&B is not registered with the U.S. Securities & Exchange Commission as a municipal advisor, is not acting as a municipal advisor, and does not assume any fiduciary duties or provide advisory services as described in Section 15B of the Securities Exchange Act of 1934 or otherwise. L&B does not make recommendations or advice regarding any action to be taken by our clients with respect to any prospective, new, or existing municipal financial products or issuance of municipal securities including with respect to the structure, timing, terms or other similar matters concerning municipal financial products or the issuance of municipal securities.

L&B, in association with Airmac LLC, appreciates this opportunity to serve as the Department's Airport Consultant for this proposed financing.

Sincerely,

1 Role of the Airport and Economic Base for Air Traffic

This chapter introduces the Salt Lake City International Airport (SLC or the Airport) and summarizes the role the Airport serves in accommodating air traffic for the nation, the region, and as a primary connecting hub within Delta Air Lines' (Delta's) network. This chapter also describes the Salt Lake City region's socioeconomic base and its ability to continue to support demand for air transportation.

1.1 Role of the Airport

The Airport is owned and operated by Salt Lake City, Utah (the City), with the support and advice of the Salt Lake City Airport Board (Airport Advisory Board). The Salt Lake City Department of Airports (Department), a department of the City, is charged with operating the Airport System, as defined herein. The Airport serves as the principal commercial service airport for the Salt Lake City metropolitan region, the State of Utah (State), and portions of Colorado, Idaho, Nevada, and Wyoming.

1.1.1 National Role

The Airport has consistently been one of the busiest 30 commercial passenger airports in the U.S in terms of enplaned passengers. In calendar year (CY) 2019, the Airport had 12.8 million enplaned passengers, 23rd most in the U.S. In CY 2020, enplaned passengers at the Airport (along with airports throughout the U.S. and globally) experienced significant decreases in air traffic primarily because of impacts associated with the Coronavirus Disease 2019 (COVID-19) pandemic. The Airport's enplaned passengers decreased by 53.4% to 6.0 million enplaned passengers. Air traffic recovered at the Airport as conditions surrounding the COVID-19 pandemic improved, and enplaned passengers exceeded CY 2019 levels in CY 2023. The Airport is classified by the Federal Aviation Administration (FAA) as one of 31 "Large Hub" facilities in the U.S and was ranked 22nd with approximately 13.5 million enplaned passengers based on preliminary data reported by the FAA for CY 2024.³ **Figure 1-1** provides the enplaned passenger volume for Large Hub airports⁴ in the U.S. for CY 2024.

In addition to passenger operations, there is also a significant amount of air cargo processed at the Airport. According to Airports Council International–North America (ACI-NA), 162,305 metric tons of air cargo, including both freight and mail, were loaded and unloaded at the Airport in CY 2023. The Airport was ranked as the 31st busiest cargo airport in the U.S. in CY 2023.

ACI-NA data indicated that the Airport had 319,060 aircraft operations⁵ in CY 2023 (including all-cargo carrier operations). The Airport ranked as the 23rd busiest airport in the U.S. terms of aircraft operations in CY 2023.

³ The FAA classifies Large Hubs as those airports that each account for 1 percent or more of total U.S. passenger enplanements.

⁴ Large Hub facilities based on CY 2024 enplanements.

⁵ An aircraft operation includes the landing, takeoff, or touch-and-go procedure by an aircraft on the runway at an airport.

Figure 1-1 U.S. Large Hub Airports Enplaned Passenger Rankings (2024)

Source: Federal Aviation Administration, Air Carrier Activity Information System (ACAIS): Passenger Boarding (Enplanement) and All-Cargo Data for U.S. Airports (preliminary), May 2025, accessed June 2025.

1.1.2 Regional Role

The Airport serves as the primary commercial service airport for the Salt Lake City metropolitan area and the surrounding region. Origin and destination (O&D) passengers, or those that begin or end their travel at the Airport, accounted for approximately 62.7% of passenger traffic at the Airport in Fiscal Year (FY)⁶ 2024. The share of O&D passengers at the Airport, in terms of total passengers, has increased over the years. For example, for the period of FY 2012 through FY 2015, O&D passengers at the Airport averaged approximately 51.5% of total traffic. By FY 2019, O&D accounted for approximately 57.6% and has increased nearly every year since to FY 2024 at 62.7%. Delta handles the vast majority of the connecting passengers (88.4% in FY 2024) at the Airport. More information on the Airport's O&D market and Delta's operations at the Airport is presented in Chapter 2.

The metropolitan region that supports the primary demand for an airport can be referred to as its "air service area". For the purposes of this report, the Airport's Air Service Area (ASA) is defined as the Salt Lake City-Provo-Orem Combined Statistical Area (CSA), which includes the following 10 counties in Utah (UT) and one county in Idaho (ID): Box Elder, UT; Davis, UT; Juab, UT; Morgan, UT; Salt Lake, UT; Summit, UT; Tooele, UT; Utah, UT; Wasatch, UT; Weber, UT; and Oneida, ID.⁷ The Salt Lake City-Provo-Orem CSA was the 22nd most populous CSA in the nation in CY 2023 with approximately 2.81 million people.

In many cases, an airport's total air traffic catchment area can extend beyond the borders of its air service area depending on the location of other population centers and availability of other commercial service airports. However, it is generally the economic strength of the air service area that provides the principal demand for O&D air travel. In the case of the Airport, its catchment area generally consists of the remainder of the State and portions of Colorado, Idaho, Nevada, and Wyoming within about a 300-mile driving distance from the Airport.

The ASA is largely isolated from competing airport facilities and, hence, the Airport has limited, if any, competition for air service. Las Vegas's Harry Reid International Airport (LAS) (formerly McCarran International Airport) is the closest Large Hub airport and is over 400 driving miles from the Airport. Denver International Airport (DEN), the next closest Large Hub, is over 500 driving miles from the Airport. Boise Airport in Idaho is over 300 driving miles from the Airport; however, it is a smaller facility and classified as a Medium Hub by the FAA.⁸ **Figure 1-2** illustrates the Airport's location in relation to its ASA as well as the other primary commercial service airports within the region.

There are two smaller airports in the ASA that also offer commercial service: Ogden-Hinckley Airport (OGD) and Provo Municipal Airport (PVU). OGD is located approximately 38 driving miles north of the Airport and offers weekly nonstop service from Breeze Airways. PVU is located about 51 driving miles south of the Airport and has nonstop service to 14 destinations from Allegiant Air, American Airlines, and Breeze Airways. In April 2025, construction broke ground at PVU for two expansion projects: expansion of the current terminal building to ten gates to be opened in 2028, and an expansion of its aircraft apron to be completed in November 2025.

⁶ The Airport's Fiscal Year is the 12-month period ending June 30.

⁷ Executive Office of the President: Office of Management and Budget, Revised Delineations of Metropolitan Statistical Areas, and Combined Statistical Areas, and Guidance on Uses of the Delineations of These Areas, July 21, 2020.

⁸ The FAA classifies Medium Hub airports as those serving at least 0.25% but less than 1.00% of annual U.S. passenger boardings.

Figure 1-2 Air Service Area and Proximity to Other Primary Airports

Airport	Code	FAA Airport Category	Driving Distance from Downtown Salt Lake City	Nonstop Destinations (YE July 2025)	CY 2024 Enplaned Passengers (000s)
Salt Lake City International Airport	SLC	Large	8 miles	109	13,544
Boise Airport	BOI	Medium	337 miles	29	2,475
Harry Reid International Airport	LAS	Large	428 miles	175	28,183
Reno-Tahoe International Airport	RNO	Small	520 miles	23	2,378
Denver International Airport	DEN	Large	524 miles	227	40,013
Albuquerque International Sunport	ABQ	Medium	602 miles	32	2,690
Phoenix Sky Harbor International Airport	PHX	Large	666 miles	150	25,596

1.1.3 Role as a Hub for Delta Air Lines

The Airport has served as a hub for Delta since its merger with Western Airlines in 1987. Prior to the impacts associated with the COVID-19 pandemic, Delta's enplaned passengers increased over the years, averaging 2.2% growth per annum from FY 2011 through FY 2019. Delta's enplaned passenger market share, including its regional affiliates, comprised approximately 70.1% of enplaned passengers at the Airport in FY 2024. **Figure 1-3** presents the Airport's enplaned passenger market share for FY 2024. As shown, Delta has the largest passenger market share by far at the Airport.

Figure 1-3 Enplaned Passenger Market Share at the Airport (FY 2024)

Notes: Regional affiliates, as applicable, have been included with their appropriate network partner. Amounts may not add because of rounding.

Source: Salt Lake City Department of Airports, accessed February 2025.

As the Airport serves as a hub for Delta, a significant portion of its air traffic at the Airport consists of connecting passengers, or passengers that have a scheduled stop at the Airport and transfer to another flight to travel to their final destination. Since FY 2010, the percentage of Delta's connecting passengers at the Airport has generally experienced a declining trend as total enplaned passengers have increased. This decrease in connecting passenger percentage, or a corresponding increase in O&D passenger percentage at the Airport for Delta, can be partly attributed to Delta business decisions and the ongoing economic growth of the ASA as local demand for air travel has generally been increasing. **Figure 1-4** presents the percentage of Delta connecting passengers at the Airport from FY 2010 through FY 2024. Delta's operations at the Airport are described in more detail in Section 2.1.5 herein.

Figure 1-4 **Percentage of Connecting Passengers for Delta Traffic Only at the Airport**
(FY 2010 – FY 2024)

Source: US DOT Reports DB1A; US DOT T100 Report, accessed via Cirium, Diio Mi, accessed February 2025.

1.2 Socioeconomic Base for Air Traffic

Generally, air travel demand at an airport is largely correlated with the demographic and economic characteristics of the surrounding region. The economic strength of the ASA has a major impact on the air traffic at the Airport since most of the Airport's passenger demand is O&D. The following sections review current economic trends and conditions in the ASA and present data indicative of its capability to generate demand for air transportation over the next several years.

Data for population, age distribution, educational attainment, income, and gross regional product (GRP) for the ASA are discussed below. Parallel data for the U.S. are also shown to provide a basis of comparison to trends in the ASA. Where available, historical data will be presented for the CY 2014 to CY 2024 period, which represents the most recent 10-year trend for historical data. Also, where available, data projections through CY 2031 are included to be consistent with air traffic and financial projections presented later in this Report.

1.2.1 Population

A growing population is a significant source of demand for air travel. According to the U.S. Census Bureau, 40 of the 181 Combined Statistical Areas (CSAs) in the U.S. had an estimated population in excess of 1.5 million people in CY 2023, including the Salt Lake City CSA, which is defined as the ASA for this Report.⁹ The Salt Lake City CSA has been one of the fastest growing CSAs in the U.S. for more than a decade, but growth has even accelerated in recent years. The Salt Lake City CSA is within the U.S. Mountain West region, which has been experiencing a “boom” in population since CY 2020 somewhat driven by people wanting access to outdoor recreation and lower cost of living, especially when “remote work” or working from home has become more prevalent. **Figure 1-5** provides a graphical depiction of the population growth rates from CY 2020 through CY 2023 in the U.S. by county. As shown, the upper portion of the U.S. Mountain West, which includes Utah, Idaho, and Montana, is one of the general regions that has experienced strong growth when compared to a majority of the U.S. Other strong growth regions include Texas, Florida, and portions of the Southeast. The boundaries of the ASA are also depicted on the map. From CY 2020 through CY 2023, population in the ASA increased from an estimated 2.71 million to 2.81 million, a 3.3% increase which was the 11th fastest growing CSA (out of 40 CSAs in excess of 1.5 million people). It is important to note that the Airport is Delta's only connection to many of these fast-growing Mountain West cities; therefore, the Airport serves as a primary connecting point on Delta's network to fly to these cities.

Table 1-1 provides the historical population data for CY 2014, CY 2019, and CY 2023 for the ASA. Between CY 2014 and CY 2023, the population in the ASA increased from approximately 2.44 million to 2.81 million, which is a 15.0% total increase and a compound annual growth rate (CAGR) of 1.6%, which is the same as Utah (1.6%) but significantly higher than that of the U.S. at 0.5%. The Utah counties in the ASA¹⁰ accounted for approximately 81.9% of the population in Utah in CY 2023.

⁹ U.S. Census Bureau, Metropolitan and Micropolitan Statistical Areas Population Totals and Components of Change: 2020-2021

¹⁰ This excludes Oneida County, Idaho from the ASA.

Figure 1-5 Population Growth in U.S. by County (CY 2020 – CY 2023)

Sources: U.S. Census Bureau, Metropolitan and Micropolitan Statistical Areas Population Totals and Components of Change: 2020-2023, Annual Resident Population Estimates and Estimated Components of Resident Population Change for Metropolitan and Micropolitan Statistical Areas and Their Geographic Components: July 1, 2020 to July 1, 2023, accessed February 2025.

Table 1-1 Population (CY 2014, CY 2019, and CY 2023)

Region	Population (In Thousands)			CAGR 2014 - 23
	CY 2014	CY 2019	CY 2023	
United States	319,295	330,222	334,915	0.5%
Utah	2,951	3,233	3,418	1.6%
Salt Lake City CSA	2,440	2,675	2,806	1.6%
Salt Lake County, UT	1,099	1,178	1,186	0.8%

Morgan County, UT	11	12	13	2.3%
Juab County, UT	10	12	13	2.7%
Oneida County, ID	4	5	5	2.0%

Notes: CAGR = Compound annual growth rate.

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

Figure 1-6 depicts the historical and projected population indexed to CY 2014 for the ASA for the overall U.S. Since CY 2014, population growth in the ASA has significantly outpaced the nation. According to W&P, the population in the ASA is forecast to increase from 2.81 million in CY 2023 to 3.10 million in CY 2031, resulting in a CAGR of 1.3%, which is significantly higher than the forecast for the nation's population (0.7%).

Figure 1-6 Historical and Forecast Population Trends (CY 2014 – CY 2031)

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

1.2.1.1 Components of Population Growth

A high birth rate combined with a low mortality rate has historically been the main driver for population growth in the region. In CY 2024, there were an estimated 37,800 births compared to about 16,089 deaths in the ten Utah counties and one Idaho county included in the ASA, which as a result, led to an increase in population of 21,711 people related to natural growth. The ASA has historically had one of the highest birth rates in the U.S. In CY 2023, the region had birth rate of 13.6 per 1,000 residents which was the ninth highest rate of all CSAs in the U.S. and it is the highest rate of any CSA with a population in excess of one million. In CY 2014, the birth rate was 17.7 per 1,000 residents, significantly higher than the rate in CY 2023. However, population growth has remained strong as net migration has increased in recent years.

There has been a significant increase in in-migration in the region over the past 10 years. In CY 2014, the region added about 3,600 people as a result of in-migration but in CY 2024 there was about an additional 19,000 added to the ASA population as a result of net migration. Utah has experienced net in-migration in 15 of the past 32 years and in the past four years, migration has driven population growth. In CY 2014, 89.1% of the population growth was due to natural change (i.e., births minus deaths). However, by CY 2024 only 53.3% of the population growth was due to natural change while the remaining 46.7% was due to net migration. **Figure 1-7** presents the population change by year since CY 2014 by the two contributing components.

Figure 1-7 Components of Population Growth (CY 2014 – CY 2024)

Source: The University of Utah: Kem C. Gardner Policy Institute, State and County Estimates, accessed February 2025.

1.2.1.2 Age Distribution

Demand for air travel varies by age group. It is assumed that people of working ages¹¹ from 25 to 64 account for a higher share of air travel than older or younger people as they often travel for business purposes and generally have more disposable income available for leisure trips. **Figure 1-8** presents the distribution of age groups in the ASA in comparison to the U.S. Overall, the median age of the population for the ASA (37.0 years) is lower than nationally (39.2 years). The ASA's share of population between the working ages of 25 and 64 is currently lower than that of the U.S. Persons within the ASA between the ages of 25 and 64 account for 49.8% of the population as compared to 51.5% for the U.S. While the share of working age population in the ASA is somewhat lower than that of the U.S., it does have a higher proportion of population in the younger working age range, or ages 24 to 49. This provides an opportunity for the ASA to maintain a robust working age population for years to come as the population ages.

¹¹ Commonly, working age is defined at those people aged 15 to 64. However, for the purposes of this Report, a narrower age range of 25 to 64 has been used to reflect the group of people most likely beyond secondary education and more likely to be employed on a full-time basis.

Figure 1-8 Age Distribution (CY 2023)

Source: US Census Bureau, 2023: ACS 1-Year Estimates Data Profiles, accessed February 2025.

1.2.1.3 Educational Attainment

Consumer Expenditure Survey data from the U.S. Bureau of Labor Statistics show that persons with a college degree generate a high percentage of expenditures on air travel. Data indicate that 74% of airline fares are purchased by college graduates, while 18% are purchased by consumers who have had some college or have earned an associate degree. Approximately 8% of airline fares are purchased by consumers who never attended college.¹² **Figure 1-9** presents the share of educational attainment for persons aged 25 or older within the ASA, the State, and the U.S. According to the U.S. Census Bureau, 49.6% of the population aged 25 or older in the ASA have a college degree or higher. By comparison, only 45.0% of the population aged 25 or older in the U.S. have a college degree or higher.

¹² *Who's Buying for Travel*, 12th Edition, New Strategist Publications, 2018.

Figure 1-9 Educational Attainment (CY 2023)

Source: US Census Bureau, 2023: ACS 1-Year Estimates Data Profiles, accessed February.

In CY 2023, there were an estimated 126,417 persons enrolled in college or graduate school in the ASA which is equivalent to about 38.9% of the population between 18 and 25 years in age.¹³ In comparison, the U.S. had approximately 12.2 million persons enrolled in college or graduate school in CY 2023 which equates to 40.0% of the population between 18 and 25 years in age, which is relatively comparable to that of the ASA. There are approximately 20 accredited colleges and universities in the ASA. The most notable of these colleges include Brigham Young University in Provo, Salt Lake Community College, University of Utah in Salt Lake City, Utah Valley University in Orem, and Weber State University in Ogden. The University of Utah and Brigham Young University are also in the top five employers in the State and provide a talent and innovation pipeline to the ASA's economy.

1.2.2 Employment

Growth in employment is an important indicator of the overall health of the local economy. Historically, changes in population and employment tend to be closely correlated as people migrate in and out of areas largely depending on their ability to find work. **Figure 1-10** presents historical and projected employment in the ASA and the U.S. indexed to CY 2014. From CY 2014 through CY 2019, employment in the ASA increased at a CAGR of 3.2%, higher than the rate for the U.S. (1.6%). In CY 2020, employment in the ASA continued to increase by 1.4% despite the impacts associated with the COVID-19 pandemic. The ASA overall is projected to have a higher long-term growth rate in employment (1.9%) through CY 2031 as compared to the U.S. as a whole (1.2%).

¹³ US Census Bureau, 2021: ACS 1-Year Estimates Data Profiles.

Figure 1-10 Historical and Forecast Employment Trends (CY 2014 – CY 2031)

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

1.2.2.1 Labor Force & Unemployment Rates

Unemployment rates are an indicator of economic health as rates usually decrease as economic activity in the region grows. **Figure 1-11** presents the historical unemployment rates for the ASA and the U.S. As shown, from CY 2008 through CY 2019, unemployment rates in the ASA trended similar to the national average but at a consistently more favorable rate. Primarily as a result of the Great Recession (generally late CY 2007 to mid CY 2009) and its lingering impacts, unemployment for the ASA peaked at 8.1% in January 2010 as compared to the national unemployment peak of 10.6% in the same month. Total employment during CY 2019 increased at a faster rate than population since the end of the Great Recession, resulting in significant declines in unemployment rates during that time. However, since the impacts associated with the COVID-19 pandemic occurred in the U.S. starting in March 2020, unemployment rates increased to historic levels as a result of stay-at-home orders and companies hedging for potential losses. In April 2020, the unemployment rate for the ASA reached 9.9% compared to the national rate of 14.4%. Both the national unemployment rate and the unemployment rate in the ASA declined relatively rapidly from these peaks over the next several months with the ASA remaining well below national levels. In January 2025, the unemployment rate for the ASA was 3.1%, which was significantly lower than that of the U.S. at 4.4%.

Figure 1-11 Unemployment Rates (January 2008 – January 2025)

Sources: U.S. Department of Labor: Bureau of Labor Statistics, Labor Force Statistics from the Current Population Survey, accessed April 2025.

Labor force participation rate is the share of people 16 or older who are employed or actively seeking employment to the non-institutionalized, civilian working-age population. In January 2020, the State had a labor force participation rate of 68.3% compared to 63.3% in the U.S. Labor force participation rates were consistently well above the national rates throughout the pandemic. In May 2023, 68.2% of working age people in Utah were either employed or actively looking for employment compared to just 62.5% for the U.S. **Figure 1-12** presents the monthly labor force participation rates since January 2020.

Figure 1-12 Labor Participation Rates (January 2020 – December 2024)

Sources: U.S. Department of Labor: Bureau of Labor Statistics, Civilian Labor Force Participation Rate, accessed April 2025.

1.2.2.2 Industry Sectors

The breakdown of jobs by employment sectors within a region can provide insight as to how resilient the local economy is to downturns. **Figure 1-13** presents a comparison of employment by industry sector between the ASA and the U.S. and the forecasted future growth of each sector. The comparison is provided using a location quotient (LQ), which is an analytical statistic that measures a region's industrial specialization relative to a larger geographic unit. A LQ is computed as an industry's share of a regional total for some economic statistic (earnings, GRP by metropolitan area, employment, etc.) divided by the industry's share of the national total for the same statistic.

For example, the ASA's financial sector has a LQ of 1.22 which means the region has a higher concentration in that sector than the nation. As shown, goods producing; professional services; and financial activities are higher in concentration in the ASA than the U.S. Furthermore, professional services; and financial activities are projected to have some of the highest growth in jobs in the region. The growth for these sectors is higher than the national average which results in their LQs increasing over time. Overall, the ASA's employment sectors appear to be well-positioned to continue to provide jobs that are consistent with demand for air travel.

Figure 1-13 Employment by Industry Sector (2023)

Notes: A location quotient (LQ) is an analytical statistic that measures a region's industrial specialization relative to a larger geographic unit. An LQ is computed as an industry's share of a regional total for some economic statistic (earnings, GRP by metropolitan area, employment, etc.) divided by the industry's share of the national total for the same statistic.

1.2.2.3 Major Employers

The top employers in Utah with more than 4,000 employees for CY 2023 are shown in **Table 1-2**. These employers serve a diverse range of industries including but not limited to health care, education, State and local government, and retail.

Table 1-2 Top Employers in Utah (CY 2023)

Rank	Company Name	Industry	Average Annual Employment
1	Intermountain Health Care	Health Care	20,000+
2	University of Utah	Higher Education	20,000+
3	State of Utah	State Government	20,000+
4	Wal-Mart	Warehouse Clubs/Supercenters	20,000+
5	Brigham Young University	Higher Education	15,000-19,999
6	Hill Air Force Base	Federal Government	10,000-14,999
7	David County School District	Public Education	10,000-14,999
8	Utah State University	Higher Education	7,000-9,999
9	Northrop Grumman Corp	Aerospace Manufacturing	7,000-9,999
10	Smith's Food & Drug	Supermarkets	7,000-9,999
11	Alphine School District	Public Education	7,000-9,999
12	Granite School District	Public Education	7,000-9,999
13	U.S. Department of Treasury	Federal Government	7,000-9,999
14	Jordan School District	Public Education	7,000-9,999
15	Salt Lake County	Local Government	5,000-6,999
16	Amazon	Courier/Express Delivery	5,000-6,999
17	Utah Valley University	Higher Education	5,000-6,999
18	Delta Air Lines	Air Transportation	5,000-6,999
19	U.S. Postal Service	Postal Service	5,000-6,999
20	Weber County School District	Public Education	4,000-4,999
21	The Home Depot	Home Centers	4,000-4,999
22	The Canyons School District	Public Education	4,000-4,999
23	United Parcel Service	Delivery Services	4,000-4,999
24	Costco Wholesale	Warehouse Clubs/Supercenters	4,000-4,999
25	ARUP Laboratories, Inc.	Medical Laboratory	4,000-4,999
26	Nebo School District	Public Education	4,000-4,999

1.2.2.4 *Silicon Slopes*

The area surrounding Lehi, Utah is commonly referred to as Silicon Slopes because of its expanding tech presence. While the regional economy is not dependent on the growing tech community, it is helping to diversify the workforce in the area. The area is located in the ASA between Salt Lake City and Provo. Most tech businesses have been searching for an alternative location to the traditional Silicon Valley location in California. Like Silicon Valley, the ASA offers a competitive workforce with young and highly educated individuals but offers much lower taxes, cost of living and property costs, while still being located within a two hour flight of Silicon Valley. In CY 2014, eBay opened a 240,000-square-foot campus in Salt Lake City. Adobe chose the region as the site for its new \$90 million facility in CY 2018 and acquired Lehi based software company, Workfront in CY 2020. In CY 2021, Micron sold its microchip plant in the region to Texas Instruments. Other major nation-wide companies with a significant presence in Silicon Slopes include Microsoft, Oracle, 1-800 Contacts, Facebook, LexisNexis, and Cisco. In CY 2023, Texas Instruments broke ground on a new \$11 billion chips manufacturing facility in Lehi, the largest project in Utah's history.¹⁴

There are a number of additional related companies located in this area. Ancestry.com was started by two Brigham Young University graduates in 1996 and is still headquartered in Lehi, Utah. Internet retailer Overstock.com has its headquarters in Midvale, Utah. Vivint, a smart home and home security company, was founded in Provo, Utah in 1999. In December 2022, it was announced that NRG would be acquiring Vivint. Qualtrics, a cloud-based subscription software platform for experience management company, has one of its two headquarters located in Provo, Utah. American Fork is home to Domo. Domo is a cloud-based software company that specializes in business intelligence and data visualization. The expense Management and Business budgeting software, Divvy, is located in Draper, Utah. HireVue, which develops a platform used to automate workflows to allow companies to scale hiring, is headquartered in South Jordan, Utah.

1.2.3 Income

Income statistics are broad indicators of the relative earning power and wealth of an area and provide a measure of the relative affluence of a region's residents and, consequently, of their ability to afford air travel.

1.2.3.1 *Per Capita Personal Income*

Per capita personal income (PCPI) corresponds to the income per resident (total income divided by total population). **Figure 1-14** provides the historical and forecasted PCPI for the ASA and the U.S. from CY 2014 through CY 2031. In CY 2014, PCPI in the ASA was \$48,302, which was lower than the national average of \$57,368. From CY 2014 through CY 2023, PCPI in the ASA has increased at a CAGR of 3.7% as compared to a 2.3% CAGR for the U.S. However, the PCPI in the ASA reached an estimated \$67,273 in CY 2023 which was \$2,899 lower than the national average. L&B assumes that the ASA's younger population and lower share of working age population as compared to the U.S. contributes to PCPI being lower than the national average.

¹⁴ Texas Instruments, Lehi, Utah: 300mm Wafer Fabs, <https://www.ti.com/about-ti/company/ti-at-a-glance/manufacturing/lehi.html>

Figure 1-14 **Historical and Forecast Per Capita Personal Income Trends (CY 2014 – CY 2031)**

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

1.2.3.2 *Household Income*

While PCPI is lower for the ASA than the U.S., household income is greater. To understand the distribution of income within the region, households within the ASA were segmented into three categories: upper-class households, middle-class households, and lower-class households. The Pew Research Center defines the upper-class as adults whose income is more than double the national median. In CY 2023, the national median household income was \$77,719, so upper-class would be considered those with a household income over \$155,438. For the purposes of this Report, the upper-class was rounded to include those with a household income of \$150,000 or more. The Pew Research Center defines the middle-class as adults whose income falls between two-thirds and double the national median. For the purposes of this Report, middle-class has been defined as those with a household income of at least \$50,000 but less than \$150,000. Households in the middle and upper-class brackets are more likely to have individuals whose jobs require travel when compared to lower-class households. Additionally, upper-class households generally have more disposable income and can therefore afford more leisure travel than households in other income brackets.

Figure 1-15 presents the percentage of households within each income bracket for the ASA as compared to the U.S. for CY 2023. As shown, 26.6% of households in the ASA were considered upper-class, which is above the national average of 21.5%. Additionally, the ASA has a larger share of middle-class households (51.9%) compared to the U.S. (46.2%).

Figure 1-15 Distribution of Household Income (CY 2023)

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

1.2.4 Cost of Living

Although personal income is a vital statistic, it is only one determinant of the purchasing power of the people within a region and whether those people have the means to afford to travel by air. Other things being equal, a higher cost of living means less disposable income to purchase an airline ticket. Additionally, a relatively low cost of living can be a significant incentive for businesses to locate in a particular city. The U.S. Bureau of Economic Analysis uses Regional Price Parities (RPPs) to account for the cost of living in specific locations. RPPs measure the differences in the price levels of goods and services across states and metropolitan areas for a given year. RPPs are expressed as a percentage of the overall national price level, where the national average equals 100.

Figure 1-16 provides the RPP for the ASA from CY 2014 through CY 2023. In CY 2023, the RPP for the ASA was 96.4%, which indicates that the region's cost of living is roughly 3.6% lower than that of the nation. While some things in the region are still more expensive than the national average, namely housing, other categories like goods and utilities are cheaper. Goods such as groceries and retail items in the region tend to be more affordable, reflecting competitive pricing and efficient distribution networks in the region. Additionally, utility expenses, including electricity and natural gas, are generally lower than in many other metro areas (27.0% below national average), thanks in part to the region's access to locally sourced energy and a relatively mild climate that reduces heating and cooling demands. These cost advantages in everyday essentials can help balance out the impact of higher housing prices, making the area more livable and economically accessible for a wider range of residents.

Figure 1-16 Regional Price Parity for ASA (CY 2014 – CY 2023)

Source: Bureau of Economic Analysis, Regional Price Parities by State and Metro Area, accessed online at <https://www.bea.gov/data/prices-inflation/regional-price-parities-state-and-metro-area>.

Initiatives have been launched in an effort to combat the high housing costs. In December 2023, the Salt Lake City Council approved a comprehensive package of zoning changes designed to encourage the construction of affordable housing. These incentives allow for increased housing density, additional building height, and expedited project reviews for developments that include affordable units. The affordable housing initiative aims to promote diverse housing types, such as infill developments, row houses, and cottages, across various neighborhoods. In March 2024, the Redevelopment Agency of Salt Lake City (RDA) approved \$17.7 million in funding to support 14 affordable housing projects. This investment is projected to yield 1,549 residential units varying in affordability and size, marking the highest commitment to affordable housing in the City's history. The City plans to expand affordable housing and economic development opportunities through the redevelopment of City-owned land, strategic land acquisitions, and the expansion of the Community Land Trust. This initiative aims to leverage public land to create more affordable housing options.

1.2.5 Gross Domestic/Regional Product

Gross domestic product (GDP) and GRP are measures of the value of all final goods and services produced within a geographic area. These measures are general indicators of the economic health of a geographic area and, consequently, of the area’s potential demand for air transportation services. **Figure 1-17** presents the historical and forecasted GDP for the U.S. and GRP for the ASA on a per capita basis from CY 2014 through CY 2031. GRP for the ASA on a per capita basis was lower than that of the U.S. until CY 2020. Since CY 2020, the GRP on a per capita basis of the ASA has been higher than the U.S. and the gap has continued to increase. Growth in GRP for the ASA is forecasted to continue to exceed the U.S. GDP and will result in the gap continuing to widen.

Figure 1-17 Historical Per Capita Gross Domestic/Regional Product Trends (CY 2014 – CY 2031)

Source: Woods & Poole Economics, Inc., 2024 Complete Economic and Demographic Data Source, June 2024.

In April 2025, the Kem C. Gardner Policy Institute released a fact sheet which provided an overview of Utah’s economic growth in terms of GDP and personal income. Based on data from the Bureau of Economic Analysis (BEA), Utah’s real GDP growth led the nation in CY 2024 with a 4.5% increase compared to 2.8% for the U.S. as a whole. **Figure 1-18** provides the year-over-year growth rates for each state’s GDP.

Figure 1-18 Real GDP Growth by State (CY 2023 – CY 2024)

Source: U.S. Bureau of Economic Analysis, accessed online at <https://www.bea.gov/data/gdp/gdp-state>.

According to Kem C. Gardner Policy Institute, Utah has been the fastest growing economy in terms of state GDP from CY 2014 through CY 2024. From CY 2014 through CY 2024, Utah's state GDP increased by 64%, 10 points higher than the second fastest, Florida. **Figure 1-19** provides the cumulative GDP growth for the four fastest growing states and the U.S.

Figure 1-19 State Real GDP Growth (2014 – 2024)

Note: Estimates adjusted to 2024 dollars
Source: Fact Sheet - Utah Economic Growth 2024: GDP and Personal Income, Kem C. Gardner Policy Institute, April 2025.

1.2.6 Regional Tourism and Visitors

In CY 2023, travelers directly spent \$12.7 billion in the State supporting approximately 159,800 total jobs.¹⁵ Outdoor tourism is a major industry in the ASA and for the surrounding region and the State. In general, outdoor tourism consists of two main seasons: summer and winter. However, it is not uncommon to find outdoor tourists in all months. In the summer season, the main driver for outdoor tourism is the national and State parks. In the winter, it is primarily the numerous ski resorts throughout the region.

¹⁵ Utah Office of Tourism, Research, accessed online at <http://travel.utah.gov/research/>, February 2025.

1.2.6.1 National and State Parks

The State is home to five national parks, nicknamed ‘The Mighty 5’,¹⁶ which combined for 11.2 million recreation visits in CY 2024. All five of the parks provide miles of trails for hiking, backpacking, snowshoeing, cross country skiing, and horseback riding with backdrops of sweeping vistas and some of the highest concentrations of hoodoos (irregular columns of rock) found anywhere in the world. There are also 11 national places, including the Glen Canyon National Recreation Area and the Golden Spike National Monument. Because of the COVID-19 pandemic, the national parks in the State experienced a temporary closure starting in early April 2020. The parks began to reopen in May 2020. **Figure 1-20** presents the monthly visits to the Mighty 5 from CY 2012 through CY 2024. There was a significant drop in visitors beginning in March 2020. However, visitor traffic was relatively robust in the late summer and early fall of 2020 considering much of the tourism in the U.S. was still severely impacted as a result of the pandemic. In CY 2021, visitors to the Mighty 5 exceeded pre-pandemic levels with 11.3 million. While dropping somewhat from the peak in CY 2021, visitors to the Mighty 5 have been on an upward trend over the past three years at or above CY 2019 levels.

Figure 1-20 Park Visitors to the Mighty 5 (CY 2012 – CY 2024)

Source: National Parks Service, National Reports, accessed May 2025.

¹⁶ Mighty 5 includes Arches, Bryce Canyon, Canyonlands, Capitol Reef, and Zion.

In addition to the Mighty 5 national parks, Utah has 44 state parks. In CY 2019, state park visits had 7.4 million visitors. Unlike the national parks, Utah's state parks saw significant growth in visits in CY 2020, receiving over 8.7 million visits. The growth continued through CY 2024, as Utah state parks reported a record 13.0 million visitors.

1.2.6.2 *Ski Resorts*

The ski industry is another major driver of tourism in Utah. There are 11 ski resorts within an hour's drive of the Airport. For the 2018-19 season which runs from mid-November through April, there were 5.1 million skier days¹⁷ in Utah, the most on record. The 2019-20 season was shut down early because of the COVID-19 pandemic. However, despite the shortened season, Utah's ski resorts still saw their fourth best season on record.¹⁸ All 15 of Utah's ski areas were open for the 2020-21 season with safety protocols in place. For the 2020-21 season, ski resorts saw a record-breaking total of more than 5.3 million skier days, up nearly 3.5% from the previous record from the 2018-19 season. This trend continued through the 2023-24 season when there were 6.8 million skier days.¹⁹ Out of state skiers contributed \$2.7 billion to Utah's economy in the 2023-24 season.

1.2.6.3 *Air Travel Associated with the Church of Jesus Christ of Latter-Day Saints*

An estimated 30,000 Mormon people travel through the Airport each year on church business, including missionaries, church leaders, and employees. The 30,000 travelers does not include members of the church who live in the area and travel for business or personal reasons.²⁰ According to Business Travel News (BTN), the Church of Latter-Day Saints has ranked in the top-50 of corporate travel programs that spend the most on booked air travel in the U.S. every year since CY 2014.

The Church of Jesus Christ of Latter-day Saints expects every young man who is able and women with a desire to serve in full-time missions. It is required that those serving in missions must be single men between the ages of 18 and 25, and able to serve 24 months. Single women ages 19 and older, are able to serve 18 months in full-time missions.²¹ Prior to departing on their mission, members must attend the Missionary Training Center (MTC). About 80% of missionaries are trained at the Church's largest training center in Provo, Utah. It is home to an average of 2,700 missionaries at a time or 24,000 over the course of a year.²² According to the MTC's website, the MTC's campus has 21 buildings on a 39-acre site, with a capacity of housing and training 3,700 missionaries. Over 600,000 missionaries from nearly every country in the world have come to the MTC for training. The MTC trains missionaries for all of the Church's missions and gives instruction in 55 languages.

The Salt Lake Temple is currently under renovations which are expected to be completed by the end of 2026. The President of the Church of Latter-Day Saints has invited people from around the world to take part in an open house celebration which will occur from April 2027 to October 2027. Church officials anticipate that the six-month event will draw between three to five million visitors.²³

¹⁷ A skier day is defined as one person visiting a ski area for all or part of a day or night for skiing or snowboarding.

1.2.6.4 *Other*

The ASA is home to a rich variety of cultural, educational, and entertainment attractions including: the Utah Museum of Fine Arts; Utah Museum of Contemporary Art; Phillips Gallery; Natural History Museum of Utah; Hogle Zoo; Tracy Aviary; Fort Douglas Military Museum; Red Butte Garden; Wheeler Historic Farm; Living Planet Aquarium; The Leonardo science museum; Clark Planetarium and IMAX Theater; Discovery Gateway Children's Museum; Utah Opera; Utah Symphony; Ballet West; Repertory Dance Theatre; Pioneer Theatre Company, and others.

In 2020, 116,800 people attended the annual Sundance Film Festival, held in January in Park City, Utah. Approximately 44,000 of the attendees were visitors from out of State.²⁴ In 2021 and 2022, the Sundance Film Festival transitioned to a virtual event. The event provided both virtual and in-person experiences in the 2023 and 2024 iteration of the festival. The Sundance Institute announced that it will be moving the festival to Boulder Colorado, starting in 2027. Other festivals and events in the ASA and around the state include the Utah Shakespeare Festival, Moab Music Festival, Utah Festival Opera, Tuacahn theater series, and the Utah Arts Festival.

Major professional sports teams based in the ASA include the National Basketball Association's Utah Jazz, the National Hockey League's Utah Mammoth that was founded in 2024, Major League Soccer's Real Salt Lake, National Women's Soccer League's Utah Royals, Major League Rugby's Utah Warriors, and the Premier Lacrosse League's Utah Archers. There are also four minor league professional teams. In February 2023, the 72nd annual NBA All-Star Weekend was held in Salt Lake City. Renovations to the Delta Center, home of the Jazz and the Mammoth, are underway to better accommodate hockey and are expected to be completed by October 2027. There is a consortium, Big League Utah, to bring a Major League Baseball team to Salt Lake City. There is a proposed site for a new park to accommodate the team at the 100-acre Rocky Mountain Power District. There is belief that the City is the frontrunner for an expansion team, but it is not anticipated to occur until at least 2028.

In CY 2019, there were approximately 655,000 attendees accounting for more than \$330 million in direct spending at meetings/conventions/events in Salt Lake City.²⁵ However, the meeting industry had been one of the hardest hit sectors because of restrictions implemented during the COVID-19 pandemic. Visit Salt Lake, through its "Meet In Utah" program, offered financial incentives to groups that contracted events by December 30, 2020 that were planned to be held in CY 2021. Through this effort, 40 events were scheduled and generated 30,182 attendees in CY 2021.²⁶ Overall in CY 2021, conventions in Salt Lake City had 278,433 people generating an estimated \$115.2 million in direct spending. These statistics increased significantly in CY 2022 with 574,475 people generating \$226.4 million in direct spending. In CY 2023, despite still having fewer attendees (645,556 people) than CY 2019, direct spending topped \$350.4 million, more than CY 2019.

On October 17, 2022, the Hyatt Regency – Salt Lake City opened. The 26-story, 700-room hotel was the final piece to expansion of the City's meeting and convention area. It is situated next to the convention center to allow for easy access for convention attendees staying at the hotel. The hotel offers 60,000 square feet of indoor meeting space and 7,400 square feet of outdoor event space.

²⁵ Visit Salt Lake, 2019 Annual Report, accessed online at <https://www.visitsaltlake.com/members/member-tools/>

²⁶ Visit Salt Lake, 2021 Annual Report, accessed online at <https://www.visitsaltlake.com/members/member-tools/>

In February 2023, the Outdoor Retailer Snow Show returned to Salt Lake City after five years in Denver, Colorado. Visit Salt Lake provides a list of conventions with attendance of 50 persons or more, and major exhibitions and events attracting significant attendance from out of town. The event remained in Salt Lake City in 2024. From March 2025 through December 2025, there are currently 63 such events and conventions boosting an estimated attendance of more than 336,000 people. Most notable of these are the FanX Salt Lake City Comic Convention 2025, USA Volleyball 2025 Salt Lake City Showdown, 2025 FitCon, 2025 Rootstech Conference, 2025 SuperCopa Plus, and the Arvo 2025 Annual Meeting.

In July 2024, Salt Lake City was selected as the host city for the 2034 Winter Olympics. The events are scheduled to take place from February 10-26, 2034 with the Paralympic Winter Games to follow. Salt Lake City previously hosted these games in 2002 and has some remaining infrastructure, but it is likely new projects and upgrades will occur over the next several years in the region to be ready to host the games. The games will occur after the period of FY 2025 to FY 2031 (Projection Period) contained in this Report; however, it is expected that preparation and various construction projects are likely to have a favorable impact on air traffic demand in the ASA leading up to the games. Additionally, Salt Lake City's selection by the Olympic Committee can be viewed as another indication of the overall economic robustness of the ASA and how it compares to other regions both nationally and globally.

1.2.7 Economic Overview

According to the American Legislative Exchange Council (ALEC), Utah remained the top-ranked state for economic outlook in 2025, marking the 18th consecutive year. Utah scores high in economic outlook due to its ranking in the following policies: estate / inheritance tax levied, state minimum wage, right-to-work, average workers' compensation costs, recently legislated tax changes, and remaining tax burden. The State also has competitive personal income tax rates, corporate tax rates, property tax burdens, and public employees per 10,000 population.²⁷

Table 1-3 presents a summary of historical data and forecasts for population, employment, PCPI, and GDP/GRP for the ASA and the U.S. These factors have been shown to have significant correlation with demand for air travel and were used in developing the forecast for aviation activity. Growth for both population and employment in the ASA have historically exceeded national levels and are forecast to continue to exceed the nation as a whole. Per capita personal income for the ASA has also grown faster than the U.S. over the past 10 years, and is forecast to grow at the same rate over the period of CY 2023 through CY 2031. Per capita GRP of the ASA has historically outpaced per capita GDP and is forecast to continue to do so over the period.

2 Air Service and Air Traffic Analysis

This chapter describes and evaluates the state of air service at the Airport, analyzes historical trends in air traffic, identifies key factors that generally affect demand for air travel, and provides projections of future air traffic activity.

2.1 Air Service at the Airport

The following sections evaluate current air service capacity and operating performance for the primary passenger airlines serving the Airport. The Airport's overall O&D market is also assessed at the market level, comparing performance with prior years. Because of Delta's significant presence at the Airport, the airline is evaluated in greater detail. The Airport's role as a connecting hub for Delta when compared to other U.S. hubs is examined.

2.1.1 Airlines Operating at the Airport

The Airport has historically been served with diverse air service from the primary U.S. airlines. As of data available in April 2025, the Airport had scheduled passenger service by five U.S. network airlines,²⁸ three low-cost carriers (LCCs),²⁹ three ultra-low-cost carriers (ULCCs),³⁰ and four foreign flag airlines. Five regional/commuter passenger airlines operate at the Airport to accommodate the passengers of the major airlines. Additionally, there was cargo service provided by 14 all-cargo airlines. **Table 2-1** provides a list of the scheduled passenger and all-cargo airlines that serve the Airport in CY 2025 based on data as of April 2025.

To illustrate specific trends in changes to the passenger market share, **Table 2-2** provides the enplaned passengers by airline with the associated market share from FY 2019 through FY 2024. In FY 2019, Delta accounted for 72.1% of the total enplaned passengers at the Airport. Although Delta's number of enplaned passengers declined in FY 2020 primarily because of the impacts related to the COVID-19 pandemic during the last several months of FY 2020, its passenger market share at the Airport increased. Delta accounted for 73.0% of the total enplaned passengers in FY 2020. In FY 2022, Delta accounted for 73.4% of the enplaned passengers. However, despite growth in enplaned passengers and being 3.0% higher than in FY 2019, Delta has declined in market share from FY 2022 to FY 2024. In FY 2024, Delta accounted for 70.1%. The reason for this decline in market share is due to several of the other airlines increasing their shares by having higher growth over this period. Over this period, several airlines increased their market shares and in FY 2022, Spirit Airlines began service at the Airport.

²⁸ For the purposes of this Report, Alaska Airlines, American Airlines, Delta Air Lines United Airlines, and Hawaiian Airlines are considered network airlines.

²⁹ For the purposes of this Report, Avelo Airlines, Southwest Airlines, and JetBlue Airways are considered low-cost carriers.

³⁰ For the purposes of this Report, Frontier Airlines, Sun Country Airlines, and Spirit Airlines are considered ultra-low-cost-carriers.

2.1.2 Current Nonstop Service

As of data available in June 2025, there is scheduled service to 109 destinations (95 domestic and 14 international) from the Airport during CY 2025.³¹ The 109 destinations includes new domestic nonstop service to Little Rock (LIT) scheduled to begin in September 2025, Kona (KOA) scheduled to begin December 2025, and Fort Myers (RSW) scheduled to begin December 2025 and new international nonstop service to Edmonton (YEG) that began in May 2025, Seoul (ICN) that began in June 2025, and Monterrey (MTY) scheduled to begin in December 2025. **Figure 2-1** and **Figure 2-2** illustrate the scheduled domestic and international nonstop markets at the Airport, including the announced new service. In June 2025, there were 354 average daily departures serving nonstop service per Airport records.

2.1.3 Origin and Destination Markets

Table 2-3 provides information regarding the Airport's top domestic O&D markets, including the number of daily O&D enplaned passengers for CY 2024. Certain markets, such as the Los Angeles Basin, serve multiple airport destinations. The Los Angeles Basin market is the largest O&D market served from the Airport with an average of 2,265 daily O&D enplaned passengers. As of March 2025, the Airport had nonstop service to all of its top 25 O&D markets and all except one (ATL) have service provided by more than one airline and 12 of the 25 have service provided by three or more airlines. This competition among airlines serving the same markets can lead to lower fares.

The Airport's top international O&D market is Cancun, Mexico, which has nonstop service.³² Other major international O&D markets include San Jose del Cabo, Mexico; London, England; Puerto Vallarta, Mexico; Paris, France; and Mexico City, Mexico. All of these major international markets currently have scheduled nonstop service. San Jose, Costa Rica is the largest international O&D market without nonstop service. Overall, trans-Atlantic destinations accounted for 35.3% of international O&D traffic in CY 2024, which was the largest international region for O&D demand. Mexico was the second largest region with 24.5% of the international O&D traffic. Latin America (17.5%), Asia/Pacific (12.1%), and Canada (10.6%) were the next three largest regions with nonstop service from the Airport.

³¹ Some service is seasonal and may not operate in a given month.

³² Cancun service is provided year-round by Southwest Airlines and seasonally by American Airlines.

2.1.4 Airline Revenue Performance at the Airport

Airline performance at an airport can be measured primarily by three key airline revenue metrics: revenue per available seat mile, load factor, and yield. Each of these airline metrics are summarized below.

- **Revenue per available seat mile (RASM)** – RASM is the unit metric used by airlines, expressed in cents, to measure the amount of revenue received for each available seat mile (ASM). ASMs are measured by airlines for the purpose of determining capacity; one ASM unit equates to one seat flying one mile. For example, an aircraft with 100 seats operating on a route of 1,000 miles would equate to 100,000 ASMs. For the purposes of this analysis, RASM only measures passenger revenue derived from air fares and does not include other revenues received by airlines such as baggage fees.
- **Load factor** – Load factor measures how an airline is performing on a specific route or in aggregate in terms of filling its available seat capacity. Load factor is calculated as total revenue passenger miles (RPMs) divided by ASMs. RPMs are the general airline metric for measuring the number of miles traveled by paying passengers. For example, a revenue passenger flying one mile equates to one RPM.
- **Yield** – The last measure is airline yield, represented by revenue per passenger mile (RPM). Yield (or RPM) is like RASM, however, yield measures revenue for each passenger-mile sold (RASM measures revenue for each passenger-mile available to be sold). Yield is the industry measurement for price, while load factor is a volume-related measurement. RASM factors in both and, thus, is considered the key airline revenue metric.

In general, the higher the RASM or yield the more profitable an airline is assuming that the number of ASMs remain constant over time. Since an airline’s revenue does not necessarily increase proportionately with the distance it flies, both RASM and yield will typically decrease as the overall length of the trip or stage length increases. Therefore, if an airline increases its overall stage length, it should be expected that RASM and yield will decrease. To account for this, RASM and yields have been adjusted based on the airline’s average stage length. For the purposes of this Report and to normalize for varying stage lengths, all stage length adjusted (SLA)³³ values are expressed in a base of 1,000 miles.

Table 2-4 compares key airline revenue metrics for all U.S airlines and the three largest network airlines serving the Airport for the 12-month period ending March 2020 (YE March 2020)³⁴ versus CY 2024. Key airline revenue metrics exhibited some decreases during the COVID-19 pandemic. However, as shown for CY 2024, key airline revenue metrics for the Airport are better than the national average and better than those for the Airport prior to the COVID-19 pandemic. Note that the data presented does not include airline ancillary fees for items such as ticket changes, checked bags, priority seating, etc., as this data is not available by airport. Over the years, U.S. airlines have realized significant revenues from these ancillary fees.

³³ Stage length adjustments are a common practice used to normalize comparisons of passenger yields and revenue per available seat mile. Stage length adjustments for 1,000 miles are made using the formula:
SLA Value = Value * (observed length of haul/1000)^{0.5}.

³⁴ Based on the availability of data, this period is generally assumed as the latest 12-months prior to the impacts associated with the COVID-19 pandemic.

Table 2-4 Key Airline Revenue Metrics at the Airport (YE March 2020 vs. CY 2024)

Airline	SLA Passenger RASM		Load Factor		SLA Yield	
	YE March 2020	CY 2024	YE March 2020	CY 2024	YE March 2020	CY 2024
Delta Air Lines	13.1¢	15.6¢	85%	85%	15.7¢	18.5¢
Southwest Airlines	9.1¢	9.9¢	80%	81%	11.5¢	12.4¢
United Airlines	13.4¢	16.3¢	83%	85%	16.1¢	19.2¢
American Airlines	11.9¢	13.7¢	83%	88%	14.4¢	15.6¢
Airport Average	12.4¢	14.2¢	84%	85%	14.9¢	17.0¢
National Average	11.8¢	12.7¢	82%	84%	14.6¢	15.4¢

Notes: Data include regional affiliates, as applicable, and do not include airline ancillary fees such as charges for checked baggage, etc.
 Stage length adjustments are a common practice used to normalize comparisons of passenger yields and revenue per available seat mile. Stage length adjustments for 1,000 miles are made using the formula:
 SLA Value = Value * (observed length of haul/1,000)^{0.5}

2.1.5 Delta Operations at the Airport

As described previously, the Airport serves as a key hub for Delta. Delta is the largest airline at the Airport, enplaning 70.1% of the Airport’s total passengers in FY 2024. The Airport is one of Delta’s primary interior U.S. connecting hubs within its network, along with Hartsfield-Jackson Atlanta International Airport (ATL), Minneapolis-Saint Paul International Airport (MSP), and Detroit Metropolitan Wayne County Airport (DTW). As shown in **Table 2-5**, the Airport is Delta’s 4th largest domestic airport, 8th largest international airport, and 4th largest overall airport based on FY 2024 departing seats.

Table 2-5 Delta's Top 10 Airports Based on Departing Seats (FY 2024)

Name	Code	Domestic		International		Total	
		Seats	Rank	Seats	Rank	Seats	Rank
Hartsfield-Jackson Atlanta International Airport	ATL	41,287	1	6,239	1	47,526	1
Minneapolis–Saint Paul International Airport	MSP	13,685	2	1,460	4	15,145	2

Source: Diio Mi, Schedule – Dynamic Table, accessed April 2025.

2.1.5.1 Delta's O&D Passenger Traffic at the Airport

The size of the Airport's O&D base is a key consideration for Delta as a hub. As shown in **Table 2-6**, the Airport generated more than \$1.0 billion in estimated fare revenue for Delta during CY 2024; which is the latest data available. The Airport was 3rd highest in terms of one-way average domestic fare. It was the 7th highest in terms of domestic O&D revenue and the 8th largest based on domestic O&D passengers.

Table 2-6 Delta's Top 10 Domestic O&D Airports Based on Fare Revenue (CY 2024)

Name	Code	Domestic O&D Enplanements (millions)	Revenue (in millions)	Average One-Way Fare	
				Dollars	Ranking
Los Angeles International Airport	LAX	4.7	\$1,208	\$259	1
John F. Kennedy International Airport	JFK	4.5	\$1,143	\$253	2
Salt Lake City International Airport	SLC	4.3	\$1,041	\$241	3
Detroit Metropolitan Wayne County Airport	DTW	5.4	\$1,270	\$235	4
Hartsfield-Jackson Atlanta International Airport	ATL	10.3	\$2,319	\$226	5
Boston Logan International Airport	BOS	4.4	\$970	\$222	6
Minneapolis–Saint Paul International Airport	MSP	5.7	\$1,262	\$220	7
Seattle-Tacoma International Airport	SEA	3.3	\$707	\$213	8
Orlando International Airport	MCO	3.2	\$638	\$201	9
LaGuardia Airport	LGA	5.7	\$1,082	\$191	10

Note: Fares are exclusive of taxes and fees.

Figure 2-3 presents the percentage of Delta's total enplanements that are O&D passengers at each of its key interior connecting hub airports including ATL, MSP, DTW, and the Airport. Interior hubs are considered to be those hub airports that are geographically located within the interior of the U.S. and not within a state on either the east or the west coast. As shown, 51.1% of Delta's enplaned passengers at the Airport were O&D passengers during the fourth quarter of 2024. This percentage of O&D traffic is slightly lower than its other major connecting hubs at MSP and SLC. Delta's share of O&D traffic at the Airport was also well above that for Delta's ATL hub. However, given ATL's role as Delta's largest global connecting hub airport, comparisons to ATL are not as relevant as the other hub comparisons.

Per discussions with Delta staff prior to the COVID-19 pandemic, serving large O&D markets and maintaining a ratio of approximately 40% to 50% of O&D traffic at its primary connecting hubs, except for ATL, was considered to be a sustainable balance for its network. Over the past two decades, other Delta connecting hubs that served much smaller local O&D markets that were unable to sustain a similar share of O&D passenger traffic were either significantly downsized or discontinued as connecting hubs within Delta's network. The share of Delta's O&D passenger traffic at its interior hubs (except ATL) in recent years has generally exceeded levels since prior to the pandemic, which is assumed to be influenced by a number of factors including supply-side issues such as aircraft and pilot shortages discussed later in this Chapter.

Figure 2-3 Delta's O&D Enplaned Passengers as a Percentage of its Total Enplaned Passengers at Interior Connecting Hubs (2018 Q4 – 2024 Q4)

Source: Cirium, Diio Mi: US DOT Reports DB1A, accessed April 2025.

2.1.5.1 Delta's Connecting Traffic at the Airport

The Airport provides Delta a strategic presence in the western U.S. allowing for connectivity to and from the U.S. Mountain-West and Pacific regions. **Figure 2-4** presents the U.S. regions used for our analysis of Delta's connecting traffic.

Figure 2-4 United States Regions for Analysis Purposes

Source: U.S. Census Bureau, Census Regions and Divisions of the United States.

The Airport is a critical connecting hub for those passengers that begin their journey in the West. For CY 2024, approximately 11.2 million Delta passengers originated in the West and connected through one of Delta’s major hubs. Delta passengers originating from the West accounted for 23.9% of the passengers connecting at Delta’s major hubs, which is the second largest region of origin (only behind the South) for passengers that connect through a Delta hub. **Figure 2-5** graphically depicts Delta hub traffic flow from the West region through each of Delta’s connecting hubs to the final destination region. The Airport handled 2.8 million of the 11.2 million passengers (24.7%) connecting from origins in the West region, second only to ATL. Approximately 1.2 million (42.5%) of those 2.8 million passengers that connected had their final destination be in the West region. The 1.2 million West-to-West connecting passengers through the Airport is more than half of all West-to-West connections through all of Delta’s hubs. **Table 2-7** provides the detailed number of connecting passengers at each of Delta’s connecting hubs.

Figure 2-5 Traffic Flows Through Delta Connecting Hubs from the West Region (CY 2024)

Source: Cirium, Diio Mi: US DOT Reports DB1A, accessed April 2025.

Table 2-7 Delta Connecting Passengers by Hub by Region (CY 2024)

		Enplaned Passengers (In Thousands)

Note: Totals may not add due to rounding.

Source: Cirium, Diio Mi: US DOT Reports DB1A, accessed April 2025.

Delta's other major airport operations in the western U.S. are on the west coast at SEA and Los Angeles International Airport (LAX). Both airports are also considered key Delta gateways to Asia. Other than serving the major U.S. west coast corridor markets, the geographic locations of SEA and LAX on the U.S. west coast are considered a disadvantage in operating efficient domestic connecting traffic flows throughout the western region of the U.S. While there is some overlap in Delta's service provided to larger west coast markets from the Airport, SEA, and LAX, these three airports generally do not compete with one another, as each airport serves distinct markets and regions not served by the others. Additionally, with the Airport's central location within the western U.S., it serves as an efficient connecting point for Delta passengers to or from both SEA and LAX to the other U.S. destinations. Both LAX (24.1% connecting) and SEA (38.9% connecting) are considered primarily O&D airports for Delta, although their geographic locations also offer the opportunity to provide connections to trans-Pacific, Mexican, and Canadian international markets, and larger markets along the U.S. west coast. LAX and SEA also serve as a connecting point for traffic to and from the Airport to Alaska and Hawaii, although Honolulu is served nonstop from the Airport, and Maui and Anchorage have been seasonally served nonstop markets from the Airport as well. SEA also has significant capacity constraints due to the limited physical space with its location in the city and airspace congestion with sharing airspace with nearby facilities Boeing Field, Paine Field, and Renton Airport.

Table 2-8 presents the top 10 airports where passengers either began or ended their trips while connecting through these U.S. west coast hubs on Delta for CY 2024. As shown, Delta's top 10 connecting markets through the Airport account for about a quarter (26.4%) of Delta's total connecting passengers and the Airport, with most of the markets being located in the Mountain-West or western portion of the U.S. By comparison, the top airport where most passengers either begin or end their trips on Delta while connecting through either SEA or LAX are Anchorage (ANC) and Honolulu (HNL), respectively. The majority of other passenger connections at SEA or LAX are generally to airports that are most proximate to those hubs, relative to the other hubs. For example, 26.8% of passengers connecting at SEA on Delta either begin or end their trip in Anchorage, Portland, Spokane, Boise, or Vancouver. Similarly, for LAX, 23.2% of passengers begin or end their trips in Hawaii, Sydney, Portland, SLC, or San Francisco. Overall, Delta's top 10 connecting markets through SEA or LAX account for more than 35% of Delta's total connecting passengers indicating that the top connecting markets at SEA and LAX are more concentrated as a share of the connecting passengers than the top connecting markets at the Airport, thus indicating that Delta's connecting traffic at the Airport is more diverse than its connecting traffic in SEA and LAX.

Table 2-8 Delta Top 10 Airports with Passengers Connecting at Western U.S. Hubs (CY 2024)

Salt Lake City International Airport		Los Angeles International Airport		Seattle-Tacoma International Airport

2.2 Air Traffic Activity and Trends

This section analyzes historical trends in air traffic activity at the Airport including enplaned passengers, aircraft operations, and landed weight.

2.2.1 Enplaned Passengers

Passenger activity drives many of the revenue sources generated at the Airport and some key capital funding sources. These include key non-airline revenues, such as parking, rental car, and terminal concessions; Passenger Facility Charge (PFC) revenues; and FAA Airport Improvement Program (AIP) entitlement grant distributions. **Table 2-9** presents the historical enplaned passengers at the Airport categorized by domestic and international for the period of FY 2014 through FY 2025 year-to-date.

To further discuss the trends in enplaned passengers, the past 11 years has been segregated into certain time periods as discussed below:

- **FY 2014 – FY 2016:** From FY 2014 through FY 2016, domestic connecting enplaned passengers averaged 5.0 million driven by the Airport's status as a Delta hub. During this period, domestic O&D increased at an average rate of 7.9%. This growth was accommodated mostly by American and Alaska, all of which added more than 350,000 departing seats at the Airport and Delta which added 200,000 departing seats. As a result, domestic O&D had increased its share of enplaned passengers at the Airport from 50.1% to 53.2%. International enplaned passengers increased by 69.9%. Delta added four international destinations (AMS, LHR, MEX, and YYZ) during this period and KLM and Air Canada began service at the Airport in FY 2016.

Table 2-9 Historical Enplaned Passengers (FY 2014 – FY 2024 and FY 2025 Year-to-Date)

Fiscal Year	Domestic O&D	Domestic Connecting	International	Total	Year-Over-Year Growth Rate
FY 2014	5,160,531	4,954,605	179,558	10,294,694	2.5%
FY 2015	5,608,806	5,001,093	223,809	10,833,708	5.2%
FY 2016	6,007,652	4,980,221	305,138	11,293,011	4.2%
FY 2017	6,454,975	4,961,985	433,260	11,850,220	4.9%
FY 2018	6,987,303	4,942,253	490,647	12,420,203	4.8%
FY 2019	7,325,043	5,230,673	534,346	13,090,062	5.4%
FY 2020	5,698,212	4,015,233	382,287	10,095,732	-22.9%
FY 2021	4,243,214	3,290,759	176,380	7,710,353	-23.6%
FY 2022	7,417,174	4,959,797	425,247	12,802,218	66.0%
FY 2023	7,805,106	4,669,794	668,210	13,143,110	2.7%
FY 2024	8,370,946	4,815,193	664,277	13,850,416	5.4%
FY 2019 YTD ¹	11,428,098		471,493	11,899,591	
FY 2024 YTD ¹	11,997,867		601,510	12,599,377	
FY 2025 YTD ¹	12,045,798		625,553	12,671,351	0.6%
Range					
Average Annual Growth Rate					
FY 2014-19	7.3%	1.1%	24.4%	4.9%	
FY 2019-24	2.7%	-1.6%	4.4%	1.1%	

¹ Year-to-date (YTD) data is July through May.

Source: Salt Lake City Department of Airports, Air Traffic Statistics, accessed July 2025.

- **FY 2016 – FY 2019:** Domestic O&D continued strong growth from FY 2016 through FY 2019 with a CAGR of 6.8%, reaching 7.3 million enplaned passengers in FY 2019. During this period, Delta added 1.4 million departing seats, almost triple the amount of all the other carriers combined. This increase in seating not only accommodated the growth in O&D traffic but provided more opportunities for connecting traffic. Domestic connecting passengers was flat through FY 2018 but experienced a 5.8% increase in FY 2019, increasing the number of domestic connecting passengers to 5.2 million. Additionally, international enplaned passengers increased from 305,000 in FY 2016 to 534,000 in FY 2019 as airlines the new nonstop service added FY 2016 began full operations and new service from Aeromexico was started.
- **FY 2019 – FY 2021:** Beginning in March 2020, enplaned passengers at the Airport, along with airports nationally, decreased dramatically because of the impacts associated with the COVID-19 pandemic. These impacts included international travel restrictions and stay-at-home orders throughout the U.S. At the Airport, enplaned passengers declined by 22.9% in FY 2020 followed by another decrease of 23.6% in FY 2021.
- **FY 2021 – FY 2024:** In FY 2022, the Airport recovered a significant amount of its passenger traffic primarily lost as a result of the impacts associated with the pandemic but was still 2.2% below FY 2019 levels. In FY 2022, Spirit Airlines started service at the Airport which helped to spur demand. The recovery was not consistent across the segments. Domestic O&D fully recovered by FY 2022, but domestic connecting and international enplaned passengers were still below FY 2019 levels. Domestic O&D enplaned passengers have increased significantly each year since fully recovering. In FY 2024, there were 8.4 million enplaned domestic O&D passengers, 14.3% higher than FY 2019. Additionally, international passengers exceeded FY 2019 levels by FY 2023 and reached 664,000 enplaned passengers in FY 2024, 24.3% higher than FY 2019. However, domestic connecting passengers are not recovering at the same rate. After an initial recovery in FY 2022, domestic connecting passenger remain 7.9% below FY 2019 levels. This trend is discussed more later in this chapter.
- **FY 2025 year-to-date:** There have been 12.7 million enplaned passengers at SLC through the first 11 months of FY 2025. This equates to a 0.6% increase from the first 11 months of FY 2024. Year-to-date, domestic enplaned passengers are up 0.4% while international enplaned passengers are up 4.0%.

2.2.2 Aircraft Operations

Airlines' decisions on aircraft type and the number of operations to accommodate passenger demand ultimately determine overall aircraft landed weight. Airlines are constantly evaluating how to best serve passenger demand with their available aircraft fleet. In markets that exhibit strong business travel, an airline may decide to operate smaller aircraft on the route several times per day to offer customers more choice and redundancy. In other cases, an airline may choose to offer larger aircraft and less frequency. Airlines also make decisions to change aircraft capacity on particular routes in response to load factors and profitability. Aircraft fleet mix and operations are important considerations for airport operators when planning for the appropriately sized airport facilities and to ensure the airport has sufficient capacity to accommodate operations in the future. **Table 2-10** presents the aircraft operations at the Airport from FY 2014 through FY 2025 year-to-date.

Table 2-10 Historical Aircraft Operations (FY 2014 – FY 2024 and FY 2025 Year-to-Date)

Fiscal Year	Passenger	All-Cargo	General Aviation	Military	Total	Year-Over-Year Growth Rate
FY 2014	237,700	18,098	66,620	2,190	324,608	-1.9%
FY 2015	237,948	18,484	60,824	2,738	319,994	-1.4%
FY 2016	237,294	19,434	50,879	7,978	315,585	-1.4%
FY 2017	247,150	20,240	48,843	7,202	323,435	2.5%
FY 2018	250,904	20,382	53,695	7,037	332,018	2.7%
FY 2019	253,578	20,618	61,117	5,751	341,064	2.7%
FY 2020	216,320	20,604	63,326	2,792	303,042	-11.1%
FY 2021	219,808	20,672	68,469	3,190	312,139	3.0%
FY 2022	245,840	20,296	69,370	3,001	338,507	8.4%
FY 2023	232,416	17,082	66,339	4,156	319,993	-5.5%
FY 2024	244,188	15,834	61,485	3,279	324,786	1.5%
FY 2019 YTD ¹	231,790	19,026	55,019	5,495	311,330

Range						
Average Annual Growth Rate						
FY 2012-19	1.3%	2.6%	-1.7%	21.3%	1.0%	
FY 2019-24	-0.8%	-5.2%	0.1%	-10.6%	-1.0%	

¹ Year-to-date (YTD) data is July through May.

Source: Salt Lake City Department of Airports, Air Traffic Statistics, accessed July 2025.

Commercial operations at the Airport refers to commercial passenger and all-cargo aircraft operations. The Great Recession³⁵ forced airlines to re-examine their operations in an effort to remain financially sound. As a result, many airlines implemented cost-saving measures and eliminated many poor performing routes with low load factors. Additionally, airlines opted to use larger aircraft where feasible. Small regional jets (aircraft with 50 or fewer seats) were retired at an accelerated rate. According to the U.S. Department of Transportation Air Carrier Statistics database (T-100), the average number of seats on departing aircraft at the Airport increased from an average of 103.5 seats in FY 2014 to 119.9 seats in FY 2019. This significant change in the aircraft fleet operating at the Airport, combined with higher load factors resulted in an increase in the average number of enplaned passengers from approximately 86.9 per departure in FY 2014 to 101.4 in FY 2019. This increase in passengers per operation has allowed airlines to operate fewer flights to handle a comparable number of passengers. As a result, scheduled commercial passenger aircraft operations increased from FY 2014 at a CAGR of 0.2% through FY 2019, compared to 2.5% for enplaned passengers.

In response to the significant decrease in enplaned passengers in the U.S. and at the Airport during the ongoing COVID-19 pandemic, the airlines reduced the number of daily flights and air service in kind. There was an initial reluctance to remove flights from flight schedules because of the implementation of social distancing practices (i.e., restricting the use of middle seats). In FY 2020, aircraft operations were down 11.1% compared to enplaned passengers down 22.9%. As was the case for enplaned passengers, aircraft operations had a significant recovery in FY 2022. In FY 2022, aircraft operations overall were 8.5% lower than in FY 2019. However, there has been a slight decline since FY 2022 as airlines opted for larger aircraft to handle the recovery of enplaned passengers. Despite commercial aircraft operations being 5.2% lower in FY 2024 when compared to FY 2019, departing seats were up by 8.4%.

Non-commercial operations at the Airport refers to general aviation (GA) and military aircraft operations. From FY 2014 to FY 2019, GA aircraft operations have declined at a CAGR of 1.7%. From FY 2014 to FY 2019, military aircraft operations increased from 2,190 to 5,751 in FY 2019. After an initial increase in operations during the pandemic, GA aircraft operations have returned to their pre-pandemic levels. Meaning, military aircraft operation share decreased at a CAGR of 10.6% since FY 2019.

2.2.3 Aircraft Landed Weight

Aircraft landed weight, expressed in 1,000-pound units, is the sum of the maximum gross certificated landing weight as certified by the FAA for passenger and all-cargo aircraft landing at the Airport. Per the Airline Use Agreement with the Signatory Airlines that operate at the Airport, aircraft landed weight is used as the denominator in the calculation of landing fees that are used to recover the net cost of the airfield. Therefore, landed weight is an important measure for the Department as it provides a method to recover costs associated with the airfield from each airline based on its share of landed weight. **Table 2-11** presents the landed weight at the Airport from FY 2014 through FY 2025 year-to-date.

³⁵ The Great Recession was a major U.S. economic recession that occurred between December 2007 and June 2009.

Table 2-11 **Historical Landed Weight in million-pound units (FY 2014 – FY 2024 and FY 2025 year-to-date)**

Fiscal Year	Passenger Airlines	All-Cargo	Total	Year-Over-Year Growth Rate
FY 2014	11,741	938	12,679	2.2%
FY 2015	12,203	998	13,201	4.1%
FY 2016	12,512	1,070	13,582	2.9%
FY 2017	13,303	1,106	14,410	6.1%
FY 2018	13,737	1,172	14,909	3.5%
FY 2019	14,264	1,201	15,465	3.7%
FY 2020	12,315	1,246	13,562	-12.3%
FY 2021	12,631	1,357	13,988	3.1%
FY 2022	14,669	1,320	15,989	14.3%
FY 2023	14,432	1,166	15,598	-2.4%
FY 2024	15,550	1,023	16,573	6.2%
FY 2019 YTD ¹	13,018	1,111	14,130	
FY 2024 YTD ¹	14,205	942	15,147	
FY 2025 YTD ¹	14,478	922	15,400	1.7%
Range	Average Annual Growth Rate			
FY 2012-19	4.0%	5.1%	4.1%	
FY 2019-24	1.7%	-3.2%	1.4%	

¹ Year-to-date (YTD) data is July through May.

Source: Salt Lake City Department of Airports, Air Traffic Statistics, accessed July 2025.

Aircraft landed weight at the Airport increased from 12.7 million units in FY 2014 to 15.5 million units in FY 2019, representing a CAGR of 4.1%. Both passenger airlines and all-cargo airlines contributed to landed weight growth, increasing at a CAGR of 4.0% and 5.1%, respectively. Aircraft landed weight decreased by approximately 12.3% in FY 2020. In FY 2021, the landed weight increased by 3.1%. Passenger landed weight has continued to increase and was 9.0% FY 2019 in FY 2024. However, after an initial increase for all-cargo landed weight in FY 2021 and FY 2022, there has been a steady decline over the past two years. In FY 2024 all-cargo landed weight was 14.8% below FY 2019 levels. A decline in all-cargo landed weight and aircraft operations over the past two years has been a national trend as the demand for e-commerce products declined following the end of the COVID-19 pandemic.

2.3 Key Factors Affecting Air Traffic Demand

The following section addresses certain key factors that could impact air traffic activity, both nationwide and at the Airport.

2.3.1 Economic Conditions and Exogenous Events

Historically, the U.S. economy as measured by GDP has grown at a relatively steady rate, averaging 3.1% growth per annum between CY 1960 and CY 2019. The rate of growth has been remarkably stable reflecting both the size and maturity of the U.S. economy. Individual years have fluctuated from the long-term trend for a variety of reasons including macroeconomic factors, fuel shocks, war, and terrorist attacks.

Traditionally, two consecutive quarters of contraction is the benchmark used to determine if a country has entered a recession. The National Bureau of Economic Research defines a recession as a significant decline in economic activity that is spread across the economy and lasts more than a few months.³⁶

Prior to CY 2020, there were two official economic recessions in the U.S. in the 21st century. The first occurred between March 2001 and November 2001. The recession itself was short-lived by historical standards and the economy returned to positive growth quickly, fueled by a gradual but prolonged reduction in interest rates. The Great Recession occurred between December 2007 and June 2009.³⁷ As a result of the Great Recession, the nation's unemployment rate rose from 5.0% in December 2007 to a high of 10.0% in October 2009.³⁸

The outbreak of COVID-19 in early 2020 and declaration of a pandemic by the World Health Organization on March 11, 2020, coupled with the subsequent stay-at-home orders led to the disruption of economies around the world, resulting in dramatic increases in unemployment. According to the (BEA, real GDP decreased at an annual rate of 31.4% in the second quarter of 2020 after decreasing by 5.0% in the first quarter of 2020. In comparison, the worst decrease in GDP during the Great Recession was 8.4% in the fourth quarter of 2008. There was a significant recovery in GDP in the third quarter of 2020, increasing 33.4%. The initial recovery was followed by five straight quarters of positive growth. In the first quarter of 2021, GDP exceeded the level experienced in the fourth quarter of 2019. In the first quarter of 2022, there was a contraction in GDP. The third estimate for the fourth quarter of 2024 shows a growth in GDP of 2.4%, the 11th consecutive quarter of positive growth. **Figure 2-6** depicts the magnitude of the impact the COVID-19 pandemic had on the U.S. economy and the subsequent recovery when compared to the Great Recession.

Figure 2-7 shows the historical real U.S. GDP growth from the U.S. BEA and growth forecasts for the U.S. between CY 2024 and CY 2031 from two different sources, Congressional Budget Office (CBO) and Federal Open Market Committee (FOMC). These sources forecast U.S. GDP will increase between 1.7% and 2.2% through CY 2031.

Figure 2-7 U.S. Real GDP Growth Forecasts

Board of Governors of the Federal Reserve System, Federal Open Market Committee, Summary of Economic Projections, March 18, 2025. Bureau of Economic Analysis, Gross Domestic Product, Fourth Quarter 2024 (Advance Estimate), February 2025.

Although the economy is a primary driver for air traffic, exogenous events can further exacerbate the impacts to air travel. For instance, the economic recession that occurred in CY 2001 had a direct impact on air travel, but its impact was compounded by the September 11, 2001 terrorist attacks. The negative impact of this event on the airline industry is well documented. More recently, the COVID-19 pandemic and subsequent government-imposed travel restrictions resulted in dramatic decreases in air traffic. **Figure 2-8** shows long-term enplaned passenger traffic growth in the U.S. During periods of economic contractions, there is a notable decline in enplaned passenger volumes, and during the subsequent economic expansions and recovery periods, there is significant growth in volumes. Exogenous shocks such as wars and terrorist attacks have generally had a short but significant impact on passenger volumes. As presented in this figure, the COVID-19 pandemic has been the most disruptive event to impact aviation in history over this period. In general, U.S. enplaned passenger traffic has recovered back to CY 2019, or pre-pandemic levels.

Figure 2-8 U.S. Aviation System Shocks and Recoveries (through February 2025)

Increases in prices can have a negative impact on air traffic, especially if prices increase at a faster rate than income. The consumer price index (CPI) is a measure of the average change over time in the prices paid by urban consumers for consumer goods and services. Consumer prices began to increase in April 2021 as the country was continuing to recover from the recession associated with the COVID-19 pandemic. High levels of government spending during the pandemic and global supply chain issues were among factors that contributed to increases in CPI. The average cost of goods and services began to climb at an accelerated rate in June 2021 with items like food, fuel, and housing being directly impacted. In June 2022, the CPI increased to 9.1% over June 2021. Since June 2022, the increase in CPI has slowed. In March 2025, the CPI increased by 2.4% over March 2024. **Figure 2-9** graphically depicts how CPI in the U.S. has changed since January 2007.

2.3.2 The U.S. Airline Industry

2.3.2.1 Airline Profitability

Airlines generally design route networks based on profitability and connectivity (primarily for network carriers). When profitability becomes compromised, an airline will, generally, review profitability by route and could act by increasing service on profitable routes and/or by reducing or eliminating unprofitable routes from their network. **Figure 2-10** provides the systemwide income margin for U.S. carriers since the first quarter of 2000. Triggered initially by the economic recession and compounded by the September 11 terrorist attacks, airlines had 20 out of 22 straight quarters with negative income margins beginning in the fourth quarter of 2000. During this period, several airlines filed for bankruptcy protection, most notably Trans World Airlines, US Airways, United Airlines, Northwest Airlines, and Delta Air Lines. These difficult financial times for U.S. airlines resulted in some industry contraction as several mergers took place. This is discussed in more detail in the next section.

Figure 2-10 Systemwide Income Margin for U.S. Carriers (2000 Q1 – 2024 Q3)

Source: Bureau of Transportation Statistics, Net Income: All U.S. Carriers - All Regions.

The Great Recession also had a significant impact on the airline industry. In response, U.S. airlines decreased capacity, particularly in shorter-haul markets with smaller, shorter-range aircraft types in CY 2008 and CY 2009. This generally resulted in significant improvements to airline yields, RASM, and profitability. In the years prior to the COVID-19 pandemic, the U.S. airline industry was at its most stable, profitable point over this period. According to the Bureau of Transportation Statistics (BTS), the 23 U.S. scheduled passenger airlines, at that time, reported a pre-tax net operating profit of \$15.8 billion in CY 2019, which was a 19.7% increase from CY 2018 and marked the eleventh consecutive year of pre-tax operating profits. The scheduled passenger airlines reported an operating profit margin of 7.5% in CY 2019, which was up from 6.3% in CY 2018.³⁹ Profitability during this period can also be attributed to the airlines unbundling services and increasing the use of ancillary fees such as charges for checked baggage.

³⁹ Bureau of Transportation Statistics, 2019 Annual and 4th Quarter U.S. Airline Financial Data.

As a result of the impacts associated with the COVID-19 pandemic, U.S. airlines incurred record losses in CY 2020 and into CY 2021. The U.S. DOT has reported that U.S. scheduled passenger airlines reported four straight quarters of after-tax net losses beginning in the second quarter of 2020. To help support U.S. air carriers during this period, in March 2020, the U.S. Congress passed by unanimous vote the Coronavirus Aid, Relief, and Economic Security (CARES) Act. Under Title IV of the CARES Act, Congress approved \$500 billion in federal assistance to severely distressed sectors of the economy as part of the larger \$2 trillion stimulus package. Enacted on December 27, 2020, the Consolidated Appropriations Act (including CARES) created the Payroll Support Program Extension (PSP2) which allocated another \$15 billion to passenger air carriers and \$1 billion to contractors. On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) was signed and provided \$2 billion in economic relief to airports. The American Rescue Plan Act of 2021 extended assistance to passenger air carriers and contractors that received financial assistance under PSP2 for an additional \$14 billion and \$1 billion respectively. From 2022 Q2 through 2024 Q3, there has only been two quarters (2023 Q1 and 2024 Q1) with a negative operating margin for the U.S. carriers. In the third quarter of 2024, U.S. carriers posted a 3.3% systemwide operating margin.

From the first quarter of 2014 through the fourth quarter of 2024 Q4, Delta has had a positive operating margin⁴⁰ in 39 of the 44 quarters, with all five quarters with negative margins occurring at the height of the COVID-19 pandemic. Since returning to a positive margin in the third quarter of 2021, Delta has had the highest operating margin among the network carriers in nine (9) of the 14 quarters. Delta had an operating margin of 9.7% for the fourth quarter of 2024.⁴¹ Currently, Delta is forecasting an operating margin between 4% and 5% for 2025 Q1.⁴²

On November 18, 2024, Spirit Airlines filed for Chapter 11 bankruptcy protection marking the first time a major U.S. carrier has filed for bankruptcy since American Airlines in CY 2013. It did emerge from Chapter 11 bankruptcy protection on March 12, 2025. As part of the bankruptcy, Spirit Airlines is completing a consensual, deleveraging transaction that equitizes approximately \$795 million of funded debt. Additionally, the Company has received a \$350 million equity investment from existing investors to support Spirit's future initiatives⁴³ As part of a new strategy resulting from the bankruptcy, Spirit has announced it was rebranding as a premium airline. The airline is shifting its focus from price-conscious customers to more affluent travelers.

2.3.2.2 *Evolution of the U.S. Airline Industry*

Over the past two decades, the U.S. airline industry has undergone a significant transformation. The consolidation of the U.S. airline industry between CY 2000 and CY 2015 was driven by a combination of economic pressures, structural challenges, and regulatory shifts. The U.S. airline industry, cumulatively, experienced losses of approximately \$54 billion from CY 2000 through CY 2009 on domestic operations.⁴⁴ These losses were exacerbated by exogenous shocks such as the September 11 terrorist attacks, the Great Recession, and dramatic spikes in jet fuel prices, particularly oil prices spiking to nearly \$150 per barrel in CY 2008. During this period, the industry faced intense fare competition from excess capacity, resulting in yield erosion. Yields adjusted for inflation had dropped by approximately 70%. Many airlines filed for Chapter 11 bankruptcy protection and some ceased operations altogether. As a result, all the major network airlines restructured their route networks and reached agreements with lenders, employees, vendors, and creditors to decrease their cost structure. Meanwhile, the regulatory environment evolved, with federal antitrust adopting a more flexible stance toward mergers. As a result,

⁴⁰ Operating margin is the percentage of revenue a company retains after adjusted for expenses.

⁴¹ 2024 SEC 10-Q filing for Delta Air Lines accessed March 2025.

⁴² 2025 SEC 8-K filing for Delta Air Lines accessed March 2025.

⁴³ Spirit Airlines, Spirit Airlines Emerges from Financial Restructuring, Better Positioned to Advance its Transformation and Enhanced Guest Experience, <https://ir.spirit.com/news/news-details/2025/Spirit-Airlines-Emerges-from-Financial-Restructuring-Better-Positioned-to-Advance-its-Transformation-and-Enhanced-Guest-Experience/default.aspx>

⁴⁴ National Bureau of Economic Research, The Persistent Financial Losses of U.S. Airlines, July 2011.

the U.S. airline industry entered a period of rapid consolidation. In CY 2000, the four largest airlines (Delta, American Airlines, United Airlines, and Southwest Airlines), also known as the “Big Four”, accounted for 57.6% of the domestic seating capacity. These airlines consolidated with seven other airlines from CY 2000 to CY 2015. In CY 2015, the Big Four accounted for 81.8% of the domestic seating capacity.

It is expected that airlines will continue to enter into code-share agreements in attempts to seek competitive advantages. In May 2025, JetBlue Airways and United Airlines announced the formation of the “Blue Sky” partnership. The partnership between the airlines will allow passengers to earn and redeem miles by either airline; allow for reciprocal benefits such as priority boarding, free check bags, and same-day flight changes; and allow for flights from both airlines to be books on each other’s websites and mobile apps. However, the airlines will continue to operate independently, managing their own pricing scheduling, and route planning. Elements of the “Blue Sky” partnership is expected to begin as early as early fall 2025, with full implementation by 2027, subject to regulatory approval.

On December 2, 2023, Alaska Air Group announced it was planning to buy Hawaiian Airlines. The merged company would operate independently but combine its operating platforms. The shareholders of Hawaiian Airlines voted to approve the merger deal in February 2024. In August 2024, the U.S. Department of Justice opted to not challenge the merger from an antitrust standpoint. In September 2024, Alaska Airlines completed the acquisition of Hawaiian Airlines after the U.S. Department of Transportation approved the merger. In CY 2024, Alaska Airlines and Hawaiian Airlines combined to account for 6.2% of the domestic capacity.

During this period of consolidation, the major carriers went through a significant evolution in their business models. These carriers shifted from purely market share growth to focusing on profitability, network optimization, and revenue diversification. Investment in premium products, loyalty programs, and international connectivity became central to their strategies. Meanwhile, the growth of LCCs and ULCCs introduced new dynamics into the market. These carriers used a combination of low base fares, supplemented with ancillary revenue, and aggressive point-to-to strategies to appeal to leisure passengers. This strategy has not only helped to grow the industry by providing a more affordable option for vacationers, but these airlines have also captured significant market share. In CY 2000, the LCCs and ULCCs only accounted for 1.3% of the domestic capacity but steadily increased by 0.5% per annum to CY 2015 where they account for 9.8%. However, growth for these airlines has accelerated and in CY 2024, the LCCs and ULCCs combined for 14.8% of the domestic capacity.

Figure 2-11 provides a graphical representation of the major U.S. airline mergers and consolidation during this period and the growth of the LCC and ULCC airlines.

Figure 2-11 U.S. Airline Consolidation – Systemwide Seating Capacity

Note: LCCs include JetBlue Airways and Breeze Airways.

ULCCs include Spirit Airlines, Frontier Airlines, Allegiant Air, Sun Country Airlines, and Avelo Airlines.

Source: US DOT Reports DB1A; US DOT T100 Report, accessed via Cirium, Diio Mi.

2.3.2.3 *Aircraft and Personnel Shortages*

Airlines parked and decommissioned aircraft during the pandemic as demand declined but now are struggling with capacity to meet the demand as air travel has essentially returned to CY 2019 levels. Supply chain issues and staffing shortages resulted in a significant slowdown in the production of new aircraft. In CY 2019, Boeing delivered 380 aircraft which fell to 157 in CY 2020. Boeing was able to return to pre-pandemic delivery levels in CY 2022 but is still behind in deliveries. In CY 2023, Boeing delivered 528 aircraft, representing an increase of 1% from CY 2022. Boeing met its target of 375 Boeing 737 jets with 396 and its target of 70-80 deliveries of the Boeing 787 with 73.⁴⁵ On September 13, 2024, around 33,000 Boeing workers went on strike demanding a 40% wage increase over four years. The strike has halted production of the 737 Max, 767, and 777 aircraft. The strike ended on November 5, 2024 when workers accepted a new contract. Boeing has also announced that it would lay off 10% of its workforce in the coming months, which will further delay the delivery of the 777 aircraft. In CY 2024, Boeing delivered 348 aircraft, the lowest since the beginning of the COVID-19 pandemic. In CY 2019, Airbus delivered 863 aircraft which decreased to 566 in CY 2020. In CY 2022, Airbus delivered 661 aircraft. In CY 2023, Airbus delivered 735 units, beating its target of 720.⁴⁶ Airbus delivered 766 aircraft in CY 2024, slightly below its target of 800. The Pratt & Whitney geared turbofan (GTF) that powers many of the Airbus 320neos has been found to have premature wear and cracking, due to a defect in the metal used in manufacturing. It is estimated that over 3,000 engines worldwide are affected and need inspections over the next couple of years, forcing airlines to ground planes. Engines produced post-2023 have been being made with corrected process.

Delta currently has 953 aircraft in service. The airline has orders for 71 130-seat Airbus A220-300, 86 194-seat Airbus A321neo, 7 281-seat Airbus A330-900, 29 306-seat Airbus A350-900, and 100 182-seat Boeing 737 Max 10.⁴⁷ They also have options for an additional 152 aircraft.

At the onset of the COVID-19 pandemic, airlines were faced with a surplus of personnel resulting from the sudden and dramatic decline in air traffic. As a result, airlines offered their employees buyouts and early retirement packages. In total, it is estimated that approximately 10% of commercial pilots took early retirement during the pandemic.⁴⁸

The recovery of air traffic demand in the U.S. was relatively modest from April 2020 through February 2021. However, starting in March 2021, passenger demand increased more rapidly and recovered beyond CY 2019 levels. As a result of this rapid recovery and the airlines' inability to quickly replace their retired pilots, airlines have experienced shortages of trained pilots to fly aircraft. The pilot shortage problem has been amplified during peak travel periods throughout the year. Regional airlines have been hit the hardest by the pilot shortage. Unable to provide the wages of the larger airlines, the regional airlines have been losing their pilots to the mainline carriers who are attempting to fill their needs. As a result, the regional airlines have had to scale back, or in some cases eliminate service, to smaller markets including some subsidized through the FAA's Essential Air Service Program.

If the pilot shortage becomes more widespread in the industry, the passenger airlines may not be able to meet future passenger demand, and would be required to reduce their seat capacity, resulting in material impacts to future passenger traffic in the U.S and internationally.

⁴⁵ Simple Flying, Boeing Delivered 528 Planes in 2023, January 10, 2024.

⁴⁶ Airbus, Airbus Reports Strong 2023 Commercial Aircraft Orders and Deliveries in Complex Operating Environment, January 11, 2024.

⁴⁷ Information gathered from airline's website, Boeing's Orders & Deliveries, and Airbus' Orders and Deliveries, accessed February 2025.

⁴⁸ CNN, A shortage of pilots could keep the airlines from making a real comeback.

In December 2024, Delta's new pilot training facility opened near SLC marking the airline's first major pilot training expansion outside of its Atlanta headquarters since 1968. Designed to host over 1,000 training events monthly, the center features four high-ceiling bays accommodating up to four full-motion simulators, four procedure trainers for qualification training, ten briefing rooms, seven classrooms, and dedicated spaces for door and emergency equipment training. This investment underscores Delta's commitment to bolstering its presence in key network hubs. By situating the training center in Salt Lake City, Delta aims to provide a more convenient location for pilots in its western hubs, thereby enhancing training efficiency and supporting operational growth.

2.3.3 Aviation Fuel

The price of oil and the associated cost of jet fuel has historically been one of the largest operating costs affecting the airline industry. As of the first quarter of 2024, fuel costs represented 19.5% of U.S. passenger airline operating expenses.⁴⁹ In CY 2000, jet fuel sold to end users averaged \$0.89 per gallon. The average cost of jet fuel increased steadily through CY 2007. However, in CY 2008, crude oil prices and, consequently, jet fuel surged in price as a result of strong global demand, a weak U.S. dollar, commodity speculation, political unrest, and a reluctance to materially increase supply. In July 2008, jet fuel reached an average price of \$4.01 per gallon, nearly double the price the year prior. Reduced demand in CY 2009 stemming from the global financial crisis and subsequent economic downturn resulted in a sharp decline in price. However, as the economic climate improved and political unrest continued in the Middle East, oil prices increased in the subsequent three years. The increase in the price of jet fuel puts upwards pressure on airline operating costs. As a result, airlines cut capacity or increased fares, and sometimes both. The average price of jet fuel dropped significantly in CY 2015 and CY 2016, reaching a low of \$1.03 per gallon in February 2016. Since then, jet fuel prices increased steadily to a peak of \$2.25 in October 2018 before falling to \$1.70 per gallon in December 2019 due to increased oil supplies. In CY 2019, jet fuel prices remained fairly stable, averaging approximately \$1.90 per gallon from February 2019 through January 2020.

As a result of the COVID-19 pandemic, the global demand for crude oil and fuel decreased dramatically starting in January 2020. As a result, the price of jet fuel dropped below \$0.73 per gallon in May 2020. Since then, crude oil supply curtailments have caused oil prices to recover. Prices hovered near \$1.50 per gallon from early June 2020 through December 2020, then increased significantly to \$2.65 per gallon in February 2022. Following the start of the war between Russia and Ukraine, jet fuel prices reached nearly \$3.33 per gallon in March 2022 and continued to climb to \$4.11 per gallon in June 2022. After such time, prices steadily declined through July 2023 before a slow climb through September 2023 where prices were at approximately \$3.17 per gallon. Energy disruptions leading to price increases have been occurring since the start of the Ukraine war with Russia.

The U.S. Energy Information Administration (EIA) provides forecasts of jet fuel refiner price to end users in a report entitled Short-Term Energy Outlook. These prices are reported in cents per gallon as opposed to per barrel. In the May 2025 release, the EIA forecasts that jet fuel prices will be \$2.13 per gallon by December 2026.

Figure 2-12 presents the historical price for jet fuel refiner price to end users and the EIA's forecast of that price.

Future fuel prices and availability are uncertain and fluctuate based on numerous factors. These can include supply-and-demand expectations, geopolitical events, fuel inventory levels, monetary policies, and economic growth estimates. Historically, certain airlines have also employed fuel hedging as a practice to provide some protection against future fuel price increases.

⁴⁹ Airlines for America, A4A Passenger Airline Cost Index, <https://www.airlines.org/dataset/a4a-quarterly-passenger-airline-cost-index-u-s-passenger-airlines/>

Figure 2-12 Jet Fuel Prices (January 2002 – December 2026)

Source: U.S. Energy Information Administration, Short-Term Energy Outlook (May 2025).

Aviation fuel costs will continue to impact the airline industry in the future. If aviation fuel costs increase significantly over current levels, air traffic activity could be negatively affected as airlines attempt to pass costs on to consumers through higher airfares and fees to remain profitable. Currently, alternative fuels are not yet commercially cost effective.

2.3.4 Aviation Security and Safety

Since September 11, 2001, terrorist attacks, government agencies, airlines, and airport operators have upgraded security measures to guard against threats and to maintain the public's confidence in the safety of air travel. Security measures have included cargo and baggage screening requirements, passenger screening requirements, deployment of explosive detection devices, strengthening of aircraft cockpit doors, the increased presence of armed air marshals, awareness programs for personnel at airports, additional intelligence in identifying high-risk passengers and new programs for flight crews. Aviation security is controlled by the federal government through the Department of Homeland Security and the Transportation Security Administration (TSA).

Although terrorist event targeting aviation interests would likely have negative and immediate impacts on the demand for air travel, the industry and demand have historically recovered from such events relatively quickly. There have been terrorist attacks at airports internationally including at Brussels Airport in March 2016, the Istanbul Atatürk Airport in June 2016, and the Paris Orly Airport in March 2017. So long as government agencies continue to seek processes and procedures to mitigate potential risks and to maintain confidence in the safety of aircraft, without requiring unreasonable levels of costs or inconvenience to the passengers, economic influences are expected to be the primary driver for aviation demand as opposed to security and safety.

The Boeing 737 Max aircraft was originally grounded worldwide in March 2019 after two fatal crashes in less than five months. It was determined that the crashes were due to faulty aircraft design. In August 2020, the FAA published requirements for fixing the aircraft and subsequently lifted the grounding in November 2020. In January 2024, Boeing 737 Max 9 aircraft were temporarily grounded following an incident where a panel in an aircraft fuselage blew out in-flight. An investigation found that bolts meant to hold the panel in place had not been installed. Following inspections, the aircraft type was returned to service. However, there have been several other incidents including an inflight Dutch Roll, sudden drops in altitude, and flights at low altitude. In September 2024, the FAA issued urgent safety recommendations about the risk of a rudder malfunction which is in the process of being replaced. To date, these safety issues have resulted in a slowdown in manufacturing; however, should these issues continue, they could have more of an impact on supply and/or demand.

There have also been some recent air traffic incidents. On January 29, 2025, American Airlines Flight 5342 (operated by PSA Airlines as American Eagle), a regional jet on its final approach to Ronald Reagan National Airport collided mid-air with a U.S. Army Sikorsky UH-60 Black Hawk helicopter killing 60 passengers and four crew members on the airliner and the member crew in the helicopter. It was the first major commercial passenger flight accident since February 2009 and the deadliest since 2001. On February 6, 2025, a domestic flight from Unalakleet Airport to Nome Airport in Alaska crashed killing all 10 occupants. On February 17, 2025 a Delta flight from Minneapolis to Toronto crashed upon landing when a landing gear component fractured resulting in the aircraft overturned on the runway. All 80 people survived but 21 sustained injuries.

2.3.5 National Air Traffic Capacity

The U.S. aviation system has a major impact on the national economy because it provides a means of transporting people and cargo over long distances in a relatively short period. As demand for air travel increases, the national aviation system must maintain enough capacity to allow for travel without unacceptable delays or congestion. It is generally assumed that the required infrastructure improvements needed to maintain capacity will keep pace with demand. Although not likely over the future period evaluated herein, the inability of the national aviation system to keep pace with demand could create congestion and delays on a national level that could adversely affect the passenger experience and impact future demand.

2.3.6 Environmental and Sustainability-Driven Shifts

Environmental regulations and related public policy could potentially have an increasing influence on airline operations and long-term air traffic demand. Globally, aviation stakeholders are responding to evolving requirements around greenhouse gas (GHG) emissions, with frameworks such as the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA), sustainable aviation fuel (SAF) mandates, and regional carbon pricing mechanisms beginning to shape carrier network and fleet decisions. In the U.S., while regulation has thus far remained less stringent than in the European Union, pressure from investors, regulators, and the public has prompted airlines and airports alike to adopt sustainability objectives.

These developments could result in changes to fare structures, particularly on shorter-haul routes, where modal competition and the potential for policy disincentives could have an impact on demand elasticity. Airports that proactively pursue sustainability measures, such as energy-efficient infrastructure, zero-emission ground service equipment, and LEED-certified terminal development, may be better positioned to accommodate environmental compliance expectations and maintain community and airline support over the long term.

2.3.7 Telework Trends, Business Travel, and Hybrid Workforce Dynamics

The rise of remote and hybrid work models has produced a structural shift in U.S. air travel behavior. According to the U.S. Census Bureau's 2023 American Community Survey, approximately 13.8% of employed adults in the U.S. work remotely at least part of the time, with higher concentrations in white-collar employment hubs and major metropolitan areas.⁵⁰ The result has been a flattening of traditional business travel peaks, particularly midweek, and an increasing reliance on O&D demand versus connecting itineraries.

While remote work has contributed to a reduction in weekday short-haul business travel, it has also facilitated the emergence of blended-purpose travel, often referred to as "bleisure." In this model, passengers combine business obligations with personal leisure time, either extending trip length or choosing more flexible travel windows. This shift supports greater demand elasticity and enables carriers to fill seats outside of legacy peak periods.

At a national level, business travel volumes remain below pre-pandemic levels. The U.S. Travel Association estimates that domestic business travel spending in CY 2024 was 8-10% below CY 2019 levels. Large corporations have continued to adopt virtual conferencing, reduce internal travel budgets, and reframe expectations for in-person engagement. However, small- and mid-sized firms have generally resumed travel activity more quickly.

Airports and airlines have adapted by:

- Adjusting schedules toward leisure-oriented peak days (Thursday through Monday).
- Offering more fare flexibility to accommodate remote workers' longer average trip durations.
- Investing in terminal amenities that support productivity, such as quiet zones, coworking spaces, and reliable high-speed Wi-Fi.

These trends are expected to persist over the Projection Period, especially in the nearer term, influencing route economics, and aircraft size decisions.

2.4 Air Traffic Activity Projections

This section presents the air traffic activity projections including the key assumptions used to develop those projections. The air traffic activity projections included in this Report represent L&B's opinion, based on information available to L&B as well as estimates, trends and assumptions that are inherently subject to economic, political, regulatory, competitive and other uncertainties, all of which are difficult to predict and which will be beyond the control of L&B. Projected results may not be realized, and actual results could be significantly higher or lower than projected. L&B is not obligated to update, or otherwise revise, the projections or the specific portions presented to reflect circumstances existing after the date when made or to reflect the occurrence of future events, even in the event that any or all of the assumptions are shown to be in error.

⁵⁰ U.S. Census Bureau, American Community Survey: Mode of Work – 2023 1-Year Estimates. Accessed March 2025

2.4.1 Projection Assumptions

The projection analysis presented herein is based on a number of assumptions. Most notably, it assumes that the underlying economic conditions of the ASA are expected to be the primary long-term driver for passenger demand at the Airport, especially as it relates to O&D air traffic. Economic disturbances are likely to occur over the Projection Period. In general, it was assumed that in the long-term, growth in O&D passenger traffic at the Airport will occur as a function of growth in socioeconomic conditions within the ASA. In addition, several other key assumptions are incorporated into the projections including the following:

- The airlines will continue to add aircraft capacity that is, generally, consistent with future demand.
- Delta will continue to operate the Airport as a connecting hub. It is assumed that connecting passenger traffic will start to increase modestly in its share of total domestic enplaned passengers over the Projection Period.
- The domestic network airlines other than Delta serving the Airport will continue to provide air service to support local long-term demand primarily to and from their hub airports, key focus cities, and larger O&D markets.
- Delta and other foreign flag airlines will continue to provide trans-oceanic service to markets in Europe and Asia, as well as other international markets such as Canada, Mexico, and the Caribbean from the Airport. Service to other international markets will also be provided as demand dictates.
- There will be no major disruption of airline service or airline travel behavior nationally or at the Airport over the Projection Period.

2.4.2 Enplaned Passengers Projection

2.4.2.1 Short-Term Projection

An estimate for enplaned passengers for FY 2025 was developed based on year-to-date enplaned passengers, available scheduled data, and load factor assumptions. All recent or expected airline service announcements were reviewed to ensure that these flights were reflected in the available schedule data. Based on publicly available airline schedules, there are currently 4.2 million scheduled departing seats for the months of April 2025 through June 2025, which is up 1.1% from the same months in FY 2024. The same load factors for each month and segment (domestic and international) from FY 2024 were applied to the scheduled seats for FY 2025.

Figure 2-13 provides the monthly departing seats scheduled for FY 2024 and FY 2025 overlaid with the actual enplaned passengers and estimated enplaned passengers for the remainder of the year. Based on this analysis, it is estimated that there will be approximately 14.1 million enplaned passengers in FY 2025, or an increase of 1.7% over FY 2024. This estimate is consistent with the Department's current estimate for FY 2025; however, somewhat lower than its budget for FY 2025 of 14.9 million enplaned passengers.

The Department provided a budget of enplaned passengers for FY 2026 of approximately 14.2 million. The budget is an increase of 0.8% over that estimated for FY 2025, well below historical trends, and is considered somewhat conservative by L&B. However, for financial feasibility purposes, the Department's projection of 14.2 million enplaned passengers for FY 2026 was adopted for use in the air traffic projections used for the financial analysis presented in Chapter 4 of this Report.

Figure 2-13 Monthly Enplaned Passengers and Scheduled Departing Seats at the Airport (FY 2024 and FY 2025)

Sources: Cirium, Diio Mi: Schedule – Dynamic Table; Landrum & Brown Analysis.

2.4.2.2 Long-Term Projection

A number of standard industry forecasting techniques were considered in order to project longer-term enplaned passengers such as econometric regression modeling, trend analysis, market share, and time series. L&B has determined that econometric regression models as the most appropriate to project domestic O&D and international enplaned passengers at the Airport. Econometric regression modeling quantifies the relationship between enplaned passengers and key socioeconomic variables. This methodology recognizes that the key independent variables will change over time and assumes that their fundamental relationships with the dependent variables will remain.

The first step in developing the appropriate models was to test the independent, or explanatory, variables against the dependent variables, domestic and international enplaned passengers. For an econometric model to be considered appropriate, the following must be true:

- Adequate test statistics (i.e., high coefficient of determination (R^2) values and low p-value statistics), which indicate that the independent variables are good predictors of passengers at the Airport.
- The analysis does not result in theoretical contradictions (e.g., the model indicates that GDP growth is negatively correlated with traffic growth).
- The results are not overly aggressive or conservative or are incompatible with historical averages.

Through the testing of multiple sets of independent variables, one multivariate linear model was selected to project domestic O&D enplaned passengers at the Airport, and another was selected for international enplaned passengers. The selected model for domestic O&D enplaned passengers uses historical domestic O&D enplaned passengers for the independent variable and the ASA's GRP and two dummy variables⁵¹ for the COVID-19 pandemic. This model provides long-term growth rates of domestic O&D enplaned passengers for FY 2025 through FY 2031 of 1.9% per annum.

For the purposes of our projection, it was assumed that domestic connecting passenger traffic would increase to an estimated 38.5% of the domestic enplaned passengers by FY 2031. In FY 2024, domestic connecting passengers were about 36.5% of total domestic passengers; however, historically prior to FY 2020, this percentage was more than 40%.

The selected model for international enplaned passengers uses historical international enplaned passengers for the independent variable and the ASA population, the U.S. PCPI, and two dummy variables⁵² for the COVID-19 pandemic. This model provides long term growth rates of international enplaned passengers for FY 2025 through FY 2031 of 4.3% per annum.

Based on models and the set of assumptions detailed above, total enplaned passengers are projected to increase at a 2.6% CAGR from FY 2025 through FY 2031. The result is that enplaned passengers are projected to increase from an estimated 14.1 million in FY 2025 to 16.4 million in FY 2031. The projections for domestic and international enplaned passengers through FY 2031 are presented in **Table 2-12**.

The current projection of enplaned passengers is somewhat lower from that projected in the Report of the Airport Consultant for the 2023 Bonds dated July 5, 2023 (2023 Report). While actual domestic O&D enplaned passengers have exceeded those projected in the 2023 Report, domestic connecting enplaned passengers have not recovered to the extent projected in the 2023 Report and are the primary reason for the variance. For example, the 2023 Report projected total enplaned passengers in FY 2030 to be 16.6 million, whereas, the current projection is 16.0 million enplaned passengers in FY 2030 to reflect the revised assumptions related to the recovery of connecting passengers as described above.

⁵¹ Dummy variables are used in place of the presence categorical variables that have an impact on the independent variable (enplaned passengers) that are beyond the expected determined by the dependent variable (PCPI). In this case, two dummy variables were used. The first dummy was for the first year of impact from COVID-19 which resulted in a decline in enplaned passengers beyond what would be normally explained by the decline in PCPI. The second dummy variable was for the second year of COVID-19 when enplaned passengers recovered partially.

⁵² Dummy variables are used in place of the presence categorical variables that have an impact on the independent variable (enplaned passengers) that are beyond the expected determined by the dependent variable (PCPI). In this case, two dummy variables were used. The first dummy was for the first year of impact from COVID-19 which resulted in a decline in enplaned passengers beyond what would be normally explained by the decline in PCPI. The second dummy variable was for the second year of COVID-19 when enplaned passengers recovered partially.

Table 2-12 Enplaned Passengers Projection (FY 2019 – FY 2031; In Thousands)

Fiscal Year		Domestic O&D ¹	Domestic Connecting	International	Total	Year-Over- Year Growth Rate
Actual	2019	7,325	5,231	534	13,090	5.4%
	2020	5,698	4,015	382	10,096	-22.9%
	2021	4,243	3,291	176	7,710	-23.6%
	2022	7,417	4,960	425	12,802	66.0%
	2023	7,805	4,670	668	13,143	2.7%
	2024	8,371	4,815	664	13,850	5.4%
Estimate	2025	8,516	4,868	705	14,090	1.7%
Budget	2026	8,583	4,900	716	14,198	0.8%
Projected	2027	8,774	5,101	754	14,629	3.0%
	2028	8,963	5,307	792	15,061	3.0%
	2029	9,154	5,521	830	15,506	3.0%
	2030	9,347	5,743	869	15,959	2.9%
	2031	9,539	5,972	908	16,419	2.9%
Range		Average Annual Growth Rate				
2014-19		7.3%	1.1%	24.4%	4.9%	
2019-25		2.5%	-1.2%	4.7%	1.2%	
2025-31		1.9%	3.5%	4.3%	2.6%	

Notes: ¹ Domestic O&D is the non-directional (average) number of passengers and includes pre-cleared international traffic. Domestic O&D enplaned passengers also include those enplaned passengers that depart the Airport to a domestic destination; however, have a final destination that is an international airport (i.e., such passengers connect through another domestic airport enroute to an international destination, but are domestic non-stop passengers from the Airport).

Sources: Salt Lake City Department of Airports, Air Traffic Statistics. L&B analysis.

2.4.3 Aircraft Landed Weight Projection

An estimate for FY 2025 was developed using year-to-date values. For passenger airlines, the estimate utilizes the estimate of enplaned passengers in conjunction with the year-to-date landed weights. The result was an estimated 15.9 million 1000-pound units, an increase of 2.5%. Year-to-date, all-cargo landed weight was up 3.3%. It was assumed that this would be consistent for the remainder of the year and all-cargo landed weight would reach 1.1 million 1000-pound units in FY 2025.

The Department provided a FY 2026 budget for landed weight of 16.8 million 1000-pound units, with 15.7 million for passenger airlines and 1.1 million for all-cargo. This would represent a decrease in landed weight from FY 2025. However, as this was generally considered conservative, it was adopted for financial feasibility purposes.

Beyond FY 2026, passenger airline landed weights were estimated based on assumptions regarding future aircraft load factors and aircraft capacity, both of which are assumed to increase over the Projection Period. Cargo landed weight remained relatively consistent through the pandemic but has declined each of the last 2 years. Both the estimate for FY 2025 and the budget for FY 2026 indicate a reverse of this trend. However, due to the inconsistency in recent years, the all-cargo landed weight projection was held constant through the Projection Period. **Table 2-12** presents the landed weight projection.

Table 2-13 Landed Weight Projection (FY 2019 – FY 2031; in million-pound units)

Fiscal Year		Passenger Airlines	All-Cargo Airlines	Total	Year-Over-Year Growth Rate
Actual	2019	14,264	1,201	15,465	3.7%
	2020	12,315	1,246	13,562	-12.3%
	2021	12,631	1,357	13,988	3.1%
	2022	14,669	1,320	15,989	14.3%
	2023	14,432	1,166	15,598	-2.4%
	2024	15,550	1,023	16,573	6.2%
Estimate	2025	15,936	1,057	17,024	2.7%
Budget	2026	15,721	1,088	16,809	-1.3%
Projected	2027	16,146	1,088	17,233	2.5%
	2028	16,570	1,088	17,658	2.5%
	2029	17,005	1,088	18,093	2.5%
	2030	17,445	1,088	18,533	2.4%
	2031	17,891	1,088	18,979	2.4%
Range		Average Annual Growth Rates			
2014-19		4.0%	5.1%	4.1%	
2019-25		1.9%	-2.1%	1.6%	
2025-31		1.9%	0.5%	1.8%	

Sources: Salt Lake City Department of Airports, Air Traffic Statistics. Landrum & Brown analysis.

2.5 Enplaned Passenger Sensitivity Projection

Given ongoing decline in domestic connecting traffic as a share of total traffic, potential slowing of international traffic growth, and the other factors described in Section 2.3 above, L&B also prepared a downside sensitivity projection of enplaned passengers at the Airport. This sensitivity projection is not necessarily a representation of a likely scenario but is intended to represent a downside scenario if certain conditions that would be expected to negatively impact air traffic demand were to occur in order to demonstrate the financial impacts of such a scenario as provided in Section 4.16 of this Report.

Under the downside scenario, it is assumed that domestic O&D passengers would increase at a slightly slower rate, 1.6% versus 1.9% in the baseline projection presented herein, and that domestic connecting passengers would increase at an average rate of 1.0% through FY 2031. It is also assumed in this sensitivity scenario that international passengers would increase at half the rate of the baseline to reflect a potential slowdown of international demand. **Table 2-14** provides the downside sensitivity scenario enplaned passenger projection by similar segments as the baseline projection.

Table 2-14 Sensitivity Enplaned Passengers Projection (FY 2019 – FY 2031; In Thousands)

Fiscal Year		Domestic O&D ¹	Domestic Connecting	International	Total	Year-Over-Year Growth Rate
Actual	2019	7,325	5,231	534	13,090	5.4%
	2020	5,698	4,015	382	10,096	-22.9%
	2021	4,243	3,291	176	7,710	-23.6%
	2022	7,417	4,960	425	12,802	66.0%
	2023	7,805	4,670	668	13,143	2.7%
	2024	8,371	4,815	664	13,850	5.4%
Estimate	2025	8,516	4,868	705	14,090	1.7%
Budget	2026	8,583	4,900	716	14,198	0.8%
Projected	2027	8,745	4,936	735	14,416	1.5%
	2028	8,905	4,995	753	14,653	1.6%
	2029	9,067	5,054	772	14,892	1.6%
	2030	9,229	5,112	790	15,130	1.6%
	2031	9,391	5,169	807	15,366	1.6%
Range		Average Annual Growth Rate				
2014-19		7.3%	1.1%	24.4%	4.9%	
2019-25		2.5%	-1.2%	4.7%	1.2%	
2025-31		1.6%	1.0%	2.3%	1.5%	

Notes: ¹ Domestic O&D is the non-directional (average) number of passengers and includes pre-cleared international traffic. Domestic O&D enplaned passengers also include those enplaned passengers that depart the Airport to a domestic destination but have a final destination that is an international airport (i.e., such passengers connect through another domestic airport enroute to an international destination, but are domestic non-stop passengers from the Airport).

3 Airport Facilities and Capital Improvement Program

This Chapter provides an overview of existing Airport facilities and describes the New SLC (described herein) and other planned capital improvements at the Airport, referred to as Other Capital Projects for the purposes of this Report.

3.1 Existing Airport Facilities

The Airport comprises approximately 9,400 acres of land in Salt Lake County, Utah. It is located approximately five miles west of downtown Salt Lake City, or eight driving miles. The Airport is relatively distant from other comparable airports and is the primary commercial air passenger and cargo service facility for the Salt Lake Valley, the State, and portions of southwestern Wyoming, southeastern Idaho, northeastern Nevada, and northwestern Colorado. Access to the Airport is primarily provided from Interstate 80 via Terminal Drive. Existing Airport facilities are described in sections below and are graphically illustrated in **Figure 3-1**.

Figure 3-1 **Airport Layout (As of January 2023)**

Source: Department management records

3.1.1 Airport History

Originally used for aerobatic flights, the Airport began as a cinder-covered landing strip in a marshy pasture called Basque Flats in 1911. The City purchased 100 acres surrounding the landing strip for \$40.00 per acre in 1920, and the resulting airfield was named Woodward Field. The first commercial passenger flight took place in 1926 with two passengers perched atop U.S. mail sacks, and in 1943, the Airport became a training base and replacement depot for the U.S. Army Air Force. A history of the Airport's growth over historical time periods is summarized below.⁵³

- **1930s and 1940s:** In 1930, the Airport was renamed Salt Lake City Municipal Airport and consisted of approximately 400 acres, 11 hangars and two gravel runways. In 1933, the City built an airport administration building that housed a passenger waiting room, mail room, airport manager's office, other facilities, and leased office space to the airlines. A third runway was also added in 1933. The Airport became a training base and replacement depot for the U.S. Army Air Force in 1943.
- **1950s and 1960s:** The three runways were upgraded in 1950 to accommodate the largest commercial jet aircraft of that time. The first terminal building, former Terminal One, was constructed and dedicated in 1961. In 1968, the Airport was renamed the Salt Lake City International Airport.
- **1970s and 1980s:** Airport property expanded to an area of approximately 7,500 acres. In 1978, Terminal Two was completed to accommodate the operations of former Western Airlines, a new executive terminal was opened to serve general aviation needs, and the west runway and taxiway systems were extended. Terminal One was expanded and remodeled in 1981. The Airport became an operational hub for former Western Airlines in 1982, which led to facility upgrades. In 1984, Terminal Two was expanded to accommodate an additional concourse. In 1987, Western Airlines merged with Delta and additional facilities were constructed to accommodate an expansion of the hub.
- **1990s and 2000s:** A third air carrier runway was added in 1995, in addition to Concourse E and the International Arrivals Building. In 1999, the FAA opened a new airport traffic control tower (ATCT) and terminal radar approach control facility. The City hosted the 2002 Olympic Winter Games.
- **2010s to Present:** In FY 2015, the Terminal Redevelopment Program (TRP) started construction for the quick turn-around facility (QTA), rental car facility site work, rental car service buildings, infrastructure, and temporary roadway construction and realignments. Construction of the NCP began in January 2018. In September 2020, the terminal and western portion of Concourse A of the TRP opened. In October 2020, the western portion of Concourse B opened. The prior terminal building and airside concourses were demolished shortly after the opening of these facilities. As described later in this chapter, the New SLC program consists of the TRP and NCP and is scheduled to be fully completed by October 2026.

⁵³ Salt Lake City Department of Airports website (<https://www.slcairport.com/about-the-airport/airport-overview/airport-history/>), accessed June 2016.

3.1.2 Airfield Facilities

The existing airfield consists of three air carrier runways and a general aviation runway. The air carrier runways are, generally, in a parallel north/south alignment (Runways 16L-34R, 16R-34L, and 17-35). The general aviation runway is oriented in a northwest/southeast direction (Runway 14-32). Runway 16L-34R is 12,003 feet in length, Runway 16R-34L is 12,000 feet in length, Runway 17-35 is 9,596 feet in length, and Runway 14-32 is 4,900 feet in length. All runways are 150 feet wide. The air carrier runways are equipped with high intensity runway lighting systems, centerline lighting, and touchdown zone lights. Precision instrument landing systems (ILS) were installed on all ends of each air carrier runway for approaches during instrument flight rules (IFR) conditions. The general aviation runway (14-32) is not equipped with an ILS, and is planned to be decommissioned in the coming years.

3.1.3 Terminal Facilities

The current terminal facility, Concourse A, and the western portions of Concourse B are currently open and operational as part of the New SLC. The passenger terminal complex consists of a consolidated passenger terminal, one attached airside concourse (Concourse A – formerly referred to as the South Concourse), and one parallel concourse (Concourse B – formerly referred to as the North Concourse) comprising over 1.8 million square feet of total space. The new central tunnel opened in October 2024 and provides the main pedestrian access between Concourses A and B with moving walkways. Additionally, an approximately 1,000-linear-foot underground tunnel connects the western portions of the airside concourses. The Terminal is also connected to the parking garage via the Gateway Center. **Figure 3-2** illustrates the Airport's terminal complex and shows the general area for future facilities that are under construction. The New SLC, once complete, is generally anticipated to meet future terminal capital needs for the foreseeable future and throughout the Projection Period.

Level 1 of the Terminal contains a federal inspection services (FIS) area, international baggage claim and recheck area, a passenger check-in and screening area, tenant administrative offices, a centralized security checkpoint for dedicated employee access, ground transportation counters, and also serves commercial curbs and other ground transportation functions. Level 2 provides passenger circulation areas and connects landside and airside components of the facility. Public areas prior to the security checkpoint provide for baggage claim and airline baggage service offices, an expansive meeter-greeter area, food and beverage and retail concessions, and a centralized security screening checkpoint. Areas beyond security screening include the main terminal plaza area consisting of 79,000 square feet of concessions, seating, and circulation space. Level 3 contains the ticketing area for departing passengers, a 30,000-square foot Delta SkyClub, and administrative offices for the Department and other tenants at the Airport. Departing passengers being dropped off at the Airport arrive on the Level 3 curb. The Airport is served by the TRAX light rail system owned and operated by the Utah Transit Authority (UTA), which connects the Airport with downtown Salt Lake City.

Delta and its regional affiliate partners operate from both airside concourses, while all other airlines at the Airport operate on Concourse B. As of June 2025, the existing airside concourses provide for a total of 73 aircraft gates, associated passenger waiting areas and security screening facilities. All 73 positions have passenger loading bridges. **Table 3-1** presents the number of aircraft gate positions at the Airport by concourse and leased by the airlines and those controlled by the Department and used on a common-use basis as of June 2025. Section 3.4.3 of this Report describes future gate counts planned as part of the New SLC.

3.1.4 Public Parking Facilities

Public parking facilities currently located at the Airport consist of the new five-level, short-term parking garage near the terminal complex that opened as part of the New SLC in September 2020 and long-term economy surface parking lots. As part of the TRP, the economy lots were reconfigured. In total, these Airport parking facilities comprise about 152 acres, including the five levels of the garage, and have 14,401 public parking spaces. The short-term parking garage has 3,469 public parking spaces on levels two through five and is located adjacent to the passenger terminal. The first floor is dedicated to rental car operations and contains approximately 1,200 ready/return parking spaces. Upper floors are served via two helical ramps. Current pricing for the short-term parking garage is \$40 per day or \$60 per day for the Premium Reserved Parking service.

In addition to the new Parking Garage, the Airport also has a substantial amount of surface parking available for Airport patrons, including a new surface parking area located east of the new parking structure. The surface lot has 857 parking spaces. The South Economy Parking Lot opened in July 2014 and consists of approximately 2,900 additional parking spaces replacing the economy parking that was displaced by the construction of the new rental car facilities. The South Economy Parking Lot is integrated with the remainder of the Economy Parking Lot.

To help reduce vehicle traffic congestion in the terminal area, the Department maintains a 215-space Park and Wait lot and adjacent Touch n' Go service plaza located west of Terminal Drive, just south of the terminal, where motorists meeting arriving passengers may wait without charge until passengers are ready to be picked up. The Park and Wait lot has large electronic signs displaying flight arrival information. Once a flight has arrived and sufficient time has elapsed for passengers to claim their luggage, the sign indicates "ready for pick up." To reduce congestion at the curb, however, the Department encourages drivers to wait until passengers are at the curb, confirming with their driver via cell phone.

3.1.5 Rental Car Facilities

Rental car operations at the Airport currently are located on the ground floor of the new parking garage adjacent to the terminal building and include approximately 1,200 ready/return parking spaces. Nine rental car brands are currently located at the Airport: Alamo, Avis, Budget, Dollar, Enterprise, Hertz, National, Payless and Thrifty. In addition, nine brands are located off-Airport and their customers must use shuttle bus services. The Department recently concluded its Request for Proposals process for new on-Airport rental cars agreements which will go into effect March 1, 2026. As a result, one new brand, Sixt Rent a Car, will start operations at the Airport joining the existing nine brands.

The rental car service facilities were placed in service in March 2016. These facilities consist of a 'quick-turn-around' (QTA) facility for fueling and washing cars and three facilities for performing light vehicle maintenance. The QTA is a two-level building of approximately 468,000 sf with 14 wash and service bays on the first floor and vehicle storage and parking on the second floor. The Rental Car Service Site (RSS) facility consists of three single-story service buildings containing a total of approximately 34,000 sf of building space located south of the QTA. These buildings provide back-of-house maintenance areas for the rental car providers and contain office, support and storage space.

3.1.6 Transportation Network Companies

The Airport is served by several transportation network companies (TNCs), including both Uber and Lyft. The Department has set aside dedicated curb space at the Airport for TNC pick-ups, but TNC drivers are required to wait for customers off-Airport. TNC operations at the Airport have grown substantially since FY 2016, when TNC operations were first permitted at the Airport and 209,800 transactions were reported. During FY 2024, there were more than 1.9 million TNC transactions reported.

3.1.7 Ancillary Facilities

Ancillary facilities support the aviation-related activities at the Airport. The facilities identified as ancillary are categorized as military, general aviation, FAA, ground support equipment, cargo facilities, aircraft maintenance facilities, the Boeing facility, and a new Delta pilot training facility.

- **Military:** The Utah Air National Guard (UTANG) operates on more than 82 acres on the northeast side of the Airport as the Roland R. Wright Air National Guard Base. The 151st Air Refueling Wing is based at the Airport, which provides personnel to fly, maintain, and support a KC-135R aerial refueling unit.
- **General Aviation:** General aviation (GA) facilities are located on the east side of the Airport property. This area includes fixed base operator (FBO) facilities, corporate hangars, maintenance hangar facilities, aircraft parking aprons (aircraft tie-down spaces managed by the FBOs), general aviation aircraft storage hangars (total combination of 178 T-hangars and shade hangars managed by the Department), fuel storage facilities and access roadways. The two FBOs on site sell both jet A and 100 low-lead aviation gasoline. FBOs offer a variety of services including rental cars, catering and transportation. Aircraft maintenance facilities are available on the airfield. The Department entered into an agreement with Sky Harbour in August 2024 for the construction of multiple corporate hangars on approximately 8.4 acres of land to the north of the UTANG site.
- **FAA:** The FAA occupies the Airport Traffic Control Tower (ATCT) and handles all flight arrivals and departures as well as ground movement.

- **Ground Support Equipment:** Ground support equipment (GSE) facilities include areas and buildings that house vehicles and equipment necessary to serve aircraft operations such as aircraft tugs, baggage tugs and carts, catering trucks, fuel trucks, 400-hertz power generators, deicers, lavatory service trucks, etc. GSE is stored in a multi-purpose building and covered areas surrounding the terminal area.
- **Cargo Facilities:** Over 1.0 million square feet of cargo space is leased at the Airport. United Parcel Service and DHL each have stand-alone cargo facilities and FedEx has a cargo facility at the Airport constructed in recent years of just under 70,000 square feet. The Department is currently evaluating proposals received for the construction of a multi-tenant cargo facility to be constructed on the northwest side of the airfield.
- **Aircraft Maintenance Facilities:** Delta and its regional partner, SkyWest, currently lease from the Department and maintain aircraft maintenance hangars at the Airport. Routine and heavy aircraft maintenance is performed at these facilities.
- **Boeing Facility:** Boeing leases a 100,000-square foot fabrication and assembly facility on a 16-acre site on the east side of the Airport. At this site, Boeing is assembling the horizontal stabilizer for its 787-9 Dreamliner aircraft. Boeing also has an option to lease an additional 149 acres of adjacent Airport property.
- **Delta Pilot Training Facility:** In December 2024, Delta opened a new nearly 50,000 square foot pilot training facility at the International Center adjacent to the Airport. This is the first pilot training facility built outside of Delta's headquarters in Atlanta, and will hold four full-flight simulators with capacity for six more in the future.

3.2 The Auxiliary Airports

The Department also operates two general aviation airports owned by the City: South Valley Regional Airport and Tooele Valley Airport, referred to collectively as the Auxiliary Airports. These airports support the GA needs of the region and complement the airport services provided at the Airport. A general description of each GA airport is provided below.

South Valley Regional Airport (U42) currently supports business-related flying, law enforcement/fire/rescue flying services, recreational flying, flight training, and air charters. A Utah National Guard Army Aviation Support Facility is also housed on the airfield. South Valley Regional Airport comprises about 880 acres and is located approximately 10 miles south of the Airport in West Jordan, Utah. U42 has a single runway, Runway 16-34, which is 5,862 feet in length and 100 feet in width. The runway is constructed of asphalt and is equipped with pilot-controlled medium intensity runway lights (MIRL) and four lighted precision approach path indicators (PAPIs). In addition, each end of the runway is also equipped with runway end identifier lights (REILs). The primary landside area at U42 consists of a linear layout, running north to south along the west side. Facilities include the Utah National Guard Army Aviation Support Facility, FBO facilities, maintenance hangar facilities, aircraft parking aprons (100 aircraft tie-down spaces), general aviation aircraft storage hangars (total combination of 155 T-hangars and shade hangars managed by the Department), fuel storage facilities and access roadways. The Department sells both jet A and 100 low-lead aviation gasoline. Aircraft maintenance facilities are available on the airfield. The Department is currently providing fueling, ground handling, aircraft storage and parking and ground power (GPU) services at South Valley Regional Airport; however, the Department is currently in the evaluation stage of a Request for Proposals process from FBO operators to enter into a long-term lease to provide those services going forward. A third-party maintenance provider and flight schools are also available.

Tooele Valley Airport (TVY) currently provides many aviation-related services, including business-related flying, sky diving, law enforcement/fire/rescue flying services, recreational flying, and flight training. Tooele Valley Airport comprises about 600 acres and is located in Erda, Utah, approximately five miles northwest of Tooele, near State Highway 138. It is operated with one primary runway, oriented in a general north-south direction, along with a supporting parallel taxiway system. The single runway at the airport, Runway 17-35, is 6,050 feet in length and 100 feet in width. The runway is constructed of asphalt and is equipped with pilot-controlled MIRLS. Threshold lights are located at each end as well as runway end identifier lights for the Runway 35 approach. Four light PAPIs service the runway. The airport has ILS for Runway 17 in addition to a non-directional beacon. The landside area consists of a linear layout, running north to south along the east side. The facilities include six individual privately-owned hangars, aircraft parking aprons (24 aircraft tie-down spaces), self-service fuel storage and dispensing facilities and access roadways. The Bureau of Land Management maintains a Single Engine Air Tanker base at Tooele Valley Airport and completed construction of a permanent base through a long-term lease recently executed with the Department, which opened in November 2024. Self-serve 100 low-lead aviation fuel is available 24 hours a day.

The Department operates the Airport and the Auxiliary Airports as an Airport System. This is defined within the Master Indenture to include the operation and maintenance costs and revenues of the Auxiliary Airports within the definitions of Operation and Maintenance Expenses of the Airport System and Revenues. Therefore, the costs and revenues of the Auxiliary Airports are included for the purposes of the Master Indenture, including the Rate Covenant (defined later in Chapter 4 of this Report).

3.3 Summary of Capital Projects

For the purposes of this Report, the Department's current capital program is organized into the following categories, each of which is discussed in the sections that follow in this chapter of the Report:

- **The New SLC:** The New SLC program broke-ground in CY 2014 and is planned to continue into CY 2026. The New SLC consists of both the TRP and NCP as described below:
 - **The Terminal Redevelopment Program:** The TRP replaced all of the former aged and functionally obsolete terminal complex, including the development of a consolidated terminal facility, an attached linear airside concourse (Concourse A), and landside facilities at the Airport. In addition, the TRP addressed changes in the aviation industry and improved inherent operational inefficiencies of the former facilities. The TRP has been completed and was fully opened in October 2023. The total project cost of the TRP was approximately \$2.83 billion and it has been fully expended. The capital and operating costs associated with the TRP have been included in the financial analysis in this Report and are further described in Chapter 4.
 - **The North Concourse Program:** The NCP consists of a 47-gate midfield concourse (Concourse B) and the development of an underground connecting tunnel from Concourse A. As of July 2025, 26 of the 47 gates on Concourse B are in operation along with the new central underground tunnel. The final phases of the NCP will add 21 additional gates, 10 of which are planned to be operational in October 2025, and the remaining 11 aircraft gates are planned to be open in October 2026. When completed, it is currently estimated that the NCP will cost approximately \$2.31 billion of which approximately 74% had been spent as of January 31, 2025. The NCP has been funded, in part, with proceeds of the Existing Bonds,⁵⁴ and will also be funded, in part, with

⁵⁴ As of July 2, 2025, the Department had approximately \$3.2 billion of debt outstanding consisting of the Series 2017 Bonds, the Series 2018 Bonds, the Series 2021 Bonds, and the Series 2023 Bonds (collectively, the "Existing Bonds").

proceeds of the Series 2025 Bonds, and the Line of Credit⁵⁵ as an interim funding source along with other funding sources to be described herein. The capital and operating costs associated with the NCP have been included in the financial analysis in this Report and are further described in Chapter 4.

- **Other Capital Projects:** These projects are in addition to the elements of the New SLC and are the other Airport System capital projects that currently are anticipated by the Department to be undertaken over the Projection Period. Such projects are referred to in this Report as the 'Other Capital Projects.' The estimated capital funding and operating costs, if any, and estimated revenue impacts, if any, associated with the Other Capital Projects have also been included as part of the financial analysis in this Report. The total estimated costs of the Other Capital Projects over this period are approximately \$589.6 million.

3.4 The New SLC

The New SLC is a comprehensive capital program that is in various stages including certain components that are in operation, under construction, or being designed to completely redevelop and replace the existing landside and terminal complex of the Airport. The New SLC is comprised of two capital programs known as the TRP and the NCP. A significant portion of the New SLC has been completed and is currently operational. Remaining portions of the New SLC currently under construction or in design primarily consist of eastern portions of Concourse B, which are scheduled to be completed in October 2026. Figure 3-2, shown previously, illustrates the New SLC facilities that are complete and in operation. **Figure 3-3** illustrates all of the future airside concourse elements upon completion of construction. The next several sections provide additional details on the TRP and the NCP.

3.4.1 The Terminal Redevelopment Program

In FY 2014, the Signatory Airlines operating at the Airport approved the implementation of the TRP through execution of the then-current Airline Use Agreement (AUA) that incorporated the TRP. The TRP costs approximately \$2.83 billion, including design, engineering, and construction, but excluding financing costs. Sources of funding for the TRP are presented in **Exhibit A** of this Report. All of the project costs have already been incurred. **Table 3-2** presents project costs of the TRP by element in chronological order for when each element is planned to be operational. A description of the major project elements of the TRP is then contained in the next several subsections.

⁵⁵ The Department has entered into a short-term revolving credit facility with Bank of America, N.A. (Bank), pursuant to which the City can access up to \$300 million (Line of Credit); which constitutes a subordinate obligation under the Subordinate Trust Indenture. At the request of the City and the approval of the Bank, the principal amount can be increased to \$400 million pursuant to the provisions of the associated credit agreement.

Table 3-2 TRP Project Costs by Element (thousands of dollars)

TRP Element	Project Cost	Planned Operation
South Economy Parking Lot	\$15,944	Operational
Rental Car Facilities: QTA, RSS, Gateway	129,874	Operational
Central Utility Plant	59,920	Operational
Terminal Facility ¹	991,572	Operational
Gateway Center	83,655	Operational
Concourse A (West)	420,357	Operational
Parking Garage	240,753	Operational
Terminal Roadway System	107,831	Operational
Concourse A (East)	448,456	Operational
Apron, Fuel Hydrant System, and Taxilanes	306,289	Operational
Miscellaneous Landside/Parking Lot Improvements	22,042	Operational
Total	\$2,826,694	

Notes:

Amounts may not add because of rounding.

¹ Includes baggage handling system

Figure 3-3 The New SLC

Source: Department management records, April 2023

3.4.2 The North Concourse Program

The NCP consists of a planned 47-gate midfield concourse, of which 26 gates are open as of July 2025. Phase IV of the New SLC was approved in FY 2023. This phase extends Concourse B further to the east to add 16 contact aircraft gates to the NCP as well as adding permanent aircraft hardstands at the east end of the future Concourse B. With the inclusion of Phase IV, it is currently estimated that the NCP will cost approximately \$2.31 billion. **Table 3-3** presents project costs of the NCP by element in chronological order for when each element is planned to be operational. A description of the major project elements of the NCP follows the table.

The first phase of the NCP was opened in October 2020, about one month after the Terminal and the Concourse A (west). This initial phase was the west portion of Concourse B and includes 21 aircraft gate positions and comprises approximately 361,000 square feet of space.

The Phases III and IV of the NCP are underway and will ultimately add an additional ten aircraft gate positions. The Phase II added approximately 246,000 square feet of building space. The Central Tunnel connecting Concourse B to Concourse A and the Terminal is approximately 1,000 linear feet and became operational as of October 2024. The Central Tunnel is the primary pedestrian access; however, the mid-concourse tunnel remains operational to serve connecting passenger needs. Phase II and the first five gates in Phase III of the NCP became operational in October 2024 and the remaining five gates in Phase III are planned to be operational by October 2025.

Phase IV of the NCP will add 16 additional gates on Concourse B and permanent hardstands at the east end of Concourse B. The first five aircraft gates on this Concourse B extension are planning to be operational in October 2025, and the remaining 11 aircraft gates are planned to open in October 2026.

Table 3-3 NCP Project Costs by Element (thousands of dollars)

TRP Element	Current Budget ¹	Planned Operation
Concourse B (Phase I)	\$364,554	Operational
Concourse B (east – Phases II and III)	381,142	Operational (west portion) October 2025 (east portion)
Baggage Handling System (Phase I)	55,519	Operational
Baggage Handling System (Phase IV)	63,451	October 2026
Central Tunnel	110,813	Operational
Mid Concourse Tunnel	21,063	Operational
Apron/Taxilanes	388,947	Operational (west portion) October 2025 (east portion)
Hydrant Fueling System	43,137	Various
Concourse A (east) Modifications	131,994	Operational
Hardstand Operation	46,439	October 2026
Concourse B (Phase IV)	612,828	October 2025 (west portion) October 2026 (east portion)
Apron & Hydrant Fueling System (Phase IV)	88,394	October 2025 (west portion) October 2026 (east portion)
Total	\$2,308,280	

Notes: ¹ Approximately \$1.71 billion of project costs have been incurred through January 2025.

Amounts may not add because of rounding.

3.4.3 New SLC Aircraft Gate Positions

Prior to construction of the New SLC, the Airport had 56 aircraft gates with loading bridges and 30 aircraft gates without loading bridges on Concourse E. All of the prior concourses and terminal complex were demolished after the opening of the initial phases of the New SLC in FY 2021. As described earlier, the Airport has 73 aircraft positions with all of these having loading bridge access to aircraft. The construction phasing plan for the New SLC has been developed to maintain active aircraft gate positions throughout construction. When completed, the New SLC is planned to provide 98 aircraft gate positions at the Airport. Of the 98 aircraft gates, 94 will have loading bridge access to aircraft, while the remaining four will be ground-loading accessible through hardstands. As compared to the former facilities, the Airport is planned to have 38 more loading bridge capable gates upon completion of the New SLC to accommodate future requirements more efficiently and effectively. **Table 3-4** presents the current plan for aircraft parking positions through various phases of the New SLC construction. **Figure 3-4** graphically depicts the expected final aircraft parking positions upon completion of the New SLC in October 2026.

Table 3-4 **Planned Aircraft Parking Positions During the New SLC Construction**

Date	Conc. C	Conc. D	Conc. E ¹	Conc. F ²	Conc. G ³	Conc. A	Conc. B	Hard- Stand ⁴	Total with LB ⁵	Total
Before Construction of New SLC	13	13	30	22	8	0	0	30	56	86

3.4.4 The New SLC Program Management Team

Program management for the New SLC is comprised of a selected staff of professionals chosen from 10 companies of which 28 personnel were engaged as of December 2024. At the peak of construction 68 full-time personnel were engaged. Pursuant to this approach, the Department maintains complete control as opposed to a more typical approach where this responsibility is contracted to a firm or team of firms that provide this function with their staff. The Department's process allows it to select individuals from the pool of firms for each program management position. In addition, the Department outlines key performance requirements for each of these program management positions and has the ability to replace those not meeting appropriate performance requirements. In such circumstances, the Department will request companies from the external pool to provide potential candidates to be interviewed by the Department. The Department will then select the most qualified individual from the pool of candidates. Key external program management staff, which lead the program management team, include a Program Director, a Financial and Program Controls coordinator, and an Airline Technical Representative.

The Program Director reports to the Department's Executive Director and is responsible for the overall implementation of the TRP. The lead architectural firm for the New SLC is HOK (formerly known as Helmut, Obata & Kassabaum, Inc.), which has multiple sub-consultant firms engaged in various engineering and design efforts. In October 2013, the Department selected Holder-Big-D, A Joint Venture (HDJV) as the Construction Manager at Risk (CMAR) for the TRP. HDJV is a joint venture between Holder Construction Company and Big-D Construction. Big-D Construction is a local Salt Lake City based company and Holder Construction Company is Georgia-based. In April 2017, the Department selected Austin Okland Aviation as the CMAR for the NCP. The CMAR Contract with AOJV was terminated for convenience following the reduction in passengers associated with the impacts of the COVID-19 pandemic and AOJV has de-mobilized. HDJV added the second phase of the NCP to its existing CMAR.

The New SLC has been broken down into CGMP contracts between the Department, on behalf of the City, and the CMAR. Each CGMP constitutes an amendment to the CMAR contract that provides that the CMAR will construct the elements of the New SLC described in the scope of the applicable CGMP for a guaranteed maximum price, within the schedule set forth in the CGMP and in accordance with the CMAR contract. The CMAR contract also requires the CMAR, as applicable, to provide specified pre-construction and general conditions services during its term. As of March 2023, 100% of the TRP project costs and NCP project costs are subject to an executed CGMP.

Each CGMP is designed and bid separately. All subcontracts must be competitively awarded, and the subcontracts are held by the CMAR, as applicable, and expressly provide that the Department has no contractual relationship with the subcontractors. Before the Department enters into a CGMP, the Department's Financial Oversight Committee must approve the guaranteed maximum price and its Construction Committee must approve the scope of the work of the CGMP and recommend to the Executive Director that the CGMP be approved and executed. The CMAR contract provides for a formal dispute resolution process that must be undertaken in the event of a disagreement between the Department and the CMAR, as applicable, before any legal action may be commenced.

3.5 Other Capital Projects

Other Capital Projects currently anticipated by the Department to be undertaken or completed during the Projection Period that are not part of the New SLC are shown in Exhibit A. Preliminary cost estimates for the Other Capital Projects total approximately \$589.6 million from FY 2026 through FY 2031. Major projects expected to be undertaken include the Taxiways U&V project (described below), the South Employee Lot construction, the rehabilitation of other taxiways and airfield pavements, various roadway and other landside improvements as well as improvements at Tooele and South Valley Airports. It should be noted that certain capital projects included in Other Capital Projects could be potentially deferred or not otherwise undertaken by the Department during the Projection Period, depending on circumstances such as aviation demand levels and availability of project funding. For the purposes of this analysis, all such projects have been incorporated in this Report and the accompanying financial tables to demonstrate the full financial effect of undertaking all of the Other Capital Projects along with the New SLC.

3.5.1 Taxiways U&V Project

In the master plan completed for the Airport a few years ago, it identified Taxiways U and V as a new cross field taxiway system between the north cargo support area and the existing concourses. Currently, Taxiways E and F are the only taxiway connections between Runway 16R-34L, Runway 16L-34R, and the terminal area. The construction of Taxiways U and V will provide alternative taxi routes to improve aircraft circulation and overall airfield efficiency and safety, particularly during snow removal operations on Taxiways E and F. This project is expected to provide immediate benefit to the flow of aircraft on the airfield as well as improving safety by reducing traffic in a congested area on the airfield. This project includes constructing two new parallel Taxiways U and V to connect Runway 16R-34L and Runway 16L-34R. This project will include site preparation, earthwork and excavation, concrete paving, new airfield lighting, drainage systems, utilities, and striping. The Taxiways U&V project is estimated to cost approximately \$248.5 million of which approximately \$235.1 million is anticipated over the period of FY 2026 through FY 2028. The Department is planning to fund this project with \$131.5 million in FAA grants, \$30 million in proceeds of the Series 2025 Bonds, and the balance in Department funds.

3.5.2 Financial Impact for Other Capital Projects

Sources of funding for the Other Capital Projects are described below and presented on Exhibit A. The estimated financial impacts of the Other Capital Projects are incorporated in this Report.

It is possible that during the Projection Period, the Department may consider other potential future Airport improvements not planned at this time. However, it is assumed that the Department will only undertake construction on any other potential future projects when demand warrants, necessary environmental reviews have been completed, necessary approvals have been obtained, and associated project costs can be supported by a reasonable level of Airport user fees or other discrete funding sources such as state and federal grants, PFCs, Department funds, CFCs, and third-party funds.

3.6 Plan of Finance

Exhibit A presents the total project costs along with estimated funding sources for the New SLC and Other Capital Projects. These estimates are based on currently available information regarding the estimated cost and timing of the New SLC and Other Capital Projects, and the estimated receipt of federal, state, and other grants and other funds. As presented in Exhibit A, the TRP is estimated to cost approximately \$2.83 billion, the NCP is estimated to cost \$2.31 billion, and the Other Capital Projects are estimated to cost \$589.6 million. Additional details regarding the estimated funding sources for the New SLC and Other Capital Projects is presented in this section.

3.6.1 Federal, State and Other Grants

The Department receives federal grants for Airport capital development under the FAA Airport Improvement Program (AIP). The Department receives AIP entitlement grants based on (1) levels of funding authorized and appropriated by Congress for the program, (2) the number of passengers and amount of cargo at the Airport, and (3) a 75% reduction in entitlement grants associated with the Department's \$4.50 PFC level. The Auxiliary Airports receive a total of approximately \$150,000 in FAA AIP entitlements per year per airport. The Department also receives AIP discretionary grants for specific projects pursuant to grant applications for such funding, and FAA discretionary grant awards, which are a function of the amounts authorized and appropriated by Congress and the FAA's prioritization of competing projects. For FYs 2020 through 2024, the Department was awarded \$147.4 million in FAA AIP grants for projects including conducting an airport master plan study, and runway, taxiway and apron pavement rehabilitation work. The Department received \$47.0 million in AIP grant funds in FY 2024.

On November 15, 2021, the President signed into law an approximately \$1 trillion investment of the federal government into U.S. infrastructure (Bipartisan Infrastructure Law). The Bipartisan Infrastructure Law contains an investment of approximately \$25 billion into aviation, which includes \$15 billion of funding for airport infrastructure projects that increase safety and expand capacity, \$5 billion of discretionary funding for new airport terminal facilities, and \$5 billion of funding to improve air traffic control facilities.

The grant funding available to airports under the BIL falls into two categories. The first are Airport Infrastructure Grant ("AIG") funds, which are allocated similar to AIP funds on the basis of enplaned passengers and operational metrics, which are allocated over a five-year term of the program, from federal fiscal year (FFY) 2022, ending September 30, 2022, through FFY 2026. The Department has been allocated approximately \$98.4 million of this funding from FFY 2022 through FFY 2025 and expects to receive another \$24.5 million in BIL AIG grant funds for FFY 2026. The Department is intending to primarily address airside needs within the Other Capital Projects with this funding. The second category is the Airport Terminal Program (ATP) funds, which are subject to annual competitive allocation. The Department has been awarded \$69.4 million in ATP grants for the Phase IV NCP. The financial analysis in this Report assumes \$98.4 million of BIL AIG funds for the Other Capital Projects and the \$69.4 million of BIL ATP grants for Phase IV of the NCP and has received a total of \$54.4 million through April 2025.

As shown in Exhibit A, the Department expects to be able to fund a portion of its capital development with FAA AIP, TSA, and BIL grants. Approximately \$497.4 million in federal grants are anticipated to fund a portion of the New SLC and the Other Capital Projects.

3.6.2 Passenger Facility Charge Revenues

PFC revenues are used to pay for certain FAA-approved, PFC-eligible projects, either by using certain PFC revenues to pay for approved project costs on a pay-as-you-go basis or by applying certain PFC revenues to pay debt service associated with bonds used to fund approved projects. Pursuant to the Master Indenture, unless otherwise provided in a Supplemental Indenture or a certificate of the City, PFC revenues are excluded from the definition of Revenues, and therefore, are not pledged to the payment of debt service on the Bonds. However, PFC revenues may still be applied to pay debt service on Bonds in two separate ways. First, the City may designate specified PFC revenues as Passenger Facility Charges Available for Debt Service. Passenger Facility Charges Available for Debt Service are transferred to the Trustee and deposited directly into a City designated Debt Service Fund to be used to pay debt service on a specific Series of Bonds. Secondly, the City can designate specified PFC revenues as Pledged Passenger Facility Charges. Pledged Passenger Facility Charges are transferred to the Trustee and deposited directly into a City designated Debt Service Fund to be used to pay debt service on a specific Series of Bonds. For purposes of the Rate Covenant, Annual Debt Service on the Bonds does not include principal or interest paid with PFC revenues that have been designated as Passenger Facility

Charges Available for Debt Service and/or Pledged Passenger Facility Charges. For the purposes of the financial analysis for the Series 2025 Bonds, it is assumed that the City will designate certain PFC revenues as Passenger Facility Charges Available for Debt Service and such PFC revenues will be used to pay a portion of the debt service on Bonds.

As of March 31, 2025, the Department is authorized by the FAA, to impose and use approximately \$2.65 billion of PFC revenues (at the \$4.50 level) for various projects including the TRP. The Department received approval from the FAA on June 3, 2020 of its amendment request to increase its PFC funding for the TRP by \$72.3 million. The FAA's charge-expiration date is April 1, 2037. As of March 31, 2025, the Department had collected approximately \$1.135 billion of its total approved collection and had disbursed approximately \$1.091 billion on approved projects. The Department received approval for its PFC Application number 16 in February 2016 for the TRP. The application and subsequent amendment was approved at the PFC collection rate of \$4.50 for a total approved use of approximately \$1.38 billion.

As presented in Exhibit A, the Department has planned for approximately \$332.8 million of PFCs to fund TRP project costs on a pay-as-you-go basis. At this time, the Department does not expect to fund any additional costs of the TRP with PFC revenues on a pay-as-you-go basis. In addition, the Department intends to fund eligible debt service for the TRP with a significant portion of its annual PFC collections into the foreseeable future.

3.6.3 Department Funds

The Department historically used its internal funds from the operation of the Airport System to fund certain projects in the CIP. Per the Master Indenture, any Revenues remaining in the Surplus Fund, after all obligations have been satisfied, are available for use by the Department for any lawful Airport System purpose. Per the AUA, the Department may include in airline rates and charges a cost for the use of Department funds (net of PFCs, CFCs, grants, and other funding sources), along with imputed interest, that pay for capital development in airline cost and revenue centers. This cost is referred to as Amortization in the AUA. The AUA specifically prohibits Amortization to be included in airline rates and charges for Department funds paying for costs of the TRP. There is no prohibition for the use of Amortization for NCP.

As presented in Exhibit A, the Department is currently planning to apply internally generated Department funds to the New SLC of approximately \$508.9 million. The Department intends to use approximately \$345.1 million of Department funds for Other Capital Projects.

3.6.4 Existing Bonds, Series 2025 Bonds, and Future Bonds

The remaining portions of the New SLC are planned to be funded with proceeds of Bonds. The Department has issued the Existing Bonds and plans to issue the Series 2025 Bonds to pay the costs of implementing a portion of the New SLC. As presented on Exhibit A, approximately \$3.28 billion of Existing Bonds proceeds have been used to fund project costs of the New SLC, and approximately \$520.1 million of the Series 2025 Bonds proceeds are planned to fund project costs of the New SLC. The Department is also planning to fund the Taxiways U&V project with \$30 million of proceeds of the Series 2025 Bonds. Assumptions related to the issuance of the Series 2025 Bonds and future Bonds are provided in Section 4.4.

3.6.5 Customer Facility Charges

On July 1, 2011, the Department began requiring the rental car companies at the Airport to charge a customer facility charge (CFC) to be used to pay, or to reimburse the Department, for capital costs for construction and improvement of rental car facilities at the Airport. The CFC was initially \$4.00, with the current rate of \$5.00 effective July 1, 2012. The \$5.00 CFC is a per transaction daily fee up to a maximum of 12 days and is collected by the on-airport rental car companies from each of their customers and subsequently remitted to the Department.

Although federal law does not restrict the use of CFCs, a City ordinance restricts the use of CFCs to finance capital improvements at the Airport that support rental car services, including a pro rata share of joint use infrastructure such as roadways, the portions of the Parking Garage needed for ready/return facilities, funding debt service associated with rental car facilities or funding the City's costs for such other rental car related purposes as the City may determine. The City currently does not expect to apply proceeds of Bonds to finance rental car facilities or, accordingly, to pay debt service on Bonds with CFCs. CFCs are not included in Revenues. The Department is applying the CFC revenues on a pay-as-you-go basis to fund eligible portions of the TRP that are used by rental cars. As shown on Exhibit A, the Department has funded approximately \$199.9 million of rental car-related improvements of the TRP from CFC revenues. The Department has expended all of the CFC eligible project costs of the TRP. The Department has already constructed the QTA, RSS, rental car portion of the parking garage, and rental car portion of the Gateway Center, and has used available CFCs and Department cash to fund these projects. The Department has been reimbursing its internal cash expenditures on these elements of the TRP from CFC revenues as they become available and all funds have been paid back as of September 2024. Also, as shown on Exhibit A, the Department is planning to fund approximately \$8.0 million of the Other Capital Projects with CFCs.

4 Financial Framework and Analysis

This Chapter discusses the financial framework for the Airport System, including an overview of the governing body, management structure of the Department, financial structure including Airport System cost centers, certain obligations of the Master Indenture, and certain provisions contained in the AUA (defined herein) and in other key agreements at the Airport System. Additionally, the Department's plan for funding sources, including the use of proceeds of the Existing Bonds, the planned Series 2025 Bonds along with Debt Service projections, Operating Expenses, Revenues projections, debt service coverage, and other key financial analyses are described in this Chapter.

Exhibits contained at the end of this Chapter present actual results for FY 2024, and projections for FY 2025 through FY 2031, also referred to as the Projection Period.

4.1 Airport Governing Body

The Airport System is operated and managed by the Salt Lake City Department of Airports, a department of the City. The Mayor of the City and the City Council oversee its affairs. In February 1976, the City created the Airport Advisory Board, an 11-member group of citizen volunteers, to provide advice with respect to broad matters of policy affecting the operation of the Airport System. All actions taken by the Airport Advisory Board constitute recommendations to the Mayor. The Mayor has the power to review any action submitted by the Airport Advisory Board.

4.2 Management Structure

The day-to-day operations of the Airport System are managed by the Executive Director, who reports directly to the Mayor. The Executive Director, appointed by the Mayor, leads the management staff of the Department along with the Department's Division Directors. Eight Division Directors of the Department lead the following Divisions: Operations; Maintenance; Finance; Airport Design and Construction Management; Planning and Environmental; Real Estate and Commercial Development; Communication and Marketing; and Information Technology. The executive team of the Department is a full-time staff of professional and technical personnel located at the Airport.

4.3 Financial Structure

The Department's Airport System includes the Airport and the Auxiliary Airports, general aviation airports owned by the City and operated by the Department. For accounting purposes, the Airport System is operated as an independent enterprise fund of the City and is separate from other City enterprises. As described in Section 5.3.2 below, funds deposited into the Revenue Account are not commingled with any other funds of the City and are used and applied only in the manner as specified in the Master Indenture. A discussion of the application of revenues is also described below.

The Department funds its operation of the Airport System with revenues generated from Airport System rentals, fees, and charges. The Airport System is financially self-sustaining with Revenues generated from airline and other tenant fees, grants, Passenger Facility Charges (PFCs), rental car CFCs, concession fees, and other Revenues of the Airport System. Capital improvements at the Airport System are funded by the Department with: (1) federal, state, and other grants-in-aid, (2) Revenues generated from Airport System rentals, fees and charges; (3) Airport System revenue bond proceeds; (4) PFC revenues, (5) CFC revenues, and (6) other Department funds.

4.3.1 Accounting Structure

Pursuant to the AUA for the Airport, the Department has created various cost and revenue centers and cost centers for the purpose of accounting for and allocating costs and revenues of the Airport System in order to establish airline rates and charges for the use of the Airfield and the Terminal. Per the AUA, the airline cost and revenue centers are referred to as the Airfield Cost and Revenue Center and the Terminal Cost and Revenue Center. In addition to the two-airline cost and revenue centers, the Department also allocates costs and revenues to five other Department cost centers and two indirect cost centers. Landside, General Aviation, Support Areas, Auxiliary Airports, and Other comprise the other direct Department cost and revenue centers. The General Administration and Roads cost centers are the Department's indirect cost centers, which are allocated to the direct cost centers. As described below, rate-setting at the Airport is a hybrid methodology, where Landing Fees are calculated on a residual basis and the Terminal Rents are calculated on a modified commercial compensatory basis that includes financial incentives for additional enplaned passengers. In the Airfield Cost and Revenue Center, the Signatory Airlines have the primary responsibility and risk and benefit from non-airline revenues. In the Terminal Cost and Revenue Center, the Department and the Signatory Airlines share the responsibility and risk. The AUA also has an adjustment-to-actual provision that sets a process for the reconciliation of rates and charges with the Signatory Airlines at the end of each FY.

The Airfield Cost and Revenue Center and Terminal Cost and Revenue Center include allocated shares of Operating Expenses and Capital Outlays, debt service, amortization charges, Rolling Coverage Amount requirements, O&M Reserve Requirements, Renewal, and Replacement Requirements, other required reserve deposits, and Revenues. The Existing Bonds, and the Series 2025 Bonds are payable on a parity from the Airport System Net Revenues from all Cost and Revenue Centers of the Department.

Direct Cost and Revenue Centers:

- **Airfield Cost and Revenue Center:** The cost and revenue center to which revenues and expenses associated with those portions of the Airport providing for the landing, taking off, and taxiing of aircraft, including without limitation approach and turning zones, clear zones, aviation or other easements, runways, a fully integrated taxiway system, runway and taxiway lights, GSE storage areas, remote aircraft parking aprons, and other appurtenances related to the aeronautical use of the Airport, including any airfield property purchased for noise or other environmental mitigation purposes.
- **Terminal Cost and Revenue Center:** The cost and revenue center to which revenues and expenses associated with the Terminal buildings and Terminal Aircraft Aprons including but not limited to aircraft gates, ticket counters, baggage claim areas, baggage make up areas, security checkpoint areas, office space, storage areas, concourses, lobbies, VIP lounges, FIS facilities, employee break rooms and public areas located within terminal building at the Airport. Terminal Aircraft Aprons include those areas of the Airport that primarily are designated for parking of passenger aircraft and support vehicles and the loading and unloading of passenger aircraft.

- **Landside Cost and Revenue Center:** The cost center and revenue center to which revenues and expenses associated with areas and facilities accommodating ground transportation, including Terminal public access roadways and curbside, public automobile and employee parking facilities, rental car operations, and taxi and transportation network companies (TNCs).
- **General Aviation:** The cost and revenue center to which revenues and expenses associated with general aviation areas and facilities provided at the Airport. These include, but are not limited to, hangar, building, land and space rentals and fuel flowage fees.
- **Support Areas:** The cost and revenue center to which revenues and expenses associated with, but not limited to, Airport support areas are allocated. These include flight kitchens, non-terminal buildings, cargo ramps, and other areas.
- **Auxiliary Airports:** The cost and revenue center to which revenues and expenses associated with areas and facilities provided at the Auxiliary Airports. These include, but are not limited to, hangar, building, land and space rentals and fuel flowage fees.
- **Other:** The cost and revenue center to which revenues and expenses associated with areas and facilities leased or provided for air cargo activities, improved land and buildings, and unimproved land.

Indirect Cost Centers

- **General Administration:** Expenses associated with salaries, benefits, materials, and supplies of the Airport's administrative staff and not attributable to any Direct Cost and Revenue Center but allocated among all cost centers for purposes of rate making based on share of expenses among the Direct Cost and Revenue Centers.
- **Roads:** Expenses associated with Airport roadways are allocated to the Department's Direct Cost and Revenue Centers based on amounts specified in the AUA.

4.3.2 Master Indenture

The Master Trust Indenture, dated as of February 1, 2017 by and between the City and Wilmington Trust, National Association, as Trustee (the Master Indenture), authorizes the issuance of airport revenue bonds to pay the costs of acquiring and constructing Airport System improvements, among other items. The Existing Bonds were issued pursuant to the Master Indenture and the First, Second, Third, and Fourth Supplemental Trust Indentures and the Series 2025 Bonds are being issued pursuant to the provisions of the Master Indenture and the Fifth Supplemental Trust Indenture to be dated as of August 1, 2025, referred to as the Fifth Supplemental Indenture, by and between the City and the Trustee. The Master Indenture and the Fifth Supplemental Indenture are collectively referred to as the Indenture. The Series 2025 Bonds are payable solely from the Net Revenues of the Airport System, certain funds and accounts held by the Trustee under the Indenture, and other amounts payable under the Indenture. As of July 2, 2025, the Department had approximately \$3.2 billion of Bonds Outstanding.

Pursuant to the Master Indenture, the City has pledged Net Revenues to the payment of the Bonds issued thereunder. Net Revenues are all Revenues of the Airport System remaining after payment of Operation and Maintenance Expenses of the Airport System. Revenues include, among other things, all amounts derived from all rates, tolls, fees, rentals, charges and any other payments collected, or received by the City in connection with the operation of the Airport System, any amounts designated as Other Pledged Revenues pursuant to the procedures in the Master Indenture, and all investment income earned by the City on such Revenues except as otherwise expressly provided in the Master Indenture.

Flow of Funds

The Master Indenture and the Subordinate Indenture (as described below) established certain funds and accounts and the priority for the flow of Revenues and certain other amounts to such funds and accounts, as described below. **Figure 4-1** illustrates the flow of funds as set forth in the Master Indenture and the Subordinate Indenture (as described below).

Figure 4-1 Flow of Funds

* Maintained within the Revenue Account of the Department 1 Revenues do not include Passenger Facility Charges.
** Held and maintained by Trustee
*** Held and maintained by Subordinate Trustee

Source: Master Indenture and Subordinate Indenture

As long as there are Outstanding Bonds and Subordinate Obligations, all Revenues are required to be deposited into the Revenue Account, which is administered by the Department on behalf of the City. Revenues will be set aside for the payment of the following amounts or deposited or transferred to the following funds, accounts and subaccounts in the following order of priority:

1. Operation and Maintenance Subaccount
2. Debt Service Funds
3. Common Debt Service Reserve Fund and Series Debt Service Reserve Funds
4. Subordinate Obligation Debt Service
5. Subordinate Obligation Debt Service Reserve Funds
6. Operation and Maintenance Reserve Subaccount
7. Renewal and Replacement Subaccount
8. Rolling Coverage Account
9. Surplus Fund

Rate Covenant

In the Master Indenture, the City covenants, while any Bonds are Outstanding, to establish, fix, prescribe, and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that Revenues in each FY will be at least equal to the following amounts:

- Operation and Maintenance Expenses of the Airport System due and payable during such FY
- the Annual Debt Service on any Outstanding Bonds required to be funded by the City in such FY as required by the Master Indenture or any Supplemental Indenture with respect to the Outstanding Bonds;
- the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund which may be established by a Supplemental Indenture;
- the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture;
- the interest on and principal of any indebtedness of the Department required to be funded during such FY, other than for Outstanding Bonds, but including Subordinate Obligations; and
- funding of any debt service reserve funds created with respect to any indebtedness of the Department, other than Outstanding Bonds, but including Subordinate Obligations.

The City also covenants and agrees that it shall establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that during each FY the Net Revenues, together with any Transfer from the Rolling Coverage Account, will be equal to at least 125% of Annual Debt Service on the Outstanding Bonds for such Fiscal Year. The amount of any Transfer from the Rolling Coverage Account taken into account shall not exceed 25% of Annual Debt Service on the Outstanding Bonds in such FY. When calculating Annual Debt Service on the Outstanding Bonds for purposes of the rate covenants described above, Annual Debt Service on the Outstanding Bonds shall be reduced by the amount of principal and/or interest paid with Capitalized Interest, Passenger Facility Charges Available for Debt Service and/or Pledged Passenger Facility Charges.

Additional Bonds

Pursuant to the Master Indenture, the Department is authorized to issue additional Bonds, subject to meeting certain conditions. To issue such Bonds, including the Series 2025 Bonds, the Department must provide either:

- (i) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by an Authorized City Representative showing that the Net Revenues for the last audited FY or any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of Maximum Aggregate Annual Debt Service with respect to all Outstanding Bonds and the proposed Series of Bonds, calculated as if the proposed Series of Bonds were then Outstanding; or
- (ii) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by a Consultant, nationally recognized as an expert in the area of air traffic and airport financial analysis, showing that:
 - (A) the Net Revenues for the last audited Fiscal Year or for any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of the sum of the Annual Debt Service due and payable with respect to all Outstanding Bonds for such applicable period; and
 - (B) for the period from and including the first full Fiscal Year following the issuance of such proposed Series of Bonds, during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof, through and including the later of: (1) the fifth full Fiscal Year following the issuance of such Series of Bonds, or (2) the third full Fiscal Year during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof, the estimated Net Revenues, together with any estimated Transfer, for each such Fiscal Year, will be at least equal to 125% of the Aggregate Annual Debt Service for each such Fiscal Year with respect to all Outstanding Bonds and calculated as if (1) the proposed Series of Bonds were then Outstanding, and (2) any future Series of Bonds which the City estimates will be required to complete payment of the estimated costs of construction of such portion of the Specified Project and any other uncompleted portion of the Specified Project from which the Consultant projects additional Revenues will be generated were then Outstanding.

For purposes of subparagraphs (i) and (ii) above, the amount of any Transfer taken into account shall not exceed 25% of the Aggregate Annual Debt Service on the Outstanding Bonds and the proposed Series of Bonds. The City will be required to meet this test with respect to the Series 2025 Bonds. L&B is providing this Report along with a certificate described in clause (ii) above with respect to the Series 2025 Bonds.

PFC Revenues used to pay Debt Service

Revenues do not include PFCs. However, PFCs may still be used to pay the principal of and interest on Bonds in two separate ways under the Master Indenture. The City may designate specified PFCs as Passenger Facility Charges Available for Debt Service or as Pledged Passenger Facility Charges. Any PFCs designated as Passenger Facility Charges Available for Debt Service or as Pledged Passenger Facility Charges will be deposited directly to the Debt Service Fund or Funds directed by the City and will be used to pay debt service on the applicable Series of Bonds. The City expects, to the extent approved by the FAA, to designate certain PFCs as Passenger Facility Charges Available for Debt Service and to use such PFCs to pay a portion of the debt service on Existing Bonds, the planned Series 2025 Bonds, and certain of the Bonds to be issued in the future. The City does not have any current plans to designate any PFCs as Pledged Passenger Facility Charges. When

calculating debt service for purposes of the rate covenant set forth in the Master Indenture and the additional bonds test set forth in the Master Indenture, debt service is reduced by the amount of PFCs, whether designated as Pledged Passenger Facility Charges Available for Debt Service or as Pledged Passenger Facility Charges, used or expected to be used, as applicable, to pay debt service on Outstanding Bonds, Series 2025 Bonds, or any additional Bonds.

4.3.3 Subordinate Indenture

The Master Subordinate Trust Indenture, dated as of March 1, 2021 (the Subordinate Indenture), by and between the City and U.S. Bank Trust Company, National Association, as Subordinate Trustee (the “Subordinate Trustee”), authorizes the issuance of Subordinate Obligations to pay the costs of acquiring and constructing Airport System Improvements, among other items. Pursuant to the Subordinate Indenture, Subordinate Obligations will be secured by a pledge of and lien on Subordinate Revenues. Subordinate Revenues include Net Revenues less all amounts required to pay debt service and reserve replenishment on and related to the Bonds. The Line of Credit is the only Subordinate Obligation currently outstanding under the Subordinate Indenture.

Rate Covenant

In the Subordinate Indenture, the City covenants, while any Subordinate Obligations are Outstanding, to establish, fix, prescribe, and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that Revenues in each FY will be at least equal to the following amounts:

- Operation and Maintenance Expenses of the Airport System due and payable during such FY
- the principal of and interest on any outstanding Bonds required to be funded by the City in such FY as required by the Master Indenture or any Supplemental Indenture with respect to the Outstanding Bonds;
- the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund;
- the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture;
- the annual debt service on any outstanding Subordinate Obligations required to be funded by the City in such FY as required by the Subordinate Indenture or any supplemental subordinate obligation indenture with respect to the outstanding Subordinate Obligations;
- the required deposits to any debt service reserve fund which may be established by a supplemental subordinate obligation indenture;
- the reimbursement owed to any credit provider or liquidity provider as required by a supplemental Subordinate Indenture;
- the interest on and principal of any indebtedness of the City with respect to the Department of Airports required to be funded during such Fiscal Year, other than for Outstanding Bonds and outstanding Subordinate Obligations; and
- funding of any debt service reserve funds created with respect to any indebtedness of the Department,
- other than Outstanding Bonds and Subordinate Obligations.

The City further covenanted that it shall establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that during each FY the Subordinate Revenues, together with any transfer, will be equal to at least 115% of annual debt service on the outstanding Subordinate Obligations for such FY. For purposes of this subsection (b), the amount of any transfer taken into account shall not exceed 15% of annual debt service on the outstanding Subordinate Obligations in such Fiscal Year. When calculating annual debt service on the outstanding Subordinate Obligations for purposes of the rate covenants, annual debt service on the outstanding Subordinate Obligations shall be reduced by the amount of principal and/or interest paid with capitalized interest, Passenger Facility Charges available for debt service and/or pledged Passenger Facility Charges.

Additional Subordinate Obligations

Additional Subordinate Obligations may be issued under the Subordinate Obligation Trust Indenture on parity with outstanding Subordinate Obligations, provided, among other things, there shall be delivered to the Subordinate Trustee either:

- (i) a certificate, dated as of a date between the date of pricing of the Subordinate Obligations being issued and the date of delivery of such Subordinate Obligations (both dates inclusive), prepared by an authorized city representative showing that the Subordinate Revenues for the last audited FY or any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed series of Subordinate Obligations, together with any transfer for the most recently ended FY, were at least equal to 115% of maximum aggregate annual debt service with respect to all outstanding Subordinate Obligations and the proposed series of Subordinate Obligations, calculated as if the proposed series of Subordinate Obligations were then outstanding; or
- (ii) a certificate, dated as of a date between the date of pricing of the Subordinate Obligations being issued and the date of delivery of such Subordinate Obligations (both dates inclusive), prepared by a consultant, nationally recognized as an expert in the area of air traffic and airport financial analysis, showing that:
 - (A) the Subordinate Revenues for the last audited FY or for any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed series of Subordinate Obligations, together with any transfer for the most recently ended FY, were at least equal to 115% of the sum of the annual debt service due and payable with respect to all outstanding Subordinate Obligations for such applicable period; and
 - (B) for the period from and including the first full FY following the issuance of such proposed series of Subordinate Obligations during which no interest on such series of Subordinate Obligations is expected to be paid from the proceeds thereof through and including the later of: (1) the fifth full FY following the issuance of such series of Subordinate Obligations, or (2) the third full Fiscal Year during which no interest on such series of Subordinate Obligations is expected to be paid from the proceeds thereof, the estimated Subordinate Revenues, together with any estimated Transfer, for each such FY, will be at least equal to 115% of the aggregate annual debt service for each such Fiscal Year with respect to all outstanding Subordinate Obligations and calculated as if (y) the proposed series of Subordinate Obligations were then outstanding, and (z) any future series of Subordinate Obligations which the City estimates will be required to complete payment of the estimated costs of construction of such portion of the specified project and any other uncompleted portion of the specified project from which the consultant projects additional Revenues will be generated were then outstanding.

For purposes of subparagraphs (i) and (ii) above, the amount of any transfer taken into account shall not exceed 15% of the aggregate annual debt service on the outstanding Subordinate Obligations, the proposed series of Subordinate Obligations and any future series of Subordinate Obligations included pursuant to subparagraph (ii)(B)(z) of the previous paragraph.

For purposes of subsections (ii)(B) above, in estimating Subordinate Revenues, the consultant may take into account (1) Revenues from specified projects or other Airport Facilities reasonably expected to become available during the period for which the estimates are provided, (2) any increase in fees, rates, charges, rentals or other sources of Revenues which have been approved by the City and will be in effect during the period for which the estimates are provided, and (3) any other increases in Revenues which the consultant believes to be a reasonable assumption for such period. With respect to Operation and Maintenance Expenses of the Airport System, the consultant shall use such assumptions as the consultant believes to be reasonable, taking into account: (x) historical Operation and Maintenance Expenses of the Airport System, (y) Operation and Maintenance Expenses of the Airport System associated with the specified projects and any other new Airport Facilities, and (z) such other factors, including inflation and changing operations or policies of the City, as the consultant believes to be appropriate. The consultant shall include in the certificate or in a separate accompanying report the calculations and assumptions made in determining the estimated Subordinate Revenues and shall also set forth the calculations of aggregate annual debt service, which calculations may be based upon information provided by another Consultant.

In certain circumstances, neither of the certificates described above under subsection (a) shall be required for the issuance of additional Subordinate Obligations. For instance, if Subordinate Obligations are being issued for the purpose of refunding then outstanding Subordinate Obligations and there is delivered to the Subordinate Trustee, instead, a certificate of an authorized city representative or a consultant showing that maximum aggregate annual debt service after the issuance of such refunding, Subordinate Obligations will not exceed maximum aggregate annual debt service prior to the issuance of such refunding Subordinate Obligations.

4.3.4 Airline Use Agreement

The Department entered into an AUA with the Signatory Airlines operating at the Airport effective July 1, 2014 with an initial term of 10 years. The AUA establishes, among other things, procedures for setting and adjusting rentals, rates, fees and charges to be collected for the use of Airport facilities. The Signatory Airlines at the Airport and their respective regional affiliates accounted for nearly 98% of enplaned passengers at the Airport in FY 2024.

In FY 2023 as part of negotiations over Phase IV of the NCP, Delta agreed to an additional amendment extending the term of its new AUA from July 1, 2024 through June 30, 2044 with options to extend through June 30, 2054 (Second Amendment). In addition to revising the term of the AUA, the Second Amendment updates and modernizes various provisions to the AUA, including key business terms to bolster the Department's ability to fund the New SLC, generate additional cash flow to fund capital development, and maintain financial stability as it has agreed to the Phase IV of the NCP. One key result per the change to the Second Amendment is the mitigation of terminal vacancy risk to the Department as the Second Amendment provides a fixed airline share of the terminal requirement at 82% as opposed to the ratio of space leased to the airlines in the current AUA. Revenue sharing with the signatory airlines has also been enhanced in the Second Amendment. These changes are further described below under the 'Airline Rate-Setting Methodology' section. Delta, Alaska Airlines and Southwest Airlines have executed the Second Amendment and have terms through June 30, 2044. The other Signatory Airlines, including American Airlines, Frontier Airlines, Spirit Airlines, and United Airlines, have executed the Second Amendment with terms through June 30, 2034.

The AUA and Second Amendment govern airline use of certain Airport facilities, including Airfield, Terminal, Aircraft Aprons, baggage claim, ticket counters and gate areas and permits the Signatory Airlines to lease Exclusive Use Premises, Preferential Use Premises, and Joint Use Premises. Exclusive Premises generally includes office space, storage areas, airline club lounges, and employee break rooms; and Preferential Use Premises is Airport space, including holdroom areas and gates, ticket counters, and certain baggage makeup areas, leased to a Signatory Airline and to which the Signatory Airline has a higher and continuous priority of use over all other air carriers. Joint Use Premises generally includes baggage claim areas and baggage makeup equipment.

The key provisions of the AUA and Second Amendment are summarized in the following sections and are used as the basis for projecting airline revenues for this Report.

Airline Rate-Setting Methodology

As described earlier in this Chapter, the Airport has been segregated into seven direct cost and revenue centers and two indirect cost centers for the purposes of setting rates and charges: two cost centers associated with the airlines' operations and five other Department cost and revenue centers. The cost centers associated with the airlines are the Airfield Cost and Revenue Center and the Terminal Cost and Revenue Center, each of which is a direct cost and revenue center, plus their allocated portions of the indirect cost centers. The Department's other five direct cost and revenue centers are Landside, General Aviation, Support, Auxiliary Airports, and Other, plus their allocated portions of the indirect cost centers.

Landing Fees under the AUA and Second Amendment are calculated on an Airfield Cost and Revenue Center residual basis where the Signatory Airlines are required to guarantee the total requirement. The cost of Capital Investments allocable to the Airfield, including debt service on Bonds or amortization of Department equity, may be included in the calculation of the Landing Fees upon approval from at least one Signatory Airline. Terminal Rents under the AUA are calculated on a commercial compensatory basis where the Signatory Airlines essentially pay rent for only the space they lease. However, in the Second Amendment effective July 1, 2024, the terminal rental rate charged to the airlines changed to a fixed 82% of the net terminal requirement being charged to the airlines. The cost of Capital Investments allocable to the Terminal, including debt service on Bonds or amortization of Department equity, may be included in the calculation of the Terminal Rents upon approval from the Signatory Airlines. The Capital Investment costs associated with the New SLC, including debt service on Bonds, has received the required approvals from the Signatory Airlines pursuant to the AUA.

The AUA and Second Amendment allow for the calculation and adjustment of Landing Fees and Terminal Rents each FY, using budgeted aviation activity, expenses, and non-airline revenues. The Department may also adjust Landing Fees and Terminal Rents during the current FY if certain conditions warrant an adjustment per the AUA. The AUA also allows for a final adjustment of Landing Fees, Terminal Rents, and Revenue Sharing credits after the annual audit of Department records. Any resulting Adjustment-to-Actual resulting from the final settlement is included in the budget for the second subsequent FY and included as part of the calculation of Landing Fees and Terminal Rents for such FY.

Revenue Sharing

The AUA provides for the sharing of certain in-terminal and rental car concession revenues, excluding parking, with the Signatory Airlines (Revenue Sharing). In the current AUA, all Revenue Sharing is applied directly to each Signatory Airline based on a credit of \$1 per enplaned passenger for up to 10 million enplaned passengers carried by all Signatory Airlines at the Airport. If during any FY, the Signatory Airlines collectively carry more than 10 million enplaned passengers, the Department will provide an additional enhancement to Revenue Sharing for only those enplaned passengers that exceed the 10 million base; provided, however, that the total revenue sharing amount in any FY cannot exceed the least of (i) 30% of Net Remaining Revenue; (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions; and (iii) the Calculated Revenue Sharing Amount. The Department's obligation to provide Revenue Sharing to the Signatory Airlines in a given FY shall be solely from annual adjusted gross revenues for selected concessions for such FY.

In the Second Amendment effective July 1, 2024, Revenue Sharing has been modified to increase to \$1.40 per enplaned passenger for up to 14 million enplaned passengers carried by all Signatory Airlines at the Airport. If during any FY, the Signatory Airlines collectively carry more than 14 million enplaned passengers, the Department will provide an additional enhancement to Revenue Sharing for only those enplaned passengers that exceed the 14 million base; provided, however, that the total revenue sharing amount in any FY cannot exceed the least of (i) 40% of Net Remaining Revenue; (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions; and (iii) the Calculated Revenue Sharing Amount. The Department's obligation to provide Revenue Sharing to the Signatory Airlines in a given FY shall be solely from annual adjusted gross revenues for selected concessions for such FY. Exhibit G following this Chapter presents the Department's Revenue Sharing methodology pursuant to the AUA.

Throughout the FY, budgeted Revenue Sharing amounts are applied uniformly as a monthly credit to Signatory Airlines' invoices for Terminal Rents. For budgeting purposes, the Department applies only 95% of forecast Revenue Sharing amounts throughout the FY. Revenue Sharing Adjustments-to-Actual are performed after the end of the FY during the annual settlement process described above.

Department Cost Centers

The Department's non-airline Cost and Revenue Centers are not subject to an airline rate-setting methodology. Airport Revenues generated in these Cost and Revenue Centers can be used by the Department to meet various obligations or be used for other authorized Airport System-related purposes. The Department bears the responsibility and risk for the Department's non-airline Cost and Revenue Centers.

The TRP

The AUA also contemplated the development of the TRP during the course of the term. Section 10.06 of the AUA specifies special provisions regarding the TRP including memorializing that the Signatory Airlines have approved and support the TRP and that the Department will use reasonable efforts to achieve the shared goal of a target airline cost per enplaned passenger. Additional provisions regarding the TRP include procedures for designating an airline technical representative, the development of contract documents, estimated costs and potential budget overruns, change orders, the notice of claims, and for funding the development of the TRP including best efforts to fund the project with federal and state grants, PFCs, CFCs, and the use of Bonds.

Signatory Airline Approval of Capital Improvement Projects

The Department and the Signatory Airlines agreed in the AUA that costs of certain Capital Investments are subject to Signatory Airline consideration. Section 10.02 of the Second Amendment specifies that no costs or amortization of Capital Investments, including debt service on Bonds, shall be charged to the Signatory Airlines in Landing Fees or Terminal Rents for any Capital Investments in the Airfield Cost and Revenue Center or in the Terminal Cost and Revenue Center, respectively, unless Signatory Airlines accounting for at least 15% of enplaned passengers have approved such Capital Investments. In the event the Department decides to undertake a Capital Investment in these airline Cost and Revenue Centers, the Department and representatives from the Signatory Airlines shall meet to discuss the methods for amortizing or allocating any associated Bonds debt service along with the associated impacts to the Landing Fees and/or Terminal Rents resulting from such Capital Investment.

The Department has received all required approvals from the Signatory Airlines to undertake the capital development projects described herein including the NCP, and to include debt service, including the Existing Bonds and the Series 2025 Bonds allocable to the Airfield Cost and Revenue Center and Terminal Cost and Revenue Center in the calculation of Landing Fees and Terminal Rents, respectively.

The Department may implement, at any time, certain types of Capital Investments that are not subject to Signatory Airline consideration. These include the following:

- Projects mandated by the FAA, DOT, TSA, or similar government authority
- Projects to repair casualty damage to Airport property that must be rebuilt or replaced in order for the City to meet its obligations pursuant to the AUA, Master Indenture, or other agreements with lessees at the Airport
- Projects undertaken in Cost and Revenue Centers other than the Airfield Cost and Revenue Center and the Terminal Cost and Revenue Center
- Reasonable repairs, rebuilding, improvements or additions, including the associated costs therefor, necessary to comply with the AUA or applicable law or to settle lawful claims, satisfy judgements, or comply with judicial orders against City by reason of its ownership, operation, maintenance or use of the Airport
- Expenditures of any emergency nature which, if not made within 48 hours, would result in the closing of any portion of the Airport
- Projects funded directly or indirectly by PFCs, CFCs or grants; provided, however, that this provision shall not be interpreted as a waiver of Signatory Airline consultation rights under applicable laws
- Projects undertaken to satisfy the specific requirements of any Signatory Airline so long as such Signatory Airline agrees to pay all increased rentals, fees, charges, and operating and maintenance costs that are sufficient to cover annual debt service and operating and maintenance costs associated with the project
- Projects related to special purpose facilities for which the user agrees to pay or reimburse the Department

Extraordinary Coverage Protection

Section 8.11 of the AUA and Second Amendment also contains an extraordinary coverage protection provision that allows for the Department to collect additional payments from the Signatory Airlines to satisfy the Rate Covenant set forth in the Master Indenture. These amounts collected from the Signatory Airlines, if ever required, are limited to amounts needed to satisfy the Rate Covenant and are in addition to Landing Fees and Terminal Rents and are to be allocated to the Signatory Airlines in a fair and not unjustly discriminatory manner in the reasonable discretion of the Executive Director of the Department.

4.3.5 Other Principal Business Agreements

New in-terminal concession contracts commenced with the initial opening of the New SLC in the fall of 2020, and all former contracts terminated at that time with the full demolition of the former facilities. In-terminal concession contracts were timed with the New SLC opening. Through request for proposals (RFP) process, the Department has continued to award contracts to coincide with the various phases of the New SLC. The Department has also awarded a contract for a third-party/common use lounge and concessions in CY 2024 as part of Phase IV of the New SLC. Continuing on with practices in the initial phase, the Department intends to award locations in packages of varying, albeit smaller sizes, to existing and new concessionaire partners with successful proposals.

In regard to rental cars and as indicated previously, the following nine brands operate at the Airport: Alamo, Avis, Budget, Dollar, Enterprise, Hertz, National, Payless, and Thrifty. All of these rental car companies pay privilege fees and must collect and remit CFCs. The Department contracts with SP Plus Corporation to manage and operate on-Airport automobile parking facilities. In addition, the Department has agreements with cargo facility and fixed base operators and tenants leasing hangars and buildings.

In October 2021, the Airport entered into an operating agreement with Turo, a peer-to-peer vehicle sharing company. As part of this agreement, Turo pays the Airport 10% of gross revenue on vehicle sharing transactions at the Airport in addition to any parking fees incurred. In FY 2024, Turo had nearly 41,000 transactions at the Airport.

Airport non-airline agreements have various terms and conditions. In general, the business terms of these agreements are based on industry standards and practices. Additional summaries of key non-airline agreement terms are provided below:

Terminal Food and Beverage Agreements:

- Concession fees range between 15% and 22% of gross revenues
- Minimum annual guarantee (MAG) equal to 90% of prior year percentage rents or 103% of prior year MAG, whichever is greater
- Total MAG amounts for 2025 are currently estimated at \$15.1 million
- Contracts are 10 years in length with phased expirations to begin in 2031

Terminal Retail Agreements:

- Percentage rents range between 10% and 25% of gross revenues
- MAG equal to 90% of prior year percentage rents or 103% of prior year MAG, whichever is greater
- Total MAG amounts for 2025 are currently estimated at \$9.6 million
- Contracts are 8 years in length with phased expirations to begin in 2029

Parking and Shuttle Management Agreement:

- Includes automobile parking facilities, shuttle bus operations, and aircraft hardstand bus operations
- Term of agreement with SP Plus Corporation expires June 30, 2026, with two, 2-year extension options at the Department's sole discretion

Rental Car Concession Agreement:

- Concession fees equal to 11.11% on all on-Airport customer contracts or the MAG, whichever is greater annually
- MAG equal to 85% of prior year gross revenues or 103% of prior year MAG, whichever is greater, and it reset in September 2020 at the opening of new parking garage and continues at the greater value through term
- Total MAG amounts for 2025 are approximately \$24.9 million, but are increasing to \$29.8 million with the start of the new agreement on March 1, 2026.
- In addition to the MAG, each on-Airport rental car company will pay fair market value rent for the use of the QTA, RSS, parking stalls, and customer service counters
- Term of agreement is 10 years expiring on February 28, 2026
- The Department recently concluded a Request for Proposals and anticipates awarding new contracts for 10 brands which will commence March 1, 2026. Contracts will be for a term of five years with up to four one-year option terms to give the Department flexibility.

4.3.6 Federal Relief Grant Assistance

4.3.6.1 CARES Act Grant Assistance

The CARES Act was approved by the U.S. Congress and signed by President Trump on March 27, 2020. It is one of the legislative actions taken to address the crisis associated with the COVID-19 pandemic and includes among its relief measures \$10 billion of direct aid in the form of grants for U.S. airports, as well as direct aid, loans and loan guarantees for passengers and cargo airlines.

The FAA announced in April 2020 that it had allocated approximately \$82.5 million to the Department for the Airport System. The Department may draw on such funds, on a reimbursement basis, for any purpose for which airport revenues may be lawfully used in accordance with FAA rules and regulations. The Department used its full allocation of CARES Act grants in FY 2022.

4.3.6.2 Coronavirus Response and Relief Supplemental Appropriation Act

On December 27, 2020, the Consolidated Appropriations Act, 2021 was signed. Division M of that Act is the CRRSAA. Title IV of CRRSAA provides approximately \$2 billion in economic relief to airports to prevent, prepare for, and respond to the COVID-19 public health emergency, including funds set aside for relief from rent and MAGs for eligible airport concessions at primary airports.

The FAA announced on February 12, 2021 that it had allocated approximately \$23.4 million to the Department. Of that amount, approximately \$2.8 million must be used for concessionaire relief. Under the grant program, the Department may use these funds to retain its workforce, make debt service payments, or offset increased

operational costs from enhanced mitigation efforts to limit the spread of COVID-19. The Department applied \$20.6 million for the reimbursement of Operating Expenses in FY 2022.

4.3.6.3 American Rescue Plan Act

On March 11, 2021, the President signed the ARPA, a \$1.9 trillion economic stimulus package designed to help the United States' economy recover from the adverse impacts of the COVID-19 pandemic. In addition to other economic relief, ARPA includes financial relief for certain eligible airports. For eligible airports, ARPA appropriates \$8 billion to assist such airports to prevent, prepare for, and respond to COVID-19, and such amounts remain available until September 30, 2024.

The FAA announced on June 22, 2021 that it had allocated approximately \$91.7 million to the Department. Of that amount, approximately \$11.0 million must be used for concessionaire relief. The Department used its full allocation of ARPA grants in FY 2022.

4.4 The Series 2025 Bonds

The Department plans to issue the Series 2025 Bonds to (1) fund a portion of the costs of the New SLC and a portion of the costs of the Taxiways U&V project, (2) repay all or a portion of the outstanding balance of the Line of Credit (3) fund capitalized interest, (4) fund a deposit to the Common Debt Service Reserve Fund, and (5) pay the costs of issuance of the Series 2025 Bonds. **Table 4-1** presents the estimated sources and uses for the Series 2025 Bonds currently estimated to be required to fund the remaining portions of the New SLC. The estimated sources and uses of funds and debt service for the proposed Series 2025 Bonds were prepared by the Department's municipal advisor, PFM Financial Advisors LLC (PFM). At this time, the Series 2025 Bonds are the only Bonds providing additional proceeds for future capital anticipated to be issued over the Projection Period.

Table 4-1 Series 2025 Bonds Estimated Sources and Uses (dollars in thousands)

Sources:	Series 2025A (AMT)	Series 2025B (Non-AMT)	Total Series 2025
Par Amount of Bonds	\$566,060	\$54,920	\$620,980
Premium	8,358	624	8,981
Total Sources	\$574,418	\$55,544	\$629,961
Uses:			
Project Fund Deposit ¹	\$504,925	\$45,213	\$550,138
Capitalized Interest	27,998	6,301	34,298
Common Debt Service Reserve Fund	38,973	3,781	42,754
Cost of Issuance	2,522	249	2,771
Total Uses	\$574,418	\$55,544	\$629,961

¹ Project Fund Deposit amount includes \$200 million for repayment of Line of Credit.

Note: Amounts may not add because of rounding.

Source: PFM Financial Advisors LLC, July 2025

Exhibit B presents annual Debt Service for the Projection Period. Existing Bonds debt service and planned Series 2025 Bonds debt service, net of capitalized interest, is projected to be approximately \$272.3 million in FY 2028 upon completion of the New SLC. Total annual debt service, net of PFC revenues applied to pay debt service on the Existing Bonds and planned Series 2025 Bonds is estimated to be approximately \$216.8 million by FY 2028 when all elements of the New SLC are expected to be operational, and approximately \$213.9 million by FY 2031. Debt Service estimates for the Series 2025 Bonds were provided by PFM and are based on the assumptions included in **Table 4-2**.

Table 4-2 Assumptions for the Series 2025 Bonds (dollars in millions)

Assumption	Series 2025 Bonds
Issuance Date	8/5/2025
Par Amount	\$621.0
Project Fund Deposit ¹	\$550.1
All-In True Interest Cost	5.47%
Final Maturity	7/1/2055

¹ Project Fund Deposit amount includes \$200 million for repayment of Line of Credit.

Source: PFM Financial Advisors LLC, July 2025

4.5 Operating Expenses

Table 4-3 presents historical Operating Expenses and capital outlays of the Department for the last six FYs or for FY 2019 through FY 2024. This period has been chosen to present trends for the full year preceding the COVID-19 pandemic (FY 2019) and trends during the recovery period to the most recently completed FY for which final data is available (FY 2020 through FY 2024). For the period of FY 2019 through FY 2023, while the Department had been opening elements of the New SLC during the COVID-19 pandemic, total Operating Expenses increased from approximately \$108.1 million in FY 2019 to approximately \$187.8 million in FY 2024 (not including federal relief grant credits), a CAGR of approximately 11.7%. While the Department had budgeted a significant increase in Operating Expenses in FY 2020 of \$120.4 million primarily due to the upcoming opening of the New SLC, it was able to stabilize Operating Expenses upon the arrival of the pandemic and limit increases such that they increased by 4.0% to \$112.4 million (not including federal relief grant credits). For each year since FY 2020, the Airport has applied CARES, CRRSAA, and ARPA grants to eligible operating expenses: \$3.9 million in FY 2020, \$66.1 million in FY 2021, \$39.7 million in FY 2022, and \$37.1 million in both FY 2023 and FY 2024 applied to eligible Operating Expenses.

Table 4-3 Historical Operating Expenses and Capital Outlays (dollars in millions)¹

	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	CAGR 19-24
Salaries and Benefits	\$48.7	\$48.5	\$50.4	\$54.7	\$60.9	\$66.7	6.5%
Materials and Supplies	12.6	12.4	11.0	13.7	20.1	17.8	7.2%
Services ²	29.2	27.8	43.9	54.4	61.6	66.9	18.0%
Other Operating Expenses ³	2.8	3.0	3.6	3.8	7.1	6.2	17.4%
Intergovernmental Charges	13.5	18.1	18.4	20.3	24.2	26.8	14.6%
Capital Outlays	1.2	2.6	4.7	2.5	3.6	3.4	22.2%
Total Operating Expenses & Capital Outlays	\$108.1	\$112.4	\$132.0	\$149.5	\$177.5	\$187.8	11.7%
Federal Grants Credits ⁴	0.0	(3.9)	(66.1)	(39.7)	(37.1)	(37.1)	
Net Operating Expenses & Capital Outlays	\$108.1	\$108.5	\$65.9	\$109.8	\$140.4	\$150.7	6.9%

¹ Amounts shown are those included in airline rates and charges and may vary from the Department's financial reports for various reasons, including the treatment of non-cash items.

² Includes utilities

³ Includes insurance premiums

⁴ Includes amounts allocated to the Department from the CARES Act and CRRSA Act that were used to reimburse for eligible Operating Expenses.

Amounts may not add because of rounding.

Source: Department records, March 2025

The primary categories of Operating Expenses include salaries and benefits, materials and supplies, services, other operating expenses, intergovernmental charges, and capital outlays less than \$100,000. Additionally, **Exhibit C** after this Chapter presents annual Operating Expenses of the Department for the Airport System for the Projection Period.

Key Operating Expenses categories and assumptions in projecting future growth are summarized below. These categories account for about 95% of the Airport System's total Operating Expenses for FY 2024.

- **Salaries and Benefits:** This expense category includes salaries, wages, and benefits associated with Department staff. It represented approximately 36% of total Operating Expenses at the Airport System for FY 2024. The Department was able to keep salaries and benefits expenses relatively flat in FY 2020 as compared to FY 2019 (-0.4%). Since FY 2020, salaries have increased at a CAGR of 8.3% through FY 2024. As presented above, these expenses increased at a CAGR of approximately 6.5% for the period FY 2019 through FY 2024. In FY 2025, these expenses are estimated to increase by approximately 10.0% from FY 2024 to approximately \$73.4 million. Salaries and Benefits expenses are projected to increase at a CAGR of 5.5% from budget FY 2026 through FY 2031.

- **Services:** This expense category includes costs associated with the Department's outsourcing for janitorial services, maintenance contracts, professional services, other contractual services, and utilities at the Airport System. It is the largest category of Operating Expenses at the Airport System as it is slightly higher than salaries and benefits. It represented approximately 36% of total Operating Expenses at the Airport for FY 2024. In FY 2020, the Department was able to decrease these expenses by 4.8%, from \$29.2 million to \$27.8 million. Between FY 2020 and FY 2024, this category of expenses increased at a rate of 24.5% as maintenance contracts for the new terminal facilities and the busing operation for the aircraft hardstand operation came online. Future services Operating Expenses are projected to increase in FY 2025 by 16.2%, reflecting additional maintenance contracts as the terminal facilities continue to expand, and then increase at a CAGR of approximately 4.5% for budget FY 2026 through FY 2031.
- **Materials and Supplies:** Materials and supplies expenses of the Airport System comprised approximately 9.5% of total Operating Expenses for FY 2024. This category of expenses dropped (1.8%) between FY2019 and FY 2020, but has grown at a CAGR of 9.5% between FY 2020 and FY 2024. Future material and supplies Operating Expenses are projected to increase at a CAGR of approximately 4.5% for budget FY 2026 through FY 2031.
- **Intergovernmental Charges:** This expense category includes charges to the Department for the use of aircraft rescue and firefighting services, the use of the City's Police Department effective in October 2018, and for other allocable costs for the use of City services. Intergovernmental charges expenses at the Airport System comprised approximately 14% of total Operating Expenses at the Airport System for FY 2024. Future intergovernmental Operating Expenses are projected to increase at a CAGR of approximately 5.0% for FY 2026 through FY 2031.

Overall, the projection of Operating Expenses is based on historical trend reviews, the anticipated impacts of inflation, the recovery from the impacts associated with the COVID-19 pandemic, projected activity levels, and cost impacts associated with the New SLC and Other Capital Projects. Exhibit C presents Operating Expenses by category and cost center through FY 2031. Total Operating Expenses are projected to increase at a CAGR of approximately 5.5% over the period from FY 2026 to FY 2031.

4.6 Non-Airline Revenues

Table 4-4 presents historical non-airline revenues along with growth rates for the Airport System for the period of FY 2019 to FY 2024. As shown for FY 2024, the three primary categories of non-airline revenues (e.g., auto parking, car rental, and terminal concessions) accounted for approximately 73% of the Airport System's total non-airline revenues.

The significant decline in passenger traffic at the Airport associated with the COVID-19 pandemic had a major effect on non-airline revenues. In FY 2020, total non-airlines revenues declined from FY 2019 levels by 14.2%, from \$117.9 million to \$101.1 million, with a further decline to \$96.5 million in FY 2021. However, with the recovery of passenger traffic starting in FY2022 and the opening of new facilities associated with the New SLC, non-airline revenues have significantly surpassed pre-pandemic levels.

Table 4-4 Historical Airport Non-Airline Revenues (dollars in millions)¹

	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	CAGR 19-24
Auto Parking	\$36.3	\$28.0	\$23.5	\$48.8	\$60.1	\$68.6	13.6%
Car Rental	29.9	25.4	24.3	34.5	36.1	39.7	5.8%
Terminal Concessions	20.5	16.7	11.9	20.7	23.7	26.6	5.3%
Other	31.3	31.1	36.8	44.6	41.6	50.7	10.1%
Total Non-Airline Revenues	\$117.9	\$101.1	\$96.5	\$148.6	\$161.5	\$185.6	9.5%
Enplaned Passengers (millions)	13.1	10.1	7.7	12.8	13.1	13.9	1.1%
Non-Airline Revenues per Enplaned Passenger	\$9.00	\$10.00	\$12.53	\$11.61	\$12.28	\$13.40	8.3%

¹ Amounts shown are those included in airline rates and charges and may vary from the Department's financial reports for various reasons, including the treatment of non-cash items.

Source: Department records, March 2025

Exhibit D presents non-airline revenues at the Airport System for the Projection Period, including assumed incremental impacts associated with the NCP. Non-airline revenues, including Airfield and Terminal offsets to airline rates and charges, are estimated at approximately \$196.2 million in FY 2025 and are projected to increase to approximately \$247.9 million in FY 2031. This increase in non-airline revenues between FY 2025 and FY 2031 represents a CAGR of approximately 4.0%. In general, the projection of non-airline revenues is based on historical trend reviews, projected activity levels, and impacts associated with the New SLC. Non-airline revenues are further described in the following sections.

4.6.1 Auto Parking

Auto parking revenues historically have represented the largest component of non-airline revenues at the Airport System, accounting for approximately 37% of total non-airline revenues for FY 2024. Parking revenue fell significantly between FY 2019 and FY 2020, dropping proportionately with enplanements by 22.9%. However, since FY 2020, the recovery in parking revenues has outpaced the recovery in enplanements, growing at a CAGR of 25.1% from FY 2020 to FY 2024.

The Department has implemented certain parking rate changes during this period including increases in the Economy Lot, Parking Garage, and the implementation of Premium Reserved Parking. The Department also opened Lot E on the eastern side of the new parking garage and QTA facility where customers can walk to the terminal. **Table 4-5** presents public parking rates at the Airport since FY 2017. As shown in the table, the Department monitors public parking rates and implements rate changes periodically. Additionally, the Department offers a variety of parking options to address the differing needs of its customer base. The Department has been able to realize revenue gains resulting from these increases and the differing products as demand has continued to increase. In addition, the new parking garage opened in September 2020, which essentially has doubled garage parking capacity. These factors have led to a CAGR of 13.6% between FY 2019 and FY 2024, even though enplaned passengers have grown at a CAGR of 1.1%.

Table 4-5 Public Parking Rates at the Airport (daily maximum rates)

Parking Facility	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	March 2025
Economy Lot	\$9	\$9	\$9	\$10	\$10	\$10	\$10	\$12	\$12
Lot E ¹	n/a	n/a	n/a	\$21	\$21	\$21	\$21	\$21	\$25
Parking Garage ²	\$32	\$32	\$32	\$35	\$35	\$35	\$35	\$35	\$40
Premium Reserved Parking	\$50	\$50	\$50	\$55	\$55	\$55	\$55	\$55	\$60

¹ Lot E opened in September 2020.

² The new parking garage opened in September 2020.

Source: Department records, March 2025

As of March 2025, three primary off-airport parking companies also provide parking services to passengers, in competition with the Department.

For the period of budget FY 2026 through FY 2031, auto parking revenues are projected to increase at a CAGR of 3.7%. The projection assumes periodic rate increases somewhat in line with inflationary trends combined with O&D passenger count growth.

4.6.2 Car Rental

Rental car concessions are the second largest source of non-airline revenue at the Airport, approximately 21% in FY 2024. In FY 2020, rental car revenues decreased primarily because of the impacts associated with the COVID-19 pandemic to \$25.4 million. The car rental revenue rate of decline of 15.1% was more favorable than the rate of the decrease associated with enplaned passengers. Since FY 2020, the recovery in rental car concessions has outpaced the enplanement recovery, growing at a CAGR of 11.1% through FY 2024. Rental car revenues are estimated at approximately \$40.4 million in FY 2025.

For the period of budget FY 2026 through FY 2031, car rental revenues are projected to increase at a CAGR of 3.1%. The projection assumes increases associated with the passenger growth and inflationary trends.

4.6.3 Terminal Concessions

In FY 2020, terminal concessions decreased primarily because of the impacts associated with the COVID-19 pandemic to \$16.7 million. The revenue rate of decline of 18.5% was more favorable than the rate of the decrease associated with enplaned passengers. Since FY 2020, terminal concessions have recovered well beyond FY 2019 levels, at a CAGR of 12.3% between FY 2020 and FY 2024.

Given the lack of space for terminal concessions in the prior terminal facility, additional revenue improvements are being realized as the concessions program continues to expand along with new phases of construction. Terminal concessions are estimated at approximately \$29.8 million in FY 2025. During FY 2026 (anticipated in the fall of 2025), the Department will be opening a new American Express Centurion Lounge on Concourse B. This lounge is currently estimated to increase Department terminal concessions revenues by approximately \$5 million during FY 2026.

For the period of budget FY 2026 through FY 2031, terminal concession revenues are projected to increase at a CAGR of 3.6%. The projection assumes increases related to the passenger growth, the opening of new concessions related to the New SLC, and inflationary trends.

4.6.4 Other

Other non-airline revenues primarily include the State aviation fuel tax, other tenant leases, ground transportation and TNC revenues, cargo building rents, hangar rents, fixed base operator rents, and other buildings at the Airport leased by the Department. Ground transportation and TNC revenues were significantly impacted by the COVID-19 pandemic, decreasing from \$6.2 million in FY 2019 to \$2.9 million in FY 2021. However, these revenues have recovered since then, growing to \$8.9 million in FY 2024. Many of the other revenues in the category were not as impacted by air traffic activity as the other categories described above. In FY 2020, other revenues remained relatively flat from the prior year at \$31.1 million. In FY 2024, other revenues grew to approximately \$50.1 million as new facilities with the New SLC have become operational. The projection for other non-airline revenues assumes increases generally in line with inflationary trends.

4.7 Airline Revenues

Airline revenues at the Airport include Landing Fees and Terminal Rents. The rate-setting formulas for Landing Fees and Terminal Rents are consistent with the rate-setting methodologies set forth in the AUA and described earlier in this Chapter. **Exhibits E and F** further illustrate the rate-setting methodologies for the Landing Fees and Terminal Rents, respectively. In addition, projected Revenue Sharing consistent with the AUA is presented on **Exhibit G**. The business terms of the AUA are used as the basis for projecting airline revenues for the purposes of this Report.

4.7.1 Landing Fees

Exhibit E presents the calculation of Landing Fees for the Projection Period. Per the residual rate-setting methodology, the Department fully recovers direct and allocated indirect costs for airline use of the Airfield cost center. The total requirement is reduced by estimated non-airline revenues projected in each FY to calculate the Airfield Revenue Requirement.

As presented in Exhibit E, the Signatory Airline Landing Fee Rate per 1,000-pound unit of landed weight was \$5.08 estimated for FY 2025. Throughout the Projection Period, the Signatory Airline Landing Fee rate is projected to increase up to \$7.20 by FY 2031.

Total Landing Fees are projected to increase from approximately \$86.5 million estimated for FY 2025 to approximately \$136.7 million in FY 2031. This represents a CAGR of approximately 7.9%.

4.7.2 Terminal Rents

Exhibit F presents the calculation of Terminal Rents for the Projection Period. Per the rate-setting methodology, the Department recovers Terminal Rents from the Signatory Airlines based on a fixed cost recovery rate per the amended AUA that commenced in FY 2025. The conditioned terminal rental rate per square foot estimated for FY 2025 is \$313.25. Over the Projection Period, the conditioned terminal rate is expected to increase to \$336.44 in FY 2031. Exhibit F presents the projected Terminal Rents over the Projection Period.

Total Terminal Rents are projected to increase from approximately \$199.4 million estimated for FY 2025 to approximately \$273.1 million in FY 2031. This represents a CAGR of approximately 5.4% as the Terminal Rents include future debt service and increased operating expense impacts associated with the New SLC.

4.7.3 Revenue Share

Exhibit G presents the calculation of Revenue Share pursuant to the AUA, which is allocated to each Signatory Airline on the basis of their enplaned passenger market share. As described above in Section 4.3.4 and as shown on Exhibit G, Revenue Sharing amounts estimated for FY 2025 are approximately \$19.3 million. For the period of FY 2026 through FY 2031, Revenue Sharing amounts are projected to range between \$19.6 million and \$23.2 million.

4.7.4 Signatory Airline Cost per Enplaned Passenger

A key indicator for airline costs at an airport is the average Cost per Enplaned Passenger (CPE). **Exhibit H** presents the projection of CPE for the Signatory Airlines at the Airport. As shown, the Signatory Airline CPE includes the Signatory Landing Fees and Terminal Rents less the Revenue Sharing amounts divided by total Signatory enplaned passengers. CPE for FY 2025 is estimated at \$18.77. Over the Projection Period, Signatory Airline CPE is expected to increase as the elements of the New SLC become operational and the associated costs are included within the airline rate base. For budget FY 2026, CPE is estimated to increase to \$21.36 and peak in FY 2028 at \$23.78. As expressed in FY 2025 dollars, assuming a 3% inflation rate, Signatory Airline CPE is expected to peak at \$21.74 in FY 2027 and decrease to \$19.32 by FY 2031. Signatory Airline CPE throughout this period is projected to remain at levels competitive with other U.S. Large Hub airports.

4.8 Application of Airport Revenues

Exhibit I presents the application of Revenues for the Airport System throughout the Projection Period consistent with the requirements of the Master Indenture. As presented, the City is expected to experience an annual net surplus (amount deposited into the Surplus Fund) after the payment of Operating Expenses and debt service and required deposits to the Operations and Maintenance Reserve Fund and the Renewal and Replacement Fund in each year of the Projection Period. The deposit to the Surplus Fund estimated for FY 2025 is approximately \$100.0 million. Over the Projection Period, the annual deposit to the Surplus Fund is estimated to increase from FY 2025 amounts and grow each year, with the largest projected deposit of approximately \$117.5 million occurring in FY 2031. Revenues deposited into the Surplus Fund are planned to be used to fund the ongoing New SLC and Other Capital Projects throughout the Projection Period.

4.9 Net Revenues and Debt Service Coverage

Exhibit J presents Net Revenues and debt service coverage ratio projections throughout the Projection Period. As presented, the Airport System Net Revenues are projected to increase from \$281.3 million estimated for FY 2025 to \$335.8 million in FY 2031. This increase in Net Revenues is primarily driven by the increased revenue requirements included in airline rates and charges because of the future debt service associated with the New SLC. Per the Master Indenture, the City is able to include amounts available in the Rolling Coverage Account on the last business day of the applicable FY for the purposes of calculating debt service coverage. Total amounts available for debt service (e.g., Net Revenues plus amounts available in the Rolling Coverage Account) are projected to increase from approximately \$307.9 million in FY 2025 to approximately \$390.1 million in FY 2031. As the City issues additional Bonds to fund the New SLC, debt service coverage ratios are projected to range from 2.05x estimated for FY 2025 to 1.72x in FY 2027.

As required pursuant to the Rate Covenant under the Master Indenture, Revenues must be sufficient in each FY to pay the following amounts: (1) Operation and Maintenance Expenses of the Airport System due and payable during each FY; (2) the Annual Debt Service on any Outstanding Bonds required to be funded by the City in each FY as required by the Master Indenture or any Supplemental Indenture with respect to the Outstanding Bonds; (3) the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund which may be established by a Supplemental Indenture; (4) the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture; (5) the interest on and principal of any indebtedness of the Department required to be funded during each FY, other than for Outstanding Bonds, but including Subordinate Obligations; and (6) funding of any debt service reserve funds created with respect to any indebtedness of the Department, other than Outstanding Bonds, but including Subordinate Obligations. As presented on Exhibit J, the City is projected to satisfy the Rate Covenant requirement in each year.

In summary, **Table 4-6** presents projections of debt service coverage ratios and airline CPE under the baseline projection.

Table 4-6 Debt Service Coverage and Passenger Airline CPE Projections

Fiscal Year	Debt Service Coverage		Airline CPE	Airline CPE (FY 2025\$) ¹
	Ratio			
2025	2.05		\$18.77	\$18.77
2026	1.87		\$21.36	\$20.72
2027	1.72		\$23.10	\$21.74
2028	1.76		\$23.78	\$21.71
2029	1.77		\$23.63	\$20.92
2030	1.80		\$23.37	\$20.07
2031	1.82		\$23.20	\$19.32

¹ Assumes an inflation rate of 3%.
Source: L&B

4.10 Sensitivity Scenario Financial Analysis

As presented in Chapter 2, L&B prepared an enplaned passengers projection sensitivity scenario in addition to the baseline projection. The assumptions for this scenario are described in more detail in Section 2.5 of this Report. For the purposes of the financial analysis, key assumptions are as follows:

- Currently executed Airline Agreements business terms and conditions remain in effect through the Projection Period.
- Funding and timing of the New SLC and the Other Capital Projects remain as assumed in the baseline financial analysis.
- Operating Expenses increase as projected in the baseline financial analysis.
- Non-airline revenues are assumed to remain at a consistent ratio of revenues per enplanement as the baseline financial analysis, however, projected non-airline revenues are reduced based on the assumed slower recovery of enplaned passengers.
- PFC revenues are lower as compared to the baseline financial analysis based on lower enplaned passengers projected.

Table 4-7 presents projected debt service coverage and airline CPE for the slower-recovery scenario. As shown, under each scenario, the Department is projected to continue to satisfy its Rate Covenant set forth in the Master Indenture throughout the Projection Period. However, it should be noted that it is possible that airline traffic recovery could be delayed beyond what is assumed under the slower recovery scenario. Such a scenario may require additional steps to be taken by the Department to reduce Operating Expenses or undertake other financial or operational measures beyond what is contemplated in this Report in order to continue to meet its Rate Covenant obligations and mitigate airline CPE.

Table 4-7 Sensitivity Analysis Results: Debt Service Coverage and Airline CPE

Fiscal Year	Signatory Enplaned Passengers (thousands)	% of Baseline Enplaned Passengers	Debt Service Coverage Ratio	Airline CPE	Airline CPE (FY 2025\$) ¹
2025	13,768	100.0%	2.05	\$18.77	\$18.77
2026	13,983	100.0%	1.87	\$21.36	\$20.72
2027	14,198	98.5%	1.71	\$23.52	\$22.13
2028	14,431	97.3%	1.73	\$24.59	\$22.44
2029	14,666	96.0%	1.74	\$24.82	\$21.97
2030	14,901	94.8%	1.75	\$24.93	\$21.40
2031	15,133	93.6%	1.76	\$25.13	\$20.93

¹ Assumes an inflation rate of 3%.

Source: L&B

As previously indicated, many of the factors affecting air travel demand are not necessarily quantifiable. As a result, all projections are subject to uncertainty. Therefore, these projected financial results, as with any projection, should be viewed as a general indication of future results as opposed to a precise prediction. Actual future results are likely to vary from this projection, and such variances could be material.

MASTER TRUST INDENTURE

THIS MASTER TRUST INDENTURE (this “**Indenture**”), dated as of February 1, 2017, is by and between **SALT LAKE CITY, UTAH**, (the “**City**”), a municipal corporation and political subdivision of the State of Utah, and **WILMINGTON TRUST, NATIONAL ASSOCIATION**, a national banking association organized and existing under the laws of the United States of America, as trustee (the “**Trustee**”).

RECITALS

WHEREAS, the City is a municipal corporation and political subdivision of the State of Utah (the “**State**”); and

WHEREAS, the City has exclusive use, ownership, custody, management, operation, regulation, policing and control of the Airport System (as hereinafter defined) and other related facilities; and

WHEREAS, the Act (as hereinafter defined) provides that the City may issue bonds from time to time for any of the purposes authorized under the Act, including paying the cost of the Airport System or any or all facilities and all additions and improvements that the Council (as hereinafter defined) authorizes to be acquired or constructed, and for any purpose, operation, facility, system, improvement or undertaking of the City from which revenues are derived or otherwise allocable, which revenues are, or may by resolution or ordinance be, required to be separately accounted for from other revenues of the City; and

WHEREAS, the City has determined that it is necessary and advisable to issue, from time to time, Bonds (as hereinafter defined) for the purposes set forth in the Act and this Indenture and that such Bonds be payable from and secured by Net Revenues (as hereinafter defined) and such other funds and accounts established pursuant to this Indenture and any Supplemental Indenture (as hereinafter defined); and

WHEREAS, the City wishes to provide in this Indenture for the issuance and payment of its Bonds and the pledge of the Net Revenues thereto, and the Trustee is willing to accept the trusts provided in this Indenture; and

NOW, THEREFORE, the City and the Trustee agree as follows, each for the benefit of the other and/or the benefit of holders of the Bonds secured by this Indenture:

GRANTING CLAUSE

To secure the payment of the principal and Accreted Value of, premium, if any, and interest on the Bonds and the performance and observance by the City of all the covenants, agreements and conditions expressed or implied herein or contained in the Bonds, the City hereby pledges and assigns to the Trustee and grants to the Trustee a lien on and security interest in all right, title and interest of the City in and to all of the following and provides that such lien and security interest shall be prior in right to any other pledge, lien or security interest created by the City in the following: (a) the Net Revenues, (b) except as otherwise provided in this

Indenture and any Supplemental Indenture, all moneys and securities (excluding moneys and securities on deposit in any Rebate Fund) held from time to time by the Trustee under this Indenture, and to the extent provided in any Supplemental Indenture moneys and securities held in any Construction Fund whether or not held by the Trustee, (c) earnings on amounts included in clauses (a) and (b) of this Granting Clause (except to the extent excluded from the definition of "Revenues"), and (d) any and all other funds, assets, rights, property or interests therein, of every kind or description which may from time to time hereafter, by delivery or by writing of any kind, be sold, transferred, conveyed, assigned, pledged, irrevocably committed, mortgaged, granted or delivered to or deposited with the Trustee as additional security hereunder, for the equal and proportionate benefit and security of all Bonds, all of which, regardless of the time or times of their authentication and delivery or maturity, shall, with respect to the security provided by this Granting Clause, be of equal rank without preference, priority or distinction as to any Bond over any other Bond or Bonds, except as to the timing of payment of the Bonds.

The Common Debt Service Reserve Fund, any Series Debt Service Reserve Fund and any Debt Service Reserve Fund Surety Policy, as hereinafter defined, provided at any time in satisfaction of all or a portion of the Reserve Requirement and any other security, Liquidity Facility or Credit Facility provided for specific Bonds, a specific Series of Bonds or one or more Series of Bonds may, as provided by a Supplemental Indenture, secure only such specific Bonds, Series of Bonds or one or more Series of Bonds and, therefore, shall not be included as security for all Bonds under this Indenture unless otherwise provided by a Supplemental Indenture and moneys and securities held in trust as provided in Section 4.13 hereof exclusively for Bonds which have become due and payable and moneys and securities which are held exclusively to pay Bonds which are deemed to have been paid under Article VII hereof shall be held solely for the payment of such specific Bonds.

ARTICLE I

DEFINITIONS; INTERPRETATION

The capitalized terms used in this Indenture and in any Supplemental Indenture shall, for all purposes of this Indenture, have the meanings specified in this Article I, unless a different definition is given such term in said Supplemental Indenture or unless the context clearly requires otherwise.

"Account" shall mean any account established pursuant to this Indenture or any Supplemental Indenture.

"Accreted Value" shall mean with respect to any Capital Appreciation Bonds, as of any date of calculation, the sum of the amount set forth in a Supplemental Indenture as the amount representing the initial principal amount of such Capital Appreciation Bond plus the interest accumulated, compounded and unpaid thereon as of the most recent compounding date; provided the Accreted Value shall be determined in accordance with the provisions of the Supplemental Indenture authorizing the issuance of such Capital Appreciation Bond. All references herein to "principal" shall include Accreted Value, as applicable.

"Act" shall mean, collectively, the Local Government Bonding Act, Chapter 14 of Title 11, Utah Code Annotated 1953, as amended, and, to the extent applicable, the Registered Public Obligations Act, Chapter 7 of Title 15, Utah Code Annotated 1953, as amended, and the Utah Refunding Bond Act, Chapter 27 of Title 11, Utah Code Annotated 1953, as amended, and all laws amendatory thereof or supplemental thereto.

"Aggregate Annual Debt Service" shall mean, for any Fiscal Year or other applicable period, the aggregate amount of Annual Debt Service on all Outstanding Bonds calculated as described in Section 2.11(c) hereof.

"Aggregate Annual Debt Service For Reserve Requirement" shall mean the computation of Aggregate Annual Debt Service with respect to all Outstanding Bonds participating in the Common Debt Service Reserve Fund in the then current or any future Fiscal Year, with such modifications in the assumptions thereof as is described in this definition. For purposes of determining the Aggregate Annual Debt Service For Reserve Requirement, the annual debt service with respect to any Series of Balloon Indebtedness, Tender Indebtedness or Variable Rate Indebtedness shall, upon the issuance of such Series, be calculated on the basis of the assumptions set forth in clauses (ii), (iii) or (iv) of Section 2.11(c) hereof, respectively, and the amount so determined shall not require adjustment thereafter except as appropriate to reflect reductions in the outstanding principal amount of such Series.

"Airline Use Agreements" shall mean, collectively, each Airline Use Agreement for Salt Lake City International Airport, between the City and each airline named therein, as from time to time amended and supplemented, and any substitute agreement or any other document, ordinance or resolution governing the use of the Airport System by the airlines.

"Airport Facilities" or "Airport Facility" shall mean a facility or group of facilities or category of facilities which constitute or are part of the Airport System.

"Airport System" shall mean all airports, airport sites, and all equipment, accommodations and facilities for aerial navigation, flight, instruction and commerce under the jurisdiction and control of the City, including Salt Lake City International Airport and the Auxiliary Airports, and any successor entities thereto, including all facilities and property related thereto, real or personal, under the jurisdiction or control of the City or in which the City has other rights or from which the City derives revenues at such location; and including or excluding, as the case may be, such property as the City may either acquire or which shall be placed under its control, or divest or have removed from its control.

"Annual Debt Service" shall mean, with respect to any Bond, the aggregate amount required to be on deposit in the respective Debt Service Fund or such other Fund or Account during the Fiscal Year to satisfy the funding requirements for the payment of principal and interest becoming due and payable during such Fiscal Year, plus any amount payable by the City (or the Trustee) under a Qualified Swap in accordance with the terms thereof, less any amount to be received by the City from a Qualified Swap Provider pursuant to a Qualified Swap; provided, however, for the purposes of this definition a payment made on July 1 shall be considered part of the prior Fiscal Year.

“*Authorized City Representative*” shall mean the Executive Director, the Director of Finance and Accounting, the Mayor, the City Treasurer, the City Recorder or such other officer or employee of the City or other person which other officer, employee or person has been designated by the Executive Director as an Authorized City Representative by written notice delivered by the Executive Director to the Trustee.

“*Auxiliary Airports*” shall mean the airports presently known as “South Valley Regional Airport” and “Tooele Valley Airport” and all other airports operated by the City in the future, except for the Salt Lake City International Airport.

“*Balloon Indebtedness*” shall mean, with respect to any Series of Bonds 25% or more of the principal of which matures on the same date or within a Fiscal Year, that portion of such Series which matures on such date or within such Fiscal Year; provided, however, that to constitute Balloon Indebtedness (a) the City must designate that portion of such Series of Bonds as Balloon Indebtedness, and (b) the amount of Bonds of a Series maturing on a single date or within a Fiscal Year must equal or exceed 150% of the amount of such Series which matures during any other Fiscal Year. For purposes of this definition, the principal amount maturing on any date shall be reduced by the amount of such Bonds scheduled to be amortized by prepayment or redemption prior to their stated maturity date. Commercial Paper shall not be considered to be Balloon Indebtedness.

“*Bond*” or “*Bonds*” shall mean any debt obligation of the City issued under and in accordance with the provisions of Article II hereof, including, but not limited to, bonds, notes, bond anticipation notes, Commercial Paper, revolving lines of credit and other instruments creating an indebtedness of the City, obligations incurred pursuant to an any interest rate swap agreement entered into in connection with Bonds, obligations incurred through lease or installment purchase agreements or other agreements or certificates of participation therein, and Repayment Obligations to the extent provided in Section 2.12 hereof. The term “*Bond*” or “*Bonds*” does not include any Subordinate Obligation; provided, however, the City may provide in a Supplemental Indenture that Subordinate Obligations may be thenceforth issued pursuant to this Indenture having the terms applicable to the Bonds, except that such Subordinate Obligations shall be secured by a pledge of and lien on and payable from Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof.

“*Bond Counsel*” shall mean a firm or firms of attorneys which are nationally recognized as experts in the area of municipal finance and which are familiar with the transactions contemplated under this Indenture and which are acceptable to the City.

“*Bondholder*,” “*Holder*,” “*holder*,” “*Owner*,” “*owner*” or “*registered owner*” shall mean the person in whose name any Bond or Bonds are registered on the books maintained by the Registrar and shall include any Credit Provider or Liquidity Provider to which a Repayment Obligation is then owed, to the extent that such Repayment Obligation is deemed to be a Bond under the provisions of Section 2.12 hereof.

“*Book-Entry Bonds*” means those Bonds held by DTC (or its nominee) as the Bondholder thereof pursuant to the terms and provisions of Section 2.06 hereof.

“*Business Day*” shall mean a day on which banks located in New York, New York, in Salt Lake City, Utah, and in the city in which the principal corporate trust office of the Trustee is located are open, provided that such term may have a different meaning for any specified Series of Bonds if so provided by a Supplemental Indenture. For purposes of payments and other actions relating to security or liquidity enhanced Bonds, “*Business Day*” shall mean a day upon which any Credit Provider or Liquidity Provider at which demands for payment under the Credit Facility or Liquidity Facility are to be presented is authorized to be open.

“*Capital Appreciation Bonds*” shall mean Bonds all or a portion of the interest on which is compounded and accumulated at the rates and on the dates set forth in a Supplemental Indenture and is payable only upon redemption or on the maturity date of such Bonds. Bonds which are issued as Capital Appreciation Bonds, but later convert to Bonds on which interest is paid periodically shall be Capital Appreciation Bonds until the conversion date and from and after such conversion date shall no longer be Capital Appreciation Bonds, but shall be treated as having a principal amount equal to their Accreted Value on the conversion date.

“*Capitalized Interest*” shall mean proceeds of Bonds or other monies not included in Revenues that are deposited with the Trustee in a Debt Service Fund as shall be described in a Supplemental Indenture upon issuance of such Bonds that are to be used to pay interest on Bonds. Proceeds of Bonds shall not be used to pay interest on Bonds beyond the period of time set forth in the Act.

“*Cede & Co.*” means Cede & Co., the nominee of DTC, and any successor nominee of DTC with respect to the Bonds.

“*CFC Bond Funding Supplemental Consideration*” shall mean an amount charged by the City to, and paid by, a tenant operating at the Airport System, if Customer Facility Charge revenues are insufficient to cover costs for debt service on bonds and/or other debt instruments and other funding shortfalls related to on-airport rental car facilities located at Salt Lake City International Airport.

“*City*” shall mean Salt Lake City, Utah, a municipal corporation and political subdivision of the State, and any successor to its function as operator of the Airport System. Any action required or authorized to be taken by the City in this Indenture may be taken by an Authorized City Representative with such formal approvals by the City as are required by the policies and practices of the City and applicable laws; provided, however, that any action taken by an Authorized City Representative in accordance with the provisions of this Indenture shall conclusively be deemed by the Trustee and the Owners, as applicable, to be the act of the City without further evidence of the authorization thereof by the City.

“*City Attorney*” shall mean the City Attorney of the City or designee, or in the event of his or her absence, a Deputy City Attorney or other person authorized to perform the duties of the City Attorney.

“*City Code*” shall mean the City Code of the City of Salt Lake, as amended from time to time.

“*City Recorder*” shall mean the City Recorder of the City or such other title as the City may from time to time assign for such position, or in the event of his or her disability or absence, a deputy city recorder or other person duly authorized to perform the duties of the City Recorder.

“*City Treasurer*” shall mean the City Treasurer of the City or such other title as the City may from time to time assign for such position or in the event of his or her disability or absence, the Deputy Treasurer or other person duly authorized to perform the duties of the City Treasurer.

“*Code*” shall mean the Internal Revenue Code of 1986, as amended, and the United States Treasury Regulations applicable with respect thereto.

“*Commercial Paper*” shall mean debt obligations of the City authorized by the City to be incurred through the issuance, from time to time, of taxable or tax-exempt notes of the City under and in accordance with the provisions of Article II hereof, with maturities of not to exceed 270 days. The term “Commercial Paper” does not include any notes issued as Subordinate Obligations.

“*Common Debt Service Reserve Fund*” shall mean the “Common Debt Service Reserve Fund” created by the City and held and maintained by the Trustee pursuant to Section 4.06 hereof.

“*Completion Bonds*” shall mean Bonds issued to pay costs of completing a Project for which Bonds have previously been issued and the principal amount of such Bonds being issued for completion purposes does not exceed an amount equal to 15% of the principal amount of the Bonds originally issued for such Project and are reasonably allocable to the Project to be completed.

“*Construction Fund*” shall mean any Construction Fund created in accordance with Section 4.11 hereof.

“*Consultant*” shall mean any Independent consultant, consulting firm, engineer, architect, engineering firm, architectural firm, accountant or accounting firm, financial advisory or investment banking firm, or other expert recognized to be well-qualified for work of the character required and retained by the City to perform acts and carry out the duties provided for such consultant in this Indenture.

“*Costs*” or “*Costs of the Project*” shall mean all costs of planning, designing, developing, financing, constructing, installing, equipping, furnishing, improving, acquiring, enlarging and/or renovating a Project and placing the same in service and shall include, but not be limited to the following: (a) costs of real or personal property, rights, franchises, easements and other interests in property, real or personal, and the cost of demolishing or removing structures and site preparation, infrastructure development, and landscaping and acquisition of land to which structures may be removed; (b) the costs of materials and supplies, machinery, equipment, vehicles, rolling stock, furnishings, improvements and enhancements; (c) labor and related costs and the costs of services provided, including costs of consultants, advisors, architects, engineers, accountants, planners, attorneys, financial and feasibility consultants, in each case, whether an employee of the City or a Consultant; (d) costs of the City properly allocated to a Project and with respect to costs of its employees or other labor costs, including the cost of medical, pension,

retirement and other benefits as well as salary and wages and the allocable costs of administrative, supervisory and managerial personnel and the properly allocable cost of benefits provided for such personnel; (e) financing expenses, including costs related to issuance of and securing of Bonds, costs of Credit Facilities or Liquidity Facilities, payment of interest on Bonds, deposits to the Common Debt Service Reserve Fund and/or a Series Debt Service Reserve Fund, if any, Trustee’s fees and expenses; (f) any Swap Termination Payments due in connection with a Series of Bonds or the failure to issue such Series of Bonds, (g) any other cost permitted under the Act, and (h) such other costs and expenses that can be capitalized under generally accepted accounting principles in effect at the time the cost is incurred by the City.

“*Council*” shall mean the City Council of the City, or any other governing body of the City hereafter provided for pursuant to law.

“*Credit Facility*” shall mean a policy of municipal bond insurance, a letter of credit, surety bond, line of credit, guarantee, standby purchase agreement, Debt Service Reserve Fund Surety Policy or other financial instrument which obligates a third party to make payment of or provide funds to the Trustee for the payment of the principal of and/or interest on Bonds whether such obligation is to pay in the first instance and seek reimbursement or to pay only if the City fails to do so.

“*Credit Provider*” shall mean the party obligated to make payment of principal of and/or interest on the Bonds under a Credit Facility.

“*Customer Facility Charge*” or “*CFC*” shall mean the customer facility charge approved by the City under Section 16.12.195 of the City Code, as amended and supplemented from time to time, or any successor provision approving such a charge or a similar charge or fee, and paid by customers of rental car companies, and any interest, profits or other income derived from the investment thereof.

“*Debt Service Fund*” or “*Debt Service Funds*” shall mean any Debt Service Fund or Debt Service Funds required to be created as provided by Section 4.05 hereof.

“*Debt Service Reserve Fund Surety Policy*” shall mean an insurance policy or surety bond, or a letter of credit, deposited with the Trustee for credit to the Common Debt Service Reserve Fund or a Series Debt Service Reserve Fund in lieu of or partial substitution for cash or securities on deposit therein. Except as otherwise provided in a Supplemental Indenture, the entity providing such Debt Service Reserve Fund Surety Policy shall be rated, at the time such instrument is provided, in one of the three highest long-term Rating Categories by one or more Rating Agencies.

“*Department of Airports*” shall mean the Department of Airports of the City.

“*Designated Debt*” shall mean a specific indebtedness, designated by the City, in which such debt shall be offset with a Swap, such specific indebtedness to include all or any part of a Series of Bonds.

“*Director of Finance and Accounting*” shall mean the Director of Finance and Accounting of the Department of Airports or such other title as the City may from time to time

assign for such position or such other person duly authorized to perform the duties of the Director of Finance and Accounting.

“DTC” means The Depository Trust Company, a limited purpose trust company organized under the laws of the State of New York, and its successors and assigns.

“Event of Default” shall mean any occurrence or event specified in Section 8.01 hereof.

“Executive Director” shall mean the Executive Director of the Department of Airports or such other title as the City may from time to time assign for such position, or in the event of his or her disability or absence, the Director of Finance and Accounting or such other person duly authorized to perform the duties of the Executive Director.

“Federal Direct Payments” shall mean amounts payable by the federal government to the City pursuant to Sections 54AA and 6431 of the Code, and any amendments thereto or any new or similar federal program providing payments or credits to the City, in connection with the City’s issuance of Bonds or Subordinate Obligations, in lieu of any credit otherwise available to the bondholders of such Bonds or Subordinate Obligations.

“Fiscal Year” shall mean the period of time beginning on July 1 of each given year and ending on June 30 of the immediately subsequent year, or such other similar period as the City designates as its fiscal year.

“Fitch” shall mean Fitch Ratings, Inc. and its successors and assigns, and, if Fitch Ratings Inc. shall for any reason no longer perform the functions of a nationally recognized statistical rating organization, “Fitch” shall be deemed to refer to any nationally recognized statistical rating organization designated by the City.

“Force Majeure Event” shall mean an occurrence that is beyond the control of the City or the Trustee and could not have been avoided by exercising due care and shall include acts of God, terrorism, war, riots, strikes, fire, floods, earthquakes, epidemics or other similar occurrences.

“Fund” shall mean any fund established pursuant to this Indenture or any Supplemental Indenture.

“Government Obligations” shall mean (i) United States Obligations (including obligations issued or held in book-entry form), (ii) prerefunded municipal obligations meeting the following conditions: (A) the municipal obligations are not subject to redemption prior to maturity, or the trustee has been given irrevocable instructions concerning their calling and redemption and the issuer has covenanted not to redeem such obligations other than as set forth in such instructions; (B) the municipal obligations are secured by cash and/or United States Obligations, which United States Obligations may be applied only to interest, principal and premium payments of such municipal obligations; (C) the principal of and interest on the United States Obligations (plus any cash in the escrow fund) are sufficient to meet the liabilities of the municipal obligations; (D) the United States Obligations serving as security for the municipal obligations are held by an escrow agent or trustee; (E) the United States Obligations are not available to satisfy any other claims, including those against the trustee or escrow agent; and (F)

the municipal obligations are rated in their highest rating category by one or more of the Rating Agencies; and (iii) any other type of security or obligation which the Rating Agencies then maintaining ratings on the Bonds to be defeased have determined to be permitted defeasance securities.

“Indenture” shall mean this Master Trust Indenture, dated as of February 1, 2017, by and between the City and the Trustee, as amended from time to time.

“Independent” shall mean, when used with respect to any specified firm or individual, such a firm or individual who (a) does not have any direct financial interest or any material indirect financial interest in the operations of the City, other than the payment to be received under a contract for services to be performed, and (b) is not connected with the City as an official, officer or employee.

“Initial Bonds” shall mean, collectively, (a) the Salt Lake City, Utah Airport Revenue Bonds, Series 2017A, and (b) Salt Lake City, Utah Airport Revenue Bonds, Series 2017B.

“Investment Agreement” shall have the meaning set forth in Section 6.02 hereof.

“Kroll” shall mean Kroll Bond Rating Agency, Inc. and its successors and assigns, and, if Kroll Bond Rating Agency, Inc. shall for any reason no longer perform the functions of a nationally recognized statistical rating organization, “Kroll” shall be deemed to refer to any nationally recognized statistical rating organization designated by the City.

“Liquidity Facility” shall mean a letter of credit, line of credit, standby purchase agreement or other financial instrument, including a Credit Facility, which is available to provide funds with which to purchase Bonds.

“Liquidity Provider” shall mean the entity which is obligated to provide funds to purchase Bonds under the terms of a Liquidity Facility.

“Mail” shall mean by first-class United States mail, postage prepaid.

“Maximum Aggregate Annual Debt Service” shall mean the maximum amount of Aggregate Annual Debt Service on all Outstanding Bonds in the current or any future Fiscal Year.

“Maximum Aggregate Annual Debt Service For Reserve Requirement” shall mean the computation of Maximum Aggregate Annual Debt Service with respect to all Outstanding Bonds participating in the Common Debt Service Reserve Fund in the then current or any future Fiscal Year, with such modifications in the assumptions thereof as is described in this definition. For purposes of determining the Maximum Aggregate Annual Debt Service For Reserve Requirement, the annual debt service with respect to any Series of Balloon Indebtedness, Tender Indebtedness or Variable Rate Indebtedness shall, upon the issuance of such Series, be calculated on the basis of the assumptions set forth in clauses (ii), (iii) or (iv) of Section 2.11(c) hereof, respectively, and the amount so determined shall not require adjustment thereafter except as appropriate to reflect reductions in the outstanding principal amount of such Series.

“Mayor” shall mean the Mayor of the City, or in the event of his or her disability or absence, such other person duly authorized to perform the duties of the Mayor.

“Moody’s” shall mean Moody’s Investors Service, Inc. and its successors and assigns, and, if Moody’s Investors Service, Inc. shall for any reason no longer perform the functions of a nationally recognized statistical rating organization, “Moody’s” shall be deemed to refer to any nationally recognized statistical rating organization designated by the City.

“Net Revenues” shall mean, for any given period, the Revenues for such period, less the Operation and Maintenance Expenses of the Airport System for such period.

“Net Proceeds” shall mean insurance proceeds received as a result of damage to or destruction of Airport Facilities or any condemnation award or amounts received by the City from the sale of Airport Facilities under the threat of condemnation less expenses (including attorneys’ fees and expenses and any fees and expenses of the Trustee) incurred in the collection of such proceeds or award.

“North Concourse Program” shall mean the new midfield concourse and associated improvements to be constructed at Salt Lake City International Airport, that are more fully described in the Department of Airports’ master plan study, as amended and updated from time to time.

“Notes” shall mean Bonds issued under the provisions of Article II hereof which have a maturity of one year or less from their date of original issuance and which are not Commercial Paper.

“Operation and Maintenance Expenses of the Airport System” shall mean, for any given period, the total operation and maintenance expenses of the Airport System as determined in accordance with generally accepted accounting principles as in effect from time to time; including any costs of Credit Facilities and Liquidity Facilities; but excluding depreciation expense and any operation and maintenance expenses of the Airport System payable from moneys other than Revenues (including, but not limited to, any non-cash items that are required to be treated as operation and maintenance expenses of the Airport System in accordance with generally accepted accounting principles).

“Operation and Maintenance Reserve Subaccount” shall mean the “Operation and Maintenance Reserve Subaccount” created, held and maintained by the City within the Revenue Account pursuant to Section 4.07 hereof.

“Operation and Maintenance Reserve Subaccount Requirement” shall mean, as of any date of calculation, an amount equal to at least one-sixth (1/6) of the current annual budget of the City for Operation and Maintenance Expenses of the Airport System or such other additional amount that the City determines, in its sole discretion, to be the requirement hereunder, provided that such amount does not violate the provisions of this Indenture, or the provisions of any other contracts or agreements of the City or any legal requirements otherwise applicable to this provision.

“Operation and Maintenance Subaccount” shall mean the “Operation and Maintenance Subaccount” created, held and maintained by the City within the Revenue Account pursuant to Section 4.04 hereof.

“Other Pledged Revenues” shall mean moneys, not previously constituting Revenues or previously designated as or included in “Other Pledged Revenues,” that are designated as and included in, for any period, “Other Pledged Revenues” pursuant to a Supplemental Indenture or certificate of an Authorized City Representative filed with the Trustee, which Supplemental Indenture or certificate also shall (a) include a representation by the City that such moneys may be validly designated as and included in “Other Pledged Revenues” under the Indenture and may be pledged to secure the payment of the principal of, premium, if any, and interest on all or a portion of the Bonds, and (b) specify the source and amount of such moneys and the time period during which such moneys will be designated as and included in “Other Pledged Revenues.” Passenger Facility Charges Available for Debt Service and Pledged Passenger Facility Charges shall not be treated as or constitute “Other Pledged Revenues.”

“Outstanding” when used with respect to Bonds shall mean all Bonds which have been authenticated and delivered under this Indenture, except:

(a) Bonds cancelled or purchased by the Trustee for cancellation or delivered to or acquired by the Trustee for cancellation and, in all cases, with the intent to extinguish the debt represented thereby;

(b) Bonds deemed to be paid in accordance with Article VII hereof;

(c) Bonds in lieu of which other Bonds have been authenticated under Section 2.05 or 2.07 hereof;

(d) Bonds that have become due (at maturity or on redemption or otherwise) and for the payment of which sufficient moneys, including interest accrued to the due date, are held by the Trustee, a Paying Agent or such other fiduciary or agent;

(e) Bonds which, under the terms of the Supplemental Indenture pursuant to which they were issued, are deemed to be no longer Outstanding;

(f) Repayment Obligations deemed to be Bonds under Section 2.12 hereof to the extent such Repayment Obligation arose under the terms of a Credit Facility or a Liquidity Facility and are secured by a pledge of Outstanding Bonds acquired by the Credit Provider or the Liquidity Provider; and

(g) for purposes of any consent or other action to be taken by the holders of a specified percentage of Bonds under this Indenture, Bonds held by or for the account of the City or by any person controlling, controlled by or under common control with the City, unless such Bonds are pledged to secure a debt to an unrelated party.

“Participants” means the participants of DTC which include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

“*Passenger Facility Charges*” or “*PFCs*” shall mean charges collected by the City pursuant to the authority granted by the Aviation Safety and Capacity Expansion Act of 1990 (49 U.S.C. Section 40117), and 14 CFR Part 158, as amended from time to time, in respect of any component of the Airport System and interest earnings thereon, net of amounts that collecting air carriers are entitled to retain for collecting, handling and remitting such passenger facility charge revenues.

“*Passenger Facility Charges Available for Debt Service*” shall mean Passenger Facility Charges made available to pay debt service on one or more Series of Bonds during any period pursuant to Section 4.15 hereof.

“*Paying Agent*” or “*Paying Agents*” shall mean, with respect to the Bonds or any Series of Bonds, the banks, trust companies, other financial institutions or other entities designated in a Supplemental Indenture or a resolution of the City as the place where such Bonds shall be payable and which bank, trust company, other financial institution or other entity has accepted the position in accordance with Section 9.11 hereof.

“*Payment Date*” shall mean, with respect to any Bonds, each date on which interest is due and payable thereon and each date on which principal is due and payable thereon whether by maturity or redemption thereof.

“*Permitted Investments*” shall have the meaning set forth in Section 6.02 hereof.

“*Pledged Passenger Facility Charges*” shall mean such amount of Passenger Facility Charges that are designated as and included in, for any period, “Pledged Passenger Facility Charges” pursuant to a Supplemental Indenture, which Supplemental Indenture shall include (a) a representation by the City that such Passenger Facility Charges, when received by the City, may be validly designated as and included in “Pledged Passenger Facility Charges” under the Indenture and may be pledged to secure the payment of the principal of, premium, if any, and interest on all or a portion of the Bonds, (b) a specific statement that such Passenger Facilities Charges are being pledged and assigned to the Trustee and that the City is granting the Trustee a lien on and security interest in all right, title and interest of the City in and to such Passenger Facility Charges, (c) the Series of Bonds that are being granted a lien on and security interest in such Pledged Passenger Facility Charges, (d) the amount of Passenger Facility Charges that are being designated as and included in “Pledged Passenger Facility Charges,” and (e) the time period during which such Passenger Facility Charges will be designated as and included in “Pledged Passenger Facility Charges.” Any Pledged Passenger Facility Charges shall not be deposited to the Revenue Account, but shall be deposited by the City with the Trustee who shall in turn deposit such Pledged Passenger Facility Charges to the Debt Service Fund or Funds as directed pursuant to the applicable Supplemental Indenture.

“*Principal Amount*” or “*principal amount*” shall mean, as of any date of calculation, (a) with respect to any Capital Appreciation Bond, the difference between the stated amount to be paid at maturity and the Accreted Value being deemed unearned interest, and (b) with respect to any other Bonds, the principal amount of such Bond payable at maturity.

“*Project*” shall mean any and all facilities, improvements and other expenditures related to the Airport System financed in whole or in part with proceeds of a Series of Bonds, including, but not limited to, all or a portion of the Terminal Redevelopment Program and/or the North Concourse Program.

“*Qualified Self-Insurance*” has the meaning set forth in Section 5.10 hereof.

“*Qualified Swap*” shall mean any Swap (a) whose Designated Debt is all or part of a particular Series of Bonds; (b) whose Swap Provider is a Qualified Swap Provider or has been a Qualified Swap Provider within the 60 day period preceding the date on which the calculation of Annual Debt Service or Aggregate Annual Debt Service is being made; (c) which has a term not greater than the term of the Designated Debt or to a specified mandatory tender or redemption of such Designated Debt; and (d) which has been designated in writing to the Trustee by the City as a Qualified Swap with respect to such Bonds.

“*Qualified Swap Provider*” shall mean a financial institution whose senior long-term debt obligations, or whose obligations under any Qualified Swap are (a) guaranteed by a financial institution, or subsidiary of a financial institution, whose senior long-term debt obligations, are rated at least “A1,” in the case of Moody’s, and “A+,” in the case of S&P, or the equivalent thereto in the case of any successor thereto, or (b) fully secured by obligations described in clauses (ii) or (iii) of the definition of Permitted Investments which are (w) valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at all times at least equal to 105% of the principal amount of the investment, together with the interest accrued and unpaid thereon, (x) held by the Trustee (who shall not be the provider of the collateral) or by any Federal Reserve Bank or a depository acceptable to the Trustee, (y) subject to a perfected first lien on behalf of the Trustee, and (z) free and clear from all third-party liens.

“*Rating Agency*” and “*Rating Agencies*” shall mean any of Fitch, Kroll, Moody’s or S&P, or any other nationally recognized statistical rating organization.

“*Rating Category*” and “*Rating Categories*” shall mean (a) with respect to any long-term rating category, all ratings designated by a particular letter or combination of letters, without regard to any numerical modifier, plus or minus sign or other modifier, and (b) with respect to any short-term or commercial paper rating category, all ratings designated by a particular letter or combination of letters and taking into account any numerical modifier, but not any plus or minus sign or other modifier.

“*Rebate Fund*” shall mean any Fund created by the City or the Trustee pursuant to a Supplemental Indenture in connection with the issuance of any Series of Bonds for the purpose of complying with the Code and providing for the collection and holding for and payment of amounts to the United States of America.

“*Record Date*” shall mean, with respect to any Series of Bonds, the record date as specified in the Supplemental Indenture which provides for the issuance of such Series.

“*Refunding Bonds*” shall mean any Bonds issued pursuant to Section 2.10 hereof to refund and/or defease all or a portion of any Series of Outstanding Bonds.

“Registrar” shall mean the bank, trust company, other financial institution or other entity designated in a Supplemental Indenture or a resolution of the City to perform the function of Registrar under this Indenture or any Supplemental Indenture, and which bank, trust company, other financial institution or other entity has accepted the position in accordance with Section 9.12 hereof.

“Regularly Scheduled Swap Payments” shall mean the regularly scheduled payments under the terms of a Swap which are due absent any termination, default or dispute in connection with such Swap.

“Renewal and Replacement Subaccount” shall mean the “Renewal and Replacement Subaccount” created, held and maintained by the City within the Revenue Account pursuant to Section 4.08 hereof.

“Renewal and Replacement Subaccount Requirement” shall mean, as of any date of calculation, an amount not less than \$5 million, or such other amount as shall be established by the City from time to time in accordance with the Airline Use Agreements.

“Repayment Obligations” shall mean an obligation arising under a written agreement of the City and a Credit Provider pursuant to which the City agrees to reimburse the Credit Provider for amounts paid through a Credit Facility used to pay debt service on any Bonds, or an obligation arising under a written agreement of the City and a Liquidity Provider pursuant to which the City agrees to reimburse the Liquidity Provider for amounts paid through a Liquidity Facility used to purchase Bonds.

“Representation Letter” means the Blanket Issuer Letter of Representations dated May 30, 1995 from the City to DTC.

“Reserve Requirement” shall mean, except as otherwise set forth in a Supplemental Indenture, an amount equal to the lesser of (a) Maximum Aggregate Annual Debt Service For Reserve Requirement for all Outstanding Bonds participating in the Common Debt Service Reserve Fund, (b) 10% of the original principal amount of all Outstanding Bonds participating in the Common Debt Service Reserve Fund, less the amount of original issue discount with respect to such Bonds if such original issue discount exceeded 2% of such Bonds at the time of their original issuance, and (c) 125% of the average Aggregate Annual Debt Service For Reserve Requirement for all Outstanding Bonds participating in the Common Debt Service Reserve Fund. The Reserve Requirement with respect to any Series Debt Service Reserve Fund shall be set forth in the Supplemental Indenture establishing such Series Debt Service Reserve Fund.

“Responsible Officer” shall mean an officer or assistant officer of the Trustee assigned by the Trustee to administer this Indenture.

“Revenue Account” shall mean the “Revenue Account” created, held and maintained by the City within the Revenue Fund pursuant to Section 4.03(a) hereof.

“Revenue Fund” shall mean the “Revenue Fund” created, held and maintained by the City for the purpose of depositing all Revenues and other moneys and funds not included in Revenues.

“Revenues” shall mean, except to the extent specifically excluded herefrom, all income, receipts, earnings and revenues received by the City from the operation and ownership of the Airport System for a given period, as determined in accordance with generally accepted accounting principles, as modified from time to time, including, but not limited to, (a) rates, tolls, fees, rentals, charges and other payments made to or owed to the City for the use or availability of the Airport System, (b) amounts received or owed from the sale or provision of supplies, materials, goods and services provided by or made available by the City, including rental or business interruption insurance proceeds, received by, held by, accrued to or entitled to be received by the City or any successor thereto from the possession, management, charge, superintendence and control of the Airport System and its related facilities or activities and undertakings related thereto or from any other facilities wherever located with respect to which the City receives payments which are attributable to the Airport System or activities or undertakings related thereto, and (c) Other Pledged Revenues. Additionally, “Revenues” shall also include amounts received from tenants representing the principal portion of payments received pursuant to certain self-liquidating lease agreements, all income, receipts and earnings from the investment of amounts held in the Revenue Account, any Debt Service Fund (except Capitalized Interest on deposit therein), the Common Debt Service Reserve Fund, any Series Debt Service Reserve Fund and such additional revenues, if any, as are designated as “Revenues” under the terms of any Supplemental Indenture.

The following, including any investment earnings thereon, are specifically excluded from Revenues: (i) any amounts received by the City from the imposition of ad valorem taxes, (ii) gifts, grants and other income (including any investment earnings thereon) otherwise included in this definition of “Revenues” which are restricted by their terms to purposes inconsistent with the payment of debt service on the Bonds or constitute fuel tax refunds made by the State to the City, (iii) Net Proceeds and other insurance proceeds, to the extent the use of such Net Proceeds or other proceeds is restricted by the terms of the policy under which they are paid to a use inconsistent with the payment of debt service on the Bonds (except to the extent Net Proceeds are utilized to pay Operation and Maintenance Expenses of the Airport System), (iv) Special Facilities Revenue (to the extent there is no excess Special Facilities Revenue as described in Section 5.07 hereof), (v) Passenger Facility Charges (including Pledged Passenger Facility Charges and Passenger Facility Charges Available for Debt Service), and (vi) the proceeds of the sale of Bonds or other obligations issued for Airport System purposes.

Additionally, the following, including any investment earnings thereon, are specifically excluded from “Revenues,” unless designated as and included in Other Pledged Revenues: (A) any Swap Termination Payments paid to the City pursuant to a Qualified Swap, (B) subject to clause (ii) in the previous paragraph, grants and other charges authorized on or after the date of this Indenture by federal and/or State laws or regulations to be assessed to fund specific programs at the Airport System, (C) investment income derived from any moneys or securities which may be placed in escrow or trust to defease Bonds, (D) any arbitrage earnings which are required to be paid to the U.S. Government pursuant to Section 148 of the Code, (E) Capitalized Interest, (F) Customer Facility Charges and CFC Bond Funding Supplemental Consideration, (G) Federal Direct Payments and (H) excess Revenues from a prior Fiscal Year deposited in the Surplus Fund.

Further, interest earnings or other investment earnings on any Construction Fund established by any Supplemental Indenture are specifically excluded from “Revenues,” unless otherwise provided for in a Supplemental Indenture.

“*Rolling Coverage Account*” shall mean the “Rolling Coverage Account” created, held and maintained by the City within the Revenue Fund pursuant to Section 4.09 hereof.

“*Rolling Coverage Amount*” shall mean the amount which may, in the City’s discretion, be deposited in the Rolling Coverage Account in order for the City to have on deposit therein with respect to any Annual Debt Service due and payable in the current Fiscal Year on Outstanding Bonds, an amount not to exceed twenty-five percent (25%) of such Annual Debt Service.

“*Series*” shall mean Bonds designated as a separate Series by a Supplemental Indenture.

“*Series Debt Service Reserve Fund*” shall mean a Fund or Funds (other than the Common Debt Service Reserve Fund) created by the City or the Trustee pursuant to a Supplemental Indenture in connection with the issuance of any Series of Bonds and that is required to be funded for the purpose of providing additional security for such Series of Bonds and under certain circumstances to provide additional security for such other designated Series of Bonds issued pursuant to the terms of this Indenture and as specified in any Supplemental Indenture.

“*Significant Portion*” shall mean any Airport Facilities or portions thereof which, if such facilities had been sold or disposed of by the City at the beginning of an annual period which includes the month of commencement of the 12-month period ending on the day of such disposition would have resulted in a reduction in Net Revenues for such annual period of more than 5% when the actual Net Revenues for such annual period are decreased by the Revenues directly attributable to such Airport Facilities and increased by the expenses of the City directly attributable to such Airport Facilities. The City shall notify each of the Rating Agencies that the City has requested ratings from and who are then maintaining a rating on any of the Bonds prior to the selling or disposing of a Significant Portion of any Airport Facilities or portions thereof.

“*S&P*” shall mean S&P Global Ratings, a Standard & Poor’s Financial Services LLC business, and its successors and assigns, and if S&P Global Ratings shall for any reason no longer perform the functions of a nationally recognized statistical rating organization, “*S&P*” shall be deemed to refer to any nationally recognized statistical rating organization designated by the City.

“*Special Facilities*” or “*Special Facility*” shall mean a facility or group of facilities or category of facilities which are designated as a Special Facility pursuant to the provisions of Section 5.07 hereof.

“*Special Facilities Revenue*” shall mean the contractual payments and all other revenues (other than ground rentals relating to such Special Facility) derived by or available to the City from a Special Facility which are pledged to secure Special Facility Obligations.

“*Special Facility Obligations*” shall mean bonds or other debt instruments issued pursuant to an indenture other than this Indenture to finance Special Facilities and which are not

secured by nor payable from a lien on and pledge of the Net Revenues but which are secured by revenues derived from Special Facilities. Such Special Facility Obligations, however, may be secured by a pledge of Net Revenues expressly subordinate to the pledge of Net Revenues provided herein and may be payable from Net Revenues only after provision has been made for payments of debt service on the Bonds as provided herein.

“*Specified Project*” shall mean a Project or a group of alternative Projects which are described in a certificate of an Authorized City Representative, which is delivered to the Consultant preparing the certificate described in Section 2.11 hereof, if applicable, the revenues and expenses of which Project or of the alternative Projects are to be taken into account by such Consultant in preparing the certificate under Section 2.11(a)(ii).

“*State*” shall mean the State of Utah.

“*State Money Management Act*” shall mean the State Money Management Act, Title 51, Chapter 7, Utah Code Annotated 1953, as amended, and any applicable regulations and rules promulgated thereunder.

“*Subaccount*” shall mean any subaccount established pursuant to this Indenture or any Supplemental Indenture.

“*Subordinate Obligation*” shall mean any bond, note or other debt instrument issued or otherwise entered into by the City which is secured by a pledge of and lien on and payable from Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof. “Subordinate Obligations” are not Bonds for purposes of this Indenture; provided, however, the City may henceforth by Supplemental Indenture elect to have the provisions of this Indenture applicable to the Bonds apply to the Subordinate Obligations issued thereunder, except that such Subordinate Obligations shall be secured by a pledge of and lien on Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof. No bond, note or other instrument of indebtedness shall be deemed to be a “Subordinate Obligation” for purposes of this Indenture and payable from Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof unless specifically designated by the City as a “Subordinate Obligation” in a Supplemental Indenture or other written instrument. In connection with any Subordinate Obligation with respect to which a Swap is in effect or proposes to be in effect, the term “Subordinate Obligation” includes, collectively, both such Subordinate Obligation and either such Swap or the obligations of the City under each such Swap, as the context requires. The term “Subordinate Obligations” also includes a Swap or the obligations of the City under such Swap which has been entered into in connection with a Subordinate Obligation, as the context requires, although none of the Subordinate Obligations with respect to which such Swap was entered into remain outstanding. In connection with any Bonds with respect to which a Qualified Swap is in effect or proposed to be in effect, the term “Subordinate Obligation” includes any Swap Termination Payment if designated as a Subordinate Obligation in a Supplemental Indenture.

“*Subordinate Obligation Trustee*” shall mean the entity named and serving as the trustee under a Subordinate Obligation Trust Indenture, until a successor replaces it and, thereafter, shall mean such successor.

“*Subordinate Obligation Trust Indenture*” shall mean a separate trust indenture entered into by the City with a Subordinate Obligation Trustee which provides for the issuance of Subordinate Obligations.

“*Supplemental Indenture*” shall mean any document supplementing and/or amending this Indenture or providing for the issuance of Bonds and entered into as provided in Article X hereof.

“*Surplus Fund*” shall mean the “Surplus Fund” created, held and maintained by the City for the purpose described in Section 4.10 hereof.

“*Swap*” shall mean any financial arrangement between the City and a Swap Provider which provides that (a) each of the parties shall pay to the other an amount or amounts calculated as if such amount were interest accruing during the term of the arrangement at a specified rate (whether fixed or a variable rate or measured against some other rate) on a Designated Debt, and payable from time to time or at a designated time or times (whether before, during or after the term of the arrangement); (b) if such amount is to be paid before it is deemed to have accrued, the amount paid shall reflect the present value of such future amount (i.e., an upfront premium), while an amount to be paid after it is deemed to have accrued shall reflect the time value of such funds; and (c) payment dates and calculated accrual rates need not be the same for each payor, but to the extent payment dates coincide, the arrangement may (but need not) provide that one shall pay to the other any net amount due under such arrangement.

“*Swap Provider*” shall mean a party to a Swap with the City.

“*Swap Termination Payment*” shall mean an amount payable by the City or a Qualified Swap Provider, in accordance with a Qualified Swap, to compensate the other party to the Qualified Swap for any losses and costs that such other party may incur as a result of an event of default or the early termination of the obligations, in whole or in part, of the parties under such Qualified Swap.

“*Synthetic Fixed Rate Debt*” shall mean indebtedness issued by the City which is combined, as Designated Debt, with a Qualified Swap and creates, in the opinion of a Consultant, a substantially fixed-rate maturity or maturities for a term not exceeding such maturity or maturities.

“*Tender Indebtedness*” shall mean any Bonds or portions of Bonds a feature of which is an obligation on the part of the Bondholders, under the terms of such Bonds, to tender all or a portion of such Bonds to the City, the Trustee, the Paying Agent or other fiduciary or agent or Credit Provider or Liquidity Provider for payment or purchase and requiring that such Bonds or portions of Bonds be purchased if properly presented.

“*Term Bonds*” shall mean Bonds of a Series which are payable on or before their specified maturity dates from sinking fund installment payments established pursuant to the

Supplemental Indenture for such Series for that purpose and calculated to retire the Bonds on or before their specified maturity dates.

“*Terminal Redevelopment Program*” shall mean the redevelopment, replacement and reconfiguration of the landside, terminal and airside facilities at Salt Lake City International Airport, including, but not limited to, new parking, rental car, terminal and roadway facilities, and new concourses, that are more fully described in the Department of Airports’ master plan study, as amended and updated from time to time.

“*Transfer*” shall mean (a) the amount on deposit, if any, on the last Business Day of the applicable Fiscal Year in the Rolling Coverage Account plus (b) any amounts withdrawn from the Rolling Coverage Account during such Fiscal Year for the purposes specified in Section 4.09(a) or (b) hereof less (c) any amounts deposited in the Rolling Coverage Account from Revenues during such Fiscal Year.

“*Treasurer’s Investment Fund*” shall mean the fund held by the Treasurer of the State and commonly known as the Utah State Public Treasurer’s Investment Fund.

“*Trustee*” shall mean the entity named as such in the introductory paragraph of this Indenture until a successor replaces it in accordance with Article IX hereof and, thereafter, shall mean such successor.

“*United States Bankruptcy Code*” shall mean Title 11 U.S.C., Section 101 et seq., as amended or supplemented from time to time, or any successor federal act.

“*United States Obligations*” shall have the meaning set forth in Section 6.02 hereof.

“*Variable Rate Indebtedness*” shall mean any Bond or Bonds the interest rate on which is not, at the time in question, fixed to maturity, excluding any Commercial Paper.

Except as otherwise indicated, references to Articles and Sections are to the Articles and Sections of this Indenture.

ARTICLE II

FORM, EXECUTION, DELIVERY AND REGISTRATION OF BONDS

Section 2.01. Issuance of Bonds; Form; Dating. Either taxable or tax-exempt Bonds may be issued by the City under the terms of this Indenture for any purpose for which the City, at the time of such issuance, may incur debt which may include issuing Bonds and loaning the proceeds to other entities (if it is determined to be legally permissible for the City to do so at such time), provided that if the proceeds of the Bonds are loaned to other entities, the loan repayments and interest thereon shall be included as Revenues. Bonds may be issued under this Indenture only if the provisions of Section 2.09 hereof are satisfied. The total principal amount of Bonds of each Series Outstanding may not exceed the amount specified in the Supplemental Indenture providing for the issuance of such Bonds, except as provided in Section 2.05 hereof with respect to replacement of mutilated, lost or stolen or destroyed Bonds. The Bonds may be in certificated or uncertificated form, and Bonds which are issued in certificated form may be

freely transferable or may be immobilized and held by a custodian for the beneficial owners, all as shall be set forth or permitted in the Supplemental Indenture providing for the issuance of such Bonds. The Bonds may have notations, legends or endorsements required by law or usage.

Bonds will be numbered and dated as provided in the applicable Supplemental Indenture.

All Bonds shall contain a statement to the following effect:

The Bonds are limited obligations of the City, payable solely from and secured by a pledge of Net Revenues derived by the City from the operations of the Airport System and certain funds and accounts. None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Bonds, and neither the full faith and credit nor the taxing power of the City, the State or any political subdivision or agency of the State is pledged to the payment of the principal of, premium, if any, or interest on the Bonds.

Section 2.02. Terms, Medium and Place of Payment. The Bonds shall be issued in the principal amount, shall bear interest at a rate or rates, including a rate of 0% and including variable or adjustable rates, or by such other methods as the City may from time to time determine, and such interest may be payable periodically, in whole or in part, or may be accumulated and paid at maturity or at such other time or times as the City shall determine. Bonds shall mature and shall be subject to redemption prior to their respective maturities, all as shall be set forth in a Supplemental Indenture and permitted under the Act. The Bonds of each Series shall state that they are issued under and are secured by this Indenture and the pledge of Net Revenues and state that regardless of the form thereof, they are “Bonds” issued hereunder and within the meaning of this Indenture.

Payments with respect to the Bonds shall be made as provided in the Supplemental Indenture providing for the issuance of such Bonds or as provided in the Bonds, which provisions shall include the designation of the currency in which such payments shall be made.

Section 2.03. Execution and Authentication. The Bonds, if in certificated form, will be signed for the City as provided in the Supplemental Indenture or in the resolution authorizing such Bonds. In case any officer whose signature or whose facsimile signature shall appear on any Bonds shall cease to be such officer before the authentication of such Bonds, such signature or the facsimile signature thereof shall nevertheless be valid and sufficient for all purposes the same as if he or she had remained in office until authentication. Also, if a person signing a Bond is the proper officer on the actual date of execution, the Bond will be valid even if that person is not the proper officer on the nominal date of action and even though, at the date of this Indenture, such person was not such officer.

Except as otherwise provided in a Supplemental Indenture, a Bond in certificated form will not be valid until the Trustee or its agent or an authenticating agent designated by the City manually signs the certificate of authentication on the Bond. Such signature will be conclusive evidence that the Bond has been authenticated under this Indenture.

The City may appoint an authenticating agent or the Trustee may appoint an authenticating agent acceptable to the City to authenticate Bonds or different authenticating

agents may be appointed for different Series of Bonds. An authenticating agent may authenticate Bonds whenever the Trustee may do so. Each reference in this Indenture to authentication by the Trustee includes authentication by such agent.

Bonds issued under this Indenture may be issued in uncertificated form, in which case the procedures for issuance and delivery and evidence of validity, ownership, transfer and exchange shall be as provided in a Supplemental Indenture, and neither the provisions of this Section 2.03 nor any other provision of this Indenture shall be deemed to prohibit or restrict the issuance of uncertificated Bonds.

Section 2.04. Bond Register. Bonds of each Series may be presented at the principal corporate trust office of the Trustee or such other Registrar, unless a different office has been designated for such purpose, for registration, transfer and exchange. The Trustee or a Registrar will keep a register of each Series of Bonds and of their transfer and exchange.

Section 2.05. Mutilated, Lost, Stolen or Destroyed Bonds.

(a) In the event any Bond is mutilated or defaced but identifiable by number and description, the City shall execute and the Trustee shall authenticate and deliver a new Bond of like Series, date, maturity and denomination as such Bond, upon surrender thereof to the Trustee; provided that there shall first be furnished to the Trustee and the City clear and unequivocal proof satisfactory to the Trustee that the Bond is mutilated or defaced. The Bondholder shall accompany the above with a deposit of money required by the Trustee for the cost of preparing the substitute Bond and all other expenses connected with the issuance of such substitute. The Trustee shall then cause proper record to be made of the cancellation of the original, and thereafter the substitute shall have the validity of the original.

(b) In the event any Bond is lost, stolen or destroyed, the City may execute and the Trustee may authenticate and deliver a new Bond of like Series, date, maturity and denomination as that Bond lost, stolen or destroyed, provided that there shall first be furnished to the Trustee evidence of such loss, theft or destruction satisfactory to the Trustee, together with indemnity satisfactory to it and the City.

(c) Except as limited by any Supplemental Indenture, the Trustee may charge the holder of any such Bond all governmental charges and transfer taxes, if any, and its reasonable fees and expenses in this connection. All substitute Bonds issued and authenticated pursuant to this Section 2.05 shall be issued as a substitute and numbered, if numbering is provided for by the Supplemental Indenture or the Trustee, as determined by the Trustee. In the event any such Bond has matured or been called for redemption, instead of issuing a substitute Bond, the Trustee may pay the same at its maturity or redemption without surrender thereof upon receipt of indemnity satisfactory to the Trustee.

Section 2.06. Book-Entry Bonds.

(a) Except as provided in subparagraph (c) of this Section or a Supplemental Indenture, the Bondholder of all of the Bonds shall be DTC and the Bonds shall be

registered in the name of Cede & Co., as nominee for DTC. Payment of principal and redemption price of and interest on any Bond registered in the name of Cede & Co. shall be made by wire transfer of New York clearing house or equivalent next day funds or by wire transfer of same day funds to the account of Cede & Co. at the address indicated on the record date or special record date for Cede & Co. in the registration books of the Registrar.

(b) The Bonds shall be initially issued in the form of separate single authenticated fully registered bonds for each separate stated maturity and interest rate for each Series of the Bonds. Upon initial issuance, the ownership of such Bonds shall be registered in the registration books of the Registrar in the name of Cede & Co., as nominee of DTC. The Trustee, the Registrar and the City may treat DTC (or its nominee) as the sole and exclusive owner of the Bonds registered in its name for the purposes of paying the principal and redemption price of and interest on the Bonds, selecting the Bonds or portions thereof to be redeemed, giving any notice permitted or required to be given to Bondholders under this Indenture or a Supplemental Indenture, registering the transfer of Bonds, obtaining any consent or other action to be taken by Bondholders and for all other purposes whatsoever, and neither the Trustee, the Registrar nor the City shall be affected by any notice to the contrary. Neither the Trustee, the Registrar nor the City shall have any responsibility or obligation to any Participant, any person claiming a beneficial ownership interest in the Bonds under or through DTC or any Participant, or any other person which is not shown on the registration books as being a Bondholder, with respect to the accuracy of any records maintained by DTC or any Participant; the payment by DTC or any Participant of any amount in respect of the principal and redemption price of or interest on the Bonds; any notice which is permitted or required to be given to Bondholders under this Indenture or a Supplemental Indenture; the selection by DTC or any Participant of any person to receive payment in the event of a partial redemption of the Bonds; any consent given or other action taken by DTC as Bondholder; or any other purpose. Except as provided in subparagraph (c) of this Section or a Supplemental Indenture, the Trustee shall pay all principal and redemption price of and interest on the Bonds only to or "upon the order of" DTC (as that term is used in the Uniform Commercial Code as adopted in the State of Utah), and all such payments shall be valid and effective to fully satisfy and discharge the City's obligations with respect to the principal and redemption price of and interest on the Bonds to the extent of the sum or sums so paid. Except as provided in subparagraph (c) of this Section or a Supplemental Indenture, no person other than DTC shall receive an authenticated Bond evidencing the obligation of the City to make payments of principal, redemption price and interest pursuant to this Indenture or a Supplemental Indenture. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of Cede & Co., and subject to the provisions herein with respect to Record Dates, the word "Cede & Co." in this Indenture and any Supplemental Indenture shall refer to such new nominee of DTC.

(c) In the event the City determines that it is in the best interest of the beneficial owners that they be able to obtain bond certificates, and notifies DTC, the Trustee and the Registrar of such determination, then DTC will notify the Participants of the availability through DTC of bond certificates. In such event, the Trustee shall

authenticate and the Registrar shall transfer and exchange bond certificates as requested by DTC and any other Bondholders in appropriate amounts. DTC may determine to discontinue providing its services with respect to the Bonds at any time by giving notice to the City and the Trustee and discharging its responsibilities with respect thereto under applicable law. Under such circumstances (if there is no successor securities depository), the City and the Trustee shall be obligated to deliver bond certificates as described in this Indenture. In the event bond certificates are issued, the provisions of this Indenture or a Supplemental Indenture shall apply to, among other things, the transfer and exchange of such certificates and the method of payment of principal and redemption price of and interest on such certificates. Whenever DTC requests the City and the Trustee to do so, the Trustee and the City will cooperate with DTC in taking appropriate action after reasonable notice (i) to make available one or more separate certificates evidencing the Bonds to any Participant having Bonds credited to its DTC account or (ii) to arrange for another securities depository to maintain custody of certificates evidencing the Bonds.

(d) Notwithstanding any other provision of this Indenture or a Supplemental Indenture to the contrary, so long as any Bond is registered in the name of Cede & Co., as nominee of DTC, all payments with respect to the principal and redemption price of and interest on such Bond and all notices with respect to such Bond shall be made and given, respectively, to DTC as provided in the Representation Letter.

(e) In connection with any notice or other communication to be provided to Bondholders pursuant to this Indenture or a Supplemental Indenture by the City or the Trustee with respect to any consent or other action to be taken by Bondholders, the City or the Trustee, as the case may be, shall establish a record date for such consent or other action and give DTC notice of such record date not less than fifteen (15) calendar days in advance of such record date to the extent possible. Notice to DTC shall be given only when DTC is the sole Bondholder.

NEITHER THE CITY NOR THE TRUSTEE WILL HAVE ANY RESPONSIBILITY OR OBLIGATION TO PARTICIPANTS OR BENEFICIAL OWNERS WITH RESPECT TO: THE PAYMENT BY DTC TO ANY PARTICIPANT OF THE PRINCIPAL AND REDEMPTION PRICE OF OR INTEREST ON THE BONDS; THE PROVIDING OF NOTICE TO PARTICIPANTS OR BENEFICIAL OWNERS; THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC, OR ANY PARTICIPANT; OR ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS BONDHOLDER OF THE BONDS.

Section 2.07. Registration and Transfer or Exchange of Bonds; Persons Treated as Owners. Unless otherwise provided by a Supplemental Indenture, all Bonds shall be issued in fully registered form.

Upon surrender for transfer of any Bond at the principal corporate trust office of the Trustee or Registrar, the Trustee or Registrar shall deliver in the name of the transferee or transferees a new fully authenticated and registered Bond or Bonds of authorized denominations of the same Series and same maturity for the same aggregate principal amount.

Bondholders may present Bonds at the principal corporate trust office of the Registrar, or such other place as designated by the Registrar, for exchange for Bonds of different authorized denominations and, upon such presentation, the Trustee or Registrar shall deliver to the Bondholder a new fully authenticated and registered Bond or Bonds of the same Series and same maturity for the same aggregate principal amount.

All Bonds presented for transfer or exchange shall be accompanied by a written instrument or instruments of transfer or authorization for exchange, in form and with guaranty of signature satisfactory to the Trustee or Registrar, duly executed by the Bondholder or by his duly authorized attorney.

Except as limited by any Supplemental Indenture, the Trustee or Registrar also may require payment from the Bondholder of a sum sufficient to cover any tax, or other governmental fee or charge that may be imposed in relation thereto. Such taxes, fees and charges shall be paid before any such new Bond shall be delivered.

Supplemental Indentures may designate certain limited periods during which Bonds will not be exchanged or transferred.

Bonds delivered upon any exchange or transfer as provided herein, or as provided in Section 2.05 hereof, shall be valid limited obligations of the City, evidencing the same debt as the Bond or Bonds surrendered, shall be secured by this Indenture and shall be entitled to all of the security and benefits hereof to the same extent as the Bond or Bonds surrendered.

The City, the Trustee, the Registrar and the Paying Agent shall treat the Bondholder of a Bond, as shown on the registration books kept by the Registrar, as the person exclusively entitled to payment of principal, premium, if any, and interest on such Bond and as the party entitled to the exercise of all other rights and powers of the Bondholder, except that all interest payments will be made to the party who, as of the Record Date, is the Bondholder.

Section 2.08. Destruction of Bonds. Whenever any Bonds shall be delivered to the Trustee for cancellation pursuant to this Indenture, upon payment of the principal amount and interest represented thereby or for replacement pursuant to Section 2.05 hereof or exchange or transfer pursuant to Section 2.07 hereof, such Bond shall be cancelled and destroyed by the Trustee or the Registrar and counterparts of a certificate of destruction evidencing such destruction shall be furnished by the Trustee to the City.

Section 2.09. Issuance of Series of Bonds; Supplemental Indenture; Application of Bond Proceeds. Bonds may be issued, from time to time, subject to the conditions of this Section 2.09.

Bonds shall be dated, shall mature, shall bear interest, shall be subject to redemption and shall be amortized and shall be issued and reissued from time to time, all as authorized under the Act and provided for in the Supplemental Indenture relating to such Series of Bonds. In addition, each such Supplemental Indenture may provide for the appointment of a Registrar or Registrars and a Paying Agent or Paying Agents and such other agents as the City shall determine to be necessary in addition to or in place of the Trustee.

Each Series of the Bonds, upon execution by the City, shall be deposited with the Trustee or an agent for authentication and delivery, but prior to or simultaneously with the original delivery of such Series of Bonds, there shall be filed with the Trustee the following:

(a) an original executed copy, certified by the City Recorder of the City, of this Indenture, together with all Supplemental Indentures;

(b) an original executed copy, certified by the City Recorder of the City, of the Supplemental Indenture or Supplemental Indentures providing for the issuance of such Series of Bonds and setting forth the terms of such Series of Bonds;

(c) except with respect to the issuance of any Refunding Bonds, a certificate of an Authorized City Representative listing those Projects or undertakings which the City expects to finance with proceeds of the sale of such Series of Bonds or providing a list from which the City expects to select those Projects which will be financed with proceeds of the sale of such Series of Bonds and such certificate shall, with respect to each item on the list include an estimated cost of such Projects or undertaking;

(d) except with respect to the issuance of the Initial Bonds, the certificate of the Authorized City Representative or the Consultant or Consultants, as the case may be, required by Section 2.11(a) and/or (b) hereof;

(e) a certificate of an Authorized City Representative stating that (i)(A) none of the Events of Default set forth in Sections 8.01 hereof have occurred and remain uncured or (B) upon issuance of such Series of Bonds, all Events of Default set forth in Section 8.01 hereof that have occurred and are continuing, shall be cured, and (ii) that the City is in full compliance with the terms of Section 5.04 hereof;

(f) an opinion of Bond Counsel to the effect that the issuance of such Bonds has been duly authorized, that all legal conditions precedent to the delivery of such Bonds have been fulfilled, and that the Bonds are valid and binding obligations of the City in accordance with their terms;

(g) the opinion of Bond Counsel required by Section 10.02 hereof; and

(h) written instructions from the City to authenticate the Bonds and, upon receipt of the purchase price, to deliver the Bonds to or upon the order of the purchasers named in such instructions.

When the documents mentioned in clauses (a) through (h), inclusive, of the immediately preceding paragraph shall have been filed with the Trustee and when such Bonds shall have been executed and authenticated (if applicable), the Trustee or authenticating agent shall deliver such Bonds to or upon the order of the purchasers thereof, but only upon payment by the purchasers of the purchase price of such Bonds.

Section 2.10. Refunding Bonds. Refunding Bonds may be issued under and secured by this Indenture. Such Refunding Bonds shall be issued in accordance with the provisions of Sections 2.09 and 2.11(b)(i) hereof.

Section 2.11. Additional Bonds Test.

(a) Subject to the provisions of Section 2.11(b) hereof and excepting the Initial Bonds, as a condition to the issuance of any Series of Bonds, there shall be delivered to the Trustee either:

(i) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by an Authorized City Representative showing that the Net Revenues for the last audited Fiscal Year or any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of Maximum Aggregate Annual Debt Service with respect to all Outstanding Bonds and the proposed Series of Bonds, calculated as if the proposed Series of Bonds were then Outstanding; or

(ii) a certificate, dated as of a date between the date of pricing of the Bonds being issued and the date of delivery of such Bonds (both dates inclusive), prepared by a Consultant, nationally recognized as an expert in the area of air traffic and airport financial analysis, showing that:

(A) the Net Revenues for the last audited Fiscal Year or for any 12 consecutive months out of the most recent 18 consecutive months immediately preceding the date of issuance of the proposed Series of Bonds, together with any Transfer for the most recently ended Fiscal Year, were at least equal to 125% of the sum of the Annual Debt Service due and payable with respect to all Outstanding Bonds for such applicable period; and

(B) for the period from and including the first full Fiscal Year following the issuance of such proposed Series of Bonds during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof through and including the later of: (1) the fifth full Fiscal Year following the issuance of such Series of Bonds, or (2) the third full Fiscal Year during which no interest on such Series of Bonds is expected to be paid from the proceeds thereof, the estimated Net Revenues, together with any estimated Transfer, for each such Fiscal Year, will be at least equal to 125% of the Aggregate Annual Debt Service for each such Fiscal Year with respect to all Outstanding Bonds and calculated as if (y) the proposed Series of Bonds were then Outstanding, and (z) any future Series of Bonds which the City estimates will be required to complete payment of the estimated costs of construction of such portion of the Specified Project and any other uncompleted portion of the Specified Project from which the Consultant projects additional Revenues will be generated were then Outstanding.

For purposes of subparagraphs (i) and (ii) above, the amount of any Transfer taken into account shall not exceed 25% of the Aggregate Annual Debt Service on the Outstanding Bonds, the proposed Series of Bonds and any future Series of Bonds included pursuant to subparagraph (ii)(B)(z) of the previous paragraph.

For purposes of subsections (ii)(B) above, in estimating Net Revenues, the Consultant may take into account (1) Revenues from Specified Projects or other Airport Facilities reasonably expected to become available during the period for which the estimates are provided, (2) any increase in fees, rates, charges, rentals or other sources of Revenues which have been approved by the City and will be in effect during the period for which the estimates are provided, and (3) any other increases in Revenues which the Consultant believes to be a reasonable assumption for such period. With respect to Operation and Maintenance Expenses of the Airport System, the Consultant shall use such assumptions as the Consultant believes to be reasonable, taking into account: (x) historical Operation and Maintenance Expenses of the Airport System, (y) Operation and Maintenance Expenses of the Airport System associated with the Specified Projects and any other new Airport Facilities, and (z) such other factors, including inflation and changing operations or policies of the City, as the Consultant believes to be appropriate. The Consultant shall include in the certificate or in a separate accompanying report the calculations and assumptions made in determining the estimated Net Revenues and shall also set forth the calculations of Aggregate Annual Debt Service, which calculations may be based upon information provided by another Consultant.

For purposes of preparing the certificate or certificates described above, the Consultant or the Authorized City Representative may rely upon financial information provided by the City.

(b) Neither of the certificates described above under subsection (a) shall be required if:

(i) the Bonds being issued are for the purpose of refunding then Outstanding Bonds and there is delivered to the Trustee, instead, a certificate of an Authorized City Representative or a Consultant showing that Maximum Aggregate Annual Debt Service after the issuance of such Refunding Bonds will not exceed Maximum Aggregate Annual Debt Service prior to the issuance of such Refunding Bonds; or

(ii) the Bonds being issued constitute Notes and there is delivered to the Trustee, instead, a certificate prepared by an Authorized City Representative or a Consultant showing that the principal amount of the proposed Notes being issued, together with the principal amount of any Notes then Outstanding, does not exceed 10% of the Net Revenues for any 12 consecutive months out of the most recent 24 months immediately preceding the issuance of the proposed Notes; or

(iii) the Bonds being issued are Completion Bonds and the following written certificates are delivered to the Trustee: (A) a Consultant's certificate stating that the nature and purpose of such Project has not materially changed, and (B) a certificate of an Authorized City Representative to the effect that (1) all of the proceeds (including investment earnings on amounts in the Construction Fund established for the Project) of the original Bonds issued to finance such Project have been or will be used to pay Costs of the Project and (2) the then estimated Costs of the Project exceed the sum of the Costs of the Project already paid plus moneys available in the Construction Fund established for the Project (including unspent proceeds of Bonds previously issued for such purpose).

(c) For purposes of calculating Aggregate Annual Debt Service, the following components of debt service shall be computed as follows:

(i) in determining the amount of principal to be funded in each Fiscal Year, payment shall (unless a different clause of this subsection (c) applies for purposes of determining principal maturities or amortization) be assumed to be made on Outstanding Bonds in accordance with any amortization schedule established by the applicable Supplemental Indenture setting forth the terms of such Bonds, including, as a principal payment, the Accreted Value of any Capital Appreciation Bonds maturing or scheduled for redemption in such Fiscal Year; in determining the amount of interest to be funded in each Fiscal Year, interest payable at a fixed rate shall (except to the extent clause (ii) or (iii) of this subsection (c) applies) be assumed to be made at such fixed rate and on the required funding dates as provided in the applicable Supplemental Indenture; provided, however, that interest payable on the Bonds shall be excluded to the extent such payments are to be paid from Capitalized Interest for such Fiscal Year;

(ii) if all or any portion or portions of an Outstanding Bonds or any Bonds which are then proposed to be issued constitute Balloon Indebtedness, then, for purposes of determining Aggregate Annual Debt Service, each maturity which constitutes Balloon Indebtedness will, unless clause (iii) of this subsection (c) then applies, be treated as if it were to be amortized over a term of not more than 30 years with substantially level annual debt service payments commencing not later than the year following the year in which such Balloon Indebtedness was, or is to be, issued; the interest rate used for such computation shall be that rate determined by a Consultant to be a reasonable market rate for fixed-rate Bonds of a corresponding term issued under this Indenture on the date of such calculation, with no credit enhancement and taking into consideration whether such Bonds bear interest which is or is not excluded from gross income for federal income tax purposes; and with respect to any Bonds only a portion of which constitutes Balloon Indebtedness, the remaining portion will be treated as described in clause (i) of this subsection (c) or such other provision of this subsection (c) as will be applicable and;

(iii) any maturity of Outstanding Bonds or any Bonds which are proposed to be issued that constitutes Balloon Indebtedness and for which the stated maturity date occurs within 72 months from the date such calculation of Aggregate Annual Debt Service is made, shall be assumed to become due and payable on the stated maturity date unless there is delivered to the entity making the calculation of Aggregate Annual Debt Service a certificate of an Authorized City Representative stating that the City intends to refinance such maturity and stating the probable terms of such refinancing, including the anticipated interest rate (which shall be a rate determined by a Consultant equal to the then current market rate assuming that such maturity were being refinanced on the date of such certificate) and the final maturity date of such refinancing (provided that such refinanced maturity shall be amortized over a term of not more than 30 years from the date of refinancing), and that the debt capacity of the Department of Airports is sufficient to successfully complete such refinancing; upon the receipt of such certificate, such Balloon Indebtedness shall be assumed to be refinanced in accordance with the probable terms set out in such certificate and such terms shall be used for purposes of calculating Aggregate Annual Debt Service;

(iv) if any Outstanding Bonds or any Bonds which are then proposed to be issued constitute Tender Indebtedness (but excluding Bonds as to which a Qualified Swap is in effect and to which clause (vi) of this subsection (c) applies), then, for purposes of determining Aggregate Annual Debt Service, Tender Indebtedness shall be treated as if the principal amount of such Bonds were to be amortized over a term of not more than 30 years commencing in the year in which such Series is first subject to tender and with substantially level Annual Debt Service payments and extending not later than 30 years from the date such Tender Indebtedness was originally issued; the interest rate used for such computation shall be that rate determined by a Consultant to be a reasonable market rate for fixed-rate Bonds of a corresponding term issued under this Indenture on the date of such calculation, with no credit enhancement and taking into consideration whether such Bonds bear interest which is or is not excluded from gross income for federal income tax purposes; and with respect to all funding requirements of principal and interest payments becoming due prior to the year in which such Tender Indebtedness is first subject to tender, such payments shall be treated as described in clause (i) of this subsection (c) unless the interest during that period is subject to fluctuation, in which case the interest becoming due prior to such first tender date shall be determined as provided in clause (iv) of this subsection (c);

(v) if any Outstanding Bonds or any Bonds which are then proposed to be issued constitute Variable Rate Indebtedness, including obligations described in clause (vi)(B) of this subsection (c) to the extent it applies (except to the extent clause (ii) of this subsection (c) relating to Balloon Indebtedness or clause (iii) of this subsection (c) relating to Tender Indebtedness or clause (vi)(A) of this subsection (c) relating to Synthetic Fixed Rate Debt applies), the interest rate on such Bonds shall be that rate determined by a Consultant to be a reasonable market rate for variable rate Bonds of a corresponding term and structure issued

under this Indenture on the date of such calculation, with credit enhancement (taking into consideration whether such Bonds bear interest which is or is not excluded from gross income for federal income tax purposes), plus the costs of the credit enhancement;

(vi) debt service on Repayment Obligations, to the extent such obligations constitute Bonds under Section 2.12 hereof, shall be calculated as provided in Section 2.12 hereof;

(vii) (A) for purposes of computing the Aggregate Annual Debt Service of Bonds which constitute Synthetic Fixed Rate Debt, the interest rate on such Bonds shall be that rate as provided for by the terms of the Swap;

(B) for purposes of computing the Aggregate Annual Debt Service of Bonds with respect to which a Swap has been entered into whereby the City has agreed to pay the floating variable rate thereunder, no fixed interest rate amounts payable on the Bonds to which such Swap pertains shall be included in the calculation of Aggregate Annual Debt Service, and the interest rate with respect to such Bonds shall be the sum of that rate as determined in accordance with clause (iv) of this subsection (c) relating to Variable Rate Indebtedness plus the difference between the interest rate on the Designated Debt and the rate received from the Swap Provider; and

(viii) with respect to Commercial Paper, the principal and interest thereon shall be calculated as if the entire maximum principal amount of such Commercial Paper authorized by a resolution or a Supplemental Indenture were to be amortized over a term of 30 years commencing in the year in which such program authorizing Commercial Paper is implemented and with substantially level Annual Debt Service payments; the interest rate used for such computation shall be that rate determined by a Consultant to be a reasonable market rate for fixed rate Bonds of a corresponding term issued under this Indenture on the date of such calculation, with no credit enhancement and taking into consideration whether such Bonds bear interest which is or is not excluded from gross income for federal income tax purposes.

When calculating Aggregate Annual Debt Service for purposes of this subsection (c), Aggregate Annual Debt Service shall be reduced by the amount of principal and/or interest paid or to be paid with Capitalized Interest, Passenger Facility Charges Available for Debt Service and/or Pledged Passenger Facility Charges.

Section 2.12. Repayment Obligations Afforded Status of Bonds. If a Credit Provider or Liquidity Provider makes payment of principal of and interest on a Bond or advances funds to purchase or provide for the purchase of Bonds and is entitled to reimbursement thereof, pursuant to a separate written agreement with the City, but is not reimbursed, the City's Repayment Obligation, or portion thereof, under such written agreement may, if so provided in the written

agreement, be afforded the status of a Bond issued under this Article II, and, if afforded such status, the Credit Provider or Liquidity Provider shall be the Bondholder and such Bond shall be deemed to have been issued at the time of the original Bond for which the Credit Facility or Liquidity Facility was provided and will not be subject to the provisions of Sections 2.09 through 2.11 hereof; provided, however, for purposes of Section 2.11(c)(vi) hereof, notwithstanding the stated terms of the Repayment Obligation, the payment terms of the Bond held by the Credit Provider or Liquidity Provider hereunder shall be as follows (unless otherwise provided in the written agreement with the City or a Supplemental Indenture pursuant to which the Bonds are issued): (a) interest shall be due and payable semiannually and (b) principal shall be due and payable not less frequently than annually and in such annual amounts as to amortize the principal amount thereof in (i) 30 years or, if shorter, (ii)(A) a term extending to the maturity date of the enhanced Bonds or (B) if longer, the final maturity of the Repayment Obligation under the written agreement, and providing substantially level Annual Debt Service payments. The principal amortized as described in the prior sentence shall bear interest in accordance with the terms of the Repayment Obligation. The City may provide that any amount which comes due on the Repayment Obligation by its terms and which is in excess of the amount treated as principal of and interest on a Bond may be treated as a Subordinate Obligation of the City or payable from amounts on deposit in the Rolling Coverage Account. This provision shall not defeat or alter the rights of subrogation which any Credit Provider or Liquidity Provider may have under law or under the terms of any Supplemental Indenture. The Trustee may conclusively rely on a written certification by the Credit Provider or Liquidity Provider of the amount of such non-reimbursement and that such Repayment Obligation is to be afforded the status of a Bond under this Indenture.

Section 2.13. Obligations Under Qualified Swap.

(a) The obligation of the City to make Regularly Scheduled Swap Payments under a Qualified Swap with respect to a Series of Bonds may be on a parity with the obligation of the City to make payments with respect to such Series of Bonds and other Bonds under this Indenture, except as otherwise provided herein or in a Supplemental Indenture. The City may provide in any Supplemental Indenture that Regularly Scheduled Swap Payments under a Qualified Swap shall be secured by a pledge of or lien on Net Revenues on a parity with the Bonds of such Series and all other Bonds, regardless of the principal amount, if any, of the Bonds of such Series remaining Outstanding. The Trustee shall take all action consistent with the other provisions hereof as shall be requested in writing by the Qualified Swap Provider necessary to preserve and protect such pledge, lien and assignment and to enforce the obligations of the City with respect thereto. In the event the action requested to be taken pursuant to the preceding sentence shall require the Trustee either to exercise the remedies granted in this Indenture or to institute any action, suit or proceeding in its own name, the Qualified Swap Provider shall provide to the Trustee reasonable security and indemnity against the costs, expenses and liabilities to be incurred in connection therewith.

(b) In the event that a Swap Termination Payment or any other amounts other than as described in clause (a) above are due and payable by the City under a Qualified Swap, such Swap Termination Payment and any such other amounts shall constitute a Subordinate Obligation hereunder.

ARTICLE III

REDEMPTION OF BONDS

Bonds may be subject to redemption either in whole or in part and at such times, prices and in such order and under such terms as may be provided by the Supplemental Indenture providing for the issuance of such Bonds. The City may provide for the redemption of Bonds from any funds available to the City and not obligated for other purposes.

In connection with the partial early redemption of any Term Bonds of a Series, the City may, in any Supplemental Indenture, provide that the principal amount of Bonds of such Series being redeemed shall be allocated against its scheduled sinking fund redemption and modify its scheduled sinking fund installments payable thereafter as to the Outstanding Term Bonds of such Series in any manner the City may determine. The City may provide in any Supplemental Indenture that, prior to notice of redemption for any Bonds of a Series, moneys in the Debt Service Fund, the Common Debt Service Reserve Fund, and any Series Debt Service Reserve Fund relating to such Series of Bonds may be applied at the direction of the City to the purchase of Bonds of such Series and, if any such purchased Bonds are Term Bonds, the City may allocate the principal amount of Bonds of such Series being redeemed against its scheduled sinking fund redemption for such Bonds and may modify its scheduled sinking fund installment payments thereafter payable with respect to Bonds of such Series in any manner the City may determine.

ARTICLE IV

REVENUES; FUNDS AND ACCOUNTS

Section 4.01. Bonds Secured by a Pledge and Lien on Net Revenues. Bonds authorized and issued under the provisions of this Indenture shall be secured as provided in the Granting Clauses of this Indenture and the granting clause(s) set forth in any Supplemental Indenture. The City hereby represents and states that it has not previously created any charge or lien on or any security interest in the Revenues or the Net Revenues and the City covenants that, until all the Bonds authorized and issued under the provisions of this Indenture and the interest thereon shall have been paid or are deemed to have been paid, it will not, except as otherwise provided under this Indenture, grant any prior or parity pledge of or any security interest in the Net Revenues or any other security which is pledged pursuant to the Granting Clauses of this Indenture, or create or permit to be created any charge or lien thereon or any security interest therein ranking prior to or on a parity with the charge or lien of the Bonds from time to time Outstanding under this Indenture. The City may, as provided in and as limited by Section 5.06 hereof, grant a lien on or security interest in the Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof to secure Subordinate Obligations.

Section 4.02. Perfection of Security Interest.

(a) This Indenture creates a valid and binding pledge and assignment of and security interest in all of the Net Revenues pledged under this Indenture in favor of the

Trustee as security for payment of the Bonds, enforceable by the Trustee in accordance with the terms thereof.

(b) Under the laws of the State, such pledge and assignment and security interest is automatically perfected by Section 11-14-501, Utah Code Annotated 1953, as amended, on and as of the effective date of this Indenture, and is and shall have priority as against all parties having claims of any kind in tort, contract, or otherwise against the City with respect to the Net Revenues.

Section 4.03. Receipt, Deposit and Use of Revenues—Revenue Account.

(a) The City hereby covenants and agrees to hold and maintain the Revenue Fund. The City hereby covenants and agrees to establish, hold and maintain an Account designated as the “Revenue Account” within the Revenue Fund. The City hereby further covenants and agrees that, as long as there are any Bonds Outstanding, all Revenues, when and as received, shall be deposited by the City in the Revenue Account.

(b) All Revenues in the Revenue Account shall be set aside for the payment of the following amounts or deposited or transferred to the following Funds, Accounts and Subaccounts in the following order of priority:

(i) *First - Operation and Maintenance Subaccount.* On or prior to the third (3rd) Business Day of each month, the City shall deposit Revenues to the Operation and Maintenance Subaccount in an amount equal to one-twelfth (1/12th) of the estimated Operation and Maintenance Expenses of the Airport System for the then current Fiscal Year as set forth in the budget of the City for such Fiscal Year as finally approved by the City. In the event that the balance in the Operation and Maintenance Subaccount at any time is insufficient to make any required payments therefrom due and payable between the third (3rd) Business Day of the then current month and the second (2nd) Business Day of the immediately succeeding month, additional Revenues at least sufficient to make such payments shall immediately be deposited in the Operation and Maintenance Subaccount from the Revenue Account.

(ii) *Second - Debt Service Funds.* A sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, except as to timing of payment, to the Trustee for deposit to the Debt Service Funds in the amounts, at the times and in the manner provided in Section 4.05 hereof to provide for the payment of principal and interest to become due on the Outstanding Bonds.

In addition to the deposit of Revenues to the Debt Service Funds, the City shall deposit any applicable Pledged Passenger Facility Charges and/or Passenger Facility Charges Available for Debt Service with the Trustee for deposit to the applicable Debt Service Fund(s) in accordance with the provisions of the applicable Supplemental Indenture and/or the applicable certificate described in Section 4.15 hereof.

(iii) *Third - Common Debt Service Reserve Fund and Series Debt Service Reserve Funds.* On or prior to the third (3rd) Business Day of each month, a sufficient amount of Revenues shall be transferred by the City, without priority and on an equal basis, to the Trustee for deposit to the Common Debt Service Reserve Fund at the times and in the amounts provided in Sections 4.06 hereof, and to any Series Debt Service Reserve Fund at the times and in the amounts set forth in the Supplemental Indenture pursuant to which such Series Debt Service Reserve Fund is created.

(iv) *Fourth - Subordinate Obligation Debt Service.* On or prior to the third (3rd) Business Day of each month, a sufficient amount of Revenues shall be transferred by the City to the Subordinate Obligation Trustee, in such amounts and at such times (as specified by the City), as shall be necessary to make all payments and deposits required to be made during the following month on all Subordinate Obligations.

(v) *Fifth - Subordinate Obligation Debt Service Reserve Funds.* On or prior to the third (3rd) Business Day of each month, a sufficient amount of Revenues shall be transferred or caused to be transferred by the City to the Subordinate Obligation Trustee (in such amounts and at such times as specified in the Subordinate Obligation Trust Indenture) to fund any deficiency in any debt service reserve fund established by or for the benefit of the City in connection with any Subordinate Obligations issued pursuant to the terms of a Subordinate Obligation Trust Indenture, provided, however, no Revenues shall be transferred by the City to the Subordinate Obligation Trustee for deposit to any debt service reserve fund established by or for the benefit of the City in connection with any Subordinate Obligations if amounts (including any Debt Service Reserve Fund Surety Policy) in the Common Debt Service Reserve Fund are not sufficient to meet the Reserve Requirement or amounts (including any Debt Service Reserve Fund Surety Policy) in any Series Debt Service Reserve Fund are not sufficient to meet the applicable Reserve Requirement for such Series Debt Service Reserve Fund.

(vi) *Sixth - Operation and Maintenance Reserve Subaccount.* On or prior to the third (3rd) Business Day of each month, sufficient Revenues shall be deposited to the Operation and Maintenance Reserve Subaccount to fund any deficiency in the Operation and Maintenance Reserve Subaccount in accordance with Section 4.07 hereof.

(vii) *Seventh - Renewal and Replacement Subaccount.* On or prior to the third (3rd) Business Day of each month, sufficient Revenues shall be deposited to the Renewal and Replacement Subaccount to fund any deficiency in the Renewal and Replacement Subaccount in accordance with Section 4.08 hereof.

(viii) *Eighth - Rolling Coverage Account.* On or prior to the third (3rd) Business Day of each month, at the discretion of the City, Revenues may be

deposited to the Rolling Coverage Account in an amount determined by the City to fund the Rolling Coverage Account in accordance with Section 4.09 hereof.

(ix) *Ninth - Surplus Fund.* After all deposits and payments have been made as described in clauses (i) through (viii) above, the City, may from time to time, at its discretion, deposit all or a portion of the remaining Revenues in the Revenue Account to the Surplus Fund and apply such Revenues to the purposes set forth in Section 4.10 hereof.

(c) The City reserves the right to make modifications to the application of the funds as provided in subsections (b)(vi) through (b)(viii) above and to create additional funds and accounts to be inserted below subsection (b)(v) above. The City covenants that no such modifications will violate the provisions and order of payment set forth in subsections (b)(i) through (b)(v) above or the provisions of any other contracts or agreements of the City or any legal requirements otherwise applicable to the use of such moneys.

Section 4.04. Operation and Maintenance Subaccount. The City shall create and maintain, within the Revenue Account, a special Subaccount to be designated as the "Operation and Maintenance Subaccount." All amounts in the Operation and Maintenance Subaccount shall be used and applied by the City to pay Operation and Maintenance Expenses of the Airport System as the same may become due. Moneys in the Operation and Maintenance Subaccount do not constitute Net Revenues and are not pledged to the payment of, nor shall they be applied to pay, the principal of and/or interest on the Bonds. Amounts on deposit in the Operation and Maintenance Subaccount may be invested in Permitted Investments and earnings on such amounts shall be retained in the Operation and Maintenance Subaccount and used to pay Operation and Maintenance Expenses of the Airport System.

Section 4.05. Debt Service Funds. At the time of issuance of each Series of Bonds, the City shall create or shall cause to be created a Debt Service Fund for such Series, which Debt Service Fund shall be held and maintained by the Trustee or any agent of the Trustee, and amounts to be used to pay the principal and redemption price, if any, of and interest on such Series, as received by the Trustee or its agent, shall be deposited therein and used for such purpose. Accounts and Subaccounts shall be created in the various Debt Service Funds and shall be held and maintained by the Trustee or such agents as shall be provided in a Supplemental Indenture.

The moneys in the Debt Service Funds shall be held in trust and applied as provided in the Supplemental Indenture with regard to each such Fund, and pending such application on the applicable Payment Date, such amounts shall be subject to a lien on and security interest in favor of the holders of the Bonds issued and Outstanding under this Indenture.

The Trustee shall, at least fifteen (15) Business Days prior to each Payment Date on any Bond, give the City notice by telephone, promptly confirmed in writing, of the amount, if any, (after taking into account any Capitalized Interest, Pledged Passenger Facility Charges, Passenger Facility Charges Available for Debt Service and other amounts on deposit in the Debt Service Fund) required to be deposited with the Trustee to make each required payment of

principal and interest due on such Payment Date. With respect to any Series of Bonds, the Supplemental Indenture under which such Bonds are issued may provide for different times and methods of notifying the City of Payment Dates and amounts to accommodate the specific provisions of such Series and, in such event, the terms of such Supplemental Indenture shall control.

Except as otherwise provided in a Supplemental Indenture, so long as any Bonds are Outstanding, not later than the third (3rd) Business Day of each month, the City shall pay to the Trustee (a) Revenues to be withdrawn from the Revenue Account, (b) Pledged Passenger Facility Charges, if any, and/or (c) Passenger Facility Charges Available for Debt Service, if any, in an aggregate amount equal to: (i) one-sixth (1/6) of the full amount required to pay the interest on each Series of Outstanding Bonds, as it becomes due, so that at least the full amount of interest on each such Series of Outstanding Bonds shall be set aside in the applicable Debt Service Fund by not later than the fifteenth (15th) day of the month prior to the date each installment of interest becomes due; (ii) one-twelfth (1/12) of the full amount required to pay, as it becomes due at maturity, the Principal Amount of each Series of Outstanding Bonds, so that at least the full amount of the Principal Amount of each such Series of Outstanding Bonds shall be set aside in the applicable Debt Service Fund by not later than the fifteenth (15th) day of the month prior to the date such Principal Amount becomes due; and (iii) one-twelfth (1/12) of the full amount required to pay, as it becomes due, the sinking fund installment payment, if any, due with respect each Series of Outstanding Term Bonds, so that at least the full amount of the sinking fund installment payment of each such Series of Outstanding Term Bonds shall be set aside in the applicable Debt Service Fund by not later than the fifteenth (15th) day of the month prior to the date such sinking fund installment payment becomes due.

No such transfer need be made in respect of any Series of Outstanding Bonds prior to the actual delivery of that Series of Outstanding Bonds to the purchasers thereof; provided, however, that notwithstanding the previous paragraph, if the first interest payment date for a Series of Bonds occurs less than six months after the issuance of such Series of Bonds, the City shall pay to the Trustee (a) Revenues to be withdrawn from the Revenue Account, (b) Pledged Passenger Facility Charges, if any, and/or (c) Passenger Facility Charges Available for Debt Service, if any, for deposit in the Debt Service Fund established for that Series of Bonds, equal monthly sums at least sufficient together with other transfers required to be made, commencing not later than the third (3rd) Business Day of the month immediately succeeding the issuance of such Series of Bonds, so that interest due on such Series of Bonds on the first interest payment date to occur after the issuance of such Series Bonds shall be fully funded when the first installment of interest is due on such Series of Bonds, and, if the first principal payment or sinking fund installment of such Series of Bonds is due less than twelve months after the issuance of such Series of Bonds, the City shall pay to the Trustee (a) Revenues to be withdrawn from the Revenue Account, (b) Pledged Passenger Facility Charges, if any, and/or (c) Passenger Facility Charges Available for Debt Service, if any, for deposit in the Debt Service Fund established for that Series of Bonds, equal monthly sums at least sufficient together with other transfers required to be made, commencing not later than the third (3rd) Business Day of the month immediately succeeding the issuance of such Series of Bonds, so that principal or sinking fund installments of such Series of Bonds due on the first principal payment date to occur after the issuance of such Series of Bonds shall be fully funded when the first principal payment or sinking fund installment is due on such Series of Bonds.

Notwithstanding any of the foregoing provisions of the previous two paragraphs, the City shall not be required to pay to the Trustee, for deposit to the Debt Service Fund(s) for each Series of Outstanding Bonds (a) Revenues from the Revenue Account, (b) Pledged Passenger Facility Charges, if any, and/or (c) Passenger Facility Charges Available for Debt Service, if any, for the payment of principal or sinking fund installments or interest, respectively, if the amount already on deposit in such Debt Service Fund(s) and available for such purpose is sufficient to pay in full the amount of principal or sinking fund installment and/or interest, respectively, coming due on such Bonds on the next succeeding Payment Date.

On any day on which the Trustee receives funds from the City to be used to pay principal of or interest on Bonds, the Trustee shall, if the amount received is fully sufficient to pay all amounts of principal and interest then due or becoming due on the next Payment Date, deposit such amounts into the respective Debt Service Funds for the Series of Bonds for which such payments were made and any excess shall be applied to pay all amounts of principal and interest becoming due on any subsequent Payment Dates. If, on any Payment Date, the Trustee does not have sufficient amounts in the Debt Service Funds (without regard to any amounts which may be available from the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund, as applicable) to pay in full all amounts of principal and/or interest due on such date, the Trustee shall allocate the total amount which is available to make payment on such day (without regard to any amounts in the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund, as applicable) as follows: first to the payment of interest then due on the Bonds and, if the amount available shall not be sufficient to pay in full all interest on the Bonds then due, then pro rata among the Series according to the amount of interest then due, and second to the payment of principal then due on the Bonds and, if the amount available shall not be sufficient to pay in full all principal on the Bonds then due, then pro rata among the Series according to the Principal Amount then due on the Bonds.

Notwithstanding the foregoing, the City may, in the Supplemental Indenture authorizing such Series of Bonds, provide for different provisions and timing of deposits with the Trustee and different methods of paying principal of or interest on such Bonds depending upon the terms of such Bonds and may provide for payment through a Credit Facility with reimbursement to the Credit Provider from the respective Debt Service Fund created for the Series of Bonds for which such Credit Facility is provided. The City may provide in any Supplemental Indenture that, as to any Series of Bonds Outstanding, any amounts required to be transferred to and paid into a Debt Service Fund may be prepaid, in whole or in part, by being earlier transferred to and paid into that Debt Service Fund, and in that event any subsequently scheduled monthly transfer, or any part thereof, which has been so prepaid need not be made at the time appointed therefor.

On each Payment Date for any Outstanding Bonds, the Trustee shall pay to the Owners of the Bonds of a given Series from the appropriate Debt Service Fund or Debt Service Funds, an amount equal to the principal and/or interest becoming due on such Series of Bonds.

The payments made by the Trustee in this Section shall be made solely to the extent that moneys are on deposit in the appropriate Debt Service Fund.

If Revenues, Pledged Passenger Facility Charges, if any, and/or Passenger Facility Charges Available for Debt Service, if any, are at any time insufficient to make the required

deposits to the Debt Service Funds to make payments on the Bonds, the City may, at its election, pay to the Trustee funds from any available sources with the direction that such funds be deposited into the Debt Service Funds or into a specified Account or Accounts or Subaccount or Subaccounts therein.

Section 4.06. Common Debt Service Reserve Fund and Series Debt Service Reserve Funds.

(a) The City shall create or shall cause to be created the Common Debt Service Reserve Fund, which Common Debt Service Reserve Fund shall be held and maintained by the Trustee or any agent of the Trustee. The Common Debt Service Reserve Fund shall secure each Series of Bonds that the City elects, pursuant to a Supplemental Indenture, to have participate in the Common Debt Service Reserve Fund. The City reserves the right, in its discretion, (i) to allow any Series of Bonds to participate in the Common Debt Service Reserve Fund, or (ii) to create, pursuant to Supplemental Indentures, separate Series Debt Service Reserve Funds and allow one or more Series of Bonds to participate in such Series Debt Service Reserve Funds, or (iii) to provide that a Series of Bonds not participate in the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund. Any Series Debt Service Reserve Fund established under a Supplemental Indenture shall be funded in an amount equal to the applicable Reserve Requirement set forth in such Supplemental Indenture. Additionally, such Supplemental Indenture shall provide for the manner of funding and replenishing of such Series Debt Service Reserve Fund and establish such other terms with respect to such Series Debt Service Reserve Fund as the City may deem to be appropriate, including providing a Debt Service Reserve Fund Surety Policy in lieu thereof.

(b) (i) Except as otherwise provided herein, with respect to Bonds participating in the Common Debt Service Reserve Fund, each Supplemental Indenture providing for the issuance such Bonds shall require as a condition of issuance that at the time of issuance of such Bonds an amount be deposited in the Common Debt Service Reserve Fund so that, together with any Debt Service Reserve Fund Surety Policy provided pursuant to clause (c) below, the amount on deposit in the Common Debt Service Reserve Fund will be equal to the Reserve Requirement for the Common Debt Service Reserve Fund. Any cash to be deposited in the Common Debt Service Reserve Fund may be derived from proceeds of Bonds or any other legally available source of funds. In the event that federal tax law in the opinion of Bond Counsel would prohibit the Reserve Requirement with respect to the Common Debt Service Reserve Fund or any portion thereof from being satisfied with proceeds of any issue of tax-exempt Bonds, the City shall be permitted to satisfy the portion of the Reserve Requirement for the Common Debt Service Reserve Fund not permitted to be funded with tax-exempt Bond proceeds with Revenues as described in Section 4.03(b)(iii) hereof, to the extent permissible under federal tax laws, in equal monthly installments within sixty (60) months from the date of issuance of said Series of Bonds.

(ii) Moneys held in the Common Debt Service Reserve Fund shall be used for the purpose of paying principal of and interest on the Bonds participating in the Common Debt Service Reserve Fund on a basis *pari passu* with all Bonds then participating in the Common Debt Service Reserve Fund. If, on any Payment Date for Bonds participating in the Common Debt Service Reserve Fund, the amounts in the Debt Service Funds for such Bonds are insufficient to pay in full the amount then due on such Bonds, moneys held in the Common Debt Service Reserve Fund shall be used for the payment of the principal of and/or interest thereon as provided in Section 4.05 hereof. If amounts in the Common Debt Service Reserve Fund consist of both cash and one or more Debt Service Reserve Fund Surety Policies, the Trustee shall make any required payments of amounts in the Common Debt Service Reserve Fund first from any cash on deposit in the Common Debt Service Reserve Fund, prior to making a draw upon any of such Debt Service Reserve Fund Surety Policy. Moneys held in the Common Debt Service Reserve Fund also may be used to make any deposit required to be made to the Rebate Fund created for the Bonds participating in the Common Debt Service Reserve Fund at the written direction of the City if the City does not have other funds available from which such deposit can be made.

(iii) Subject to the provisions of subsection (b)(i) above, the Trustee shall annually, prior to March 1 of each year and at such other times as the City shall request, value the Common Debt Service Reserve Fund on the basis of the cost thereof, plus accrued interest, adjusted for any amortization of premium or discount on the investment thereof. For purposes of determining the amount on deposit in the Common Debt Service Reserve Fund, any Debt Service Reserve Fund Surety Policy held by, or the benefit of which is available to, the Trustee as security for the Bonds participating in the Common Debt Service Reserve Fund shall be deemed to be a deposit in the face amount of such Debt Service Reserve Fund Surety Policy or the stated amount of such Debt Service Reserve Fund Surety Policy provided, except that, if the amount available under a Debt Service Reserve Fund Surety Policy has been reduced as a result of a payment having been made thereunder or as a result of the termination, cancellation or failure of such Debt Service Reserve Fund Surety Policy and not reinstated or another Debt Service Reserve Fund Surety Policy provided, then, in valuing the Common Debt Service Reserve Fund, the value of such Debt Service Reserve Fund Surety Policy shall be reduced accordingly. Upon each such valuation, the Trustee shall prepare a written certificate setting forth the Reserve Requirement with respect to the Common Debt Service Reserve Fund as of such valuation date and the value of the Common Debt Service Reserve Fund and deliver a copy thereof to the Director of Finance and Accounting. If, upon any valuation of the Common Debt Service Reserve Fund, the value of the Common Debt Service Reserve Fund exceeds the Reserve Requirement with respect to the Common Debt Service Reserve Fund, the excess amount may be withdrawn and paid to the City to be used for any lawful purpose; provided that, if such amounts are used for a purpose other than payment of the principal of Bonds participating in the Common Debt Service Reserve Fund, there shall be delivered to the Trustee with the request for such funds an Opinion of Bond Counsel that the purpose for which such funds are

to be used is a lawful purpose for which such proceeds may be used by the City and that such use shall not result in the inclusion of interest on any tax-exempt Bonds in gross income of the recipient thereof for federal income tax purposes. If, upon any valuation of the Common Debt Service Reserve Fund, the value is less than the Reserve Requirement with respect to the Common Debt Service Reserve Fund, the City shall replenish such amounts within thirty-six (36) months after the date of such valuation, in accordance with subsection (f) below.

(c) A Debt Service Reserve Fund Surety Policy shall be acceptable in lieu of a deposit of cash or securities into the Common Debt Service Reserve Fund, or may be substituted for amounts on deposit in the Common Debt Service Reserve Fund, only if at the time of such deposit (i) such Debt Service Reserve Fund Surety Policy extends to the maturity of the Series of Bonds of the longest maturity then Outstanding and participating in the Common Debt Service Reserve Fund, or the City has agreed, pursuant to a Supplemental Indenture, that the City will replace such Debt Service Reserve Fund Surety Policy prior to its expiration with another Debt Service Reserve Fund Surety Policy which shall have no adverse effect on the ratings, if any, then in effect on the Bonds participating in the Common Debt Service Reserve Fund, or with cash, and (ii) the face amount of the Debt Service Reserve Fund Surety Policy, together with amounts on deposit in the Common Debt Service Reserve Fund, including the face amount of any other Debt Service Reserve Fund Surety Policy, is at least equal to the Reserve Requirement with respect to the Common Debt Service Reserve Fund.

(d) Moneys in the Common Debt Service Reserve Fund shall be invested and reinvested by the Trustee in the written direction of the Authorized City Representative in Permitted Investments. Investments in the Common Debt Service Reserve Fund shall not have maturities which extend beyond five years. Earnings on the Common Debt Service Reserve Fund shall be paid pro rata to the Debt Service Funds for the Bonds participating in the Common Debt Service Reserve Fund to be applied as a credit against the City's obligation to make its next interest payments unless an amount has been withdrawn from the Common Debt Service Reserve Fund as a result of a deficiency in the Debt Service Funds and such withdrawal has not been repaid or, as of the most recent valuation of the Common Debt Service Reserve Fund, the amount therein was valued at less than the Reserve Requirement with respect to the Common Debt Service Reserve Fund and the deficiency has not yet been restored, in either of which events the earnings shall be retained in the Common Debt Service Reserve Fund until the deficiency therein has been eliminated.

(e) All money remaining in the Common Debt Service Reserve Fund on the final Payment Date of the Bonds participating in the Common Debt Service Reserve Fund in excess of the amount required to make provisions for the payment in full of the interest and/or the principal of the Bonds of all Outstanding Series participating in the Common Debt Service Reserve Fund shall be transferred to the City for deposit in the Revenue Account.

(f) If the Common Debt Service Reserve Fund or a separately created Series Debt Service Reserve Fund (or Debt Service Reserve Fund Surety Policy provided in lieu

thereof) have been used to make payments on Bonds secured thereby, then the City may be required to replenish the Common Debt Service Reserve Fund and such Series Debt Service Reserve Fund or reimburse the Credit Provider from Net Revenues as provided in Section 4.03(b)(iii) hereof, the full amount so withdrawn, together with interest, if any, required under the terms of the Debt Service Reserve Fund Surety Policy, or so much as shall be required to restore the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund to the Reserve Requirement with respect to the Common Debt Service Reserve Fund or such Series Debt Service Reserve Fund and to pay such interest, if any provided that (i) no amount from Revenues may be used for such purpose until all payments of principal of and/or interest on all Bonds which have become due and payable shall have been paid in full, (ii) the required payments to replenish the Common Debt Service Reserve Fund or any such Series Debt Service Reserve Fund or reimburse the Credit Provider shall be due in no more than thirty-six (36) substantially equal monthly installments commencing in the month following any such withdrawal, and (iii) if the aggregate amount of payments due on any date to replenish the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund exceeds the amount available for such purpose, the payments made to the Trustee for such purpose shall be allocated among the Common Debt Service Reserve Fund and any Series Debt Service Reserve Funds pro rata on the basis of the Outstanding Principal Amount of Bond secured thereby. If such repayment is with respect to a draw under a Debt Service Reserve Fund Surety Policy, the Trustee shall pay to the provider of such Debt Service Reserve Fund Surety Policy the amount received by the Trustee from the City which is designated to be used to reimburse the provider of such Debt Service Reserve Fund Surety Policy. The Trustee shall immediately notify the paying agent for the Debt Service Reserve Fund Surety Policy, if any, of such reimbursement, and the amount available to be drawn under the Debt Service Reserve Fund Surety Policy shall increase by the amount of such reimbursement.

Section 4.07. Operation and Maintenance Reserve Subaccount. The City shall create, hold and maintain, within the Revenue Account, a special Subaccount to be designated as the "Operation and Maintenance Reserve Subaccount." Upon adoption of the annual budget of the City for Operation and Maintenance Expenses of the Airport System, the City shall calculate the Operation and Maintenance Reserve Subaccount Requirement. To the extent amounts on deposit in the Operation and Maintenance Reserve Subaccount exceed the Operation and Maintenance Reserve Subaccount Requirement on the date of any such calculation, the City may transfer such excess to the Revenue Account. Except in the case of a Force Majeure Event, to the extent amounts on deposit in the Operation and Maintenance Reserve Subaccount on the date of any such calculation are less than the Operation and Maintenance Reserve Subaccount Requirement, the City shall deposit monthly in the Operation and Maintenance Reserve Subaccount an amount equal to one-twelfth (1/12th) of the difference between the amount on deposit in the Operation and Maintenance Reserve Subaccount and the Operation and Maintenance Reserve Subaccount Requirement. The City shall deposit such additional amount monthly into the Operation and Maintenance Reserve Subaccount until the balance in the Subaccount is at least equal to the Operation and Maintenance Reserve Subaccount Requirement.

In the event of any withdrawal from the Operation and Maintenance Reserve Subaccount, other than a withdrawal of excess deposits as permitted pursuant to the immediately preceding

paragraph and except in the case of a Force Majeure Event, the City shall deposit monthly in the Operation and Maintenance Reserve Subaccount an amount equal to one-twelfth (1/12th) of the aggregate amount of such withdrawal until the balance in the Operation and Maintenance Reserve Subaccount is at least equal to the Operation and Maintenance Reserve Subaccount Requirement.

All amounts in the Operation and Maintenance Reserve Subaccount shall be used and applied by the City (a) to pay Operation and Maintenance Expenses of the Airport System, (b) to make any required payments or deposits to pay or secure the payment of the principal of and/or interest on the Bonds, and (c) to pay the costs of any additions, improvements, repairs, renewals or replacements to the Airport System, in each case only if and to the extent that moneys otherwise available to make such payments or deposits are insufficient.

Section 4.08. Renewal and Replacement Subaccount. The City shall create, hold and maintain, within the Revenue Account, a special Subaccount to be designated as the “Renewal and Replacement Subaccount.” The City shall fund the Renewal and Replacement Subaccount in an amount equal to the Renewal and Replacement Subaccount Requirement. To the extent amounts on deposit in the Renewal and Replacement Subaccount on the date of any calculation are less than the Renewal and Replacement Subaccount Requirement, the City shall deposit monthly in the Renewal and Replacement Subaccount an amount equal to one-twelfth (1/12th) of the aggregate amount of any such deficiency until the balance in the Renewal and Replacement Subaccount is at least equal to the Renewal and Replacement Subaccount Requirement.

All amounts in the Renewal and Replacement Subaccount shall be used and applied by the City (a) to pay the costs of any extraordinary repairs, renewals or replacements to the Airport System, and (b) to make any required payments or deposits to pay or secure the payment of the principal of and/or interest on the Bonds, in each case only if and to the extent that moneys otherwise available to make such payments or deposits are insufficient.

Section 4.09. Rolling Coverage Account. The City may create, hold and maintain, within the Revenue Fund, a special Account to be designated as the “Rolling Coverage Account.” If such Account is created, the City may fund the Rolling Coverage Account in an amount to be determined by the City but not in excess of the limitations set forth in the definition of Rolling Coverage Amount. Moneys deposited in the Rolling Coverage Account shall be applied upon the direction of an Authorized City Representative to (a) pay Operation and Maintenance Expenses of the Airport System, (b) make any required payments or deposits to pay or secure the payment of the principal and/or interest on the Bonds and Subordinate Obligations, and (c) pay the cost of any additions, improvements, repairs, renewals or replacements to the Airport System, in each case only if and to the extent that moneys otherwise available to make such payments or deposits are insufficient therefor.

Section 4.10. Surplus Fund. The City hereby covenants and agrees to, create, hold and maintain the Surplus Fund. Moneys deposited to the Surplus Fund shall be used for any lawful purpose of the Department of Airports, but only to the extent any such purposes relate to the Airport System.

Section 4.11. Construction Funds. Proceeds of each Series of Bonds which are to be used to pay the Costs of a Project shall be deposited into a Fund (each, respectively, a “**Construction Fund**”) to be created by the City for such Series of Bonds and held and maintained either by the City or the Trustee or part by the City and part by the Trustee, all as provided by this Indenture or a Supplemental Indenture. All moneys in each Construction Fund shall be held and disbursed as provided in the Supplemental Indenture under which such Fund was created. Notwithstanding this provision, no Construction Fund shall be required for a given Series of Bonds if all of the proceeds thereof (except those deposited into the Common Debt Service Reserve Fund or a Series Debt Service Reserve Fund or a Debt Service Fund) are spent at the time of issuance of such Series or are used to refund and/or defease Bonds or otherwise the City determines that there is no need to create a Construction Fund for such Series.

Section 4.12. Additional Funds, Accounts and Subaccounts. In addition to the Funds, Accounts and Subaccounts described in this Article, the City may, pursuant to a Supplemental Indenture, create additional Funds, Accounts and Subaccounts for such purposes as the City deems appropriate, including separate Funds, Accounts and Subaccounts available only for specified Bonds or Series of Bonds. Specifically, the City agrees to create within the Revenue Fund, separate Funds, Accounts or Subaccounts for the deposit of Customer Facility Charges and Passenger Facility Charges.

Section 4.13. Moneys Held in Trust for Matured Bonds; Unclaimed Moneys. All moneys which shall have been withdrawn from a Debt Service Fund and set aside or deposited with a Paying Agent for the purpose of paying any of the Bonds, either at the maturity thereof or upon call for redemption, or which are set aside by the Trustee for such purposes and for which Bonds the maturity date or redemption date shall have occurred, shall be held in trust for the respective holders of such Bonds. But any moneys which shall be so set aside or deposited and which shall remain unclaimed by the holders of such Bonds for a period of one (1) year after the date on which such Bonds shall have become due and payable (or such longer period as shall be required by State law) shall be paid to the City, and thereafter the holders of such Bonds shall look only to the City for payment and the City shall be obligated to make such payment, but only to the extent of the amounts so received without any interest thereon, and neither the Trustee nor any Paying Agent shall have any responsibility with respect to any of such moneys. The City hereby recognizes that while any Bonds are Outstanding in book-entry only form there should be no unclaimed moneys.

Section 4.14. Additional Security. The pledge of Net Revenues and the other security provided in the Granting Clauses hereof, secures all Bonds issued under the terms of this Indenture on an equal and ratable basis, except as to the timing of such payments. The City may, however, in its discretion, provide additional security or credit enhancement for specified Bonds or Series of Bonds with no obligation to provide such additional security or credit enhancement to other Bonds.

Section 4.15. Passenger Facility Charges Available for Debt Service. The City may for any period elect to designate any available Passenger Facility Charges as “Passenger Facility Charges Available for Debt Service” by filing with the Trustee a certificate signed by an Authorized City Representative that includes (a) a representation by the City that such Passenger Facility Charges, when received by the City, may be validly designated as and included in

“Passenger Facility Charges Available for Debt Service” under the Indenture and are legally available to pay the principal of, premium, if any, and interest on all or a portion of the Bonds, (b) the amount of Passenger Facility Charges that are being designated as and included in “Passenger Facility Charges Available for Debt Service,” (c) the Debt Service Fund(s) such Passenger Facility Charges Available for Debt Service are to be deposited to, and (d) the time period during which such Passenger Facility Charges will be designated as and included in “Passenger Facility Charges Available for Debt Service.” After the filing of such certificate with the Trustee, the City shall cause the Passenger Facility Charges Available for Debt Service designated therein to be deposited to the applicable Debt Service Fund(s) and used to pay debt service on the applicable Series of Bonds. Notwithstanding any other provision hereof, if such Passenger Facility Charges Available for Debt Service are subject to any prior pledge or lien or irrevocable commitment, the application thereof to the payment of debt service on the Bonds shall be subordinate to the terms of such pledge or lien or irrevocable commitment and the certificate of the Authorized City Representative designating the Passenger Facility Charges Available for Debt Service shall indicate the amount of the obligation payable in such Fiscal Year from the Passenger Facility Charges Available for Debt Service pursuant to such pledge or lien or irrevocable commitment.

ARTICLE V

COVENANTS OF THE CITY

Section 5.01. Payment of Principal and Interest. The City hereby covenants and agrees that it will duly and punctually pay or cause to be paid from the Net Revenues and to the extent thereof the principal of, premium, if any, and interest on every Bond at the place and on the dates and in the manner herein, in the Supplemental Indentures and in the Bonds specified, according to the true intent and meaning thereof, and that it will faithfully do and perform all covenants and agreements herein and in the Bonds contained, provided that the City’s obligation to make payment of the principal of, premium, if any, and interest on the Bonds shall be limited to payment from the Net Revenues, the funds and accounts pledged therefor in the Granting Clauses of this Indenture and any other source which the City may specifically provide for such purpose and no Bondholder shall have any right to enforce payment from any other funds of the City.

Section 5.02. Performance of Covenants by City; Due Execution. The City hereby covenants that it will faithfully perform at all times any and all covenants and agreements contained in this Indenture, in any and every Bond executed, authenticated and delivered hereunder and in all of its proceedings pertaining hereto. The City hereby represents that it is duly authorized under the Constitution and laws of the State, the City Code and the Act to issue Bonds and pledge and grant a security interest in the Net Revenues and other security pledged thereto or in which a security interest is granted and that the City has not previously pledged Net Revenues or other assets to secure other obligations.

Section 5.03. Senior Lien Obligations Prohibited. The City hereby covenants and agrees that so long as any Bonds are Outstanding under this Indenture, it will not issue any bonds or other obligations with a lien on or security interest in nor grant any lien or security interest in Net Revenues which is senior to the Bonds.

Section 5.04. Rate Covenant.

(a) The City hereby covenants and agrees that, while any of the Bonds remain Outstanding (but subject to all existing contracts and legal obligations of the City as of the date of execution of this Indenture setting forth restrictions relating thereto), it shall establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that Revenues in each Fiscal Year will be at least equal to the following amounts:

(i) Operation and Maintenance Expenses of the Airport System due and payable during such Fiscal Year;

(ii) the Annual Debt Service on any Outstanding Bonds required to be funded by the City in such Fiscal Year as required by this Indenture or any Supplemental Indenture with respect to the Outstanding Bonds;

(iii) the required deposits to the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund which may be established by a Supplemental Indenture;

(iv) the reimbursement owed to any Credit Provider or Liquidity Provider as required by a Supplemental Indenture;

(v) the interest on and principal of any indebtedness of the City with respect to the Department of Airports required to be funded during such Fiscal Year, other than for Outstanding Bonds, but including Subordinate Obligations; and

(vi) funding of any debt service reserve funds created in connection with any indebtedness of the City with respect to the Department of Airports, other than Outstanding Bonds, but including Subordinate Obligations.

(b) The City hereby further covenants and agrees that it shall establish, fix, prescribe and collect rates, tolls, fees, rentals and charges in connection with the Airport System and for services rendered in connection therewith, so that during each Fiscal Year the Net Revenues, together with any Transfer, will be equal to at least 125% of Annual Debt Service on the Outstanding Bonds for such Fiscal Year. For purposes of this subsection (b), the amount of any Transfer taken into account shall not exceed 25% of Annual Debt Service on the Outstanding Bonds in such Fiscal Year.

(c) When calculating Annual Debt Service on the Outstanding Bonds for purposes of the rate covenants set forth in subsections (a) and (b) above, Annual Debt Service on the Outstanding Bonds shall be reduced by the amount of principal and/or interest paid with Capitalized Interest, Passenger Facility Charges Available for Debt Service and/or Pledged Passenger Facility Charges.

(d) The City hereby further covenants and agrees that if Revenues and Net Revenues, together with any Transfer (only as applied in subsection (b) above) in any

Fiscal Year are less than the amounts specified in subsections (a) and (b) above, the City will retain and direct a Consultant to make recommendations as to the revision of the City's business operations and its schedule of rates, tolls, fees, rentals and charges for the use of the Airport System and for services rendered by the City in connection with the Airport System, and after receiving such recommendations or giving reasonable opportunity for such recommendations to be made, the City shall take all lawful measures to revise the schedule of rates, tolls, fees, rentals and charges as may be necessary to produce Revenues and Net Revenues, together with any Transfer (only as applied in subsection (b) above) in the amounts specified in subsections (a) and (b) above in the next succeeding Fiscal Year.

(e) In the event that Revenues or Net Revenues for any Fiscal Year are less than the amounts specified in subsections (a) or (b) above, but the City has, prior to or during the next succeeding Fiscal Year, promptly taken all lawful measures to revise the schedule of rates, tolls, fees, rentals and charges as required by subsection (d) above, such deficiency in Revenues or Net Revenues shall not constitute an Event of Default under the provisions of Section 8.01(d) hereof. Nevertheless, if after taking the measures required by subsection (d) above to revise the schedule of rates, tolls, fees, rentals and charges, Revenues or Net Revenues in the next succeeding Fiscal Year (as evidenced by the audited financial statements of the City for such Fiscal Year) are less than the amounts specified in subsections (a) or (b) above, such deficiency in Revenues or Net Revenues shall constitute an Event of Default under the provisions of Section 8.01(d) hereof.

Section 5.05. No Inconsistent Contract Provisions. The City hereby covenants that no contract or contracts will be entered into or any action taken by the City which shall be inconsistent with the provisions of this Indenture. The City hereby further covenants that it will not take any action which, in the City's judgment at the time of such action, will substantially impair or materially adversely affect the Net Revenues, or will substantially impair or materially adversely affect in any manner the pledge of, lien on or security interest granted in the Net Revenues herein or the rights of the holders of the Bonds. The City shall be unconditionally and irrevocably obligated, so long as any of the Bonds are Outstanding and unpaid, to take all lawful action necessary or required to pay from the Net Revenues the principal of and interest on the Bonds and to make the other payments provided for herein.

Section 5.06. Subordinate Obligations. The City may, from time to time, incur indebtedness which is subordinate to the Bonds and which indebtedness is, in this Indenture, referred to as Subordinate Obligations. Such indebtedness shall be incurred at such times and upon such terms as the City shall determine, provided that:

(a) any Supplemental Indenture authorizing the issuance of any Subordinate Obligations shall specifically state that such lien on or security interest granted in the Revenues and the Net Revenues is junior and subordinate to the lien on and security interest in such Revenues and Net Revenues and other assets granted to secure the Bonds; and

(b) payment of principal of and interest on such Subordinate Obligations shall be permitted, provided that all deposits required to be made pursuant to Sections 4.03(b)(i) through (iii) hereof, if any, are then current in accordance with Section 4.03(b) hereof.

Section 5.07. Special Facilities and Special Facility Obligations.

(a) The City shall be permitted to designate new or existing Airport Facilities as Special Facilities as permitted in this Section 5.07. The City may, from time to time, and subject to the terms and conditions of this Section 5.07, (i) designate a separately identifiable existing facility or planned facility as a "Special Facility," (ii) pursuant to an indenture other than this Indenture and without a pledge of any Net Revenues (except on a subordinate basis), incur debt primarily for the purpose of acquiring, constructing, renovating or improving or providing financing or refinancing to third parties to acquire, construct, renovate or improve, such facility, (iii) provide that certain of the contractual payments derived from or related to such Special Facility, together with other income and revenues available to the City from such Special Facility to the extent necessary to make the payments required by clause (i) of Subsection (c) below, be "Special Facilities Revenue" and not included as Revenues and unless on terms provided in any supplemental indenture, and (iv) provide that the debt so incurred shall be a "Special Facility Obligation" and the principal of and interest thereon shall be payable solely from the Special Facilities Revenue and the proceeds of such Special Facility Obligations set aside exclusively to pay debt service on such Special Facility Obligation (except the City may, in its sole discretion, determine to make Revenues or such other moneys not included in Revenues available (through a specific pledge or otherwise and subject to any covenants or other provisions of this Indenture (including, but not limited to Sections 2.09 and 5.04 hereof) or such other resolution, indentures or agreements of the City). The City may from time to time refinance any such Special Facility Obligations with other Special Facility Obligations. Additionally, Special Facility Obligations may be secured by a pledge of Revenues remaining after the deposits to the Funds, Accounts and Subaccounts set forth in Section 4.03(b)(i) through (iii) hereof.

(b) Special Facility Obligations shall be payable as to principal, redemption premium, if any, and interest solely from (i) Special Facilities Revenue, which shall include contractual payments derived by the City under and pursuant to a contract (which may be in the form of a lease) relating to a Special Facility by and between the City and one or more additional persons, firms or corporations, either public or private, as shall undertake the operation of a Special Facility, (ii) proceeds of such Special Facility Obligations set aside exclusively to pay debt service on such Special Facility Obligations, if any, and (iii) such Revenues or other moneys not included in Revenues made available by the City as provided in clause (iv) of subsection (a) above, if any.

(c) No Special Facility Obligations shall be issued by the City unless there shall have been filed with the Trustee a certificate of an Authorized City Representative stating that:

(i) the estimated Special Facilities Revenue pledged to the payment of the Special Facility Obligations, the proceeds of such Special Facility Obligations set aside exclusively to pay debt service on such Special Facility Obligation, if any, and such Revenues or other moneys made available by the City pursuant to clause (iv) of subsection (a) above, if any, will be at least sufficient to pay the principal of and interest on such Special Facility Obligations as and when the same become due and payable, all costs of operating and maintaining such Special Facility not paid for by the operator thereof or by a party other than the City and all sinking fund installment, reserve or other payments required by the resolution authorizing the Special Facility Obligations as the same become due; and

(ii) no Event of Default then exists under Article VIII hereof.

(d) To the extent Special Facilities Revenue received by the City during any Fiscal Year shall exceed the amounts required to be paid pursuant to clause (i) of subsection (c) above for such Fiscal Year, such excess Special Facilities Revenue, to the extent not otherwise encumbered or restricted in connection with such Special Facilities Revenue financing, shall constitute Revenues.

Section 5.08. Maintenance of Powers. The City hereby covenants that it will at all times use its best efforts to maintain the powers, functions, duties and obligations now reposed in it pursuant to the City Code, the Constitution of the State and all other laws and that it will not at any time voluntarily do, suffer or permit any act or thing the effect of which would be to delay either the payment of the indebtedness evidenced by any of the Bonds or the performance or observance of any of the covenants herein contained.

Section 5.09. Operation and Maintenance of Airport System. Subject to the transfer of any Airport Facilities pursuant to Section 5.12 hereof, the City hereby covenants that the Airport System shall at all times be operated and maintained in good working order and condition and that all lawful orders of any governmental agency or authority having jurisdiction in the premises shall be complied with (provided the City shall not be required to comply with any such orders so long as the validity or application thereof shall be contested in good faith), and that all licenses and permits necessary to construct or operate any part of the Airport System shall be obtained and maintained and that all necessary repairs, improvements and replacements of the Airport System shall be made, subject to sound business judgment. Subject to the transfer of any Airport Facilities pursuant to Section 5.12 hereof, the City shall, from time to time, duly pay and discharge, or cause to be paid and discharged, except to the extent the imposition or payment thereof is being contested in good faith by the City, all taxes (if any), assessments or other governmental charges lawfully imposed upon the Airport System or upon any part thereof, or upon the Revenues or Net Revenues, when the same shall become due, as well as any lawful claim for labor, materials or supplies or other charges which, if unpaid, might by law become a lien or charge upon the Revenues or Net Revenues or the Airport System or any part thereof constituting part of the Airport System.

Section 5.10. Insurance; Application of Insurance Proceeds.

(a) Subject, in each case, to the condition that insurance is obtainable at reasonable rates and upon reasonable terms and conditions:

(i) the City shall procure and maintain or cause to be procured and maintained commercial insurance or provide Qualified Self Insurance with respect to the facilities constituting the Airport System and public liability insurance in the form of commercial insurance or Qualified Self Insurance and, in each case, in such amounts and against such risks as are, in the judgment of the City, prudent and reasonable taking into account, but not being controlled by, the amounts and types of insurance or self-insured programs provided by similar airports; and

(ii) the City shall place on file with the Trustee, annually within 120 days after the close of each Fiscal Year a certificate of an Authorized City Representative containing a summary of all insurance policies and self-insured programs then in effect with respect to the Airport System and the operations of the City related to the Airport System. The Trustee may conclusively rely upon such certificate and shall not be responsible for the sufficiency or adequacy of any insurance required herein or obtained by the City.

(b) **“Qualified Self Insurance”** shall mean insurance maintained through a program of self insurance or insurance maintained with a fund, company or association in which the City may have a material interest and of which the City may have control, either singly or with others. Each plan of Qualified Self Insurance shall be established in accordance with law, shall provide that reserves be established or insurance acquired in amounts adequate to provide coverage which the City determines to be reasonable to protect against risks assumed under the Qualified Self Insurance plan, including any potential retained liability in the event of the termination of such plan of Qualified Self Insurance, and such self-insurance program shall be reviewed at least once every 12 months by a Consultant who shall deliver to the City a report on the adequacy of the reserves established thereunder. If the Consultant determines that such reserves are inadequate, they shall make a recommendation as to the amount of reserves that should be established and maintained, and the City shall comply with such recommendation unless it can establish to the satisfaction of and receive a certification from a Consultant that a lower amount is reasonable to provide adequate protection to the City.

(c) If, as a result of any event, any part of the Airport System is destroyed or severely damaged, the City shall create within the Revenue Account a special Subaccount and shall credit the Net Proceeds received as a result of such event of damage or destruction to such Subaccount and such Net Proceeds shall, within a reasonable period of time taking into account any terms under which insurance proceeds are paid and any insurance restrictions upon the use or timing of the use of insurance proceeds, be used to: (i) repair or replace the Airport System, or portion thereof, which were damaged or destroyed, (ii) provide additional revenue-producing Airport Facilities, (iii) redeem

Bonds, or (iv) create an escrow fund pledged to pay specified Bonds and thereby cause such Bonds to be deemed to be paid as provided in Article VII hereof.

Section 5.11. Accounts. The City hereby covenants that it will keep and provide accurate books and records of account showing all Revenues received and all expenditures of the City relating to the Airport System and that it will keep or cause to be kept accurate books and records of account showing all moneys, Revenues, accounts and funds (including the Revenue Account and all Funds, Accounts and Subaccounts provided for in this Indenture) which are or shall be in the control or custody of the City; and that all such books and records pertaining to the Airport System shall be open upon reasonable notice during business hours to the Trustee and to the Owners of not less than 10% of the Principal Amount of Bonds then Outstanding, or their representatives duly authorized in writing.

Section 5.12. Transfer of Airport Facility or Airport Facilities. The City shall not, except as permitted below, transfer, sell or otherwise dispose of an Airport Facility or Airport Facilities. For purposes of this Section 5.12, any transfer of an asset over which the City retains substantial control in accordance with the terms of such transfer, shall not, for so long as the City has such control, be deemed a disposition of an Airport Facility or Airport Facilities.

The City may transfer, sell or otherwise dispose of Airport Facilities only if such transfer, sale or disposition complies with one or more of the following provisions:

- (a) the property being disposed of is inadequate, obsolete or worn out; or
- (b) the property proposed to be disposed of and all other Airport Facilities disposed of during the 12-month period ending on the day of such transfer (but excluding property disposed of under (a) above), will not, in the aggregate, constitute a Significant Portion, the proceeds are deposited into the Revenue Account to be used as described below and the City believes that such disposal will not prevent it from fulfilling its obligations under this Indenture; or
- (c) if the property being transferred, sold or disposed of does not constitute all of the Airport Facilities that comprise the Salt Lake City International Airport, the City receives fair market value for the property, the proceeds are deposited in the Revenue Account to be used as described below, and prior to the disposition of such property, there is delivered to the Trustee a certificate of a Consultant to the effect that notwithstanding such disposition, but taking into account the use of such proceeds in accordance with the expectations of the City as evidenced by a certificate of an Authorized City Representative, the Consultant estimates that the City will be in compliance with Section 5.04(a) and (b) hereof during each of the first five (5) Fiscal Years immediately following such disposition; or
- (d) if the property being transferred, sold or disposed of constitutes all of the Airport Facilities that comprise the Salt Lake City International Airport, the proceeds received by the City from such transfer, sale or disposition shall be sufficient (along with any other available moneys of the City) to cause all Bonds then Outstanding to be deemed to be paid as provided in Article VII hereof and the proceeds (along with any

other available moneys of the City) shall be deposited to an escrow fund pledged to the payment of all Bonds then Outstanding.

Proceeds of the transfer, sale or disposition of assets under clauses (b) or (c) above shall be deposited into the Revenue Account and used, subject to any applicable provisions of the Code, within a reasonable period of time, not to exceed three (3) years, to (i) provide additional revenue-producing Airport Facilities, (ii) redeem Bonds or (iii) create an escrow fund pledged to pay specified Bonds and thereby cause such Bonds to be deemed to be paid as provided in Article VII hereof.

Airport Facilities which were financed with the proceeds of obligations the interest on which is then excluded from gross income for federal income tax purposes shall not be disposed of, except under the terms of clause (a) above, unless the City has first received a written opinion of Bond Counsel to the effect that such disposition will not cause the interest on such obligations to become includable in gross income for federal income tax purposes.

No such disposition shall be made which would cause the City to be in default of any other covenant contained in this Indenture.

Section 5.13. Eminent Domain. If a Significant Portion of any Airport Facility or Airport Facilities are taken by eminent domain proceedings or conveyance in lieu thereof, the City shall create within the Revenue Account a special Subaccount and credit the Net Proceeds received as a result of such taking or conveyance to such Subaccount and shall within a reasonable period of time, after the receipt of such amounts, use such proceeds, subject to any applicable provisions of the Code, to (a) replace the Airport Facility or Airport Facilities which were taken or conveyed, (b) provide an additional revenue-producing Airport Facility or Airport Facilities, (c) redeem Bonds, or (d) create an escrow fund pledged to pay specified Bonds and thereby cause such Bonds to be deemed to be paid as provided in Article VII hereof.

Section 5.14. Completion of Specified Project; Substitution of Specified Project. The City will, upon the issuance of a Series of Bonds the proceeds of which are to be used for a Specified Project, proceed with due diligence to construct or acquire such Specified Project; provided, however, that the City may, if the conditions set forth in this Section 5.14 are met, substitute another Project therefor and shall proceed with due diligence to construct or acquire such substituted Project. The City may determine not to proceed with any of the Specified Projects or may determine to substitute another Project or Projects for a Specified Project if, as a condition to discontinuing the acquisition or construction of a Specified Project or to the substitution of another Project or Projects therefor, the City (a) first, delivers to the Trustee a certificate of a Consultant showing that after taking into account the discontinuation of such Specified Project or the substitution of another Project or Projects therefor, the provisions of Section 5.04(a) and (b) hereof will, nevertheless, be complied with by the City, and (b) second, if the original Project was financed with the proceeds of obligations the interest on which is then excluded from gross income for federal income tax purposes, causes there to be delivered an opinion of Bond Counsel to the effect that the substitution of one Project for another Project will not cause interest on the Series of Bonds with respect to which the original Project was to be financed to be included in gross income of the recipients thereof for federal income tax purposes. If the City determines not to proceed with a Specified Project and fails to deliver the

Consultant's certificate and to undertake a substitute Project or Projects, then Bond proceeds which would have been used to acquire or construct such Specified Project shall be used, subject to an applicable provisions of the Code, to redeem Bonds, or as otherwise provided in the Supplemental Indenture pursuant to which they were issued.

Section 5.15. Covenants of City Binding on City and Successors. All covenants, stipulations, obligations and agreements of the City contained in this Indenture shall be deemed to be covenants, stipulations, obligations and agreements of the City to the full extent authorized or permitted by law. If the powers or duties of the City shall hereafter be transferred by amendment of the City Code or a new City Code or any provision of the Constitution of the State or any other law of the State or in any other manner there shall be a successor to the City, and if such transfer shall relate to any matter or thing permitted or required to be done under this Indenture by the City, then the entity that shall succeed to such powers or duties of the City shall act and be obligated in the place and stead of the City as in this Indenture provided, and all such covenants, stipulations, obligations and agreements shall be binding upon the successor or successors thereof from time to time and upon any officer, board, body or commission to whom or to which any power or duty affecting such covenants, stipulations, obligations and agreement shall be transferred by or in accordance with law.

Except as otherwise provided in this Indenture, all rights, powers and privileges conferred and duties and liabilities imposed upon the City by the provision of this Indenture shall be exercised or performed by the City or by such officers, board, body or commission as may be permitted by law to exercise such powers or to perform such duties.

Section 5.16. Instruments of Further Assurance. The City covenants that it shall do, execute, acknowledge and deliver, or cause to be done, executed, acknowledged and delivered, such Supplemental Indentures, and such further acts, instruments and transfers as the Trustee may reasonably request for the better assuring and confirming to the Trustee all and singular the rights and obligations of the City under and pursuant to this Indenture and the security intended to be conferred hereby to secure the Bonds.

Section 5.17. Indenture To Constitute a Contract. This Indenture, including all Supplemental Indentures, is executed by the City for the benefit of the Bondholders and constitutes a contract with the Trustee for the benefit of the Bondholders.

Section 5.18. Obligations Secured by Other Revenues. The City may, from time to time, incur indebtedness payable solely from certain revenues of the Airport System which do not constitute Revenues at such times and upon such terms and conditions as the City shall determine, provided that such indebtedness shall specifically include a provision that payment of such indebtedness is neither secured by nor payable from Revenues or Net Revenues. The City also may, from time to time, incur indebtedness payable from and secured by both Net Revenues and certain revenues of the Airport System which do not constitute Revenues at such times and upon such terms and conditions as the City shall determine, provided that the conditions set forth in this Indenture for the issuance of indebtedness payable from and secured by Net Revenues, including, without limitation, Sections 2.09 and 2.11, hereof are met.

Section 5.19. Annual Reporting of Audited Financial Statements. Within 210 days after the close of each Fiscal Year, so long as any Bonds are Outstanding, the City shall prepare audited financial statements including a statement of the income and expenses for such Fiscal Year and a balance sheet prepared as of the close of such Fiscal Year for the City with respect to the Airport System all accompanied by a certificate or opinion in writing of an independent certified public accountant of recognized standing, selected by the City, which opinion shall include a statement that said financial statements present fairly in all material respects the financial position of the City with respect to the Airport System and are prepared in accordance with generally accepted accounting principles.

ARTICLE VI

INVESTMENT OF MONEYS; PERMITTED INVESTMENTS

Section 6.01. Investment of Moneys in Funds, Accounts and Subaccounts. Moneys held by the City and/or the Trustee in the Funds, Accounts and Subaccounts created herein and under any Supplemental Indenture shall be invested and reinvested as directed by the City, in Permitted Investments subject to the restrictions set forth in this Indenture and any Supplemental Indenture and subject to the investment restrictions imposed upon the City by the laws of the State and the City's investment policy. The City shall direct such investments by written certificate (which certificate shall include a certification that such directions comply with the City's investment policy and upon which the Trustee may conclusively rely) of an Authorized City Representative or by telephone instruction followed by prompt written confirmation by an Authorized City Representative. In the absence of any such instructions, the Trustee shall hold such moneys uninvested.

Investments in any and all Funds, Accounts and Subaccounts established and held by the Trustee pursuant to this Indenture or any Supplemental Indenture may be commingled for purposes of making, holding and disposing of investments, notwithstanding provisions herein for transfer to or holding in a particular Fund, Account or Subaccount amounts received or held by the Trustee hereunder or under a Supplemental Indenture, provided that the Trustee shall at all times account for such investments strictly in accordance with the particular Fund, Account or Subaccount to which they are credited and otherwise as provided in this Indenture or a Supplemental Indenture. The Trustee may act as principal or agent in the making or disposing of any investment. To the extent Permitted Investments are registerable, such investments shall be registered in the name of the Trustee. The Trustee may sell or present for redemption any securities so purchased whenever it shall be necessary to provide moneys to meet any required payment, transfer, withdrawal or disbursement from the Fund, Account or Subaccount to which such securities are credited, and the Trustee shall not be liable or responsible for any loss resulting from such investment. The Trustee shall have no investment discretion.

The Trustee is hereby authorized, in making or disposing of any investment permitted by this Section, to deal with itself (in its individual capacity) or with any one or more of its affiliates, whether it or such affiliate is acting as an agent of the Trustee or for any third person or dealing as principal for its own account.

The City acknowledges that to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the City the right to receive brokerage confirmations of security transactions as they occur, the City specifically waives receipt of such confirmations to the extent permitted by law. The City further understands that trade confirmations for securities transactions effected by the Trustee will be available upon request and at no additional cost and other trade confirmations may be obtained from the applicable broker. The Trustee shall furnish to the City periodic cash transaction statements which include detail for all investment transactions made by the Trustee hereunder or under any Supplemental Indenture. Upon the City's election, such statements shall be delivered via the Trustee's online service and upon electing such service, paper statements will be provided only upon request.

The Trustee shall not be liable for any loss resulting from following the written directions of the City or as a result of liquidating investments to provide funds for any required payment, transfer, withdrawal or disbursement from any Fund, Account or Subaccount in which such Permitted Investment is held.

In the absence of direction from the City, the Trustee may buy or sell any Permitted Investment through its own (or any of its affiliates) investment department in compliance with federal tax law pertaining to arbitrage.

Section 6.02. Definition of Permitted Investments and Other Related Definitions.

(a) *"Permitted Investments"* shall mean any of the following, but only to the extent permitted by the laws of the State and the City's investment policy:

(i) any investment authorized from time to time by the provisions of the State Money Management Act, including, without limitation, the Treasurer's Investment Fund;

(ii) United States Obligations;

(iii) Obligations, debentures, notes or other evidences of indebtedness issued or guaranteed by any of the following instrumentalities or agencies of the United States of America: Federal Home Loan Bank System; Government National Mortgage Association; Federal National Mortgage Association; Federal Farm Credit Bureau; Farmers Home Administration; Federal Home Loan Mortgage Corporation; and Federal Housing Administration;

(iv) Direct and general long-term obligations of any state, which obligations are rated at all times in one of the two highest Rating Categories by one or more of the Rating Agencies;

(v) Direct and general short-term obligations of any state which obligations are rated at all times in the highest Rating Category by one or more of the Rating Agencies;

(vi) Interest-bearing demand or time deposits (including certificates of deposit) or interests in money market portfolios issued by state banks or trust

companies or national banking associations that are members of the Federal Deposit Insurance Corporation (*"FDIC"*) or by savings and loan associations that are members of the FDIC, which deposits or interests must either be (A) continuously and fully insured by FDIC and with banks that are rated at all times at least in the highest short-term Rating Category by one or more of the Rating Agencies or is rated at all times in one of the two highest long-term Rating Categories by one or more of the Rating Agencies; or (B) fully secured by obligations described in clause (ii) or (iii) of this definition of Permitted Investments (1) which are valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at all times at least equal to the principal amount of the investment, (2) held by the Trustee (who shall not be the provider of the collateral) or by any Federal Reserve Bank or a depository acceptable to the Trustee, (3) subject to a perfected first lien in favor of the Trustee, and (4) free and clear from all third-party liens;

(vii) Long-term or medium-term corporate debt guaranteed by any corporation that is rated at all times in one of the two highest Rating Categories by one or more of the Rating Agencies;

(viii) Repurchase agreements which are (A) entered into with banks or trust companies organized under state law, national banking associations, insurance companies or government bond dealers reporting to, trading with, and recognized as a primary dealer by, the Federal Reserve Bank of New York and which either are members of the Security Investors Protection Corporation or with a dealer or parent holding company that has at all times an investment grade rating from one or more of the Rating Agencies and (B) fully secured by obligations specified in clauses (ii) or (iii) of this definition of Permitted Investments (1) which are valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at least equal to the amount invested in the repurchase agreements, (2) held by the Trustee (who shall not be the provider of the collateral) or by any Federal Reserve Bank or a depository acceptable to the Trustee, (3) subject to a perfected first lien in favor of the Trustee and (4) free and clear from all third-party liens;

(ix) Prime commercial paper of a United States corporation, finance company or banking institution rated at all times in the highest short-term Rating Category of one or more of the Rating Agencies;

(x) Shares of a diversified open-end management investment company (as defined in the Investment Company Act of 1940, as amended) or shares in a regulated investment company (as defined in Section 851(a) of the Code) that is (A) a money market fund that is rated at all times in one of the two highest Rating Categories by one or more of the Rating Agencies or (B) a money market fund or account of the Trustee or its affiliates or any state or federal bank that is rated at all times at least in the highest short-term Rating Category by one or more of the Rating Agencies or is rated at all times in one of the two highest long-term Rating Categories by one or more of the Rating Agencies, or whose own bank holding

company parent is rated at all times at least in the highest short-term Rating Category by one or more of the Rating Agencies or is rated at all times in one of the two highest long-term Rating Categories by one or more of the Rating Agencies, or that has a combined capital and surplus of not less than \$50,000,000 (all investments included in this clause (x) may include funds which the Trustee or its affiliates provide investment advisory or other management services);

(xi) Interest bearing notes issued by a banking institution having a combined capital and surplus of at least \$500,000,000 and whose senior debt is rated at all times in the highest Rating Category by one or more of the Rating Agencies;

(xii) Public housing bonds issued by public agencies which are either unconditionally guaranteed as to principal and interest by the United States of America, or rated at all times in the highest Rating Category by one or more of the Rating Agencies;

(xiii) Obligations issued or guaranteed by the Private Export Funding Corporation, the Resolution Funding Corporation and any other instrumentality or agency of the United States of America; and

(xiv) Investment Agreements.

(b) “*Investment Agreement*” shall mean an investment agreement or guaranteed investment contract (i) with or guaranteed by a national or state chartered bank or savings and loan, an insurance company or other financial institution whose unsecured debt is rated in the highest short-term rating category (if the term of the Investment Agreement is less than three years) or in either of the two highest long-term Rating Categories (if the term of the Investment Agreement is three years or longer) by one or more of the Rating Agencies, or (ii) which investment agreement or guaranteed investment contract is fully secured by obligations described in clause (ii) or (iii) of the definition of Permitted Investments which are (A) valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at all times at least equal to 103% of the principal amount of the investment, together with the interest accrued and unpaid thereon, (B) held by the Trustee (who shall not be the provider of the collateral) or by any Federal Reserve Bank or a depository acceptable to the Trustee, (C) subject to a perfected first lien on behalf of the Trustee, and (D) free and clear from all third-party liens.

(c) “*United States Obligations*” shall mean direct and general obligations of the United States of America, or obligations that are unconditionally guaranteed as to principal and interest by the United States of America, including, with respect only to direct and general obligations and not to guaranteed obligations, evidences of ownership of proportionate interests in future interest and/or principal payments of such obligations, provided that investments in such proportionate interests must be limited to circumstances wherein: (i) a bank or trust company acts as custodian and holds the underlying United States Obligations; (ii) the owner of the investment is the real party in

interest and has the right to proceed directly and individually against the obligor of the underlying United States Obligations; and (iii) the underlying United States Obligations are held in a special account separate from the custodian’s general assets and are not available to satisfy any claim of the custodian, any person claiming through the custodian or any person to whom the custodian may be obligated. “United States Obligations” shall include any stripped interest or principal portion of United States Treasury securities and any stripped interest portion of Resolution Funding Corporation securities.

ARTICLE VII

DEFEASANCE

Bonds or portions thereof (such portions to be in integral multiples of the authorized denominations set forth in the applicable Supplemental Indenture) which have been paid in full or which are deemed to have been paid in full shall no longer be secured by or entitled to the benefits of this Indenture except for the purposes of payment from moneys and/or Government Obligations held by the Trustee or a Paying Agent for such purpose. When all Bonds which have been issued under this Indenture have been paid in full or are deemed to have been paid in full, and all other sums payable hereunder by the City, including all necessary and proper fees, compensation and expenses of the Trustee, the Registrar and the Paying Agent, have been paid or are duly provided for, then the right, title and interest of the Trustee in and to the pledge of Net Revenues and the other assets pledged to secure the Bonds hereunder shall thereupon cease, terminate and become void, and thereupon the Trustee shall cancel, discharge and release this Indenture, shall execute, acknowledge and deliver to the City such instruments as shall be required to evidence such cancellation, discharge and release and shall assign and deliver to the City any property and revenues at the time subject to this Indenture which may then be in the Trustee’s possession, except funds or securities in which such funds are invested and are held by the Trustee or the Paying Agent for the payment of the principal of, premium, if any, and interest on the Bonds.

A Bond shall be deemed to be paid within the meaning of this Article VII and for all purposes of this Indenture when payment of the principal, interest and premium, if any, either (a) shall have been made or caused to be made in accordance with the terms of the Bonds and this Indenture or (b) shall have been provided for, as certified to the Trustee by a nationally recognized accounting firm, by irrevocably depositing with the Trustee in trust and setting aside exclusively for such payment, (i) moneys sufficient to make such payment and/or (ii) noncallable Government Obligations maturing as to principal and interest in such amounts and at such times as will insure the availability of sufficient moneys to make such payment. At such times as Bonds shall be deemed to be paid hereunder, such Bonds shall no longer be secured by or entitled to the benefits of this Indenture, except for the purposes of payment from such moneys and/or Government Obligations.

Notwithstanding the foregoing paragraph, no deposit under clause (b) of the immediately preceding paragraph shall be deemed a payment of such Bonds until (x) proper notice of redemption of such Bonds shall have been given in accordance with the terms of the Supplemental Indenture under which such Bonds were issued or, in the event, under the terms of such Supplemental Indenture, the date for giving such notice of redemption has not yet arrived,

until the City shall have given the Trustee irrevocable instructions to give such notice of redemption when appropriate and to notify all holders of the affected Bonds that the deposit required by (b) above has been made with the Trustee and that such Bonds are deemed to have been paid in accordance with this Article VII and stating the maturity or redemption date upon which moneys are to be available for the payment of the principal, interest and premium, if any, on such Bonds; or (y) the maturity of such Bonds.

In connection with the redemption or defeasance, or partial redemption or defeasance of Bonds, the City may permit, or cause to be assigned to Bonds of a single maturity, multiple CUSIP numbers.

ARTICLE VIII

DEFAULTS AND REMEDIES

Section 8.01. Events of Default. Each of the following events shall constitute and is referred to in this Indenture as an “Event of Default”:

(a) a failure to pay the principal of or premium, if any, on any of the Bonds when the same shall become due and payable at maturity or upon redemption;

(b) a failure to pay any installment of interest on any of the Bonds when such interest shall become due and payable;

(c) a failure to pay the purchase price of any Bond when such purchase price shall be due and payable upon an optional or mandatory tender date as provided in a Supplemental Indenture;

(d) a failure by the City to observe and perform any covenant, condition, agreement or provision (other than as specified in clauses (a), (b) and (c) of this Section 8.01) that are to be observed or performed by the City and which are contained in this Indenture or a Supplemental Indenture, which failure, except for a violation under Section 5.04 hereof which shall be controlled by the provisions set forth therein, shall continue for a period of sixty (60) days after written notice, specifying such failure and requesting that it be remedied, shall have been given to the City by the Trustee, which notice may be given at the discretion of the Trustee and shall be given at the written request of holders of 25% or more of the Principal Amount of the Bonds then Outstanding, unless the Trustee, or the Trustee and the holders of Bonds in a Principal Amount not less than the Principal Amount of Bonds the holders of which requested such notice, shall agree in writing to an extension of such period prior to its expiration; provided, however, that the Trustee or the Trustee and the holders of such principal amount of Bonds shall be deemed to have agreed to an extension of such period if corrective action is initiated by the City within such period and is being diligently pursued until such failure is corrected;

(e) bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings, including without limitation proceedings under Chapter 9 of the United States Bankruptcy Code, or other proceedings for relief under any federal or state

bankruptcy law or similar law for the relief of debtors are instituted by or against the City and, if instituted against the City, said proceedings are consented to or are not dismissed within 60 days after such institution; or

(f) the occurrence of any other Event of Default as is provided in a Supplemental Indenture.

Except as otherwise provided in a Supplemental Indenture, if on the third (3rd) Business Day preceding a Payment Date sufficient moneys are not on deposit with the Trustee or Paying Agent in the Debt Service Fund to make such payment, the Trustee shall immediately give telephone notice of such insufficiency to the City.

Section 8.02. Remedies.

(a) Upon the occurrence and continuance of any Event of Default, the Trustee in its discretion may, and upon the written direction of the holders of 25% or more of the Principal Amount of the Bonds then Outstanding and receipt of indemnity to its satisfaction, shall, in its own name and as the Trustee of an express trust:

(i) by mandamus, or other suit, action or proceeding at law or in equity, enforce all rights of the Bondholders, and require the City to carry out any agreements with or for the benefit of the Bondholders and to perform its or their duties under the Act, the City Code, the Constitution of the State or any other law to which it is subject and this Indenture;

(ii) bring suit upon the Bonds;

(iii) commence an action or suit in equity to require the City to account as if it were the trustee of an express trust for the Bondholders;

(iv) by action or suit in equity enjoin any acts or things which may be unlawful or in violation of the rights of the Bondholders; or

(v) take such other action as are provided for in the Supplemental Indenture.

(b) The Trustee shall be under no obligation to take any action with respect to any Event of Default unless the Trustee has actual knowledge of the occurrence of such Event of Default.

(c) In no event, upon the occurrence and continuation of an Event of Default, shall the Trustee, Bondholders, a Credit Provider, a Liquidity Provider or any other party have the right to accelerate the payment of principal of or interest on the Bonds Outstanding.

Section 8.03. Restoration to Former Position. In the event that any proceeding taken by the Trustee to enforce any right under this Indenture shall have been discontinued or abandoned for any reason, or shall have been determined adversely to the Trustee, then the City,

the Trustee, and the Bondholders shall be restored to their former positions and rights hereunder, respectively, and all rights, remedies and powers of the Trustee shall continue as though no such proceeding had been taken.

Section 8.04. Bondholders' Right To Direct Proceedings. Anything in this Indenture to the contrary notwithstanding, holders of 51% or more in aggregate Principal Amount of the Bonds then Outstanding shall have the right, at any time, by an instrument in writing executed and delivered to the Trustee, to direct the time, method and place of conducting all remedial proceedings available to the Trustee under this Indenture to be taken in connection with the enforcement of the terms of this Indenture or exercising any trust or power conferred on the Trustee by this Indenture; provided that such direction shall not be otherwise than in accordance with the provisions of the law and this Indenture and that there shall have been provided to the Trustee security and indemnity satisfactory to the Trustee against the costs, expenses and liabilities to be incurred as a result thereof by the Trustee.

Section 8.05. Limitation on Right To Institute Proceedings. No Bondholder shall have any right to institute any suit, action or proceeding in equity or at law for the execution of any trust or power hereunder, or any other remedy hereunder or on such Bonds, unless such Bondholder or Bondholders previously shall have given to the Trustee written notice of an Event of Default as hereinabove provided and unless also holders of 25% or more of the Principal Amount of the Bonds then Outstanding shall have made written request of the Trustee to do so, after the right to institute such suit, action or proceeding under Section 8.02 hereof shall have accrued, and shall have afforded the Trustee a reasonable opportunity to proceed to institute the same in either its or their name, and unless there also shall have been offered to the Trustee security and indemnity satisfactory to it against the costs, expenses and liabilities to be incurred therein or thereby, and the Trustee shall not have complied with such request within a reasonable time; and such notification, request and offer of indemnity are hereby declared in every such case, at the option of the Trustee, to be conditions precedent to the institution of such suit, action or proceeding; it being understood and intended that no one or more of the Bondholders shall have any right in any manner whatever by their action to affect, disturb or prejudice the security of this Indenture, or to enforce any right hereunder or under the Bonds, except in the manner herein provided, and that all suits, actions and proceedings at law or in equity shall be instituted, had and maintained in the manner herein provided and for the equal benefit of all Bondholders.

Section 8.06. No Impairment of Right To Enforce Payment. Notwithstanding any other provision in this Indenture, the right of any Bondholder to receive payment of the principal of and interest on such Bond or the purchase price thereof, on or after the respective due dates expressed therein and to the extent of the pledge of Net Revenues and other security provided for the Bonds, or to institute suit for the enforcement of any such payment on or after such respective date, shall not be impaired or affected without the consent of such Bondholder.

Section 8.07. Proceedings by Trustee Without Possession of Bonds. All rights of action under this Indenture or under any of the Bonds secured hereby which are enforceable by the Trustee may be enforced by it without the possession of any of the Bonds, or the production thereof at the trial or other proceedings relative thereto, and any such suit, action or proceeding instituted by the Trustee shall be brought in its name for the equal and ratable benefit of the Bondholders, subject to the provisions of this Indenture.

Section 8.08. No Remedy Exclusive. No remedy herein conferred upon or reserved to the Trustee or to Bondholders is intended to be exclusive of any other remedy or remedies, and each and every such remedy shall be cumulative, and shall be in addition to every other remedy given hereunder, or now or hereafter existing at law or in equity or by statute; provided, however, that any conditions set forth herein to the taking of any remedy to enforce the provisions of this Indenture or the Bonds shall also be conditions to seeking any remedies under any of the foregoing pursuant to this Section 8.08.

Section 8.09. No Waiver of Remedies. No delay or omission of the Trustee or of any Bondholder to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver of any such default, or an acquiescence therein; and every power and remedy given by this Article VIII to the Trustee and to the Bondholders, respectively, may be exercised from time to time and as often as may be deemed expedient.

Section 8.10. Application of Moneys. If an Event of Default shall occur and be continuing, all amounts then held or any moneys received by the Trustee, by any receiver or by any Bondholder pursuant to any right given or action taken under the provisions of this Article VIII (which shall not include moneys provided through a Liquidity Facility or a Credit Facility, which moneys shall be restricted to the specific use for which such moneys were provided), after payment of the costs and expenses of the proceedings resulting in the collection of such moneys by the Trustee or by any receiver and of the expenses, liabilities and advances incurred or made by the Trustee in connection with its performance of its powers and duties under this Indenture and any Supplemental Indenture (including attorneys' fees and disbursements), shall be applied as follows: (a) first, to the payment to the persons entitled thereto of all installments of interest then due on the Bonds, with interest on overdue installments, if lawful, at the rate per annum as provided in any Supplemental Indenture, as the case may be, in the order of maturity of the installments of such interest and, if the amount available shall not be sufficient to pay in full any particular installment of interest, then to the payment ratably, according to the amounts due on such installment, and (b) second, to the payment to the persons entitled thereto of the unpaid principal amount of any of the Bonds which shall have become due with interest on such Bonds at such rate as provided in a Supplemental Indenture from the respective dates upon which they became due and, if the amount available shall not be sufficient to pay in full Bonds on any particular date determined to be the payment date, together with such interest, then to the payment ratably, according to the amount of principal and interest due on such date, in each case to the persons entitled thereto, without any discrimination or privilege.

Whenever moneys are to be applied pursuant to the provisions of this Section 8.10, such moneys shall be applied at such times, and from time to time, as the Trustee shall determine, having due regard to the amount of such moneys available for application and the likelihood of additional moneys becoming available for such application in the future. Whenever the Trustee shall apply such funds, it shall fix the date (which shall be an interest Payment Date unless it shall deem another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal and interest paid on such date shall cease to accrue. The Trustee shall give notice of the deposit with it of any such moneys and of the fixing of any such date by Mail (or such other approved delivery method) to all Bondholders and shall not be

required to make payment to any Bondholder until such Bonds shall be presented to the Trustee for appropriate endorsement or for cancellation if fully paid.

Section 8.11. Severability of Remedies. It is the purpose and intention of this Article VIII to provide rights and remedies to the Trustee and the Bondholders, which may be lawfully granted under the provisions of the Act and other applicable law, but should any right or remedy herein granted be held to be unlawful, the Trustee and the Bondholders shall be entitled, as above set forth, to every other right and remedy provided in this Indenture or by applicable law.

Section 8.12. Additional Events of Default and Remedies. So long as any particular Series of Bonds is Outstanding, the remedies as set forth in this Article VIII may be supplemented with additional remedies as set forth in a Supplemental Indenture under which such Series of Bonds is issued.

ARTICLE IX

TRUSTEE, PAYING AGENT AND CO-PAYING AGENTS; REGISTRAR

Section 9.01. Acceptance of Trusts. The Trustee hereby accepts and agrees to execute the trusts specifically imposed upon it by this Indenture, but only upon the additional terms set forth in this Article IX, to all of which the City agrees and the respective Bondholders agree by their acceptance of delivery of any of the Bonds.

Section 9.02. Duties of Trustee.

(a) If an Event of Default has occurred and is continuing, the Trustee shall exercise its rights and powers and use the same degree of care and skill in their exercise as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

(b) The Trustee shall perform the duties set forth in this Indenture and no implied duties or obligations shall be read into this Indenture against the Trustee.

(c) Except during the continuance of an Event of Default, in the absence of any negligence on its part or any knowledge to the contrary, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed, upon certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture. However, the Trustee shall examine the certificates and opinions to determine whether they conform to the requirements of this Indenture.

(d) The Trustee may not be relieved from liability for its own negligent action, its own negligent failure to act or its own willful misconduct, except that:

(i) the Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer unless the Trustee was negligent in ascertaining the pertinent facts; and

(ii) the Trustee shall not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it from Bondholders or the City in the manner provided in this Indenture.

(e) The Trustee shall not, by any provision of this Indenture, be required to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers, if repayment of such funds or adequate indemnity against such risk or liability is not reasonably assured to it. The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the holders of the Bonds or any Credit Provider or Liquidity Provider, unless such holders, Credit Providers and Liquidity Providers, as applicable, shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction.

(f) Every provision of this Indenture that in any way relates to the Trustee is subject to the provisions of this Section 9.02.

Section 9.03. Rights of Trustee. Subject to the Section 9.02 hereof, the Trustee shall be protected and shall incur no liability in acting or proceeding in good faith upon any resolution, notice, telegram, facsimile, request, consent, waiver, certificate, direction, statement, affidavit, voucher, bond, requisition or other paper or document which it shall in good faith believe to be genuine and to have been passed or signed by the proper City or person or to have been prepared and furnished pursuant to any of the provisions of this Indenture, and the Trustee shall be under no duty to make investigation or inquiry as to any statements contained or matters referred to in any such instrument, but may accept and rely upon the same as conclusive evidence of the truth and accuracy of such statements. The Trustee may rely upon the calculations provided by the entity preparing the calculation of Aggregate Annual Debt Service in connection with its responsibility to ensure there exists in the Common Debt Service Reserve Fund or any Series Debt Service Reserve Fund, the required amounts.

The Trustee may consult with counsel with regard to legal questions, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by the Trustee hereunder in good faith in accordance therewith.

Whenever in the administration of the trusts or duties imposed upon it by this Indenture the Trustee shall deem it necessary that a matter be proved or established prior to taking or not taking any action hereunder, such matter may be deemed to be conclusively proved and established by a certificate of the City, and such certificate shall be full warrant to the Trustee for any action taken or not taken by it in good faith under the provisions of this Indenture in reliance on such certificate.

The Trustee makes no representation as to the sufficiency or validity of this Indenture or of any Bonds, or in respect of the security afforded by this Indenture.

The Trustee shall not be liable for any action taken or omitted by it in good faith and believed by it to be authorized or within the discretion or rights or powers conferred upon it

under this Indenture, except for its own negligence or willful misconduct. The permissive right of the Trustee to do things enumerated in this Indenture shall not be construed as a duty.

In the performance of its duties hereunder, the Trustee may employ attorneys, agents and receivers and shall not be liable for any actions of such attorneys, agents and receivers to the extent selected by it with reasonable care.

The Trustee shall have no responsibility with respect to any information, statement or recital whatsoever in any official statement, offering memorandum or other disclosure material prepared or distributed with respect to the Bonds.

The Trustee shall not be considered in breach of or in default in its obligations hereunder in the event of enforced delay or unavoidable delay in the performance of such obligations due to unforeseeable causes beyond its control and without its fault or negligence, including, but not limited to, Force Majeure Events.

The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request, order or direction of any Bondholder pursuant to the provisions of this Indenture unless such Bondholder shall have offered to the Trustee reasonable security or indemnity against the costs, expenses and liabilities which may be incurred therein or thereby.

No provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of its rights or powers.

The Trustee shall not be bound to ascertain or inquire as to the validity or genuineness of any collateral given to or held by it. The Trustee shall not be responsible for the recording or filing of any document relating to this Indenture or of financing statements (or continuation statements in connection therewith) or of any supplemental instruments or documents of further assurance as may be required by law in order to perfect the security interests in any collateral given to or held by it.

The Trustee shall not be concerned with or accountable to anyone for the subsequent use or application of any moneys which shall be released or withdrawn in accordance with the provisions hereof.

The Trustee agrees to accept and act upon instructions or directions pursuant to this Indenture sent by unsecured e-mail, facsimile transmission or other similar unsecured electronic methods; provided, however, that, the Trustee shall have received an incumbency certificate listing persons designated to give such instructions or directions and containing specimen signatures of such designated persons, which incumbency certificate shall be amended and replaced whenever a person is to be added or deleted from the listing. If the City elects to give the Trustee e-mail or facsimile instructions (or instructions by a similar electronic method) and the Trustee in its discretion elects to act upon such instructions, the Trustee's understanding of such instructions shall be deemed controlling. The Trustee shall not be liable for any losses, costs or expenses arising directly or indirectly from the Trustee's reliance upon and compliance with such instructions notwithstanding such instructions conflict or are inconsistent with a

subsequent written instruction. The City agrees to assume all risks arising out of the use of such electronic methods to submit instructions and directions to the Trustee, including without limitation, the risk of the Trustee acting on unauthorized instructions, and the risk of interception and misuse by third parties.

Section 9.04. Individual Rights of Trustee. The Trustee in its individual or any other capacity may become the owner or pledgee of Bonds and may otherwise deal with the City with the same rights it would have if it were not Trustee. Any Paying Agent or other agent may do the same with like rights.

Section 9.05. Trustee's Disclaimer. The Trustee shall not be accountable for the City's use of the proceeds from the Bonds paid to the City and it shall not be responsible for any statement in the Bonds other than its certificate of authentication.

Section 9.06. Notice of Defaults. If (a) an Event of Default has occurred or (b) an event has occurred which with the giving of notice and/or the lapse of time would be an Event of Default and, with respect to such events for which notice to the City is required before such events will become Events of Default, such notice has been given, then the Trustee shall promptly, after obtaining actual notice of such Event of Default or event described in (b) of the first sentence of this Section 9.06, give notice thereof to each Bondholder. Except in the case of a default in payment or purchase of any Bonds, the Trustee may withhold the notice if and so long as a committee of its Responsible Officers in good faith determines that withholding the notice is in the interests of the Bondholders.

Section 9.07. Compensation of Trustee. For acting under this Indenture, the Trustee shall be entitled to payment of fees for its services and reimbursement of advances, counsel fees and other expenses reasonably and necessarily made or incurred by the Trustee in connection with its services under this Indenture, in accordance with a separate fee schedule, setting forth such terms and conditions, which has been approved by the City. To the extent permitted by law, the City agrees to indemnify and hold the Trustee and its officers, agents and directors harmless against any liabilities, costs, claims or expenses not arising from the Trustee's own negligence, misconduct or breach of duty, which the Trustee may incur in the exercise and performance of its rights and obligations hereunder including the enforcement of any remedies and the defense of any suit. Such obligation shall survive the discharge of this Indenture or the resignation or removal of the Trustee.

Section 9.08. Eligibility of Trustee. This Indenture shall always have a Trustee that is a trust company, banking association or a bank having the powers of a trust company and is organized and doing business under the laws of the United States or any state or the District of Columbia, is authorized to conduct trust business under the laws of the State, is subject to supervision or examination by United States, state or District of Columbia authority and has (together with its corporate parent) a combined capital and surplus of at least \$100,000,000 as set forth in its most recent published annual report of condition.

Section 9.09. Replacement of Trustee. The Trustee may resign by notifying the City in writing prior to the proposed effective date of the resignation. The holders of 51% or more of the aggregate Principal Amount of the Bonds may remove the Trustee by notifying the removed

Trustee and may appoint a successor Trustee with the City's consent. The City may remove the Trustee, by notice in writing delivered to the Trustee at least sixty (60) days prior to the proposed removal date; provided, however, that the City shall have no right to remove the Trustee during any time when an Event of Default has occurred and is continuing or when an event has occurred and is continuing or condition exists which with the giving of notice or the passage of time or both would be an Event of Default.

No resignation or removal of the Trustee under this Section 9.09 shall be effective until a new Trustee has taken office and delivered a written acceptance of its appointment to the retiring Trustee and to the City. Immediately thereafter, the retiring Trustee shall transfer all property held by it as Trustee to the successor Trustee, the resignation or removal of the retiring Trustee shall then (but only then) become effective and the successor Trustee shall have all the rights, powers and duties of the Trustee under this Indenture.

If the Trustee resigns or is removed or for any reason is unable or unwilling to perform its duties under this Indenture, the City shall promptly appoint a successor Trustee.

If a Trustee is not performing its duties hereunder and a successor Trustee does not take office within sixty (60) days after the retiring Trustee delivers notice of resignation or the City delivers notice of removal, the retiring Trustee, the City or the holders of 51% or more of the aggregate Principal Amount of the Bonds may petition any court of competent jurisdiction for the appointment of a successor Trustee.

Section 9.10. Successor Trustee or Agent by Merger. If the Trustee, any Paying Agent or Registrar consolidates with, merges or converts into, or sells to or transfers all or substantially all its assets (or, in the case of a bank, national banking association or trust company, its corporate trust assets) to, another corporation and meets the qualifications set forth in this Indenture, the resulting, surviving or transferee corporation without any further act shall be the successor Trustee, Paying Agent or Registrar.

Section 9.11. Paying Agent. The City may upon notice to the Trustee at any time or from time to time appoint a Paying Agent or Paying Agents for the Bonds or for any Series of Bonds, and each Paying Agent, if other than the Trustee, shall designate to the City and the Trustee its principal office and signify its acceptance of the duties and obligations imposed upon it hereunder or under a Supplemental Indenture by a written instrument of acceptance delivered to the City and the Trustee under which each such Paying Agent will agree, particularly:

- (a) to hold all sums held by it for the payment of the principal of, premium or interest on Bonds in trust for the benefit of the Bondholders until such sums shall be paid to such Bondholders or otherwise disposed of as herein provided;
- (b) to keep such books and records as shall be consistent with prudent industry practice, to make such books and records available for inspection by the City and the Trustee on each Business Day during reasonable business hours; and
- (c) upon the request of the Trustee, to forthwith deliver to the Trustee all sums so held in trust by such Paying Agent.

Section 9.12. Registrar. The City shall appoint the Registrar for the Bonds or a Registrar or Registrars for any Series of Bonds and may from time to time remove a Registrar and name a replacement. Each Registrar, if other than the Trustee, shall designate to the Trustee, the Paying Agent, and the City its principal office and signify its acceptance of the duties imposed upon it hereunder or under a Supplemental Indenture by a written instrument of acceptance delivered to the City and the Trustee under which such Registrar will agree, particularly, to keep such books and records as shall be consistent with prudent corporate trust industry practice and to make such books and records available for inspection by the City, the Trustee, and the Paying Agent on each Business Day during reasonable business hours.

Section 9.13. Other Agents. The City, or the Trustee with the consent of the City, may from time to time appoint other agents as may be appropriate at the time to perform duties and obligations under this Indenture or under a Supplemental Indenture all as provided by a Supplemental Indenture or resolution of the City.

Section 9.14. Several Capacities. Anything in this Indenture to the contrary notwithstanding, with the consent of the City, the same entity may serve hereunder as the Trustee, Paying Agent, Registrar and any other agent as appointed to perform duties or obligations under this Indenture, under a Supplemental Indenture or an escrow agreement, or in any combination of such capacities, to the extent permitted by law. The Paying Agent and the Registrar shall be entitled to the same protections, limitations from liability and indemnities afforded to the Trustee under this Indenture.

Section 9.15. Accounting Records and Reports of the Trustee.

(a) The Trustee shall at all times keep, or cause to be kept, proper records in which complete and accurate entries shall be made of all transactions made by it relating to the proceeds of the Bonds and all funds and accounts established by it pursuant to this Indenture. Such records shall be available for inspection with reasonable prior notice by the City on each Business Day during reasonable business hours and by any Bondholder, or his agent or representative duly authorized in writing, at reasonable hours, with reasonable notice and under reasonable circumstances.

(b) The Trustee shall provide to the City each month a report of any Bond proceeds received during that month, if any, and the amounts deposited into each Fund, Account and Subaccount held by it under this Indenture and the amount disbursed from such Funds, Accounts and Subaccounts, the earnings thereon, the ending balance in each of such Funds, Accounts and Subaccounts and the investments of each such Fund, Account and Subaccount.

ARTICLE X

MODIFICATION OF THIS INDENTURE

Section 10.01. Limitations. This Indenture shall not be modified or amended in any respect subsequent to the first delivery of fully executed and authenticated Bonds except as provided in and in accordance with and subject to the provisions of this Article X.

Section 10.02. Supplemental Indentures Not Requiring Consent of Bondholders.

The City may, from time to time and at any time, without the consent of or notice to the Bondholders, execute and deliver Supplemental Indentures supplementing and/or amending this Indenture or any Supplemental Indenture as follows:

- (a) to provide for the issuance of a Series or multiple Series of Bonds under the provisions of Section 2.09 hereof and to set forth the terms of such Bonds and the special provisions which shall apply to such Bonds;
- (b) to cure any formal defect, omission, inconsistency or ambiguity in, or answer any questions arising under, this Indenture or any Supplemental Indenture, provided such supplement or amendment is not materially adverse to the Bondholders;
- (c) to add to the covenants and agreements of the City in this Indenture or any Supplemental Indenture other covenants and agreements, or to surrender any right or power reserved or conferred upon the City, provided such supplement or amendment shall not adversely affect the interests of the Bondholders;
- (d) to confirm, as further assurance, any interest of the Trustee in and to the pledge of Net Revenues or in and to the Funds, Accounts and Subaccounts held by the Trustee or in and to any other moneys, securities or funds of the City provided pursuant to this Indenture or to otherwise add additional security for the Bondholders;
- (e) to evidence any change made in the terms of any Series of Bonds if such changes are authorized by the Supplemental Indenture at the time the Series of Bonds is issued and such change is made in accordance with the terms of such Supplemental Indenture;
- (f) to comply with the requirements of the Trust Indenture Act of 1939, as amended from time to time;
- (g) to modify, alter, amend or supplement this Indenture or any Supplemental Indenture in any other respect which is not materially adverse to the Bondholders;
- (h) to provide for uncertificated Bonds or for the issuance of coupons and bearer Bonds or Bonds registered only as to principal;
- (i) to qualify the Bonds or a Series of Bonds for a rating or ratings from a Rating Agency;
- (j) to accommodate the technical, operational and structural features of Bonds which are issued or are proposed to be issued, including, but not limited to, changes needed to accommodate commercial paper, auction bonds, swaps, variable rate or adjustable rate bonds, discounted or compound interest bonds or other forms of indebtedness which the City from time to time deems appropriate to incur;

(k) to make modifications or adjustments necessary, appropriate or desirable to accommodate the use of a Credit Facility or Liquidity Facility for specific Bonds or a specific Series of Bonds;

(l) to provide for the issuance of the Bonds pursuant to a book-entry system or as uncertified registered public obligations pursuant to the provisions of the Registered Public Obligations Act, Chapter 7 of Title 15 of the Utah Code Annotated 1953, as amended, or any successor provision of the law;

(m) to comply with the requirements of the Code as are necessary, in the opinion of Bond Counsel, to prevent the federal income taxation of the interest on the Bonds, including, without limitation, the segregation of Revenues into different funds; and

(n) for any other purpose that does not materially and adversely affect the interests of the Owners of the Bonds.

Before the City shall, pursuant to this Section 10.02, execute any Supplemental Indenture, there shall have been delivered to the City and Trustee an opinion of Bond Counsel to the effect that such Supplemental Indenture: (y) is authorized or permitted by this Indenture and other applicable law, complies with their respective terms, will, upon the execution and delivery thereof, be valid and binding upon the City in accordance with its terms and (z) will not cause interest on any of the Bonds which is then excluded from gross income of the recipient thereof for federal income tax purposes to be included in gross income for federal income tax purposes. The opinion of Bond Counsel required pursuant to clause (z) in the preceding sentence shall not be required for a Supplemental Indenture executed and delivered in accordance with Section 10.02(a) hereof.

Section 10.03. Supplemental Indenture Requiring Consent of Bondholders.

(a) Except for any Supplemental Indenture entered into pursuant to Section 10.02 hereof and any Supplemental Indenture entered into pursuant to Section 10.03(b) below, subject to the terms and provisions contained in this Section 10.03 and Article XI hereof and not otherwise, the holders of not less than 51% in aggregate Principal Amount of the Bonds then Outstanding shall have the right from time to time to consent to and approve the execution by the City of any Supplemental Indenture deemed necessary or desirable by the City for the purposes of modifying, altering, amending, supplementing or rescinding any of the terms or provisions contained in this Indenture or in a Supplemental Indenture; provided, however, that, unless approved in writing except as otherwise provided herein, by the holders of all the Bonds then Outstanding or unless such change affects less than all Series of Bonds and the following subsection (b) is applicable, nothing herein contained shall permit, or be construed as permitting, (i) a change in the scheduled times, amounts or currency of payment of the principal of or interest on any Outstanding Bonds, or (ii) a reduction in the principal amount or redemption price of any Outstanding Bonds or the rate of interest thereon, or (iii) provided that nothing herein contained, including the provisions of subsection (b) below, shall, unless approved in writing by the holders of all the Bonds then Outstanding, permit

or be construed as permitting the creation of a lien (except as expressly permitted by this Indenture) upon or pledge of the Net Revenues created by this Indenture, ranking prior to or on a parity with the claim created by this Indenture, or (iv) except with respect to additional security which may be provided for a particular Series of Bonds, a preference or priority of any Bond or Bonds over any other Bond or Bonds with respect to the security granted therefor under the Granting Clauses hereof, or (v) a reduction in the aggregate Principal Amount of Bonds the consent of the Bondholders of which is required for any such Supplemental Indenture. Nothing herein contained, however, shall be construed as making necessary the approval by Bondholders of the execution of any Supplemental Indenture as authorized in Section 10.02 hereof, including the granting, for the benefit of particular Series of Bonds, security in addition to the pledge of the Net Revenues.

(b) The City may, from time to time and at any time, execute a Supplemental Indenture which amends the provisions of an earlier Supplemental Indenture under which a Series or multiple Series of Bonds were issued. If such Supplemental Indenture is executed for one of the purposes set forth in Section 10.02 hereof, no notice to or consent of the Bondholders shall be required. If such Supplemental Indenture contains provisions which affect the rights and interests of less than all Series of Bonds Outstanding and Section 10.02 hereof is not applicable, then this subsection (b) rather than subsection (a) above shall control and, subject to the terms and provisions contained in this subsection (b) and Article XI hereof and not otherwise, the holders of not less than 51% in aggregate Principal Amount of the Bonds of all Series which are affected by such changes shall have the right from time to time to consent to any Supplemental Indenture deemed necessary or desirable by the City for the purposes of modifying, altering, amending, supplementing or rescinding any of the terms or provisions contained in such Supplemental Indenture and affecting only the Bonds of such Series; provided, however, that, unless approved in writing except as otherwise provided herein, by the holders of all the Bonds of all the affected Series then Outstanding, nothing herein contained shall permit, or be construed as permitting, (i) a change in the scheduled times, amounts or currency of payment of the principal of or interest on any Outstanding Bonds of such Series or (ii) a reduction in the principal amount or redemption price of any Outstanding Bonds of such Series or the rate of interest thereon. Nothing herein contained, however, shall be construed as making necessary the approval by Bondholders of the adoption of any Supplemental Indenture as authorized in Section 10.02 hereof, including the granting, for the benefit of particular Series of Bonds, security in addition to the pledge of the Net Revenues.

(c) If at any time the City shall desire to enter into any Supplemental Indenture for any of the purposes of this Section 10.03, the City shall cause notice of the proposed execution of the Supplemental Indenture to be given by Mail (or such other approved delivery method) to all Bondholders or, under subsection (b), all Bondholders of the affected Series. Such notice shall briefly set forth the nature of the proposed Supplemental Indenture and shall state that a copy thereof is on file at the office of the City for inspection by all Bondholders and it shall not be required that the Bondholders approve the final form of such Supplemental Indenture but it shall be sufficient if such Bondholders approve the substance thereof.

(d) The City may execute and deliver such Supplemental Indenture in substantially the form described in such notice, but only if there shall have first been delivered to the City (i) the required consents, in writing, of Bondholders and (ii) the opinion of Bond Counsel required by the last paragraph of Section 10.02 hereof.

(e) If Bondholders of not less than the percentage of Bonds required by this Section 10.03 shall have consented to and approved the execution and delivery thereof as herein provided, no Bondholders shall have any right to object to the execution of such Supplemental Indenture, or to object to any of the terms and provisions contained therein or the operation thereof, or in any manner to question the propriety of the execution and delivery thereof, or to enjoin or restrain the City from executing the same or from taking any action pursuant to the provisions thereof.

(f) Notwithstanding subsections (c) through (e) above, the City may, at its discretion, execute and deliver such Supplemental Indenture which contains such modifications, alterations, amendments or supplements prior to receipt of the required consents in writing, of the Bondholders; provided, that such Supplemental Indenture or the applicable provisions of such Supplemental Indenture subject to the consents of the Holders shall not become effective until such time as there has been delivered to the City (i) the required consents, in writing, of Bondholders and (ii) the opinion of Bond Counsel required by the last paragraph of Section 10.02 hereof. In the event the City decides to execute and deliver a Supplemental Indenture in accordance with this subsection (f), the notice required in subsection (c) shall make reference to a final and executed Supplemental Indenture as opposed to a proposed Supplemental Indenture.

(g) For the purposes of this Section 10.03 the purchasers of the Bonds of a Series, whether purchasing as underwriters, for resale or otherwise, upon such purchase from the City, may consent to a modification or amendment permitted by this Section 10.03 in the manner provided herein and with the same effect as a consent given by the Owner of such Bonds, except that no proof of ownership shall be required; provided, that this provision of Section 10.03 shall be disclosed prominently in the offering document, if any, for each Series of Bonds issued pursuant to this Indenture, provided that, if such consent is given by a purchaser who is purchasing as an underwriter or for resale, the nature of the modification or amendment and the provisions for the purchaser consenting thereto shall be described in the offering document prepared in connection with the primary offering of the Bonds of such Series by the City.

Section 10.04. Effect of Supplemental Indenture. Upon execution and delivery of any Supplemental Indenture pursuant to the provisions of this Article X, this Indenture or the Supplemental Indenture shall be, and shall be deemed to be, modified and amended in accordance therewith, and the respective rights, duties and obligations under this Indenture and the Supplemental Indenture of the City, the Trustee, the Paying Agent, the Registrar and all Bondholders and beneficial owners shall thereafter be determined, exercised and enforced under this Indenture and the Supplemental Indenture, if applicable, subject in all respects to such modifications and amendments.

No Supplemental Indenture shall modify the duties, rights or obligations of the Trustee, Paying Agent or Registrar without the consent of such party thereto.

Section 10.05. Supplemental Indentures to be Part of this Indenture. Any Supplemental Indenture entered into accordance with the provisions of this Article X shall thereafter form a part of this Indenture or the Supplemental Indenture which they supplement or amend, and all of the terms and conditions contained in any such Supplemental Indenture as to any provision authorized to be contained therein shall be and shall be deemed to be part of the terms and conditions of this Indenture or the Supplemental Indenture which they supplement or amend for any and all purposes.

ARTICLE XI

CREDIT PROVIDERS

If a Credit Facility is provided for a Series of Bonds or for specific Bonds, the City may in the Supplemental Indenture under which such Bonds are issued, provide any or all of the following rights to the Credit Provider as the City shall deem to be appropriate:

(a) the right to make requests of, direct or consent to the actions of the Trustee or to otherwise direct proceedings all as provided in Article VIII hereof to the same extent and in place of the Owners of the Bonds which are secured by the Credit Facility and for such purposes the Credit Provider shall be deemed to be the Holder of such Bonds;

(b) the right to act in place of the Owners of the Bonds which are secured by the Credit Facility for purposes of removing a Trustee or appointing a Trustee under Article IX hereof; and

(c) the right to consent to Supplemental Indentures to the same extent and in place of the Holders of the Bonds, which require the consent of the Holders of not less than 51% of the aggregate Principal Amount of the Bonds, entered into pursuant to Section 10.03 hereof, except with respect to any amendments described in Sections 10.03(a)(i) through (v) and 10.03(b)(i) or (ii) hereof which consent of the actual Holders shall still be required, of this Indenture to the same extent and in place of the Holders of the Bonds which are secured by the Credit Facility and for such purposes the Credit Provider shall be deemed to be the Holder of such Bonds.

The rights granted to any such Credit Provider, with respect to the provisions of Articles VIII and XI hereof shall be disregarded and be of no effect if the Credit Provider is in default of its payment obligations under its Credit Facility or fails to maintain its rating at a level higher than the underlying rating on the Bonds.

ARTICLE XII

MISCELLANEOUS PROVISIONS

Section 12.01. Parties in Interest. Except as otherwise specifically provided herein, nothing in this Indenture expressed or implied is intended or shall be construed to confer upon any person, firm or corporation other than the City, the Trustee, the Paying Agent, other agents from time to time hereunder, the Bondholders and, to the limited extent provided by Supplemental Indenture, the Credit Providers any right, remedy or claim under or by reason of this Indenture, this Indenture being intended to be for the sole and exclusive benefit of the City, the Trustee, the Paying Agent, such other agents, the Bondholders and, to the limited extent provided in the applicable Supplemental Indenture, the Credit Providers.

Section 12.02. Severability. In case any one or more of the provisions of this Indenture, or of any Bonds issued hereunder shall, for any reason, be held to be illegal or invalid, such illegality or invalidity shall not affect any other provisions of this Indenture or of Bonds, and this Indenture and any Bonds issued hereunder shall be construed and enforced as if such illegal or invalid provisions had not been contained herein or therein.

Section 12.03. No Personal Liability of City Members and Officials; Limited Liability of City to Bondholders. No covenant or agreement contained in the Bonds or in this Indenture shall be deemed to be the covenant or agreement of any present or future Council member, official, officer, agent or employee of the City, the Department of Airports or the Airport System, in their individual capacity, and neither the members of the Council, the officers and employees of the City, nor any person executing the Bonds shall be liable personally on the Bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

Section 12.04. Execution of Instruments; Proof of Ownership. Any request, direction, consent or other instrument in writing required or permitted by this Indenture to be signed or executed by Bondholders or on their behalf by an attorney-in-fact may be in any number of concurrent instruments of similar tenor and may be signed or executed by such Bondholders in person or by an agent or attorney-in-fact appointed by an instrument in writing or as provided in the Bonds. Proof of the execution of any such instrument and of the ownership of Bonds shall be sufficient for any purpose of this Indenture and shall be conclusive in favor of the Trustee with regard to any action taken by it under such instrument if made in the following manner:

(a) The fact and date of the execution by any person of any such instrument may be proved by the certificate of any officer in any jurisdiction who, by the laws thereof, has power to take acknowledgments within such jurisdiction, to the effect that the person signing such instrument acknowledged before him the execution thereof, or by an affidavit of a witness to such execution.

(b) The ownership of Bonds shall be proved by the registration books kept under the provisions of Section 2.04 hereof.

Nothing contained in this Section 12.04 shall be construed as limiting the Trustee to such proof. The Trustee may accept any other evidence of matters herein stated which it may deem sufficient. Any request, consent of, or assignment by any Bondholder shall bind every future Bondholder of the same Bonds or any Bonds issued in lieu thereof in respect of anything done by the Trustee or the City in pursuance of such request or consent.

Section 12.05. System of Registration. This Indenture shall constitute a system of registration within the meaning and for all purposes of the Registered Public Obligations Act, Chapter 7 of Title 15, Utah Code Annotated 1953, as amended.

Section 12.06. Plan of Financing. This Indenture shall constitute a plan of financing within the meaning and for all purposes of the Act.

Section 12.07. Governing Law. The laws of the State shall govern the construction and enforcement of this Indenture and of all Bonds issued hereunder.

Section 12.08. Notices. Except as otherwise provided in this Indenture, all notices, certificates, requests, requisitions or other communications by the City, the Trustee, the Paying Agent, the Registrar, other agents or a Credit Provider, pursuant to this Indenture shall be in writing and shall be sufficiently given and shall be deemed given when mailed by registered mail, postage prepaid, addressed as follows: if to the City, to the Salt Lake City Department of Airports, Attention: Executive Director of Airports, by delivery or by mail, P.O. Box 145550, Salt Lake City, Utah, 84114-5550, with a copy to the City Attorney at the same address; if to the Trustee, to Wilmington Trust, National Association, 650 Town Center Drive, Suite 600, Costa Mesa, California 92626, Attention: Corporate Trust Department, if to a Paying Agent, or another agent, to such address as is designated in writing by it to the Trustee and the City. Any of the foregoing may, by notice given hereunder to each of the others, designate any further or different addresses to which subsequent notices, certificates, requests or other communications shall be sent hereunder.

Section 12.09. Holidays. If the date for making any payment or the last date for performance of any act or the exercising of any right, as provided in this Indenture, shall not be a Business Day, such payment may, unless otherwise provided in this Indenture or, with respect to any Series of Bonds or portion of Series of Bonds, provided in the Supplemental Indenture under which such Bonds are issued, be made or act performed or right exercised on the next succeeding Business Day with the same force and effect as if done on the nominal date provided in this Indenture; provided that no interest shall accrue between the scheduled date of payment and the actual date of payment.

Section 12.10. Counterparts. This Indenture may be signed in several counterparts. Each will be an original, but all of them together constitute the same instrument.

Section 12.11. Representation Regarding Ethical Standards for City Officers and Employees and Former City Officers and Employees. The Trustee represents that it has not: (a) provided an illegal gift or payoff to a City officer or employee or former City officer or employee, or his or her relative or business entity; (b) retained any person to solicit or secure the Trustee's appointment under this Indenture upon an agreement or understanding for a

commission, percentage, brokerage or contingent fee, other than bona fide employees or bona fide commercial selling agencies for the purpose of securing business; (c) knowingly breached any of the ethical standards set forth in the City's conflict of interest ordinance, Chapter 2.44 of the City Code; or (d) knowingly influenced, and hereby promises that it will not knowingly influence, a City officer or employee or former City officer or employee to breach any of the ethical standards set forth in the City's conflict of interest ordinance, Chapter 2.44 of the City Code.

AIRLINE USE AGREEMENT

THIS AIRLINE USE AGREEMENT (as amended, modified or altered from time to time, the "Agreement") is made and entered into this 1st day of July, 2014 by and between Salt Lake City Corporation, a municipal corporation of the State of Utah, and Delta Air Lines, Inc., a corporation organized and existing under the laws of Delaware and authorized to do business in the State of Utah ("Airline").

WITNESSETH:

WHEREAS, City has the ownership, custody, control and management of the Salt Lake City International Airport (as it now exists or hereafter may be extended, the "Airport," the approximate boundaries of which are shown on Exhibit A, including all real property easements or any other interests therein as well as all improvements and appurtenances thereto, structures, buildings, fixtures, and all tangible personal property or interest in any of the foregoing, now or hereafter owned, leased, or operated by City) located in Salt Lake County, State of Utah, as well as the ownership, custody, control and management of South Valley Regional Airport in West Jordan, Salt Lake County, Utah, and Tooele Valley Airport in Tooele, Tooele County, Utah (the "Reliever Airports"); and

WHEREAS, the Salt Lake City Department of Airports ("SLCDA") operates, maintains, improves and promotes the Airport and the Reliever Airports on behalf of the City; and

WHEREAS, City has the right to lease, license, or otherwise provide for the use of the land, property and facilities of the Airport and has full power and authority to enter into this Agreement in respect thereof; and

WHEREAS, Airline is duly certificated by the United States Department of Transportation, Federal Aviation Administration, and is engaged in the business of transportation by air of persons, property, mail, parcels and/or cargo; and

WHEREAS, Airline desires to lease certain premises and obtain certain rights, services and privileges in connection with the use of the Airport and its facilities, and City is willing to grant and lease the same to Airline upon the terms and conditions hereinafter stated; and

WHEREAS, City, Airline and all Air Carriers (as defined below) currently operating at the Airport that are represented by the Airport-Airline Affairs Committee have negotiated the terms of this Agreement and intend to terminate all currently effective Airline Use Agreements and Airline Operating Agreements effective as of June 30, 2014 and as more specifically provided in this Agreement; and

WHEREAS, Airline and City agree to enter into this Agreement specifying the rights and obligations of the parties with respect to the use and occupancy of the Airport by Airline;

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements herein contained, City and Airline do hereby mutually undertake, promise and agree, each for itself and its successors and assigns, as follows:

Article 1 Definitions

The following words, terms and phrases wherever used in this Agreement shall for the purposes of this Agreement have the following meanings:

1.01 *Adjustment-to-Actual* shall mean the annual adjustments made in accordance with Section 8.06.

1.02 *Affiliate* shall mean any Non-Signatory Airline that provides passenger service and that:

1.02.1 Is designated by Airline to the City as its Affiliate in accordance with Section 5.03, and

1.02.2 Has executed an Operating Agreement containing insurance, indemnification and other standard provisions as required by the City; and either:

(a) is operating at the Airport for the benefit of Airline, under the same or substantially similar livery as Airline, and (i) is owned by Airline, or (ii) is a subsidiary of the same corporate parent as Airline, or (iii) is under contract to Airline in respect of such operation; or

(b) is operating under its own livery at the Airport, is not selling any seats on an aircraft in its own name and all seats on such aircraft are being sold in the name of Airline; or

(c) is operating at the Airport under Airline's two-letter designator code and its own two-letter designator code, but is not headquartered in the United States.

1.03 *Air Carrier* shall mean a carrier certificated by the Secretary of Transportation as a Passenger Carrier under 49 U.S.C. § 41102 or a Cargo Carrier under 49 U.S.C. § 41103.

1.04 *Air Transportation Business* shall mean that business operated by Airline at the Airport for the commercial transportation by air of persons, property, mail, parcels and/or cargo.

1.05 *Airfield* shall mean those portions of the Airport provided for the landing, taking off, and taxiing of aircraft, including without limitation approach and turning zones, clear zones, avigation or other easements, runways, a fully integrated taxiway system, runway and taxiway lights, GSE Storage Areas, and other appurtenances related to the aeronautical use of the Airport, including any airfield property purchased for noise or other environmental mitigation purposes.

1.06 *Airfield Cost and Revenue Center* shall include the allocated share of Debt Service; direct, indirect and general administrative Operating Expenses; Renewal and Replacement Costs; the Coverage Amount Requirement; required reserve deposits; and all Revenues attributable to the Airfield as identified in Exhibit B.

1.07 *Airfield Revenue Requirement* shall mean the amount that includes all direct and indirect costs less certain revenues as defined in and in accordance with Section 8.02.1.

1.08 *Airline* shall mean the Passenger Carrier signing this Agreement.

1.09 *Airline Premises* shall mean those areas at the Airport assigned to Airline or any other Passenger Carrier as Exclusive Use Premises, Preferential Use Premises, Joint Use Premises

and Common Use Premises, as shown on Exhibit A. When required, these exhibits will be revised in accordance with changes in the assignment of areas as provided by this Agreement.

1.10 *Airline Revenue Requirement* shall mean the sum of the Airfield Revenue Requirement and the Terminal Revenue Requirement.

1.11 *Airline Technical Representative* shall mean the person designated by the Chair of the AAAC to represent the AAAC in matters pertaining to the Project as specified in Section 10.06.3.

1.12 *Airport-Airline Affairs Committee* (“AAAC”) shall mean collectively the authorized representatives of each Signatory Airline that shall meet from time to time with representatives of City to receive information and provide input from the Signatory Airlines with regard to selected operational and development matters at the Airport.

1.13 *Annual Adjusted Gross Revenue* shall mean rent, concession fees or similar charges actually received during any Fiscal Year by the City from Selected Concessions. Annual Adjusted Gross Revenue shall not include sales taxes, utility fees, consortium fees, key money, Customer Facilities Charges or other similar “pass through” charges.

1.14 *Auto Rental Concessions* shall mean all auto rental companies or other business organizations operating pursuant to concession agreements with the City.

1.15 *Balanced Facility Requirement* shall mean the following minimum space that a Passenger Carrier must lease to qualify as a Signatory Airline hereunder: (a) one (1) gate (b) two (2) Ticket Counter positions, and (c) airline ticket office, bag make up, bag office or other space deemed part of the Balanced Facility Requirement by the Executive Director.

1.16 *Bonds* shall have the meaning provided for in the Master Trust Indenture.

1.17 *Capital Investment* shall mean an expenditure made to acquire, purchase or construct a single capital item or project for the purpose of improving, maintaining or developing the Airport and shall include expenses incurred for acquisition, development, study, analysis, review, design, or capital planning efforts.

1.18 *Capital Outlay* shall mean an expenditure of no more than one hundred thousand dollars (\$100,000) for fixtures, furnishings or equipment net of grants-in-aid and PFCs.

1.19 *Cargo Aircraft Aprons* shall mean those areas of the Airport that are primarily designated for the parking of cargo aircraft and support vehicles and the loading and unloading of cargo aircraft.

1.20 *Cargo Carrier* shall mean a carrier certificated by the Secretary of Transportation as a Cargo Carrier under 49 U.S.C. § 41103.

1.21 *Chargeable Landing* shall mean all Revenue Landings and Non-Revenue Landings.

1.22 *City* shall mean the Salt Lake City Corporation, a municipal corporation of the State of Utah, and the person, division, department, bureau, or agency as may from time to time be expressly designated by the City to exercise functions equivalent or similar to those now exercised by the City with respect to rights and obligations of City under this Agreement.

1.23 *City Council* shall mean the City Council of City.

1.24 *Common Use* shall mean shared use of areas by Airline and one or more other Passenger Carriers.

1.25 *Common Use Premises* shall mean those areas of the Terminal, including without limitation Common Use Gates, Common Use Ticket Counters, Common Use Skycap Positions and baggage areas, not assigned on an Exclusive Use, Joint Use or Preferential Use basis (excluding Public Space) but rather used in common by Airline and one or more other Passenger Carriers.

1.26 *Cost and Revenue Centers* shall mean those areas or functional activities of the Airport used for the purposes of accounting for Revenues, Operating Expenses, Renewal and Replacement Costs, Capital Investments and Debt Service as identified in Exhibit B.

1.27 *Coverage Amount Requirement* shall mean: the amount which is necessary to be deposited in the Rolling Coverage Account in order for the City to have on deposit therein (i) with respect to any Debt Service due and payable in the current Fiscal Year on Bonds, an amount equal to twenty-five percent (25%) of such Debt Service, and (ii) with respect to Debt Service due and payable in the current Fiscal Year on Subordinated Indebtedness, an amount equal to the amount by which the Revenues available to pay such Subordinated Indebtedness are required to exceed the Debt Service due and payable in the current Fiscal Year on such Subordinated Indebtedness pursuant to the applicable Subordinated Financing Agreement.

1.28 *Customer Facility Charges* (“CFCs”) shall mean fees imposed for non-aeronautical use of the Airport for the purpose of funding non-aeronautical facilities at the Airport, such as a consolidated rental car facility, as such fees may be altered from time to time during the Term of this Agreement.

1.29 *Date of Beneficial Occupancy* (“DBO”) shall mean the date when a project or phased component of a project has been completed and the Executive Director determines that it is available for use by Air Carriers.

1.30 *Debt Service* shall have the meaning described in the Master Trust Indenture, Subordinated Financing Agreement and Other Indebtedness agreements.

1.31 *Debt Service Reserve Funds* shall mean such funds established and maintained pursuant to the Master Trust Indenture, Subordinated Financing Agreement and Other Indebtedness agreements.

1.32 *Deplaned Passenger* shall mean any passenger disembarking an aircraft, including any such passenger that shall subsequently board another aircraft of the same or a different Passenger Carrier or the same aircraft previously operating under a different flight number.

1.33 *DOT* shall mean the United States Department of Transportation.

1.34 *EGSE* shall mean GSE powered by electricity or any other alternative fuel eligible for AIP funding under the FAA’s Voluntary Airport Low Emission Program,

1.35 *Enplaned Passenger* shall mean any passenger boarding an aircraft, including any such passenger that previously disembarked from another aircraft of the same or a different Passenger Carrier or from the same aircraft previously operating under a different flight number.

1.36 *Environmental Laws* shall mean and include all applicable federal, state, and local laws, statutes, ordinances, regulations, decrees, and/or rules currently in effect or which may come into effect during the Term of this Agreement, as may be amended from time to time, and all implementing regulations, orders, and applicable federal or applicable state court decisions interpreting, relating to, regulating or imposing liability (including, but not limited to, response, removal, remediation and damage costs) or standards of conduct or performance relating to industrial hygiene, occupational health and/or safety conditions, environmental conditions, or exposure to, contamination by, or clean-up of, any and all Hazardous Materials, including without limitation, all applicable federal or state superlien or environmental clean-up statutes.

1.37 *Exclusive Use Premises* shall mean any office space, storage area, VIP lounge, employee break room or other area of the Terminal designated by City for exclusive use by Airline as shown on Exhibit A.

1.38 *Executive Director* shall be the Executive Director of SLCDA and shall include such person or persons as may from time to time be authorized in writing by City or by the Executive Director or applicable law to act for the Executive Director with respect to any or all matters pertaining to this Agreement.

1.39 *FAA* shall mean the Federal Aviation Administration or its authorized successor(s).

1.40 *Fiscal Year* shall mean the annual accounting period of City for its general accounting purposes, which, at the time of entering into this Agreement, is the period of 12 consecutive months ending with the last day of June of any year.

1.41 *Gate* shall mean those portions of the Terminal individually comprised of a passenger loading bridge, if any, a passenger holdroom and a Gate Apron.

1.42 *Gate Apron* shall mean the ramp area associated with a Gate.

1.43 *GSE* shall mean ground support equipment to include belt loaders, baggage tugs, and push back tractors that are used primarily to facilitate airline operations at the gate or to transport baggage within or from the bag room and among arriving and departing aircraft.

1.44 *GSE Storage Areas* shall mean those areas of the Airport that are primarily designated for the storage of ground support equipment and are shown on Exhibit A.

1.45 *Hazardous Materials* shall mean any and all substances, products, by-products, waste, or other materials of any nature or kind whatsoever which (a) are or become listed or regulated under any Environmental Laws; (b) give rise to liability under any Environmental Laws or any statutory or common law theory based on negligence, trespass, intentional tort, nuisance, strict or absolute liability or under applicable reported decisions of state or federal court; or (c) which may be hazardous or harmful to the air, water, soil or environment or affect industrial hygiene, occupational health or safety, including without limitation, petroleum and/or asbestos materials, products, by-products, or waste.

1.46 *In-Terminal Concessions* shall include, but not be limited to, companies or other business organizations that (i) sell consumable food or beverage items, excluding automated vending operations, (ii) sell retail or news products, excluding automated vending items, or services, or (iii) advertise to the traveling public at the Terminal, pursuant to concession agreements with the City.

1.47 *Investment Service* shall mean those annual charges for payments of Debt Service and associated Debt Service coverage plus annual charges for amortization of Capital Investments funded by Net Remaining Revenues.

1.48 *Joint Use Premises* shall mean those areas of the Terminal that are used jointly by Airline and one or more other Passenger Carriers and are shown on Exhibit A.

1.49 *Landing Fee* shall mean a fee expressed in dollars and cents per thousand pounds of the Maximum Gross Landed Weight of each type of Airline's aircraft and shall be multiplied by the total of all Maximum Gross Landed Weight for all Chargeable Landings of each type of aircraft landed at the Airport by Airline.

1.50 *Master Trust Indenture* shall mean the trust agreement by and between City and the Trustee that provides for the issuance of senior lien Airport revenue Bonds, as supplemented by additional or supplemental resolutions and supplemental trust agreements.

1.51 *Maximum Gross Landed Weight* shall mean the maximum gross certificated landing weight in one thousand pound units for each aircraft operated at the Airport by Airline as certificated by the FAA or its successor.

1.52 *Net Bond Proceeds* shall mean the amount of the proceeds of any Bonds, Subordinated Indebtedness or Other Indebtedness that is available for construction or acquisition of projects, net of costs of issuance, reserve amounts, capitalized interest, discount or other amounts paid from Bond, Subordinated Indebtedness or Other Indebtedness proceeds.

1.53 *Net Remaining Revenues* shall mean, for a given Fiscal Year, the amount equal to Revenues less Operating Expenses less Debt Service less the Coverage Amount Requirement (for the current Fiscal Year), if any, less required reserve deposits and other required fund deposits or other payments described in the Master Trust Indenture, Subordinate Financing Agreements and Other Indebtedness agreements.

1.54 *Non-Revenue Landing* shall mean any aircraft landed by Airline at the Airport for a flight for which Airline receives no revenue.

1.55 *Non-Signatory Airline* shall mean any Air Carrier that has not entered into an Airline Use Agreement with City substantially similar to this Agreement.

1.56 *Open Storage Space* shall mean unimproved, not fully-enclosed space.

1.57 *Operating Agreement* shall mean the agreement executed by City and any Non-Signatory Airline pertaining to such Non-Signatory Airline's operations and use of certain facilities at the Airport.

1.58 *Operating Expenses* shall mean the current expenses, paid or accrued, of operation, maintenance, and ordinary current repairs of the Airport (calculated in accordance with sound accounting principles) and shall include, but not be limited to, insurance premiums, reserves and estimated costs; salaries and wages; benefits; fees for services; costs of materials, supplies and fuel; overhead; letter of credit fees; broker-dealer fees; auction agent fees; trustee fees; bond administration expenses; arbitrage rebate calculation and payment requirements and other similar costs; administrative expenses of City relating solely to the Airport, including engineering, architectural, legal, consultants, and accounting fees and expenses; and other reasonable current expenses calculated in accordance with sound accounting principles as provided above. Operating Expenses shall not include depreciation, costs of capital additions, replacements, betterments, extensions or improvements to the Airport, which under generally accepted accounting principles are chargeable to a capital account or to a reserve for depreciation, charges for the payment of principal and interest on any indebtedness heretofore or hereafter issued for Airport purposes, or any operating expenses of special purpose facilities buildings where the lessees thereof are obligated to pay such operating expenses.

1.59 *Operation and Maintenance Reserve Fund* shall mean the fund as described in the Master Trust Indenture and Section 8.10.2.

1.60 *Operation and Maintenance Reserve Requirement* means for any Fiscal Year, an amount equal to one sixth of the amount budgeted for Operating Expenses by SLCDA in its annual budget for such Fiscal Year.

1.61 *Other Available Funds* shall mean Other Moneys Available for Debt Service and Other Pledged Revenues.

1.62 *Other Indebtedness* shall mean any debt incurred by City for Airport purposes that is outstanding and not authenticated and delivered under and pursuant to the Master Trust Indenture or any Subordinated Financing Agreement and ranks junior and subordinate to the Bonds and Subordinated Indebtedness.

1.63 *Other Moneys Available for Debt Service* shall have the meaning described in the Master Trust Indenture.

1.64 *Other Pledged Revenues* shall have the meaning described in the Master Trust Indenture.

1.65 *Passenger Carrier* shall mean an air carrier certificated by the Secretary of Transportation as a Passenger Carrier under 49 U.S.C. § 41102.

1.66 *Passenger Facility Charges ("PFCs")* shall mean the fees authorized by 49 U.S.C. § 40117 and regulated by 14 C.F.R. Part 158 as such statute and regulations currently exist or as they may be amended during the Term of this Agreement.

1.67 *Period of Use* for a Scheduled Operation shall mean the period of time that an Airline is authorized to use a Gate or a Ticket Counter for a scheduled arrival and/or departure pursuant to the Rules and Regulations.

1.68 *Preferential Use* of a Gate or Ticket Counter shall mean scheduling preference, over similar operations by another Scheduled Airline, given to a Signatory Airline for the use of a Gate or Ticket Counter during applicable Periods of Use for its Scheduled Operations.

1.69 *Preferential Use Premises* shall mean those portions of the Terminal and Terminal Aircraft Aprons, as shown in Exhibit A, to which Airline shall have priority of use over other Passenger Carriers, subject to the provisions of Article 7.

1.70 *Program Director* shall mean Michael P. Williams of Making Projects Work, Inc., a Georgia corporation, or a successor third-party project manager designated by the Executive Director from time to time.

1.71 *The Project* shall mean the Terminal Redevelopment Project described in Section 10.06 and Exhibit H-1.

1.72 *Public Space* shall mean all utility rooms, ductways, janitorial rooms and closets, stairways, hallways, elevators, escalators, entrance-ways, public lobbies and areas, public toilet areas and other areas used for the operation, maintenance or security of the Terminal, even if used solely by City, as shown on Exhibit A.

1.73 *Relocation Costs* shall mean all moving costs funded by City under Section 4.05.1 that result from City-initiated moves of any Signatory Airline to facilitate construction of The Project or from moves of any Signatory Airline upon completion of The Project.

1.74 *Rentable Airline Space* shall mean the number of square feet of space in the Terminal that is rentable to Air Carriers, but excluding Open Storage Space.

1.75 *Rentable Terminal Space* shall mean the number of square feet of space in the Terminal that is rentable to tenants, including office and administrative space used by the City, but excluding Open Storage Space.

1.76 *Renewal and Replacement Reserve Fund* shall mean the fund established and maintained pursuant to the Master Trust Indenture and Section 8.10.1.

1.77 *Renewal and Replacement Fund Requirement* shall mean for any Fiscal Year, the amount, if any, as may be required from time to time to be on deposit in the Renewal and Replacement Reserve Fund in accordance with Section 8.10.1.

1.78 *Requesting Airline* shall mean a Scheduled Airline without adequate Gate or Ticket Counter access desirous of operating from the Airport.

1.79 *Revenue Landing* shall mean a landing of any aircraft by Airline at the Airport for which Airline receives Revenue.

1.80 *Revenues* shall mean, for any given period of time, income, revenues, receipts and moneys accrued by City in accordance with generally accepted accounting principles, including investment earnings, from or in connection with the ownership or operation of the Airport or any part thereof or the leasing or use thereof, including any fuel tax refunds received by the City from the State and the proceeds of any insurance covering business interruption loss and Other Available Funds, but excluding:

(a) any money received by or for the account of City from the levy or collection of taxes;

(b) moneys received from the State of Utah or the United States of America to the extent required to be deposited in restricted funds and used for purposes inconsistent with the payment of Debt Service on the Bonds, Subordinated Indebtedness or Other Indebtedness;

(c) lease deposits and security deposits;

(d) moneys required to be paid to the State of Utah or the United States of America pursuant to agreements with City;

(e) moneys received from insurance proceeds or settlements or the sale of or upon the taking by or under the threat of eminent domain of all or any part of the Airport, including easement interests;

(f) proceeds from Bonds, Subordinated Indebtedness or Other Indebtedness issued by City or proceeds from loans, indebtedness or other obligations entered into by City;

(g) moneys or securities received by City as gifts or grants, to the extent the use of such moneys or securities is restricted by the donor or grantor to purposes inconsistent with their use as Revenues under the terms of the Master Trust Indenture;

(h) CFC revenues;

(i) PFC revenues;

(j) any revenues from special purpose facilities that are pledged for the payment of debt service on special facility bonds;

(k) any swap termination or penalty payments paid to the City pursuant to a qualified swap;

(l) any interest subsidy with respect to Bonds, Subordinated Indebtedness and Other Indebtedness paid or payable to or for the account of the City by any governmental body or agency; and

(m) investment earnings on the moneys described in (a) through (l) above.

1.81 *Rolling Coverage Account* shall mean such account established and maintained pursuant to the terms of the Master Trust Indenture.

1.82 *Rules and Regulations* shall mean Airport's Rules and Regulations governing the conduct of operations at the Airport as such Rules and Regulations currently exist or as they may be amended or supplemented during the Term of this Agreement as provided in Section 18.07.

1.83 *Scheduled Airline* shall mean a Passenger Carrier performing Scheduled Operations at the Airport.

1.84 *Scheduled Operation* shall mean a Scheduled Airline's operation (arrival or departure) that occurs pursuant to a schedule that is published in the Official Airline Guide ("OAG") or any successor publication so long as such schedule is made available to City at least forty-five (45) days prior to the commencement or rescheduling of the operation.

1.85 *Selected Concessions* shall mean In-Terminal Concessions and Auto Rental Concessions.

1.86 *Shared Use Equipment* shall mean equipment that is utilized on a shared basis for passenger processing.

1.87 *Signatory Airline* shall mean a Passenger Carrier that (a) signs an agreement with City substantially similar to this Agreement, (b) provides passenger service, and (c) satisfies the Balanced Facility Requirement. If, subsequent to the qualification of a Passenger Carrier as a Signatory Airline, the Passenger Carrier fails to satisfy the criteria set forth above for a period of sixty (60) days after notification from the City of such failure, this Agreement shall automatically terminate and City and Airline shall promptly execute an Operating Agreement.

1.88 *Skycap Positions* shall mean areas designated by the Airport on the Terminal departure curb or as otherwise located for the passenger and baggage check-in process.

1.89 *Space Change Summary Notice* means a notice in the form of Exhibit C. Each Space Change Summary Notice shall be deemed to form a part of this Agreement when executed by the parties and shall not require a formal amendment to this Agreement.

1.90 *Subordinated Financing Agreement* shall mean a bond resolution, trust agreement, indenture or other financing agreement providing for or authorizing the issuance by City of Subordinated Indebtedness, including an agreement related to the security or credit enhancement for the Subordinated Indebtedness, as each may be supplemented or amended from time to time.

1.91 *Subordinated Indebtedness* shall mean any bonds issued pursuant to any Subordinated Financing Agreement and which rank junior and subordinate to the Bonds.

1.92 *Term* shall mean the period of time during which Airline's activities at the Airport shall be governed by this Agreement. Said Term shall begin on the Effective Date as set forth in Article 2 and, except as otherwise set forth in this Agreement, terminate on the termination date set forth in Article 3.

1.93 *Terminal Aircraft Aprons* shall mean those areas of the Airport that are primarily designated for the parking of passenger aircraft and support vehicles and the loading and unloading of passenger aircraft and are shown on Exhibit A.

1.94 *Terminal* shall mean the passenger terminal buildings and the Terminal Aircraft Aprons as displayed in Exhibit A.

1.95 *Terminal Cost and Revenue Center* shall include the allocated share of Debt Service; direct, indirect and general administrative Operating Expenses; Renewal and Replacement Costs; the Coverage Amount Requirement; required reserve deposits; and all Revenues attributable to the Terminal as identified in Exhibit B.

1.96 *Terminal Rents* shall mean the rents effective July 1st of each Fiscal Year as determined according to the methods set forth in Section 8.03.

1.97 *Terminal Revenue Requirement* shall mean the amount that includes all direct and indirect costs less certain Revenues as defined in and in accordance with Section 8.03.1.

1.98 *Ticket Counter* shall mean those areas made available by the Airport for ticketing passengers and receiving baggage. Each Ticket Counter shall include the area fifteen (15) feet in front of each counter for the counter's entire width to accommodate passenger queues.

1.99 *Trustee* shall mean the banking association or corporation, its successors and assigns, administering the trusts created under the Master Trust Indenture.

1.100 *TSA* shall mean the Transportation Security Administration.

1.101 *Turn* shall mean the arrival and subsequent departure of an aircraft at a Gate at the Airport for any reason, including any tow to or from a Gate.

Additional capitalized words and phrases used in this Agreement but not defined herein shall have the meanings set forth in the Master Trust Indenture or, if not so set forth, shall have their usual and customary meanings.

Article 2 Effective Date

2.01 *Effective Date*. This Agreement, along with the determinations of rentals, fees, and charges set forth herein, shall be effective on the later of July 1, 2014 or such date as Airline delivers a duly executed copy of this Agreement to SLCDA (the "Effective Date").

2.02 *Cancellation of Prior Agreements*. At the Effective Date, the Airline Use Agreement between Airline and City dated July 1, 2010, as amended, shall terminate.

Article 3 Term

3.01 *Termination Date*. This Agreement shall commence on the Effective Date and shall terminate at midnight on June 30, 2024 unless canceled sooner as provided herein.

Article 4 Premises

4.01 *Airline Premises*. City does hereby lease and demise to Airline and Airline does hereby lease and accept from City the Exclusive Use Premises, Preferential Use Premises, Joint Use Premises and Common Use Premises designated in Exhibit A on an "as is" basis with all faults. Except as specifically provided otherwise herein, the City does not warrant or represent that the Airline Premises are suitable for the uses contemplated in this Agreement. Airline acknowledges and agrees that the Airline Premises may be revised from time to time during the Term to reflect new assignments and reallocations of space as provided by this Agreement. Any such revisions of Airline Premises shall be reflected in a Space Change Summary Notice.

4.02 *Terminal Equipment*. Terminal equipment owned or acquired by City for use by Airline shall remain the property and under the control of City.

4.03 *Employee Parking*. City will make reasonable efforts to make available area(s) at the Airport for vehicular parking for Airline's personnel employed at the Airport; provided, however, such area(s) shall not be used for: (a) vehicle parking or storage for any period other than such personnel's performance of employment for Airline at the Airport, or (b) parking or storage of trailers, recreational vehicles (RVs) or other oversized vehicles at any time. Usage of any parking area(s) made available by City at the Airport is subject to Article 5 and Article 8 of this Agreement and to the Rules and Regulations.

4.04 *Federal Inspection Services ("FIS") Facilities*. City shall designate areas in the Terminal, or elsewhere on the Airport, to be used by agencies of the United States for the inspection of international passengers and their baggage and for the exercise of the responsibilities of said agencies with respect to the movement of persons, property, and cargo to and from the United States.

4.05 Reallocation of Space.

4.05.1 *City Initiated Reallocations*. From time to time during the term of this Agreement, part or all of the Airline Premises may be required (1) for implementation of improvements at the Airport; (2) for accommodation of the traveling public; or (3) in order to maximize the use of the Terminal and related facilities by Passenger Carriers (including Airline) and other tenants, lessees, permittees, and users thereof. In said event, City shall provide thirty (30) days advance written notice of the Executive Director's decision regarding such reallocation and of the schedule for implementation of such reallocation. Executive Director and Airline may agree to reasonable extensions of time necessary to accommodate said reallocation. Airline hereby agrees to comply with any reallocation requirements. In any such reallocation, the actual, reasonable requirements of Airline for terminal space to accommodate its operations at the Airport shall be given consideration, and City shall use reasonable efforts to satisfy those requirements. All moving costs resulting from relocation of Airline in a City-imposed reallocation of space shall be funded by City, subject to rate recovery under Article 8; provided, however, that Airline shall not be entitled to reimbursement for reallocation of or within Common Use Premises. With respect to any Airline trade fixture and other movable property, if removal from the existing premises and reinstallation at Airline's new premises is possible and not unreasonable, Airline shall not be entitled to a new fixture or to new property; Airline shall, however, remove all trade fixtures and other movable property of Airline from the existing premises whether or not reinstallation is possible. If the Airline Premises is reduced as a result of a reallocation by City, Airline's rent shall be decreased on a per square foot basis, and Airline shall remain a Signatory Airline even if, as a result of a City initiated reallocation, Airline no longer satisfies the Balanced Facility Requirement. If the Airline Premises is enlarged as a result of a reallocation by City under this Section 4.05.1, Airline shall not be required to pay rent for any additional square footage in the Airline Premises.

4.05.2 *Airline Initiated Reallocations*. If during the term of this Agreement Airline requires a reallocation of part or all of the Airline Premises to facilitate its operations at the Airport, Airline may request such a reallocation by submitting a written request to the Executive Director, and the Executive Director may approve or deny any such request in the Executive Director's sole discretion. Except as otherwise provided in Section 10.06.10(c), any such request for reallocation may not include a request for a reduction in the size of the Airline Premises. All costs associated with any reallocation requested by an Airline, including without limitation the costs of the City, shall be funded by Airline, and Airline shall pay Common Use Gate charges for any additional (rather than replacement) Common Use Gates and Preferential Use Gate charges for any additional Preferential Use Gates, if any, that it receives as a result of any such reallocation.

4.05.3 Changes to the Airline Premises as provided in this Section 4.05 may be memorialized by the Executive Director's issuance of a Space Change Summary Notice and shall not require or constitute a formal amendment to this Agreement.

4.05.4 If the number of Preferential Use Gates that are part of the Airline Premises is reduced during the Term of this Agreement as provided in this Article 4, City may terminate, upon thirty (30) days written notice to Airline, Airline's right to use those portions of the Exclusive Use Premises that are no longer proximate to Airline's Preferential Use Gates or that are no longer necessary, in the Executive Director's reasonable discretion, to support Airline's operations at Airline's remaining Preferential Use Gates. In such a situation, the Space Change Summary Notice that is issued by the Executive Director shall document the termination of any portion of Airline's Exclusive Use Premises under this section. Airline's surrender of any such Exclusive Use Premises shall be subject to the terms of Article 15 of this Agreement.

4.05.5 Reallocations of space that occur in conjunction with The Project described in Section 10.06 are subject to the provisions of Section 10.06 to the extent they differ from this Section 4.05.

4.06 *Condemnation.*

4.06.1 In the event that all or a substantial part of the Airline Premises shall be taken by governmental authority through the exercise of the power of eminent domain or other authority justifying such taking, this Agreement shall terminate, the rents, fees and charges in respect to the Airline Premises shall cease as of the date possession is taken by the taking authority, and City shall be entitled to all damages payable by reason of the taking, subject to the claims of Airline for the value of its leasehold, which claims as to validity and amount shall be a matter for determination between Airline and City. If Airline and City cannot reach a determination, then the court having jurisdiction over such proceeding shall be entitled to make the determination, provided that nothing herein contained shall preclude Airline from asserting any claims or rights it may have against such governmental authority as to its separate property, leasehold improvements and trade fixtures.

4.06.2 In the event that a portion of the Airline Premises, but not a substantial part of the Airline Premises, shall be taken by governmental authority through the exercise of the power of eminent domain or other authority justifying such taking, there shall be an equitable and proportional abatement or reduction in the rents payable by Airline hereunder based on the degree to which the portion of the Airline Premises that is taken is related to the total Airline Premises. The City shall promptly expend so much as may be necessary to repair or restore the Airline Premises to a condition that is reasonably suitable to the uses of Airline permitted hereunder, with such changes, alterations, and modifications (including the substitution and addition of other property) as may be agreed upon by City and Airline, and there shall be applied for such purpose so much as may be necessary of any net proceeds received by City because of any such taking, after payment of any expenses of obtaining or recovering such net proceeds, as well as any moneys which City determines to make available from the sale of Bonds, Subordinated Indebtedness or Other Indebtedness. In the event that such net proceeds are insufficient to pay in full the costs of such repair or restoration, City will endeavor to arrange financing through the issuance of Bonds, Subordinated Indebtedness, Other Indebtedness or other means and complete such repair or restoration. In no event shall City have any obligations to make any repairs or restorations under this Section 4.06.2 if prevented from doing so by reason of any cause beyond its reasonable control, including requirements of any applicable laws, codes, ordinances, permit conditions, rules or regulations. Further, City shall not be obligated to

make any repairs or restorations to any portions of the Airline Premises that are constructed or installed by or for some party other than City or are not the property of City.

Article 5 Grant of Rights to Use Airport

5.01 *Airline Rights and Privileges.* In addition to all rights granted elsewhere in this Agreement, Airline shall have the right to use, in common with others so authorized by City, areas (other than areas leased preferentially or exclusively to others), facilities, equipment, and improvements at the Airport for the operation of Airline's Air Transportation Business and all activities reasonably necessary for such operations, including but not limited to:

5.01.1 The landing, taking off, flying over, taxiing, towing, and conditioning of Airline's aircraft and, in areas designated by City, the extended parking, servicing, deicing, loading or unloading, storage, or maintenance of Airline's aircraft and support equipment subject to the availability of space and subject to such reasonable charges and regulations as City may establish; provided, however, Airline shall not permit the use of the Airfield by any aircraft operated or controlled by Airline which exceeds the design strength or capability of the Airfield as described in the then-current FAA-approved Airport Layout Plan ("ALP") or other engineering evaluations performed subsequent to the then-current ALP, including the then-current Airport Certification Manual.

5.01.2 The sale of air transportation tickets and services, the processing of passengers and their baggage for air travel, the sale, handling, and providing of mail, cargo, and express services, and reasonable and customary airline activities.

5.01.3 The training of personnel in the employ of or to be employed by Airline and the testing of aircraft and other equipment being utilized at the Airport in the operation of Airline's Air Transportation Business; provided, however, said training and testing shall be incidental to the use of the Airport in the operation by Airline of its Air Transportation Business and shall not hamper or interfere with the use of the Airport and its facilities by others entitled to the use of same. City reserves the right to restrict or prohibit such training and testing operations which it deems to interfere with the use of the Airport, including excessive noise as reasonably determined by City.

5.01.4 The sale, disposition, or exchange of Airline's aircraft, engines, accessories, gasoline, oil, grease, lubricants, fuel, or other similar equipment or supplies; provided, however, Airline shall not sell or permit to be sold aviation fuels or propellants except (i) to such Air Carrier which is a successor company to Airline or a company that has merged with Airline, (ii) for use in aircraft of others which are being used solely in the operation of Airline's Air Transportation Business, including, but not limited to, Airline's Affiliate(s), or (iii) when a comparable grade and type of fuel desired by others is not available at the Airport except from Airline.

5.01.5 The purchase at the Airport or elsewhere of fuels, lubricants, and any other supplies and services from any person or company, subject to City's right to require that each provider of services and/or supplies to Airline secures a permit from City to conduct such activity at the Airport, pays required fees, and abides by all reasonable rules and regulations established by City. No discriminatory limitations or restrictions shall be imposed by City that interfere with such purchases; provided, however, that nothing in this Agreement shall be construed to permit Airline to store aviation fuels at the Airport. This Agreement grants no right to store aviation fuels; the

granting of any right to store aviation fuels shall be subject to the execution of a separate agreement between Airline and City.

5.01.6 The servicing by either Airline or its suppliers of aircraft and other equipment being utilized at the Airport by Airline or its Affiliates on the Terminal Aircraft Aprons or such other locations as may be designated by the Executive Director.

5.01.7 The loading and unloading of persons, property, cargo, parcels and mail by motor vehicles or other means of conveyance reasonably approved by City at Terminal Aircraft Aprons or such other locations as may be designated by the Executive Director; provided Airline shall not use Terminal Aircraft Aprons immediately adjacent to the passenger Terminal to load or unload all-cargo aircraft unless otherwise authorized in writing by the Executive Director and provided further that Air Carriers and third parties will be entitled to ingress and egress over the Terminal Aircraft Aprons from time to time, as provided in the Rules and Regulations, for access to adjacent space, including without limitation office space, in the Terminal.

5.01.8 The storage of ground support equipment in designated GSE Storage Areas; provided that Airline shall promptly dispose of or remove damaged and inoperative ground support equipment from the Airport. If Airline fails to remove damaged and inoperative ground support equipment within thirty (30) days after receiving written notice requesting removal from City and City exercises its right to remove such equipment as provided in Section 13.03.4, any equipment that is so removed shall, at City's option, be stored by City at Airline's expense. Airline shall pay to City, upon receipt of an invoice, the costs incurred for such storage plus fifteen percent (15%).

5.01.9 The provision, either alone or in conjunction with other Passenger Carriers or through a nominee, of porter/skycap service for the convenience of the public, at no cost to City. Notwithstanding anything set forth herein, Airline and Airline's agents, contractors, employees and service providers shall not be entitled to use electric carts to transport passengers in the Terminal.

5.01.10 The installation, maintenance, and operation, at no cost to City, of such radio communication, company telephone system, computer, meteorological and aerial navigation equipment and facilities on Airline's Exclusive Use or Preferential Use Premises as may be necessary or convenient for the operation of its Air Transportation Business; provided, however, that except for equipment and facilities already in place with the prior written approval of the Executive Director, installations shall be subject to such prior written approval. Prior to any written approval, Airline shall provide the Executive Director with all necessary supporting documentation related to such installations. Notwithstanding anything set forth herein to the contrary, the Executive Director may at any time during the Term of this Agreement require Airline to utilize the City's data communications system at the Airport to link Airline's separate operating locations within the Airport.

5.01.11 Such rights of way as may reasonably be required by Airline for communications, computer equipment, teletype, telephone, interphone, conveyor systems and power, and other transmission lines in areas preferentially-leased by Airline, subject to the prior written approval of the Executive Director and the availability of space and/or ground areas as determined by the Executive Director. City reserves the right to require the execution of a separate agreement between City and Airline for the lease and use of such space and/or ground area outside Terminal areas or to provide such service directly to Airline.

5.01.12 The installation of personal property, including furniture, furnishings, supplies, machinery, and equipment, in Airline's Exclusive Use Premises as Airline may deem necessary, useful or prudent for the operation of its Air Transportation Business; provided, however, that the installation of such personal property in Airline's Preferential Use Premises shall be permitted only as provided in the Rules and Regulations and the Airport's Tenant Improvement Standards as in effect at the time. Title to any such personal property (including removable trade fixtures but excluding other fixtures and improvements to the Terminal) shall remain with Airline, subject to the provisions of this Agreement.

5.01.13 The construction of modifications, finishes, and improvements in Airline's Exclusive Use and Preferential Use Premises as Airline may deem necessary or prudent for the operation of its Air Transportation Business, subject to the provisions of Section 10.05 and the Airport's Tenant Improvement Standards.

5.01.14 Airline shall have the right to ingress to and egress from the Airport and Airline Premises for Airline's officers, employees, agents, and invitees, including passengers, suppliers of materials, furnishers of services, aircraft, equipment, vehicles, machinery and other property. Such right shall be subject to 49 C.F.R. Part 1542, applicable laws, and City's right in accordance with its applicable law to establish reasonable and nondiscriminatory Rules and Regulations governing (i) access by the general public, including Airline's passengers, and (ii) access to non-public areas at the Airport by Airline's employees, suppliers of materials, and furnishers of services; provided, however, any such Rules and Regulations of City shall not unreasonably interfere with the operation of Airline's Air Transportation Business. City may at any time temporarily or permanently close, re-route, or consent to or request the closing or re-routing of any roadway or access to the Airport, so long as a means of ingress and egress reasonably equivalent is concurrently made available to Airline. Notwithstanding the foregoing, as part of the obligations of Airline set forth in Article 12, Airline hereby releases and discharges City from any and all claims, demands, or causes of action which Airline may now or at any time hereafter have arising or alleged to arise out of such a closing or re-routing.

5.01.15 Subject to any applicable Rules and Regulations, nothing in this paragraph shall prohibit Airline from (i) providing food and beverages, at Airline's sole cost and expense, in its non-public Exclusive Use Premises solely for Airline's employees, (ii) installing or maintaining vending machines or ATMs in Airline's non-public Exclusive Use Premises solely for Airline's employees, the type, kind, and locations of which shall be subject to the approval of the Executive Director, (iii) providing under a separate agreement with City for its own flight kitchen for catering services to its passengers and crews for consumption aboard aircraft, (iv) installing or maintaining ATMs in a "VIP room" or similar private club at the Airport, the type, kind, and locations of which shall be subject to the approval of the Executive Director, or (v) providing food and beverages in a "VIP room" or similar private club at the Airport, provided, however, that if Airline sells food or beverages at the Airport, Airline shall (a) purchase all alcoholic beverages or other beverages and any related food service items from an Airport concessionaire or (b) pay a concession fee related to the sale of all alcoholic beverages or other beverages and any related food service items so sold (such concession fee shall be equal to the concession fee(s) for related items sold by vendors in the other areas of the Terminal). Airline shall not sell food and beverages or engage in revenue-generating concession activities of any kind in Airline's public premises, including but not limited to any Gates; provided, however, that in the event of a flight delay or cancellation, Airline may at no cost provide food and beverages that would have been available on the flight to inconvenienced passengers.

5.01.16 Subject to the prior written approval of the Executive Director as to compliance with the décor and signing scheme for the Terminal, Airline shall have the right to install such identifying signs in Preferential or Exclusive Use Premises as it may deem necessary for the operation of Airline's Air Transportation Business. No advertising or promotional signs or posters that are visible to persons in any Public Space in the Terminal or at the Airport shall be installed or placed by Airline except with the prior written approval of the City.

5.01.17 The rights and privileges granted to Airline pursuant to this Article 5 may be exercised on behalf of Airline by other Signatory Airlines or contractors authorized by City to provide such services at the Airport, subject to the prior written approval of City and further subject to all laws, rules, regulations, fees and charges and the terms of this Agreement as may be applicable to the activities undertaken.

5.01.18 Airline may exercise on behalf of any other Passenger Carrier having an operating agreement or permit with City any of the rights granted to Airline herein, so long as Airline is concurrently exercising those same rights in the operation of Airline's own Air Transportation Business at the Airport, subject to the provisions of this Agreement.

5.01.19 Airline may only enter into agreements providing for pay telephones or Internet or wireless access for the public in its airline clubs and VIP rooms. The provision of any wireless access shall be preapproved by the Executive Director in accordance with the Rules and Regulations and shall not have any adverse impact on the operation of wireless access provided by the City or any systems for communications or the transmission of intelligence at the Airport. Airline shall not enter into any agreements providing for pay telephones or wireless or internet access for the public anywhere else within the Airport; provided, however, that nothing in this Agreement shall prevent Airline from providing wireless or internet access aboard Airline's aircraft.

5.02 *Exclusions and Reservations.*

5.02.1 Nothing in this Article 5 shall be construed as authorizing Airline to conduct any business separate and apart from the conduct of its Air Transportation Business.

5.02.2 Airline shall not, by action or failure to act, knowingly interfere or permit interference with the use, operation, or maintenance of the Airport, including but not limited to, the effectiveness or accessibility of the drainage, sewerage, water, communications, fire protection, utility, electrical or other systems installed or located from time to time at the Airport.

5.02.3 Airline shall not engage in any activity prohibited by City's approved FAR Part 150 Noise Compatibility Study and Preferential Runway Use Program as amended or supplemented from time to time in accordance with applicable law.

5.02.4 As soon as possible after release from proper authorities, Airline shall remove any of its disabled aircraft from the Airfield or Terminal Aircraft Aprons, shall place any such disabled aircraft only in such storage areas as may be reasonably designated by the Executive Director, and shall store such disabled aircraft only upon such terms and conditions as may be reasonably established by City. In the event Airline shall fail to remove any of its disabled aircraft as expeditiously as possible, City may, but shall not be obligated to, cause the removal of such disabled aircraft. Airline shall pay to City, upon receipt of an invoice, the costs incurred for such removal

plus fifteen percent (15%). Nonpayment of such invoice shall be deemed a default of this Agreement pursuant to Article 13.

5.02.5 Airline shall not do or permit to be done anything, either by act or failure to act, that shall cause the cancellation or violation of the provisions, or any part thereof, of any policy of insurance for the Airport or that shall cause a hazardous condition so as to increase the risks normally attendant upon operations permitted by this Agreement. If Airline shall do or permit to be done any act not permitted under this Agreement, or fail to do any act required under this Agreement, regardless of whether such act shall constitute a breach of this Agreement, which act or failure, in and of itself, causes an increase in City's insurance premiums, Airline shall immediately remedy such actions and/or pay the increase in premiums, upon notice from City to do so.

5.02.6 Airline shall not maintain or operate in the Terminal or elsewhere at the Airport for the purpose of selling retail items, food and beverages to the public or to Airline's employees and passengers a retail establishment or a cafeteria, restaurant, bar or cocktail lounge, except as may be permitted under Section 5.01.15 above.

5.02.7 City may, at its sole option, install or cause to be installed advertising and revenue generating devices, including vending machines, in Common Use and Preferential Use Premises; provided, however, that to the extent permitted by law City shall not install or cause to be installed advertising for Airline's direct competitors in Airline's Preferential Use Premises. Airline shall purchase all advertising for any product or service other than air service arriving at or departing from the Airport from the Airport's advertising concessionaire. City may, at its sole option, install pay telephones or Internet access in any part of the Terminal excluding airline clubs and VIP rooms. City shall be entitled to reasonable access upon Airline Premises to install or service such telephones, Internet access and devices. Income generated by such telephones, Internet access and devices shall be accounted for in the same manner as other non-airline Revenues of the Airport.

5.02.8 Airline shall not dispose of nor permit any other person to dispose of any waste material into the sanitary or storm sewers at the Airport or elsewhere, whether liquid or solid, unless such waste materials or products are first properly treated or otherwise disposed of in compliance with applicable Environmental Laws. Nothing herein shall prohibit Airline from disposing of human waste taken from its aircraft in proper designated sanitary sewer facilities.

5.02.9 Except as otherwise provided in Section 5.01.15 above, Airline shall not install or operate amusement machines or vending machines.

5.02.10 Airline shall not disturb any asbestos at the Airport without first obtaining all permits and approvals as required by applicable Environmental Laws or by the City. City shall make available to Airline upon request any surveys, reports, plans, or other documentation regarding the presence or management of asbestos in areas of Airline's operations.

5.02.11 Airline shall not stack aircraft beyond the bounds of any leased Terminal Aircraft Apron without the written consent of SLCDCA.

5.02.12 The rights and privileges granted Airline pursuant to this Article 5 shall be subject to any and all reasonable and nondiscriminatory Rules and Regulations established by City, as such Rules and Regulations may be amended from time to time in accordance with Section 18.07 and to the provisions of this Agreement. Airline covenants and agrees that it will not violate or

permit its agents, contractors or employees to violate any such Rules and Regulations. City may prescribe civil penalties and injunctive remedies for violations of any Rules and Regulations, and the same may be applied to Airline for violations of Airline's agents, contractors or employees.

5.02.13 Notwithstanding anything set forth herein to the contrary, City shall be entitled to reasonable access upon Airline Premises to enforce the terms of this Agreement and to review Airline's operations upon reasonable notice during the Term.

5.02.14 Airline acknowledges and agrees that Shared Use Equipment may be used in all Common Use Premises, except as otherwise provided herein.

5.02.15 Any and all rights and privileges not specifically granted to Airline for its use of and operations at the Airport pursuant to this Agreement are hereby reserved for and to City.

5.03 Affiliates.

5.03.1 For purposes of this Agreement, a Signatory Airline may designate one or more Affiliates.

5.03.2 Airline may designate another Passenger Carrier as an Affiliate by submitting to the City the designation form attached as Exhibit D-1 with sufficient documentation to demonstrate to the satisfaction of the Executive Director that the conditions for designating the Affiliate have been met. The designation of an Affiliate shall become effective upon receipt by City of the designation in the form of Exhibit D-1 and the Operating Agreement signed by the Affiliate. The designation shall remain in effect for so long as the conditions for designating the Affiliate continue to be met and until Airline withdraws its designation of the Affiliate by submitting to City the withdrawal of designation form attached as Exhibit D-2. A withdrawal of designation of an Affiliate shall become effective on the last day of the calendar month following at least 15 (fifteen) days from receipt by City of the withdrawal of designation in the form of Exhibit D-2.

5.03.3 If Airline designates one or more other Passenger Carriers as its Affiliate, Airline shall either pay directly to City or be the financial guarantor of all rentals and charges due from Airline's Affiliates at the Airport while they are operating as Airline's Affiliates, including without limitation Landing Fees and Terminal Rents, and Airline shall either provide directly to City or ensure that its Affiliates promptly provide to City all information required hereunder with respect to each Affiliate's operations at the Airport on behalf of Airline.

5.03.4 For so long as Airline is a Signatory Airline and the conditions of this Section 5.03 are satisfied, each of Airline's Affiliates shall be treated as if it were Airline for purposes of Article 7, Article 8 and Article 10 of this Agreement, including without limitation such Affiliate (a) shall be charged at the same Landing Fee rates as Airline without payment of any Non-Signatory Airline premiums; (b) shall participate in any year-end or other reconciliation process whereby Signatory Airlines share in excess revenues or true-up of projected against actual costs (the amounts owing to or from such Affiliate in accordance with such reconciliations shall be payable by or to Airline rather than Affiliate if so directed by Airline); and (c) shall not be counted as a separate Passenger Carrier from Airline for purposes of allocating the per capita portion of any "20/80" type cost allocation formula. The passengers of each Affiliate shall be counted as Enplaned Passengers of each related Signatory Airline for purposes of any enplanement-based portion of any "20/80" type

cost allocation formula, but only when the Affiliate is acting as an Affiliate of a particular Signatory Airline.

5.03.5 If Airline properly designates another Passenger Carrier as its Affiliate and delivers the Operating Agreement signed by such Affiliate by July 1, 2014, and the conditions of Section 5.03.4 are otherwise satisfied, such Affiliate shall be treated as if it were the Airline, as provided in Section 5.03.4, as of the Effective Date of this Agreement. If, however, the designation of such Affiliate or the delivery of its signed Operating Agreement occurs on or after July 1, 2014, such Affiliate shall only be treated as if it were the Airline, as provided in Section 5.03.4, only from and after the designation of the Affiliate and delivery of the Affiliate's signed Operating Agreement.

5.04 *Airline Termination Rights.* Airline shall have the option to terminate this Agreement upon occurrence of any of the following events, such option to be exercised by notice in writing mailed to City while such event continues and not thereafter:

5.04.1 The issuance of any order, rule or regulation by the DOT, the TSA, the FAA, its or their successor federal agencies, or other competent governmental authority, state or federal, or the issuance by any court of competent jurisdiction of an injunction, materially and substantially restricting for a period of at least ninety (90) days the use of the Airport for scheduled air transportation; provided that none of the foregoing has been initiated, caused or contributed to by Airline.

5.04.2 The suspension or revocation of the operating certificate for the Airport that continues for a period of at least ninety (90) days.

5.04.3 The material and substantial restriction of City's operation of the Airport by action of the United States Government or any authorized agency thereof under its wartime or emergency powers and the continuance thereof for a period of not less than ninety (90) days.

Article 6 Operation And Maintenance Of The Airport

6.01 *Designation of Operation and Maintenance Responsibilities.* In addition to the obligations of Airline and City set forth in this Article 6, responsibilities for maintenance, cleaning, and operation of the Airport shall be as set forth in Exhibit E.

6.02 City Obligations.

6.02.1 City shall, with reasonable diligence, prudently develop, improve, and at all times maintain and operate the Airport in a manner consistent with airports of similar size with qualified personnel and keep the Airport in an orderly, clean, neat and sanitary condition and good repair, unless such maintenance, operation, or repair shall be Airline's obligation pursuant to Section 6.03 and the Maintenance Matrix attached as Exhibit E.

6.02.2 City shall, to the extent it is legally able so to do, use reasonable efforts to keep the Airport and its aerial approaches free from ground obstruction for the safe and proper use thereof by Airline.

6.02.3 City shall provide facilities for and the delivery of heating and air conditioning to those areas of the Terminal presently having facilities for the same and to such

additional areas as may be agreed upon by the parties from time to time and permitted by appropriate authority. City shall also provide electricity for illumination and shall replace lamps where appropriate in the Airport other than in the Exclusive Use Premises, which shall be the responsibility of Airline. Finally, City shall provide water and sanitary sewer connections to those areas of the Terminal presently having facilities for the same and to such additional areas as may be agreed upon by the parties from time to time. Water and sanitary sewer connections are for normal domestic usage. In the event Airline requires water for commercial or maintenance purposes, the same may be furnished to and paid for by Airline as mutually agreed upon by Airline and City. Responsibility for specific maintenance and operating expenses will be managed in accordance with specifications detailed at Exhibit E.

6.02.4 Notwithstanding the foregoing, as part of the obligations of Airline set forth in Article 12, Airline hereby releases and discharges City from any and all claims, demands, or causes of action which Airline may now or at any time hereafter have arising or alleged to arise out of City's failure to furnish all or any of such services to be provided in accordance with this Section 6.02 and Exhibit E.

6.02.5 City shall maintain (i) loading bridges owned by City; (ii) preconditioned air systems owned by City; (iii) associated 400 Hertz units owned by City; (iv) baggage conveyors and baggage handling systems owned by City; (v) potable water units associated with all loading bridges; and (v) other systems that may be acquired by City in the future.

6.02.6 City shall, in the operation of the Airport, comply with all applicable local, state and federal laws, rules and regulations.

6.02.7 City shall use reasonable efforts to manage and control the growth of Operating Expenses for the Airport; Airline acknowledges, however, that City cannot control all of its Operating Expenses; City's Operating Expenses for the Airport may rise in conjunction with the construction of The Project and after The Project's DBO; and from time to time City may incur substantial unexpected short-term Operating Expenses.

6.03 Airline Obligations.

6.03.1 Notwithstanding anything set forth herein to the contrary, Airline shall keep its Exclusive Use Premises in an orderly, clean, neat and sanitary condition and shall be responsible for the repair and maintenance thereof.

6.03.2 In addition, Airline shall keep all of its Airline Premises free of debris and in an orderly condition; provided, however, this requirement shall not be construed to mean Airline shall have those janitorial or other responsibilities designated to be those of City pursuant to Section 6.02 above and Exhibit E.

6.03.3 Airline shall keep, at its own expense, the Terminal Aircraft Aprons and Cargo Aircraft Aprons free of fuel, oil, debris and other foreign objects during Airline's use thereof.

6.03.4 Notwithstanding anything set forth herein to the contrary, Airline shall operate and maintain, at its own expense, any improvements and/or equipment installed by Airline or City for the exclusive use of Airline, except as the City otherwise agrees.

6.03.5 If Airline fails to perform its material obligations hereunder, City shall have the right to perform such activities and to enter the Airline Premises as required to do so; provided, however, other than in a case of emergency, City shall give Airline reasonable advance written notice of non-compliance, not to exceed ten (10) days, prior to the exercise of this right. If such right is exercised, Airline shall pay City, upon receipt of invoice, the cost of such services plus fifteen percent (15%). Nonpayment of such invoice shall be deemed a default of this Agreement, pursuant to Article 13.

6.03.6 Airline shall keep current its flight information on the multi-user flight information display system ("MUFIDS"), the gate information display system ("GIDS") and other information display systems at the Airport in the manner that best suits Airline's operations. At the request of Airline, City shall provide a computer connection to Airline so that Airline can access and update this system.

6.03.7 Airline shall provide written notice to SLCDA of any service providers, agents or contractors who will be providing services to Airline at the Airport. All such service providers, agents or contractors must comply with the Rules and Regulations, and Airline shall ensure that its service providers, agents or contractors obtain a permit from SLCDA before providing any services to Airline at the Airport.

Article 7 Assignment And Use Of Gates, Ticket Counters And Other Areas

7.01 *No Exclusive Use Gates or Ticket Counters.* All Gates and Ticket Counters within the Terminal will be for either Common Use or Preferential Use in accordance with the terms of this Article. The allocation of Common Use Gates, Preferential Use Gates, Common Use Ticket Counters and Preferential Use Ticket Counters for the Term of this Agreement is shown on Exhibit A. Airline's use of all Gates and Ticket Counters shall at all times be subject to the Rules and Regulations, which may be amended from time to time in accordance with Section 18.07 after consultation with the Signatory Airlines.

7.02 *City Scheduling Rights at Preferential Use Gates and Ticket Counters.* City shall have the right, upon reasonable notice to Airline, to schedule at a Preferential Use Gate or Ticket Counter arrivals and departures by a Requesting Airline at all periods of time other than Airline's Periods of Use of that Preferential Use Gate or Ticket Counter. In accommodating City in its right to schedule such operations, Airline shall allow and provide for use of its facilities or equipment, not including ground service equipment or other proprietary equipment, at the Preferential Use Gate or Ticket Counter or permit use of City equipment and podiums as may be required for the efficient use of the Preferential Use Gate or Ticket Counter by a Requesting Airline. City shall consider the availability of Common Use Gates and Ticket Counters before scheduling Requesting Airline arrivals and departures at any Preferential Use Gates and Ticket Counters. If City determines that a Requesting Airline's arrivals or departures need to be accommodated at any Preferential Use Gates and Ticket Counters, City may consider the need for hub connectivity and operational efficiency in selecting the specific Preferential Use Gates and Ticket Counters where accommodation will be required. Notwithstanding the foregoing and any other provision of this Article 7, City shall have the right, upon reasonable notice to Airline, to accommodate at a Preferential Use Gate or Ticket Counter arrivals and departures by a Requesting Airline if Airline is not utilizing the Preferential Use Gate or Ticket Counter during the Period of Use for a Scheduled Operation. If an arrival or departure of Airline that would have utilized one of Airline's Preferential Use Gates or Ticket Counters is early or late and Airline is prevented from utilizing any of its Preferential Use Gates or Ticket Counters

because they are already being utilized by Requesting Airlines, City shall, whenever possible, accommodate Airline's arrival or departure on a Common Use Gate or Ticket Counter at no additional charge to Airline.

7.03 *Accommodation Charges for Preferential Use Gates and Ticket Counters.* Any Requesting Airline that is accommodated at any of Airline's Preferential Use Gates or Ticket Counters shall be required to pay City the same charges for use of the Gate or Ticket Counter that it would have been required to pay for use of a Common Use Gate or Ticket Counter as provided in Sections 8.03.5 and 8.03.6. City shall provide a credit to Airline for the full amount of any such Gate-use or Ticket Counter-use payments the City receives from Requesting Airlines that are accommodated at any of Airline's Preferential Use Gates or Ticket Counters. As a condition of accommodation on any of Airline's Preferential Use Gates or Ticket Counters, the Requesting Airline shall pay all reasonable towing, Remain Overnight (RON) fees and other charges related to the accommodations that are assessed by Airline.

7.04 *Gate and Ticket Counter Accommodation Conditions.* As a condition of accommodation on any of Airline's Preferential Use Gates and Ticket Counters, the Requesting Airline shall have executed an agreement that is substantially in the form of this Agreement or an Operating Agreement, as applicable, through which the Requesting Airline is bound by insurance and indemnification obligations that are substantially similar to the obligations set forth herein. These insurance and indemnification obligations shall inure to the benefit of the Airline as a third-party beneficiary for any period of accommodation, and Airline shall not be required to accommodate a Requesting Airline at its Preferential Use Gates or Ticket Counters if the Requesting Airline's insurance and indemnification obligations are not satisfied.

7.05 *City's Control of Common Use Gates and Ticket Counters.* City shall retain exclusive control of the use of all Common Use Gates and Ticket Counters.

7.06 *Charges for Common Use Gates and Ticket Counters.* A Requesting Airline that is accommodated at a Common Use Gate or Ticket Counter will be charged on a per-use basis in accordance with Sections 8.03.5 and 8.03.6.

7.07 *Shared Use Equipment.* City reserves the right to install Shared Use Equipment at all Gates and Ticket Counters; provided, however, that other than on Concourse A, City will not install such Equipment at any of Airline's Preferential Use Gates or Preferential Use Ticket Counters unless City reasonably expects Passenger Carriers other than Airline to have Scheduled Operations at Airline's Preferential Use Gates; and further provided that City may install the information technology backbone required for Shared Use Equipment at all Gates and Ticket Counters within the new terminal premises to be constructed in The Project.

7.08 *GSE Storage Areas.* Each Fiscal Year during the Term hereof the Executive Director shall assign GSE Storage Areas to each Signatory Airline as provided in the Rules and Regulations.

7.09 *Skycap Positions.* Each Fiscal Year during the Term hereof the Executive Director shall assign Skycap Positions to each Signatory Airline in the Executive Director's discretion.

7.10 *Self-Service Devices.* Airline may only install proprietary Self-Service Devices for passenger processing at the Airport with the Executive Director's approval.

Article 8 Rates And Charges

8.01 *Rate-Setting Methods.* The Landing Fees and Terminal Rents to be charged by City and paid by Airline and by all other Signatory Airlines for use of the Airport from the Effective Date until the expiration or earlier termination of this Agreement shall be calculated using the rate-setting methods set forth in this article. Exhibit B displays for illustrative purposes an actual calculation of rates and charges for Fiscal Year 2015 showing the methods set forth in this article based upon currently available budget and forecast levels of Airport activity for the year. In calculating rates and charges under this Agreement, City shall not include any costs for the construction, equipping, maintaining or operating any portion of a fixed guideway (or "light rail" system).

8.02 *Landing Fee.* The Landing Fee effective July 1st of each Fiscal Year shall be determined according to the method set forth in this article.

8.02.1 *Airfield Revenue Requirement.* The City will calculate the Airfield Revenue Requirement by computing the sum of the following budgetary items for each Fiscal Year:

(a) Debt Service allocable to Airfield capital projects funded from Bonds, Subordinated Indebtedness or Other Indebtedness; *plus*

(b) the Coverage Amount Requirement, if any, applicable to the Debt Service amount calculated pursuant to subsection (a) above; *plus*

(c) Amortization allocable to Airfield capital projects funded from Net Remaining Revenues (excluding any amortization allocable to The Project and funded from Net Remaining Revenues), based on the economic life of each such capital project using the half year convention and including a return on the unamortized portion of each such project calculated using an interest rate set to equal comparable average borrowing costs published in the Bond Buyer Revenue Bond Index on June 30th of the year in which such project is put in service; *plus*

(d) the annual Operating Expenses and Capital Outlays allocable to the Airfield, excluding costs billed directly to and paid by Air Carriers; *plus*

(e) an amount equal to (i) the total deposits needed to replenish the Debt Service Reserve Funds to required levels times (ii) a fraction, the numerator of which is the total amount of Net Bond Proceeds allocable to the Airfield and the denominator of which is the total amount of Net Bond Proceeds; *plus*

(f) any other required reserve amounts allocable to the Airfield ; *minus*

(g) Revenues allocable to the Airfield other than Landing Fees charged to Air Carriers; *(plus or minus)*

(h) the Adjustment-to-Actual allocable to the Airfield as calculated under Section 8.06.

8.02.2 *Estimated Landed Weight.* By January 1st of each Fiscal Year, Airline will provide estimates of the forecast aggregate Maximum Gross Landed Weight for all aircraft greater than 12,500 pounds carrying passengers or cargo in commercial service that are expected to land at the Airport during the next Fiscal Year. SLCDA will provide prior notice to Airline each year during

the Term requesting such estimates; provided, however, that SLCDAs failure to provide such notice shall not relieve Airline of its obligations under this Section 8.02.2.

8.02.3 *Calculation of Landing Fee.* The City will calculate the Landing Fee by dividing the Airfield Revenue Requirement by the estimated landed weight, yielding a Landing Fee to be expressed in dollars and cents per one thousand pounds in landed weight. Landing Fees will be levied upon Airline based upon the aggregate Maximum Gross Landed Weight of all Chargeable Landings for aircraft operated by Airline that land at the Airport during the year.

8.03 *Terminal Rents.* The Terminal Rents effective July 1st of each Fiscal Year shall be determined according to the method set forth in this article.

8.03.1 *Net Terminal Revenue Requirement.* The City will calculate the aggregate Terminal Revenue Requirement by computing the sum of the following budgetary items for each Fiscal Year:

- (a) Debt Service allocable to Terminal capital projects funded from Bonds, Subordinated Indebtedness, or Other Indebtedness; *plus*
- (b) the Coverage Amount Requirement, if any, applicable to the Debt Service amount calculated pursuant to subsection (a) above; *plus*
- (c) Amortization allocable to Terminal capital projects funded from Net Remaining Revenues (excluding any amortization allocable to The Project and funded from Net Remaining Revenues), based on the economic life of each such capital project using the half year convention and including a return on the unamortized portion of each such project calculated using an interest rate set to equal comparable average borrowing costs published in the Bond Buyer Revenue Bond Index on June 30th of the year in which such project is put in service ; *plus*
- (d) the annual Operating Expenses and Capital Outlays allocable to the Terminal, excluding costs billed directly to and paid by Air Carriers; *plus*
- (e) an amount equal to (i) the total deposits needed to replenish the Debt Service Reserve Funds to required levels times (ii) a fraction, the numerator of which is the total amount of Net Bond Proceeds allocable to the Terminal and the denominator of which is the total amount of Net Bond Proceeds; *plus*
- (f) any other required reserve amounts allocable to the Terminal ; *minus*
- (g) Revenues from Air Carriers allocable to the Terminal, including without limitation revenues from the other fees and charges described in Section 8.04, other than Terminal Rents charged to Air Carriers under this Section 8.03; *plus or minus*
- (h) the Adjustment-to-Actual allocable to the Terminal as calculated under Section 8.06.

The City will then multiply that sum by the ratio of total Rentable Airline Space to total Rentable Terminal Space at the Airport, yielding the revenue requirement (the Net Terminal Revenue Requirement) to be met by all Passenger Carriers.

8.03.2 *Distribution of the Net Terminal Revenue Requirement.* The City will distribute the aggregate Net Terminal Revenue Requirement calculated in accordance with Section 8.03.1 into two cost assignment groups: conditioned space and unconditioned space. The costs assigned to the rentable space within each of these groups shall bear the following relativities to each other on a square foot basis:

Conditioned Space (identified in Exhibit B-9)	1.00
Unconditioned Space (identified in Exhibit B-9)	0.50

For rate-setting purposes, the costs per square foot of rentable space in each of these two groups will be normalized so that the aggregate costs assigned to both groups will equal the Net Terminal Revenue Requirement.

8.03.3 *Charges for Exclusive Use and Preferential Use Premises.* Charges for Exclusive Use Premises and Preferential Use Premises will be levied upon Airline on a cost per square foot basis.

8.03.4 *Domestic Baggage Claim Joint Use Charges.* The City will calculate the Revenue requirement applicable to baggage claim areas serving domestic Scheduled Operations by multiplying the square footage of all such baggage claim areas by the rate for conditioned space or unconditioned space, whichever is applicable. The City will then calculate charges for the use of domestic baggage claim areas by allocating twenty percent (20%) of that Revenue requirement equally among all Airlines with scheduled domestic service and by dividing eighty percent (80%) of that Revenue requirement by the total number of enplaning passengers on domestic flights departing during the Fiscal Year to determine the domestic baggage claim charge per Deplaned Passenger. Charges for the use of domestic baggage claim areas will be levied upon Airline on the basis of the sum of its equal share of twenty percent (20%) of the Revenue requirement plus the product of the total number of enplaning passengers on domestic Scheduled Operations departing during the Fiscal Year times the per-passenger domestic baggage claim charge.

8.03.5 *Charges for Common Use Gates.* Airline shall pay a fee for use of a Common Use Gate based on the highest cost per Turn for all Passenger Carriers. This per-Turn charge will be calculated by multiplying the total leased Gate space throughout the Airport by the conditioned space rate and then dividing by 365. The resulting daily rate shall be divided by the lowest scheduled number of Turns on any leased Gate, and the result shall be the Turn fee for use of a Common Use Gate. Airline shall also pay a fee for use of the jet bridge associated with the Common Use Gate based on the highest cost per Turn for all Passenger Carriers. This per-Turn charge will be calculated by dividing the average monthly loading bridge maintenance cost by the lowest scheduled number of Turns on any leased Gate and adding the two-year average cost of providing power and 400Hz service to each loading bridge.

8.03.6 *Common Use Ticket Counter Charges and Bag Make-Up Charges.* Airline shall pay a fee for use of a Common Use Ticket Counter based on the sum of (a) the rentable square feet of the Ticket Counter and associated office space multiplied by the conditioned space rate, plus (b) the rentable square feet of the related bag make-up space multiplied by the conditioned space or unconditioned space rate, whichever is applicable, divided by 365 days to arrive at a daily rate for use of a Common Use Ticket Counter.

8.03.7 *Common Use Bag Claim Charges.* Airline shall pay a fee for use of a Common Use bag claim device based on the sum of (a) the square feet of bag claim area in the Terminal multiplied by the conditioned space rate, plus (b) the square feet of canopy in TU1 multiplied by one-half the conditioned space rate, divided by fifty percent (50%) of annual Enplaned Passengers for the previous Fiscal Year, to arrive at a rate per Enplaned Passenger.

8.03.8 *Charges for Use of the FIS Facility and International Baggage Claim Area.* Airline shall pay a fee for use of the FIS Facility and international bag claim area based on the sum of annual costs for (a) IAB utility costs, including allocated electrical expenses plus separately metered gas and water expenses, (b) triturator costs, (c) janitorial expenses using a per square foot cost basis, and (d) cost recovery of cart fees, divided by the total number of Deplaned Passengers from international flights arriving during the previous Fiscal Year, excluding pre-cleared international Deplaned Passengers, to arrive at a rate per deplaned international passenger.

8.04 *Other Fees and Charges.*

8.04.1 The City shall publish annually as part of the budget process the following fees, calculated on a reasonable and non-discriminatory basis, in accordance with Exhibit B-20.

(a) *RON Charges.* Airline shall pay a fee for aircraft remaining overnight and parked beyond the bounds of the Terminal Aircraft Apron area within Airline's Premises. The Airport Operations Duty Manager shall be responsible for performing a nightly inventory of aircraft remaining overnight.

(b) *GSE Storage Area Charges.* Airline shall pay a fee for leasing GSE Storage Areas.

(c) *Open Storage Area Charges.* Airline shall pay a fee for leasing Open Storage Areas.

(d) *Kiosk Charges.* Airline shall pay a fee for placing ticketing kiosks at any locations outside of Airline's Premises approved in writing by City, based on eight (8) square feet for each such kiosk multiplied by the conditioned space rate or, for grouped kiosks, a reasonable lower rate determined at the discretion of the Executive Director after consultation with Airline.

8.04.2 *Employee Parking and Badging Charges.* Airline shall pay a fee for parking and badging for employees who are domiciled at the Airport, based on recovery of associated capital and operating costs, which shall be calculated annually as a part of the budget process.

8.04.3 *Stacking Charges.* When Airline stacks aircraft beyond the bounds of the Terminal Aircraft Apron areas within Airline's Premises, which Airline may do only with the written consent of SLCDA, Airline shall pay a stacking fee.

8.05 *Mid-year Adjustments.*

8.05.1 If it appears to City, on the basis of information it is able to accumulate during the course of a Fiscal Year during the Term, including information pursuant to Section 8.06 of the Agreement, that the budgeted Airfield or Terminal costs or forecast landed aircraft weight or rented Terminal space it used in calculating the Landing Fees or Terminal Rents then in effect are

likely to vary by more than ten percent (10%) from actual results at the Airport, or if changes in Landing Fees or Terminal Rents are required by the terms and conditions of the Master Trust Indenture, any Subordinated Financing Agreement or Other Indebtedness agreement, City may make adjustments to the Landing Fees or Terminal Rents (or both) at mid-year or at such other time during the Fiscal Year as the need for such an adjustment becomes apparent to City.

8.05.2 The City shall provide Airline with a minimum of thirty (30) days advance written notice of any adjustments under Section 8.05.1.

8.06 *Adjustments-to-Actual.* At the end of each Fiscal Year, after all required deposits have been made into the Airport Revenue Fund, the City shall use reasonable efforts to recalculate within one hundred twenty (120) days the Landing Fees and Terminal Rents and other charges established at the inception of each Fiscal Year in accordance with the methods set forth in Sections 8.02 and 8.03.1 through 8.03.4 and on the basis of year-end audited financial statements. Any resulting Adjustment-to-Actual shall be included in the City's budget for the second subsequent Fiscal Year and shall be included in the calculation of rates and charges for that year, and the City shall give the Air Carriers notice thereof. Notwithstanding the foregoing, the City may make adjustments to Landing Fees and Terminal Rents or both at mid-year or at such other time during the Fiscal Year as the need for such an adjustment becomes apparent to the City in accordance with Section 8.05. Exhibit B-11 displays an illustrative calculation of an Adjustment-to-Actual.

8.07 *Revenue Sharing.*

8.07.1 (a) Only Signatory Airlines shall be eligible to participate in revenue sharing under this Agreement and only from and after each such Signatory Airline has executed and delivered a fully executed Agreement to the City. Subject to the limitations set forth in Section 8.07.1(b), the City shall provide to the Signatory Airlines revenue sharing of one dollar (\$1) per Enplaned Passenger as determined after the calculation of any Adjustment-to-Actual for up to 10,000,000 Enplaned Passengers carried by all Signatory Airlines during each Fiscal Year. If during any Fiscal Year after 2015, the Signatory Airlines collectively carry more than 10,000,000 Enplaned Passengers, the City will increase the amount of revenue sharing per Enplaned Passenger based upon the increase, if any, in the total number of Enplaned Passengers compared to the number of Enplaned Passengers carried by the Signatory Airlines during Fiscal Year 2015; provided, however, that the increased amount of revenue sharing per Enplaned Passenger shall apply only to the number of Enplaned Passengers that exceed 10,000,000. The annual revenue sharing amount calculated in accordance with this Section 8.07.1(a) shall be referred to as the "Calculated Revenue Sharing Amount."

(b) The City's obligation to pay a revenue sharing amount to Signatory Airlines in a given Fiscal Year shall be payable solely from the Annual Adjusted Gross Revenues for Selected Concessions for such Fiscal Year. The total revenue sharing amount rebated to Signatory Airlines for a particular Fiscal Year shall not exceed the least of (i) 30% of Net Remaining Revenue in such Fiscal Year; (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions in such Fiscal Year; and (iii) the Calculated Revenue Sharing Amount. If such revenue sharing amount in any Fiscal Year is less than the total amount of Calculated Revenue Sharing Amount determined in accordance with Section 8.07.1(a), the amount of revenue sharing per Enplaned Passenger shall be adjusted accordingly so that the total amount of revenue sharing payable from Annual Gross Revenues for Selected Concessions for a particular Fiscal Year does not exceed the least of (i) 30% of Net Remaining Revenue in such Fiscal Year and (ii) the total amount of

Annual Adjusted Gross Revenues for Selected Concessions in such Fiscal Year. For each applicable Fiscal Year, revenue sharing shall be applied as a credit to invoices for Terminal Rents and shall be distributed uniformly on a monthly basis. By January 1st of each Fiscal Year, the Signatory Airlines, including Airline, shall provide estimates of their forecast Enplaned Passenger activity at the Airport during the next Fiscal Year. The number of Enplaned Passengers used for purposes of calculating revenue sharing hereunder shall be based on ninety-five percent (95%) of the forecast Enplaned Passenger activity provided by the Signatory Airlines, and the City shall reconcile the forecast figures with actual Enplaned Passengers for each Fiscal Year. SLCDA will provide prior notice to Airline each year during the Term requesting estimates of forecast Enplaned Passenger activity; provided, however, that SLCDA's failure to provide such notice shall not relieve Airline of its obligations under this Section 8.07.1.

8.07.2 City and Airline acknowledge that it will take some time to develop sound forecasts of Enplaned Passengers for the purposes of calculating revenue sharing hereunder for any new Signatory Airline at the Airport. Notwithstanding anything set forth herein to the contrary, the number of Enplaned Passengers for any Signatory Airline that has not been a Non-Signatory Airline or Signatory Airline for a full Fiscal Year at the Airport shall be based on an estimate that is derived by SLCDA from schedules published in the OAG or any successor publication, with fifty percent (50%) of the estimated Enplaned Passengers used to calculate the revenue sharing credit mentioned above for the new Signatory Airline. At the end of the first full Fiscal Year, revenue sharing for that year shall be recalculated based on the actual number of Enplaned Passengers for the new Signatory Airline, and any revenue sharing that is due to the new Signatory Airline based on the formula set forth above shall be applied as a credit to invoices for Terminal Rents in the new Fiscal Year and shall be distributed uniformly on a monthly basis.

8.07.3 Exhibit B-13 displays illustrative revenue sharing calculations.

8.08 Activity Reports.

8.08.1 Information to be supplied by Airline.

(a) Not later than the 10th day of each month, Airline and its Affiliates shall file with City separate written reports ("Activity Reports") on forms provided by City and included as samples in Exhibit F (or forms substantially similar thereto) for activity conducted by Airline during said month and for activity handled by Airline for each Air Carrier not having an agreement with City providing for its own submission of activity data to City. Such Activity Reports shall include, but not be limited to, operations data; Enplaned Passengers; Deplaned Passengers; connecting passengers; non-revenue enplaned passengers, and pounds of cargo, mail, and express shipments. City shall have the right to rely on said Activity Reports in determining rentals and charges due hereunder. Airline shall have full responsibility for the accuracy of said reports. Payment deficiencies due to incomplete or inaccurate Activity Reports shall be subject to interest charges as set forth in Section 9.04. City's assessment of such interest charges shall be in addition to any other remedies that City may have in law or in equity, including termination and revocation of this Agreement and all rights and privileges granted herein.

(b) Airline shall at all times maintain and keep records reflecting the activity statistics of Airline's activities at the Airport to be reported pursuant to Section 8.08.1(a). Such records shall be retained by Airline for a period of four (4) years subsequent to the activities reported therein, or such other retention period as set forth in applicable Federal Aviation

Regulations, and upon prior written notice to Airline shall be made available, at no cost to City, at Salt Lake City, Utah for audit and/or examination by City or its duly authorized representative during all normal business hours. Airline shall produce such books and records within thirty (30) calendar days of City's notice to do so or pay all reasonable expenses, including but not limited to transportation, food, and lodging, necessary for an auditor selected by City to audit said books and records.

(c) The cost of an audit, with the exception of the aforementioned expenses, shall be borne by City; provided, however, the total cost of said audit shall be borne by Airline if either or both of the following conditions exist:

(i) The audit reveals an underpayment of more than one percent (1%) of rentals, fees, and charges due on an annual basis hereunder, as determined by said audit; or

(ii) Airline has failed to maintain true and complete records in accordance with Section 8.08.1(b).

(d) City may elect to collect Airport activity information using an electronic reporting system rather than the system that is described above. If City elects to utilize such a system during the Term of this Agreement, Airline shall make every reasonable effort to comply with the reporting requirements applicable thereto. Airline shall continue to provide Activity Reports as described above until such time as Airline commences use of any such electronic reporting system as implemented by City.

8.09 Budget Consultation.

8.09.1 *Landing Fees and Terminal Rents.* No later than March 15th of each year during the Term, City shall consult with the Signatory Airlines to discuss the proposed revised Landing Fees and Terminal Rents. In connection with this consultation, City shall provide to Airline the calculations City has made in determining the revised charges with reasonable supporting documentation. The City's obligation to consult with Airline shall not limit in any way City's rate-setting powers under this Agreement or otherwise cause any delay in the effectiveness of revised charges. No later than June 10th of each year during the Term, City shall notify Airline of the actual Landing Fees and Terminal Rents it will charge for the next Fiscal Year, effective July 1.

8.09.2 *Renewal and Replacement Costs.* As part of its budgeting and rate-setting process, City shall determine the annual Renewal and Replacement Costs (including the Renewal and Replacement Costs that are the subject of Sections 8.02.1(f) and 8.03.1(f) above). City shall include descriptions of renewal and replacement projects with the revised Landing Fee and Terminal Rent disclosure described in Section 8.09.1. As part of the consultation process described in that section, City agrees to fully consider the comments and recommendations of the Signatory Airlines prior to finalizing the allowance for renewal and replacement for the ensuing Fiscal Year.

8.10 Renewal and Replacement Reserve Fund, Operation and Maintenance Reserve Fund and Debt Service Reserve Funds.

8.10.1 The "Renewal and Replacement Reserve Fund" shall be funded in an amount equal to or greater than \$5 million (or such other amount as mutually agreed by the City and the Signatory Airlines) that is maintained by the City. The Renewal and Replacement Reserve Fund

shall be used to pay for unanticipated or emergency replacements and repairs to the Airport, and any interest earned on the Renewal and Replacement Reserve Fund will be deposited into the Airport Revenue Fund.

8.10.2 The "Operation and Maintenance Reserve Fund" shall be funded in an amount equal to one-sixth of the annual Operation and Maintenance Budget for the Airport. The Operation and Maintenance Reserve Fund shall be used to pay for Operating Expenses at the Airport, as described in the Master Trust Indenture, and any interest earned on the Operation and Maintenance Reserve Fund will be deposited into the Airport Revenue Fund.

8.10.3 The "Debt Service Reserve Funds" shall be funded in amounts sufficient to meet the debt service reserve requirements established at the time of issuance of a particular series of Bonds, Subordinated Indebtedness or Other Indebtedness.

8.10.4 As part of its budgeting and annual rate-setting process, City shall determine the amounts necessary to ensure that the Renewal and Replacement Reserve Fund, the Operation and Maintenance Reserve Fund and the Debt Service Reserve Funds all remain fully funded, and the City shall raise both the Terminal Revenue Requirement and the Airfield Revenue Requirement as necessary to ensure such funding.

8.11 *Extraordinary Coverage Protection.* Airline acknowledges that in order to satisfy the Coverage Amount Requirement for Debt Service on Bonds and Subordinated Indebtedness, Airline shall be required to make extraordinary coverage protection payments in addition to the Landing Fees and Terminal Rents otherwise established by this Article 8 in any Fiscal Year in which the amount of Revenues less Operating Expenses is forecasted to be less than the sum of the Debt Service plus the Coverage Amount Requirement applicable thereto. Any amounts that must be collected for such extraordinary coverage protection payments shall be allocated in a fair and not unjustly discriminatory manner to the Airfield Revenue Requirement or the Terminal Revenue Requirement or both in the reasonable discretion of the Executive Director.

Article 9 Payments

9.01 *Terminal Rent.* Payments of one-twelfth (1/12) of the total annual Terminal Rent for Airline's Preferential Use and Exclusive Use Premises shall be due in advance, without demand or invoice, on the twentieth (20th) day of the preceding month. Said Terminal Rent shall be deemed delinquent if payment is not received by the first (1st) day of the month for which rent is owed. With the written approval of the Executive Director, in the Executive Director's sole discretion, Airline may submit payments of Terminal Rent in accordance with a written payment plan to be proposed by Airline.

9.02 *Landing Fees.* Payment of Airline's Landing Fees shall be due in arrears on the twentieth (20th) day of each month and shall be deemed delinquent if not received by the first (1st) day of the following month.

9.03 *Other Fees and Charges.* Payment for all other fees and charges due hereunder shall be due as of the due date stated on City's invoice. Said fees and charges shall be deemed delinquent if payment is not received within thirty (30) days of the stated date of such invoice.

9.04 *Payment Delinquencies.* City shall provide notice of any and all payment delinquencies, including payments of any deficiencies which may be due as a result of City's estimates of activity pursuant to Section 9.05 below or due to an audit performed pursuant to Section 8.08.1(b); provided, however, interest at the rate of eighteen percent (18%) per annum shall accrue against any and all delinquent payment(s) from the due date until the date payments are received by City. This provision shall not preclude City from canceling this Agreement for default in the payment of rentals, fees, or charges, as provided for in Article 13, or from exercising any other rights contained herein or provided by law.

9.05 *Estimates.* In the event Airline fails to submit its monthly Activity Reports as required in Section 8.08.1, City shall estimate the rentals, fees, and charges due from Airline based upon the highest month of the previous twelve (12) month's activity reported by Airline and issue an invoice to Airline for same. If no activity data is available, City shall reasonably estimate such activity and invoice Airline for same. Airline shall be liable for any deficiencies in payments based on estimates made under this provision; payment for said deficiencies shall be deemed due as of the date such rental fee or charge was due and payable. If such estimate results in an overpayment by Airline, City shall apply such overpayment as a credit against subsequent amounts due for such rentals, fees, and charges from Airline; provided, however, Airline shall not be entitled to any credit for interest on payments of such estimated amounts.

9.06 *Proration.* In the event Airline's obligations with respect to Airline Premises or any rights, licenses, or privileges granted hereunder shall commence or terminate on any date other than the first or last day of the month, Airline's rentals, fees, and charges shall be prorated on the basis of the number of days such premises, facilities, rights, licenses, services, or privileges were enjoyed during that month.

9.07 *Payment Process.* All payments due and payable hereunder shall be paid in lawful money of the United States of America, without deduction or set off, by wire transfer or if there is good cause for not making a wire transfer, by check made payable to City and delivered to the addresses shown on Exhibit I. Upon ninety (90) days written notice to Airline, City may change the addresses to which payments due and payable hereunder must be sent by Airline.

9.08 *Payment Acceptance.* The acceptance by City of any payments hereunder shall not preclude City from verifying the accuracy of any reports submitted by Airline to City or recovering from Airline any additional payments to City that are actually due.

Article 10 Capital Investments

10.01 *Need for Capital Investments.* Airline acknowledges that substantial Capital Investments to preserve, protect, enhance, expand and otherwise improve the Airport will be required during the Term of this Agreement. The current 10-year capital improvement plan ("CIP") for Capital Investments that are planned for the Airport is attached as Exhibit G. The Project is included in the CIP and shall be deemed to be pre-approved and exempt from the requirements of Section 10.02 except as provided in Section 10.06 with respect to The Project. This CIP has been prepared in good faith, but it shall not be binding on SLCDA or the City except as provided in Section 10.06 with respect to The Project. The City may make changes to the CIP in its discretion and, subject to the terms of this Article 10, the City reserves the right to make the Capital Investments listed on the CIP during the term of this Agreement. The City shall submit to the Signatory Airlines a proposed

budget for Capital Investment each Fiscal Year, and the City shall consider all comments and suggestions that are timely made by the Signatory Airlines prior to the adoption of the final budget.

10.02 *Capital Investment Subject to Signatory Airline Consideration.* No costs or amortization of costs of Capital Investments shall be charged to Airline in its Landing Fees or Terminal Rents for any new Capital Investments made by City after June 30, 2014 in the Airfield Cost and Revenue Center or in the Terminal Cost and Revenue Center unless at least one of the Signatory Airlines has approved such new Capital Investments. Further, notwithstanding the definition of Rentable Terminal Space in Article 1 of this Agreement, no space created by any such new Capital Investments in the Terminal on which Investment Service is not charged shall be counted as Rentable Terminal Space. In the event City decides to make a new Capital Investment in one of such centers (Airfield or Terminal), City and representatives of the Signatory Airlines shall meet to discuss to what extent, if any, the methods of amortizing and allocating Investment Service and determining Rentable Terminal Space provided for in this Agreement shall be changed for the purpose of calculating the charge to Airline for Investment Service resulting from such new Capital Investment.

10.03 *Capital Investment Not Subject to Signatory Airline Consideration.* Notwithstanding anything set forth in this Agreement to the contrary, the following Capital Investment may be undertaken by City at any time and shall not be subject to consideration by the Signatory Airlines:

10.03.1 Projects mandated by the FAA, DOT, TSA, or similar governmental authority, other than City, having jurisdiction over the Airport.

10.03.2 Projects to repair casualty damage to Airport property that must be rebuilt or replaced in order for City to meet its obligations pursuant to this Agreement, the Master Trust Indenture, or agreements with other lessees at the Airport.

10.03.3 Projects undertaken in Cost and Revenue Centers other than the Airfield Cost and Revenue Center and the Terminal Cost and Revenue Center.

10.03.4 Reasonable repairs, rebuilding, improvements or additions, including the associated costs therefor, necessary to comply with this Agreement or applicable law or to settle lawful claims, satisfy judgments, or comply with judicial orders against City by reason of its ownership, operation, maintenance or use of the Airport.

10.03.5 Expenditures of an emergency nature which, if not made within forty-eight (48) hours, would result in the closing of any portion of the Airport.

10.03.6 Projects funded directly or indirectly by PFCs, CFCs or grants; provided, however, that this provision shall not be interpreted as a waiver of Airline's consultation rights under 49 U.S.C. § 40117 or 14 C.F.R. Part 158 as such statute and regulation currently exist or may be amended.

10.03.7 Projects that are undertaken to satisfy the specific requirements of any Signatory Airline so long as such Signatory Airline agrees to pay all increased rentals, fees, charges and operating and maintenance costs that are sufficient to cover the annual debt service and operating and maintenance costs associated with the project.

10.03.8 Projects related to special purpose facilities for which the user agrees to pay or reimburse the Airport.

10.04 *Financing.* City may issue Bonds, Subordinated Indebtedness or Other Indebtedness to finance any Capital Investment permitted by this Article 10.

10.05 *Alterations and Improvements by Airline.*

10.05.1 Except as expressly provided herein and in accordance with the Airport's Tenant Improvement Standards, Airline shall make no alterations, additions, improvements to, or installations in the Airline Premises, including without limitation the installation of any cabling, without the prior written approval of the Executive Director.

10.05.2 Should Airline from time to time require alterations, additions, improvements to, or installations in the Airline's Exclusive Use or Preferential Use Premises, it may make alterations, additions, improvements to or installation in the Airline's Exclusive Use or Preferential Use Premises if Airline complies with the following conditions:

(a) Before the commencement of any such work, plans and specifications shall be approved by and filed with the Executive Director and all governmental departments or authorities having jurisdiction. The contractors performing the work shall be specified to the Executive Director before the commencement of any such work, and all work shall be subject to and in accordance with (i) Airport's Tenant Improvement Standards, (ii) requirements of law, and (iii) applicable regulations of all applicable governmental departments or authorities and, where required, each affected public utility company.

(b) Such work shall be performed in a professional manner and in accordance with the plans and specifications approved for the same. Airline shall redo or replace, at its sole cost and expense, any work that is not performed in this manner and in accordance with such plans and specifications as approved by the Executive Director. Airline shall notify the Executive Director within ten (10) days of final cessation of any work, and the Executive Director will make a final inspection and will issue a letter of approval or disapproval. Any request to redo or replace any such work shall be made by the Executive Director within twenty-one (21) days after receipt of notice of completion from Airline.

10.05.3 Subject to Section 15.03, all alterations, additions, or improvements placed at any time upon the Airport by Airline shall be deemed to be and become a part of the realty and the sole and absolute property of City upon termination or cancellation of Airline's lease of the premises where the same is located; provided, however, movable furniture, movable personal property, and other removable trade fixtures, including but not limited to passenger loading bridges or baggage conveyor systems put in at the expense of Airline or at the expense of third parties leasing such property to Airline, shall not be deemed to become the property of City at the termination or cancellation of this Agreement, and Airline shall have the right to remove said property from the Exclusive Use Premises and Preferential Use Premises on or about the time of termination of this Agreement, subject to any valid lien which City may have thereon. Any damage to the Airport, including the Exclusive Use Premises and the Preferential Use Premises, caused by such removal shall be repaired at Airline's expense.

10.05.4 Airline shall promptly pay all lawful claims and discharge all liens made against it or against City by Airline's contractors, subcontractors, materialmen, and workers and all such claims and liens made against Airline or City by other third parties arising out of or in connection with, whether directly or indirectly, any work done by or for Airline, its contractors, subcontractors, or materialmen; provided, however, that Airline shall have the right to contest the amount or validity of any such claim or lien without being in default of this Agreement upon furnishing security satisfactory to the Executive Director guaranteeing that such claim or lien will be properly and fully discharged forthwith in the event that such contest is finally determined against Airline or City.

10.05.5 Airline shall procure and maintain during construction of any and all improvements by Airline comprehensive public liability insurance, or if the work is to be done by an independent contractor, Airline shall require such contractor to procure and maintain such insurance in Airline's name. In either case, insurance shall be procured and maintained in limits and meeting requirements reasonably satisfactory to the City, and Airline shall defend, indemnify and hold harmless City and its officers, agents, and employees for all loss, cost damage, or expense arising out of or relating in any way to such construction, except such loss, cost, damage, or expense arising from or caused by the negligence or willful misconduct of City. Airline, on work in excess of \$100,000, shall require prime contractors to procure and maintain a payment bond in the face amount of the cost of improvements and in a form satisfactory to the City's attorney.

10.05.6 If, in the construction of any improvements to or upon the Airline's Exclusive Use Premises or Preferential Use Premises, Airline causes disturbance to or damage of any asbestos and/or asbestos-containing materials, Airline shall be solely responsible for the costs of remedying the disturbance or damage, including, without limitation, the removal of any asbestos and asbestos-containing materials.

10.06 *Special Provisions for The Project.*

10.06.1 *Support For The Project.* Airline has approved and shall support the Terminal Redevelopment Project ("The Project") described in Exhibit H-1. The Project will involve the design and construction of landside facilities including a parking garage with allocated space for rental car operations and ready return, a rental car quick turnaround facility, and rental car remote maintenance facilities; a passenger terminal facility and associated concourses; a central plant facility; associated temporary and permanent roadways; and other related components. City shall construct The Project substantially in accordance with contract documents developed by City-approved architects and engineers. Airline has approved the preliminary conceptual drawings of the Project dated February 2014 and acknowledges that the cost estimates referenced in this Agreement are based on these preliminary conceptual drawings. City acknowledges that Airline and all other Signatory Airlines have legitimate concerns about the potential cost impact of The Project on their business at the Airport and commits to use reasonable efforts to complete The Project and otherwise manage the Airport to achieve the shared goal of a cost per enplaned passenger ("CPE") of no more than \$5.00 (in 2013 dollars) in Fiscal Year 2024, the final year of the Term of this Agreement.

10.06.2 *Renovation of Existing Concourses.* Approval of The Project does not constitute approval for the design or construction of renovations of existing concourses A, B, C and D contemplated in connection with The Project or of any financing plan for such renovations. Signatory Airline approval is required under Section 10.02 before City may proceed with such concourse renovations or redevelopment.

10.06.3 *Airline Technical Representative.* The Chair of the Airline/Airport Affairs Committee ("AAAC") shall designate an Airline Technical Representative, subject to approval by the City, to represent the AAAC in matters pertaining to The Project. Airline Technical Representative shall participate in the design review process and provide comments and suggestions for those components of The Project containing Rentable Airline Space. Airline Technical Representative may attend meetings of the Airport's Financial Oversight Committee and meetings of the Airport's Construction Committee concerning the Project. Airline Technical Representative shall provide periodic updates of The Project to the AAAC members as appropriate and is expected to faithfully represent the collective interests of all of the members of the AAAC as a group. Airline Technical Representative may be present prior to and during construction of The Project to inspect, review and recommend to the City action with regard to plans, specifications, bids, change orders and other construction matters related to The Project.

10.06.4 *Development of Contract Documents for The Project.* City represents that its architects and engineers are required under contract to develop as expeditiously as possible cost estimates, a schedule of contracts and construction schedules for The Project. In the development of these contract documents and construction schedules, City and its architects and engineers will consult with Airline Technical Representative and give due consideration to the reasonable requests, suggestions and recommendations of the AAAC. All proposed contract documents shall be made available in Salt Lake City for review by Airline Technical Representative before such documents are put out for bid, so that Airline Technical Representative shall have the opportunity, prior to and during the bid period, to review the proposed contract documents and to submit suggestions or recommendations for change. Airline Technical Representative shall be notified in advance of solicitations for bids and proposals related to The Project.

10.06.5 *Estimated Costs of The Project.* The total cost of The Project is currently estimated to be \$1.782 Billion, as detailed in Exhibit H-2. Project costs include Relocation Costs associated with and occasioned by The Project, including costs associated with interim moves required to facilitate construction and with moves resulting from the completion of The Project. The total costs of The Project shall not exceed \$1.782 Billion, except as follows:

(i) The total costs of The Project may be increased with the approval of Signatory Airlines that collectively account for more than fifty-five percent (55%) in number of all Signatory Carriers or collectively accounted for more than fifty-five percent (55%) of all Terminal Rents paid to the City in the preceding Fiscal Year.

(ii) The total costs of The Project may be increased without Signatory Airline approval to reflect additional costs that result from delays caused by labor disputes, fire or other acts of God, legal acts, delays in delivery of materials or equipment beyond City's control or any other acts beyond City's control; provided, however, that no change orders or claims resulting from any such cause shall be agreed to or approved by City until a written copy of the proposed change order or of the claim, and any supporting documentation, has been provided to Airline Technical Representative so that Airline Technical Representative shall have 10 (ten) business days, whenever practicable without impairing City's rights, to submit recommendations, which shall be considered in good faith by City.

(iii) Increases in the total costs of The Project that are attributable to elements of The Project undertaken to satisfy the specific requirements of any Signatory Airline

shall be permitted so long as such Signatory Airline agrees to pay all costs attributable to such Project elements.

10.06.6 *Budget Overruns on The Project.* It is contemplated that a number of contracts will be necessary in order to construct The Project, and these contracts are described in Exhibit H-3. The current Project construction schedule is provided in Exhibit H-4. The actual bids for each contract will be compared to the estimated costs for such contract and if the actual bid exceeds the estimate for any such contract by more than ten percent (10%), or if contracts at any time previously executed, including change orders plus estimated costs of all work necessary to complete the portion of The Project subject to the contract, exceed the total estimated cost of the portion of The Project subject to the contract by more than ten percent (10%), City shall meet promptly with Airline Technical Representative prior to the award of any further contracts to determine how The Project can be revised so that the cost of The Project will not exceed the total estimated cost of The Project unless an increase in total costs of The Project is approved under Section 10.06.5(i). If City and Airline Technical Representative cannot agree on so revising the Project or accepting increased costs within 30 days from the date of the receipt of bids, then a majority of a committee composed of the Airline Technical Representative, the Program Director, and the Airport's Director of Finance shall make recommendations to the Executive Director to revise such contract to bring costs within the total allowable limit in accordance with Section 10.06.5.

10.06.7 *Funding Plan for The Project.* City will finance The Project from any available federal grants, state grants, PFCs, CFCs, Airport funds and the proceeds of Bonds, Subordinated Indebtedness or Other Indebtedness issued by the City, or from any other lawful funding source. City's current Funding Plan for The Project is summarized in Exhibit H-5. Airline acknowledges that the actual funding sources drawn upon by City to finance The Project may differ from the current Funding Plan based upon changing financial market conditions; the availability of federal and state grants; City's ability to use PFCs and CFCs; and other factors.

(a) City will use its best efforts to receive federal and state grants for grant-eligible components of The Project, to obtain authority to collect and use PFCs and CFCs for eligible components of The Project and otherwise to reduce the costs of The Project to be recovered from Signatory Airlines through rates and charges.

(b) City may borrow monies or use other available funds of City to finance the ongoing effort to design and construct the Project, in accordance with the Funding Plan summarized in Exhibit H-5.

(c) City agrees to use its best efforts to authorize and issue Bonds, Subordinated Indebtedness or Other Indebtedness to finance the design and construction of The Project, to provide for capitalized interest and required reserves for the payment of Bonds, Subordinated Indebtedness or Other Indebtedness to reimburse City for funds expended in connection with The Project and financing costs thereof, and any preliminary expenses of The Project from January 1, 2013 to the sale of such Bonds, Subordinated Indebtedness or Other Indebtedness and to pay for the expenses related to the issuance of such Bonds, Subordinated Indebtedness or Other Indebtedness.

(d) If for any reason Bonds, Subordinated Indebtedness or Other Indebtedness cannot be sold to repay borrowed monies, to replace Airport funds, or to otherwise pay

for costs of The Project, such amounts may be included in the Airfield Revenue Requirement or the Terminal Revenue Requirement, as appropriate, and recovered by City over a reasonable time.

(e) Airline acknowledges that it may be necessary to issue additional Bonds, Subordinated Indebtedness or Other Indebtedness to complete The Project in the event that, notwithstanding City's best efforts to avoid increased Projects costs, the total cost of The Project exceeds the estimate and such excess is approved in the manner set forth in Sections 10.06.5 and 10.06.6. City agrees to evaluate alternate funding sources before issuing additional Bonds, Subordinated Indebtedness or Other Indebtedness and to report such alternate funding sources to the Airline Technical Representative.

(f) Airline acknowledges that in the event that the grants-in-aid are less than the estimated amounts, it may be necessary for City to impose and use additional PFCs or issue additional General Airport Revenue Bonds to complete The Project.

10.06.8 *Change Orders.* Any change order or other amendment to any contract entered into by City for the Project, which would increase the amount of the contract by the greater of \$250,000 or more than 10% of the original contract, or which would extend the time to complete a contract by more than 25%, shall not be agreed to or approved by City until the proposed change order or other amendment and any supporting documentation has been furnished to Airline Technical Representative so that Airline Technical Representative shall have 10 (ten) business days, whenever practicable without impairing City's rights, to submit recommendations as to how such change order shall be handled, which recommendations shall be considered in good faith by City.

10.06.9 *Notice of Claims.* City shall promptly inform Airline Technical Representative of any and all claims on The Project by contractors or consultants for additional time to complete the contract or additional compensation which would increase the amount of the contract by the greater of \$250,000 or more than 10% of the amount of a contract. Copies of all such written claims, and any supporting documentation, shall be provided to Airline Technical Representative within 10 days after receipt of such claim. Airline Representative shall have 10 business days, whenever practicable without impairing City's rights, to submit recommendations as to how such claim should be handled, which recommendations shall be considered in good faith by City. Airline may submit legal analyses and opinions for consideration by City's legal counsel in connection with any such claim.

10.06.10 *Airline Relocations, Accommodations and Right-Sizing.*

(a) *Reallocations of Space During Construction of The Project.* Airline acknowledges that during construction of The Project, in order to facilitate the continued operations of all Passenger Carriers at the Airport and to serve the traveling public, it will be necessary for City, from time to time, to reallocate space under Section 4.05.1 on an interim, transitional basis pending completion of The Project.

(b) *Accommodations.* Airline acknowledges that during construction of The Project, in order to accommodate the needs of all Passenger Carriers for reasonable access to required Terminal facilities, it is likely that Airline will be required to accommodate other Passenger Carriers at its Exclusive Use and Preferential Use Premises in accordance with and subject to Sections 7.02 and 7.03.

(c) *Right-Sizing Upon DBO.* In anticipation of the completion of new Terminal facilities to be constructed in The Project that City makes available to Airline, Airline may request and City shall grant, effective as of the DBO of such new facilities, a reduction in the size of the Airline Premises or, to the extent there is available space, an increase in the size of the Airline Premises. Airline shall be obligated to pay for all Airline Premises assigned to Airline after any such reductions or increases have been made. City and Airline acknowledge that The Project may be completed in phases and that not all Air Carriers will be given this right-sizing opportunity at the same time.

10.06.11 *Cost Recovery.* City may continue, after the DBO of The Project, to include in the Terminal Revenue Requirement calculated in accordance with Section 8.03.1 any Debt Service, Coverage Amounts, Amortization, Operating Expenses and Reserve Fund requirements allocable to Rentable Airline Space that existed before the DBO of The Project, but which City expects will be demolished some time after the DBO of The Project, for so long as such costs are incurred by City even if (a) such space is vacant after the DBO of The Project and (b) City has no reasonable expectation that such space will be leased to any Air Carrier or otherwise put to revenue-producing use. Any such vacant space shall continue to be included in the amount of Rentable Airline Space used in the calculation of the Net Terminal Revenue Requirement to be met by all Passenger Carriers; provided, however, that the Net Terminal Revenue Requirement shall be increased by the costs of operating and maintaining such vacant space in an amount not to exceed \$1.50 per square foot.

10.07 *Finishes and Installations in New Facilities Constructed in The Project.*

10.07.1 *Modifications to Finishes in New Premises.* City will provide Airline with the baseline specifications and design standards for finishes in new Airline Premises to be constructed in The Project. Airline may request, subject to City approval, waivers or enhancements to these baseline specifications and design standards. If any such requests for changes are approved, Airline shall pay to City the net increase in cost, if any, for such changes.

10.07.2 *Financing Costs of Enhanced Tenant Finishes in New Premises.* City will finance enhanced Signatory Airline tenant finishes approved under Section 10.07.1 if requested by Airline prior to the issuance of Bonds, Subordinated Indebtedness or Other Indebtedness. Such amount shall be in addition to the Estimated Project Cost set forth in Exhibit H-2 and the cost of any resulting increase in borrowing by City shall be repaid by Airline. Airline shall provide City with a list of property and equipment financed with tenant finish funds, and Airline and City mutually shall agree on an annual repayment schedule based upon the useful lives of the assets financed. If Airline terminates this Agreement for any reason before the full repayment of debt associated with its own tenant finishes, any unpaid principal balance shall be immediately due and payable. Airline, with City approval, may assign its space and related tenant improvements to a successor Airline, as long as the successor Airline agrees to repay any unpaid debt associated with tenant finishes.

Article 11 Damage Or Destruction

11.01 *Partial Damage and Repair.* If the Airline Premises shall be partially damaged by fire, flood, windstorm, earthquake, or other casualty but said damage shall not render the Airline Premises untenable as reasonably determined by City, there shall be no abatement or reduction in the rates and charges payable by Airline hereunder so long as Debt Service payments are required; and (1) the portion of the Airline Premises so damaged shall be promptly repaired, rebuilt, or restored

by City with such changes, alterations, and modifications (including the substitution and addition of other property) as may be agreed upon by City and Airline as shall not impair the character of the Airline Premises; and (2) there shall be applied for such purpose so much as may be necessary of any net proceeds received by City under insurance policies covering such losses, after payment of any expenses of obtaining or recovering such net proceeds, as well as any moneys which City determines to make available from the sale of Bonds, Subordinated Indebtedness or Other Indebtedness. In the event that such net proceeds are insufficient to pay in full the costs of such repair, rebuilding, or restoration, City will endeavor to use available funds or arrange financing through the issuance of Bonds, Subordinated Indebtedness or Other Indebtedness or other means and complete such repair, rebuilding, or restoration.

11.02 *Substantial or Complete Damage and Repair.* If the Airline Premises shall be substantially or completely damaged or destroyed by fire, flood, windstorm, earthquake, or other casualty and said damage or destruction renders the Airline Premises untenable as reasonably determined by City, there shall be an equitable and proportional abatement or reduction in the rates and charges payable by Airline hereunder based on the portion of the Airline Premises rendered untenable as it relates to the total Airline Premises until such time as such affected Airline Premises shall be restored for Airline's use; and (1) the portion of the Airline Premises so damaged or destroyed shall be promptly repaired, rebuilt, or restored by City with such changes, alterations, and modifications (including the substitution and addition of other property) as may be agreed upon by City and Airline as shall not impair the character of the Airline Premises; and (2) there shall be applied for such purpose so much as may be necessary of any net proceeds received by City under insurance policies covering such losses, after payment of any expenses of obtaining or recovering such net proceeds, as well as any moneys which City determines to make available from the sale of Bonds, Subordinated Indebtedness or Other Indebtedness. In the event that such net proceeds are insufficient to pay in full the costs of such repair, rebuilding, or restoration, City will endeavor to arrange financing through the issuance of Bonds, Subordinated Indebtedness, Other Indebtedness or other means and complete such repair, rebuilding, or restoration. In addition, City will endeavor to locate suitable, comparable space for Airline to continue to operate while its Airline Premises are being restored. Airline will pay the applicable rates and charges due under this Agreement for any such space.

11.03 *Damage Caused by Airline.* Notwithstanding the provisions of this Article 11, in the event that due to the negligence or willful act or omission of Airline, its employees, its agents, or licensees, Airline Premises shall be damaged or destroyed by fire, other casualty or otherwise, there shall be no abatement of rent during the repair or replacement of said Airline Premises. To the extent that the costs of repairs shall exceed the amount of any insurance proceeds payable to City by reason of such damage or destruction, Airline shall pay the amount of such additional costs to City.

Article 12 Indemnification, Waiver Of Claims and Insurance

12.01 *Indemnification.*

12.01.1 Airline agrees to protect, defend, reimburse, indemnify and hold City, its agents, employees, board members and elected officers and each of them, free and harmless at all times from and against any and all claims, liability, expenses, losses, costs, fines and damages (including actually incurred reasonable attorney's fees) and causes of action of every kind and character, whether or not meritorious, against or from City by reason of any damage to property or bodily injury (including death) incurred or sustained by any party hereto, any agent or employee of

any party hereto, and any third or other party whomsoever or any governmental agency, arising out of or incident to or in connection with Airline's performance under this Agreement, Airline's use or occupancy of the Airline Premises, Airline's negligent acts, omissions or operations hereunder or the performance, non-performance or purported performance of Airline or any breach of the terms of this Agreement by Airline; provided, however, that Airline shall not be so obligated to protect, defend, reimburse, indemnify and hold City free and harmless when the applicable claim, liability, expense, loss, cost, fine, damage or cause of action is caused by the negligence or willful misconduct of the agents, employees, contractors, officers or boards of City (but only to the extent of the portion of the claim, liability, expense, loss, cost, fine, damage or cause of action caused by such negligence or willful misconduct). Upon the filing by anyone of a claim with City for damages arising out of incidents for which Airline herein agrees to indemnify and hold City harmless, City shall promptly notify Airline of such claim and, in the event that Airline does not settle or compromise such claim, then Airline shall undertake the legal defense of such claim both on behalf of Airline and on behalf of City. It is specifically agreed, however, that City, at its option and at its own expense, may participate in the legal defense of such claim. Any final judgment against City from which no appeals remain for any cause for which Airline is liable hereunder shall be conclusive against Airline as to liability and amount upon the expiration of the time for appeal therefrom. Airline recognizes the broad nature of this indemnification and hold harmless clause and voluntarily makes this covenant and expressly acknowledges that the terms and conditions of this Agreement constitute good and valuable consideration provided by City in support of this indemnification in accordance with laws of the State of Utah.

12.01.2 If City and Airline are jointly, concurrently or successively liable for an actionable wrong to an injured person, each party shall have a right to contribution from the other party. The right of contribution shall be limited to the amounts paid by a party in excess of that party's share of liability, based upon principles of equity (including the principle of comparative fault). If either party receives any claim, demand, suit or judgment for which the other party is or may be jointly, concurrently or successively liable, that other party shall be given prompt notice thereof. If City and Airline become co-defendants, either may file a cross-complaint against the other for a declaration of rights respecting the relative responsibility of each for contribution. If either City or Airline becomes a defendant in an action or proceeding in which the other is a non-party, the defendant therein may either file a cross-complaint against the non-party for a declaration of rights of contribution or may bring a separate and independent action against the non-party for contribution.

12.01.3 This Section 12.01 shall survive the termination of this Agreement as to claims arising during the Term hereof. Compliance with the insurance requirements of this Article 12 shall not relieve Airline of its liability or obligation to indemnify the City as set forth in this Article 12.

12.02 *Waiver of Claims.* Airline, as a material part of the consideration to be rendered to City under this Agreement, hereby waives all claims or causes of action against City, its officers, or employees which it may now or hereafter have for damages to any property on, about, or related to the Airport, and for injuries or death to persons on, about, or related to the Airport, from any cause or causes arising at any time, except from the negligent or willful act or omission of City, its officers, or employees. By way of example and not limitation, save and except as arises out of the negligent or willful act of City, its officers, or employees, Airline hereby waives any and all claims or causes of action which it may now or hereafter have against City, its officers, or employees (a) for loss, injury, or damage sustained by reason of any deficiency, impairment, and interruption of any water,

electrical, gas, plumbing, air conditioning, or sewer service or system serving any portion of the Airport; (b) for any loss, injury, or damage arising or resulting from any act or neglect or omission of any other tenant, subtenant, permittee, concessionaire, or occupant of the Airport, or any person who uses the Airport with authorization or permission of the City (City agrees to use its best efforts to control tenants, subtenants, permittees, concessionaires, occupants, or Airport users to prevent loss, injury, or damage); and (c) for any loss or damage to the property of, or injury or damage to Airline, its officers, employees, agents, contractors, or any other person whomsoever, from any cause or causes arising at any time because of Airline's use or occupancy of the Airline Premises or of the Airport, or its operations thereon (City will use its best efforts to control the activities of other users).

12.03 *Insurance.*

12.03.1 Airline, at its sole cost and expense, and for the full Term of this Agreement or any renewal thereof, shall obtain and maintain all of the following minimum insurance:

(a) An Aircraft Liability policy, with coverage of Two Hundred Million Dollars (\$200,000,000) combined single limit for bodily injury and property damage, which shall include but not necessarily be limited to all of the following coverages: Aircraft Liability, including General Liability, Aircraft Products and Completed Operations, Liquor Liability, Premises Liability, Products & Completed Operations, Contractual Liability, Hangarkeepers Liability, Motor Vehicle Liability within the confines of the Airport, Cargo Legal Liability and Fueling and Refueling (if such operations are conducted by Airline).

(b) Fifty Million Dollars (\$50,000,000) War and Named Perils coverage for bodily injury and property damage, each occurrence and annual aggregate, or the U.S. Government equivalent.

(c) A Workers' Compensation and Employers' Liability policy written in accordance with the laws of the State of Utah providing coverage for any and all employees of Airline and providing coverage as follows:

- (i) Workers' Compensation (Coverage A);
- (ii) One Million Dollars (\$1,000,000) in Employers' Liability (Coverage B);
- (iii) Broad Form All States Endorsement;
- (iv) Voluntary Compensation Endorsement; and
- (v) Waiver of Subrogation in favor of City.

(d) A Commercial Business Auto policy with a minimum limit of not less than Five Million Dollars (\$5,000,000) combined single limit for bodily injury and property damage providing that coverages shall be applicable to any and all leased, owned, hired or non-owned vehicles used in pursuit of any of the activities associated with this Agreement. Any and all mobile equipment, including cranes, which is not covered under the Comprehensive Business Auto policy shall have said coverage provided for under the Comprehensive General Liability policy required above.

(e) Property Insurance in an amount equal to “Value of Airline Improvements and Betterments” during the course of construction and after completion. Coverage shall include Replacement Value, covering Airline improvements and betterments, for Fire & Extended Coverage, including Sprinkler Leakage, Vandalism & Malicious Mischief, and Debris Removal.

12.03.2 Any deductibles or self-insured retentions must be declared by Airline and accepted by City.

12.03.3 Except for U.S. Government equivalent War and Named Perils coverage, Workers Compensation/Employer’s Liability Insurance and Property Coverage, the insurance policies are to contain, or be endorsed to contain, the following provisions:

(a) City and its officials, employees, agents and contractors are to be covered as an additional insured with respect to liability arising out of or with respect to (i) activities performed by, or on behalf of, Airline, (ii) the products and completed operations of Airline, (iii) premises owned, leased or used by Airline, or (iv) automobiles owned, leased, hired or borrowed by Airline. The coverage shall contain no special limitations on the scope of protection afforded to City, its officials, employees, agents and contractors.

(b) Airline’s insurance coverage shall be primary insurance with respect to City, its officials, employees, agents and contractors. Any insurance or self-insurance maintained by City, its officials, employees, agents or contractors, shall be excess of Airline’s insurance and shall not contribute with it.

12.03.4 Any failure to comply with reporting provisions of the policies shall not affect coverage provided to City, its officials, employees, agents or contractors.

12.03.5 Coverage shall state that Airline’s insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer’s liability.

12.03.6 City shall retain the right at any time to review the coverage, form, and amount of the insurance required hereby. If, in the opinion of City, the insurance provisions in this Agreement do not provide adequate protection for City and/or for members of the public, City may require Airline to obtain insurance sufficient in coverage, form, and amount to provide adequate protection. City’s requirements shall be commercially reasonable but shall be designed to assure protection from and against the kind and extent of risk which exists at the time a change in insurance is required (provided such protection is available on commercially reasonable terms), and Airline agrees to provide same within thirty (30) days of receiving notice from City.

12.03.7 Provisions of this paragraph as to maintenance of insurance shall not be construed as limiting in any way the extent to which Airline may be held responsible for the payment of damages to persons or property resulting from its activities or of any person or persons for which it is otherwise responsible.

12.03.8 Coverage under each insurance policy required by this section shall not be canceled, non-renewed or changed except after thirty (30) days’ prior written notice has been given to

City (notwithstanding the foregoing, the notice period for War Risks and Named Allied Perils insurance may be seven (7) days or such lesser period as may be customarily available).

12.03.9 Insurance is to be placed with insurers reasonably acceptable to City’s Risk Manager.

12.03.10 Airline shall furnish City with certificates of insurance, and “Additional Insured” endorsements where appropriate, as required by this clause. The certificates for each insurance policy are to be signed by a person authorized by that insurer to verify coverage on its behalf.

12.03.11 Proof of insurance shall be mailed to the following address or any subsequent address as may be directed in writing by City:

Salt Lake City Department of Airports
Contracts Manager
P.O. Box 145550
Salt Lake City, UT 84114

12.03.12 City shall, during the term of this Agreement, procure and maintain liability and fire and extended coverage insurance for the Airport, Terminal, and other facilities at the Airport in such amounts and for such insured coverages as City may determine as being reasonably required and in the prudent operation of the Airport.

12.03.13 Airline shall self-insure (by establishing reserves in accordance with accepted accounting practices) or procure and keep in force fire and extended coverage insurance upon its leasehold improvements located within its Exclusive Use Premises or Preferential Use Premises, to the full replacement-cost, insurable value thereof and shall furnish City, upon execution of this Agreement, with evidence that such self-insurance reserves have been established or such coverage has been procured and is being maintained in full force and effect. Said evidence of insurance shall be endorsed to require (30) days written notice to City of cancellation or material change and to provide that any insurance carried by City be excess insurance only.

12.03.14 City and Airline agree to have all property insurance carried with respect to the Airport, the Airline Premises or any property therein endorsed with a clause that waives all rights of subrogation that the insurer of one party may have against the other party hereto. To that effect, City and Airline will respectively employ diligent efforts to cause their insurance companies to endorse the affected property insurance policies with a waiver of subrogation clause as required herein.

Article 13 City Remedies

13.01 *Events of Default.* The events described below shall be deemed events of default by Airline hereunder. Upon the occurrence of any one of the following events of default, City may immediately issue written notice of default.

13.01.1 The conduct of any business or performance by Airline of any acts at the Airport not specifically authorized herein or by other agreements between City and Airline, and said

business or acts do not cease within thirty (30) days of receipt of City's written notice to cease said business or acts.

13.01.2 The failure to cure a default in the performance of any of the terms, covenants, and conditions required herein (except insurance requirements as set forth in Section 12.03, and payment of rentals, fees, and charges, as provided for in Article 9) within thirty (30) days of receipt of written notice by City to do so; or if by reason of the nature of such default, the same cannot be remedied within thirty (30) days following receipt by Airline of written demand from City to do so, Airline fails to commence the remedying of such default within said thirty (30) days following such written notice, or having so commenced, shall fail thereafter to continue with diligence the curing thereof. Airline shall have the burden of proof to demonstrate (i) that the default cannot be cured within thirty (30) days, and (ii) that it is proceeding with diligence to cure said default and that such default will be cured within a reasonable period of time.

13.01.3 The failure by Airline to pay any part of the rentals, fees, and charges due hereunder and the continued failure to pay said amounts in full within thirty (30) days of City's written notice of payments past due; provided, however, if a dispute arises between City and Airline with respect to any obligation or alleged obligation of Airline to make payments to City, payments under protest by Airline of the amount due shall not waive any of Airline's rights to contest the validity or amount of such payment.

13.01.4 The failure by Airline to provide and keep in force insurance coverage in accordance with Article 12.

13.01.5 The appointment of a trustee, custodian, or receiver of all or a substantial portion of Airline's assets.

13.01.6 The divestiture of Airline's estate herein by operation of law, by dissolution, or by liquidation (not including a merger or sale of assets).

13.01.7 The abandonment by Airline of the Airline Premises, or its conduct of business at the Airport; and, in this connection, suspension of operations for a period of sixty (60) days will be considered abandonment in the absence of a labor dispute or other governmental action in which Airline is directly involved.

13.01.8 The failure by Airline to remit PFCs in accordance with Section 18.03.

13.02 *Continuing Responsibilities of Airline.* Notwithstanding the occurrence of any event of default, Airline shall remain liable to City for all rentals, fees, and charges payable hereunder and for all preceding breaches of any covenant of this Agreement. Furthermore, unless City elects to cancel this Agreement, Airline shall remain liable for and promptly pay all rentals, fees, and charges accruing hereunder for the Term of this Agreement.

13.03 *Remedies.* Upon the occurrence of any event enumerated in Section 13.01 and after any applicable notice and cure periods, the following remedies shall be available to City:

13.03.1 City may exercise any remedy provided by law or in equity, including but not limited to the remedies hereinafter specified. The various rights and remedies herein contained shall not be considered as exclusive of any other right or remedy but shall be construed as cumulative

and shall be in addition to every other remedy now or hereafter existing at law, in equity or by statute. In addition to any damages or payments specified herein, City shall be entitled to reimbursement from Airline for any costs of City related to any default by Airline under this Agreement.

13.03.2 City may cancel this Agreement, effective upon the date specified in the notice of cancellation. Upon such date, Airline shall be deemed to have no further rights hereunder and City shall have the right to take immediate possession of the Airline Premises.

13.03.3 City may cure or cause any violation to be cured for the account and at the expense of Airline, and all sums so expended by City related to such cure, together with ten percent (10%) thereof for cost of administration, shall be paid by Airline on demand.

13.03.4 City may reenter the Airline Premises and may remove all Airline persons and property. Upon any removal of Airline property by City hereunder, Airline property may be stored at a public warehouse or elsewhere at Airline's sole cost and expense.

13.03.5 City may relet Airline Premises and any improvements thereon or any part thereof, at such rentals, fees, and charges and upon such other terms and conditions as City, in its sole discretion, may deem advisable, with the right to make alterations, repairs of improvements on said Airline Premises.

13.03.6 In the event that City relets Airline Premises, rentals, fees, and charges received by City from such reletting shall be applied: (i) to the payment of any indebtedness, other than rentals, fees, and charges due hereunder, from Airline to City; (ii) to the payment of any cost of such reletting; and (iii) to the payment of rentals, fees, and charges due and unpaid hereunder. The residue, if any, shall be held by City and applied in payment of future rentals, fees, and charges as the same may become due and payable hereunder. If that portion of such rentals, fees, and charges received from such reletting and applied to the payment of rentals, fees, and charges hereunder is less than the rentals, fees, and charges as would have been payable during applicable periods by Airline hereunder, then Airline shall pay such deficiency to City whenever rentals, fees or charges are due to City hereunder. Airline shall also pay to City, as soon as ascertained, any reasonable costs and expenses incurred by City in such reletting not covered by the rentals, fees, and charges received from such reletting.

13.03.7 No reentry or reletting of Airline Premises by City shall be construed as an election on City's part to cancel this Agreement unless a written notice of cancellation is given to Airline.

13.04 *Remedies under Federal Bankruptcy Laws.* Notwithstanding the foregoing, upon the filing by or against Airline of any proceeding under Federal bankruptcy laws, this Agreement shall automatically terminate (unless such termination is affirmatively waived at the time of the filing or subsequently by City) in addition to other remedies provided under provisions of the Federal Bankruptcy Rules and Regulations and Federal Judgeship Act of 1984, as such may be subsequently amended, supplemented, or replaced. Notwithstanding the foregoing, City shall be entitled to waive the automatic termination provision mentioned above in writing. In the event that City waives the automatic termination requirement, City shall not be obligated to perform under the terms of this Agreement so long as any proceeding under Federal bankruptcy laws remains outstanding. As provided in Section 18.02, any waiver by City of the automatic termination provision in this Section

13.04 shall not be construed to be a waiver of any subsequent automatic termination hereof. City's rights under this Section 13.04 shall be in addition to all other rights and remedies provided to City under this Agreement.

Article 14 Environmental

14.01 Hazardous Materials.

14.01.1 *Standards of Operation – Disposal, Use and Storage of Hazardous Materials.* The voluntary or involuntary release or discharge of Hazardous Materials on the Airport is strictly prohibited (except to the extent, if any, that disposal of Hazardous Materials through the City's sewerage system complies with all applicable Environmental Laws). Storage and use of Hazardous Materials on the Airport is prohibited, except:

(a) Airline may store and use Hazardous Materials on the Airline Premises in a safe and prudent manner and in accordance with the requirements of all applicable Environmental Laws but only for those kinds and quantities of Hazardous Materials that are normally used in conducting the activities permitted under this Agreement. Airline shall provide Executive Director with a copy of any application for a permit, if required, for use or storage of Hazardous Materials on the Airline Premises from any regulatory agency responsible for enforcement of Environmental Laws and shall also provide a copy of any permit received from such agency; and

(b) This Agreement does not authorize the Airline to store and use Hazardous Materials on the Airport other than the Airline Premises.

14.01.2 *Liability.* Airline shall be solely and fully responsible and liable for:

(a) Storage, use or disposal of Hazardous Materials on the Airline Premises or the Airport by Airline, Airline's officers, agents, employees, contractors, permittees or invitees; or

(b) Any Hazardous Material release or discharge which is caused by or results from the activities of Airline, Airline's officers, agents, employees, contractors, permittees or invitees on the Airline Premises or the Airport.

14.01.3 *Prevention of Release or Discharge.* Airline shall take reasonable precautions to prevent its activities from causing any Hazardous Material release or discharge to occur on the Airline Premises or the Airport and shall take all reasonable precautions to prevent any release or discharge into soil or groundwater or any unlawful release into City's sanitary or storm drains and sewers at the Airport.

14.01.4 *Obligation to Investigate and Remediate.* Airline, at Airline's sole cost and expense, shall promptly investigate and remediate, in accordance with requirements of all applicable Environmental Laws, any release or discharge or threat of release or discharge of Hazardous Materials on the Airline Premises unless Airline demonstrates that it was caused by a condition that existed prior to Airline entering the Airline Premises or caused by the City's negligence or non-compliance with Environmental Laws (including negligence or non-compliance of its officers, agents, employees or contractors) or on the Airport (outside of Airline Premises) caused or resulting from activities of Airline, Airline's officers, agents, employees, contractors, permittees or invitees,

including but not limited to any release or discharge or threat of release or discharge into soil or groundwater which was caused or results in whole or in part from the activities of Airline, Airline's officers, agents, employees, contractors, permittees or invitees but excluding the disposal of Hazardous Materials through the City's sewerage system so long as such disposal complies with all applicable Environmental Laws.

In addition to all other rights and remedies of City hereunder, if Airline does not promptly commence investigation of any such release or discharge or threat of release or discharge or does not diligently pursue appropriate remedial activities as required by applicable Environmental Laws for which Airline is responsible under this Agreement, City, in its discretion, may pay to have same investigated and remediated as required by applicable Environmental Laws, and Airline shall reimburse City for its share of the reasonable and documented costs within thirty (30) days of City's demand for payment. Notwithstanding the foregoing, City shall be entitled to reimbursement only if it first gives written notice to Airline of its intention to commence investigation and/or remediation prior to such commencement and Airline either does not commence diligent pursuit or remedial activities within thirty (30) business days of the notification or does not maintain such diligent pursuit; except prior notice by City is not required if City determines that investigation or remediation is urgent.

14.01.5 *Indemnification.* Airline shall defend (with counsel acceptable to City in City's reasonable discretion), indemnify and hold City harmless from and against all loss, damage, liability (including all consequential damages) and expense (including, without limitation, the reasonable and necessary costs of any cleanup and remediation of Hazardous Materials as required by applicable Environmental Laws or which may be necessary to redevelop the contaminated Airport property) which City may sustain as a result of the following associated with operations under this Agreement and not to the extent that the Airlines can demonstrate that the loss, damage, liability and expense is caused by a condition existing prior to Airline entering the property or to the extent caused by the City's negligence or non-compliance with Environmental Laws (including negligence or non-compliance of its officers, agents, employees or contractors):

(a) Storage, use or disposal of Hazardous Materials on the Airline Premises or the Airport by Airline, Airline's officers, agents, employees, contractors, permittees or invitees; or

(b) Any Hazardous Material release or discharge on the Airline Premises or the Airport other than the Exclusive Use Premises, including but not limited to any release or discharge into soil or groundwater or City's sanitary or storm drains and sewers at the Airport or elsewhere, which is caused by or results from the activities of Airline, Airline's officers, agents, employees, contractors, permittees or invitees.

By way of clarification, this indemnity covers any losses relating to Hazardous Materials or Environmental Laws as opposed to the indemnity in Section 12.01.

14.01.6 *Release of Hazardous Materials Claims Against City.* Airline releases, acquits and forever discharges City from any and all claims, actions, causes of action, demands, rights, damages, costs, including but not limited to loss of use, lost profits, or expenses, which Airline may now have, or which may hereafter accrue on account of or in any way growing out of all known and unknown, foreseen and unforeseen bodily and personal injuries and property damage, and the consequences thereof resulting or arising out of the presence or cleanup of any Hazardous Material on the Airline Premises or the Airport, but only to the extent the presence of such

Hazardous Materials was not caused by or did not result from the negligence, willful misconduct, acts or omissions of City, City's officers, agents, employees contractors, permittees or invitees. This release shall not apply to any claims for contribution that Airline may have against City in the event that Airline incurs any cost in undertaking any cleanup of Hazardous Material from the Airline Premises or the Airport ordered by a governmental agency, to the extent that the cleanup order and costs result from a release or discharge of Hazardous Material for which Airline is not responsible and liable under this Agreement.

14.01.7 *Cessation of Activities.* Airline shall cease its activities on the Airline Premises and the Airport, to the extent requested by City and upon thirty (30) days' notice from City, if City determines, in its sole discretion, that such cessation is necessary to investigate, cure or remediate any release or discharge of Hazardous Materials or any threat of a release or discharge thereof; provided, however, that no notice from City for the cessation of activities shall be required in the event of an emergency. City shall use reasonable efforts to attempt to temporarily accommodate Airline at suitable substitute space in the Airport during the required cessation of Airline activities. Airline shall not recommence its activities on the Airline Premises or the Airport, as appropriate, until notified by City that such release or discharge or threat of release or discharge of Hazardous Material has been investigated, cured and remediated in a manner satisfactory to City.

14.01.8 *Abatement of Fees and Charges on Airport.* Airline shall not be charged fees or charges for use of the Airline Premises or the Airport to the extent that Airline is required to cease activities on that portion of the Airline Premises or the Airport due to City's efforts to investigate, cure or remediate contamination, unless the release or discharge is one for which Airline is responsible under this Agreement.

14.01.9 *Records and Inspections*

(a) If Airline makes any written disclosure, or provides any report, to any governmental agency concerning a release of Hazardous Materials at the Airport, Airline shall concurrently also provide a copy of such disclosure or report to City.

(b) Airline shall promptly deliver a copy to City of all notices that Airline receives from any governmental agency or third party concerning a claim or a notice of violation regarding Hazardous Materials at the Airport.

(c) Airline shall maintain, during the term of this Agreement and for a period of not less than three (3) years after the expiration or termination of this Agreement, or for any longer period of time required by any applicable law, regulation, policy, order or decree, separate and accurate records, as required by applicable Environmental Laws, pertaining to the use, handling and disposal of any Hazardous Material(s) by Airline, Airline's officers, agents, employees, contractors, permittees or invitees on or from the Airport.

(d) Upon request by City, Airline shall furnish City with copies of such records, and such other documentation or reports as the Executive Director, from time to time, and at any time during the term of this Agreement, may reasonably require pertaining to the use, handling, disposal, release or discharge of any Hazardous Materials by Airline, Airline's officers, agents, employees, contractors, permittees or invitees on or from the Airport. Notwithstanding the foregoing, Airline shall not be required to furnish City with copies of records that would be protected

from disclosure under the Utah Evidence Code (except to the extent that portions of documents, including but not limited to testing and sampling data, are not so protected).

(e) After the expiration of three (3) years following the termination of this Agreement, Airline may destroy the records pertaining to the use, handling, disposal, release or discharge of any Hazardous Materials by Airline, Airline's officers, agents, employees, contractors, permittees or invitees on or from the Airport unless Airline is otherwise reasonably directed by City or otherwise required by applicable laws.

(f) City shall have the right, under the terms hereof (and at City's sole expense, except when any release or discharge of Hazardous Materials or threat of release or discharge of Hazardous Materials is caused by Airline or Airline's officers, agents, employees, contractors, permittees or invitees), to enter the Airline Premises during the Term hereof to conduct periodic environmental inspections. Prior to conducting environmental testing, City shall provide seven (7) day's written notice to Airline concerning the planned testing procedures and locations. However, in the event of an emergency, no written notice shall be required prior to access to the Airline Premises for any necessary environmental response activities, including environmental testing needed in response to the emergency. City shall endeavor to conduct each inspection or test in the presence of Airline's representative and in a manner that does not unreasonably interfere with Airline's operations.

14.01.10 *No Third Party Beneficiaries.* Nothing contained in this Article 14 shall be construed as conferring any benefit on any person not a party to this Agreement, nor as creating any right in any person not a party to this Agreement to enforcement of any obligation created under this Agreement.

14.01.11 *Airline Obligations Upon Termination.* Prior to vacating the Airline Premises, and in addition to all other requirements under this Agreement and without limiting Airline's indemnification obligations under Section 14.01.5, Airline shall:

(a) Remove any Hazardous Materials placed or stored on the Airline Premises during the Term by Airline or as a result of Airline's use or occupancy of the Airline Premises during the Term and shall demonstrate to City's reasonable satisfaction that such removal is in compliance with all applicable Environmental Laws, including without limitation conducting any environmental audits as may be required by City to demonstrate such removal has been completed according to the terms of this Agreement.

(b) With respect to any release of Hazardous Materials on the Premises not removed pursuant to prior paragraph (a) and not subject to the exceptions therein, Airline shall promptly investigate and remediate any such release in accordance with the requirements of all applicable Environmental Laws and permits ("Airline's Remediation"). If Airline's remediation will leave Hazardous Materials in the soil or groundwater at the Airport prior to completion of the remediation, the Airline shall obtain the City's written determination that such Hazardous Materials will not interfere with any reuse of the Airline Premises reasonably contemplated or anticipated by the City. If the City does not make such a determination, Airline will perform the remedial activities necessary to avoid interference with future reuse of the Airline Premises ("Remediation for Reuse"). In the event Airline fails to perform Airline's Remediation or Remediation for Reuse, the City may conduct such reasonable investigation and/or remediation after providing Airline with a written

notice thirty (30) days in advance and Airline does not diligently commence and pursue such actions. If the City incurs such costs, City may invoice reasonable and documented costs to Airline.

14.01.12 *Survival of Obligations.* Airline's obligations under this Section 14.01 shall survive the expiration or earlier revocation or suspension of this Agreement.

14.02 *Stormwater.*

14.02.1 Notwithstanding any other provisions or terms of this Agreement, Airline acknowledges that certain properties within the Airport, or on City-owned land, are subject to federal and state stormwater rules and regulations. Airline agrees to observe and abide by such stormwater rules and regulations as may be applicable to City's property and Airline's uses thereof.

14.02.2 Airline acknowledges that any stormwater discharge permit issued to City may name Airline as a co-permittee, but only if (a) Airline has been provided a meaningful opportunity to engage in the development of the permit terms, including an opportunity to be involved in discussions between the City and the permitting agency including those that may occur prior to the draft permit being issued, and (b) City cooperates with Airline in developing cost effective measures and/or permit conditions that take into account operational impacts. City and Airline both acknowledge that cooperation is necessary to insure compliance with any stormwater discharge permit terms and conditions, as well as to insure safety and to minimize cost of compliance. Airline acknowledges further that it may be necessary to undertake such actions to minimize the exposure of stormwater to "significant materials" generated, stored, handled or otherwise used by Airline, as such term may be defined by applicable stormwater rules and regulations, by implementing and maintaining "best management practices" as that term may be defined in applicable stormwater rules and regulations.

14.03 *Stormwater Discharge Permit Requirements.* City will provide Airline with written notice of any stormwater discharge permit requirements applicable to Airline and with which Airline may be obligated to comply from time-to-time, including but not limited to: certification of non-stormwater discharges; collection of stormwater samples specific to that Airline's operations; preparation of stormwater pollution prevention or similar plans; implementation of best management practices; and maintenance of necessary records. Such written notice shall include applicable deadlines. Airline agrees that within thirty (30) days of receipt of such written notice it shall notify City in writing if it disputes any of the stormwater permit requirements it is being directed to undertake. If Airline does not provide such timely notice, Airline will be deemed to assent to undertake such stormwater permit requirements applicable to Airline's operations. In that event, Airline agrees to undertake, at its sole expense, unless otherwise agreed to in writing between City and Airline, those stormwater permit requirements that specifically apply to Airline's operations and can reasonably be complied with by a single tenant (as opposed to requiring broader cooperation and expense among several parties) for which it has received written notice from City, and Airline agrees that it will hold harmless and indemnify City for any violations or non-compliance with any such permit requirements.

Article 15 Surrender Of Airline Premises

15.01 *Surrender and Delivery.* Upon termination or cancellation of this Agreement, Airline shall promptly and peaceably surrender to City its Airline Premises and all alterations, additions or improvements thereon to which City elects to retain as provided in Section 15.03 below in good and

fit condition, reasonable wear and tear, conditions that existed at the time Airline first occupied the Airline Premises as well as damage or repair which is the responsibility of City excepted. In the event the Airline Premises are not so yielded or delivered to City, City shall remedy said Airline Premises and the cost thereof will be invoiced to Airline as other fees and charges under Section 9.03. The Executive Director shall determine the condition of the Airline Premises at the termination of this Agreement by expiration or otherwise. However, this provision does not cover Hazardous Materials upon surrender, which is provided for in Section 14.01.11 (b).

15.02 *Removal of Property.* Provided Airline is not in default for payment of rentals, fees and charges hereunder, Airline shall have the right at any time during the Term of this Agreement to remove from the Airport its aircraft, tools, equipment, removable trade fixtures and other personal property, title to which shall remain in Airline, unless otherwise set forth in Sections 5.01.12 and 10.05.3 of this Agreement. Airline shall remove such aircraft, tools, equipment, removable trade fixtures and other personal property within fifteen (15) business days following termination of this Agreement, whether by expiration of time or otherwise, as provided herein, subject to any valid lien which City may have thereon for unpaid rentals, fees and charges. Airline shall not abandon any portion of its property at the Airport without the written consent of City. Any and all property not removed by Airline within fifteen (15) business days following the date of termination of this Agreement shall, at the option of City, (i) become the property of City at no cost to City; (ii) be stored by City at no cost to City or (iii) be sold at public or private sale at no cost to City. Except as may be agreed to otherwise by City and Airline, all City property damaged by or as a result of the removal of Airline's property shall be restored by Airline to the condition existing before such damage at Airline's expense.

15.03 *Removal of Alterations, Additions or Improvements.*

15.03.1 Upon termination or expiration of this Agreement or prior to the time Airline vacates the Airline Premises, City shall have the right, in the Executive Director's sole discretion, to require Airline to remove any or all alterations, additions or improvements installed at the Airline Premises pursuant to Section 10.05, including without limitation any cabling installed by Airline or at Airline's direction. Airline shall remove any such alterations, additions or improvements from the Airport unless Airline obtains Executive Director's written consent to leave Airline's alterations, additions or improvements at the Airport. Airline shall ascertain from the Executive Director, at least eight (8) months prior to the Termination Date (or as soon as possible if this Agreement is terminated earlier than the Termination Date), whether City will require Airline to remove any alterations, additions or improvements or, if Airline desires to leave the alterations, additions or improvements, whether the City will accept such alterations, additions or improvements. If the Executive Director determines that all or any portion of the alterations, additions or improvements shall be removed, Airline shall, by no later than six (6) months prior to the Termination Date, provide a demolition plan to the Executive Director, which shall include a timeline for completion.

15.03.2 In the event Airline fails to remove, or expresses an intention not to remove, any alterations, additions or improvements installed at the Airline Premises pursuant to Section 10.05 required by the Executive Director to be removed pursuant to this Section 15.03, City may enter upon the Airline Premises and remove such alterations, additions or improvements at the sole cost and expense of Airline. Airline agrees to promptly reimburse City for all costs and expenses of removal, plus ten percent (10%) thereof for administrative overhead, or such percentage as approved and established from time to time by the City Council. The obligation to reimburse City for such

expenditures shall survive the termination of this Agreement. Any receipt showing payment by City of expenditures associated with the removal of Airline's alterations, additions or improvements shall be *prima facie* evidence that the amount of such payment was necessary and reasonable and made by City on Airline's behalf.

15.03.3 This Section 15.03 does not apply in cases where Airline vacates Airline Premises as a result of a City-initiated space reallocation pursuant to Section 4.05.1. In such cases, Airline may, but shall not be required to, remove any alterations, additions or improvements installed at the Airline Premises pursuant to Section 10.05.

15.04 *Holding Over.* In the event Airline uses its Airline Premises without the written consent of City after this Agreement has been canceled or expires, Airline shall be deemed a month-to-month tenant at will, and Airline shall pay the charges required hereunder. Notwithstanding anything set forth herein to the contrary, Airline shall not be entitled to the revenue sharing detailed in Section 8.07 of this Agreement during any holdover period, and if Airline holds over for more than ninety (90) days after this Agreement has been canceled or expires, Airline shall be deemed to be a Non-Signatory Airline and shall thereafter be subject to common use charges for its use of any Gates and Ticket Counters that were leased to Airline as Preferential Use Premises under this Agreement.

Article 16 Assignment, Subletting, And Handling Agreements

16.01 Assignment and Subletting by Airline.

16.01.1 Airline shall not assign or transfer this Agreement or any interest therein nor sublet the whole or any portion of the Airline Premises without first obtaining City's written consent, nor shall this Agreement or any interest hereunder be assignable or transferable by operation of law or by any process or proceeding of any court or otherwise without the consent of City first had and obtained, which consent shall not be unreasonably withheld. Airline shall not charge rent under any sublease that exceeds one hundred fifteen percent (115%) of the rent paid by Airline to City under this Agreement. Airline agrees that if at any time during the Term more than one-half (1/2) of the outstanding shares of any class of stock of Airline's corporation shall belong to any stockholders other than those who own more than one-half (1/2) of the outstanding shares of that class of stock at the time of the execution of this Agreement or to members of their immediate families, such change in ownership of the stock of Airline shall be deemed an assignment of this Agreement within the meaning of this Article (unless Airline is a corporation whose stock is listed on the New York Stock Exchange or other major stock exchange, in which case such an event will not be considered an assignment of this Agreement). Airline's entering into any operating agreement, license or other agreement where a third party, other than an Affiliate of Airline, is given rights or privileges to utilize portions of the Airline Premises shall be considered an attempted assignment or subletting within the meaning of this section.

16.01.2 Notwithstanding anything set forth herein to the contrary, Airline shall have the right, without first obtaining City's written consent, to assign or transfer this Agreement to (a) an entity controlling, controlled by or under common control with Airline or (b) a successor by merger, consolidation or acquisition to all or substantially all of the assets of Airline.

16.01.3 In the event that Airline shall, directly or indirectly, assign, sell, hypothecate, or otherwise transfer this Agreement, or any portion of Airline Premises, in

contravention hereof without the prior written consent of City, City in its sole discretion may terminate this Agreement upon thirty (30) days written notice.

16.01.4 Airline shall include with any request for consent to assign or sublease a copy of the proposed assignment or sublease agreement. The assignment or sublease agreement submitted with Airline's request shall include the following information: (a) the term; (b) the area or space to be assigned or subleased; (c) the sublease rental to be charged; and (d) the provision that assignee or sublessee must execute a separate agreement with City for operating at the Airport. Any other information reasonably requested by City pertaining to said sublease or assignment shall be promptly provided by Airline. A fully executed copy of such sublease or assignment shall be submitted to City for final approval within sixty (60) days of the occupancy of Airline Premises, or any portion thereof, by the assignee or sublessee. Such sublease or assignment shall be substantially similar to the sublease or assignment that was submitted by Airline to City prior to such sublease or assignment for approval.

16.01.5 Airline shall include Sections 17.03 and 18.28 of this Agreement in all subleases and cause sublessees to similarly include clauses in further subleases.

16.01.6 Nothing in this Article 16 shall be construed to release Airline from its obligations under this Agreement, including but not limited to, the payment of rentals, fees, and charges provided herein.

16.02 *Handling Agreements.* In the event Airline agrees to ground handle any portion of the operations of another Passenger Carrier, Airline shall provide City advance written notice of such proposed activities, including a description of the type and extent of services to be provided and a ground handling agreement between Airline and the Passenger Carrier. Notwithstanding the foregoing, Airline shall not ground handle any Passenger Carrier which does not have consent of City for the operation of its Air Transportation Business at the Airport.

Article 17 Government Inclusion

17.01 *Government Agreements.* This Agreement shall be subordinate to the provisions of any existing or future agreements between City and the United States Government or other governmental authority relative to the operation or maintenance of the Airport or the execution of which has been or will be required as a condition precedent to the granting of Federal or other governmental funds for the development of the Airport to the extent that the provisions of any such existing or future agreements are generally required by the United States or other governmental authority. City agrees to provide Airline with written advance notice of any provisions that would adversely modify the material terms of this Agreement.

17.02 *Federal Government's Emergency Clause.* All provisions of this Agreement shall be subordinate to the rights of the United States of America to operate the Airport or any part thereof during time of war or national emergency. Such rights shall supersede any provisions of this Agreement inconsistent with the operations of the Airport by the United States of America.

17.03 Nondiscrimination.

17.03.1 Airline for itself, its personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby agree as a covenant running with the land

that (a) no person on the grounds of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity disability, ethnicity or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of Airline Premises, and (b) in the construction of any improvements on, over, or under Airline Premises and the furnishing of services thereon, no person on the grounds of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity disability, ethnicity or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination.

17.03.2 In the event of a breach of any of the above nondiscrimination covenants that is not cured, City shall have the right to cancel this Agreement.

17.04 *Security.*

17.04.1 Airline acknowledges that security is of primary importance at the Airport and that security requirements are likely to change during the Term. Airline, its officers, employees, representatives, agents, servants, subtenants, consultants, contractors, successors, assigns and suppliers and those under its control, shall comply with security measures (a) required of Airline by the FAA or the TSA or by the City in accordance with applicable requirements of the FAA or the TSA or their authorized successor(s) or (b) contained in any Airport master security plan approved by the FAA or the TSA or their authorized successor(s).

17.04.2 Airline understands and agrees that security requirements may affect Airline's Air Transportation Business operations and costs. Airline further agrees that, in addition to the provisions of Section 13.01, it shall be strictly liable for the payment of any civil penalties assessed against City or Airline relating to security and resulting from the negligence or intentional acts of omission or commission of Airline's officers, employees, representatives, agents, servants, subtenants, consultants, contractors, successors, assigns and suppliers and those under its control, and Airline shall be solely and fully responsible for any and all breaches of security and the consequences thereof resulting from the negligence or intentional acts of omission or commission of its officers, employees, representatives, agents, servants, subtenants, consultants, contractors, successors, assigns and suppliers and those under its control.

Article 18 General Provisions

18.01 *Subordination to Master Trust Indenture and Subordinated Financing Agreements.*

18.01.1 This Agreement and all rights granted to Airline hereunder are expressly subordinated and subject to the lien, covenants (including the rate covenants), and provisions of the pledges, transfer, hypothecation, or assignment made by City in the Master Trust Indenture, any Subordinated Financing Agreements or Other Indebtedness agreements.

18.01.2 City shall notify Airline in advance of, and offer to comment upon, any amendments or supplements to the Master Trust Indenture, any Subordinated Financing Agreements or Other Indebtedness agreements that would materially alter the terms and provisions of this Agreement or materially impact the levels of rentals, fees, and charges paid by Airline. City shall give consideration to any such comments timely submitted by Airline.

18.01.3 With respect to property leased by City to Airline hereunder which was or is to be acquired by City with proceeds of Bonds, Subordinated Indebtedness or Other Indebtedness,

the interest on which is, or is intended to be, excludable from the gross income of the holders of such Bonds, Subordinated Indebtedness or Other Indebtedness for federal income tax purposes, the parties hereby covenant not to take or fail to take any action that would impair the tax-exempt status of such Bonds, Subordinated Indebtedness or Other Indebtedness. In particular, Airline makes an irrevocable election not to claim depreciation or an investment credit with respect to any property leased to Airline hereunder.

18.01.4 Airline agrees to execute all instruments, certificates, or other documents that are consistent with this Agreement, contain factually correct information and are reasonably requested by City to assist City and bond counsel in determining and assuring that Bonds, Subordinated Indebtedness or Other Indebtedness are issued in compliance with applicable rules and regulations of the Internal Revenue Service and the Securities and Exchange Commission, and Airline shall provide whatever additional relevant information is reasonably requested by City initially or on an ongoing basis in connection with complying with any of those rules and regulations.

18.02 *Nonwaiver.* No waiver of default by either party of any of the terms, covenants, or conditions of this Agreement to be performed, kept, and observed by the other party shall be construed to be or act as a waiver of any subsequent default of any of the terms, covenants, and conditions to be performed, kept, and observed by the other party and shall not be deemed a waiver of any right on the part of the other party to cancel this Agreement as provided herein.

18.03 *Passenger Facility Charge.* City reserves the right to assess and collect PFCs subject to the terms and conditions set forth in the Aviation Safety and Capacity Expansion Act of 1990, 49 U.S.C. § 40117 (the "PFC Act"), and implementing regulations as each of these may be supplemented or amended from time to time. Airline shall collect and pay all PFCs for which it is responsible under the provisions of 14 C.F.R. Part 158. Failure by Airline to remit PFCs within the time frame required by 14 C.F.R. Part 158 shall be grounds for immediate cancellation of this Agreement pursuant to Section 13.03.

18.04 *Quiet Enjoyment.*

18.04.1 City agrees that, so long as Airline's payment of rentals, fees, and charges is timely and Airline keeps all covenants and agreements contained herein, Airline shall peaceably have and enjoy its Airline Premises and all rights, privileges, and licenses of the Airport, its appurtenances and facilities granted herein, subject to the terms and conditions herein contained.

18.04.2 Consistent with the nature of Airline's business, Airline agrees that occupancy of its Airline Premises will be lawful and quiet and that it will not knowingly use or permit the use of Airline Premises in any way that would violate the terms of this Agreement, create a nuisance, or disturb other tenants or the general public. Airline shall be responsible for the activity of its officers, employees, agents, and others under its control with respect to this provision.

18.05 *Performance.* The parties expressly agree that time is of the essence in this Agreement. Failure by a party to complete performance within the time specified, or within a reasonable time if no time is specified herein, shall relieve the other party, without liability, of any obligation to accept such performance.

18.06 *Aviation Rights.* City reserves unto itself and its successors and assigns for the use and benefit of the public a right of flight for the passage of aircraft in the airspace above the surface

of the Airport, including the Airline Premises, for navigation or flight in the said airspace for landing on, taking off from, or operating at the Airport, and such right of flight shall include the right to cause in such airspace such noises as may be inherent to the operation of aircraft now known or hereafter used for navigation of or flight in the air.

18.07 *Rules and Regulations.*

18.07.1 Airline and its officers, employees, agents, and others under its control shall observe and obey all laws, regulations, and orders of the federal, state, county and municipal governments and City (acting in its governmental capacity) which may be applicable to Airline's operations at the Airport.

18.07.2 City, acting in its governmental capacity, may from time to time adopt, amend, or revise the Rules and Regulations for reasons of safety, health, preservation of property, or for the maintenance of the good and orderly appearance or operation of the Airport (in adopting, amending or revising the Rules and Regulations, City shall consult with the Signatory Airlines and shall give the Signatory Airlines thirty (30) days' notice of any proposed change, except with respect to emergency changes to the Rules and Regulations). Airline and its officers, employees, agents, and others under its control shall faithfully comply with and observe such reasonable and non-discriminatory Rules and Regulations, except as they may conflict with the terms and provisions of this Agreement, or the regulations of another governmental entity having appropriate jurisdiction.

18.07.3 Airline shall be strictly liable and responsible for obtaining, maintaining current, and fully complying with, any and all permits, licenses, and other governmental authorizations, however designated, as may be required at any time throughout the entire Term of this Agreement by any federal, state, or local governmental entity or any court of law having jurisdiction over Airline or Airline's operations and activities.

18.08 *Inspection.* Airline shall allow City's authorized representatives access to the Airline Premises for the purpose of examining and inspecting said premises; for purposes necessary, incidental to, or connected with the performance of City's obligations under this Agreement; or, in the exercise of City's governmental functions. Except in the case of an emergency, City shall conduct such inspections during reasonable business hours, after reasonable prior notice to Airline and in the presence of Airline's representative.

18.09 *Airline Operations Information and Planning.*

18.09.1 For planning purposes, Airline shall upon request cooperate to the greatest extent possible to furnish to City any and all pertinent information regarding Airline's current and future operations (including forecasts) at Airport. City shall be entitled, from time to time, to release consolidated statistics for all Passenger Carriers providing Scheduled Operations at the Airport.

18.09.2 Airline shall discuss with City at the earliest date possible its consideration of changes to its operations or the type and series of aircraft used at the Airport (other than equipment substitution necessitated by occurrences beyond the control of Airline). City shall be entitled, from time to time, to release consolidated statistics for all Passenger Carriers providing Scheduled Operations at the Airport.

18.10 *EGSE.* Airline shall convert its GSE to EGSE within eighteen (18) months of the DBO of new Terminal facilities to be constructed as part of the Project described in Section 10.06 that are assigned to Airline; provided, however, after DBO of such new Terminal facilities, if Airline occupies facilities in both the new Terminal facilities and in old Terminal facilities that cannot accommodate EGSE, such obligation will be limited to that portion of Airline's GSE required to operate at the new Terminal facilities. City shall use reasonable efforts to complete any improvements to old Terminal facilities that are required to enable Airline to use EGSE at such facilities, and within eighteen (18) months after completion of such improvements, Airline shall convert that portion of Airline's GSE to EGSE as required to operate at such improved Terminal facilities.

18.11 *No Individual Liability.* No member, officer, agent, director, or employee of City or Airline shall be charged personally or held contractually liable by or to the other party under the terms or provisions of this Agreement or because of any breach thereof or because of its or their execution or attempted execution.

18.12 *Hazard Communication Standard.* Airline agrees at all times hereunder to be subject to regulations imposed by 29 C.F.R. Part 1910, "Hazard Communication." Airline agrees that it shall be solely responsible for any and all violations thereof resulting from the negligence or intentional acts of omission or commission of its officers, employees, representatives, agents, servants, contractors, subcontractors, successors, assigns and suppliers.

18.13 *Relationship of Parties.* Nothing contained herein shall be deemed or construed by the parties hereto, or by any third party, as creating the relationship of principal and agent, partners, joint venturers, or any other similar such relationship between the parties hereto. It is understood and agreed that neither the method of computation of rentals, fees, and charges, nor any other provisions contained herein, nor any acts of the parties hereto, creates a relationship other than the relationship of landlord and tenant.

18.14 *Capacity to Execute.* Airline shall submit a copy of any corporate resolution or secretary certificate, if requested by City, which authorizes any director or officer to act on behalf of Airline and which authorizes Airline to enter into this Agreement.

18.15 *Savings.* The parties hereto acknowledge that they have thoroughly read this Agreement, including any exhibits or attachments hereto, and have sought and received whatever competent advice and counsel was necessary for them to form a full and complete understanding of all rights and obligations herein. The parties further acknowledge that this Agreement is the result of extensive negotiations between the parties and shall not be construed against City by reason of the preparation of this Agreement by City.

18.16 *Successors and Assigns Bound.* This Agreement shall be binding upon and inure to the benefit of the successors and assigns of the parties hereto.

18.17 *References to and Incorporation of Exhibits.* Unless otherwise indicated, references to exhibits in this Agreement refer to exhibits attached to this Agreement, which are intended to be and are hereby specifically made a part of this Agreement.

18.18 *References to Articles and Sections.* Unless otherwise indicated, references to articles or sections in this Agreement refer to articles or sections of this Agreement.

18.19 *Titles.* Paragraph titles are inserted only as a matter of convenience and for reference. They in no way define, limit, or describe the scope or extent of any provision of this Agreement.

18.20 *Severability.* In the event that any covenant, condition, or provision of this Agreement is held to be invalid by any court of competent jurisdiction, the invalidity of such covenant, condition, or provision shall not materially prejudice either City or Airline in their respective rights and obligations contained in the valid covenants, conditions, or provisions of this Agreement.

18.21 *Amendments.* Except as otherwise provided herein, no amendment, modification or alteration of the terms of this Agreement shall be binding unless the same shall be in writing, dated subsequent to the date hereof, and duly executed by the parties hereto.

18.22 *Other Agreements.* Other than as set forth herein, nothing contained in this Agreement shall be deemed or construed to nullify, restrict, or modify in any manner the provisions of any other lease or contract between City and Airline authorizing the use of the Airport, its facilities, and appurtenances.

18.23 *Approvals.*

18.23.1 Unless otherwise stated, whenever this Agreement calls for approval by City, such approval shall be evidenced by the written approval of the Executive Director.

18.23.2 Except as otherwise provided herein, any approval required by either party to this Agreement shall not be unreasonably withheld, conditioned or delayed.

18.24 *Notice.* All notices, requests, consents, and approvals served or given under this Agreement shall be served or given in writing with proof of delivery.

18.24.1 If intended for City,

Notices by overnight courier or hand delivery shall be delivered to:

Salt Lake City Department of Airports
Executive Director
776 N. Terminal Drive, TU1, Suite 250
Salt Lake City, Utah 84122

Notice to City by first class mail shall be addressed to:

Salt Lake City Department of Airports
Executive Director
P.O. Box 145550
Salt Lake City, Utah 84114-5550

or to such other address as may be designated by City by written notice to Airline.

18.24.2 Notices to Airline shall be delivered to:

Delta Air Lines, Inc.
Properties Department
Hartsfield-Jackson International Airport
1030 Delta Boulevard
Department 877
Atlanta, Georgia 30354

or to such other address as may be designated by Airline by written notice to City.

18.25 *Agent for Service.* It is expressly understood and agreed that if Airline is not a resident of the State of Utah, or is an association or partnership without a member or partner resident of said state, Airline shall appoint an agent for the purpose of service of process in any court action between it and City arising out of or based upon this Agreement. Airline shall immediately, within ten (10) days of execution of this Agreement, notify City, in writing, of the name and address of said agent. Such service shall be made as provided by the laws of the State of Utah for service upon a non-resident engaging in business in the state. It is further expressly agreed, covenanted, and stipulated that, if for any reason, such service of process is not possible, as an alternative method of service of process, Airline may be personally served out of the State of Utah by the registered mailing of such service at the address set forth in Section 18.24.

18.26 *Governing Law and Legal Forum.* This Agreement is to be read and construed in accordance with the laws of the State of Utah. In the event that suit shall be brought by either party, the parties agree that venue shall be exclusively vested in the state courts of the County of Salt Lake, or if federal jurisdiction is appropriate, exclusively in the United States District Court, District of Utah, Salt Lake City, Utah.

18.27 *Force Majeure.* Except as herein provided, neither City nor Airline shall be deemed to be in default if either party is prevented from performing any of the obligations, other than the payment of rentals, fees, and charges, by reason of strikes, boycotts, labor disputes, epidemics, embargoes, shortages of energy or materials, acts of God, acts of the public enemy, weather conditions, riots, rebellion, or sabotage, or any other circumstances for which it is not responsible or which are not within its control.

18.28 *Americans with Disabilities Act and Air Carrier Access Act.* Airline shall be solely and fully responsible for ensuring that Airline's operations, wherever they may occur at the Airport, and any improvements made by Airline pursuant to Section 10.05, shall comply with the Americans with Disabilities Act, 42 U.S.C. §§ 12101 et seq., as amended from time to time ("ADA"), and the Air Carrier Access Act, 49 U.S.C. § 41705, as amended from time to time ("ACAA"). Airline shall develop a work plan to correct or avoid any violations or non-compliance with the ADA or the ACAA. Airline shall deliver to the City, upon City's request, a copy of each such report and work plan. City's approval of or acceptance of any aspect of Airline's activities under this Agreement shall not be deemed or construed in any way as a representation that such item, activity or practice complies with the ADA or the ACAA. Airline agrees to indemnify, defend, and hold the City harmless from any and all costs incurred by City with respect to Airline's failure to comply with the ADA or the ACAA for Airline's operations or any improvements made by Airline at the Airport.

City shall comply with the ADA and the ACAA as applicable to any facilities constructed by City and any improvements made by City at the Airport.

18.29 *Federal Grant Agreement Covenants.* Airline acknowledges that City is subject to Federal Grant Agreement obligations as a condition precedent to granting of funds for improvement of the Airport, and, accordingly, agrees to be bound by the following covenants provided by the FAA, as they may apply to Airline.

18.29.1 Airline for itself, its personal representatives, successors in interest, and assigns, as part of the consideration hereof, does hereby covenant and agree that in the event facilities are constructed, maintained, or otherwise operated at the Airport for a purpose for which a DOT program or activity is extended, or for another purpose involving the provision of similar services or benefits, Airline shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to Title 49, Code of Federal Regulations, DOT, Sub-title A, Office of the Secretary, Part 21, Nondiscrimination in Federally-Assisted Programs of the DOT-Effectuation of Title VI of the Civil Rights Act of 1964, and as said regulations may be amended.

18.29.2 Airline for itself, its personal representatives, successors in interest, and assigns, as part of the consideration hereof, does hereby covenant and agree that (a) no person on the grounds of race, color, or national origin shall be excluded from participation, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (b) that in the construction of any improvements on, over, or under the Airport and the furnishing of services thereon, no person on the grounds of race, color, or national origin shall be excluded from participation or denied the benefits of, or otherwise be subjected to discrimination, (c) that Airline shall use the premises in compliance with all other requirements imposed by or pursuant to Title 49, Code of Federal Regulations, DOT, Sub-title A, Office of the Secretary, Part 21, Nondiscrimination in Federally-Assisted Programs of the DOT-Effectuation of Title VI of the Civil Rights Act of 1964, and as said Regulations may be amended.

18.29.3 That in the event of breach of any of the above nondiscrimination covenants, City shall have the right to terminate this Agreement, to re-enter and repossess any of said Airport premises and the facilities thereon, and to hold the same as if this Agreement had never been made or issued. This provision shall not become effective until the procedures of 49 C.F.R. Part 21 are followed and completed including expiration of appeal rights.

18.29.4 Airline shall furnish its accommodations and/or services on a fair, equal and not unjustly discriminatory basis to all users thereof and it shall charge fair, reasonable and not unjustly discriminatory prices for each unit or service; provided, that Airline may be allowed to make reasonable and nondiscriminatory discounts, rebates or other similar types of price reductions to volume purchasers.

18.29.5 Non-compliance with Section 18.29.4 shall constitute a material breach of this Agreement and in the event of such non-compliance City shall have the right to terminate this Agreement and any estate hereby created without liability therefore or, at the election of City or the United States, either or both said governments shall have the right to judicially enforce this Section 18.29.

18.29.6 Airline agrees that it shall insert or incorporate the above five provisions in any agreement by which Airline grants a right or privilege to any person, firm or corporation to render accommodations and/or services to the public at the Airport.

18.29.7 Airline assures that it will comply with pertinent statutes, executive orders and such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap, be excluded from participating in any activity conducted with or benefiting from Federal assistance. This paragraph obligates Airline or its transferee for the period during which Federal assistance is extended to the airport program, except where Federal assistance is to provide, or is in the form of, personal property or real property or interests therein or structures or improvements thereon. In these cases, this paragraph obligates the party or any transferee for the longer of the following periods: (a) the period during which the property is used by the sponsor or any transferee for a purpose for which Federal assistance is extended, or for another purpose involving the provision of similar services or benefits; or (b) the period during which the airport sponsor or any transferee retains ownership or possession of the property. In the case of contractors, this paragraph binds the contractors from the bid solicitation period through the completion of the contract.

18.29.8 Notwithstanding anything set forth herein to the contrary, to the extent required: (a) under the Master Trust Indenture; (b) under any Subordinated Financing Agreement; or (c) by the FAA, the DOT, the TSA or a similar governmental authority, other than City, having jurisdiction over the Airport, City reserves the right to further develop or improve the landing area of the Airport as required, regardless of the desires or views of Airline and without interference or hindrance.

18.29.9 This Agreement shall be subordinate to the provisions and requirements of any existing or future agreement between City and the United States relative to the development, operation or maintenance of the Airport.

18.29.10 Airline agrees to comply with the notification and review requirements covered in Part 77 of the Federal Aviation Regulations in the event any future structure or building is planned for the Airport premises or in the event of any planned modification or alteration of any present or future building or structure situated on the permitted premises.

18.29.11 Airline, by accepting this Agreement, agrees for itself and its successors and assigns that it will not make use of the Airport premises in any manner which might interfere with the landing and taking off of aircraft from the Airport or otherwise constitute a hazard. In the event the aforesaid covenant is breached, City reserves the right to enter upon the Airport premises and cause the abatement of such interference at the expense of Airline.

18.29.12 Airline, by accepting this Agreement, expressly agrees for itself and its successors and assigns that it will not erect nor permit the erection of any structure or object, nor permit the growth of any tree on the Airport premises, above the main sea level elevation that would exceed FAR Part 77 standards or elevations affecting the Airport navigable airspace. In the event the aforesaid covenants are breached, City reserves the right to enter upon the permitted premises and to remove the offending structure or object and cut the offending tree, all of which shall be at the expense of Airline.

18.30 *FAA Modifications for Grants of Funds.* In the event that the FAA requires, as a condition precedent to granting of funds for the improvement of the Airport, modifications or changes to this Agreement, City shall give notice of any such requirement to Airline and Airline agrees to consent to such amendments, modifications, revisions, supplements or deletions of any of the terms, conditions, or requirements of this Agreement as may be reasonably required to enable City to obtain said FAA funds.

18.31 *Prohibition of Gifts.* Airline is familiar with City's prohibition against the acceptance of any gift by a City officer or employee or former City officer or employee, which prohibition is found in Chapter 2.44 of the Salt Lake City Code, as such chapter may be amended. Airline represents that it has not (a) provided an illegal gift or payoff to a City officer or employee or former City officer or employee, or his or her relative or business entity; (b) retained any person to solicit or secure this contract upon an agreement or understanding for a commission, percentage, or brokerage or contingent fee, other than bona fide employees or bona fide commercial selling agencies for the purpose of securing business; (c) knowingly breached any of the ethical standards set forth in City's conflict of interest ordinance, Chapter 2.44 of the Salt Lake City Code; or (d) knowingly influenced, and hereby promises that it will not knowingly influence, a City officer or employee or former City officer or employee to breach any of the ethical standards set forth in City's conflict of interest ordinance. Airline agrees not to offer any City officer or employee or former City officer or employee any gift prohibited by Chapter 2.44 of the Salt Lake City Code and agrees to abide by all laws applicable to it with respect to the making or offering of gifts or things of value to City officers or employees or former City officers or employees.

18.32 *Taxes.*

18.32.1 Airline shall pay, but such payment shall not be considered part of Airport Revenue, all taxes, assessments and charges of a like nature, if any (including any possessory interest tax), which at any time during the term of this Agreement may be levied against Airline or become a lien by virtue of any levy, assessment or charge against Airline by the United States Government, the State of Utah, Salt Lake County or any governmental successor in authority to the foregoing, or any other tax- or assessment-levying bodies, in whole or in part, upon or in respect to (a) the Airline Premises or such facilities of the Airport as are made available for use by Airline hereunder or (b) any personal property belonging to Airline situated on or in the Airline Premises. The property interest of Airline, if any, created by this Agreement may be subject to property taxation, and Airline may be subject to the payment of property tax levied on such interest. Payment of such additional charges for all such taxes, assessments and charges, when and if levied or assessed, shall be made by Airline directly to the taxing or assessing authority charged with collection thereof, in which event Airline shall be responsible for obtaining bills for all of said taxes, assessments and charges and promptly providing City with evidence of payment therefore.

18.32.2 Airline may, at its expense, contest the amount or validity of any tax or assessment or the inclusion of the Airline Premises as taxable or assessable property directly against the taxing or assessing authority. Airline shall indemnify City from all taxes, penalties, costs, expenses, and attorneys' fees incurred by City resulting directly or indirectly from all such tax contests other than contests of City-imposed taxes.

18.32.3 Upon any termination of this Agreement, all lawful taxes then levied or a lien upon any of such property or taxable interest therein shall be paid in full by Airline forthwith or

as soon as a statement thereof has been issued by the tax collector if termination occurs during the interval between the attachment of the lien and the issuance of the statement.

18.33 *Waiver of Visual Artists Rights.* Airline shall not install any object in the Airline Premises that constitutes a work of visual art under the Visual Artists Rights Act of 1990 ("VARA") unless and until Airline has (a) obtained the prior written approval of the Executive Director and (b) provided City with a written waiver from the author of such work of visual art, in form and substance reasonably satisfactory to City, which waiver shall identify specifically the work of visual art and the uses of that work to which the waiver applies in accordance with 17 U.S.C. § 106A(e)(1).

18.34 *Exclusiveness of Airline's Rights.* Nothing contained in this Agreement shall be deemed to grant to Airline any exclusive right or privilege within the meaning of 49 U.S.C. § 40103(e) or 49 U.S.C. § 47107(a)(4) with respect to activity on the Airport, except that, subject to the terms and provisions of this Agreement, Airline shall have the right to exclusive possession of any Exclusive Use Premises made available to Airline under the provisions of this Agreement.

18.35 *No Third-Party Beneficiaries.* There are no third-party beneficiaries to this Agreement other than as specifically provided in Sections 7.02 and 7.03.

18.36 *Liens and Encumbrances.* Airline shall keep the Airline Premises free and clear of any liens and encumbrances arising or growing out of Airline's use and occupancy of the Airline Premises or activities at the Airport. Airline agrees to fully indemnify and defend City in connection with any such liens filed against the Airline Premises. At City's request, Airline shall furnish City with written proof of payment of any item that would or might constitute the basis for such a lien on the Airline Premises if not paid.

18.37 *Labor Disputes.* Airline agrees to use reasonable efforts to avoid disruption to City, its tenants or members of the public arising from labor disputes involving Airline, and in the event of a strike, picketing, demonstration or other labor difficulty involving Airline, to use its good offices, including the utilization of available legal remedies, to minimize or eliminate any disruption to City, its tenants or members of the public, arising from such strike, picketing, demonstration or other labor difficulty.

18.38 *SEC Rule 15c2-12.* Airline, upon request by City, shall provide City with such information as City may reasonably request in writing to comply with City's continuing disclosure requirements under SEC Rule 15c2-12 as it may be amended from time to time; provided, however, that Airline may in lieu of providing the requested information direct City to an Airline or SEC website where the requested information is then currently available. Airline covenants that any information so provided, either directly or by reference to any website, shall not misstate any material fact and shall not fail to state any fact necessary, in light of the circumstances under which the information is provided, in order to make the information provided not misleading.

18.39 *Government Records Access and Management Act.* City is subject to the requirements of the Government Records Access and Management Act, Chapter 2, Title 63, Utah Code Annotated or its successor ("GRAMA"). All materials submitted by Airline pursuant to this Agreement are subject to disclosure unless such materials are exempt from disclosure pursuant to GRAMA. The burden of claiming an exemption from disclosure shall rest solely with Airline. Any materials for which Airline claims a privilege from disclosure shall be submitted marked as "Confidential" and accompanied by a statement from Airline explaining Airline's claim of exemption

from disclosure. City will make reasonable efforts to notify Airline of any requests made for disclosure of documents submitted under a claim of confidentiality. Airline may, at Airline's sole expense, take any appropriate actions to prevent disclosure of such material. Airline specifically waives any claims against City related to disclosure of any materials required by GRAMA.

18.40 *Contracting on More Favorable Terms.*

18.40.1 City covenants and agrees that in the event it enters into any lease, contract or any other agreement with any other Air Carrier containing more favorable terms than this Agreement, or grants to any Air Carrier rights, privileges, or concessions at the Airport which are not accorded Airline hereunder, it shall advise Airline of such action and this Agreement shall, at Airline's option, be amended to incorporate such rights, terms, privileges and concessions, or any of them, as part of this Agreement.

18.40.2 In the event that any Air Carrier shall undertake any operations at the Airport for the carriage of passengers, cargo or mail by air, City shall require, to the extent legally permissible, such Air Carrier to execute and deliver an agreement, lease, permit or contract with City providing for the payment of Landing Fees and Terminal Rents and Other Fees and Charges that are not less than those rates then in effect for the Signatory Airlines.

18.41 *Memorandum of Lease.* In the event that City so requests, Airline shall execute, attest, acknowledge, and deliver for recording a short form Memorandum of Lease of this Agreement.

18.42 *Entire Agreement.* It is understood and agreed that this instrument contains the entire agreement between the parties hereto with respect to the subject matter hereof and it may not be modified or amended except by a written instrument that is signed by both parties. It is further understood and agreed by Airline that City and City's agents have made no representations or promises with respect to this Agreement or the making or entry into this Agreement, except such as are in this Agreement expressly set forth, and no claim or liability or cause for termination shall be asserted by Airline against City for, and City shall not be liable by reason of, the breach of any representations or promises not expressly stated in this Agreement.

[THIS PAGE INTENTIONALLY LEFT BLANK]

THIS AMENDMENT NO. 1 (Amendment) is between SALT LAKE CITY CORPORATION, a municipal corporation of the state of Utah (City), and Delta Air Lines, Inc., a Delaware corporation (Airline), and is dated as of the date the City Recorder attests the applicable City signature, which shall be the recordation date, (Effective Date), wherein the parties agree to and do hereby amend that certain Airline Use Agreement dated July 1, 2014, (the Agreement), as follows:

RECITALS

WHEREAS, City and Airline are parties to the Agreement; and

WHEREAS, City has reviewed the cost estimates for the North Concourse Program (NCP) and their impact to the rates and charges model with the Airport-Airline Affairs Committee (AAAC). City believes a ten (10) year term extension of the current business agreement will ensure the financial feasibility of the current capital program, inclusive of the NCP; and

WHEREAS, City and Airline agree it is in the best interests of the parties to execute this Amendment to the Agreement.

NOW, THEREFORE, in consideration of the foregoing recitals and the following mutual promises and considerations, the parties agree to the following:

1. Article 3 of the Agreement is hereby deleted in its entirety and replaced with the following:

3.01 *Termination Date.* This Agreement shall commence on the Effective Date and shall terminate at midnight on June 30, 2034, unless canceled sooner as provided herein.

2. Section 8.12 is hereby added to the Agreement as follows:

8.12 Discussion of Early Repayment of Principal on Debt.

8.12.1. City agrees to meet with Airline after December 31, 2025, to discuss the early repayment of airport debt if the following conditions are met: (a) the debt service coverage ratio exceeds 1.50; and (b) City's cash position in the audited financial statements at the end of the City's most recent fiscal year is in excess of One Hundred Million Dollars (\$100,000,000) and also exceeds three hundred sixty-five (365) "days of cash on hand", as calculated by the City.

8.12.2. If all the threshold conditions in Section 8.12.1 are met, City will discuss with Airline whether and under what specific terms and conditions the City would be willing to apply airport funds that are not necessary to meet the thresholds in 8.12.1(a) and (b) to the early repayment of principal on Bonds, Subordinated Indebtedness, or Other Indebtedness. City shall have no obligation to make any such early repayments. In the event that City determines, in its sole discretion, to make such early repayments, the City shall have sole discretion to determine the levels and timing of the repayments and any other terms and conditions deemed appropriate by City.

3. REPRESENTATION REGARDING ETHICAL STANDARDS FOR CITY OFFICERS AND EMPLOYEES AND FORMER CITY OFFICERS AND EMPLOYEES

The Airline represents that it has not: (1) provided an illegal gift or payoff to a city officer or employee or former city officer or employee, or his or her relative or business entity; (2) retained any person to solicit or secure this contract upon an agreement or understanding for a commission, percentage, or brokerage or contingent fee, other than bona fide employees or bona fide commercial selling agencies for the purpose of securing business; (3) knowingly breached any of the ethical standards set forth in City's conflict of interest ordinance, Chapter 2.44, Salt Lake City Code; or (4) knowingly influenced, and hereby promises that it will not knowingly

influence, a city officer or employee or former city officer or employee to breach any of the ethical standards set forth in City's conflict of interest ordinance, Chapter 2.44, Salt Lake City Code.

EXCEPT AS MODIFIED HEREBY, said Agreement shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have signed this Amendment No. 1 to be effective as of the day and year first above written.

AMENDMENT NO. 2

THIS AMENDMENT NO. 2 (“Amendment”) is between SALT LAKE CITY CORPORATION, a Utah municipal corporation (“City”), and DELTA AIR LINES, INC., a corporation organized and existing under the laws of Delaware and authorized to do business in the State of Utah (“Airline”), and is dated as of the date the City Recorder attests the applicable City signature, which shall be the recordation date (“Effective Date”), wherein the parties agree to and do hereby amend that certain Airline Use Agreement dated July 1, 2014, (the “Agreement”), as follows:

RECITALS

WHEREAS, City and Airline are parties to the Agreement; and

WHEREAS, City and Airline wish to undertake certain additional capital improvements at Salt Lake City International Airport and further agree that undertaking the additional capital improvements will require modifications to the rates and charges paid by Airline under the Agreement and an extension of the term of the Agreement; and

WHEREAS, City and Airline agree that other modifications are necessary to update the Agreement; and

WHEREAS, City and Airline agree it is in the best interests of the parties and the traveling public to execute this Amendment to the Agreement.

NOW, THEREFORE, in consideration of the foregoing recitals and the following mutual promises and considerations, the parties agree to the following:

1. After the sixth Whereas clause of the Agreement, the following is added:

WHEREAS, certain Signatory Airlines, including Airline, and City agreed to amend this Agreement to facilitate the construction of Gates on the north concourse by extending the Term of this Agreement to June 30, 2034 and adding a new Section 8.12 concerning certain commitments by City to discuss early repayment of principal on debt (the “First Amendment”); and

WHEREAS, Airline and City desire to build additional facilities at the Airport, including up to sixteen additional Gates on the north concourse (as further described in Exhibit H6.1-H6.6 hereto, the “Phase IV Gate Expansion”), and agree to amend this Agreement in order to finance the additional Capital Improvements and update certain terms and conditions (the “Second Amendment”); and

2. After Section 1.09 the following new Section 1.09(A) is added:

1.09(A). *Airline Rented Space* shall mean the number of square feet of space in the Terminal that is rented by Air Carriers.

3. Section 1.11 is deleted in its entirety and replaced with the following:

1.11 *Airline Technical Representative* shall mean the person designated by the Chair of the AAAC to represent the AAAC in matters pertaining to the Project or the Phase IV Gate Expansion as specified in Sections 10.06.3 and 10.08.

4. Section 1.15 is deleted in its entirety and replaced with the following:

1.15 *[RESERVED]*

5. After Section 1.33 the following new Section 1.33(A) is added:

1.33(A) *Early Bag Storage System* shall mean a dedicated baggage system connected to the main baggage handling system used to sort and store checked baggage that arrives prior to when a Passenger Carrier would typically load baggage onto an aircraft, and that automatically retrieves stored baggage when a flight is scheduled to depart and sends it to traditional baggage carousels found on level 1 of the concourses of the Airport.

6. After Section 1.44 the following new Section 1.44(A) is added:

1.44(A) *Hardstand Position* shall mean an aircraft parking location on the ramp area that is not connected to a concourse directly and is served by buses and/or other auxiliary equipment provided by the Airport and the Airline. Hardstand Positions do not include any Preferential Use Gates assigned to Airline.

7. Section 1.56 is deleted in its entirety and replaced with the following:

1.56 *Open Storage Space* shall mean unimproved shell space, either enclosed or not fully enclosed, which does not meet code for continuous occupancy unless building system improvements are completed.

8. Section 1.87 is deleted in its entirety and replaced with the following:

1.87 *Signatory Airline* shall mean a Passenger Carrier that (a) signs an agreement with City substantially similar to this Agreement and (b) provides passenger service.

9. Section 1.98 is deleted in its entirety and replaced with the following:

1.98 *Ticket Counter* shall mean those areas made available by the Airport for ticketing passengers and receiving baggage. Each Ticket Counter shall include the area approximately fifty-one feet (51) feet in front of each counter to the main circulation area delineated in the terminal flooring for the counter’s entire width to accommodate passenger queues.

10. Article 3 is deleted in its entirety and replaced with the following:

Article 3 Term

3.01 *Termination Date*. This Agreement shall commence on the Effective Date and shall terminate at midnight on June 30, 2044 unless extended in accordance with Section 3.02 or canceled sooner as provided herein.

3.02 *Extensions*. Signatory Airlines and City may extend the Term as follows:

3.02.1 For a Signatory Airline with a Term that expires on June 30, 2044, the City and the Signatory Airline may, by mutually agreeable written consent, extend the Term for successive five (5) year periods through June 30, 2054; provided, however, that City, the Signatory Airline and all other Signatory Airlines extending the Term agree to (i) a new capital plan for the term of the extension; (ii) appropriate changes to the rates and charges methods set forth in Article 8 for the term of the extension; and (iii) reallocations of Preferential Use Gates and other Premises as reasonably determined by City are necessary to foster expansion and

competition at the Airport. A Signatory Airline seeking to extend the Term under this Section 3.02.1 shall notify City in writing at least twelve (12) months prior to the end of the Term.

3.02.2 For a Signatory Airline with a Term that expires on June 30, 2034, the City and the Signatory Airline may, by mutually agreeable written consent, extend the Term for ten (10) years through June 30, 2044 under the terms set forth herein. A Signatory Airline seeking to extend the Term under this Section 3.02.2 shall notify City in writing at least twelve (12) months prior to the end of the Term. Any Signatory Airline that extends the Term in accordance with this Section 3.02.2 may further extend the Term in accordance with Section 3.02.1.

11. The last two sentences of Section 4.05.1 are deleted and replaced with the following:

If the Airline Premises is reduced as a result of a reallocation by City, Airline's rent shall be decreased on a per square foot basis. If the Airline Premises is enlarged as a result of a reallocation by City under this Section 4.05.1, Airline shall not be required to pay rent for any additional square footage in the Airline Premises until the earlier of (1) the effective date of any increase to Airline Premises requested by Airline or (2) the date the Term is extended pursuant to Section 3.02 above.

12. The following is added to the end of Section 4.05.5:

Reallocations of space that occur in conjunction with the Phase IV Gate Expansion described in Section 10.08 are subject to the provisions of Section 10.08 to the extent they differ from this Section 4.05.

13. The last sentence of Section 5.01.9 is deleted and replaced with the following:

Notwithstanding anything set forth herein, Airline and Airline's agents, contractors, employees and service providers shall not be entitled to use electric carts to transport passengers in the Terminal unless approved by the Executive Director.

14. The last sentence of 5.01.15 is deleted and replaced with the following:

Airline shall not sell food and beverages or engage in revenue-generating concession activities of any kind in Airline's public premises, including but not limited to any Gates; provided, however, that in the event of a flight delay or cancellation, Airline may at no cost provide food and beverages to inconvenienced passengers. Such food and beverages shall be purchased from Airport concessionaires unless Airport concessionaires are not available or adequate.

15. At the beginning of Section 6.03.6, the following is added:

Subject to Exhibit E,

16. Section 7.07 is deleted in its entirety and replaced it with the following:

7.07 *Shared Use Equipment.* City reserves the right to install Shared Use Equipment at all Gates and Ticket Counters; provided, however, that City will not install such Equipment at any of Airline's Preferential Use Gates or Preferential Use Ticket Counters unless City reasonably expects Passenger Carriers other than Airline to have Scheduled Operations at Airline's Preferential Use Gates; and further provided that City may install the information technology backbone required for Shared Use Equipment at all Gates and Ticket Counters within any new terminal complex facilities constructed after July 1, 2014.

17. Section 8.01 is deleted in its entirety and replaced it with the following:

8.01 *Rate-Setting Methods.* The Landing Fees and Terminal Rents to be charged by City and paid by Airline and by all other Signatory Airlines for use of the Airport from the Effective Date until the expiration or earlier termination of this Agreement shall be calculated using the rate-setting methods set forth in this article. Exhibit B displays for illustrative purposes an actual calculation of rates and charges showing the methods set forth in this article based upon currently available budget and forecast levels of Airport activity for the year. In calculating rates and charges under this Agreement, City shall not include any costs for the construction, equipping, maintaining or operating any portion of a fixed guideway (or "light rail" system).

18. The final paragraph of Section 8.03.1 is deleted in its entirety and replaced with the following:

The City will then multiply that sum by the ratio of total Rentable Airline Space to total Rentable Terminal Space at the Airport, yielding the revenue requirement (the "Net Terminal Revenue Requirement") to be met by all Passenger Carriers; provided, however, that from the Fiscal Year beginning July 1, 2024 through the end of the Term, the City will then multiply that sum by .82, yielding the revenue requirement (from the Fiscal Year beginning July 1, 2024 through the end of the Term, the "Net Terminal Revenue Requirement") to be met by all Passenger Carriers.

19. Section 8.03.2 is deleted in its entirety and replaced with the following:

8.03.2 *Distribution of the Net Terminal Revenue Requirement.* The City will distribute the aggregate Net Terminal Revenue Requirement calculated in accordance with Section 8.03.1 into two cost assignment groups: conditioned space and unconditioned space. The costs assigned to Airline Rented Space within each of these groups shall bear the following relativities to each other on a square foot basis:

Conditioned Space (identified in Exhibit B-9)	1.00
Unconditioned Space (identified in Exhibit B-9)	0.50

For rate-setting purposes, the costs per square foot of Airline Rented Space in each of these two groups will be normalized so that the aggregate costs assigned to both groups will equal the Net Terminal Revenue Requirement.

20. Section 8.03.4 is deleted in its entirety and replaced with the following:

8.03.4 *Domestic Baggage Claim Joint Use Charges.* The City will calculate the Revenue requirement applicable to baggage claim areas serving domestic Scheduled Operations by multiplying the square footage of all such baggage claim areas by the rate for conditioned space or unconditioned space, whichever is applicable. The City will then calculate charges for the use of domestic baggage claim areas by allocating twenty percent (20%) of that Revenue requirement equally among all Airlines with scheduled domestic service and by dividing eighty percent (80%) of that Revenue requirement by the total number of Enplaned Passengers on domestic flights departing during the Fiscal Year to determine the domestic baggage claim charge per Enplaned Passenger. Charges for the use of domestic baggage claim areas will be levied upon Airline on the basis of the sum of its equal share of twenty percent (20%) of the Revenue requirement plus the product of the total number of Enplaned Passengers on domestic Scheduled Operations departing during the Fiscal Year and the domestic baggage claim charge per Enplaned Passenger. In calculating the number of Enplaned Passengers in this Section 8.03.4, connecting passengers shall be excluded

21. Section 8.03.5 is deleted in its entirety and replaced with the following:**8.03.5 Charges for Common Use Gates and Hardstand Positions.**

(a) Airline shall pay a fee for use of a Common Use Gate based on the highest cost per Turn for all Passenger Carriers. This per-Turn charge will be calculated by multiplying the total leased Gate space throughout the Airport by the conditioned space rate and then dividing by 365. The resulting daily rate shall be divided by the lowest scheduled number of Turns on any leased Gate, and the result shall be the Turn fee for use of a Common Use Gate. Airline shall also pay a fee for use of the jet bridge associated with the Common Use Gate based on the highest cost per Turn for all Passenger Carriers. This per-Turn charge will be calculated by dividing the average monthly loading bridge maintenance cost by the lowest scheduled number of Turns on any leased Gate and adding the two-year average cost of providing power and 400Hz service to each loading bridge.

(b) Each Fiscal Year, the City, after consultation with Airline, will establish reasonable fees for the use of Hardstand Positions. The factors to be used by the City in determining such fees will include, but are not limited to, the following: the costs of providing Hardstand Positions, the per-Turn charge for a Common Use Gate established in 8.03.5(a) above, the relative utility of a Gate versus a Hardstand Position and the benefit to all Air Carriers that is gained through the availability of Hardstand Positions.

22. Section 8.03.7 is deleted in its entirety and replaced with the following:

8.03.7 *Common Use Bag Claim Charges.* Airline shall pay a fee for use of a Common Use bag claim device based on the sum of (a) the square feet of bag claim area in the Terminal multiplied by the conditioned space rate, plus (b) the square feet of the unenclosed space on level 1 of the terminal building to deliver bags to the bag claim area and the square feet of any common use baggage carousel space in the concourses multiplied by one-half the conditioned space rate, divided by fifty percent (50%) of annual Enplaned Passengers for the previous Fiscal Year, to arrive at a rate per Enplaned Passenger.

23. Section 8.03.9 is added to the end of Section 8.03 as follows:

8.03.9 *Additional Common Use Fees.* The City reserves the right to establish additional fees for the costs allocable to any Common Use space or facilities that are not recovered under this Article 8. Any such Common Use fees shall be published by the City on an annual basis. Prior to establishing any such Common Use fees, the City will consult with Airline.

24. Section 8.04.1(e) is added to the end of Section 8.04.1 as follows:

(e) *Early Bag Storage System Fees.* Airline shall pay fees for Early Bag Storage as follows:

(i) Each Fiscal Year, the Early Bag Storage System Revenue Requirement shall be derived by multiplying the square footage of the Early Bag Storage System areas by the rate for unconditioned space.

(ii) If Airline is the only Passenger Carrier at the Airport utilizing the Early Bag Storage System, Airline shall pay a monthly Early Bag Storage System fee equal to 1/12th of the Early Bag Storage System Revenue Requirement.

(iii) If more than one Passenger Carrier is utilizing the Early Bag Storage System, Airline shall pay Early Bag Storage System fees based on Airline's pro-rata share of bags processed through the Early Bag Storage System.

25. Section 8.07.1(a) is deleted in its entirety and replaced with the following:

8.07.1 (a) Only Signatory Airlines shall be eligible to participate in revenue sharing under this Agreement and only from and after each such Signatory Airline has executed and delivered a fully executed Agreement to the City. Subject to the limitations set forth in Section 8.07.1(b) and the revised amounts and limitations set forth in Section 8.07.3, the City shall provide to the Signatory Airlines revenue sharing of one dollar (\$1) per Enplaned Passenger as determined after the calculation of any Adjustment-to-Actual for up to 10,000,000 Enplaned Passengers carried by all Signatory Airlines during each Fiscal Year. If during any Fiscal Year after 2015, the Signatory Airlines collectively carry more than 10,000,000 Enplaned Passengers, the City will increase the amount of revenue sharing per Enplaned Passenger based upon the increase, if any, in the total number of Enplaned Passengers compared to the number of Enplaned Passengers carried by the Signatory Airlines during Fiscal Year 2015; provided, however, that the increased amount of revenue sharing per Enplaned Passenger shall apply only to the number of Enplaned Passengers that exceed 10,000,000. The annual revenue sharing amount calculated in accordance with this Section 8.07.1(a) shall be referred to as the "Calculated Revenue Sharing Amount."

26. Section 8.07.3 is deleted in its entirety and replaced with the following:

8.07.3 From July 1, 2024, through the end of the Term, the revenue sharing in Section 8.07.1 shall be adjusted as follows:

(a) Only Signatory Airlines shall be eligible to participate in revenue sharing under this Agreement and only from and after each such Signatory Airline has executed and delivered a fully executed Agreement to the City. Subject to the limitations set forth in Section 8.07.3(b), the City shall provide to the Signatory Airlines revenue sharing of one dollar and forty cents (\$1.40) per Enplaned Passenger as determined after the calculation of any Adjustment-to-Actual for up to 14,000,000 Enplaned Passengers carried by all Signatory Airlines during each Fiscal Year. If during any Fiscal Year after 2025, the Signatory Airlines collectively carry more than 14,000,000 Enplaned Passengers, the City will increase the amount of revenue sharing per Enplaned Passenger based upon the increase, if any, in the total number of Enplaned Passengers compared to the number of Enplaned Passengers carried by the Signatory Airlines during Fiscal Year 2025; provided, however, that the increased amount of revenue sharing per Enplaned Passenger shall apply only to the number of Enplaned Passengers that exceed 14,000,000. The annual revenue sharing amount calculated in accordance with this Section 8.07.3(a) shall be referred to as the "Calculated Revenue Sharing Amount."

(b) The City's obligation to pay a revenue sharing amount to Signatory Airlines in a given Fiscal Year shall be payable solely from the Annual Adjusted Gross Revenues for Selected Concessions for such Fiscal Year. The total revenue sharing amount rebated to Signatory Airlines for a particular Fiscal Year shall not exceed the least of (i) 40% of Net Remaining Revenue in such Fiscal Year; (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions in such Fiscal Year; and (iii) the Calculated Revenue Sharing Amount. If such revenue sharing amount in any Fiscal Year is less than the total amount of Calculated Revenue Sharing Amount determined in accordance with Section 8.07.3(a), the amount of revenue sharing per Enplaned Passenger shall be adjusted accordingly so that the total amount of revenue sharing payable from Annual Gross Revenues for Selected Concessions for a particular Fiscal Year does not exceed the least of (i) 40% of Net Remaining

Revenue in such Fiscal Year and (ii) the total amount of Annual Adjusted Gross Revenues for Selected Concessions in such Fiscal Year. For each applicable Fiscal Year, revenue sharing shall be applied as a credit to invoices for Terminal Rents and shall be distributed uniformly on a monthly basis. By January 1st of each Fiscal Year, the Signatory Airlines, including Airline, shall provide estimates of their forecast Enplaned Passenger activity at the Airport during the next Fiscal Year. The number of Enplaned Passengers used for purposes of calculating revenue sharing hereunder shall be based on ninety-five percent (95%) of the forecast Enplaned Passenger activity provided by the Signatory Airlines, and the City shall reconcile the forecast figures with actual Enplaned Passengers for each Fiscal Year. SLCDA will provide prior notice to Airline each year during the Term requesting estimates of forecast Enplaned Passenger activity; provided, however, that SLCDA's failure to provide such notice shall not relieve Airline of its obligations under this Section 8.07.3.

27. Section 8.07.4 is added to the end of Section 8.07 as follows:

8.07.4 Exhibit B-13 displays illustrative revenue sharing calculations.

28. Section 8.12 is added to the end of Article 8 as follows:

8.12 *Discussion of Early Repayment of Principal on Debt.*

8.12.1 City agrees to meet with Airline after December 31, 2025, to discuss the early repayment of airport debt if the following conditions are met: (a) the debt service coverage ratio exceeds 1.50; and (b) City's cash position in the audited financial statements at the end of the City's most recent fiscal year is in excess of One Hundred Million Dollars (\$100,000,000) and also exceeds three hundred sixty-five (365) "days of cash on hand", as calculated by the City.

8.12.2 If all the threshold conditions in Section 8.12.1 are met, City will discuss with Airline whether and under what specific terms and conditions the City would be willing to apply airport funds that are not necessary to meet the thresholds in 8.12.1 (a) and (b) to the early repayment of principal on Bonds, Subordinated Indebtedness, or Other Indebtedness. City shall have no obligation to make any such early repayments. In the event that City determines, in its sole discretion, to make such early repayments, the City shall have sole discretion to determine the levels and timing of the repayments and any other terms and conditions deemed appropriate by City.

29. Section 10.02 is deleted its entirety and replaced with the following:

10.02 *Capital Investment Subject to Signatory Airline Consideration.* No costs or amortization of costs of Capital Investments shall be charged to Airline in its Landing Fees or Terminal Rents for any new Capital Investments made by City after June 30, 2014 in the Airfield Cost and Revenue Center or in the Terminal Cost and Revenue Center unless Signatory Airlines accounting for at least fifteen percent (15%) of Enplaned Passengers over the prior 12 months have approved such new Capital Investments. Further, notwithstanding the definition of Rentable Terminal Space in Article 1 of this Agreement, no space created by any such new Capital Investments in the Terminal on which Investment Service is not charged shall be counted as Rentable Terminal Space. In the event City decides to make a new Capital Investment in one of such centers (Airfield or Terminal), City and representatives of the Signatory Airlines shall meet to discuss to what extent, if any, the methods of amortizing and allocating Investment Service and determining Rentable Terminal Space provided for in this Agreement shall be changed for the purpose of calculating the charge to Airline for Investment Service resulting from such new Capital Investment. To the extent required by 49 U.S.C. § 40117(f), and notwithstanding anything to contrary in this Agreement, no Capital Investment

shall be subject to Signatory Airline consideration to the extent such Capital Investment is fully financed by PFCs or PFC-backed bonds. However, any Capital Investment that includes other funding sources may be subject to Signatory Airline consideration to the extent of those funding sources, unless otherwise exempt from Signatory Airline consideration.

30. The last sentence of Section 10.06.1 is deleted in its entirety and replaced with the following:

City acknowledges that Airline and all other Signatory Airlines have legitimate concerns about the potential cost impact of The Project on their business at the Airport and commits to use reasonable efforts to complete The Project and otherwise manage the Airport to achieve the shared goal of a cost per enplaned passenger ("CPE") of no more than \$5.00 (in 2013 dollars) in Fiscal Year 2024.

31. The first paragraph of Section 10.06.5 is deleted in its entirety and replaced with the following:

10.06.5 *Estimated Costs of The Project.* The total cost of The Project is currently estimated to be \$2.72 Billion, as detailed in Exhibit H-2. Project costs include Relocation Costs associated with and occasioned by The Project, including costs associated with interim moves required to facilitate construction and with moves resulting from the completion of The Project. The total costs of The Project shall not exceed \$2.72 Billion, except as follows:

32. Section 10.08 is added to the end of Article 10 as follows:

10.08 *Phase IV Gate Expansion.* Airline has approved and shall support the Phase IV Gate Expansion Project described in Exhibit H-6.1 through H-6.6.

10.08.1 *Airline Technical Representative.* Airline Technical Representative shall participate in the design review process and provide comments and suggestions for the Phase IV Gate Expansion. Airline Technical Representative may attend meetings of the Airport's Financial Oversight Committee and meetings of the Airport's Construction Committee concerning the Phase IV Gate Expansion. Airline Technical Representative shall provide periodic updates of the Phase IV Gate Expansion to the AAAC members as appropriate and is expected to faithfully represent the collective interests of all of the members of the AAAC as a group. Airline Technical Representative may be present prior to and during construction of the Phase IV Gate Expansion to inspect, review and recommend to the City action with regard to plans, specifications, bids, change orders and other construction matters related to the Phase IV Gate Expansion.

10.08.2 *Development of Contract Documents for the Phase IV Gate Expansion.* City represents that its architects and engineers are required under contract to develop as expeditiously as possible cost estimates, a schedule of contracts and construction schedules for the Phase IV Gate Expansion. In the development of these contract documents and construction schedules, City and its architects and engineers will consult with Airline Technical Representative and give due consideration to the reasonable requests, suggestions and recommendations of the AAAC. All proposed contract documents shall be made available in Salt Lake City for review by Airline Technical Representative before such documents are put out for bid, so that Airline Technical Representative shall have the opportunity, prior to and during the bid period, to review the proposed contract documents and to submit suggestions or recommendations for change. Airline Technical Representative shall be notified in advance of solicitations for bids and proposals related to the Phase IV Gate Expansion.

10.08.3 *Estimated Costs of the Phase IV Gate Expansion.* The total cost of the Phase IV Gate Expansion is currently estimated to be Six Hundred Eighty Million, Seven Hundred and Thirteen Thousand, and Eighty-Three Dollars (\$680,713,083), as detailed in Exhibit H-7. The total costs of the Phase IV Gate Expansion shall not exceed Six Hundred Eighty Million, Seven Hundred and Thirteen Thousand, and Eighty-Three Dollars (\$680,713,083), except as follows:

(a) The total costs of the Phase IV Gate Expansion may be increased with the approval of Signatory Airlines that collectively account for more than fifty-five percent (55%) in number of all Signatory Carriers or collectively accounted for more than fifty-five percent (55%) of all Terminal Rents paid to the City in the preceding Fiscal Year.

(b) The total costs of the Phase IV Gate Expansion may be increased without Signatory Airline approval to reflect additional costs that result from delays caused by labor disputes, fire or other acts of God, legal acts, delays in delivery of materials or equipment beyond City's control or any other acts beyond City's control; provided, however, that no change orders or claims resulting from any such cause shall be agreed to or approved by City until a written copy of the proposed change order or of the claim, and any supporting documentation, has been provided to Airline Technical Representative so that Airline Technical Representative shall have 10 (ten) business days, whenever practicable without impairing City's rights, to submit recommendations, which shall be considered in good faith by City.

(c) Increases in the total costs of the Phase IV Gate Expansion that are attributable to elements of the Phase IV Gate Expansion undertaken to satisfy the specific requirements of any Signatory Airline shall be permitted so long as such Signatory Airline agrees to pay all costs attributable to such Project elements.

10.08.4 *Budget Overruns on the Phase IV Gate Expansion.* It is contemplated that a number of contracts will be necessary in order to construct the Phase IV Gate Expansion, and these contracts are described in Exhibit H-8. The current construction schedule is provided in Exhibit H-9. The actual bids for each contract will be compared to the estimated costs for such contract and if the actual bid exceeds the estimate for any such contract by more than ten percent 10%, or if contracts at any time previously executed, including change orders plus estimated costs of all work necessary to complete the portion of the Phase IV Gate Expansion subject to the contract, exceed the total estimated cost of the portion of the Phase IV Gate Expansion subject to the contract by more than ten percent (10%), City shall meet promptly with Airline Technical Representative prior to the award of any further contracts to determine how the Phase IV Gate Expansion can be revised so that the cost of the Phase IV Gate Expansion will not exceed the total estimated cost of the Phase IV Gate Expansion unless an increase in total costs of the Phase IV Gate Expansion is approved under Section 10.08.3. If City and Airline Technical Representative cannot agree on so revising the Phase IV Gate Expansion or accepting increased costs within 30 days from the date of the receipt of bids, then a majority of a committee composed of the Airline Technical Representative, the Program Director, and the Airport's Director of Finance shall make recommendations to the Executive Director to revise such contract to bring costs within the total allowable limit in accordance with Section 10.08.3.

10.08.5 *Funding Plan for the Phase IV Gate Expansion.* City will finance the Phase IV Gate Expansion from any available federal grants, state grants, PFCs, CFCs, Airport funds and the proceeds of Bonds, Subordinated Indebtedness or Other Indebtedness issued by the City, or from any other lawful funding source. The City's current Funding Plan for the Phase IV Gate Expansion is to utilize the proceeds of Bonds. Airline acknowledges that the actual funding sources drawn upon by City to finance the Phase IV Gate Expansion may differ from

the current Funding Plan based upon changing financial market conditions; the availability of federal and state grants; City's ability to use PFCs and CFCs; and other factors.

(a) City will use its best efforts to receive federal and state grants for grant-eligible components of the Phase IV Gate Expansion, to obtain authority to collect and use PFCs and CFCs for eligible components of the Phase IV Gate Expansion and otherwise to reduce the costs of the Phase IV Gate Expansion to be recovered from Signatory Airlines through rates and charges.

(b) City may borrow monies or use other available funds of City to finance the ongoing effort to design and construct the Phase IV Gate Expansion.

(c) City agrees to use its best efforts to authorize and issue Bonds, Subordinated Indebtedness or Other Indebtedness to finance the design and construction of the Phase IV Gate Expansion, to provide for capitalized interest and required reserves for the payment of Bonds, Subordinated Indebtedness or Other Indebtedness to reimburse City for funds expended in connection with the Phase IV Gate Expansion and financing costs thereof, and any preliminary expenses of the Phase IV Gate Expansion from July 1, 2021 to the sale of such Bonds, Subordinated Indebtedness or Other Indebtedness and to pay for the expenses related to the issuance of such Bonds, Subordinated Indebtedness or Other Indebtedness.

(d) If for any reason Bonds, Subordinated Indebtedness or Other Indebtedness cannot be sold to repay borrowed monies, to replace Airport funds, or to otherwise pay for costs of the Phase IV Gate Expansion, such amounts may be included in the Airfield Revenue Requirement or the Terminal Revenue Requirement, as appropriate, and recovered by City over a reasonable time.

(e) Airline acknowledges that it may be necessary to issue additional Bonds, Subordinated Indebtedness or Other Indebtedness to complete the Phase IV Gate Expansion in the event that, notwithstanding City's best efforts to avoid increased Projects costs, the total cost of the Phase IV Gate Expansion exceeds the estimate and such excess is approved in the manner set forth in Sections 10.08.3 and 10.08.4. City agrees to evaluate alternate funding sources before issuing additional Bonds, Subordinated Indebtedness or Other Indebtedness and to report such alternate funding sources to the Airline Technical Representative.

(f) Airline acknowledges that in the event that the grants-in-aid are less than the estimated amounts, it may be necessary for City to impose and use additional PFCs or issue additional General Airport Revenue Bonds to complete the Phase IV Gate Expansion.

10.08.6 *Change Orders.* Any change order or other amendment to any contract entered into by City for the remaining elements of the Phase IV Gate Expansion, which would increase the amount of the contract by the greater of \$250,000 or more than 10% of the original contract, or which would extend the time to complete a contract by more than 25%, shall not be agreed to or approved by City until the proposed change order or other amendment and any supporting documentation has been furnished to Airline Technical Representative so that Airline Technical Representative shall have 10 (ten) business days, whenever practicable without impairing City's rights, to submit recommendations as to how such change order shall be handled, which recommendations shall be considered in good faith by City.

10.08.7 *Notice of Claims.* City shall promptly inform Airline Technical Representative of any and all claims on the Phase IV Gate Expansion by contractors or consultants for

additional time to complete the contract or additional compensation which would increase the amount of the contract by the greater of \$250,000 or more than 10% of the amount of a contract. Copies of all such written claims, and any supporting documentation, shall be provided to Airline Technical Representative within 10 days after receipt of such claim. Airline Representative shall have 10 business days, whenever practicable without impairing City's rights, to submit recommendations as to how such claim should be handled, which recommendations shall be considered in good faith by City. Airline may submit legal analyses and opinions for consideration by City's legal counsel in connection with any such claim.

10.08.8 Airline Relocations, Accommodations and Gate Assignments.

(a) *Reallocations of Space During Construction of the Phase IV Gate Expansion.* Airline acknowledges that during construction of the Phase IV Gate Expansion, in order to facilitate the continued operations of all Passenger Carriers at the Airport and to serve the traveling public, it will be necessary for City, from time to time, to reallocate space under Section 4.05.1 on an interim, transitional basis pending completion of Phase IV Gate Expansion.

(b) *Accommodations.* Airline acknowledges that during construction of the Phase IV Gate Expansion, in order to accommodate the needs of all Passenger Carriers for reasonable access to required Terminal facilities, it is likely that Airline will be required to accommodate other Passenger Carriers at its Exclusive Use and Preferential Use Premises in accordance with and subject to Sections 7.02 and 7.03.

(c) *Gate Assignments Upon Completion of the Phase IV Gate Expansion.* Upon completion of the Phase IV Gate Expansion, City shall assign gates in accordance with Exhibit H-10 and issue a Space Change Summary Notice reflecting the revised gate assignments.

33. Section 12.03.1(a) is deleted in its entirety and replaced with the following:

(a) An Aircraft Liability policy, with coverage of Five Hundred Million Dollars (\$500,000,000) combined single limit for bodily injury and property damage, which shall include but not necessarily be limited to all of the following coverages: Aircraft Liability, including General Liability, Aircraft Products and Completed Operations, Liquor Liability, Premises Liability, Products & Completed Operations, Contractual Liability, Hangarkeepers Liability, Motor Vehicle Liability within the confines of the Airport, Cargo Legal Liability and Fueling and Refueling (if such operations are conducted by Airline).

34. The following new Section 12.03.1(f) is added at the end of Section 12.03.1:

(f) Cyber Risk Insurance (which may be self-insured at Airline's option): Subject to a limit of at least Five Million Dollars (\$5,000,000) per claim to be maintained for the duration of this Agreement and three years following its termination, to respond to privacy and network security liability claims including, but not limited to:

(i) Liability arising from theft, dissemination, and/or use of City confidential information, including, but not limited to, bank, credit card account, and personally identifiable information such as name, address, social security numbers, etc., regardless of how the information is stored or transmitted.

(ii) Network security liability arising from (i) the unauthorized access to, use of, or tampering with computer systems, including hacker attacks; or (ii) the inability

of an authorized third party to gain access to supplier systems and/or City data, including denial of service, unless caused by a mechanical or electrical failure.

(iii) Liability arising from the introduction of a computer virus into, or otherwise causing damage to, a customer's or third person's computer, computer system, network, or similar computer-related property and the data, software, and programs thereon.

(iv) Crisis-management expenses (i.e., notification, public relations, reputation damage, forensics, etc.) for a data breach.

35. The following new Section 12.03.15 is added at the end of Article 12:

12.03.15 All policies of insurance provided shall be issued by the insurance companies qualified to do business in the state of Utah and listed on the United States Treasury Department's current Department of Treasury Fiscal Services List 570 or having a general policyholders rating of not less than "A-" in the most current available A.M. Best Co., Inc.'s, Best Insurance Report.

36. A comma is added after the phrase "perceived gender identity" in Section 17.03.1.

37. The following sections are added at the end of Article 17:

17.05 *General Civil Rights Provisions.* Airline agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from federal assistance. If Airline transfers its obligation to another, the transferee is obligated in the same manner as Airline. This provision obligates Airline for the period during which the property is owned, used or possessed by Airline and the Airport remains obligated to the FAA. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

17.06 *Compliance with Nondiscrimination Requirements.* During the performance of this Agreement and to the extent applicable, Airline, for itself, its assignees, and successors in interest agrees as follows.

17.06.1 *Compliance with Regulations.* Airline will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this Agreement.

17.06.2 *Nondiscrimination.* Airline, with regard to the work performed by it during the Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. Airline will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the agreement covers any activity, project, or program set forth in Appendix B of 49 CFR part 21.

17.06.3 Solicitations for Subcontracts, including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding, or negotiation made by Airline for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by Airline of Airline's obligations under this Agreement and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.

17.06.4 Information and Reports. Airline will provide all reasonably requested information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the City or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of Airline is in the exclusive possession of another who fails or refuses to furnish the information, Airline will so certify to the City or the FAA, as appropriate, and will set forth what efforts it has made to obtain the information.

17.06.5 Sanctions for Noncompliance. In the event of Airline's noncompliance with the nondiscrimination provisions of this Agreement, the City will impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to cancelling, terminating, or suspending the Agreement, in whole or in part.

17.06.6 Incorporation of Provisions. Airline will include the provisions of paragraphs 17.06.1 through 17.06.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. Airline will take action with respect to any subcontract or procurement as the sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if Airline becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, Airline may request the sponsor to enter into any litigation to protect the interests of the sponsor. In addition, Airline may request the United States to enter into the litigation to protect the interests of the United States.

17.07 *Title VI List of Pertinent Nondiscrimination Acts and Authorities.*

During the performance of this Agreement, Airline, for itself, its assignees, and successors in interest agrees to comply with the following nondiscrimination statutes and authorities; including but not limited to:

17.07.1 Title VI of the Civil Rights Act of 1964 (42 USC § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin);

17.07.2 49 CFR part 21 (Non-discrimination in Federally-assisted programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964);

17.07.3 The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 USC § 4601) (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

17.07.4 Section 504 of the Rehabilitation Act of 1973 (29 USC § 794 et seq.), as amended (prohibits discrimination on the basis of disability); and 49 CFR part 27;

17.07.5 The Age Discrimination Act of 1975, as amended (42 USC § 6101 et seq.) (prohibits discrimination on the basis of age);

17.07.6 Airport and Airway Improvement Act of 1982 (49 USC § 471, Section 47123), as amended (prohibits discrimination based on race, creed, color, national origin, or sex);

17.07.7 The Civil Rights Restoration Act of 1987 (PL 100-209) (broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

17.07.8 Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 USC §§ 12131 – 12189) as implemented by U.S. Department of Transportation regulations at 49 CFR parts 37 and 38;

17.07.9 The FAA's Nondiscrimination statute (49 USC § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

17.07.10 Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures nondiscrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;

17.07.11 Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, Airline must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);

17.07.12 Title IX of the Education Amendments of 1972, as amended, which prohibits Airline from discriminating because of sex in education programs or activities (20 USC 1681 et seq.).

17.08 *Right to Develop the Airport.* Notwithstanding anything set forth herein to the contrary, to the extent required: (a) under the Master Trust Indenture; (b) under any Subordinated Financing Agreement; or (c) by the FAA, the DOT, the TSA or a similar governmental authority, other than City, having jurisdiction over the Airport, City reserves the right to further develop or improve the landing area of the Airport as required, regardless of the desires or views of Airline and without interference or hindrance.

17.09 *Subordination to Agreements with the United States.* This Agreement shall be subordinate to the provisions and requirements of any existing or future agreement between City and the United States relative to the development, operation or maintenance of the Airport.

17.10 *Part 77.* Airline agrees to comply with the notification and review requirements covered in Part 77 of the Federal Aviation Regulations in the event any future structure or building is planned for the Airport premises or in the event of any planned modification or alteration of any present or future building or structure situated on the permitted premises.

17.11 *Aircraft Interference and Hazards.* Airline, by accepting this Agreement, agrees for itself and its successors and assigns that it will not make use of the Airport premises in any manner which might interfere with the landing and taking off of aircraft from the Airport or otherwise constitute a hazard. In the event the aforesaid covenant is breached, City reserves the right to enter upon the Airport premises and cause the abatement of such interference at the expense of Airline.

17.12 *Navigable Airspace.* Airline, by accepting this Agreement, expressly agrees for itself and its successors and assigns that it will not erect nor permit the erection of any structure or object, nor permit the growth of any tree on the Airport premises, above the main sea level elevation that would exceed FAR Part 77 standards or elevations affecting the Airport navigable airspace. In the event the aforesaid covenants are breached, City reserves the right to enter upon the permitted premises and to remove the offending structure or object and cut the offending tree, all of which shall be at the expense of Airline.

17.13 *FAA Modifications for Grants of Funds.* In the event that the FAA requires, as a condition precedent to granting of funds for the improvement of the Airport, modifications or changes to this Agreement, City shall give notice of any such requirement to Airline and Airline agrees to consent to such amendments, modifications, revisions, supplements or deletions of any of the terms, conditions, or requirements of this Agreement as may be reasonably required to enable City to obtain said FAA funds.

17.14 *PFC Act and Assurances.*

17.14.1 Notwithstanding anything to the contrary in this Agreement, no provision of this Agreement shall impair the authority of City to impose a Passenger Facility Charge or to use the Passenger Facility Charge revenue as provided in the Aviation Safety and Capacity Expansion Act of 1990, 49 U.S.C. § 40117 (the "PFC Act").

17.14.2 Airline acknowledges that City has given to the United States of America, acting by and through the FAA, certain assurances set forth in the PFC Act and implementing regulations at 14 C.F.R. Part 158 ("PFC Assurances"), and Airline agrees that this Agreement shall be subordinate and subject to the PFC Assurances.

17.14.3 In the event that the FAA or its successors require any modifications or changes in this Agreement as a condition precedent to the collection of PFCs or otherwise complying with the PFC Act, Airline shall not withhold its consent to such amendments, modifications, revisions, supplements or deletions of any of the terms, conditions or requirements of this Agreement as may reasonably be required to collect PFCs or comply with

the PFC Act. City agrees to provide Airline with advance written notice of any provisions that would adversely modify material terms of this Agreement.

38. **Section 18.01.3 is deleted in its entirety and replaced with the following:**

18.01.3 With respect to property leased by City to Airline hereunder which was or is to be financed or acquired by City with proceeds of Bonds, Subordinated Indebtedness or Other Indebtedness, the interest on which is, or is intended to be, excludable from the gross income of the holders of such Bonds, Subordinated Indebtedness or Other Indebtedness for federal income tax purposes, the parties hereby covenant not to take or fail to take any action that would impair the tax-exempt status of such Bonds, Subordinated Indebtedness or Other Indebtedness. In particular, Airline makes an irrevocable election not to claim depreciation or an investment credit with respect to any property leased to Airline hereunder that was financed or acquired with the proceeds of tax-exempt Bonds, Subordinated Indebtedness or Other Indebtedness.

39. **Section 18.10 is deleted in its entirety and replaced with the following:**

18.10. Airline shall convert its GSE to EGSE no later than June 30, 2023; however, GSE required for Airline's use in non-ventilated areas of the Terminal shall only be EGSE as was required upon DBO of the new Terminal Facilities.

40. **Section 18.29 is deleted in its entirety and replaced with the following:**

18.29 [RESERVED]

41. **Section 18.30 is deleted in its entirety and replaced with the following:**

18.30 [RESERVED]

42. **Exhibit A is deleted in its entirety and replaced with the attached new Exhibit A.**

43. **Exhibit B is deleted in its entirety and replaced with the attached new Exhibit B.**

44. **Exhibit E is deleted in its entirety and replaced with the attached new Exhibit E.**

45. **Exhibit G is deleted in its entirety and replaced with the attached new Exhibit G.**

46. **Exhibit H is deleted in its entirety and replaced with the attached new Exhibit H.**

47. **Exhibit I is deleted in its entirety and replaced with the attached new Exhibit I.**

48. **New Exhibits A, B, E, G, H and I attached hereto are incorporated herein.**

49. **Representation Regarding Ethical Standards for City Officers and Employees and Former City Officers and Employees.** The Airline represents that it has not: (1) provided an illegal gift or payoff to a city officer or employee or former city officer or employee, or his or her relative or business entity; (2) retained any person to solicit or secure this contract upon an agreement or understanding for a commission, percentage, or brokerage or contingent fee, other than bona fide employees or bona fide commercial selling agencies for the purpose of securing business; (3) knowingly breached any of the ethical standards set forth in City's conflict of interest ordinance, Chapter 2.44, Salt Lake City Code; or (4) knowingly

APPENDIX E

FORM OF CONTINUING DISCLOSURE AGREEMENT

CONTINUING DISCLOSURE AGREEMENT

For the Purpose of Providing
Continuing Disclosure Information
Under Section (b)(5) of Rule 15c2-12

This Continuing Disclosure Agreement, dated August 5, 2025 (this “Agreement”) is executed and delivered by Salt Lake City, Utah (the “City”) in connection with the issuance of its \$553,870,000 Airport Revenue Bonds, Series 2025A (AMT) (the “Series 2025A Bonds”), and its \$50,640,000 Airport Revenue Bonds, Series 2025B (Non-AMT) (the “Series 2025B Bonds” and, collectively with the Series 2025A Bonds, the “Bonds”).

In consideration of the issuance of the Bonds by the City and the purchase of such Bonds by the beneficial owners thereof, the City covenants and agrees as follows:

SECTION 1. PURPOSE OF THIS AGREEMENT. This Agreement is being executed and delivered by the City for the benefit of the Bondholders and the Beneficial Owners (hereinafter defined) and in order to assist the Participating Underwriters (hereinafter defined) in complying with subsection (b)(5) of the Rule (hereinafter defined).

SECTION 2. DEFINITIONS. In addition to the definitions set forth in the Master Indenture (hereinafter defined), which apply to any capitalized term used in this Agreement unless otherwise defined herein, the following capitalized terms shall have the following meanings.

“Annual Report” shall mean any financial statements of the Department provided by the City pursuant to, and as described in, Sections 3 and 4 hereof.

“Beneficial Owner” shall mean any person which has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Bonds (including any person holding Bonds through nominees, depositories or other intermediaries).

“Department” shall mean the City’s Department of Airports.

“EMMA” shall mean the MSRB’s Electronic Municipal Market Access System, or such other system, Internet Web site, or repository hereafter prescribed by the MSRB for the submission of electronic filings pursuant to the Rule.

“GAAP” shall mean generally accepted accounting principles, as such principles are prescribed, in part, by the Financial Accounting Standards Board and modified by the Governmental Accounting Standards Board and in effect from time to time.

“Listed Events” shall mean any of the events listed in Section 5(a) hereof.

“MSRB” shall mean the Municipal Securities Rulemaking Board.

“Master Indenture” shall mean the Master Indenture as such term is defined in the Official Statement.

“1934 Act” shall mean the Securities Exchange Act of 1934, as amended.

“Obligated Person” shall mean the City (acting through the Department) and each airline or other entity using the Airport under a lease or use agreement extending for more than one year from the date in question and including bond debt service as part of the calculation of rates and charges, under which lease or use agreement such airline or other entity has paid amounts equal to at least twenty percent (20%) of the Revenues of the Department for each of the prior two (2) fiscal years of the Department.

“Official Statement” shall mean the final Official Statement for the Bonds dated July 17, 2025.

“Participating Underwriters” shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with the primary offering of the Bonds.

“Rule” shall mean Rule 15c2-12 promulgated by the SEC pursuant to the 1934 Act, as the same may be amended from time to time, together with all interpretive guidance or other official interpretations or explanations thereof that are promulgated by the SEC.

“SEC” shall mean the Securities and Exchange Commission.

“SEC Reports” shall mean report and other information required to be filed pursuant to Sections 13(a), 14 or 15(d) of the 1934 Act.

“Securities Counsel” shall mean legal counsel expert in federal securities law, and may include, but is not limited to Bond Counsel or Disclosure Counsel with respect to the Bonds.

“State” shall mean the State of Utah.

SECTION 3. PROVISIONS OF ANNUAL REPORTS.

(a) Each year, the City shall provide by January 2, commencing with January 2, 2026 for the Annual Report for the Department’s fiscal year ended June 30, 2025, to the MSRB through EMMA an Annual Report for the preceding fiscal year which is consistent with the requirements of Section 4 hereof. In each case, the Annual Report may be submitted as a single document or as separate documents comprising a package, and may include by specific reference other information as provided in Section 4 hereof; provided, however, that if the audited financial statements of the Department are not available by the deadline for filing the Annual Report, they shall be provided when and if available, and unaudited financial statements in a format similar to the audited financial statements then most recently prepared for the Department shall be included in the Annual Report.

(b) If the City is unable to provide to the MSRB, through EMMA, in an electronic format as prescribed by the MSRB, an Annual Report by the date required in subsection (a), the City shall send a notice, in a timely manner, to the MSRB, through EMMA, in substantially the form attached as Exhibit A.

(c) If the City’s fiscal year changes, the City shall send written notice of such change to the MSRB through EMMA, in an electronic format as prescribed by the MSRB, in substantially the form attached as Exhibit B.

(d) Whenever any Annual Report or portion thereof is filed as described above, it shall be attached to a cover sheet in substantially the form attached as Exhibit C, or such other form as may be prescribed by the SEC from time to time.

SECTION 4. CONTENT OF ANNUAL REPORTS. The Annual Report shall contain or include by reference the following:

(a) The audited financial statements of the Department for its fiscal year immediately preceding the due date of the Annual Report, of substantially the same nature as that included in the Official Statement as Appendix A;

(b) Operating information for the fiscal year immediately preceding the due date of the Annual Report otherwise presented in the Official Statement as follows:

- (1) in the table entitled “Salt Lake City International Airport O&D and Connecting Enplaned Passengers;”
- (2) in the table entitled “Passenger and Cargo Airlines Operating at Salt Lake City International Airport;”
- (3) in the table entitled “Salt Lake City International Airport Airline Market Share of Enplaned Passengers;”
- (4) in the table entitled “Salt Lake City International Airport Historical Aircraft Operations;”
- (5) in the table entitled “Salt Lake City International Airport Historical Landed Weights;”
- (6) in the table entitled “Salt Lake City International Airport Historical Air Cargo and Mail;”
- (7) in the table entitled “Salt Lake City Department of Airports Total Annual Revenues and Expenses;”
- (8) in the table entitled “Salt Lake City Department of Airports Summary Of Operating Revenues;”
- (9) in the table entitled “Salt Lake City Department of Airports Sources of Airline Revenues;” and
- (10) in the table entitled “Salt Lake City Department of Airports Summary of Operating Expenses.”

If any information described in this paragraph (a) is published or provided by a third party and is no longer publicly available, the City shall include a statement to that effect as part of the Annual Report for the year in which such lack of availability arises; and

An annual debt service coverage calculation table for the prior Fiscal Year in accordance with Section 5.04(b) of the Master Indenture, substantially in the following format:

Annual Debt Service Coverage (FY _____)

Revenues	\$ _____
Less: Operating and Maintenance Expenses of the Airport System	\$ _____
Net Revenues	\$ _____
Plus Transfer	\$ _____
Total Available for Debt Service:	\$ _____
 Annual Debt Service on Outstanding Bonds*	 \$ _____
 Annual Debt Service Coverage	 _____x

* In accordance with Section 5.04 of the Master Indenture, Annual Debt Service on Outstanding Bonds for this purpose shall not include principal and/or interest paid with Other Moneys Available for Debt Service or Passenger Facility Charges.

The Department's financial statements shall be audited and prepared in accordance with GAAP; provided, however, that the City may from time to time, in accordance with GAAP and subject to applicable federal or State legal requirements, modify the basis upon which its financial statements are prepared. Notice of any such modification shall be provided to the MSRB, through EMMA, in an electronic format as prescribed by the MSRB.

Any or all of the items listed above may be included by specific reference to other documents that previously have been provided to the MSRB, through EMMA. The City shall clearly identify each such other document so included by reference.

SECTION 5. REPORTING OF LISTED EVENTS.

(a) The City covenants to provide or cause to be provided to the MSRB through EMMA, in an electronic format as prescribed by the MSRB, in a timely manner not in excess of ten (10) business days after the occurrence of the event, notice of the occurrence of any of the following events listed in Section (b)(5)(i)(C) of the Rule with respect to the Bonds:

- (1) principal and interest payment delinquencies;
- (2) non-payment related defaults, if material;
- (3) unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) unscheduled draws on credit enhancements reflecting financial difficulties;
- (5) substitution of credit or liquidity providers, or their failure to perform;
- (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;
- (7) modifications to rights of holders of the Bonds, if material;

- (8) bond calls, if material, and tender offers;
- (9) defeasances;
- (10) release, substitution, or sale of property securing repayment of the Bonds, if material;
- (11) rating changes;
- (12) bankruptcy, insolvency, receivership or similar event of the City, which is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the City or the Department in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Department or the City, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Department or the City;
- (13) the consummation of a merger, consolidation, or acquisition involving the Department or the City or the sale of all or substantially all of the assets of the Department or the City, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- (14) appointment of a successor or additional trustee or the change of name of a trustee, if material;
- (15) incurrence of a financial obligation of the Department, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the Department, any of which affect Bondholders, if material; or
- (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the Department, any of which reflect financial difficulties.

(b) The City covenants that its determination of materiality will be made in conformance with federal securities laws.

(c) Upon the occurrence of a Listed Event, the City shall promptly cause a notice of such occurrence to be filed with the MSRB, through EMMA, in an electronic format as prescribed by the MSRB, together with a cover sheet in substantially the form attached as Exhibit C. In connection with providing a notice of the occurrence of a Listed Event described in subsection (a)(9), the City shall include in the notice explicit disclosure as to whether the Bonds have been escrowed to maturity or escrowed to call, as well as appropriate disclosure of the timing of maturity or call.

(d) The City acknowledges that the “rating changes” referred to above in Section (5)(a)(11) hereof may include, without limitation, any change in any rating on the Bonds, including changes in the ratings of bond insurers or banks that may be providing credit enhancement on a portion of the Bonds.

(e) The City acknowledges that it is not required to provide a notice of a Listed Event with respect to credit enhancement when the credit enhancement is added after the primary offering of the Bonds, the City does not apply for or participate in obtaining such credit enhancement, and such credit enhancement is not described in the Official Statement.

SECTION 6. TERMINATION OF REPORTING OBLIGATION.

(a) The City’s obligations under this Agreement shall terminate upon the legal defeasance of the Bonds under the Master Indenture or the prior redemption or payment in full of all of the Bonds. If the City’s obligation to pay the principal of and interest on the Bonds is assumed in full by some other entity, such entity shall be responsible for compliance with this Agreement in the same manner as if it were the City, and the City shall have no further responsibility hereunder.

(b) This Agreement, or any provision hereof, shall be null and void in the event that the City (i) receives an opinion of Securities Counsel, addressed to the City, to the effect that those portions of the Rule, which require such provisions of this Agreement, do not or no longer apply to the Bonds, whether because such portions of the Rule are invalid, have been repealed, amended or modified, or are otherwise deemed to be inapplicable to the Bonds, as shall be specified in such opinion, and (ii) delivers notice to such effect to the MSRB, through EMMA, in an electronic format as prescribed by the MSRB.

SECTION 7. AMENDMENT; WAIVER.

(a) Notwithstanding any other provision of this Agreement, this Agreement may be amended, and any provision of this Agreement may be waived, provided that the following conditions are satisfied:

(1) if the amendment or waiver relates to the provisions of Section 3(a), (b), (c), 4 or 5(a) hereof, it may only be made in connection with a change in circumstances that arises from a change in legal requirements, a change in law or a change in the identity, nature or status of the City or the Department or type of business conducted by the City or the Department;

(2) this Agreement, as so amended or taking into account such waiver, would, in the opinion of Securities Counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(3) the amendment or waiver either (A) is approved by the Bondholders in the same manner as provided in the Master Indenture for amendments to the Master Indenture with the consent of the Bondholders, or (B) does not, in the opinion of Securities Counsel, materially impair the interests of the Bondholders.

(b) In the event of any amendment to, or waiver of a provision of, this Agreement, the City shall describe such amendment or waiver in the next Annual Report and shall include an explanation of the reason for such amendment or waiver. In particular, if the amendment results in a change to the annual financial information required to be included in the Annual Report pursuant to Section 4 hereof, the first Annual Report that contains the amended operating data or financial information shall explain, in narrative form, the reasons for the amendment and the impact of such change in the type of operating data or financial information being provided. Further, if the annual financial information required to be provided in the

Annual Report can no longer be generated because the operations to which it related have been materially changed or discontinued, a statement to that effect shall be included in the first Annual Report that does not include such information.

(c) If the amendment results in a change to the accounting principles to be followed in preparing financial statements as set forth in Section 4 hereof, the Annual Report for the year in which the change is made shall include a comparison between the financial statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles. The comparison shall include a qualitative discussion of such differences and the impact of the changes on the presentation of the financial information. To the extent reasonably feasible, the comparison shall also be quantitative. A notice of the change in accounting principles shall be sent by the City to the MSRB, through EMMA, in an electronic format as prescribed by the MSRB.

SECTION 8. ADDITIONAL INFORMATION. Nothing in this Agreement shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this Agreement or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Agreement. If the City chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Agreement, the City shall have no obligation under this Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

SECTION 9. FAILURE TO COMPLY. In the event of a failure of the City to comply with any provision of this Agreement, any Bondholder or Beneficial Owner may bring an action to obtain specific performance of the obligations of the City under this Agreement, but no person or entity shall be entitled to recover monetary damages hereunder under any circumstances, and any failure to comply with the obligations under this Agreement shall not constitute a default with respect to the Bonds or under the Master Indenture.

SECTION 10. BENEFICIARIES. This Agreement shall inure solely to the benefit of the City, the Participating Underwriters, the Bondholders and the Beneficial Owners, and shall create no rights in any other person or entity.

SECTION 11. TRANSMISSION OF INFORMATION AND NOTICES; DISSEMINATION AGENT. Unless otherwise required by law or this Agreement, and, in the sole determination of the City, subject to technical and economic feasibility, the City shall employ such methods of information and notice transmission as shall be requested or recommended by the herein-designated recipients of such information and notices. Any filing with the MSRB under this Agreement may be made by transmitting such filing to a dissemination agent.

SECTION 12. OTHER OBLIGATED PERSONS. Currently, Delta Air Lines, Inc. ("Delta") is the only Obligated Person other than the City, and Delta is required by the 1934 Act to file annual financial information in the form of its SEC Reports with the SEC as described in the Official Statement. The City assumes no responsibility for the accuracy or completeness of the SEC Reports or other annual financial information disseminated by Delta or any future Obligated Person. The City shall report as part of its Annual Report any change in Obligated Persons and that an Obligated Person's SEC Reports constitute its annual financial information under this Agreement, if such is the case. Unless no longer required by the Rule, the City shall use diligent efforts to cause each Obligated Person other than the City (to the extent that such party is not required to file SEC Reports) to disseminate annual financial information substantially equivalent to that contained in SEC Reports to the MSRB, through EMMA, in an electronic format as

prescribed by the MSRB, not later than nine months after the last day of the Obligated Person's fiscal year. The City has no obligation to file or disseminate any SEC Reports relating to another Obligated Person.

APPENDIX F

FORM OF OPINION OF BOND COUNSEL

[Closing Date]

Salt Lake City
Salt Lake City, Utah

\$553,870,000
Salt Lake City, Utah
Airport Revenue Bonds
Series 2025A
(AMT)

\$50,640,000
Salt Lake City, Utah
Airport Revenue Bonds
Series 2025B
(Non-AMT)

Ladies and Gentlemen:

We have acted as Bond Counsel to Salt Lake City, Utah (the “City”) in connection with the issuance by the City of its (i) \$553,870,000 Salt Lake City, Utah Airport Revenue Bonds, Series 2025A (AMT) (the “Series 2025A Bonds”), and (ii) \$50,640,000 Salt Lake City, Utah Airport Revenue Bonds, Series 2025B (Non-AMT) (the “Series 2025B Bonds,” and together with the Series 2025 Bonds, the “Series 2025 Bonds”). The Series 2025 Bonds are being issued pursuant to the Local Government Bonding Act, Title 11, Chapter 14, Utah Code Annotated 1953, as amended (the “Act”), the Master Trust Indenture, dated as of February 1, 2017 (the “Master Indenture”), by and between the City and Wilmington Trust, National Association, as trustee (the “Trustee”), and a Fifth Supplemental Trust Indenture, dated as of August 1, 2025 (the “Fifth Supplemental Indenture,” and together with the Master Indenture, the “Indenture”), by and between the City and the Trustee. Issuance of the Series 2025 Bonds has been authorized by Resolution No. 14 of 2025, adopted by the City Council of the City on June 3, 2025 (the “Resolution”). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture..

In connection with the issuance of the Series 2025 Bonds, we have examined: (a) a copy of the Act; (b) a certified copy of the Resolution; (c) executed copies of the Master Indenture and the Fifth Supplemental Indenture; (d) certifications of the City, the Trustee, J.P. Morgan Securities LLC, as representative of the underwriters of the Series 2025 Bonds (the “Underwriters”), and others; (e) an executed copy of the Tax Compliance Certificate, dated the date hereof, relating to the Series 2025 Bonds and other matters (the “Tax Certificate”); (f) opinions of the City Attorney, counsel to the Trustee and counsel to the Underwriters; and (g) such other documents as we deemed relevant and necessary in rendering the opinions set forth herein. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by any parties, other than the City, thereto, and the validity against any parties, other than the City, thereto. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in this paragraph.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or

whether any other matters come to our attention after the date hereof. We call attention to the fact that the obligations of the City, the security provided therefor, as contained in the Series 2025 Bonds and the Indenture, may be subject to general principles of equity which permit the exercise of judicial discretion, and are subject to the provisions of applicable bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium or similar laws relating to or affecting the enforcement of creditors' rights generally, now or hereafter in effect, and to the limitations on legal remedies against cities in the State of Utah. We express no opinion with respect to any indemnification, contribution, penalty, choice of law, choice of forum, choice of venue, waiver or severability provisions contained in the Series 2025 Bonds or the Indenture. We have not undertaken any responsibility for the accuracy, completeness or fairness of the Official Statement dated July 17, 2025 relating to the Series 2025 Bonds, or any other offering material relating to the Series 2025 Bonds and express no opinion relating thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The issuance of the Series 2025 Bonds has been duly authorized and all legal conditions precedent to the delivery of the Series 2025 Bonds have been fulfilled.

2. The Series 2025 Bonds constitute the valid and binding limited obligations of the City secured by a pledge of and lien upon and are a charge upon and are payable from the Net Revenues, certain funds and accounts held by the Trustee under the Indenture, and other amounts payable under the Indenture.

3. The Master Indenture and the Fifth Supplemental Indenture have been duly authorized, executed and delivered by the City and, assuming the due authorization, execution and delivery by the Trustee, constitute the valid and binding obligations of the City, enforceable against the City in accordance with their terms. The Indenture creates a valid pledge, to secure the payment of the principal of and interest on the Series 2025 Bonds, of the Net Revenues, certain funds and accounts held by the Trustee under the Indenture, and other amounts payable under the Indenture, subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein.

4. The Series 2025 Bonds are not general obligations of the City. None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Series 2025 Bonds, and neither the full faith and credit nor the taxing power of the City, the State of Utah or any political subdivision or agency of the State of Utah is pledged to the payment of the principal of or interest on the Series 2025 Bonds.

5. Under existing laws, regulations, rulings and judicial decisions, interest on the Series 2025A Bonds is excluded from gross income for federal income tax purposes, except that such exclusion does not apply with respect to interest on any Series 2025A Bond for any period during which such Series 2025A Bond is held by a person who is a "substantial user" of the facilities financed or refinanced by the Series 2025A Bonds or a "related person" to such substantial user within the meaning of Section 147(a) of the Internal Revenue Code of 1986, as amended (the "Code"). Interest on the Series 2025A Bonds is a specific preference item for purposes of the federal alternative minimum tax imposed on individuals. Interest on the Series 2025A Bonds may affect the federal alternative minimum tax imposed on certain corporations.

6. Under existing laws, regulations, rulings and judicial decisions, interest on the Series 2025B Bonds is excluded from gross income for federal income tax purposes. Interest on the Series 2025B Bonds is not a specific preference item for purposes of the federal alternative

minimum tax imposed on individuals. Interest on the Series 2025B Bonds may affect the federal alternative minimum tax imposed on certain corporations.

7. Under existing laws of the State of Utah, as presently enacted and construed, interest on the Series 2025 Bonds is exempt from State of Utah individual income taxes.

The opinions set forth in numbered paragraphs 5 and 6 above regarding the exclusion of interest from gross income of the recipient is subject to continuing compliance by the City with covenants regarding federal tax law contained in the Indenture and the Tax Certificate. Failure to comply with such covenants could cause interest on the Series 2025 Bonds to be included in gross income retroactive to the date of issue of the Series 2025 Bonds. Although we are of the opinion that interest on the Series 2025 Bonds is excluded from gross income for federal tax purposes, the accrual or receipt of interest on the Series 2025 Bonds may otherwise affect the federal income tax liability of the recipient. The extent of these other tax consequences will depend upon the recipient's particular tax status or other items of income or deduction. We express no opinion regarding any such consequences.

Our engagement with respect to the Series 2025 Bonds has concluded with their issuance, and we disclaim any obligation to update, revise or supplement this opinion letter.

Very truly yours,

[PAGE INTENTIONALLY LEFT BLANK]

APPENDIX G

BOOK-ENTRY-ONLY SYSTEM

Introduction

Unless otherwise noted, the information contained under the caption “—General” below has been provided by DTC. The City makes no representations as to the accuracy or the completeness of such information. The Beneficial Owners of the Series 2025 Bonds should confirm the following information with DTC, the Direct Participants or the Indirect Participants.

NEITHER THE CITY NOR THE TRUSTEE WILL HAVE ANY RESPONSIBILITY OR OBLIGATION TO DIRECT PARTICIPANTS, TO INDIRECT PARTICIPANTS, OR TO ANY BENEFICIAL OWNER WITH RESPECT TO (A) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC, ANY DIRECT PARTICIPANT, OR ANY INDIRECT PARTICIPANT; (B) ANY NOTICE THAT IS PERMITTED OR REQUIRED TO BE GIVEN TO THE OWNERS OF THE SERIES 2025 BONDS UNDER THE INDENTURE, (C) THE SELECTION BY DTC OR ANY DIRECT PARTICIPANT OR INDIRECT PARTICIPANT OF ANY PERSON TO RECEIVE PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE SERIES 2025 BONDS; (D) THE PAYMENT BY DTC OR ANY DIRECT PARTICIPANT OR INDIRECT PARTICIPANT OF ANY AMOUNT WITH RESPECT TO THE PRINCIPAL OR INTEREST DUE TO THE OWNERS OF THE SERIES 2025 BONDS; (E) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS THE OWNERS OF SERIES 2025 BONDS; OR (F) ANY OTHER MATTER REGARDING DTC.

General

DTC will act as securities depository for the Series 2025 Bonds. The Series 2025 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Series 2025 Bond certificate will be issued for each maturity of the Series 2025 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“**Direct Participants**”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“**DTCC**”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“**Indirect Participants**”). DTC has a Standard & Poor’s rating of

AA+. The DTC Rules applicable to Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Series 2025 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2025 Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2025 Bond ("**Beneficial Owner**") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2025 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2025 Bonds, except in the event that use of the book-entry system for the Series 2025 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2025 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2025 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2025 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2025 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2025 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2025 Bonds, such as redemptions, tenders, defaults and proposed amendments to the Series 2025 Bond documents. For example, Beneficial Owners of Series 2025 Bonds may wish to ascertain that the nominee holding the Series 2025 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them.

While the Series 2025 Bonds are in the book-entry-only system, redemption notices will be sent to DTC. If less than all of the Series 2025 Bonds of a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2025 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2025 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the Series 2025 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the City or the Trustee on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and

customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC, the Trustee or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the City or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2025 Bonds at any time by giving reasonable notice to the City or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, certificates representing the Series 2025 Bonds are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates representing the Series 2025 Bonds will be printed and delivered to DTC.

The information in this Appendix G concerning DTC and DTC’s book-entry system has been obtained from sources that the City believes to be reliable, but neither the City nor the Underwriters take any responsibility for the accuracy thereof.

BENEFICIAL OWNERS WILL NOT RECEIVE PHYSICAL DELIVERY OF SERIES 2025 BONDS AND WILL NOT BE RECOGNIZED BY THE TRUSTEE AS OWNERS THEREOF, AND BENEFICIAL OWNERS WILL BE PERMITTED TO EXERCISE THE RIGHTS OF OWNERS ONLY INDIRECTLY THROUGH DTC AND THE DTC PARTICIPANTS.
